Subject: 12:30

Kara,

Our and FEMAs' personnel have been asked not to drive today due to the impending weather. Is there a conference call line that could be utilized for the 12:30 call?

Jay from Planning and Wendy from Logistics would like to attend but would have to by call in.

Thanks! (I'll be out after 10:30; if you have info after that you could contact Jay or Wendy directly).

Subject: Meeting with Food Bank Wednesday

Hi Tom and Jay,

Can you please send a contact phone number for Kara? Wendy would like to call in for that meeting instead of driving to Flint in the weather. Capt. does not like the idea of her driving in the weather for that.

Thanks,
Kristi

Captain,

We received a question tonight from Genesee County EM that he learned that the DEQ teams out in the field included a DEQ member, possibly DHHS, a plumber and a "paid volunteer". Chris was asking what that meant as volunteers shouldn't be paid.

I asked DEQ who wasn't aware, but did some research. What he learned is as follows:

"Bryce Feignher with DEQ, informed us that they are in fact being paid. This has been arranged through Harvey Hollins with the Governor's office. I believe the money comes in the form of a grant from MSHDA to a non-profit called Orchard, Michael Williams is the president. We had to provide some training and certificates of training completion were also provided"

Did we know that some local hires had already occurred?

Subject: DRAFT Long-Term Distribution Plan
Attachments: Long term Plan Timeline.docx, Long Term Plan Attachments.docx, 9 PODs Concept docx

Capt,

Attached is where we are as of 4:30 p.m. today.

I received a call today from the GST MI Works office reference the jobs program and hiring the staff next week to shadow the NG. I provided information based on discussions with NG staff in the SEOC. They are working to make this happen, but it may not be Wednesday. I will be attending the meeting in Flint on Monday regarding the jobs program and I hope to be able to have a better date on this. We may need to bring in another agency (Civil Service?) to assist with *job descriptions, qualifications, and pay ranges.*

We started on a timeline this afternoon, but it's still missing items. I have attached the draft. We will expand on this over the weekend/early next week.

DTMB is assisting with research for timelines and costs to implement a tracking mechanism for the commodities, as well as a direct delivery model for filters/cartridges.

MDOC has provided the staffing and equipment requirements for the two warehouses, and we're currently working them into the plan.

Lt. Roach is planning to work on site selection early next week. GIS is currently developing a rough list for her. FEMA GIS provided a map layer that GIS is working from.

FEMA provided a list of IS training courses that will be worked into the plan.

Let us know if you have any questions or concerns with anything.

Thanks,
Bri/Jay

Subject: Potential POD Location Map w/Vacant Parcels

Alicia,

Per your request, attached is a map of vacant parcels in Flint that have POD potential. Criteria I used: Vacant, >=45,000 sq. ft. (# provided by Kendal), and within 500 ft. of a bus route.

I think this can be used as a starting point, but does not necessarily mean that each one of these locations is suitable for a POD. I attached a spreadsheet within additional info on these parcels.

Would it be useful to overlay this with the following information?

- Population Density
- Poverty Status (by block group)
- Median Household Income (by block group)
- Households w/out Vehicles (by block group)

Subject: Portfolio of FEMA Independent Study Trainings

Brianna and Tom,

Below is a list of trainings that are available to the public that might be good for a larger training portfolio for the local hires. Some of them included are more relevant to a Detroit Crew (Intro to IA and PA), but I figured you'd want more rather than less. One thing to note is that each student will need to register for a Student ID number... it's simple and free. I'm copying Kendal in case he has any more to add, besides IS 26 and IS 27.

1. IS-100.B Introduction to Incident Command System (ICS-100)
2. IS-700.A National Incident Management System (NIMS): An Introduction
3. IS-230.D Fundamentals of Emergency Management
4. IS 26 Guide to Points of Distribution
5. IS-27 Introduction to FEMA Logistics
6. IS-632.A Introduction to Debris Operations
7. IS-393.A Introduction to Hazard Mitigation
8. IS-403 Introduction to Individual Assistance
9. IS-643 Introduction to FEMA's Public Assistance Program
10. IS-241.B Decision Making and Problem Solving
11. IS-242.B Effective Communication
12. IS-552 The Public Works Role in Emergency Management
13. IS-558 Public Works and Disaster Recovery

Thanks,
Jeannie

Good afternoon,

Attached is the SEOC staffing schedule for next week, February 22-28.

Again, if you cannot work a shift you have been assigned, it is your responsibility to work with your team and the Logistics Section Chief in advance to determine a replacement.

NOTE: I am sending this to the entire division recognizing that a few of you will not be reflected on this list. Please find your usual position to determine if you are scheduled for next week.

Thank you,
Wendy

Subject: Concept
Attachments: NDWG Proposed Narrative.docx

Attached is the concept paper. (please do not share as it is not real at this point, but fell free to make comments/suggestions and send back)) Monday's meeting will be to get the two agencies (GST and SEEDS to agree) on the concept, then I can submit to USDOL (by the end of next week). There will be plenty of discussion on how we make this work. Please note I have entered 400 as a jobs number. I anticipate there will be plenty of turnover due to the nature of the participant.

I have not heard back from GST today regarding ability to place into the jobs by mid-week. I do not see this happening by next week. My strategic mind is swirling with a plan B where SEEDS can staff those positions with their staff who will become a more permanent fixture for supervision of all participants. Concerns for this include immediate funds available (as these are not WIOA participants, but rather an administrative entity) and SEEDS internal structure. And *again, not definitive answer, sorry.*

As we continue to move forward (and at the pace of bureaucracy), GST is working out their internal process for outreach to eligible participants so they are ready to funnel them to SEEDS to start work.

Subject: RE: Flint Local Hire - Start Next Wednesday?

Maggie,

For this first portion, if the difficulty is matching them to a specific Ward, this may wouldn't necessarily have to apply as they will be shadowing National Guard in the fire stations. I was just putting out the long-term staffing idea. We can discuss further on Monday, if you want.

Just a quick question – can you provide some info on the hours for local hires? It is my understanding they could work 35 hours per week, and would be required to complete 5 hours of "training" each week. I just want to verify, as this might result in the need to hire additional staff to ensure they stay within their hour limits.

Thanks,
Bri

Importance: High

Maggie,

Per our conversation, below is the description for what we expect of a Support Team Leader at the PODs. **We'd like to get 9 staffed in the current PODs by next Wednesday to shadow the National Guard.** If you are able to confirm this is possible, please let me know as I will need to update our command at the SEOC. When filling these jobs, we're looking to hire locally in the affected area of Flint and try to keep them located in the Flint Ward in which they live, if at all possible.

> Support Team Leader: supervises all support operations including: ensuring equipment used onsite has been inspected, maintained, and used in a safe manner, coordinating supply truck movement onsite, conducting resupply operations including downloading commodities and resupplying the loading line, maintaining accountability of all commodities received, on hand, and distributed from the site, maintaining all paperwork relating to resource accountability and providing daily resource reports

I'm going to review the full list of jobs and descriptions and will provide soon.

If you can provide the details for the Monday meeting, I will plan to attend. We just want to ensure we're meeting the mission for water distribution.

Let me know if you have any questions on this. My cell phone is the best way to reach me, 517-230-2949.

Subject: RE: Flint Local Hire - Start Next Wednesday?

Good Morning,

I am working with the GST WORKS on this. I will know more later today, but am not feeling too confident on locating quality participants fill such a position. This may be another week out.

Brianne, our meeting Monday will be at the GST administrative office located at 711 N. Saginaw St., Flint 48503. 10am.

Subject: Flint Local Hire - Start Next Wednesday?
Importance: High

Maggie,

Per our conversation, below is the description for what we expect of a Support Team Leader at the PODs. **We'd like to get 9 staffed in the current PODs by next Wednesday to shadow the National Guard.** If you are able to confirm this is possible, please let me know as I will need to update our command at the SEOC. When filling these jobs, we're looking to hire locally in the affected area of Flint and try to keep them located in the Flint Ward in which they live, if at all possible.

Support Team Leader: supervises all support operations including: ensuring equipment used onsite has been inspected, maintained, and used in a safe manner, coordinating supply truck movement onsite, conducting resupply operations including downloading commodities and resupplying the loading line, maintaining accountability of all commodities received, on hand, and distributed from the site, maintaining all paperwork relating to resource accountability and providing daily resource reports

I'm going to review the full list of jobs and descriptions and will provide soon.

If you can provide the details for the Monday meeting, I will plan to attend. We just want to ensure we're meeting the mission for water distribution.

Let me know if you have any questions on this. My cell phone is the best way to reach me,

Thanks,

Brianna Briggs

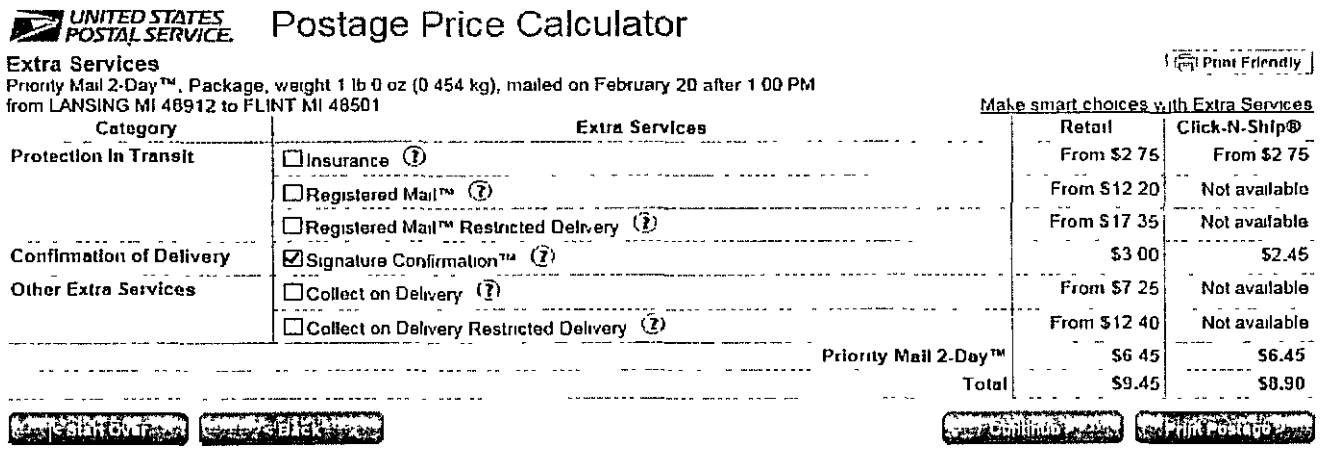
Direct Ship

1. DTMB's delivery services team does not have the ability to electronically confirm and track delivery.

2. Use of the State of Michigan contract with UPS will not achieve desired results as UPS will leave parcels at the doorstep without a signature if the resident has previously waived signature requirements.

3. The most economical approach for delivery is using the United States Postal System as it is less expensive than certified mail. The signature of receipt can be retrieved electronically from the USPS web site. Pricing example below, we would use the retail rate, not the click and ship.

   Retail rate per parcel is $9.45 for (2) day delivery with signature confirmation (from Lansing to Flint).



UNITED STATES POSTAL SERVICE. Postage Price Calculator

Start Over | Continue | Print Postage

Assumptions/Estimates

- Deliveries would occur from Flint (warehouse) to Flint Water System residents.

Monthly Deliveries – 29,000 households x $9.45 per delivery x 12 months = $3,288,600
Quarterly Deliveries – 29,000 households x $12.85 per delivery x 4 deliveries = $1,490,600

- Assumes 5 pound package, Priority Mail 1-Day

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – ARC Teams will continue visiting the identified 1,800+ Access & Functional Needs addresses as a follow-up visit to determine the individual need for further visits. Each address will be provided 3-5 cases of water, depending on individual's request of need, and replacement cartridges, if needed. **Teams will evaluate weather conditions and notify SEOC of changes – they plan to start out the day as usual.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs are using paper street sheets to track data, and data is being entered into ARC's website by ARC volunteers. Daily team numbers (homes visited and amount of supplies delivered) are to be reported to the SEOC Recovery Branch by 6 p.m. daily.

Attachment A
Staffing/Equipment Needs: POD

STAFF

Total Staff Needed: 83 personnel

Overall POD Management

1 POD Manager: responsible for the daily operations of the PODs. This includes all staff and resources on the ground throughout the activation (all PODs). Ensure/maintain good order of the PODs. (State, Local Hire, Employer of Record?)

1 Administrative Support Specialist: works alongside of the POD Manager to support daily operational needs for maintaining the PODs.

POD (per POD)

1 Support Team Leader: supervises ground level support operations including: ensuring equipment used onsite has been inspected, maintained, and used in a safe manner, coordinating supply truck movement onsite, conducting resupply operations including offloading commodities and resupplying the loading line, maintaining accountability of all commodities received, on hand, and distributed from the site, maintaining all paperwork relating to resource accountability and providing daily resource reports

2 Administrative Support Specialist: ensure tracking and accountability of commodities distributed at the PODs utilizing the selected method of tracking (still being determined)

1 Recycling Support Specialist: works with a team of individuals who would properly recycle water bottles and other supplies.

1 Traffic Controller: manages the movement of vehicles through the POD

4 Loaders: responsible for loading set quantities of supplies into customer vehicles; coordinate with the Support Team for resupply of the loading line; responsible for the movement of pallets to and from the loading line and removing empty pallets

EQUIPMENT

Required (per POD)

- 1 – Electric pallet jack (*may be staged on the delivery truck*)
- 3 – Easy folding canopy tents
- 2 – Eight (8) foot banquet tables
- 10 – Folding chairs
- 1 – Portable heat source during winter months
- 1 – Portable restroom facility with hand washing station

- 1 – Dumpster for refuse from unpalletizing the supplies
- 1 – Large recycle bin (*located next to the dumpster; to be coordinated with established recycling program*)
- 1 – Fire extinguisher
- 9 – Reflective safety vests for all workers
- 1 – First aid kit
- 1 – 800 mHz radio
- 3 – Mobile devices for tracking commodities, with car and/or portable chargers
- Four (4) foot tall grabber traffic cones to establish vehicular and pedestrian traffic flow (*number will be site specific*)
- Signage – POD Ahead (2), Enter (2), Exit/Do Not Enter (2), Loading Point (3)

Optional – Dependent on Location (per POD)

- Portable lights or light towers for parking lot where none are permanently installed in the lot
- 1 – Portable generator for lights in tent and technology recharging

Attachment B
Staffing/Equipment Needs: Warehouses

STAFF

Total Staff Needed: 45 personnel

Warehouse 1

1 – General Warehouse Manager: responsible for all warehouse operations; supervises the Shipping/Receiving and Yard Manager, Fleet Coordinator, Floor Workers, Security, and Forklift Drivers; some heavy lifting may be required

1 – Receiving Manager: responsible for all receiving logs and reconciliations; provides daily/weekly report to the General Warehouse Manager; supervises Warehouse Coordinator; heavy lifting may be required

1 – Shipping Manager: receives all requests for distribution of commodities; records all shipments and reconciles balances; reports to General Warehouse Manager; some heavy lifting may be required

1 – Warehouse Coordinator: responsible for rotation of inventory; coordinates all receivables storage; reports to Receiving/Shipping Managers; heavy lifting may be required

1 – Yard Manager: directs all traffic in shipping yard; reports to General Warehouse Manager; heavy lifting may be required

1 – Security: Monitor door for unauthorized personnel-based on physical security (fence, alarm, etc.); reports to General Warehouse Manager; heavy lifting may be required

10 – Inventory/Receiving/Floor Workers: responsible for receiving inventory, tracking inventory, and preparing orders for shipping; reports to General Warehouse Manager, but may take direction from any manager/coordinator; heavy lifting may be required

12 – Drivers: responsible for driving 26 foot box truck to POD locations for distribution of commodities; ensure POD locations maintain adequate supply throughout operational hours; heavy lifting may be required

4 – Forklift Drivers: must be certified Forklift Operator; offload incoming inventory and load outgoing trucks; reports to General Warehouse Manager, but would take direction from the Receiving/Shipping Managers and Warehouse Coordinator; heavy lifting may be required

Warehouse 2

1 – General Warehouse Manager: responsible for all warehouse operations; supervises the Shipping/Receiving and Yard Managers, Fleet Coordinator, Floor Workers, Security, and Forklift Drivers; some heavy lifting may be required

1 – Receiving/Shipping Manager: responsible for all receiving logs and reconciliations, provides daily/weekly report to the General Warehouse Manager; supervises the Warehouse Coordinator; receives all requests for distribution of commodities; records all shipments and reconciles balances; reports to General Warehouse Manager; some heavy lifting may be required

1 – Warehouse Coordinator: responsible for rotation of inventory; coordinates all receivables storage; reports to Receiving/Shipping Manager; some heavy lifting may be required

1 – Yard Manager: directs all traffic in shipping yard; reports to General Warehouse Manager; heavy lifting may be required

1 – Security: Monitor door for unauthorized personnel-based on physical security (fence, alarm, etc.); reports to General Warehouse Manager; heavy lifting may be required

6 – Inventory/Receiving/Floor Workers: responsible for receiving inventory, tracking inventory, and preparing orders for shipping; reports to General Warehouse Manager, but may take direction from any manager/coordinator; heavy lifting may be required

2 – Forklift Drivers: must be certified Forklift Operator; offload incoming inventory and load outgoing trucks; reports to General Warehouse Manager, but would take direction from the Receiving/Shipping Managers and Warehouse Coordinator; heavy lifting may be required

EQUIPMENT

Warehouse 1

- 18 – 26' non-CDL box trucks (26,000 GVW or less) with power ramp/lift gate with 2,500-3,000 capacity (for PODs) (additional trucks needed to support churches?)
- 4 – Forklifts (propane)
- 8 – Manual pallet jacks
- 2 – Electric pallet jacks
- 2 – Pair of safety wheel chocks
- 1 – Pallet puller with chain
- 2 – Office desks
- 1 – Laptop computer
- 1 – Internet connection
- 1 – Cell phone
- 1 – 800 mHz radio
- 1 – Multi-function printer/copier/fax
- 25 – Folding chairs
- 1 – 40 yard dumpster
- 1 – First aid & CPR kit
- 1 – AED
- 25 – Safety vests
- 100 – Pallets
- 40 – Gaylord boxes

- 24 – Shrink-wrap
- 4 – Packaging tape dispensers
- 4 – Cases of packing tape
- 20 – Box cutters
- 40 – Extra box cutter blades
- 4 – 30 gallon trash containers
- 4 – Push brooms w/ dustpans
- 2 – Mops w/ buckets
- 24 – Black permanent markers
- 2 – Boxes of black pens
- Other – Office supplies as needed

Warehouse 2

- 2 – Forklifts (electric)
- 6 – Manual pallet jacks
- 2 – Electric pallet jacks
- 2 – Pair of safety wheel chocks
- 1 – Pallet puller with chain
- 2 – Office desks
- 1 – Laptop computer
- 1 – Internet connection
- 1 – Cell phone
- 1 – 800 mHz radio
- 1 – Multi-function printer/copier/fax
- 15 – Folding chairs
- 1 – 6-8 yard dumpster
- 1 – First aid kit
- 1 – AED
- 15 – Safety vests
- 100 – Pallets
- 40 – Gaylord boxes
- 12 – Shrink-wrap
- 2 – Packaging tape dispensers
- 1 – Case of packing tape
- 10 – Box cutters
- 20 – Extra box cutter blades
- 3 – 30 gallon trash containers
- 2 – Push brooms w/ dustpans
- 1 – Mop w/ bucket
- 12 – Black permanent markers
- 1 – Box of pens
- Other – Office supplies as needed

Attachment C
Staffing/Equipment Needs: Rapid Response Teams

STAFF

Total Staff Needed: 27 personnel

Per Team Staffing (9 total teams/1 team per Ward)

1 Direct Delivery Specialist: responsible for direct delivery of supplies into the community

1 Plumbing Apprentice: will work alongside a local plumber to assist in changing out filters in affected homes

1 Driver: delivers supplies within the community; individuals could be asked to drive large vehicles in all weather conditions throughout the city

EQUIPMENT

Required (per team)

- 1 – Heavy duty cargo van or truck, or 16' box truck (*dependent on number of Access and Functional Needs residents in specific Ward*)
- 1 – Mobile device for tracking commodities, with car and/or portable chargers
- 1 – 800 mHz radio

Long-term Distribution Plan
Timeline of Events

February 26	POD Site Selection Completed Begin hiring through GST MI Works to staff PODs and Rapid Response Teams
March 4	POD Site MOUs Signed (90 day life span)
March 11	Evaluate and provide staffing needs to the National Guard to redefine mission to assist with bridging strategy for transition to community-based PODs

Flint Water Distribution Center
iPad Application Proposal

OBJECTIVE

Create an iPad application that tracks bottled water, water filters, replacement filters, and testing kits to residents in Flint, MI. The application needs to interface with data previously collected and currently hosted in the Flint ArcGIS Online environment. Workers in various distribution centers need to have access to quantities of items previously provided to residents from other distribution centers as to not provide unneeded items. Additionally, statistical dashboards will need to be available for workers to track the number of items distributed through each distribution center.

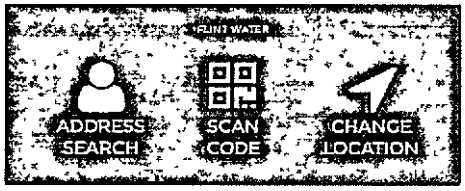
PROPOSED SOLUTION

Because of the urgency of situation, the Mobile Center of Excellence within the Center for Shared Solutions proposes a phased approach to the development of this iPad application. The initial development phase will produce a minimal viable product which will tackle the urgent need of tracking how many items are given to each resident. Subsequent phases will include more robust searching and statistical analytics charted in a virtual dashboard.

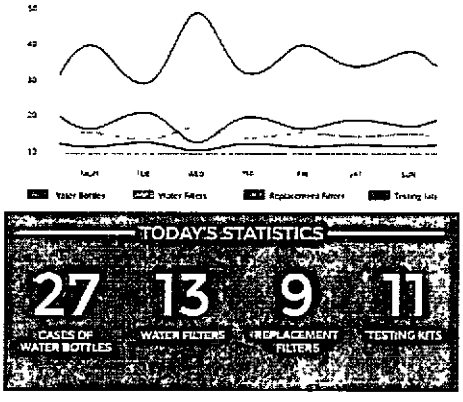
ASSUMPTIONS

- Developers will be given access to read, write, and modify data as well as extend the data model within the Flint ArcGIS Online database.
- Data stored within the Flint ArcGIS database has resident data including standardized geocoded addresses.
- iPad devices are owned by the State of Michigan and will be enrolled in MaaS360 to help facilitate deployment of the initial and subsequent releases.
- iPad devices will have internet connectivity, WiFi or cellular, and any offline data storage is out of scope for this project.
- DTMB is able to procure SaaS and standup any additional infrastructure in a timely fashion.
- DTMB is able to procure SaaS and standup any additional infrastructure in a timely fashion.
- Resources available to help with the Flint ArcGIS Online database

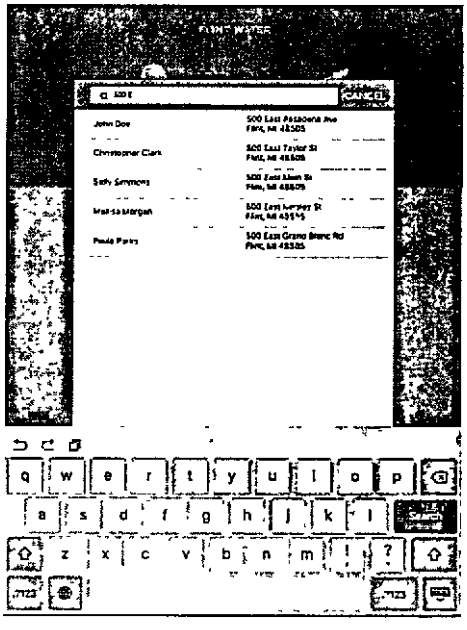
MOCKUPS



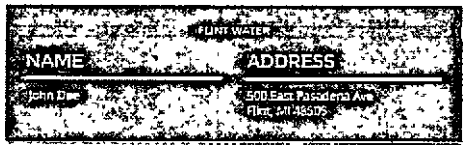
- Start a search by entering a residential address
- Start a search by scanning a QR code (future)
- Change the distribution center location the device is currently logged into

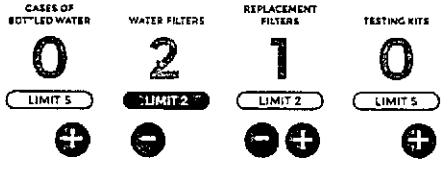


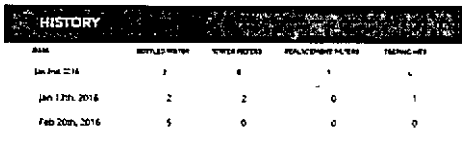
- Dashboard of weekly and daily totals (future)



- Find citizen by using their residential address
- Search autocompletes based on data existing in Flint's ArcGIS Online database (assumption)







- Record the number of bottled water, water filters, replacement filters, and testing kits distributed.
- Ability to limit the amout distributed to resident at a single visit.
- Display running history of previous distributions.

Flint Water Distribution Center
iPad Application Proposal

PHASE 1 ESTIMATE

The Mobile Center of Excellence uses an agile project management approach to development working in two week sprints. After reviewing the available information, we are making the assumption that finding a resident by address and tracking where and how much is distributed are the most essential requirements to this application. Based on that assumption, our estimate is one full time and one half time developer for two sprints or 240 hours of development.

240 HOURS	4 WEEKS	$21,600

PHASE 2 ESTIMATE

The second phase of development is an additional 240 hours of development over two sprints with the same number of resources. This release would include real-time charting for each distribution center by day and week. Additionally, the mobile application will have the ability to scan QR codes to speed up the lookup process for returning customers. This estimate includes the development to create QR codes based on data sent via SMS.

240 HOURS	4 WEEKS	$21,600

ESTIMATES DO NOT INCLUDE

- Any additional costs for new SaaS subscriptions needed to complete requirements.
- Any infrastructure that needs to stood up and configured.
- A formal user acceptance testing cycle.
- Formal project management

Suggested Daily Staffing for Warehouse 2 (2629 W. Pierson Rd, Flint, MI)

(1) General Warehouse Manager

Some heavy lifting may be required. Responsibility for all Warehouse Operations.
Supervises the Shipping/Receiving and Yard Manager, Fleet Coordinator, Floor Workers, Security and Forklift Drivers.

(1) Receiving/Shipping Manager

Some heavy lifting may be required. Responsible for all receiving logs and reconciliations.
Provides daily/weekly report to the General Manager. Supervises the Warehouse Coordinator.
Recieves all requests for distribution of commodities.
Records all shipments and reconciles balances. Reports to General Warehouse Manager.

(1) Warehouse coordinator

Some heavy lifting may be required.
Picks orders from warehouse for shipping and coordinates all recievables storage. Reports to Receiving/Shipping Manager.

(1) Yard Manager

Some heavy lifting may be required.
Directs all traffic in shipping yard. Reports to General Manager.

(1) Security

Some heavy lifting may be required.
Monitor door for unauthorized personnel-based on physical security (fence, alarm, etc...). Reports to General Manager.

(6) Inventory/Receiving/ Floor workers

Some heavy lifting may be required.
Staff dedicated to receiving inventory, daily inventory and prepping of orders for shipping.
Reports to General Manager but may take direction from any Manager/Coordinator.

(2) Forklift Drivers

Some heavy lifting may be required.
Reports to General Manager, takes additional direction from Receiving/Shipping Manager and Warehouse Coordinator.
Must be certified Forklift Operator.

This staffing structure makes the following assumptions:
This warehouse will be used for pick-up only from non-governmental and faith-based organizations with proper credentials.
Technical advisors are not on site
No volunteers
No prisoners from DOC
No vehicle deliveries from this location

REQUIRED EQUIPMENT

2	Forklifts (Electric)
6	Manual Pallet Jacks
2	Electric Pallet Jacks
2	pair of safety wheel chocks
1	Pallet puller with chain
2	Office Desks
1	Laptop Computer
1	Internet Connection
1	Cell phone
1	Multi-function printer/copier/fax
15	Folding chairs
1	6-8 yard dumpster
1	First Aid kit
1	AED
15	Safety Vests
100	Pallets
40	Gaylord boxes
12	Shrinkwrap
2	Packaging Tape Dispensors
1	Case of packing tape
10	Box Cutters
20	Extra box cutter blades
3	30 gallon trash containers
2	Push brooms
1	Mop
2	Dust pans
1	Mop bucket
12	Black permanent markers
1	box of pens
other	Office Supplies as needed

COMMUNITY DEVELOPMENT AND THE INFLUENCE OF NEW FOOD RETAIL SOURCES ON THE PRICE AND AVAILABILITY OF NUTRITIOUS FOOD

RICHARD C. SADLER
University of Western Ontario

GODWIN ARKU
University of Western Ontario

ABSTRACT: *Studies have demonstrated links between the accessibility of food and multiple health outcomes Policymakers engaged in local community development may use public health concerns as a strategy to procure funding for food retail initiatives. Few studies to date have demonstrated the impact that a new food retailer can have on geographic and economic access to nutritious food in a community, evidence which could support the case for new food retail This paper examines the price and availability of food before and after the opening of two new grocery stores in a former food desert in Flint, Michigan. The results indicate a substantial improvement in both geographic and economic food accessibility, and show no statistical difference between prices at average grocery stores and the new stores. Discussion suggests that investment in poorer neighborhoods can be beneficial to the local population and the community at large by creating a local multiplier effect through increased spending in the community*

The evolution of North American food retailing has created gaps in the community food environment in some urban neighborhoods Furey, Strugnell, and McIlveen (2001) discuss how social, economic, and health-related consequences combine to create social exclusion among residents living in these "food deserts." Food retailers could effect change in food environments, but there is often a gap between the plans of large-scale retailers and local-level economic development strategies (Pothukuchi, 2005). Thus, researchers have suggested an increased role for planners and policymakers, who are tasked with promoting public welfare (Pothukuchi, 2004). Planners and policymakers can encourage local economic development in disadvantaged areas to make use of unique features like proximity to major transportation routes and existing social amenities (Porter, 1995) Despite a growing popularity of food policy councils among planning

and other municipal departments, the research to date is merely suggestive of the impact they can have on nurturing new food retail initiatives (Campbell, 2004). Additionally, most planners still regard economic development in the food system as the domain of the private market (Pothukuchi and Kaufman, 2000).

This paper demonstrates the geographic and economic impact of two new food retail sources in a disadvantaged neighborhood of Flint, Michigan, one developed through a public/private partnership, and the other through traditional private investment. Food basket pricing in the neighborhood indicates a substantial improvement in the cost of groceries for residents due to lower prices at the new food retailers. Over one year, these cost savings translate into between 2- and 3-month's rent for an average apartment in the city. This case demonstrates the potential for multi-tiered benefits: for the investors (who are profitable), the neighborhood residents (who have improved geographic access and economic buying power), and the planners (who are responsible for policy-making that made investment attractive in the neighborhood). The article suggests that food retail should be considered as a development policy in socioeconomically disadvantaged neighborhoods underserved by current food retail patterns, both from a profit-motivated and community development standpoint.

The Built Environment and Health

The concern for geographic accessibility to food arises from research demonstrating inequalities from living in food deserts, or areas where nutritious, affordable food is unavailable (Beaumont, Lang, Leather, & Mucklow, 1995). Increased prevalence of obesity and related illnesses have been found in these neighborhoods (Morland, Diez-Roux, & Wing 2006; Wang, Kim, Gonzalez, MacLeod, & Winkleby, 2007). Some suggest that these disparities are created in part by the evolution of retail to larger store formats frequently found in suburban locations, leaving urban areas without nutritious food options (Lavin, 2000; Pothukuchi, 2005; Wrigley, 2001). These inequalities, however, are not simply locational issues. Poorer dietary habits among low-income residents may be linked to larger social inequities (Travers, 1996).

Healthy diets are more expensive in food deserts (Drewnowski, Darmon, & Briend 2004; Furey et al., 2001; Larsen and Gilliland, 2009); studies have indicated a considerable premium paid—up to 76% higher—by residents shopping at local convenience stores rather than larger chain stores (Block and Kouba, 2006). This price disparity equates with less purchasing power, contributing to poorer diets among residents with limited mobility (Laraia, Siega-Riz, Kaufman, & Jones 2004; Morland et al., 2006), since low-mobility residents are less able to travel great distances to access goods and services (Hanson and Schwab, 1987).

Poor dietary habits are correlated with higher rates of obesity (Binkley, Eales, & Jekanowski 2000) and obesity-related health issues such as type-2 diabetes and cardiovascular disease (Mokdad et al., 2003). Obesity rates are lower among people living near healthy food outlets (Lewis et al., 2005; Morland et al., 2006), and higher among those living nearer to fast food restaurants and convenience stores (Morland and Evenson, 2009; Poston and Foreyt, 1999). Further links show a negative correlation between income and fast-food consumption (Paeratakul, Ferdinand, Champagne, Ryan, & Bray 2003) and a positive correlation between low-income neighborhoods and location of fast-food outlets (Gilliland, 2010; Cummins and Macintyre 2002; Reidpath, Burns, Garrard, Mahoney, & Townsend 2002). This suggests that low-income residents in distressed neighborhoods are most at risk of developing poor eating habits due to increased exposure to unhealthy foods. This elevated risk increases the likelihood of social and health-related problems.

Despite heightened exposure to unhealthy food options, many residents in low-income, food insecure communities are aware of the options for healthy eating near their homes (Freedman and Bell, 2009), but may be hindered by mobility or economic constraints (Darmon, Ferguson, &

Briend 2002). Residents in communities without supermarkets tend to perceive fewer nutritious food options, suggesting the importance of larger, more visible grocery stores (Moore, Diez-Roux, & Brines 2008). Although people are aware of the benefits of nutritious food, they may lack the political clout or economic capital to bring nutritious food retailers to their neighborhoods. Thus, this public health and urban planning issue merits further attention.

Quantifying the Food Environment

Because of the economic implications of living in neighborhoods without grocery stores, it is important to quantify variations in price of groceries within and between different neighborhoods. Many studies have employed nutritious food basket surveys to determine the affordability of foods in neighborhoods (Chung and Myers, 1999; Cummins and Macintyre, 2002; Friel, Walsh, & McCarthy 2006; Larsen and Gilliland, 2009; Pearson, Russell, Campbell, & Barker 2005). While residents do not always shop at the nearest grocery store (Rose and Richards, 2004), the most socioeconomically distressed populations are far more likely to shop near home (Clifton, 2004). Thus, food basket pricing is particularly useful for determining the prices of groceries for residents with mobility constraints or those in low-income communities.

Food basket surveys have ranged from only 9 fruits and vegetables (Pearson et al., 2005) to 146 items from all food groups (Friel et al., 2006). Some used food baskets pre-tested by public health authorities (Chung and Myers, 1999; Cummins and Macintyre, 2002; Furey et al., 2001). Many simply used the cheapest price for each basket item (Cummins and Macintyre, 2002; Donkin, Dowler, Stevenson, & Turner 1999; Jetter and Cassady, 2006; Larsen and Gilliland, 2009; Morland and Filomena, 2007; Winkler, Turrell, & Patterson 2006), representing the lowest price a household could expect to spend. Others collected multiple prices for the cheapest brand, the leading brand and outlet brands (Friel et al., 2006), or prices for the most popular brand and package size (Chung and Myers, 1999).

In every case, the goal is to determine price differences between and within store types and neighborhoods. Groceries are frequently more expensive at convenience stores than at grocery stores, and prices at independent grocers are higher than at larger chain grocery stores (White, 2007; Winkler et al , 2006). Thus, the presence of a grocery store may not alleviate a disadvantage in the affordability of nutritious foods. But being in a poorer neighborhood does not necessarily equate with higher prices, since prices tend to vary more by store type than store location (Larsen and Gilliland, 2009).

GIS analysis and food basket pricing are used to quantify the contribution of two new grocery stores in a former food desert in Flint, Michigan. Because food basket studies typically only examine the price or availability of food with cross-sectional study designs (Cummins and Macintyre, 2002; Jetter and Cassady, 2006; Morland and Filomena, 2007; Pearson et al., 2005), this before-and-after study represents an important contribution to knowledge on the literature regarding food accessibility and availability. Other researchers and cities can use this information to justify plans for retailers of nutritious foods in disadvantaged neighborhoods.

Study Area and Research Context

Flint, Michigan, exemplifies the declining medium-sized american city portrayed by Mayer and Greenberg (2001). Once reliant on a major industry for jobs (General Motors), Flint suffered from severe deindustrialization, resulting in an economic depression and substantial job losses. A 77% decline in manufacturing employment in Flint since 1980 has translated into a 41% overall decline in jobs (Jacobs, 2009). The city peaked at nearly 200,000 residents in the 1960s and at the time was expected to nearly double in size within 50 years (Segoe and Associates, 1960). Instead,

the current population has shrunk to 102,434 (U.S. Census Bureau, 2010), a 48% decline. This decline was exacerbated by long-standing preferences by both city and county residents alike for home rule over annexation of surrounding municipalities, stymieing the capture of suburban tax bases for city services (Zimmer and Hawley, 1956a). Paradoxically, many of these suburban municipalities had better attitudes toward tax increases, but resisted annexation to the central city (Zimmer and Hawley, 1956b). Thus, while out-county municipalities remained stable or grew in population, the city was increasingly "choked" by the surrounding municipalities with nowhere to grow, and a declining housing stock contributing to the population loss (Highsmith, 2009). The result of this decline is quantified in a recent study on Flint's urban form, which indicates that many neighborhoods have lost so many residences as to be at near-rural levels of density by units per acre (Hollander, 2010).

An expected outcome of this decline in residential population is an accompanying decline in the quantity and quality of services, both public (e.g., schools, parks) and private (e.g., retail, commercial employment). Based on network analysis of occupied residential parcels in 2009, 73% of the city's population resided more than 1000 meters (0.6 miles, or a 10-minute walk) from a grocery store (Figure 1).

Because of the sharp decline of industrial jobs and corresponding resources, Flint has continued to rely on traditional models of economic development. As past research has shown for other localities (Mayer and Greenberg, 2001), city leaders in Flint likely believed the problem would remedy itself or that little could be done to ameliorate the problem. Many redevelopment strategies have failed due to unrealistic scale or an inability to focus on local economic development, as Krumholz (1991) has suggested with other cities. Thus, the abandonment of traditional retail from established neighborhoods in Flint has been long established and persistent.

Despite this decline, certain neighborhoods in Flint have remained stable or are seeing revival. These locations exhibit several elements important for economic and community development—including lower crime rates, the presence of health care services, institutions of higher learning, and transportation connectivity (Reese and Ye, 2011). Sustained public investment in the education and health care sectors in and near downtown has created demand for private investment in the form of retail, apartments, lofts, and student residences. The influx of capital and residential population into the neighborhood increased the demand for a food retail outlet.

With the financial backing of non-profit agencies, an independent grocery called Witherbee's Market opened a 10,000 square foot store in June 2010 in the heart of the downtown food desert. Another grocery store (Mr. B's Foodland) opened just south of downtown in January 2010. Prior to this, downtown had not had a grocery store since the Farah Brothers Supermarket burned down in 1999 (Polk & Co., 1998, 1999). These stores reflect a change in the mentality toward reinvestment downtown; previous economic development plans included the failed Autoworld, Water Street festival marketplace, and the Hyatt Regency Hotel (Highsmith, 2009). Incentives were given to Witherbee's store operators to aid in development, including a brownfield tax incentive, three EDA loans from the local economic development corporation, and a commercial revitalization deduction (City of Flint, 2010). The opening of these stores has major implications for economic development strategies, since they can serve as catalysts for additional initiatives. Their stability can be instructive to other interested retailers that local economic development can succeed.

There are also implications for neighborhood viability in terms of quality of life, since two grocery stores now lie within a 10-minute walk (0.6 miles, or 1,000 meters) for many residences. This improvement in a former food desert can be quantified through GIS analysis and by evaluating any changes in the price and availability of nutritious food.

This study makes several important contributions useful to retailers and planners: first, the development of an empirical method for locating food deserts in urban areas; second, the comparison of the cost of groceries via nutritious food basket pricing throughout the Flint metropolitan

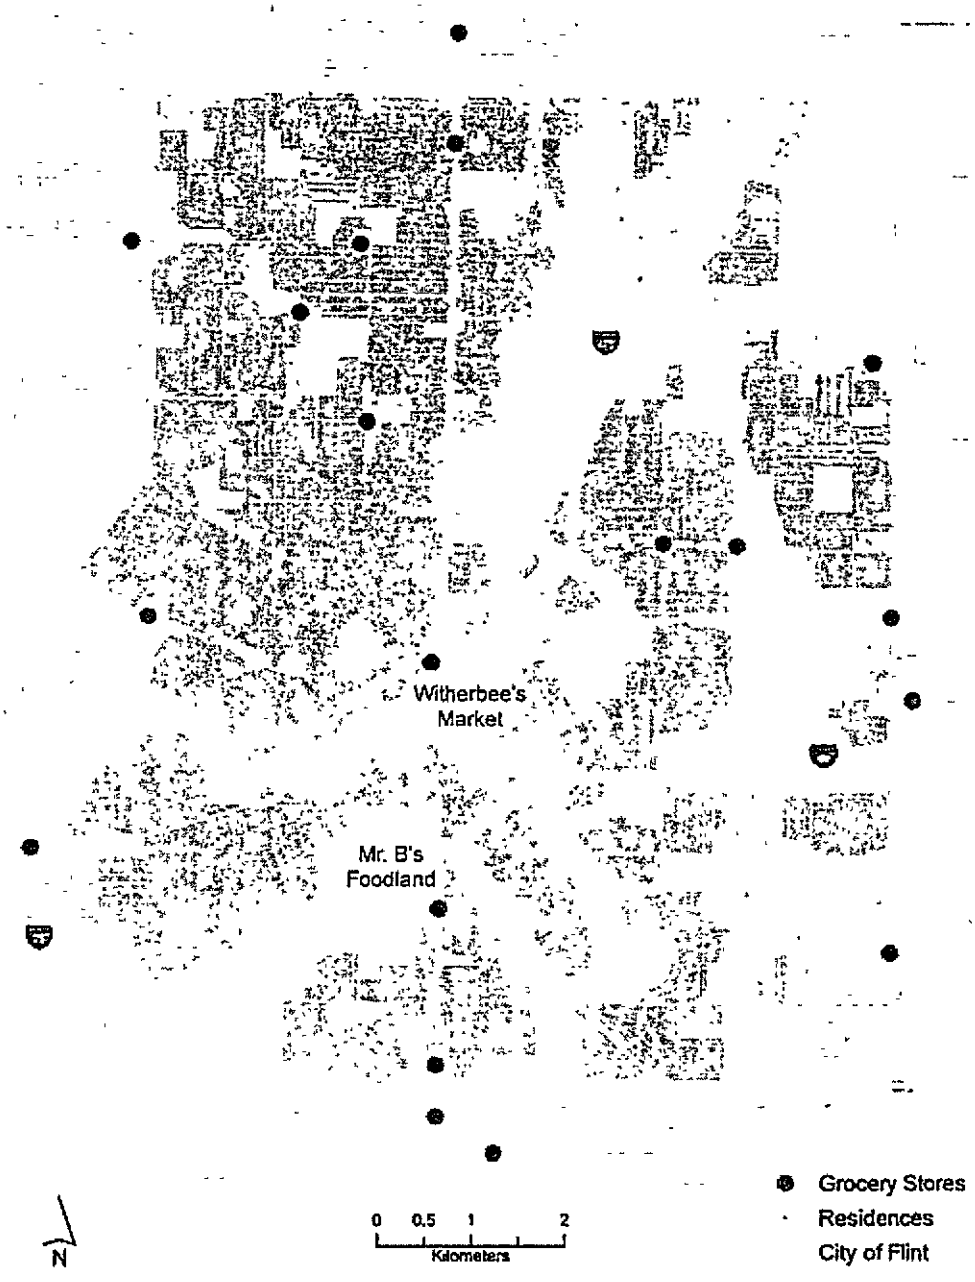

FIGURE 1

Locations of grocery stores and occupied residential address points in Flint, Michigan, 2011

area; and third, the before-and-after comparison of the cost of groceries in the former food desert. The results of this pre/post-evaluation will help determine the geographic and economic impact of the new stores. In turn, this provides evidence for planners, policymakers, and investors interested in pursuing community and economic development partnerships of this nature in other communities.

METHODS

The primary objective of this study is to demonstrate the effect of two new grocery stores on the price and availability of nutritious foods in a former food desert. Implications of these benefits on community development are drawn throughout. To study food deserts, however, it is important to have an empirical method for locating them. The methods suggest an innovative approach for using geographic information systems to locate food deserts, and employ an established method for determining the price of nutritious foods.

Determining Food Deserts

Several criteria must be met to substantiate the existence of a food desert. First, residents must have poor geographic access to grocery stores or other nutritious food sources. The presence of alternative food retailers may provide some nutritious foods but, in general, the price will be considerably higher (Eisenhauer, 2001) and availability will be lower than at grocery stores (Chung and Myers, 1999). Occupied residential address points for the City of Flint were used as the geographic unit of analysis, since all trips originate from the home. Address points were then classified based on whether city residents were within a 1,000 m network distance (along the street network) to the nearest full-service grocery store (both within and outside the city of Flint). This distance is a common threshold to determine neighborhood walkability, a concept that encompasses the greatest distance someone would walk to reach a local amenity (Apparicio, Cloutier, & Shearmur, 2007; Larsen and Gilliland, 2008; Smoyer-Tomic, Spence, & Amrhein 2006). Stores outside the city limit boundary were included in the analysis, to account for an error in spatial analysis known as the boundary or edge effect (Gatrell & Löytönen, 1998; Sadler, Gilliland, & Arku 2011) and since many residents are likely to shop at these stores (Figure 1). The percentage of address points with access to a grocery store was calculated for each census block group (CBG). These CBGs were then categorized into four groups by the percentage of parcels with access to a grocery store. CBGs where 0%–1% of parcels had access met the first criterion for defining food deserts, since few people could walk to a grocery store.

The second requirement for determining food deserts is neighborhood socioeconomic distress. The price or availability of groceries has little influence on residents in affluent neighborhoods, since these households simply drive to the desired store. To resolve this, neighborhoods were characterized by socioeconomic status using U.S. Census Bureau data for census block groups (2000a). CBGs were used as the unit of aggregation since they represent the smallest geographic unit for which sociodemographic variables are available. It is important to consider the smallest possible unit of analysis when dealing with aggregated data, since higher levels of aggregation are more likely to misrepresent some neighborhoods, due to higher variability of populations in larger agglomerations (Gatrell & Löytonen, 1998).

Four socioeconomic variables were considered in building a socioeconomic distress index, following methods outlined in past research (Gilliland and Ross, 2005; Pampalon, Hamel, Gamache, & Raymond, 2010). These variables include low educational attainment, incidence of low income, lone parenthood, and unemployment. Each variable was included for its impact individually, and for the minimal collinearity seen when variables were grouped. Standardized *z*-scores were obtained for each variable, and these were summed to obtain a composite socioeconomic distress score for census block groups within the urbanized region. These CBGs were then classified into five groups by natural breaks, and the two highest quintiles were isolated to obtain those CBGs most likely at a disadvantage due to socioeconomic distress.

While the focus of this study is on the city of Flint, this distress index was calculated for a geographic unit more appropriate to the study of urban areas: the urbanized area of the Flint

metropolitan area as defined by the U.S. Census Bureau (2000b). Thus, the values for the distress index are contingent on all CBGs within the urbanized area of Flint. This area includes many suburban municipalities in Genesee County.

Because urbanized areas are defined independently from census agglomerations, the urbanized area for Flint did not match neatly with census block group boundaries. To determine urban census block groups, the urbanized area was buffered at 1,000 meters. Census block groups completely contained by that buffer were included as urban. All other CBGs were considered non-urban and excluded from analysis. This technique included CBGs that lay mostly within the urbanized area rather than only including CBGs within the city limits of Flint. Distress scores thus represent the relative disadvantage based on the entire urbanized area of Flint and transcend municipal boundaries (which in Michigan rarely coincide neatly with urban areas). Figure 2 displays the distress levels for much of the urbanized area.

Finally, since grocery stores generally require a large population to support large economies of scale, only census block groups with a density of 1,000 people per square mile were considered in the analysis. This threshold is used by the U.S. Census Bureau to define urbanized areas (2000b). While areas with lower densities may exhibit the first two characteristics of a food desert, it is practical to consider the densest areas first, since retail-led interventions are possible here. In urban regions, CBGs and census tracts with low densities are frequently industrial parks. For the study area, one CBG in a vacant industrial zone was excluded due to the absence of a population. In this way, spatial analysis privileges populated neighborhoods.

Nutritious Food Basket Survey

The Ontario Nutritious Food Basket (ONFB) survey (found in the appendix) was used to determine variations in the cheapest available price of groceries at various grocers in the Flint metropolitan area. This list has been utilized in recent and geographically proximate research (Larsen and Gilliland, 2009; Nathoo and Shoveller, 2003), and is a well-respected and systematic tool created by Health Canada to measure the price of groceries contributing to a nutritious diet (including 66 items representing every food group) (Health Canada, 1998). The potential to compare these results with past results in Canada presents future opportunities for cross-border comparison, as Jacobs (2009) did with economic development policies

Phase one of the survey was conducted in spring 2009. Food baskets were priced at 15 grocery stores around the city and county purposefully selected to represent a cross-section of grocery store types. Because prices within food retail chains were remarkably consistent for all the stores visited (between 2% and 4% within chains), the average food basket value for that chain was applied to other stores that were not visited. This resulted in food basket prices for 38 of 51 grocery stores in the county. Additionally, a food basket was priced in the food desert downtown (in anticipation of the opening of the new grocery stores) by visiting convenience stores and the city farmers' market to ensure all items were found, since no single downtown establishment had all 66 items.

Phase two was conducted in spring 2010, immediately after the opening of Witherbee's Market and Mr. B's Foodland in the food desert. For this phase, the same 15 stores were visited, as well as Witherbee's and Mr. B's. Mr. B's is a part of a two-store chain, so pricing was also conducted at the other Mr. B's location. By extrapolating basket prices to other stores as before, this resulted in food basket prices for 41 of 53 grocery stores.

Phase three was conducted in spring 2011 to determine how increases in food prices might affect grocery stores. A suburban store (half of a two-store chain) visited previously burned down between the 2010 and 2011 food basket pricing events. In place of these prices, two independent grocery stores were added to the database, one each in suburban and urban neighborhoods.

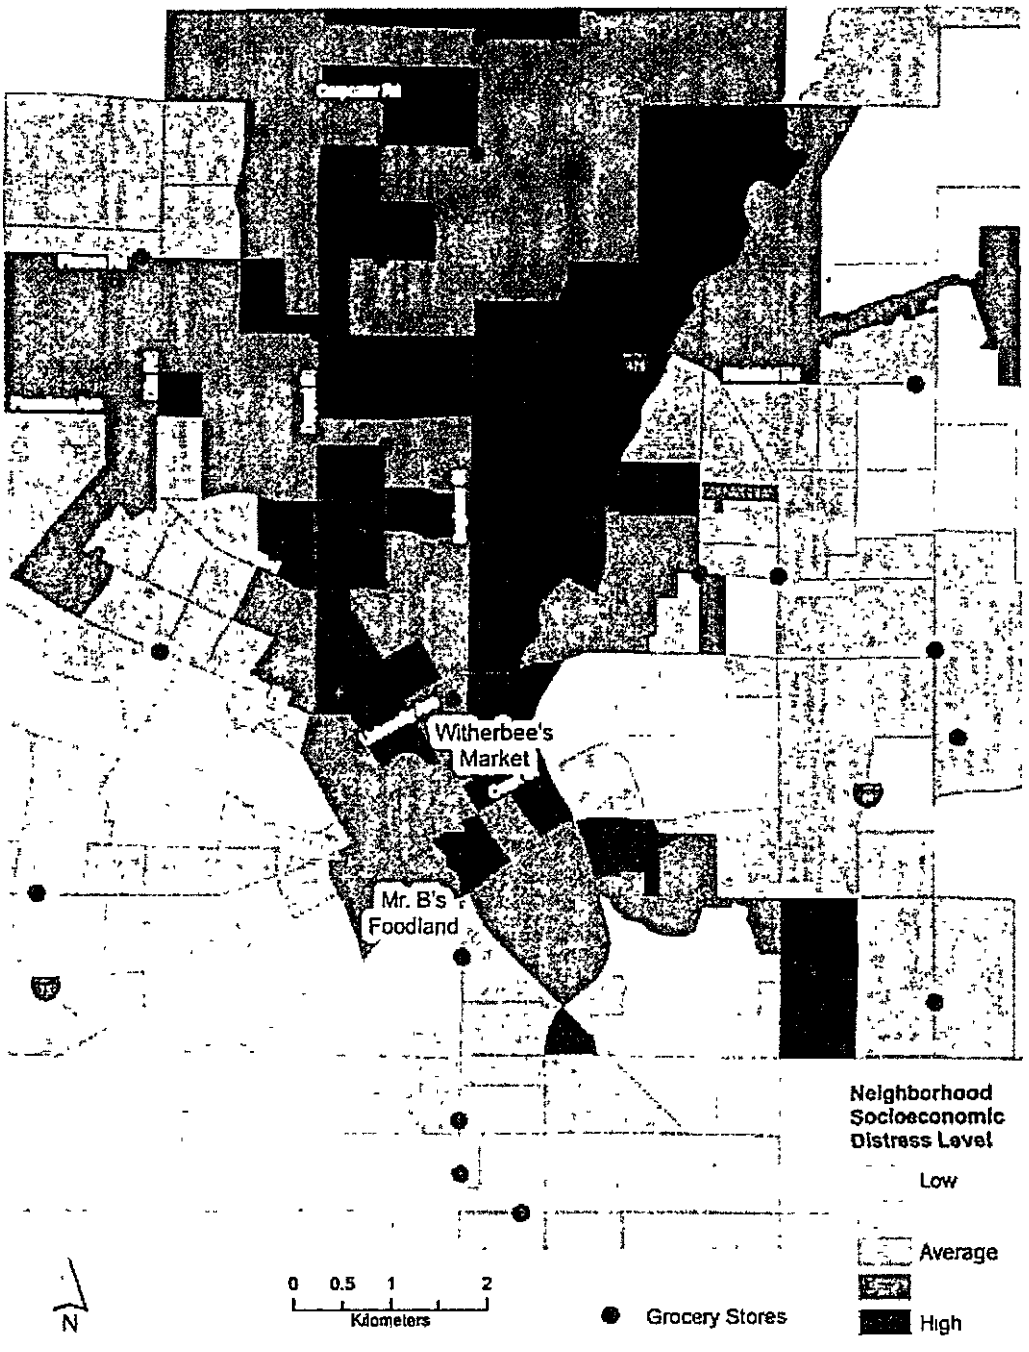

FIGURE 2

Census block groups within Flint urbanized area by socioeconomic distress level

In total, prices were collected for 44 of 52 stores in the county, including 12 of the 13 grocery stores within the Flint city limits.

Price of Groceries and Neighborhood Distress

Since food is not a comparison shopping good for all consumers, many shop close to home (Jones and Simmons, 1990). Thus, the neighborhood around a grocery store likely embodies the average store patron. Using existing socioeconomic distress data (including variables on low educational attainment, incidence of low income, lone parenthood, and unemployment) and nutritious food basket prices for a majority of the grocery stores in the county, it is possible to examine correlations between the cost of groceries at neighborhood grocery stores and the neighborhood socioeconomic distress score. One-thousand-meter buffers were created around each grocery store for which food basket pricing was available. CBGs with a majority of their area within the store buffer were grouped, and the average distress score from these CBGs was applied to the store.

RESULTS

Food Deserts in Flint

Figures 3 and 4 show high-distress CBGs categorized by the percent of residents with access to a grocery store in 2009 and 2010, respectively (before and after the opening of two new grocery stores). As anticipated, Flint's downtown was classified as a food desert due to the absence of a grocery store in 2009. Figure 3 illustrates that 24 CBGs in or immediately adjacent to downtown met the three criteria for a food desert: poor geographical access to nutritious food, high socioeconomic distress, and high, urban density. Additional food deserts include distressed areas near Bassett Park in the west, Hasselbring Park in the northwest, St. John Industrial Park in the north, Carpenter Road Elementary and the Kearsley Reservoir in the northeast, and Evergreen Regency and Howard Estates in the southeast.

The opening of Witherbee's downtown and Mr. B's just south of downtown wholly or partly ameliorated spatial food deserts in 8 CBGs, as shown in Figures 3 and 4. Initially, only 28% of residential addresses in the city were within 1,000 meters of a grocery store. This number increased to 31%, or an additional 1,300 homes, after the opening of Witherbee's and Mr. B's. In addition, 13% of all residential addresses in the city experienced an improvement in individual accessibility, based on network analysis of address points to the nearest grocery store. The added presence of two grocery stores near downtown lessened the burden of travelling unwalkable distances to reach nutritious food retailers.

Figure 5 indicates the average distance to a grocery store by socioeconomic distress level. Before the opening of the new stores, highly distressed neighborhoods were somewhat closer to a grocery store than less distressed neighborhoods. Since only 28% of residences in the city were initially within 1,000 meters of a grocery store, however, food deserts existed in many neighborhoods (i.e., downtown). For residents with constrained mobility, distance is a considerable obstacle to accessing food. With the addition of the new stores, these distances were substantially reduced, improving accessibility in much of the former food desert downtown. Although food deserts still exist, some poorer neighborhoods have better access to grocery stores. The spatial analysis shows areas of geographic disadvantage but does not suggest whether the addition of these grocery stores solved the economic issue by lowering the price of nutritious foods—a topic addressed in the next section.

TABLE 1

Cost of groceries by access to public transit, by type of store, and by grocery stores vs. food desert, 2009–2011

Access to Public Transit at Store?	2009	2010	2011
Yes	$128.24	$124 11	**$137.40**
No	$125.64	**$120.86**	$134 04
Type of grocery store	**2009**	**2010**	**2011**
National	$114 45	$111.88	$126 63
Local	$130 20	$124.22	$139.62
Independent	$144.59	$140.66	**$147.22**
Food desert	$182 95	**$142.57**	$156.75
Overall average vs cost in (Former) food desert	**2009**	**2010**	**2011**
Grocery stores	$125.50	$121.88	**$135.18**
Food desert	$182.95	**$142.57**	$156.75

Bold indicates that the cost decreased the most (or saw the smallest increase) among values in its group for the corresponding year.

Food Basket Results

Results of food basket surveys in 2009 and 2010 (adjusted for inflation) are shown alongside 2011 results in Table 1 and Figure 6. Table 1 demonstrates no statistical difference in price due to the presence or absence of public transit lines. But there are significant differences based on the type of store and on the price of groceries in the food desert (in 2009) versus the average at other grocery stores.

There is no significant difference in the price of groceries by neighborhood socioeconomic distress. Figure 6 shows a scatter-plot of food basket prices at individual stores by socioeconomic distress. The R-squared values for 2009 to 2011 are 0.063, 0.085, and 0 005, respectively, suggesting no systematic relationship between high distress and high prices for groceries. The only outlier in Figure 6 represents the price of the basket in the food desert neighborhood in 2009.

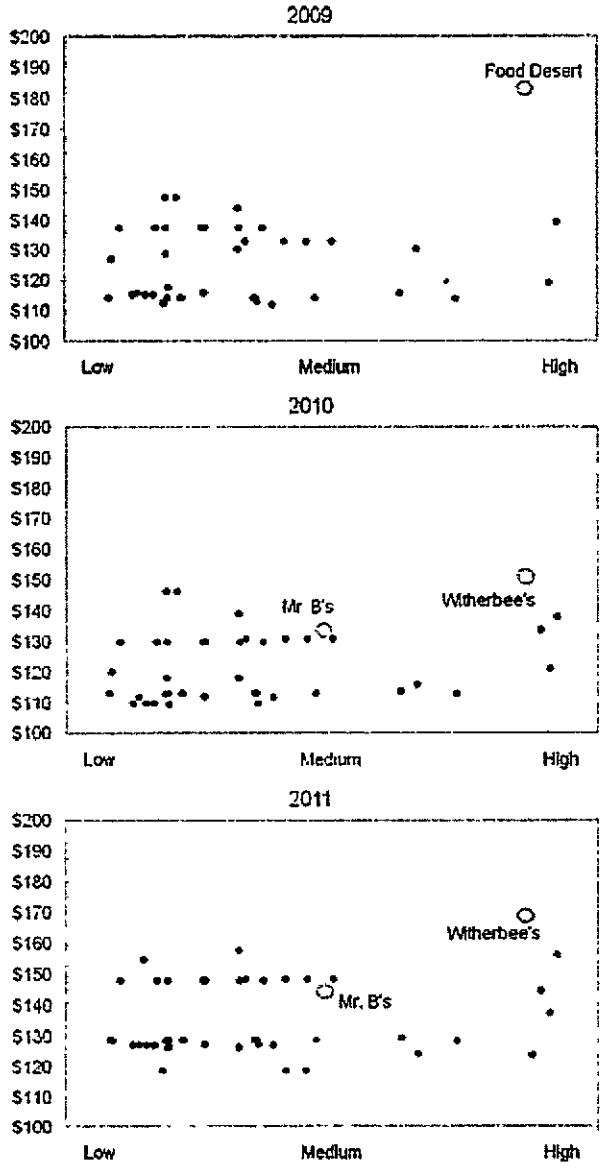

FIGURE 6

Cost of groceries at grocery stores by neighborhood distress score, 2009–2011

In 2009, the cost of a nutritious basket of food in the food desert was $182.95 (in 2011 dollars). In 2010, the cost at Mr. B's was $133.66 while the cost at Witherbee's was $151.48. This pattern held for pricing conducted in 2011, with prices of $144.37 at Mr. B's and $169.12 at Witherbee's.

t-Tests were run on the public transit section of Table 1, and one-way ANOVA tests were run on the remaining values. Results from the *t*-tests indicate no statistical significance in the price differences between stores on public transit lines and those not on transit lines. Tukey's tests were run as a post hoc evaluation of the ANOVA analyses for the cost of groceries by the type of store and in the food desert versus grocery stores.

Results of Tukey's tests revealed that in 2009 prices at national chains were significantly lower than at other stores, while local chains and independent grocers had significantly similar prices. The food desert was significantly more expensive than all types of grocery stores. In 2010, after the opening of the new stores, the price of groceries at independent grocers and the new stores in the former food desert were statistically similar. Prices at national chains were still significantly cheaper than prices at local chains, and local chains were cheaper than independents. In 2011, prices at local chains and independent grocers were once again statistically similar, and prices at independent grocers and the stores in the former food desert were also statistically similar. Inequalities in the price or availability of nutritious food are thus contingent on the store type, not on neighborhood socioeconomic status.

As noted, there is a significant difference between the price of groceries at grocery stores versus the price of groceries in the food desert in 2009 (bottom of Table 1). Food desert residents shopping within the neighborhood in 2009 would have paid a 46% premium to procure a nutritious basket of food The cost of groceries in the former food desert is now statistically similar to the cost at other independent grocers. This is important for two reasons. First, research has shown that most people (regardless of mobility status) shop within two miles, or about 3,200 meters, of their homes (Eisenhauer, 2001). Since there were initially no grocery stores within two miles (or 3,200 meters) of the center of the neighborhood, if actual shopping patterns were similar to this research, residents would have been forced to shop at stores that were not full-service grocers. Second, a recent report conducted on downtown Flint indicated that 30% of residents in this neighborhood did not have a car available at their household (ESRI, 2007). This suggests that many residents either walk or take public transit to shop. It is likely, then, that many people were paying a premium in price due to constraints on time, mobility, or resources.

The bottom of Table 1 illustrates the decline in the price of nutritious foods seen by the opening of Witherbee's Market and Mr. B's Foodland in the former food desert. The combined effect of the new stores translates into only a 5% premium over the average cost at other grocery stores around the county in 2011. Thus, while residents are still paying slightly more for groceries, they are paying considerably less than they were before the stores opened. This reflects a recent similar finding where the opening of a farmers' market in a food desert considerably reduced the price of groceries (Larsen and Gilliland, 2009).

DISCUSSION

The opening of two new grocery stores in and near a food desert has influenced the price and availability of nutritious foods. The number of residents impacted by the addition of the new stores understates its potential effect for two reasons First, many changes have occurred downtown in recent years, including new housing developments that have brought new permanent residents to the neighborhood. Second, approximately 1,000 students have moved into the neighborhood in the last three years as a result of the growth of the local university (Flint Journal, 2009). Because many of these students are itinerant year-to-year (and therefore possibly not included in the census count for downtown) future census counts may not adequately reflect the population in this neighborhood. If the stores had not opened, the issues with this food desert may have been exacerbated as new residents and students moved in only to find inadequate sources of nutritious food.

Evidence from a survey conducted prior to the opening of the new stores suggests that living in a food desert can have detrimental effects The survey found that 21% of residents in the city have at least some degree of difficulty accessing a "grocery store or supermarket that has a good variety of fresh fruits and vegetables" ($n = 730$) (Prevention Research Center of Michigan, 2009). This suggests that, among those outside of walking distance to a grocery store, accessing

nutritious foods can be particularly problematic. The same survey indicated that only 25% of city residents consume at least 5 servings of fruits and vegetables per day ($n = 687$) (Prevention Research Center of Michigan, 2009). Because there is a positive relationship between proximity to grocery stores and dietary quality, the addition of these new stores may make healthy eating easier for those interested in improving their health status.

The addition of the grocery stores in and near the food desert improved food access in both geographic and economic dimensions. Geographic access has been improved because residents can now access a grocery store downtown. Residents previously shopping in the neighborhood were relegated to a handful of convenience stores or the farmers' market. Due to the addition of these two stores, an increase of 3% of the entire city population can now walk to a grocery store. Economic access was also improved by the new stores. For residents originally shopping for groceries entirely within the neighborhood, a considerable premium would have been paid, as this and past research has shown (Drewnowski et al., 2004; Furey et al., 2001; Larsen and Gilliland, 2009). Those shopping outside the neighborhood would have expended additional resources on travel to reach more distant grocery stores. A resident shopping by the nutritious food basket guidelines every two weeks would save approximately $800 at Witherbee's or $1250 at Mr. B's over the course of a year. In Flint, this equates with between 2 and 3 months' rent in a 1-bedroom apartment (Apartment Ratings, 2011). For a low-income family, this cost-savings would result in a considerable change in quality of life.

The farmers' market in itself offers a microcosm of the issue of accessing nutritious food downtown prior to the opening of the grocery stores It is competitive for some types of fresh produce, but does not offer many staple foods like cereal, and many other products like meats and cheeses are only available with higher mark-ups. Additionally, the farmers' market is only open three days a week, reflecting a common concern that residents were required to "plan ahead" if intending to shop there. Finally, it is also distant from the center of the neighborhood, and is less accessible by bus than Witherbee's or Mr. B's. Thus, while the market serves a vital role in the neighborhood, the contribution of the new grocery stores is significant both geographically and economically.

Still, there are important pieces of evidence that this research does not answer. Cummins, Findlay, Petticrew, and Sparks, (2008) indicate that, even when presented with a new food source, many people do not deviate from their old habits. Because no customer surveys were taken, the present research is unable to state whether people shop at these new stores. Further, even assuming that residents switched stores, this research cannot determine whether dietary habits are improving as a result. Additionally, cultural and social factors may have a stronger influence on what people will choose to purchase even when given so-called healthier choices (Cummins, Curtis, Diez-Roux, & Macintyre, 2007), and environmental cues can cause people to make sub-optimal choices even when intending to act in their self-interest (Just and Payne, 2009).

Policy Implications

The success of these stores is compelling for policymakers. Initially, the development of Witherbee's was a grassroots movement by community members interested in a full-service grocery store for their neighborhood. Using local community groups like the Neighborhood Improvement and Preservation Project and the Local Initiatives Support Corporation to lobby funding from higher-level organizations, sponsors from the State of Michigan, the U.S. Department of Housing and Urban Development, and local community foundations soon joined to provide financial support. The project became a statewide model to support efforts to bring small grocery stores to other under-serviced urban neighborhoods (LISC-Flint, 2008).

This model has been successful in part because of efforts by the Downtown Development Authority of the City of Flint to increase security in the downtown core to entice area residents to frequent the new developments. This strategy echoes Bowes (2007), who indicated that "public policy strategies meant to encourage retail development in a particular part of the city such as downtown need to include efforts to reduce crime" (p. 88).

The small scale of the grocery stores means a smaller percentage of the market is needed to remain profitable. The cost-savings to consumers provided in the results section are in line with the grocer margins projected by Witherbee's financial backers (27–29%), whose plan was to remain competitive with large-scale grocery retailers (20–24% margin) while staying far below the margins expected for convenience stores (40%) (LISC-Flint, 2008). A market analysis of the community prior to the opening of Witherbee's indicated a 60% leakage rate for money spent outside the neighborhood, suggesting a large untapped demand for goods (see also Carr, 1999; Porter, 1995). The report indicates that the market would need to re-capture 4.3% of the leakage rate to remain profitable (LISC-Flint, 2008). If Witherbee's captures this part of the market demand, it could serve as a model for future public/private partnerships to develop grocery stores in other disadvantaged neighborhoods in this region and elsewhere.

Because Witherbee's resulted from a grassroots movement, it is instructive for planners/policymakers and conventional retailers. The attention given to Witherbee's by local investors likely contributed to its opening, since close attention was given to the needs of the neighborhood and neighborhood-based leadership was present throughout. Both of these elements are suggested as necessary components in local economic development (Carley, Kirk, & McIntosh, 2001). The organization that aided Witherbee's (LISC) was also the catalyst for a grocery store in Harlem (Lavin, 2000). Since not all revitalization comes from grassroots movements, however, it is important to engage the public and private sectors in planning for new development. The new grocery stores in Flint demonstrate the policy implication that "public officials cannot rely on regional growth to solve the problems of poor neighborhoods" (Blair and Carroll, 2007, p. 274). Indeed, both stores owe their existence to the local-level investors who observed a need for retail within their neighborhood.

Attracting grocery stores and other retail to urban centers can be difficult where site availability, human resources, or aid programs for new retail are unavailable or sparse (Nayga and Weinburg, 1999; Pothukuchi, 2005), and many governments and would-be investors can be shy of taking the risk. This aversion is a potential reason for metropolitan disparities seen in urban neighborhoods (Blair and Carroll, 2007). Yet, there is clearly potential for retail to locate in urban centers. A government-sponsored initiative in the U K. recently spurred the development of a supermarket within a designated regeneration area (Mitchell and Kirkup, 2003). By incentivizing development in this disadvantaged neighborhood, the government was able to match retailers with suitable areas to develop stores that would be both profitable from a business standpoint and restorative from a local community development standpoint. This appears to be the case in Flint with the opening of Witherbee's, and additional retail initiatives have flourished in the neighborhood. Witherbee's may serve as a catalyst for multiplier effects on local economic development.

This community-centered strategy is in contrast to the large-scale, tourist-oriented economic development strategies of the 1970s and 1980s. These past projects often did not deliver on their promises of jobs (Krumholz, 1991), and frequently failed due to their reliance on outside populations to sustain their high operating costs.

Investment in retail may not be a catch-all solution for improving health status (Cummins et al., 2008; Cummins & Macintyre, 2002), but the addition of new food retail does lessen the social inequalities created when these areas were initially abandoned by grocery stores (Carley et al., 2001; Dunkley, Helling, & Sawicki, 2004; Williams and Hubbard, 2001). As mentioned earlier, various tax and zoning incentives were given by the City of Flint to the operators of Witherbee's

(City of Flint, 2010), suggesting that municipal governments are beginning to play a larger role in healthy eating. Elsewhere, other initiatives like the FRESH Food Store Program also facilitate the development of nutritious food sellers in distressed communities by providing tax and zoning incentives to qualified retailers in New York (Food Retail Expansion to Support Health, 2011).

Although this paper necessarily cannot consider all prospects for food as local economic development, formal-sector interventions like those seen in this paper will not necessarily occur in all neighborhoods where there is a need. Therefore, it is useful to briefly consider that where investment in retail is not possible or desired, there exist many movements which emphasize local food networks as a form of economic development. The national Growing Power movement is one of many organizations that provide training and support for prospective growers (Growing Power, 2011). Beyond this, the Growing Home movement in Chicago combines job training and organic agriculture to provide employment opportunities for troubled residents (Growing Home, 2011). Given that food is an essential building block of life and many opportunities for growth exist within food systems (including locally), these programs may offer promise as community and economic development strategies, especially in neighborhoods where conventional food retailers are unlikely to invest.

CONCLUSIONS

The contributions of this research will benefit researchers, planners, and investors. An empirical mixed-methods approach was employed to locate food deserts in urban areas. GIS was used to map food retailers and census data to determine potential food deserts, while food basket pricing was conducted to examine variations in the price and availability of nutritious foods. The GIS approach can be used in other urban settings to locate potential food deserts, giving other communities evidence for creating policies to support community development in disadvantaged neighborhoods through food retail.

This research pinpointed potential food desert neighborhoods in Flint, Michigan. Because the city exemplifies the problems of many post-industrial shrinking cities of North America and Western Europe, the methods employed in this research can be replicated elsewhere. Food basket pricing before and after the opening of two new grocery stores showed that much of downtown Flint is no longer a food desert. This approach included the extrapolation of pricing to all grocery stores within the same chain to provide a view of grocery pricing throughout the county. The finding that spatial and economic accessibility were restored to a food desert is valuable for many parties: the city, since downtown now appears more attractive to prospective apartment tenants and homeowners; the new grocery stores, as they may be seen as the conquerors of the food desert; investors in urban retail, since the stores may provide a multiplier effect in economic development in these neighborhoods; and the residents who have lived in the area for years, since the benefits they see from lower nutritious food costs may contribute to improved dietary habits, and even health.

This research is a valuable starting point for learning more about food-based interventions in impoverished communities. Where communities are aware of future store openings, pre-intervention studies like this will help to identify areas in need of attention. This will allow stores to target their product range to best suit area residents. It is through better understanding the interaction of consumer behavior and the food environment that planners, policymakers, investors, and researchers can make effective changes to improve quality of life and health outcomes in once deprived urban areas through profitable community development initiatives. This article provides a foundation for identifying and evaluating areas for these interventions.

ACKNOWLEDGMENTS: The authors wish to thank the Genesee County Land Bank, Flint NIPP, and Michael Freeman for their time and the use of their data.

APPENDIX
Ontario Nutritious Food Basket Items

	Milk Products		Fruit/Veggies
	2% Milk (gallon)	lb	Oranges
each	Yogurt	64	Apple juice, canned or tetra
24	Cheddar cheese, Medium	12	Orange juice, frozen
pack	Processed cheese slices	lb	Tomatoes
24	Mozzarella cheese	28	Whole tomatoes, canned
2 qts	Vanilla ice cream	46	Tomato juice, canned
	Meat and alternatives	lb	Apples
lb	Round steak	lb	Bananas
lb	Stewing beef	lb	Grapes
lb	Ground beef, medium	lb	Pears
lb	Pork chops, loin	24	Raisins
lb	Chicken legs	14	Fruit cocktail, canned
pack	Wieners, beef & pork	8 lbs	Potatoes, fresh
lb	Sliced ham	32	Frozen french fried potatoes
1 lb	Frozen fish fillets	head	Broccoli
14.75	Pink salmon, canned	head	Cabbage
12	Tuna, flaked, canned	3 lbs	Carrots, fresh
	Large eggs (dozen)	head	Celery
28	Baked beans, canned	1	Cucumber
32	Dry navy beans	head	Lettuce, iceberg
64	Peanut butter	head	Lettuce, romaine
	Grain products	lb	Onions
	Bread, enriched, white	1	Green pepper
	Bread, whole wheat	lb	Turnips
	Hot dog/hamburg rolls	16 oz	Mixed vegetables, frozen
	Flour, white, all purpose	14 5	Kernel corn, canned
	Flour, whole wheat	14 5	Green peas, canned
48	Macaroni/spaghetti		Other
42	Rice, long-grain, white	45 oz	Margarine, tub
	Macaroni/cheese dinner	lb	Butter
42	Oatmeal, regular	48 oz	Canola oil
18	Corn flakes	16 oz	Salad dressing
14	Shreddies (chex)	5 lbs	Sugar, white
16	Soda crackers, salted	18 oz	Strawberry jam
7 5	Social tea biscuits

Geography

TIGER/Line® with Selected Demographic and Economic Data

A limited set of TIGER/Line Shapefiles are available pre-joined with data in geodatabase and shapefile format.

We continue to work with our data providers to ensure there are easy links between the geographic products and the data products

American Community Survey 5-Year Estimates — Geodatabase Format

2009 - 2013 Detailed Tables

2008 - 2012 Detailed Tables

2007 - 2011 Block Group Data

These geodatabases join the block group geography from the TIGER/Line Shapefiles to the 2007-2011 American Community Survey 5-year estimates for 70 tables.

Download the Geodatabases: Select a State GO

Data are available for the United States and Puerto Rico. Not all tables are available for Puerto Rico.

In each geodatabase is a metadata file with a short name and a full description of each cell. The attribute table for each geodatabase contains the short names for each data element. Additional metadata for the geography can be found in the 2011 TIGER/Line Shapefiles.

These geodatabases were created using ArcGIS 10.1.

List of Tables Included.

Number	Title
B01001	Sex By Age
B01002	Median Age By Sex

Elevated Blood Lead Levels in Children Associated With the Flint Drinking Water Crisis: A Spatial Analysis of Risk and Public Health Response

Mona Hanna-Attisha, MD, MPH, Jenny LaChance, MS, Richard Casey Sadler, PhD, and Allison Champney Schnepp, MD

Objectives. We analyzed differences in pediatric elevated blood lead level incidence before and after Flint, Michigan, introduced a more corrosive water source into an aging water system without adequate corrosion control.

Methods We reviewed blood lead levels for children younger than 5 years before (2013) and after (2015) water source change in Greater Flint, Michigan We assessed the percentage of elevated blood lead levels in both time periods, and identified geographical locations through spatial analysis.

Results. Incidence of elevated blood lead levels increased from 2.4% to 4.9% ($P< 05$) after water source change, and neighborhoods with the highest water lead levels experienced a 6.6% increase. No significant change was seen outside the city. Geospatial analysis identified disadvantaged neighborhoods as having the greatest elevated blood lead level increases and informed response prioritization during the now-declared public health emergency.

Conclusions The percentage of children with elevated blood lead levels increased after water source change, particularly in socioeconomically disadvantaged neighborhoods. Water is a growing source of childhood lead exposure because of aging infrastructure. (*Am J Public Health.* Published online ahead of print December 21, 2015 e1–e8. doi:10 2105/AJPH.2015.303003)

In April 2014, the postindustrial city of Flint, Michigan, under state-appointed emergency management, changed its water supply from Detroit-supplied Lake Huron water to the Flint River as a temporary measure, awaiting a new pipeline to Lake Huron in 2016. Intended to save money, the change in source water severed a half-century relationship with the Detroit Water and Sewage Department. Shortly after the switch to Flint River water, residents voiced concerns regarding water color, taste, and odor, and various health complaints including skin rashes [1] Bacteria, including *Escherichia coli*, were detected in the distribution system, resulting in Safe Drinking Water Act violations [2] Additional disinfection to control bacteria spurred formation of disinfection byproducts including total trihalomethanes, resulting in Safe Drinking Water Act violations for trihalomethane levels.[2]

Water from the Detroit Water and Sewage Department had very low corrosivity for lead as indicated by low chloride, low chloride-to-sulfate mass ratio, and presence of an orthophosphate corrosion inhibitor.[3,4] By contrast, Flint River water had high chloride, high chloride-to-sulfate mass ratio, and no corrosion inhibitor [5] Switching from Detroit's Lake Huron to Flint River water created a perfect storm for lead leaching into drinking water.[6] The aging Flint water distribution system contains a high percentage of lead pipes and lead plumbing, with estimates of lead service lines ranging from 10% to 80%.[7] Researchers from Virginia Tech University reported increases in water lead levels (WLLs),[5] but changes in blood lead levels (BLLs) were unknown.

Lead is a potent neurotoxin, and childhood lead poisoning has an impact on many developmental and biological processes, most notably intelligence, behavior, and overall life achievement.[8] With estimated societal costs in the billions,[9–11] lead poisoning has a disproportionate impact on low-income and minority children [12] When one considers the irreversible, life-altering, costly, and disparate impact of lead exposure, primary prevention is necessary to eliminate exposure.[13]

Historically, the industrial revolution's introduction of lead into a host of products has contributed to a long-running and largely silent pediatric epidemic.[14] With lead now removed from gasoline and paint, the incidence of childhood lead poisoning has decreased.[15] However, lead contamination of drinking water may be increasing because of lead-containing water infrastructures, changes in water sources, and changes in water treatment including disinfectant.[16–18] A soluble metal, lead leaches into drinking water via lead-based plumbing or lead particles that detach from degrading plumbing components. ("Plumbing" is derived from the Latin word for lead,

"plumbum.") Lead was restricted in plumbing material in 1986, but older homes and neighborhoods may still contain lead service lines, lead connections, lead solder, or other lead-based plumbing materials. Lead solubility and particulate release is highly variable and depends on many factors including water softness, temperature, and acidity.[19–21] The US Environmental Protection Agency (EPA) regulates lead in public water supplies under the Safe Drinking Water Act Lead and Copper Rule, which requires action when lead levels reach 15 parts per billion (ppb).

Lead in drinking water is different from lead from other sources, as it disproportionately affects developmentally vulnerable children and pregnant mothers. Children can absorb 40% to 50% of an oral dose of water-soluble lead compared with 3% to 10% for adults.[22] In a dose–response relationship for children aged 1 to 5 years, for every 1-ppb increase in water lead, blood lead increases 35%.[23] The greatest risk of lead in water may be to infants on reconstituted formula. Among infants drinking formula made from tap water at 10 ppb, about 25% would experience a BLL above the Centers for Disease Control and Prevention (CDC) elevated blood lead level (EBLL) of 5 micrograms per deciliter (μg/dL).[24] Tap water may account for more than 85% of total lead exposure among infants consuming reconstituted formula.[25] A known abortifacient, lead has also been implicated in increased fetal deaths and reduced birth weights.[26]

As recommended by the CDC and supported by the American Academy of Pediatrics, blood lead screening is routine for high-risk populations and for children insured by Medicaid at age 1 and 2 years.[27] The CDC-recommended screening ages are based on child development (increased oral–motor behavior), which places a child most at risk for house-based lead exposure (e.g., peeling paint, soil, dust). State and national blood lead–screening programs, however, do not adequately capture the risk of lead in water because infants are at greatest risk.

Armed with reports of elevated WLLs and recognizing the lifelong consequences of lead exposure, our research team sought to analyze blood lead data before (pre) and after (post) the water source switch with a geographic information system (GIS) to determine lead exposure risk and prioritize responses. This research has immediate public policy, public health, environmental, and socioeconomic implications.

This research includes Flint, Michigan, and surrounding municipalities in Genesee County (Greater Flint). Greater Flint is a postindustrial region of nearly 500 000 people struggling from years of disinvestment by the automobile industry and associated manufacturing activities: the region has lost 77% of its manufacturing employment and 41% of employment overall since 1980.[28] National and local data sources demonstrate dismal indicators for children, especially within Flint city limits.[29–32] Greater Flint ranks toward the bottom of the state in rates of childhood poverty (42% in Flint vs 16.2% in Michigan and 14.8% in the United States), unemployment, violent crime, illicit drug use, domestic violence, preterm births, infant mortality, and overall health outcomes (81st out of 82 Michigan counties).

Greater Flint's struggles have been amplified by a history of racial discrimination, whereby exclusionary housing practices were common.[33,34] Such attitudes toward integration later precipitated White flight and emboldened home-rule governance,[35,36] causing a massive decline in tax revenue for the city. The declining industrial and residential tax bases strained the city's ability to provide basic services and reversed the public health fortunes of the city and suburbs.[37] Severely reduced city population densities reduced water demand in the distribution system, exacerbating problems with lead corrosion.

METHODS

This retrospective study includes all children younger than 5 years who had a BLL processed through the Hurley Medical Center's laboratory, which runs BLLs for most Genesee County children. The pre time period (before the water source change) was January 1, 2013, to September 15, 2013, and the post time period (after the water source change) was January 1, 2015, to September 15, 2015. The primary study group comprised children living within the city of Flint ($n = 1473$, pre = 736; post = 737) who received water from the city water system. Children living outside the city where the water source was unchanged served as a comparison group ($n = 2202$; pre = 1210; post = 992).

After institutional review board approval and Health Insurance Portability and Accountability Act waiver, we drew data from the Epic electronic medical record system including BLL, medical record number, date of birth, date of blood draw, full address, sex, and race. For each child, only the highest BLL was maintained in the data set. We coded timing (pre or post) of the BLL on the basis of the date of blood draw. We calculated age at time of blood draw.

We geocoded the data set with a dual-range address locator, and manually confirmed accuracy of geocoded addresses. We conducted a series of spatial joins to assign participant records to Greater Flint municipalities and Flint wards (including those with high WLL), enabling the calculation of the number and percentage of children with EBLLs in each geographic region for both time periods. The reference value for EBLL was 5 μg/dL or greater. We identified Flint wards with high WLLs with water lead sampling maps.[38] Wards 5, 6, and 7 had the highest WLLs; in each ward, more than 25% of samples had a WLL higher than 15 ppb. We theorized that children living in this combination of wards would have the highest incidence of EBLLs (referred to as "high WLL Flint"; the remainder of Flint was referred to as "lower WLL Flint").

We derived overall neighborhood-level socioeconomic disadvantage from census block group variables intended to measure material and social deprivation. We calculated these scores from an unweighted z score sum of rates of lone parenthood, poverty, low educational attainment, and unemployment (adapted from Pampalon et al.[39]; used previously in Flint by Sadler et al.[40]), and assigned these to each child on the basis of home address. Positive values denote higher disadvantage, and negative values denote lower disadvantage. Table 1 highlights the overall socioeconomic disadvantage score comparison by time period and area.

We created spatial references for EBLL risk and a predictive surface for BLL by using GIS, providing the ability to see otherwise invisible spatial–temporal patterns in environmental exposure.[17] Because of the need to

TABLE 1—Demographic Comparison of the Time Periods Before (Pre) and After (Post) Water Source Change From Detroit-Supplied Lake Huron Water to the Flint River, by Area: Flint, MI, 2013 and 2015

	Outside Flint		All Flint		High WLL Flint		Lower WLL Flint

Note WLL = water lead level. No statistically significant differences were found in any pre–post value within any of the 4 geographical areas

understand spatial variations and geographically target resources, we also ran ordinary Kriging with a spherical semivariogram model on the entire data set for Greater Flint, allowing interpolation of associated BLL risks with lead in water. Previous methods for evaluating spatial variation in lead levels have ranged from multivariable analyses at the individual level[41] to interpolation methods such as inverse distance weighting[42] and Kriging [43] Given our assumption that lead risk is spatially correlated in Greater Flint because of the age and condition of pipes, interpolation methods are appropriate for building a preliminary risk surface. Both inverse distance weighting and Kriging derive such surfaces by calculating values at unmeasured locations based on weighting nearby measured values more strongly than distant values.[44] Whereas inverse distance weighting is a deterministic procedure and relies on predetermined mathematical formulae, Kriging has the added sophistication of using geostatistical models that consider spatial autocorrelation, thereby improving accuracy of prediction surfaces (ArcGIS Desktop version 10.3, Environmental Systems Research Institute, Redlands, CA). As well, Kriging can be run with relatively few input points. adequate ranges fall between 30 and 100 total points, although Kriging has been conducted with just 7.[44]

Our city of Flint sample included 736 children in the pre period and 737 children in the post period, which amounts to a density of approximately 22 points per square mile. Kriging has become an increasingly common method for measuring variations in soil lead, and is given more in-depth treatment elsewhere.[45] To examine change in proportion of children with EBLL from the pre to post time periods, we used χ^2 analysis with continuity correction for each area (outside Flint, all Flint, high WLL Flint, and lower WLL Flint). In addition, we examined differences in overall socioeconomic disadvantage scores from the pre to post time periods by using the independent t test. Finally, we used both χ^2 analysis with continuity correction and 1-way ANOVA to assess demographic differences by area. We used post hoc least significant difference analysis following statistically significant 1-way ANOVAs.

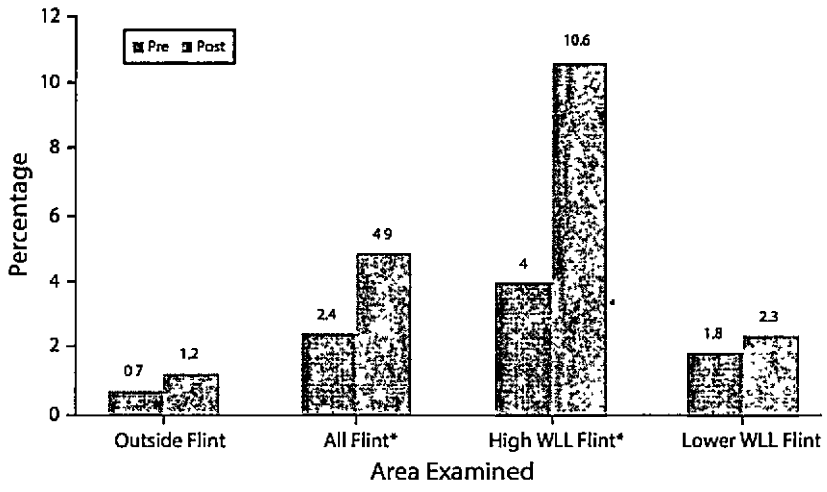
RESULTS

We uncovered a statistically significant increase in the proportion of Flint children with EBLL from the pre period to the proportion of Flint children in the post period. In the pre period, 2.4% of children in Flint had an EBLL; in the post period, 4 9% of children had an EBLL ($P<.05$). By comparison, outside of Flint water, the change in EBLL was not statistically significant (0 7% to 1.2%; $P>.05$). In high WLL Flint, EBLL increased from 4.0% to 10 6% ($P<.05$). Figure 1 shows the EBLL percentage change per area.

Results of the GIS analyses show significant clustering of EBLLs within the Flint city limits. According to ordinary Kriging, Figure 2 shows a predicted surface based on observations of actual child BLL geocoded to home address to visualize BLL variation over space (measured in μg/dL). The darkest shades of red represent the highest risk for EBLL based on existing observations. Outside Flint, the entire county falls entirely within the lowest half of the range (in shades of blue); the only locations where predicted BLL is greater than 1.75 μg/dL is within Flint city limits.

Within Figure 2, each ward is also labeled according to the percentage of water samples that exceeded 15 ppb. The areas with the highest WLLs strongly coincide with the areas with the highest predicted BLLs. In addition, the high percentage of EBLL in wards 5, 6, and 7 also correspond with the high WLLs in wards 5, 6, and 7 (the labels in Figure 2). Table 2 shows ward-specific WLLs, pre period and post period EBLL percentages, and predicted BLL and predicted change in BLL from Kriging.

Areas experiencing the highest predicted BLL in the post period (Figure 2) are generally also areas with greatest change in predicted BLL (measured in μg/dL) when compared with the pre period (Table 2; Figure A, available as a supplement to the online version of this article at http://www.ajph.org). Figure A quantifies this rate of change with a green to red scale: large increases are shown in increasingly darker shades of red, whereas large decreases are shown in increasingly darker shades of green. These once again match with city wards that experienced greater rates of EBLL percentage increase (Figure 1, Table 2). In wards 5 and 6 (which experienced a predicted 0.51 and 0.27 μg/dL increase, respectively), the EBLL percentage more than tripled In ward 5, the EBLL percentage increased from 4.9% to 15.7% ($P<.05$). The area of intersection between wards 3, 4, and 5 (in the east side of the city) also appeared high in the Kriging analysis of Figure 2, and with a different unit of aggregation this neighborhood would also exhibit a significant increase in EBLL percentage. Ward 7 had high pre period and post period EBLL percentage levels above 5% (with a particularly high rate in the western portion of the ward). Citywide,



Note WLL = water lead level.
*$P < .05$

FIGURE 1—Comparison of Elevated Blood Lead Level Percentage, Before (Pre) and After (Post) Water Source Change From Detroit-Supplied Lake Huron Water to the Flint River: Flint, MI, 2013 and 2015

4 wards (1, 4, 7, and 9) experienced decreases in predicted BLL, 3 wards (2, 5, and 6) experienced large increases, and 2 wards (3 and 8) remained largely the same (Figure A).

Overall, statistically significant differences exist between the areas examined (outside Flint, high WLL Flint, and lower WLL Flint) in all demographic characteristics except sex. The overall percentage of African American children is 24.4% outside Flint, compared with 76.8% in high WLL Flint and 67 0% in lower WLL Flint ($P < .001$) Children outside Flint were younger (mean = 1 86 years [SD = 1.10]) than high WLL Flint (mean = 2.04 years [SD = 1.02]) and lower WLL Flint (mean = 2.09 years [SD = 1.07]; $P < .001$) Differences in overall socioeconomic disadvantage scores are likewise significant ($P < 001$). Post hoc least significant difference analysis shows statistically significant differences for overall socioeconomic disadvantage between outside Flint and high WLL Flint ($P < 001$), between outside Flint and lower WLL Flint ($P < 001$), and between high WLL Flint and lower WLL Flint ($P < .001$).

DISCUSSION

Our findings reveal a striking increase in the percentage of Flint children with EBLL when we considered identical seasons before and after the water source switch, with no statistically significant increase in EBLL outside Flint The spatial and statistical analyses highlight the greatest EBLL increase within certain wards of Flint, which correspond to the areas of elevated WLLs.

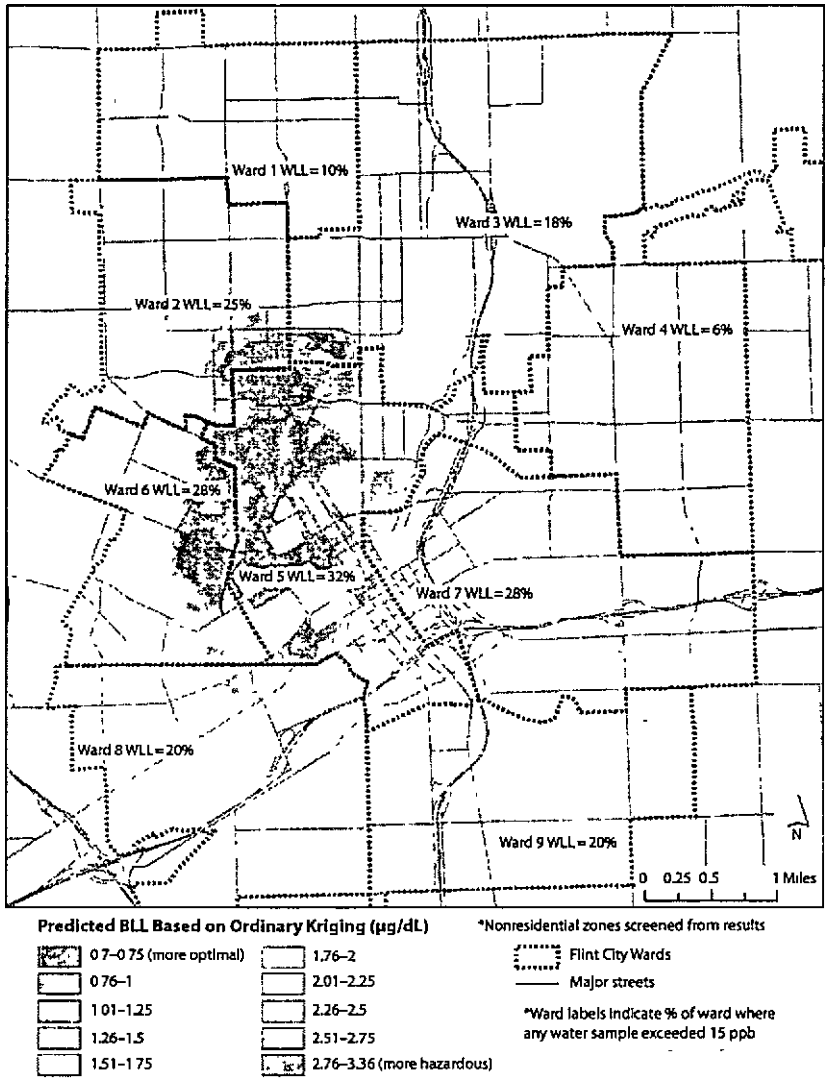
A review of alternative sources of lead exposure reveals no other potential environmental confounders during the same time period. Demolition projects by the Genesee County Land Bank Authority (Heidi Phaneuf, written communication, October 29, 2015) showed no spatial relationship to the areas of increased EBLL rates. As well, no known new lead-producing factories nor changes in indoor lead remediation programs were implemented during the study period. Although Flint has a significant automobile history, the historical location of potentially lead-using manufacturing (e g , battery plants, paint and pigment storage, production plants) do not align with current exposures.

Because there was no known alternative source for increased lead exposure during this time period, the geospatial WLL results, the innate corrosive properties of Flint River water, and, most importantly, the lack of corrosion control, our findings strongly implicate the water source change as the probable cause for the dramatic increase in EBLL percentage.

As in many urban areas with high levels of socioeconomic disadvantage and minority populations,[46] we found a preexisting disparity in lead poisoning. In our pre water source switch data, the EBLL percentage in Flint was 2.4% compared with 0.7% outside Flint. This disparity widened with a post water source switch Flint EBLL of 4.8%, with no change in socioeconomic or demographic variables (Table 1). Flint children already suffer from risk factors that innately increase their lead exposure: poor nutrition, concentrated poverty, and older housing stock. With limited protective measures, such as low rates of breastfeeding,[47,48] and scarce resources for water alternatives, lead in water further exacerbates preexisting risk factors. Increased lead-poisoning rates have profound implications for the life course potential of an entire cohort of Flint children already rattled with toxic stress contributors (e.g , poverty, violence, unemployment, food insecurity). This is particularly troublesome in light of recent findings of the epigenetic effects of lead exposure on one's grandchildren [49]

The Kriging analysis showed the highest predicted BLLs within the city along a wide swath north and west of downtown. This area has seen significant demographic change, an increase in poverty, and an increase in vacant properties, especially over the past 25 years (Richard Sadler, written communication, October 5, 2015). Higher BLLs were also predicted northeast of downtown and in other older neighborhoods where poverty and vacancy rates have been high for many decades. Significantly, the biggest changes in predicted BLL since 2013 were also found in these impoverished neighborhoods; more stable neighborhoods in the far north and south of the city may have experienced improved predicted BLLs because of prevention efforts taken by the more-often middle-class residents in response to the water source change. Of considerable interest is that the areas shown as having the best public health indices by Board and Dunsmore in Figure 2 of their 1948 article[37] are virtually identical to the areas with the worst lead levels today.

After our preliminary zip code–based findings (pre to post water source switch



Note BLL = blood lead level, WLL = water lead level.

FIGURE 2—Predicted Surface of Child Blood Lead Level and Ward-Specific Elevated Water Lead Level After (Post) Water Source Change From Detroit-Supplied Lake Huron Water to the Flint River: Flint, MI, 2015

EBLL = 2.1% to 4.0%, $P < .05$) were shared at a press conference,[50] the City of Flint and the Genesee County Health Department released health advisories,[51] and the county health department subsequently declared a public health emergency.[52] Shortly after, the State of Michigan released an action plan with short- and long-term solutions focusing on additional sampling, filter distribution, and corrosion control.[53] One week later, Michigan's governor revealed WLLs in 3 schools to be in the toxic range with 1 school showing a water lead level of 101 ppb, almost 7 times the level that requires remediation.[54] A $12 million plan to reconnect to Detroit's water source was announced.[54]

We undertook our current spatial analytic approach to overcome limitations of zip code boundaries and to develop a more thorough understanding of specific areas in Flint where EBLL risk is more severe (post office addresses often do not align with municipal boundaries in Michigan, and one third of Flint mailing addresses are not in the city of Flint). This spatial analysis is valuable for understanding subneighborhood patterns in EBLL risk because aggregation by zip code or ward minimizes the richness of spatial variation and creates artificial barriers that may obscure hot spots (as in the confluence of wards 3, 4, and 5).

Such use of spatial analysis for estimating lead exposure risk has been used to target blood lead–screening programs. In our case, in addition to identifying areas of risk, spatial analysis helps guide municipal and nongovernmental relief efforts aimed at identifying vulnerable populations in specific neighborhoods for priority distribution of resources (e.g., bottled water, filters, premixed formula).

Limitations

Our research contains a few limitations. First, we may have underestimated water-based lead exposure. Our sample included all children younger than 5 years with blood lead screening, although the greatest risk from lead in water is in utero and during infancy when lead screening is not done. If lead screening were recommended at a younger age (e.g., 6 or 9 months) for children who live in homes with potential lead piping or lead service lines, more children with EBLL from water could be identified, although state and national comparison rates would be lacking. Second, lead screening is not completed for all children. It is mandated by Medicaid and CDC-recommended for other high-risk groups; such data may be skewed toward higher-risk children and thus overestimate EBLL, especially in non–high-risk areas. Third, the underserved population of Flint has significant housing instability. lead levels may reflect previous environmental exposure, and exposure often cannot be adequately estimated on the basis of current residence alone.[55]

Fourth, although large, our sample does not reflect all lead screening from Flint. We estimate that our data capture approximately 60% to 70% of the Michigan Childhood Lead Poisoning Prevention Program data for Flint. Annual data released from this program further support our findings, revealing an annual decrease in EBLL percentage from May to April 2010 to 2011 until the same period in 2013 to 2014 (4.1%,

TABLE 2—Ward-Based Comparison of Observed and Predicted Water Lead Level ≥ 15 ppb Percentages, Before (Pre) and After (Post) Water Source Change From Detroit-Supplied Lake Huron Water to the Flint River: Flint, MI, 2013 and 2015

Ward	WLL % > 15 ppb	Pre EBLL%	Post EBLL%	Predicted Post BLL[a]	Change in Predicted BLL From Pre to Post, μg/dL
1	10	0.0	2.8	1.4	−0.10

[a]Ordinary Kriging geostatistical analysis.

[b]Indicates wards defined as high WLL risk in this study

3.3%, 2.7%, 2.2%, respectively[56]; Robert L. Scott, e-mail correspondence, September 25, 2015). Following the water switch in April 2014, the 4-year declining trend (as seen nationally) reversed with an annual EBLL of 3 0%.

We found consistent results (with control for age and methodology) when we analyzed Michigan Childhood Lead Poisoning Prevention Program data for both high WLL Flint (EBLL percentage increased: 6 6% to 9.6%) and outside Flint (EBLL percentage remained virtually unchanged 2.2% to 2 3%) Our institution-processed laboratory blood lead tests, however, had an even greater proportion of children with EBLLs versus state data in the post period. This may reflect that the BLLs processed at Hurley Medical Center, the region's only safety-net public hospital, represent a patient population most at risk with limited resources to afford tap water alternatives

Conclusions and Future Research

Future research directions include conducting more detailed geospatial analyses of lead service-line locations with locations of elevated BLLs and WLLs; repeating identical spatial and statistical analyses in the same time period in 2016 reflecting changes associated with the health advisory and return to Lake Huron source water; analyzing feeding type (breastfed or reconstituted formula) for children with EBLLs; analyzing cord blood lead of Flint newborns compared with non-Flint newborns, and conducting water lead testing from homes of children with EBLLs.

A once celebrated cost-cutting move for an economically distressed city, the water source change has now wrought untold economic, population health, and geopolitical burdens. With unchecked lead exposure for more than 18 months, it is fortunate that the duration was not longer (as was the case in Washington, DC,'s lead-in-water issue).[16] Even so, the Flint drinking water crisis is a dramatic failure of primary prevention The legal safeguards and regulating bodies designed to protect vulnerable populations from preventable lead exposure failed.

The Lead and Copper Rule requires water utilities to notify the state of a water source or treatment change recognizing that such changes can unintentionally have an impact on the system's corrosion control.[57] Although a review is required before implementing changes, the scope of risk assessment is not specified and is subject to misinterpretation. In response to the Flint drinking water crisis, the EPA recently released a memo reiterating and clarifying the need for states to conduct corrosion control reviews before implementing changes.[58] This recommendation is especially relevant for communities with aging infrastructures, usurped city governance, and minimal water utility capacity; in such situations, there is an increased need for state and federal expertise and oversight to support decisions that protect population health.

Through vigilant public health efforts, lead exposure has fallen dramatically over the past 30 years.[13] With the increasing recognition that no identifiable BLL is safe and without deleterious and irreversible health outcomes,[13] *Healthy People 2020* identified the elimination of EBLLs and underlying disparities in lead exposure as a goal.[59] Regrettably, our research reveals that the potentially increasing threat of lead in drinking water may dampen the significant strides in childhood lead-prevention efforts. As our aging water infrastructures continue to decay, and as communities across the nation struggle with finances and water supply sources, the situation in Flint, Michigan, may be a harbinger for future safe drinking-water challenges. Ironically, even when one is surrounded by the Great Lakes, safe drinking water is not a guarantee. AJPH

Publish Data to ArcGIS Online

Data can be shared easily within your organization in ArcGIS Online. Feature classes can be created in ArcMap for Desktop and then published to ArcGIS Online. The hosted feature layer will expose all vector datasets included in the map document.

In this section we present a few options:

- Publish a feature class from ArcMap Desktop

Why publish data to ArcGIS Online?

Hosting a feature layer on ArcGIS Online is an easy way to share data with an Internet audience if your own GIS server cannot be made public. Maps, apps, and desktop map viewers can access your services from anywhere on the Internet if you choose to allow it.

Feature layers are most appropriate for operational layers that go on top of reference layers such as a basemap. For example, a feature layer might contain information about the street signs in your neighborhood. Each feature (street sign) might include the sign name, date installed, and a website URL for reporting problems to your local street department.

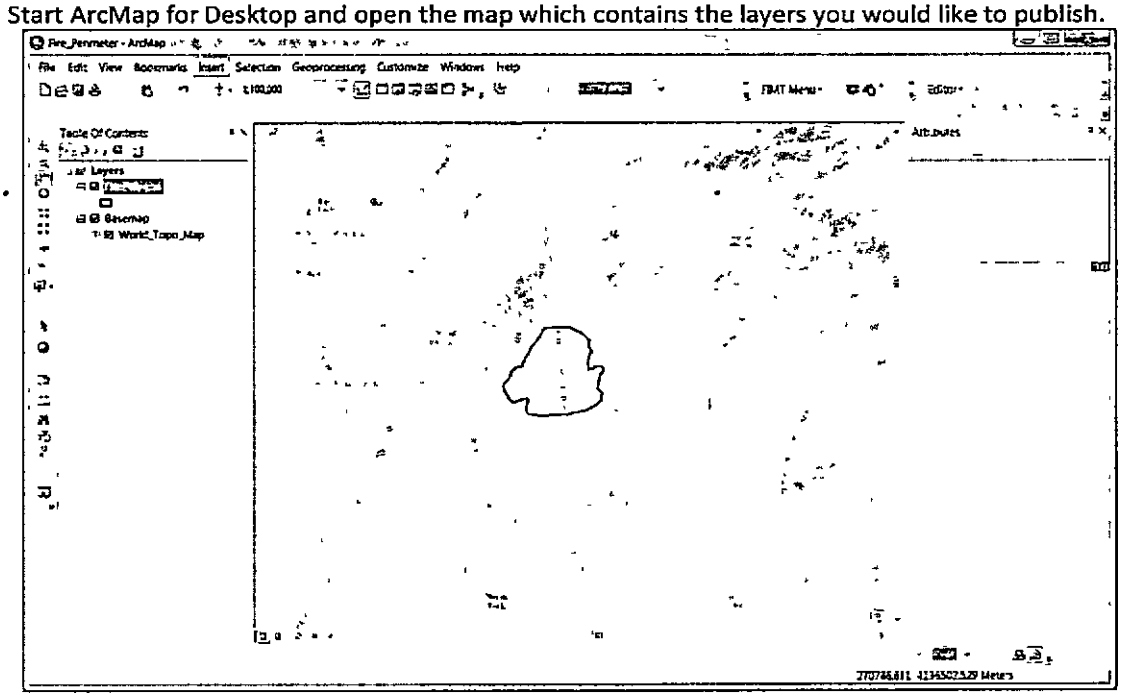
Resources for Publishing Data:

- https://doc.arcgis.com/en/arcgis-online/share-maps/publish-features.htm

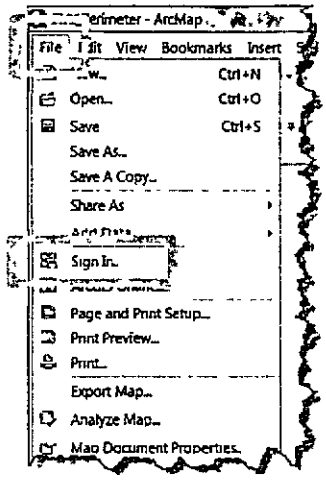
August 3, 2015

Publishing Data to ArcGIS Online from ArcMap Desktop

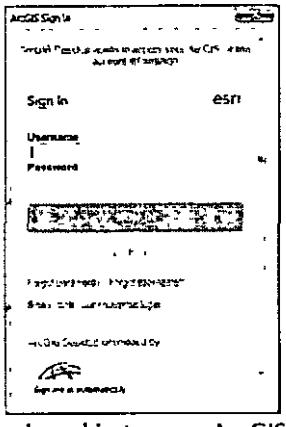
1. Start ArcMap for Desktop and open the map which contains the layers you would like to publish.



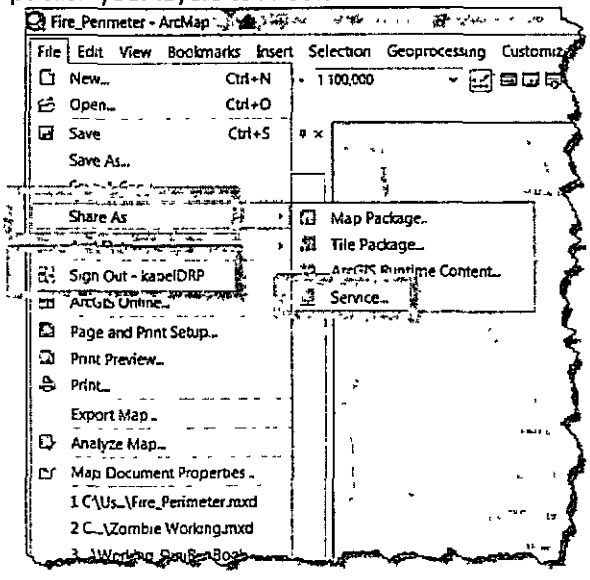
2. Click **File** and then **Sign In**



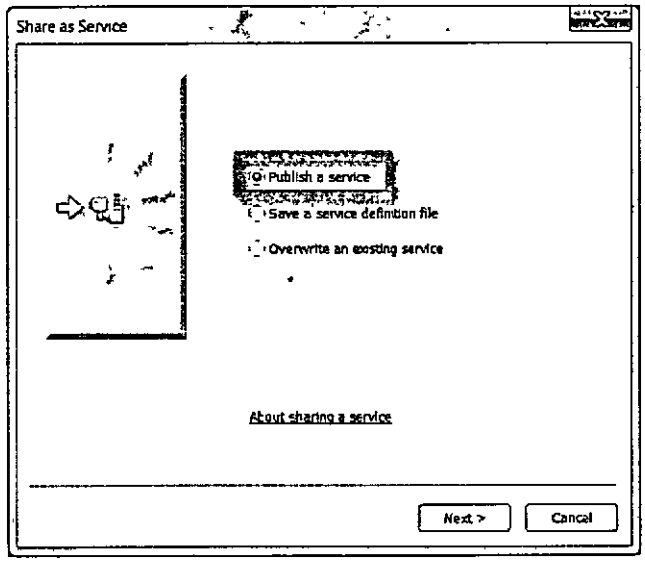
3. Sign in to your ArcGIS Online Account using your organization user name and password then click **SIGN IN**



4. Click **File** and notice that you are now signed in to your ArcGIS Online organization. Click **Share As** and then **Service...** to publish your layers to ArcGIS Online

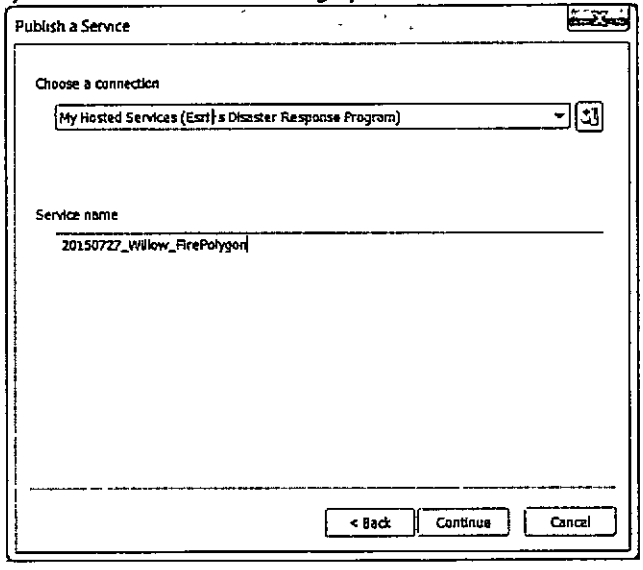


5. Click **Next** to accept the default, Publish a Service.

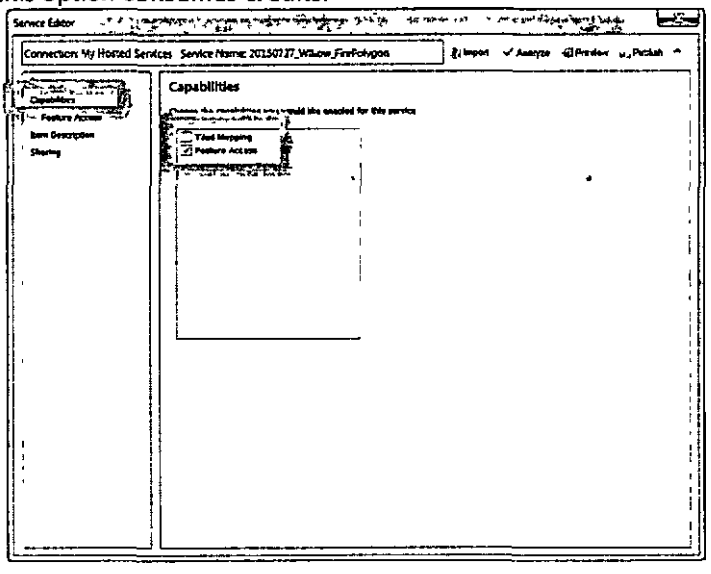


6. Choose a name for your service. There are no spaces allowed in the Service name, but underscores may be used. The connection drop down menu will be pre-set based on the name of your organization. Click **Continue**.

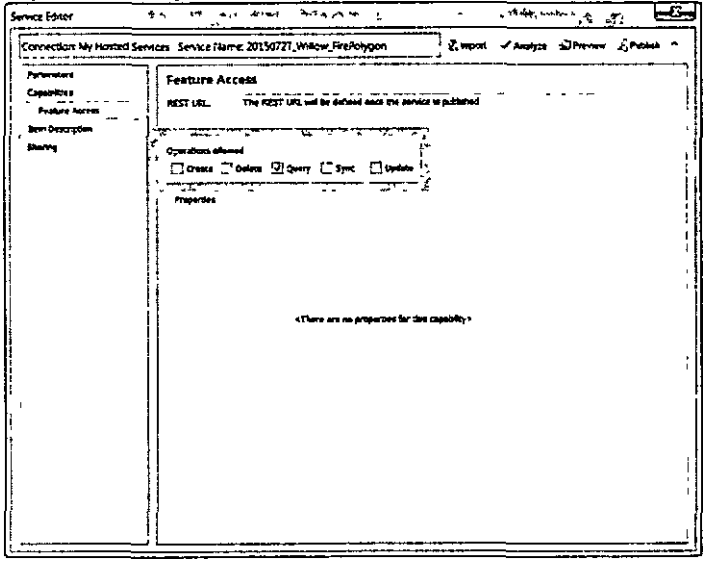
   If the connection drop down section is blank, you do not have permission to publish to your organization. Contact your administrator to change your role to Publisher.



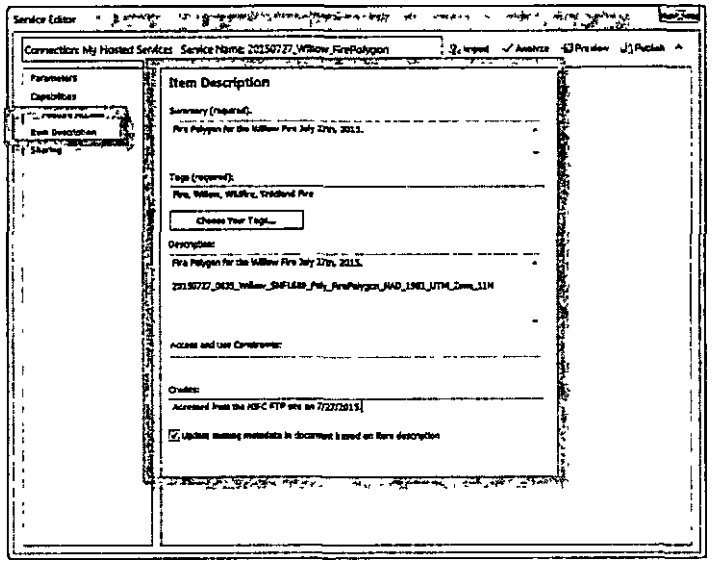
7. The Service Editor pane allows you to configure a service before publishing. Click **Capabilities** in the left hand pane. Toggle off **Tiled Mapping** and toggle on **Feature Access**. Tiled mapping is default but using this option consumes credits.



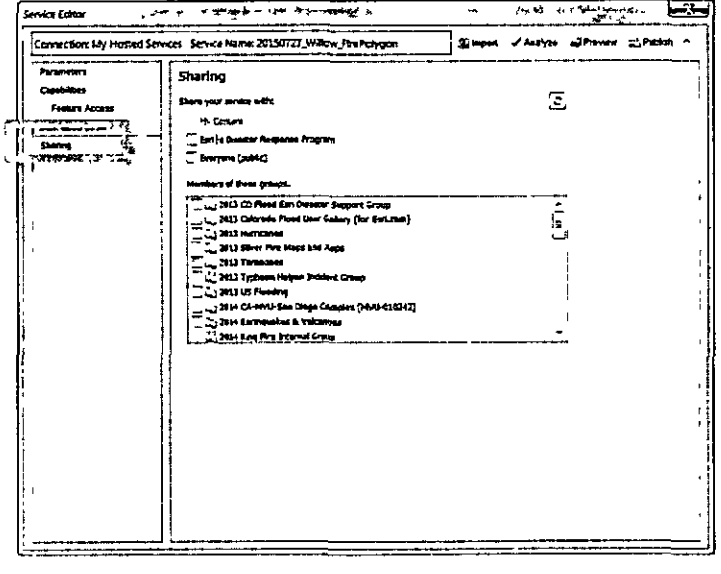
8. Click **Feature Access** in the left pane of the Service Editor to set advanced properties relating to what clients can do with the hosted feature layer. You can choose if features can be created, deleted, queried, synced, and updated.



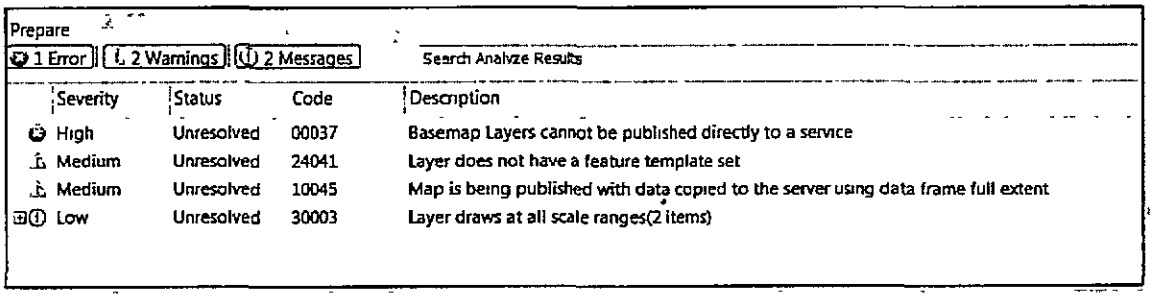
9. Click **Item Description** on the left panel and enter a summary and tags for your layer. You'll need to enter this information before you can publish. As a best practice, add as much information here as possible.



10. Click **Sharing** in the left panel to choose how your layer is shared. By default, your hosted feature layer is private, meaning it is only accessible to you. Your hosted feature layer will always be visible in My Content, but you can also choose to share it with everyone or just members of certain ArcGIS Online groups.

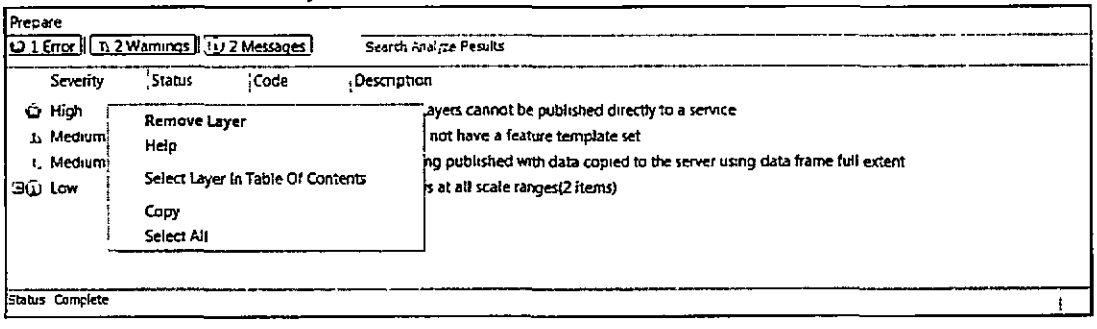


11. Click ✓**Analyze** in the top corner of the Service Editor. This examines your map to see if it can be published. The Prepare window will appear under the Service Editor.

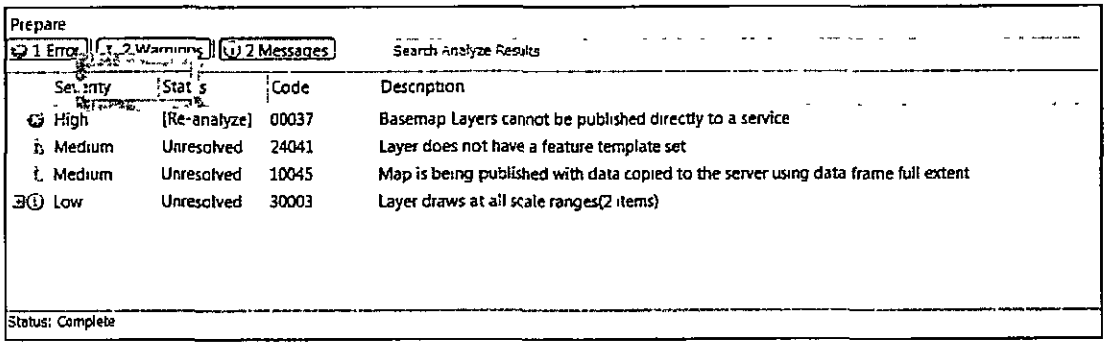


12. The Prepare window outlines the errors that must be fixed before publishing. You must fix the High Severity Errors in the **Prepare** window before you can publish. Optionally, you can fix the warnings and informational messages to further improve the performance and appearance of your hosted feature layer.

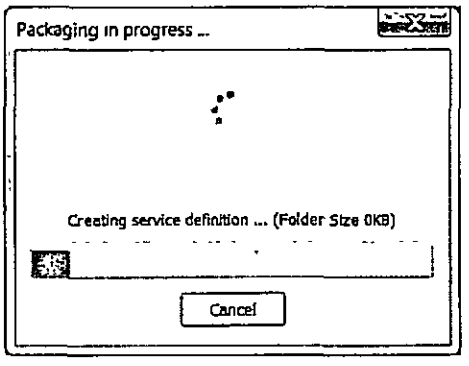
    In this example, we are using an Esri basemap in our ArcMap that cannot be published to ArcGIS Online (this basemap will be available on ArcGIS Online). To remove this layer, right click on the error and click **Remove Layer.**



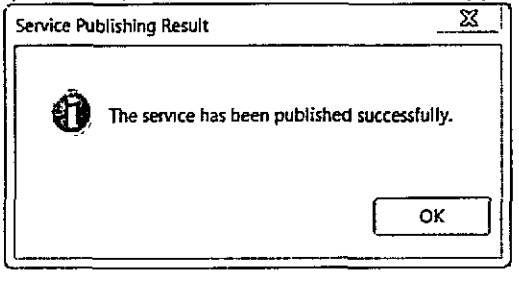
13. The status of the error now reads "Re-analyze". Click **Analyze** in the Service Editor to re-run the analysis. If you return to the Prepare window, you notice that the high severity error has been removed.



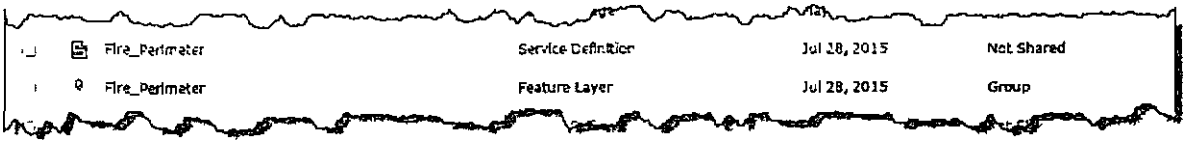
14. Return to the Service Editor window. Click **Publish** to publish your service to ArcGIS Online. A status window will appear and the service will be published depending on the speed of your internet connection.



15. When the service has been published, a confirmation window will appear.



16. Log in to ArcGIS Online in your browser and navigate to **My Content** to view the feature layer.



17. You can now add this layer to a new or existing map.

United Way
United Way
of Genesee County

FOOD BANK
of Eastern Michigan

Talking Points for Water Donation

Purpose:

To assist in the Flint water crises response many partners have been receiving calls regarding individuals and organizations wishing to assist through the donation of water, filters, and funds. This tool is intended to assist community partners in directing donations.

Cash Donations:

The United Way of Genesee County (UWGC) has set up a fund that is used for the purchase of filters, bottled water, and prevention efforts. 100% of the fund is used for these projects and no Administrative Fee is assessed.

*The UWGC has sourced more than 11,000 filters systems and 5,000 replacement filters, ongoing sources of bottled water to the Food Bank of Eastern Michigan and also supports a dedicated driver for daily distribution

UWGC Contact information:

James Gaskin, CEO, UWGC: 810-240-0297 (Cell), 810-762-0856 (O), jgaskin@unitedwaygenesee.org

Jamie Lee Venable, Director of Community Impact, UWGC: 810-762-5826 (O), jvenable@unitedwaygenesee.org

Water Fund Donations can also be made online:

www.unitedwaygeneseecounty.org and click the GIVE button. This will then provide a choice to designate to the Water Fund.

Bottled Water Donations:

The Food Bank of Eastern Michigan serves as the hub for the bottled water donations and community distribution. The Food Bank has more than 200 community partners in Genesee County and upwards of 90 partners directly in the City of Flint. The Food Bank has a dedicated fleet and drivers that distribute to community organizations in every part of the City.

- Water drives that raise 100 cases or less should be donated to local entities of the donor's choice that serve Flint residents or can be dropped off at the Food Bank. Please contact the Food Bank prior to making the donation.

- Large scale donations by the pallet or truckload should be donated to the Food Bank directly for distribution through its current partner agency distribution model. Please contact the Food Bank to arrange delivery of the donation.

    - Water distribution includes Flint community partners such as churches, neighborhood based organizations and large social service organizations that are located in every ward of the City of Flint. These include distributions with food to three Mass Sites that

receive a truckload of mixed product each week in areas identified as having the greatest need.

- Water distribution systems can include partners designated by the United Way and schools located within the City of Flint

- Organizations wishing to be added as a Food Bank partner agency should contact the Food Bank directly.

Food Bank of Eastern Michigan Contact Information:

William E Kerr, President / CEO, Food Bank of Eastern Michigan, 810-239-4441 (O)
wekerr@feedingamerica.org

Tina Martinez, Director of Operations. Food Bank of Eastern Michigan, 810-239-4441 (O),
tmartinez@feedingamerica.org

General FAQ:

1. I want to donate bottles of water to schools, How? – redirect to Foodbank as all schools are included in Foodbank distribution. Please do not donate directly to Flint Community Schools as they are fully sourced.
2. What is really needed at this time? We want to help? – The best type of support is cash donated to the United Way Water Fund. See above for website. No administrative fees are assessed and 100% of the funds are invested in purchase/shipping of bottled water by the semi, bulk filters, and prevention programing conducted through the Genesee County Health Department.

FOR IMMEDIATE RELEASE
DRAFT: Monday, January 5, 2016

Gov. Snyder declares emergency for Genesee County

State Emergency Operations Center activated to assist with relief efforts

LANSING, Mich. – Gov. Rick Snyder today declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

By declaring a state of emergency, Snyder has made available all state resources in cooperation with local response and recovery operations. The declaration authorizes the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) to coordinate state efforts.

"The drinking water crisis that continues to affect the city of Flint is an emergency in every sense of the word," Snyder said. "Every day, we depend on safe and clean drinking water from our taps. Flint residents cannot depend on their water unless safeguards are in place. Working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, we will find both short-term and long-term solutions to ensure the health and safety of Flint residents."

In addition to the emergency declaration, Snyder activated the State Emergency Operations Center to coordinate state response and recovery activities. State agencies will ~~be reporting~~ to the center to coordinate resources, assess the situation and begin providing assets to assist with local relief operations.

"~~This is an urgent situation that must be addressed immediately~~The staff of the MSP/EMHSD recognizes the urgency of this situation and is already working closely with local officials," said Capt. Chris A. Kelenske, Deputy State Director of Emergency Management and Homeland Security and commander of the MSP/EMHSD. "~~My staff has been closely working with local officials since the beginning of this crisis.~~ We will continue to collaborate with state, city and county leaders to coordinate ~~state~~ relief efforts, streamline communication and use all available resources

to help residents~~. This incident is all about helping people~~."

~~Since~~ On Jan. 4, Genesee County ~~County has been under~~declared a "local state of emergency," which activate~~d~~s local emergency response and recovery plans. By requesting a governor's declaration, the county has determined local resources are insufficient to address the situation and state assistance is required to protect public health, safety and property to lessen or avert the threat of a crisis.

The city of Flint has been under a local emergency declaration since Dec. 14, 2015.

The SEOC is the emergency operations center for the state of Michigan. Located in Lansing, the center is overseen by the MSP/EMHSD and coordinates response and recovery efforts by state agencies and local government. The SEOC is staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in the state of Michigan.

Subject: RE: Flint IAP

Captain,

The State Planning Unit has reviewed the IAP, and offer the following comments:

- The Incident Management Team is referred to in the document. It would be helpful to have the roster included in the document. It would also be helpful to have the roster listed in terms of a traditional ICS format, but the "function" references are workable.
- Not included in the IMT are anyone from Planning, Community & Economic Development, or Information Services. They do or could have beneficial roles in the response (documentation, CDBG, information technology logistics, and resource procurement).
- An Emergency Management Team is referenced but is not defined. It may actually be a reference to the IMT.
- The JIC and PIO "team" are referenced, but their composition and organization is unclear.
- EPA assistance with public information is mentioned. Should the state/DEQ be aware of this and communicating this to us?
- Who is "determining the total cost of damage done to the public health and infrastructure?"
- State needs to clarify with the city what any state role in replacing the whole water system may or may not include. Various funds and forgivable loans have been referenced, but the state should have (perhaps the Executive Office does have) an overall Project Manager who can coordinate all state and federal activities that are occurring.
- State should provide assistance/guidance if possible to help develop the capital improvement project for the water system
- An organization chart with contact information should be prepared by either the City or the County EM. The County EM could be serving as a coordinating/liaison role between city/county/state agencies.
- A county IAP with the City IAP as an appendix may be beneficial.
- Most of what is being requested echoes previous resources. Financial assistance is first and foremost what is being requested. Most resources (health monitoring programs) still do not have any cost projection attached. Infrastructure costs are the exception which, as noted, would need outside review for confirmation (or source of the existing estimates).

I would stress that with MSP/EMHSD, MDEQ, MCSC, MDHHS, and potentially MSHDA all providing input, the state needs a project manager for this. Which could take the form of an SEOC activation in the monitoring mode, or something less formal. But coordination is needed.

Good morning, I received a call from Chris Devriendt advising he was sending this email to me. Chris basically advised the City of Flint is handing over their IAP to the County on Monday and the County is going to ask for a Governor's declaration. I asked what resources have been used and exhausted by the City and the County as well as what resources are being asked for. Chris is caught in the middle here. The City's IAP is basically asking for millions of dollars to fix their infrastructure and asking for the 2 million they spent to make the switch back to Detroit water be forgiven. I also asked *if they had GIS mapping to show which service lines are lead in the city.* Chris advised the city is working with Wayne State University on those and to his knowledge no maps are available yet. He further advised maps contained in Dr. Mona's article are "locked" by the Institutional Review Board until her article is published. The city is going to request the Board to release the maps to them but that is not a given.

Once again, they are basically asking for money to fix their infrastructure problem. And, Sean Kammer is asking Chris if there is a link to MICIMS that he can share with the public. One word- clueless. Sorry , I know you will delete it if you. need to send any of this info on. I will plan on being at the meeting Monday unless I hear otherwise. Please let me know your thoughts. BJ

Dear LT Roach,

This missive is to invite yourself and any other MSP EMHS personnel to the commissioners' meeting on 1/4/2016. The meeting will be held at the County Admin Building, 1101 Beach Street, Flint, MI 48502 on the 3rd floor in the Harris Auditorium at 9:00am. This is the building just south of the Sheriff's Office and the room is to your immediate left as you exit the elevator.

It is anticipated that at this meeting, the County will declare a state of emergency and quite possibly elevate it to the State level at the same time. I am attaching the City of Flint IAP, County Declaration, and Governor's request for your review and comment. I understand that this is short notice and lacking on proper protocol but I value your input and guidance.

To illustrate the dire need this situation calls for in regards to professional intervention, the City PIO just left me a message asking if there is a link to the IAP on MI CIMS that he can share with the public...

If you or your colleagues have any questions, comments, or observations feel free to share my personal cell phone number with them

Very Respectfully,

Chris DeVriendt, LVT, MPH

MEDIA MONITORING REPORT

12/30/2015

Issues:

- No issues to report.

Summary:

- Gov. Rick Snyder yesterday issued a statement in response to initial findings from the Flint Water Task Force.
- Gov. Rick Snyder apologized to the City of Flint on Tuesday for the drinking water crisis that has left children poisoned by lead and announced that he accepted the resignation of Michigan Department of Environmental Quality Director Dan Wyant.
- Michigan Department of Environmental Quality spokesperson Brad Wurfel has joined director Dan Wyant in resigning after a task force cited department failures in addressing the Flint water crisis.
- Congressman Dan Kildee again appeared on "The Rachel Maddow Show" Tuesday for a live interview with guest host Melissa Harris Perry.
- A task force appointed by Gov. Rick Snyder says Michigan's environmental regulatory agency is primarily responsible for the state's failure to ensure safe drinking water for Flint residents.
- The City of Flint took another major step Tuesday in addressing the current water "State of Emergency" declared earlier this month by Mayor Karen Weaver.
- Michigan Public Broadcasting has posted the letter to Gov. Rick Snyder from the Flint Water Advisory Task Force.
- Columnist Larry Gabriel posted an article for Detroit Metro Times on Gov. Snyder's role in Flint water crisis.
- Flint Journal Editor Bryn Mickle posted a MLive article regarding Gov. Snyder and the state's role in Flint water crisis.
- Mayor Karen Weaver and other local leaders say the resignation of Michigan Department of Environmental Quality Director Dan Wyant and release of Flint Water Task Force findings Tuesday are the first steps toward holding people accountable for Flint's water crisis.
- State regulators should have required Flint to treat its corrosive drinking water to keep lead from leaching from service lines into people's homes but did not purposely mislead federal officials about the lack of corrosion control, Michigan's auditor general said in a preliminary report released Monday.

- An increased number of mass shootings and natural disasters across the United States has put a greater demand on Lenawee County Emergency Management Coordinator Curtis Parsons' time on a local level, according to Lenconnect.com.
- New York City ramps up security for New Year's Eve.
- Homes all across Michigan are still without power in Lenawee County after Monday's winter storm.
- Several hundred people are in the dark Tuesday afternoon after a winter storm pushed through West Michigan on Monday.
- While Monday's winter storm resulted in snow and dangerous ice conditions in much of Lower Michigan, the impact in Monroe County was mostly property damage on the Lake Erie shoreline in addition to street flooding at the height of the storm.
- Flint City Councilman Joshua Freeman announced Tuesday he will no longer represent the city's fourth ward.
- There's a push in Michigan's Congress to reverse some efforts to limit voter access to the polls.
- National Weather Service forecast updates.
- TV clips: State at fault in Flint water crisis; MDEQ Director and Spokesman resign after Snyder apologizes.

Analysis:

- Media coverage is negative and neutral.
- Flint Water Advisory Task Force released their finding to reveal MDEQ is mostly at fault for the Flint water issues.
- Gov. Rick Snyder issued an apology and accepted MDEQ Direct Dan Wyant's resignation.
- MDEQ Spokesman Brad Wurfel has announced his resignation.
- Flint Mayor Karen Weaver submitted an "Incident Action Plan" on Flint water crisis to Genesee County Emergency Management and Homeland Security Office.
- Will continue to monitor the situation.

FLINT WATER

Gov. Rick Snyder takes action on initial findings from Flint Water Task Force

Michigan.gov, December 29, 2015

In response to initial findings from the Flint Water Task Force, Gov. Rick Snyder today issued the following statement:

"When I became aware that the city of Flint's water showed elevated lead levels and that the state's handling of the situation was being questioned, I requested funding to switch the source back to the Great Lakes Water Authority and appointed an independent task force to identify possible missteps and areas for improvement.

"The task force has done an exceptional job, reviewing stacks of documents and interviewing scores of Flint, Genesee County, state and federal officials. Although the task force's final report is not yet completed, members have made me aware of some interim findings and corrective steps that I have decided to take immediately in order to restore trust in how the state keeps its citizens safe and informed.

DEQ spokesman resigns over Flint water crisis, says city 'didn't feel like we cared'

MLive, December 30, 2015

LANSING, MI – Michigan Department of Environmental Quality spokesperson Brad Wurfel has joined director Dan Wyant in resigning after a task force cited department failures in addressing the Flint water crisis.

Wurfel in an email to contacts on Tuesday night said he had been honored to serve under Wyant and was joining his boss in resigning.

"I have greatly appreciated my time as Communications Director at the DEQ, but I am looking forward to pursuing new opportunities in the new year. I tendered my resignation today as well," Wurfel said.

Snyder apologizes, Wyant resigns in Flint Water Crisis

Detroit Free Press, December 29, 2015

LANSING — Gov. Rick Snyder apologized to the City of Flint on Tuesday for the drinking water crisis that has left children poisoned by lead and announced that he accepted the resignation of Michigan Department of Environmental Quality Director Dan Wyant.

Snyder said in a news release that there will be other personnel changes at the DEQ and that the moves he announced are among "initial steps" he is taking to assure the safety of Flint residents, with more action to come.

Michigan regulator resigns amid Flint's lead-in-water crisis

ABC News, December 29, 2015

Michigan's top environmental regulator resigned Tuesday after elevated levels of lead were found in Flint children during a drinking water crisis that a task force blamed primarily on his agency.

Gov. Rick Snyder accepted the resignation of Department of Environmental Quality Director Dan Wyant and apologized for what occurred in Flint, which switched its drinking water supply in a cost-cutting move while under state financial management. Communications director Brad Wurfel also resigned, and Snyder said he plans additional personnel changes in the agency.

Flint water report prompts apologies, resignations

Detroit News, December 29, 2015

Michigan's top environmental official resigned Tuesday after an independent task force delivered its initial findings on the Flint water contamination crisis — conclusions that also prompted an apology from Gov. Rick Snyder.

Dan Wyant, director of the Department of Environmental Quality since 2011, tendered his resignation Tuesday, marking the second agency shakeup in just over two months related to Flint's lead-tainted drinking

water problems. The industrial city has been plagued by lead issues since an April 2014 switch to the Flint River as its water source.

Congressman Dan Kildee will again discuss Flint water on 'The Rachel Maddow Show'

MLive, December 29, 2015

FLINT, MI – Congressman Dan Kildee will again appear on "The Rachel Maddow Show"at 9 p.m. tonight for a live interview with guest host Melissa Harris Perry.

Last week, Kildee was on the show asking for Gov. Rick Snyder to help residents in Flint during the city's water crisis.

Kildee has advocated for resources from the state to help residents during Flint's lead-in-water crisis, including the help to improve Flint's distribution system. In addition, he is asking Snyder to create a state-financed health fund and to continually monitor the health of those exposed to elevated lead levels.

Task force lays most blame for Flint water crisis on MDEQ

Michigan Radio, December 29, 2015

A task force appointed by Gov. Rick Snyder says Michigan's environmental regulatory agency is primarily responsible for the state's failure to ensure safe drinking water for Flint residents.

The Flint Water Advisory Task Force says in a letter to Snyder that the state Department of Environmental Quality "must be held accountable for that failure."

Director Dan Wyant resigns after task force blasts MDEQ over Flint water crisis

MLive, December 29, 2015

LANSING, MI – Gov. Rick Snyder on Tuesday accepted a resignation from Michigan Department of Environmental Quality Director Dan Wyant after a task force laid responsibility for the Flint water crisis at the feet of the department.

Snyder, in a statement, announced Wyant's resignation and apologized to Flint residents after he received a letter from the Flint Water Advisory Task Force.

"...MDEQ Director Dan Wyant has offered his resignation, and I've determined that it's appropriate to accept it. I'm also making other personnel changes at MDEQ to address problems cited by the task force," Snyder said.

Flint mayor submits plan to deal with water problems

9 & 10 News, December 30, 2015

FLINT, Mich. (AP) - Flint's mayor has submitted a plan following her state of emergency declaration over problems with the city's water system.

Karen Weaver's administration announced Tuesday it sent the plan to Genesee County emergency officials. The issue is on the agenda for the county Board of Commissioners' Jan. 4 meeting.

The plan outlines steps required to deal with causes and effects of lead contamination in the water. It's also part of the process for requesting federal assistance.

Mayor's office submits "Incident Action Plan" to county regarding Flint water

ABC 12, December 29, 2015

FLINT (WJRT) - (12/29/15) - The City of Flint took another major step Tuesday in addressing the current water "State of Emergency" declared earlier this month by Mayor Karen Weaver.

According to the city administrator, Mayor Weaver's office submitted an official "Incident Action Plan" to Genesee County Emergency Management and Homeland Security Office.

Letter from Flint Water Advisory Task Force

Public Broadcasting, December 29, 2015

Dear Governor Snyder:

The Flint Water Advisory Task Force, which you appointed on October 21, 2015 has devoted considerable effort and countless hours to our review of the contamination of the Flint water supply: What happened, why it occurred, and what is needed to prevent a recurrence in Flint or elsewhere in the state.

We have also been assessing ongoing mitigation efforts to help assure that short- and long- term public health issues and water management concerns will be properly addressed to safeguard the health and well being of the Flint community.

Shortly after we began our work, we recognized the immediate need for better coordination of the state's response to the ongoing public health issues in Flin, and for assignment of a single person to provide this coordination. We addressed these concerns in a letter to you on December 7, 2015, and you responded with immediate adoption of these recommendations. We thank you for the commitment your response demonstrates.

Stir it up: No one is to blame for Flint but Snyder

Detroit Metro Times, December 30, 2015

I knocked on Mulenga Harangua's door early one day between Christmas and New Year's Day. I was doing a little post-holiday shopping and thought I'd get a couple of those "Detroit, comme ça" T-shirts he was selling. He was slow getting to the door and I banged on it a second time.

"Hold on a minute," Mulenga hollered from inside just before opening the door. "I was busy making some new T-shirts."

Gov. Rick Snyder still doesn't get it when it comes to Flint water crisis

MLive, December 29, 2015

Gov. Rick Snyder still doesn't get it.

Three months after the state finally acknowledged there was a problem with Flint water, Snyder issued a statement Tuesday, Dec. 29, apologizing for the situation and announcing actions to "ensure a culture of openness and trust."

Unfortunately, Snyder left out some key details.

Flint leaders applaud DEQ director's resignation, governor's apology

MLive, December 29, 2015

FLINT, MI – Mayor Karen Weaver and other local leaders say the resignation of Michigan Department of Environmental Quality Director Dan Wyant and release of Flint Water Task Force findings Tuesday are the first steps toward holding people accountable for Flint's water crisis.

"There is some accountability being put in place and that's a good thing," Weaver said. "That's what is happening and I think that's a good sign because it shows that our voices have been heard and that they will continue to be heard."

Auditor: State erred on Flint water but didn't mislead feds

The Oakland Press, December 29, 2015

LANSING (AP) — State regulators should have required Flint to treat its corrosive drinking water to keep lead from leaching from service lines into people's homes but did not purposely mislead federal officials about the lack of corrosion control, Michigan's auditor general said in a preliminary report released Monday.

Doug Ringler, citing a memo issued last month by the U.S. Environmental Protection Agency, concluded that the Michigan Department of Environmental Quality erred in not requiring the city to immediately combat corrosion when it switched from Detroit's system to the Flint River in April 2014 in a cost-cutting move while under state financial management. State officials interpreted federal rules to mean Flint could make the transition and then test the new water for lead over two six-month intervals to determine potential corrosion treatment.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Emergency management to increase outreach in 2016

Lenconnect, December 29, 2015

ADRIAN - An increased number of mass shootings and natural disasters across the United States has put a greater demand on Lenawee County Emergency Management Coordinator Curtis Parsons' time on a local level.

From area manufacturing plants and public service buildings to schools, Parsons has found himself addressing staff and administrators on increased awareness of disaster events. He said people are constantly reminded of the ever-evolving need to stay informed with the newest information in the wake of mass shootings across the United States to a tornado outbreak across southern states last week.

New York City ramps up security for New Year's Eve celebration

Reuters, December 29, 2015

A six-ton crystal ball is ready to be lowered above New York City, colorful paper has been ground into confetti that will rain on Times Square and about 6,000 police officers will guard revelers on New Year's Eve at one of the city's highest-profile events.

"We are ready," Mayor Bill de Blasio told a news conference on Tuesday. "We are the best prepared city in the country, the best prepared city to prevent terrorism and to deal with any event that could occur."

An estimated one million people are expected in the vicinity of One Times Square on Thursday for the New Year's Eve dropping of the ball, a tradition begun in 1907 and broken only during wartime blackouts.

MICHIGAN WINTER STORM

Some Michigan families still without power

13 ABC, December 29, 2015

LENAWEE CO (13abc Action News) - Homes all across Michigan are still without power. In Lenawee County, restoration efforts are underway.

"They've made significant progress in restoration of services," Curtis Parsons, Lenawee County Emergency Management coordinator said.

He says the numbers have dropped in a big way. At it's peak there were about 3,000 outages. By Tuesday morning, that number was more like 2,700 and by the evening it was down to about 100. But for some, Wednesday at 4 p.m. is the estimated time of restoration.

Consumers Energy: Hundreds still without power

WZZM 13, December 29, 2015

GRAND RAPIDS, Mich. (WZZM) – Several hundred people are in the dark Tuesday afternoon after a winter storm pushed through West Michigan.

Power outages on Consumers Energy's outage map started popping up on Monday afternoon. Users can use that map to check out outage information for their area, including an estimate on when power could be restored.

Customers can report an outage to the utility by calling 1-800-477-5050 or online at consumersenergy.com/outagecenter.

Michigan restoration, cleanup follows storm

Lenconnect, December 29, 2015

A day of clear weather helped crews clear roads and restore power to thousands of Lenawee County customers knocked offline by a storm Monday afternoon and night.

At its peak early Tuesday morning, more than 3,000 Lenawee County customers were without power due to freezing rain, strong winds and a little snow. Lenawee County Airport reported wins of 25 mph and gusts of 36 during Monday afternoon.

Some property damaged noted in lakeshore homes from Lake Erie's fury

Monroe News, December 29, 2015

While Monday's winter storm resulted in snow and dangerous ice conditions in much of Lower Michigan, the impact in Monroe County was mostly property damage on the Lake Erie shoreline in addition to street flooding at the height of the storm.

Monroe County measured 1.2 inches of rain from the storm at the Dundee Wastewater Treatment Plant.

"We had more rain, thank goodness," said Susan Martinez, emergency management specialist with the Monroe County Office of Emergency Management, of the lack of ice and rain. "We were very fortunate."

MICHIGAN POLITICS

Flint City Councilman Joshua Freeman resigns

ABC 12, December 29, 2015

FLINT (WJRT) - (12/29/15) - Flint City Councilman Joshua Freeman announced Tuesday he will no longer represent the city's fourth ward.

Freeman's resignation officially takes place at midnight on Dec. 31.

Since taking office five years ago, Freeman says he has lived separate from his wife and children, who live and go to school in Davison.

Freeman has lived at his Flint home and says it's been a strain on his family.

Voter access could be an issue in 2016

Michigan Radio, December 28, 2015

There's a push in Congress to reverse some efforts to limit voter access to the polls.

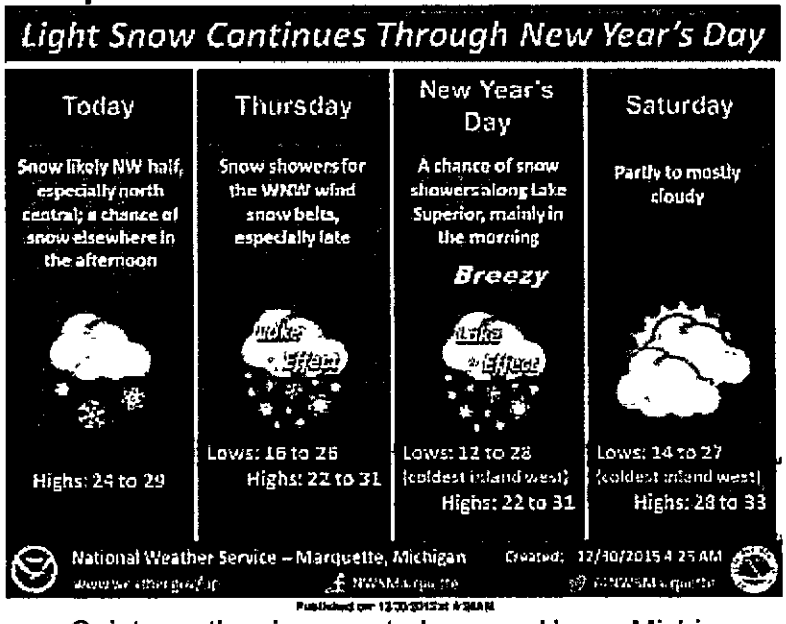
Michigan and other states have taken steps to limit early voting options and access to absentee ballots.

U.S. Senator Gary Peters (D-MI) says Congress should take steps to protect voter access.

"We should be in the process where everybody, no matter who you are, no matter where you live, has the ability to exercise the most fundamental right we have as an American citizen and that's the ability to vote," says Peters.

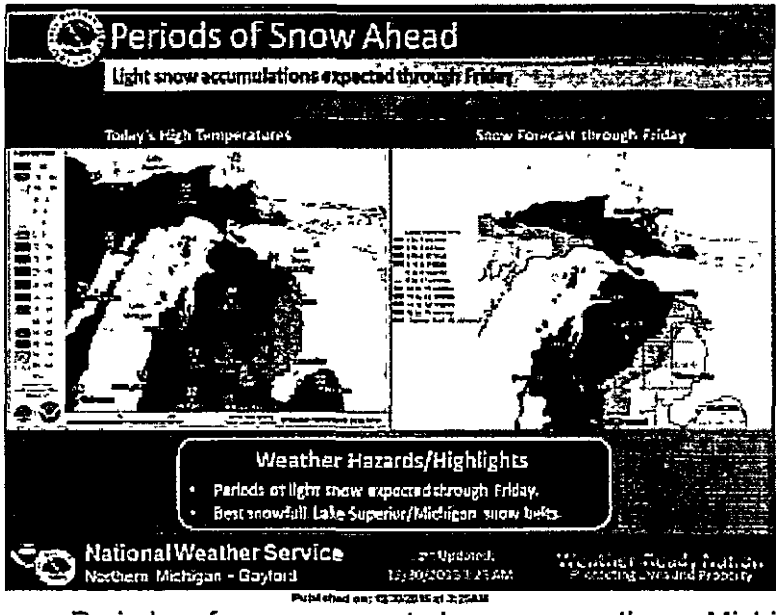
NATIONAL WEATHER SERVICE FORECASTS

Marquette



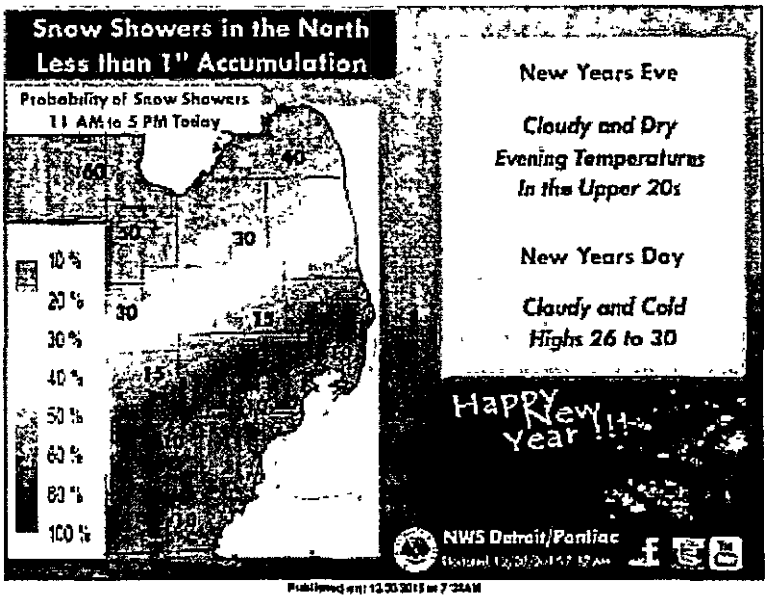
Quiet weather is expected across Upper Michigan as the calendar changes to 2016. Outside of light lake effect and a light dusting of snow this afternoon, little to no precipitation is forecast into the weekend.

Gaylord



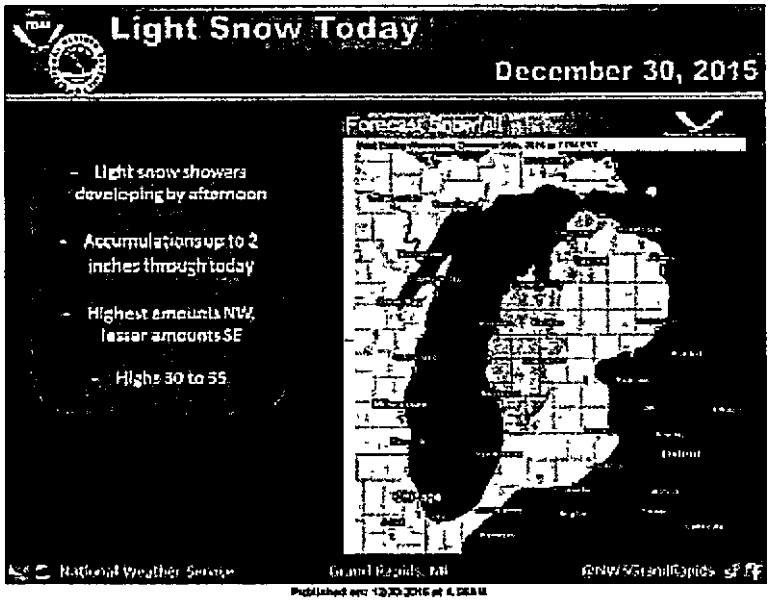
Periods of snow expected across northern Michigan through Friday...with the lake snow belts downwind of Lake Superior and Lake Michigan seeing the majority of the snowfall through the end of the week.

Detroit



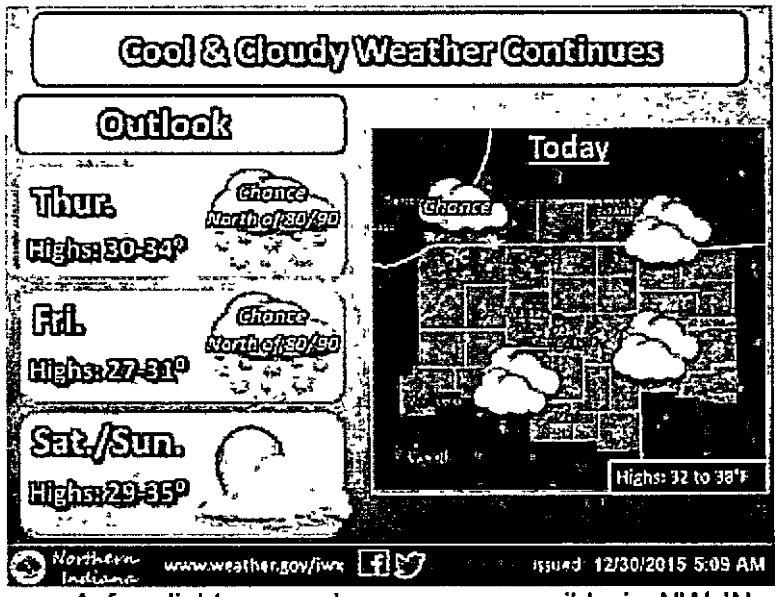
A fast moving upper level disturbance will bring some snow showers and flurries to the area today. The weak nature of this system will support little if any snow accumulations. Colder air will funnel into the region tonight in the wake of this system. While this air mass will be colder than that of the past few weeks, temperatures for New Year's will actually be near normal for this time of year.

Grand Rapids



Light snow will develop by afternoon. Accumulations of up to 2 inches expected, highest NW. Highs 30-35.

Northern Indiana



A few light snow showers are possible in NW IN and SW MI today but little to no accumulation is expected. Highs will be in the mid to upper 30s under cloudy skies. Light lake effect snow showers will then be possible north of the toll road from tonight through Friday but any accumulation will be light (an inch or less.) Seasonable temperatures and clearing skies for the weekend.

Good morning, I received a call from Chris Devriendt advising he was sending this email to me. Chris basically advised the City of Flint is handing over their IAP to the County on Monday and the County is going to ask for a Governor's declaration. I asked what resources have been used and exhausted by the City and the County as well as what resources are being asked for. Chris is caught in the middle here. The City's IAP is basically asking for millions of dollars to fix their infrastructure and asking for the 2 million they spent to make the switch back to Detroit water be forgiven. I also asked if they had GIS mapping to show which service lines are lead in the city. Chris advised the city is working with Wayne State University on those and to his knowledge no maps are available yet. He further advised maps contained in Dr. Mona's article are "locked" by the Institutional Review Board until her article is published. The city is going to request the Board to release the maps to them but that is not a given.

Once again, they are basically asking for money to fix their infrastructure problem. And, Sean Kammer is asking Chris if there is a link to MICIMS that he can share with the public. One word- clueless. Sorry , I know you will delete it if you need to send any of this info on. I will plan on being at the meeting Monday unless I hear otherwise. Please let me know your thoughts. Hillary Clinton plans Jan. 12 fundraiser in Detroit (Detroit News)
Democratic presidential frontrunner Hillary Clinton is coming to Detroit on Jan. 12 for a fundraiser, her campaign confirmed Tuesday.

OPINION

Editorial: Emergency management law working for cities (Detroit News)
Michigan will start the year with not one of its local communities under emergency management, with the emergence of Lincoln Park from state control last week. While Detroit Public Schools and other school districts, as well as Wayne County, still are operating under some form of state financial oversight, for the first time in 15 years no cities have emergency managers.

State must pay for justice, not defendants (Times Herald)
We thought we were making progress when Lansing moved to eliminate one of the state's most outrageous taxes. Beginning Oct. 1, Michigan began phasing out the "driver responsibility fees" that the Granholm administration invented in 2003 to plug a hole in the state budget. Driver responsibility fees are a tax on those convicted of reckless driving, drunken driving or driving without a valid license.

Gov. Rick Snyder still doesn't get it when it comes to Flint water crisis (MLive)
Gov. Rick Snyder still doesn't get it. Three months after the state finally acknowledged there was a problem with Flint water, Snyder issued a statement Tuesday, Dec. 29, apologizing for the situation and announcing actions to "ensure a culture of openness and trust."

Look back: What's it like to own the train station? (Freep)
What's it like to own the train station? I'm not going to say that question keeps me up at night, but driving around Detroit with Matt Moroun — the son of Manuel (Matty) Moroun, the 87-year-old industrialist and Ambassador Bridge owner (and dilapidated train station owner, vast property owner and billionaire) — I couldn't help but wonder.

Editorial: Tell Snyder to veto majority's election 'reforms' (Battle Creek Enquirer)
We wrote in November that a bill to strip Michigan voters of the ability to vote straight ticket was beneath the dignity of the Legislature. In hindsight, we over-estimated the Legislature.

Black lives, Tamir Rice and America's uncivil history (Freep)
I was struck with a wide range of emotional responses to the failure of Ohio prosecutors to charge Cleveland police officers for their hasty and thoughtless killing of 12-year-old Tamir Rice — as an African American, as a parent, as a human being.

Another View: Election reform laws headed in wrong direction (Gaylord Herald Times)
State lawmakers recently passed another law designed to reform elections in Michigan.
With 2015 winding down, a bill heads to Gov. Rick Snyder's desk prohibiting local governments from spending money to inform the public about ballot proposals within 60 days of an election.

Helping our veterans in Michigan and beyond (Oakland Press)
Though it feels like partisan bickering in politics is the norm, there are some issues that should always rise above party politics; the care, safety, and well-being of our nation's troops and veterans. As we celebrate the holiday season, the spirit of caring for one another and wishes for peace on Earth are strong. In this spirit, let's make sure as we begin a new year, we hold Congress and the Pentagon responsible for caring for our veterans.

Bieda: Bills would leave voters in dark (Detroit News)

Lawmakers in Lansing recently worked late into the night to pass a series of controversial bills, one of which grew from 12 to 53 pages in the span of an hour. Republicans barred Democrats' staff from the Senate floor to make it harder for us to review the amended legislation, and immediately forced a vote. It's ironic that they eliminated straight-ticket voting on the pretext of helping voters make educated decisions, and yet failed to allow educated voting in their own chambers.

Subject: Changes in Administration

Team,

As you are aware, we have been working closely with the independent task force that has been reviewing state, local and federal actions regarding the serious health issues related to water in Flint.

Although the task force's final report is not yet complete, members have made the Governor aware of some interim findings, and there are interim steps the Governor has decided to take immediately in order to restore trust in how we in state government keep residents safe and informed.

As part of this process, Dan Wyant, director of the Department of Environmental Quality, has offered his resignation, and Governor has reluctantly decided to accept it. There are likely to be other personnel changes in MDEQ as well.

I want to thank Dan for his service. He has been the DEQ director since the start of the administration, and previously headed the Agriculture Department under both Gov. Engler and Gov. Granholm. He is passionate about public service and protecting our state's environment.

The situation in Flint is serious and challenging. We will continue to work closely with the task force and city leaders as we move forward, committed to protecting the health of people living in Flint and around our state.

Sincerely,

Jarrod Agen

Whoops! Wrong account. All emergency and disaster information is sent through the @MichEMHS Twitter account. We have a steady battle rhythm going.

We push things through the MSP Facebook page as the situation develops. We had a Facebook post this morning--I'll see what we can queue up this afternoon.

Thanks Ron! You might consider putting something out on social media ... I noticed the last MSP postings on Facebook and Twitter weren't weather related.

Or maybe I'm looking at the wrong accounts ... Should I be looking at another Twitter account besides @MichStatePolice and the Michigan State Police FB account...? I THINK those would be the ones people would go to, but maybe you have an emergency ops one.

MEDIA MONITORING REPORT

Statewide Severe Winter Storm No. 1
12/28/2015

Issues:

- No issues to report.

Summary:

- The National Weather Service has issued a Winter Storm Warning through Tuesday morning for Montcalm, Gratiot, Ionia, Clinton, Barry, Eaton, Ingham, Calhoun and Jackson Counties.

- A winter storm is forecast to move across Illinois bringing high winds, icy precipitation and waves up to 20-feet high along the shores of Lake Michigan.
- The Monroe County Emergency Management Division is encouraging area residents to plan ahead for potential hazards.
- Meteorologists are predicting some potentially hazardous weather that could cause roads to ice over and floods Monday.
- All non-essential state of Michigan workers in the Lower Peninsula are being sent home at 1 p.m. today, joining many local government workers who went home at noon in advance of the ice storm moving into the region.
- Genesee County travelers shouldn't worry when the raindrops start Monday, Dec. 28, but after 4:30 p.m. when the sun goes down and ice formation starts, according to John Daly, Genesee County Road Commission manager-director.
- As freezing rain, sleet and wind gusts close to 50 mph hit the Jackson area, the National Weather Service has upgraded the winter weather advisory to a winter storm warning.
- MLive reports on how stores are gearing up for the need of generators and emergency supplies for the winter storm in Michigan.
- Area libraries are among local organizations closing early today as a severe winter storm approached West Michigan.
- Travel conditions across Michigan are expected to be difficult today as much of the state is under a Winter Storm Warning, Freezing Rain Advisory or Winter Weather Advisory.
- Gov. Rick Snyder activated the State Emergency Operations Center due to the hazardous winter storm expected to affect Michigan.
- TV clips: Road crews prepare for storm.

Analysis:

- Media coverage is neutral.
- Multiple media outlets report on Gov. Rick Snyder activiating the SEOC for the winter storm and sending non-essential state workers home.
- Media outlets reporting on updated conditions for storm throughout day.
- Will continue to monitor the situation.

MICHIGAN SEVERE WEATHER

Snow/sleet and freezing rain this afternoon

WILX, December 28, 2015

The National Weather Service has issued a Winter Storm Warning through Tuesday morning for Montcalm, Gratiot, Ionia, Clinton, Barry, Eaton, Ingham, Calhoun and Jackson Counties. A Winter Weather Advisory has been issued through early Tuesday morning for Shiawassee, Livingston, Washtenaw and Lenawee Counties. A Freezing Rain Advisory has been issued for Branch and Hillsdale Counties through Monday evening.

Snow, sleet and freezing rain over the area at noon will continue through the afternoon. As low pressure gets closer to the Michigan winds will be picking up in speed. Computer models are saying ice accumulations could be around a quarter inch in Mid-Michigan. Sleet accumulations of around a half inch are possible. The ice and sleet teamed up with wind gusts near 45 MPH late this afternoon into the evening hours will more than likely cause scattered power outages.

Winter Storm to bring icy weather, high winds to Illinois

WEBZ 91.5, December 28, 2015

A winter storm is forecast to move across Illinois bringing high winds, icy precipitation and waves up to 20-feet high along the shores of Lake Michigan.

The National Weather Service on Monday morning had storm warnings, freezing rain advisories and flood warnings across Illinois. Forecasters predicted heavy icing in the northern half of Illinois. Heavy rain and flooding is expected in central Illinois with river flooding likely to continue for several days.

Monroe County EMD shares winter safety tips

Monroe News, December 28, 2015

With winter weather starting to settle in for the season, the Monroe County Emergency Management Division is encouraging area residents to plan ahead for potential hazards. Here is the list of tips that the EMD issued Monday morning: BE PREPARED FOR COLDER TEMPERATURES & WINTER STORMS While we have not yet experienced it yet this season, Michigan winters can bring extremely cold temperatures, large amounts of snow and bursts of freezing rain. With severe winter weather events likely to occur sometime in the next couple of months, now is the time to prepare for the unexpected. The start of a new year is the perfect time for Monroe County residents to plan ahead and make arrangements before severe winter weather strikes. We strongly encourage everyone to take a few steps to get "winter ready."

Weather Service issues flood warning for Metro Detroit

MLive, December 28, 2015

DETROIT, MI – Meteorologists are predicting some potentially hazardous weather that could cause roads to ice over and floods Monday.

The National Weather Service issued a lakeshore flood warning about 10 a.m. for Wayne and Monroe counties stemming from possible rising water levels.

"Water levels will rise quickly along the Lake Erie shore," the Weather Service said.

State workers going home at 1pm

Lansing State Journal, December 28, 2015

LANSING - All non-essential state of Michigan workers in the Lower Peninsula are being sent home at 1 p.m. today, joining many local government workers who went home at noon in advance of the ice storm moving into the region.

A winter storm warning called for up to a quarter-inch of ice this afternoon and evening, making travel hazardous and prompting the cities of Lansing and East Lansing to close facilities at noon today. Ingham County also closed at noon and Clinton County at 12:15 p.m. Eaton County had not yet made a decision to close offices, although Delta Township closed its offices at noon.

Ice accumulation on Genesee County roads to start when sun goes down

MLive, December 28, 2015

FLINT, MI – Genesee County travelers shouldn't worry when the raindrops start Monday, Dec. 28.

It's the sun falling from the sky that's going to be the problem, according to John Daly, Genesee County Road Commission manager-director.

"After 4:30 p.m., and the sun starts to go down, that's when we're going to get ice formation," Daly said. "That's going to be the big problem with this one."

Live updates: Freezing rain, gusts near 50 mph hit the Jackson area

MLive, December 28, 2015

JACKSON, MI — As freezing rain, sleet and wind gusts close to 50 mph hit the Jackson area, the National Weather Service has upgraded the winter weather advisory to a winter storm warning.

The warning will remain in effect until 4 a.m. Tuesday, Dec. 29, the NWS reports. Freezing rain is expected to continue through Monday evening before temperatures start to rise above freezing. In addition, the NWS projects between one- and three-tenths of an inch of ice accumulation with a steady wind between 20 and 30 mph.

Stores gearing up for the storm's rush on generators, emergency supplies

MLive, December 28, 2015

GRAND RAPIDS, MI – Between a long electrical outage over Christmas Eve and a big storm moving in today, Rylee's Ace Hardware put an order in for more generators.

Good thing, because there has been a run on them over the last few days.

Generators are currently sold out at both the Grand Rapids area Menards in Comstock Park and Wyoming. More should arrive tonight or tomorrow morning, say staff.

Libraries shut down as storm approaches, check first before heading out

MLive, December 28, 2015

MUSKEGON COUNTY, MI – Area libraries are among local organizations closing early today as a severe winter storm approached West Michigan.

Hackley Public Library, Muskegon Area District Library branches, Spring Lake District Library, Loutit Library in Grand Haven, Fremont Area District Library and Newaygo Area District Library all have closed for the day.

A winter storm with high winds and freezing rain is expected to hit the area early this afternoon. A half-inch of ice could accumulate, making travel in the area treacherous.

Sleet and freezing rain hitting southeast Michigan

Monroe News, December 28, 2015

Travel conditions across Michigan are expected to be difficult today as much of the state is under a Winter Storm Warning, Freezing Rain Advisory or Winter Weather Advisory. Monroe County falls into the Winter Weather Advisory area, according to the National Weather Service in Detroit, with that alert expected to be in effect until 9 p.m. Precipitation began late this morning as sleet mixed with some freezing.

Gov. Snyder activates State Emergency Operations Center due to winter storm

Up North Live, December 28, 2015

WPBN/WGTU — Gov. Rick Snyder activated the State Emergency Operations Center due to the hazardous winter storm expected to affect Michigan.

The National Weather Service is forecasting about a foot of heavy, wet snow for the Upper Peninsula and freezing rain for some areas of the Lower Peninsula. Power outages are likely to happen.

"The safety of all Michiganders is our top priority, and the heavy snowfall and freezing rain could create hazardous conditions in much of our state," Snyder said. "Residents should pay close attention to advisories and stay off the roads if at all possible. State authorities continue to closely monitor the situation and are sharing information and coordinating with communities to keep everyone as safe as possible."

Storm prompts Michigan to activate Emergency Operations Center

WNDU, December 28, 2015

LANSING, Mich. (AP) The state's Emergency Operations Center has been activated as a winter storm is expected to bring heavy wet snow to the Upper Peninsula and freezing rain and high winds to other parts of Michigan.

Gov. Rick Snyder also says state offices in the Lower Peninsula are to close at 1 p.m. Monday due to the storm.

Winter storm warnings and advisories have been issued for a number of areas. The Emergency Operations Center coordinates response and recovery efforts by state and local agencies.

Storm prompts state to activate Emergency Operations Center

Fox 17, December 28, 2015

LANSING, Mich. (AP) — The state's Emergency Operations Center has been activated as a winter storm is expected to bring heavy wet snow to the Upper Peninsula and freezing rain and high winds to other parts of Michigan.

Gov. Rick Snyder also says state offices in the Lower Peninsula are to close at 1 p.m. Monday due to the storm.

Winter storm warnings and advisories have been issued for a number of areas. The Emergency Operations Center coordinates response and recovery efforts by state and local agencies.

Storm prompts state to activate Emergency Operations Center

WOOD TV, December 28, 2015

LANSING, Mich. (AP) — The state's Emergency Operations Center has been activated as a winter storm is expected to bring heavy wet snow to the Upper Peninsula andfreezing rain and high winds to other parts of Michigan.

Gov. Rick Snyder also says state offices in the Lower Peninsula are to close at 1 p.m. Monday due to the storm.

Winter storm warnings and advisories have been issued for a number of areas. The Emergency Operations Center coordinates response and recovery efforts by state and local agencies.

MICHIGAN SEVERE WEATHER

Snow/sleet and freezing rain this afternoon

WILX, December 28, 2015

The National Weather Service has issued a Winter Storm Warning through Tuesday morning for Montcalm, Gratiot, Ionia, Clinton, Barry, Eaton, Ingham, Calhoun and Jackson Counties. A Winter Weather Advisory has been issued through early Tuesday morning for Shiawassee, Livingston, Washtenaw and Lenawee Counties. A Freezing Rain Advisory has been issued for Branch and Hillsdale Counties through Monday evening.

Snow, sleet and freezing rain over the area at noon will continue through the afternoon. As low pressure gets closer to the Michigan winds will be picking up in speed. Computer models are saying ice accumulations could be around a quarter inch in Mid-Michigan. Sleet accumulations of around a half inch are possible. The ice and sleet teamed up with wind gusts near 45 MPH late this afternoon into the evening hours will more than likely cause scattered power outages.

Winter Storm to bring icy weather, high winds to Illinois

WEBZ 91.5, December 28, 2015

A winter storm is forecast to move across Illinois bringing high winds, icy precipitation and waves up to 20-feet high along the shores of Lake Michigan.

The National Weather Service on Monday morning had storm warnings, freezing rain advisories and flood warnings across Illinois. Forecasters predicted heavy icing in the northern half of Illinois. Heavy rain and flooding is expected in central Illinois with river flooding likely to continue for several days.

Monroe County EMD shares winter safety tips

Monroe News, December 28, 2015

With winter weather starting to settle in for the season, the Monroe County Emergency Management Division is encouraging area residents to plan ahead for potential hazards. Here is the list of tips that the EMD issued Monday morning: BE PREPARED FOR COLDER TEMPERATURES & WINTER STORMS While we have not yet experienced it yet this season, Michigan winters can bring extremely cold temperatures, large amounts of snow and bursts of freezing rain. With severe winter weather events likely to occur sometime in the next couple of months, now is the time to prepare for the unexpected. The start of a new year is the perfect time for Monroe County residents to plan ahead and make arrangements before severe winter weather strikes. We strongly encourage everyone to take a few steps to get "winter ready."

Weather Service issues flood warning for Metro Detroit

MLive, December 28, 2015

DETROIT, MI -- Meteorologists are predicting some potentially hazardous weather that could cause roads to ice over and floods Monday.

The National Weather Service issued a lakeshore flood warning about 10 a.m. for Wayne and Monroe counties stemming from possible rising water levels.

"Water levels will rise quickly along the Lake Erie shore," the Weather Service said.

State workers going home at 1pm

Lansing State Journal, December 28, 2015

LANSING - All non-essential state of Michigan workers in the Lower Peninsula are being sent home at 1 p.m. today, joining many local government workers who went home at noon in advance of the ice storm moving into the region.

A winter storm warning called for up to a quarter-inch of ice this afternoon and evening, making travel hazardous and prompting the cities of Lansing and East Lansing to close facilities at noon today. Ingham County also closed at noon and Clinton County at 12:15 p.m. Eaton County had not yet made a decision to close offices, although Delta Township closed its offices at noon.

Ice accumulation on Genesee County roads to start when sun goes down

MLive, December 28, 2015

FLINT, MI – Genesee County travelers shouldn't worry when the raindrops start Monday, Dec. 28.

It's the sun falling from the sky that's going to be the problem, according to John Daly, Genesee County Road Commission manager-director.

"After 4:30 p.m., and the sun starts to go down, that's when we're going to get ice formation," Daly said. "That's going to be the big problem with this one."

Live updates: Freezing rain, gusts near 50 mph hit the Jackson area

MLive, December 28, 2015

JACKSON, MI — As freezing rain, sleet and wind gusts close to 50 mph hit the Jackson area, the National Weather Service has upgraded the winter weather advisory to a winter storm warning.

The warning will remain in effect until 4 a.m. Tuesday, Dec. 29, the NWS reports. Freezing rain is expected to continue through Monday evening before temperatures start to rise above freezing. In addition, the NWS projects between one- and three-tenths of an inch of ice accumulation with a steady wind between 20 and 30 mph.

Stores gearing up for the storm's rush on generators, emergency supplies

MLive, December 28, 2015

GRAND RAPIDS, MI – Between a long electrical outage over Christmas Eve and a big storm moving in today, Rylee's Ace Hardware put an order in for more generators.

Good thing, because there has been a run on them over the last few days.

Generators are currently sold out at both the Grand Rapids area Menards in Comstock Park and Wyoming. More should arrive tonight or tomorrow morning, say staff.

Libraries shut down as storm approaches, check first before heading out

MLive, December 28, 2015

MUSKEGON COUNTY, MI – Area libraries are among local organizations closing early today as a severe winter storm approached West Michigan.

Hackley Public Library, Muskegon Area District Library branches, Spring Lake District Library, Loutit Library in Grand Haven, Fremont Area District Library and Newaygo Area District Library all have closed for the day.

A winter storm with high winds and freezing rain is expected to hit the area early this afternoon. A half-inch of ice could accumulate, making travel in the area treacherous.

Sleet and freezing rain hitting southeast Michigan

Monroe News, December 28, 2015

Travel conditions across Michigan are expected to be difficult today as much of the state is under a Winter Storm Warning, Freezing Rain Advisory or Winter Weather Advisory. Monroe County falls into the Winter Weather Advisory area, according to the National Weather Service in Detroit, with that alert expected to be in effect until 9 p.m. Precipitation began late this morning as sleet mixed with some freezing.

Gov. Snyder activates State Emergency Operations Center due to winter storm

Up North Live, December 28, 2015

WPBN/WGTU — Gov. Rick Snyder activated the State Emergency Operations Center due to the hazardous winter storm expected to affect Michigan.

The National Weather Service is forecasting about a foot of heavy, wet snow for the Upper Peninsula and freezing rain for some areas of the Lower Peninsula. Power outages are likely to happen.

"The safety of all Michiganders is our top priority, and the heavy snowfall and freezing rain could create hazardous conditions in much of our state," Snyder said. "Residents should pay close attention to advisories and stay off the roads if at all possible. State authorities continue to closely monitor the situation and are sharing information and coordinating with communities to keep everyone as safe as possible."

Storm prompts Michigan to activate Emergency Operations Center

WNDU, December 28, 2015

LANSING, Mich. (AP) The state's Emergency Operations Center has been activated as a winter storm is expected to bring heavy wet snow to the Upper Peninsula and freezing rain and high winds to other parts of Michigan.

Gov. Rick Snyder also says state offices in the Lower Peninsula are to close at 1 p.m. Monday due to the storm.

Winter storm warnings and advisories have been issued for a number of areas. The Emergency Operations Center coordinates response and recovery efforts by state and local agencies.

GOVERNOR'S ACTIVITIES

Lincoln Park/EM exit
City Of Lincoln Park Free From Emergency Management (Michigan Radio)
Lincoln Park was officially released from state control yesterday. This marks the first time in 15 years no Michigan city is being run by an emergency manager. Rick Pluta reports.

Bill signings
Gov. Rick Snyder signs bills to simplify court paperwork with e-filing (Holland Sentinel)
Gov. Rick Snyder recently signed six bills that aim to modernize the Michigan court filing system by taking it online. House Bills 5208, 5029 and 5030 define the terms of the electronic filing system and lay out the fees for electronic filings, including a provision exempting indigent filers from fees if they are exempt from regular filing fees.

Gov. Snyder approves tax breaks to entice tech company, help existing data centers in Michigan (AP)
A tech company's expansion into western Michigan will be ensured through tax breaks that Gov. Rick Snyder signed into law on Wednesday, exempting it and in-state data centers from sales and use taxes for 20 years as long as the industry adds 1,000 jobs.

Snyder signs tax break bill to lure data center (Freep)
Gov. Rick Snyder on Wednesday signed into law measures that give tax breaks to data centers and are expected to draw what's been touted as a $5-billion investment in western Michigan by Nevada-based Switch Corp.

Snyder signs data center legislation (MiBiz)
Gov. Rick Snyder today signed legislation exempting co-located data centers from state sales and use tax, paving the way for the largest data center east of the Mississippi River to locate on a site south of Grand Rapids.

Gov. Snyder signs off on major tax breaks for data centers (Michigan Radio)
Gov. Rick Snyder has signed bills giving major tax breaks to data centers in Michigan. All data centers will no longer have to pay sales and use tax. But the new laws are in place in order to lure a single, massive server farm to the Grand Rapids area.

Gov. Snyder signs tax breaks for $5B Switch data center (Mlive)
Gov. Rick Snyder today signed tax-reform legislation designed to attract the largest data center in the eastern United States to an empty building outside Grand Rapids. Switch, a Nevada-based company that wants to use the old Steelcase "pyramid" building as the hub for a new 2 million-square-foot campus, will be exempt — along with other data centers — from sales and use taxes on equipment like computers, servers and cabling through 2035, if the industry meets collective job-creation goals.

Gov. Snyder signs bills designed to bring Switch data center to W. Mich. (WWMT)
Governor Rick Snyder announced Wednesday that he has signed a pair of bills designed to help a major Internet data center developer expand into West Michigan. Gov. Snyder's office announced that he had signed Senate Bills 616 and 617, which allow exemptions from sales and use taxes for items in a qualified data center, such as computers, servers, routers, cabling, and wiring used in operating, managing, or maintaining the business. SB 616 was sponsored by Sen. Tonya Schuitmaker.

Gov. Rick Snyder signs data center legislation (WZZM)
Governor Rick Snyder signed legislation on Wednesday granting tax policy changes for data centers which opens the door for a major new industry here in West Michigan.

Tax breaks signed, clearing way for Switch (WOOD-TV)
Gov. Rick Snyder has signed two bills designed to bring a multi-billion dollar investment from a cloud data storage company to West Michigan. Nevada-based Switch will invest $5 billion to transform the former Steelcase pyramid in Gaines Township into a cloud data storage facility that would eventually employ around 1,000 people.

Gov. Snyder signs bills modernizing tax structure to adapt to emerging technology (UP Matters/TV 3)
Legislation signed by Gov. Rick Snyder Wednesday will modernize the structure of Michigan's tax code to ensure treatment of data center inputs more closely aligns with treatment of manufacturing inputs and tax laws in other states.

Gov. Snyder Signs Bill That Makes 'Guilty Mind' Necessary For Convictions (Capitol Confidential)
House Bill 4713, a measure to prevent people from being convicted for unknowingly violating the law — something that has become increasingly likely as the number of regulations has increased — has been signed by Gov. Rick Snyder. The bill was passed unanimously by both chambers of the Michigan Legislature.

Flag honors
Gov. Rick Snyder lowers flags in recognition of former State Rep. Daisy Elliott (Holland Sentinel)
Gov. Rick Snyder recently ordered all U.S. flags be lowered to half-staff within the State Capitol Complex beginning Dec. 28 in honor of former State Rep. Daisy Elliott, who died Dec. 22.

Former State Rep. Daisy Elliott Has Died (WHTC)
Governor Rick Snyder has ordered flags lowered in Michigan Monday to honor former state Rep. Daisy Elliott, who died Tuesday.

Michigan civil rights act co-author Daisy Elliott dies (Mlive)
Civil rights activist and Michigan's Elliott-Larsen Civil Rights Act co-author Daisy Elliott has died. Elliott died Tuesday at age 98, the James H. Cole Home for Funerals in Detroit said on its website.

Daisy Elliott, Detroiter behind civil rights law, dies (Detroit News)
Daisy Elliott, an African-American civil rights advocate and former Michigan representative who helped push through a landmark law aimed at protecting against racial bias as well as other forms of discrimination, has died at age 98, friends and family announced late Tuesday.

Interviews

Michigan Gov. Rick Snyder, legislative leaders name top accomplishments of 2015 (Mlive)
Michigan's continued economic recovery was the top accomplishment for the state in 2015, according to Gov. Rick Snyder. The state's unemployment rate dropped in nine of the first 11 months of the year, and while some long-term challenges remain, economists are predicting Michigan's six-year recovery will continue through 2016.

Year-In-Review: Governor Snyder Discusses Michigan's 2015 (9&10 News)
"Michigan's the comeback state. We're reinventing ourselves but there is more work to be done." A new year for the state of Michigan is only one week away. State leaders like Gov. Rick Snyder are taking the time to sit down and look back at 2015.

Governor Snyder's Agenda For 2016 Includes Energy, Getting DPS Out Of Debt (WSJM)
There's more on the governor's to-do list for 2016 than reforming the state's energy policy and passing a plan to get Detroit Public Schools out of debt. Those two issues are the most high profile ones but there are other things on Governor Rick Snyder's plate, like criminal justice reforms.

DPS reform, energy, medical pot: Legislative issues to watch in 2016 (Crain's Detroit Business)
When state lawmakers return from holiday recess Jan. 13, they will have plenty of business-related policy issues to think about as they look to the year ahead. Among these issues, some of which were introduced this year and held over, will be Detroit Public Schools reform, energy and medical marijuana regulations.

Skubick: Governor Snyder courted by presidential hopefuls (WLNS)
If the Republicans take the White House next year, is there a chance Gov. Rick Snyder may leave for a post in a new administration? For a time this last year, some people thought they would see another face on that Republican Presidential debate stage, Governor Rick Snyder.

Data centers, roads, film incentives among targets of business-related bills Michigan lawmakers OK'd in 2015 (Crain's Detroit Business)
The state Legislature capped 2015 by approving tax breaks for data centers that operate in Michigan, a decision that paves the way for a Nevada data center developer to open one near Grand Rapids. The bill, if signed by Gov. Rick Snyder, would be one of several major policy changes with business implications adopted this year.

Misc
What Michigan leaders hope for in the New Year (Freep)
It's the season for celebrating and starting anew. So with 2016 only days away, I asked luminaries across Michigan to share some of their New Year's resolutions and wishes. Gov. Rick Snyder: "I resolve to keep my foot on the accelerator. Michigan has made great progress in the last five years reinventing our state, making it stronger. There's more we can do — together — and I have no intention of slowing down in 2016."

LT. GOVERNOR'S ACTIVITIES

Calley calls for improved special ed programs (Capital News Service)
Schools should provide what children need and not expect children to conform to old structures, Lt. Gov. Brian Calley said in a report to the state Board of Education, asking it to increase access, scope and quality of special education. Calley wrote, "I have been traveling the state, holding informal town halls with parents and educators who face the challenges and triumphs of working every day with students in need of special education services."

FIRST LADY'S ACTIVITIES

First lady Sue Snyder comes out of 'shell' for good causes (Mlive)
Ask first lady Sue Snyder, who secured $500,000 in the state budget to attack sexual assaults on college campuses. She is the first first lady in the country to take on this cause, and she has a passion aimed at changing the system. She got the idea during a spring break vacation with her teenage daughter and a female friend and her daughter.

APPOINTMENTS

Kettering student tagged for Gov. Snyder's MiSTEM Advisory Council (Mlive)
A Kettering University student has been selected by Gov. Rick Snyder to help identify strategies to improve science, technology, engineering and math education in the state. Harrison Ford, a mechanical engineering major, was one of 11 people named Dec. 23 to Snyder's MiSTEM Advisory Council.

George Heartwell appointed to state board, gets GVSU job (WOOD Radio)
Outgoing Grand Rapids Mayor George Heartwell has a new gig. Gov. Rick Snyder appointed Heartwell to the State Transportation Commission, on which he will serve a three-year term.

Upper Peninsula residents appointed by Governor Snyder to advisory boards and councils (UP Matters/TV 3)
Gov. Rick Snyder makes appointments to the MiSTEM Advisory Council.

DEPARTMENTS

DEQ
Michigan can comply with federal Clean Power Plan for a decade with no changes (Mlive)
Michigan can comply with the federal Clean Power Plan to reduce carbon emissions without changing anything until at least 2025, the Michigan Agency for Energy and Michigan Department of Environmental Quality announced Tuesday. The Environmental Protection Agency in August announced a plan to cut carbon emissions by 2030. Michigan specifically has to cut 31 percent of emissions from the state's 2012 levels by 2030.

Part of St. Clair County in 'nonattainment' for sulfur dioxide emissions (The Voice)
A portion of St. Clair County does not meet federal standards for sulfur dioxide emissions, according to the Michigan Department of Environmental Quality, largely because of DTE's two coal burning power plants in the county, the St. Clair Power Plant in East China Township and the Belle River Power Plant in China Township.

Grants available for local projects to reduce food waste (AP)
The Michigan Department of Environmental Quality is offering grants for projects designed to prevent food waste. It's part of an initiative Gov. Rick Snyder announced in 2014 to double the state's residential recycling rate. Wasted food accounts for more than 20 percent of household trash – more than any other material.

Agencies offer grants to support Michigan stream cleanups (AP)
The Department of Environmental Quality and the Great Lakes Commission plan to divide $25,000 among selected applicants. Those who receive grants are expected to match at least 25 percent of the money.

DNR
Harrison gets grant for band shell (Morning Sun)
Nearly six years ago, the Michigan Department of Natural Resources created a grant program to help residents enjoy the outdoors. A state law that created the Local Public Recreation Facilities Fund is used for the development of public recreation for local municipalities. In the latest round of grant announcements, the city of Harrison was awarded $45,000 in the form of a DNR Recreational Passport Grant to construct a walkway and music/band shell.

Communities get share of $1.3M for outdoor recreation (AP)
Michigan says 33 communities will share more than $1.3 million in grants funded by the sale of the annual pass for access to state parks and recreation areas. The Michigan Department of Natural Resources recently announced recipients of Recreation Passport grants.

Deer numbers 'collapsing' in U.P. (Iron Mountain Daily News)
Officials with the Michigan Department of Natural Resources said they are closely studying the dwindling deer herd in the Upper Peninsula, where some areas have lost more than half of their normal population.

MDARD
Michigan poultry exhibition ban lifted (Record Eagle)
The Michigan Department of Agriculture and Rural Development this week lifted the statewide ban on poultry exhibitions. The state implemented the ban in June 2015 as a precautionary measure in response to the Avian Influenza outbreak across the Midwest.

Michigan Agriculture officials lift poultry exhibition ban (AP)
A ban on poultry exhibitions in Michigan that was introduced in June to prevent the spread of bird flu has been lifted. The decision to remove the ban came after an evaluation of the disease risk and status of the Highly Pathogenic Avian Influenza — HPAI — outbreak, Michigan Department of Agriculture and Rural Development officials said Wednesday.

Farmer says food inspection looked like a 'raid' (Interlochen Public Radio)
Food inspectors used a warrant signed by a judge to visit a farm near Cadillac last week. State police troopers were also on hand for the inspection of Bakers Green Acres last Thursday. A spokeswoman for the Michigan Department of Agriculture and Rural Development, Jennifer Holton, called the inspection "routine."

MDOT
Road agencies: We're ready for whatever winter brings (Freep)
MDOT's Detroit maintenance garage handles 300 lane miles in metro Detroit with 13 plow trucks that have underbody blades, and 11 are equipped with a front plow, said MDOT spokeswoman Diane Cross. She said the garage salt barn holds 3,000 ton of salt and a 5,000 gallon tank containing calcium chloride with boost.

Overhaul of I-75 bridge slated (Monroe Evening News)
State transportation officials have announced an overhaul of the I-75 bridge over the Rouge River in Detroit. The Michigan Department of Transportation announced it plans to replace the bridge deck that officials have spent more than $1 million repairing since 2011. The $80 million project is scheduled to begin in 2017.

Audit Finds MDOT Broke its Own Rule on Road Safety Studies (Michigan Radio)
The Michigan Department of Transportation (MDOT) broke its own rule on road safety studies. That's according to a new report from the Michigan auditor general's office.

MEDC
State Agency Says '#MichiganIsAuto,' But the Economy Has Changed (Capitol Confidential)
The Michigan Economic Development Corporation, the state government agency in charge of giving selective tax breaks and subsidies to certain corporations and developers, publishes short messages on the social media platform Twitter. They include the hashtag "#MichiganIsAuto."

Dilworth Hotel project gets $1 million grant (Petoskey News Review)
City of Boyne City officials and the developer behind an effort to restore and reopen the landmark Dilworth Hotel recently received word that the project has be officially approved for a $1 million state grant to offset certain costs associated with the project.

MSHDA
Local nonprofit seeks to help home buyers at every level (Midland Daily News)
With a new $40,000 grant from the Michigan State Housing Development Authority, Mid Michigan Community Action Agency will continue to offer its Homeowner Empowerment Program, which provides education and resources to those looking to achieve financial stability and attain success as homeowners.

MSP

Michigan State Police gives safety tips for driving on slick roads (WLNS)
Michigan State Police say there are many ways to avoid some of those slips, starting with increasing driving distance. Officials say it's important to give some space between your car and the car in front of you.

Michigan State Police: Prepare For Hazardous Winter Storm (Fox 2 Detroit)
The Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) encourages citizens and visitors to prepare for a hazardous winter storm expected to affect most of the Lower Peninsula from noon Monday, Dec. 28, and into Tuesday, Dec. 29.

Michigan State Police warn residents of hazardous winter storm (TV 7&4)
The Michigan State Police and the Emergency Management and Homeland Security Division are encouraging residents and visitors to prepare for a hazardous winter storm.

Michigan State Police adds 6 canine teams (County Press)
Michigan State Police (MSP) Director Col. Kriste Kibbey Etue is pleased to announce that Michigan citizens will soon benefit from the services of six new canine teams that graduated from the MSP 2015 Basic Canine School on Friday.

New 'revolutionary' DNA test finds the shoe fits (WOOD-TV)
In fact, Michigan State Police officials say they spent $135,000 in federal funds to buy the STRmix program in March. That also covered the cost of training a dozen lab technicians. They hope to start using the program in a few months.

MVAA
State and regional coalition work to help veterans get the benefits and services they need (Iosco County News-Herald)
Since 2002, about 2.6 million service members have separated from the active military and the reserve component, transitioning to civilian life after serving in operations Iraqi Freedom and Enduring Freedom. Nearly 700,000 of those veterans, 7.1 percent of the state population, live in Michigan, making it 11th in the nation in terms of its number of veteran residents.

Supreme Court
Convicts paying for courts as lawmakers trump ruling (AP)
Without a comma of dissent, the Michigan Supreme Court struck down an enduring practice that had brought millions of dollars to local courts from people convicted of crimes.

Michigan State loses appeal in records fight with ESPN (Detroit News)
The Michigan Supreme Court denied a request for appeal from Michigan State on Wednesday, a decision stemming from a suit filed by ESPN after names of students were redacted from incident reports the network requested. It means Michigan State will have to disclose the names of suspects who were among the 301 student-athletes that ESPN had identified in its original request under the Michigan Freedom of Information Act. Michigan State released those reports but the names were redacted. ESPN then sued to have the information released.

LEGISLATIVE

Convicts paying for courts as Michigan lawmakers trump major ruling (AP)
Without a comma of dissent, the Michigan Supreme Court struck down an enduring practice that had brought millions of dollars to local courts from people convicted of crimes.

Top 10 — No. 9 Roads make headlines in 2015 (Huron Daily Tribune)
Roads. You probably heard more talk than ever this year about a plan to fix them.
Yet an agreeable solution to pay for crumbling Michigan roads seemed nearly impossible.

2015: A list of state legislative achievements, inaction (Freep)
Michigan's Legislature was dominated in 2015 with trying to find a solution for Michigan's crumbling roads and bridges.

Data centers, roads, film incentives among targets of business-related bills Michigan lawmakers OK'd in 2015 (Crain's)
The state Legislature capped 2015 by approving tax breaks for data centers that operate in Michigan, a decision that paves the way for a Nevada data center developer to open one near Grand Rapids.

DPS reform, energy, medical pot: Legislative issues to watch in 2016 (Crain's)
When state lawmakers return from holiday recess Jan. 13, they will have plenty of business-related policy issues to think about as they look to the year ahead.

DETROIT

Detroit area Syrians hope to shake stereotypes (Detroit News)
Bashar Imam says he loves America, his home since late 1979, when he left his native Syria for what he deemed a better, prosperous life.

Exiting chief judge Rosen: I'll miss living on edge (Detroit News)
Detroit's federal courthouse has hosted some of America's most significant and sensational criminal and civil cases in the last seven years.

Goodwill cashes in as auto supplier in Detroit area (Detroit News)
Goodwill Industries of Greater Detroit is doing more than spreading cheer, operating thrift stores and training those in need this holiday season. The nonprofit is producing millions of dollars through its growing automotive parts operations.

OPINION

Rick Haglund: Michigan economic future is optimistic (MLive)
Michigan's six-year-long economic recovery should continue at cruising speed through 2016 as auto sales keep climbing and job growth maintains a healthy pace. But major long-term challenges in improving the education of the workforce, boosting incomes and attracting new talent remain.

Editorial: Private dollars could boost Port Huron span (Detroit News)
While most of the international bridge conversation in Michigan has been focused on the proposed Gordie Howe Bridge across the Detroit River, southeast Michigan has an existing, vitally important span in Port Huron that could use some support.

Blame term limits for Lansing's lack of sense (Times Herald)
So, fellow Michiganders, how's that term limits thingy working out for you? If you've been paying any attention lately, probably not so well. All those promises supporters of term limits made to the electorate two decades ago about how wonderfully efficient state government would become have not quite panned out.

Banning pit bulls is a knee-jerk response to a larger problem (MLive)
When faced with complex social problems, we tend to go for the easy solution. Terrorism? Prohibit Muslims from entering the country. Undocumented immigrants? Build a big wall and deport everyone who might be Mexican. Mixed-breed dogs kill a child? Prohibit the ownership of pit bulls.

Bizon: I heard constituents and voted against SB13 (Battle Creek Enquirer)
The people of Michigan are passionate about what they believe in. They want their voices to be heard in their government on the issues that mean the most to them.

What is the right path for U.S. foreign policy? (Freep)
American voters will demand a fresh start for U.S. foreign policy when the next president is sworn into office on January 20, 2017.

'Prejudiced' Trump can't win, senior Michigan pol says (MLive)
This guy has forgotten more politics than Donald Trump has ever learned, and when asked what he thought of the Trump juggernaut, his response was swift and to the point: "Not much."

Michigan's Medicaid victory (Toledo Blade)
Two years ago, the Michigan Legislature grudgingly accepted the federal government's offer to extend the Medicaid program of low-income health insurance to adults who earn as much as one-third more than the federal poverty level. That expansion has been an amazingly good thing for both citizens and their employers, especially since Washington is absorbing nearly all the costs.

Michigan Citizen Action: Bring oversea profits home (Detroit News)
As end of the year budget discussions continue to unfold in Washington and the holiday season gets roaring, we need our elected leaders to look overseas.

Senate Bill 571 censors factual election information (Detroit News)
In today's busy world, we need more information about the important things going on around us — not less.

Our Editorial: New test scores set benchmark (Detroit News)
The Michigan Department of Education took its time releasing comprehensive testing data from this spring, but at least school districts now have a benchmark to judge future test results. Next year, the department must make sure it releases testing scores in a more timely manner if they are to be useful in the classroom.

Gov. Snyder Signs Bill That Makes 'Guilty Mind' Necessary For Convictions (Capitol Confidential)
House Bill 4713, a measure to prevent people from being convicted for unknowingly violating the law — something that has become increasingly likely as the number of regulations has increased — has been signed by Gov. Rick Snyder. The bill was passed unanimously by both chambers of the Michigan Legislature.

Christmas story urges us to find compassion for exiled (Freep)
There are two Christmas stories. There is the romanticized antiseptic tale that has taken hold in our popular culture. It is the "Silent Night"/"Oh! Little Town of Bethlehem" version. Mary is smiling; Joseph is hovering protectively over mother and child. Animals provide warmth; angels are singing; and shepherds come to see the new born "Babe in the Manger". In this version, all is pure and all is bright.

Our Editorial: And on Earth, peace (Detroit News)
As we together enjoy a holiday marked by family, friends and faith, we turn to some familiar passages to find both cheer and comfort.

Michigan Gave Away Tens of Millions for Little in Return (Capitol Confidential)
In mid-December when the Michigan Legislature passed a law giving data centers tax exemptions, it set a job creation requirement of 400 jobs by 2022 and 1,000 by 2026. That gives the entire data center industry in Michigan 10 years to create roughly as many jobs as would be expected if just four new big box stores, such as Sam's Club, Meijer, or a Super Target store opened for business.

Susan J. Demas: How Republicans are emboldening Donald Trump (MLive)
Politics is full of choices. And for now, it's a free country — at least until President Donald Trump trashes the First Amendment and shuts down parts of the Internet.

What Michigan leaders hope for in the New Year (Freep)
It's the season for celebrating and starting anew. So with 2016 only days away, I asked luminaries across Michigan to share some of their New Year's resolutions and wishes.

Rochelle Riley: Yes Santa, Virginia acted on guns (Freep)

Thirty-two deaths in a single tragic instance can push a state to take drastic measures. Perhaps that is why the State of Virginia has given America a drastic Christmas gift that could save lives.

Our editorial: Transparency is Job One in demo work (Detroit News)
Detroit hopes to get another bundle of money from Washington to help it keep tearing down blighted buildings. The expanded federal pipeline of funds makes it all the more urgent that the city's demolition programs operate under absolute transparency.

Letter: Finley column points to key social challenge (Detroit News)
Re: Nolan Finley's Dec. 20 column "Black inclusion in Detroit's comeback still lagging": The column makes the important point, as Finley did a year ago ("Where are all the black people"), that African-Americans are benefiting far less than whites in the city's turnaround. His point is evident from the many whites that are filling new jobs, tables at new restaurants, seats at entertainment venues and lines at new retail outlets in the city's core.

Flint water probe may unleash flood of findings on mistakes (MLive)
It was very revealing how some readers responded to the post that the first lady thought her husband might die from a blood clot. Instead of reflecting on the gravity of that story, lots of folks wanted to beat up on the governor for allegedly poisoning the kids in Flint with lead.

Cc: Roach, Billie Jo (MSP); Natasha Henderson
Subject: Re: Follow-Up: Great Talking To You Today

Thank you, Ron.

It was great speaking with you today. I appreciate all of the information. I will definitely keep in touch as the situation develops.

Sean

On Wed, Dec 23, 2015 at 3:13 PM, Leix, Ron (MSP) <LeixR@michigan.gov> wrote:

Hi Sean,

Great talking to you today. Please don't hesitate and call my cell phone if you need assistance.

Some items to consider:

- Establishing a Joint Information System for working with other responding agencies so you're on the same page. If it's needed, consider establishing a Joint Information Center (JIC) to collocate all Public Information Officers (PIOs) in one location. You can establish a unified messaging framework and delegate tasks.

    - How does a JIC function? This is a great resource → http://www.uscg.mil/hq/cg092/cg09225/docs/JIC_Model_2013.pdf.

    - Emergency Support Function No. 15 (External Affairs) http://www.fema.gov/media-library-data/965d87d8c5ffc4bcccb01979913e01fc/ESF15_SOP_08-30-2013-02.pdf.

- Establish a liaison with 2-1-1 to obtain trends and rumors. The United Way runs 2-1-1, so I would start with your local guy. If that doesn't work, contact Mr. Tom Page, 2-1-1 Executive Director, at 517-664-9811 or email tpage@uwmich.org.

    - **ALSO:** Push information to 2-1-1. Promote it too. Many folks have never heard of 2-1-1.

    - **If you find 2-1-1 is not working for you, establish a public inquiry line. This can be someone answering phones or a recorded message. I've even seen Google Voice used before.**

- Get a battle rhythm established for operational period key messages and news releases—come up with a message for every day or two and then plan ahead for the next message. Date and number the press releases too.
    - Possible topics:
        - **How is the city of Flint working to help the health of its residents?**
        - How can I obtain a new water filter?
        - Where can I go to get a new water filter?
        - Health and safety information about the water (Can I bathe in it? Can I drink in it?)
        - How do I know if I have lead pipes?
        - How do I get my water tested?
        - Other operations taking place (e.g., bottle water distribution).
    - Coordinate with other partnering agencies on messaging and approvals.
- Establish a mechanism for community outreach. Work with police (neighborhood watch), nonprofits and faith-based organizations to get the word out. Create an information packet with FAQs, etc., make copies, and use channels to get the word out.
    - There may be mechanisms to canvass neighborhoods.
    - This is especially important for older residents and those with functional needs.
- Designate a media line. And only let the news media know about it. This enables the media to have a direct mechanism to call to be updated about information.

Please let me know if you need anything. Don't hesitate.

Thanks,

Ron

        - How do I get my water tested?
        - Other operations taking place (e.g., bottle water distribution).
    - Coordinate with other partnering agencies on messaging and approvals.
- Establish a mechanism for community outreach. Work with police (neighborhood watch), nonprofits and faith-based organizations to get the word out. Create an information packet with FAQs, etc., make copies, and use channels to get the word out.
    - There may be mechanisms to canvass neighborhoods.
    - This is especially important for older residents and those with functional needs.
- Designate a media line. And only let the news media know about it. This enables the media to have a direct mechanism to call to be updated about information.

Please let me know if you need anything. Don't hesitate.

Thanks,

Ron

MEDIA MONITORING REPORT

12/23/2015

Issues:

- No issues to report.

Summary:

- Michigan Rep. Dan Kildee said the state needs to step forward and fund a program to benefit the health of the city's youngest residents.
- New details are emerging in the Flint Water Crisis as a university professor is saying the state health department knew all about the problems - before they were made public.
- The Genesee County Medical Society is backing Mayor Karen Weaver's push for a federal disaster declaration because of Flint's lead in water crisis.
- Flint Mayor Karen Weaver hosted the first meeting in the City's Emergency Operations Center where City officials met with partners from other agencies to discuss the City's Water Emergency.
- The Michigan State Police Emergency Management Division has released a list of practical emergency preparedness gift ideas.

- The Michigan Legislature took its time in 2015, completing just one of Gov. Rick Snyder's top four fall priorities and sending him the fewest number of bills since Republicans took full control of state government five years ago.
- The Michigan Republican Party is standing behind a party official who shared an offensive post about Muslims on several social media platforms.
- Michigan U.S. Senators Debbie Stabenow and Gary Peters met with Congressman Dan Kildee in Flint today to discuss the transfer of $2 billion into the federal Hardest Hit Fund.
- National Weather Service forecast updates.
- TV clips: Snyder admin allowed Flint to drink toxic water; Going practical this holiday shopping season.

Analysis:

- Media coverage is neutral.
- Coverage continues on Flint water.
- The City of Flint website posted that Mayor Karen Weaver hosted the first meeting in the City's Emergency Operations Center where City officials met with partners from other agencies to discuss the City's Water Emergency.
- Will continue to monitor the situation.

FLINT WATER

State health fund needed in response to Flint water crisis, congressman says

MLive, December 23, 2015

FLINT, MI -- As questions continue to swirl about who should be held responsible for the Flint water crisis, U.S. Rep. Dan Kildee said the state needs to step forward and fund a program to benefit the health of the city's youngest residents.

Kildee, D-Flint Township, continued to call for a state-financed program during a Tuesday, Dec. 22, meeting with The Flint Journal editorial board that would be used to continually monitor potential health ramifications for those exposed to elevated lead levels in the city's water supply.

University professor says officials knew about Flint water crisis before it became public

WXYZ, December 22, 2015

(WXYZ) - New details are emerging in the Flint Water Crisis as a university professor is saying the state health department knew all about the problems - before they were made public.

Genesee County medical society supports Flint declaration of water emergency

MLive, December 23, 2015

FLINT, MI -- The Genesee County Medical Society is backing Mayor Karen Weaver's push for a federal disaster declaration because of Flint's lead in water crisis.

In a letter to Weaver today, Dec. 22, Dr. Pino Colone, president of the Medical Society, says his group "supports your call to the Genesee County Board of Commissioners and the state of Michigan to perform a damage assessment consistent with that which is needed to declare a state of emergency ..."

City officials meet with county, other agencies over state of emergency

City of Flint, December 22, 2015

Mayor Karen Weaver hosted the first meeting in the City's Emergency Operations Center (EOC) where City officials met with partners from other agencies to discuss the City's Water Emergency. In addition to City Officials, the EOC meeting included members of the Genesee County Board of Commissioners, the Michigan State Police's Emergency Management Division, the United Way, and the Genesee County Health Department. The purpose of the meeting was to discuss next steps for the city as it continues to implement its Support Emergency Operations Plan, construct an Incident Response Plan, and coordinate their efforts with outside agencies and governments.

"It was a productive meeting, where we coordinated with several agencies and levels of government. We are a step closer to bringing permanent solutions to Flint," said the Mayor, who declared a State of Emergency on Monday December 14 over ongoing problems with lead contamination in the City's water.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Michigan State Police release list of emergency preparedness gift ideas

WXYZ, December 22, 2015

(WXYZ) - If you need to buy a last-minute Christmas gift, consider getting someone an item that could help save their life.

The Michigan State Police has released its annual list of emergency preparedness gift ideas. Think practical items that could come in handy in the event of an emergency.

State Police suggest gifts to help prepare for an emergency

WSJM, December 22, 2015

If you're having trouble figuring out what to buy a loved one this Christmas, how about something that will help them stay prepared for an emergency? The Michigan State Police Emergency Management

Division has released a list of practical gift ideas, things which spokesperson Ron Leix says people often wish they had when it's too late.

"It's not a bunch of flair to give," Leix told WSJM. "It's a practical gift idea that gets that conversation started about preparing for an emergency or a disaster."

MSP suggests emergency preparedness gift ideas

ABC 57, December 23, 2015

If you still have some more holiday shopping to do, an unlikely source may have a few ideas for that perfect gift.

On Tuesday, Michigan State Police released their 2015 emergency preparedness gift list.

According to Michigan State Police, tornados and flooding have ravaged the state over the past two years.

Practical gift ideas for the holiday season

WLNS, December 22, 2015

LANSING, Mich. (WLNS) – It's an annual trend this time of year, practical gifts for the holiday season.

"I think if you're going to give a gift this actually presents the opportunity for you to save someone's life, " said Lieutenant Gabriel Covey with State Police.

Covey says facing an emergency head-on before it happens is the best thing you can do for your loved ones.

"It gets people talking it gets that conversation started about being prepared and a lot of us wait till the last minute or until it's too late man I wish I had this my house just flooded."

MICHIGAN POLITICS

Gov. Rick Snyder goes 1 for 4 on fall priorities as Michigan Legislature calls it a year

MLive, December 23, 2015

LANSING, MI — The Michigan Legislature took its time in 2015, completing just one of Gov. Rick Snyder's top four fall priorities and sending him the fewest number of bills since Republicans took full control of state government five years ago.

Snyder, who remains relentlessly positive a year into his second term, attributes the low batting average to the big swings on road funding, which included a whiff on Proposal 1 in May before lawmakers knocked a final deal over to his desk in November.

Michigan Republican Party official shares inflammatory social media post

Michigan Radio, December 22, 2015

The Michigan Republican Party is standing behind a party official who shared an offensive post about Muslims on several social media platforms.

Wayne Bradley, the GOP's state director of African-American Engagement, said he apologizes if he offended anybody.

Michigan cities may soon get more federal funding to fight blight

Michigan Radio, December 22, 2015

Michigan may soon apply for tens of millions of dollars in federal funding to tear down blighted homes.

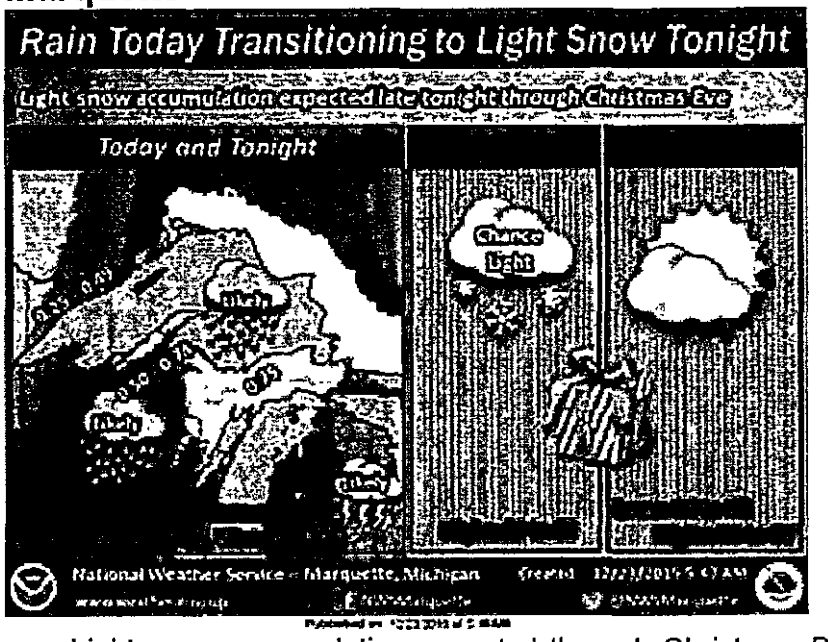
Michigan U.S. Senators Debbie Stabenow and Gary Peters met with Congressman Dan Kildee in Flint today to discuss the transfer of $2 billion into the federal Hardest Hit Fund.

Peters says the evidence that this program works is "overwhelming".

"Whenever you knock down blighted homes in a neighborhood, those property values stabilize. Those properties go up in value. People move back into the neighborhood," says Peters.

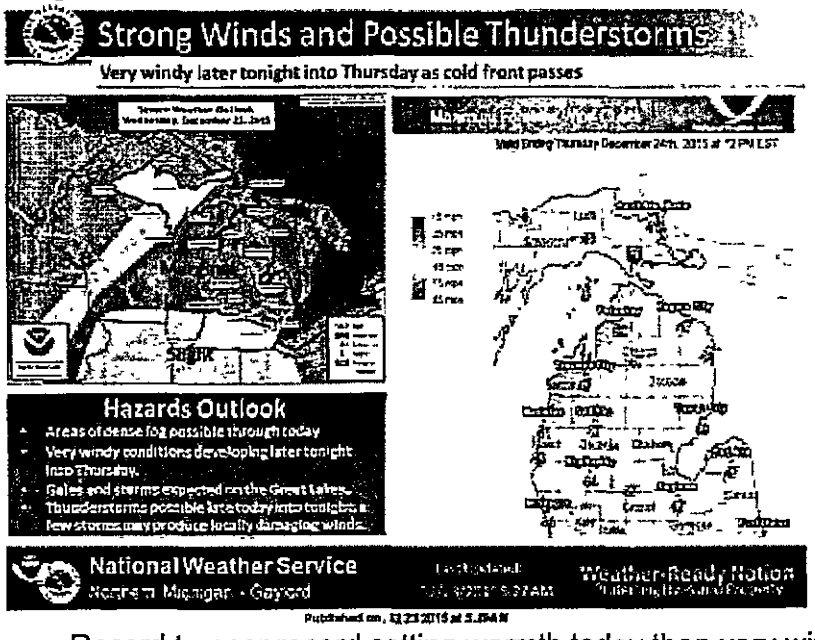
NATIONAL WEATHER SERVICE FORECASTS

Marquette



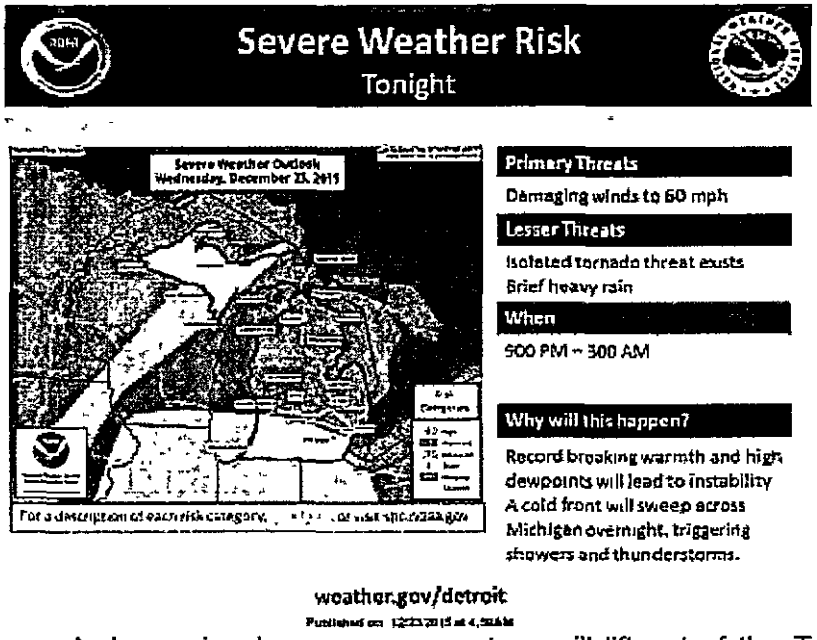
Light snow accumulation expected through Christmas Day. Warm temperatures continue and will be wet through tonight.

Gaylord



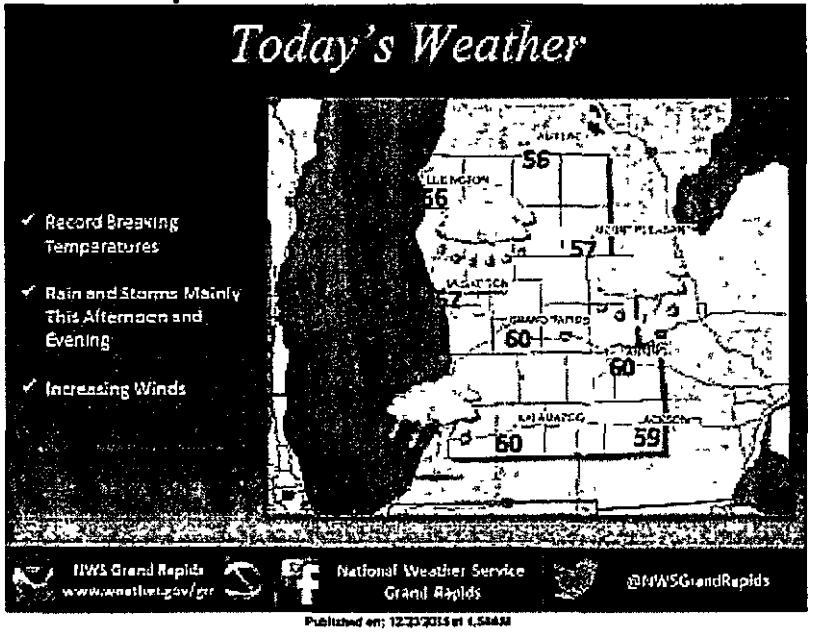
Record to near record setting warmth today then very windy later tonight into Thursday.

Detroit



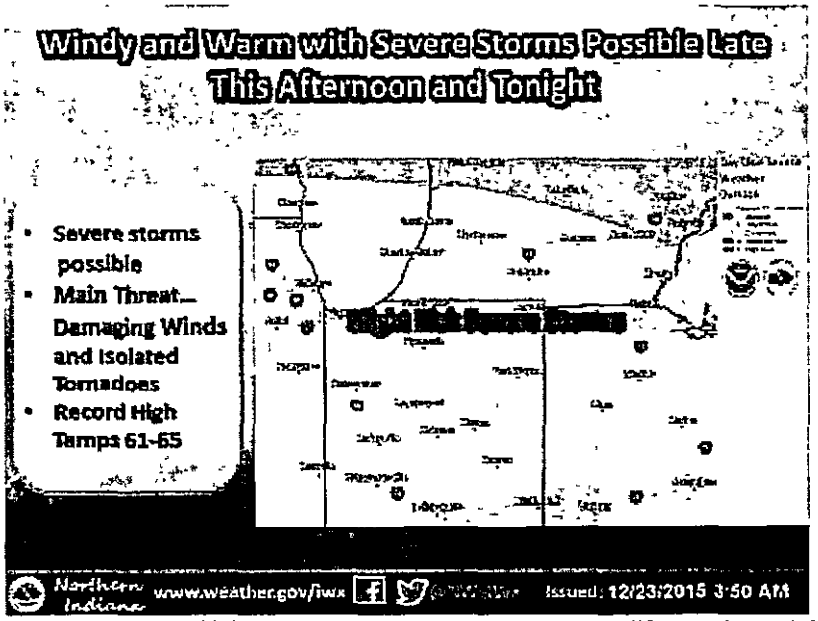
A deepening low pressure system will lift out of the Texas panhandle this morning and through the western Great Lakes this evening. Warm and humid air, drawn northward into lower Michigan, will fuel showers and the potential for thunderstorms beginning this evening. Some of the storms may become severe with damaging wind gusts to 60 mph the primary threat. The most favorable time period for thunderstorms is between 9pm and 3 am EST. Strong westerly winds will also develop in the wake of the cold front passage. A high potential then exists for west winds to exceed 40 mph, particularly north of Interstate 69 between 3 AM and 9 AM EST.

Grand Rapids



Today's record highs are 57 in both Grand Rapids, Lansing, and 54 in Muskegon. We should exceed all these values! However rain and storms will move in toward mid day and continue into the evening. Some storms could be strong with damaging winds. An isolated tornado could even occur. Winds will remain strong through tonight and into Thursday, occasionally gusting to 50 mph.

Northern Indiana



An intensifying low pressure system will lift northeast into the upper Midwest this afternoon causing unseasonably warm/moist air to move into our area. As the cold front associated with this system moves east late this afternoon and tonight, showers are expected with thunderstorms possible. Some of the storms could be severe with damaging winds and isolated tornadoes. Record highs in the lower to middle 60s are expected today with lows tonight only in the 40s.

Do you know how to spot the signs of frost bite and hypothermia?

SPOT

FROSTBITE

A victim is often unaware of frostbite because brain tissue is numb.

Signs & Symptoms
- Redness or pain in any skin area may be the first sign of frostbite

Other signs include:
- a white or grayish-yellow skin area
- skin that feels unusually firm or waxy
- numbness

HYPOTHERMIA

Hypothermia can occur at very cold temperatures, but can occur at cool temperatures (above 40°F) if a person is wet from rain, sweat or cold water (will lose heat 25x faster).

Signs & Symptoms

Adults:
- shivering
- exhaustion
- confusion
- fumbling hands
- memory loss
- slurred speech
- drowsiness

Infants:
- bright red, cold skin
- very low energy

Hi Ron, you may already have this but just in case you do not. The new PIO for the City of Flint is Sean Kammer. I have had contact with Sean due to the water meetings at the United Way in Flint. I know he is fairly new to the Mayor's office and I don't believe he has PIO experience. Capt wanted me to forward his info to you. I know our/your help was offered. Sean's email address is: skammer@cityofflint.com. I will try to located a tx for him also. Have a wonderful Christmas, Bj

FYI on the Flint meeting ... nothing of concern but what is not in there is discussion of needing a declaration by the Governor or POTUS. This MAY indicate they are trying to reframe this and slow down the rhetoric that is out there – that a declaration will fix everything. I requested the Incident Response Plan yesterday morning from the City Administrator in Flint. No reply received yet.

Chris

City Officials Meet with County, Other Agencies Over State of Emergency

Mayor Karen Weaver hosted the first meeting in the City's Emergency Operations Center (EOC) where City officials met with partners from other agencies to discuss the City's Water Emergency. In addition to City Officials, the EOC meeting included members of the Genesee County Board of Commissioners, the Michigan State Police's Emergency Management Division, the United Way, and the Genesee County Health Department The purpose of the meeting was to discuss next steps for the city as it continues to implement its Support Emergency Operations Plan, construct an Incident Response Plan, and coordinate their efforts with outside agencies and governments

"It was a productive meeting, where we coordinated with several agencies and levels of government. We are a step closer to bringing permanent solutions to Flint," said the Mayor, who declared a State of Emergency on Monday December 14 over ongoing problems with lead contamination in the City's water.

Genesee County Board of Commissioners Chairman Jamie Curtis and Vice-Chair Bryant Nolden pledged to support Flint's efforts to address water quality issues and public health, which includes assisting in the provision of immediate relief and seeking help to implement long-term solutions.

Immediate relief includes such as water filters, bottled water, and making certain foods available that help treat the effects of lead poisoning. The County is working to share critical health and nutrition information with the City to make this possible

Long term solutions include several capital improvement projects to upgrade and replace the City's water distribution infrastructure. The cost of doing this is still being determined by the City. The City is currently working on a comprehensive Incident Response Plan that details all of the actions to be taken and their costs. The Incident Response Plan will be presented to the County Board of Commissioners after the new year. It is intended to demonstrate the City's need for outside assistance and additional resources to properly address the water emergency beyond what is available at the County Level The Mayor has continuously called for outside assistance with these efforts because of the serious financial challenges facing the city Flint continues to remain in State receivership while addressing this Emergency.

OPINION

Editorial: Hasten help to Flint (Detroit News)

Flint's financial crisis became a health crisis with the decision to unhook from the Detroit water system and start delivering water to residents itself. Since the city was under state emergency management at the time, much of the responsibility for fixing the problem rests with Lansing.

Grinch-like tax on Christmas trees (Detroit News)
In a development that would surely warm the "two sizes too small" heart of the Grinch, the "Christmas Tree Tax" is being collected for the first time this year. This is a tax levied on the sale of each Christmas tree in order to encourage the sale of ... Christmas trees.

Letter: Transparency and GM tax information (Detroit News)
Re: The Detroit News' Dec 17 editorial calling for the state to release the details of a recent amendment to General Motors' tax credit deal: The deal does provide GM with hundreds of millions of other tax dollars. But these numbers should already be public, under state law.

Lawmakers leave roads a wreck, risk other funding (Detroit News)
After years of delay, neglect and political posturing, the Legislature and governor recently trumpeted their success in passing a plan that will fix Michigan roads. Unfortunately, they did no such thing.

Common cause: Snyder should veto election bills (Detroit News)
Striking late at night, when they assumed no one would be watching, politicians in Lansing passed bills to protect the voice of wealthy special interests, granting them a louder voice in our government, while pushing voters aside. The question now is whether Gov. Rick Snyder will stop them.

The scourge of sex trafficking (Detroit Free Press)
It's the scourge around the corner, in the house down the street – or even in our own families.

Michigan should do away with the straight-ticket option (Detroit Free Press)
Of all the things that make our country great, nothing is more universally cherished than our right to vote. Americans choose their own destiny, and they exercise that choice through the democratic process.

First Lady Sue Snyder comes out of 'shell' for good causes (MLive)
Apparently, it helps to know somebody when you want state support for one of your favorite projects.

Howes: Best, worst of Mich. found around Lansing (Detroit News)
And, lo, in the closing days of the year 2015 AB — after bankruptcy — the call went out to all those not yet gone and making merry: Who are the best (and worst) in Michigan business and politics?

MEDIA MONITORING REPORT

12/22/2015

Issues:

- No issues to report.

Summary:

- Michigan state officials insisted that the water supply in Flint was safe even though they knew an unusual number of children had suffered lead poisoning, according to a scientist who helped blow the whistle on Flint's water crisis.
- Metro Times posted an article on MSNBC Rachel Maddow examining Flint's water issues and Governor Snyder's role with his emergency management policy.
- The head of Michigan's Department of Environmental Quality says he hasn't regained the public's trust after a water crisis in the city of Flint left tens of thousands of residents at risk of lead exposure.
- Virginia Tech researchers have released findings that alledge Michigan health officials tried to "stonewall" the investigation into lead in Flint's drinking water.
- A new study provides the strongest evidence yet of a link between elevated blood-lead levels in children living in Flint, Michigan, and the struggling city's water system, a pediatrician who first raised alarms about the matter said Monday.
- The 19 members of the Michigan Legislative Black Caucus joined with the city, Monday, in asking Governor Rick Snyder to declare a state of emergency in Flint.
- The American Journal of Public Health has published research by Dr. Mona Hanna-Attisha that further details the rise in blood lead levels in children who drank Flint River water for as long as 17 months.
- Chippewa County Emergency Manager Tim McKee receives honors at a retirement party.
- Emergency Management Magazine reports that nuclear power plants are vulnerable to terrorist attacks.
- Just days after a Muslim couple carried out a mass shooting in California, the phone lines at the American-Arab Anti-discrimination Committee in Dearborn started ringing.
- The top Democrat in the state House is urging Gov. Rick Snyder to veto controversial election legislation.
- The GOP front-runner Donald Trump is scheduled to campaign at the DeltaPlex Monday night, making it his first political stop in West Michigan since announcing his run for president earlier this year.

- A Marquette lawmaker has pleaded guilty to drunken driving stemming from an incident in which authorities say he was speeding, swerving and driving with an open bottle of whiskey.
- National Weather Service forecast updates.
- TV clips: Flint mayor, commissioner meet to discuss water crisis; State officials knew about lead contamination before it went public.

Analysis:

- Media coverage is neutral and negative.
- Multiple media outlets report that Michigan State officials knew about lead poisoning in Flint's water supply before they went public with announcement.
- Huffington Post cited that an internal report from the Michigan Department of Health and Human Services that warned lead poisoning rates were higher than usual for children under age 16 living in the City of Flint during the months of July, August and September, 2014.
- Michigan Radio reports Virginia Tech researcher Marc Edwards says newly obtained internal documents show Department of Health and Human Services employees tried to hide evidence that matched the increased lead levels in children found by doctors at Hurley Medical Center.
- Will continue to monitor the situation.

FLINT WATER

Toxic water isn't just in Michigan

Time, December 21, 2015

The water supply in Flint, Mich., contains toxic levels of lead that are particularly harmful to children. The costs needed to begin to fix this led Flint Mayor Karen Weaver to declare a state of emergency in mid-December.

This is a tragedy—one that was entirely avoidable. The poisoning is the result of short-sighted changes by the government that were focused on saving money and that were made without adequate consideration of potential consequences. If we don't start addressing the underlying problems, there will likely be more Flints to come.

What happened in Flint?

Michigan ignored 'conclusive evidence' of Flint lead poisoning, researcher says

Huffington Post, December 22, 2015

Michigan state officials insisted that the water supply in Flint was safe even though they knew an unusual number of children had suffered lead poisoning, according to a scientist who helped blow the whistle on Flint's water crisis.

Through a public records request, Marc Edwards, a civil engineering professor at Virginia Tech, uncovered a July 2015 memo warning of elevated lead levels in Flint kids' blood.

An internal report from the Michigan Department of Health and Human Services warned that lead poisoning rates "were higher than usual for children under age 16 living in the City of Flint during the months of July, August and September, 2014."

Rachel Maddow: Snyder's anti-democratic policies to blame in Flint water crisis

Metro Times, December 21, 2015

"We cover a lot of crazy stuff on this show," MSNBC host Rachel Maddow say sat the top of her Dec. 18 episode. "But in all of the craziness we have covered over all of these years, there is one thing that has happened in one American state which stands out to me above all others. And it stands out to me because I maintain that it really is the single most radical policy — the single most radical piece of legislation put into law by any state in the country in our modern American political history."

OK, readers, quiz time: Which dysfunction junction could Maddow possibly be talking about?

If you guessed Michigan — and Gov. Rick Snyder's emergency manager policy — well, you're right!

Will the water in Flint, Michigan, ever be safe again?

Aljazeera America, December 21, 2015

FLINT, Mich. – The head of Michigan's Department of Environmental Quality says he hasn't regained the public's trust after a water crisis in the city of Flint left tens of thousands of residents at risk of lead exposure.

Dan Wyant, the director of MDEQ, told America Tonight that his agency, which is tasked with ensuring safe drinking water in Michigan, must provide more transparency when it comes to the state's water testing processes.

"We all need to do better ... the state, the city and the federal government, our partners at [the Environmental Protection Agency]," he said. "And we have a plan in place that is addressing the issue that will eliminate the lead exposure and ensure safe drinking water in Flint."

Virginia Tech researcher accuses state health officials of "hiding" data on Flint's water

Michigan Radio, December 21, 2015

Virginia Tech researchers accuse Michigan health officials of trying to "stonewall" the investigation into lead in Flint's drinking water.

The documents, obtained through a Freedom of Information Act request, are available online.

Marc Edwards says newly obtained internal documents show Department of Health and Human Services employees tried to hide evidence that matched the increased lead levels in children found by doctors at Hurley Medical Center.

State legislative black caucus asks governor for State of Emergency in Flint

ABC 12, December 21, 2015

FLINT (WJRT) - (12/21/15) - The 19 members of the Michigan Legislative Black Caucus joined with the city, Monday, in asking Governor Rick Snyder to declare a state of emergency in Flint.

"The [consequence] of lead exposure to families is permanent, permanent damage. We need to make sure we provide them them best type of health activity to mitigate some of those damages," said Rep. Sheldon Neeley (D-Flint), who sits on the caucus.

Newly published study gives more evidence of elevated lead in Flint kids

MLive, December 21, 2015

FLINT, MI -- The American Journal of Public Health has published research by Dr. Mona Hanna-Attisha that further details the rise in blood lead levels in children who drank Flint River water for as long as 17 months.

Hanna-Attisha, the director of Hurley Medical Center's Pediatric Residency Program, whose initial research first showed rising levels of lead in the blood of Flint children, said the most recent findings support that first study.

Doctor: Strongest link yet between Flint water, kids' lead levels

Midland Daily News, December 21, 2015

A new study provides the strongest evidence yet of a link between elevated blood-lead levels in children living in Flint, Michigan, and the struggling city's water system, a pediatrician who first raised alarms about the matter said Monday.

Dr. Mona Hanna-Attisha, director of pediatric residency at Hurley Children's Hospital, and other experts compiled the report using a more refined analysis. It showed that areas in Flint with the highest levels of lead in tap water corresponded with where young children with the highest blood-lead levels lived.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

McKee collects honors at retirement party

Soo Evening News, December 17, 2015

While his official day of departure won't come until after the first of the year, city, county and federal officials turned out to celebrate the retirement of Tim McKee.

"I have totally enjoyed the last 15 years," crediting the staff at Office of Emergency Services and 911/ Central Dispatch for the vast improvements in emergency response during his tenure. "I'm glad I will be able to walk away knowing it will be in the perfectly capable hands of Michelle Robbins."

When McKee took on his dual role back in 2000, emergency responders were dispatched through a hodge-podge system with the individual agencies taking their own calls and sending out their own emergency responders.

Nuclear power plants feared vulnerable to terrorist groups

Emergency Management, December 21, 2015

(TNS) - Security at France's 58 nuclear power plants was purportedly raised to its highest level last month as a result of the terrorist attacks in Paris, stoking concern over the safety of Japan's nuclear facilities.

After the triple meltdown in Fukushima in 2011, Japan shut down all 48 of its viable commercial reactors in light of the crisis. But attempts are now being made to bring many back online.

And despite opposition from anti-nuclear activists and groups, two reactors in Sendai, Kagoshima Prefecture, were restarted this fall and summer, with applications for 26 more pending Nuclear Regulation Authority approval.

Workplace bias complaints pour in from Mich. Muslims

Detroit Free Press, December 22, 2015

Just days after a Muslim couple carried out a mass shooting in California, the phone lines at the American-Arab Anti-discrimination Committee in Dearborn started ringing.

Women in headscarves were calling for help, asking how to protect against discrimination in the workplace — and anywhere else they ventured.

MICHIGAN POLITICS

Democrats and progressive groups urge Snyder to veto controversial election bills

Michigan Radio, December 21, 2015

The top Democrat in the state House is urging Gov. Rick Snyder to veto controversial election legislation.

One bill would eliminate the straight-ticket voting option on Michigan ballots.

The other makes changes to campaign finance laws that critics say allow more money from outside political groups into elections. Local governments and school leaders are also concerned about a provision in that bill they say would prevent them from answering questions during public meetings leading up to elections.

Donald Trump campaigns in West Michigan

WZZM 13, December 21, 2015

WALKER, Mich. (WZZM) – The GOP front-runner Donald Trump is scheduled to campaign at the DeltaPlex Monday night, making it his first political stop in West Michigan since announcing his run for president earlier this year.

The indoor 7:30 p.m. event sold out, but a 5 p.m. rally in the DeltaPlex's parking lot is open to the public.

Paul Langlois is the president of the DeltaPlex and he suggests getting there early if you want to see the presidential hopeful.

Kivela pleads to driving drunk

WNMU FM, December 21, 2015

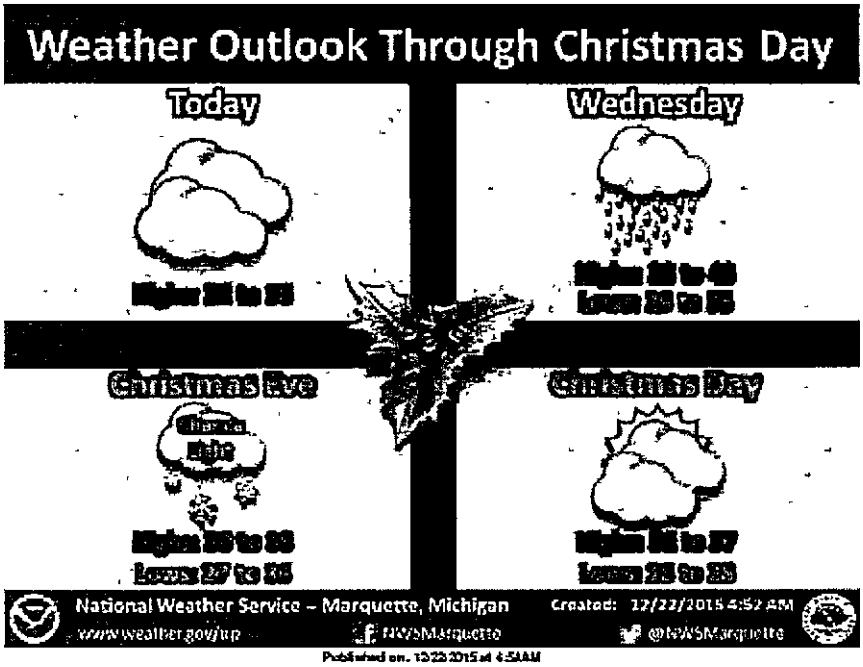
CLINTON COUNTY, MI (AP)-- A Marquette lawmaker has pleaded guilty to drunken driving stemming from an incident in which authorities say he was speeding, swerving and driving with an open bottle of whiskey.

Democratic Representative John Kivela made the plea to a first-offense charge Friday in Clinton County court. Prosecutors dropped a more serious charge of operating while intoxicated with a high-blood-alcohol content.

Police say Kivela's blood-alcohol level was about three times the legal limit after a sheriff's deputy stopped him November 9 near Lansing.

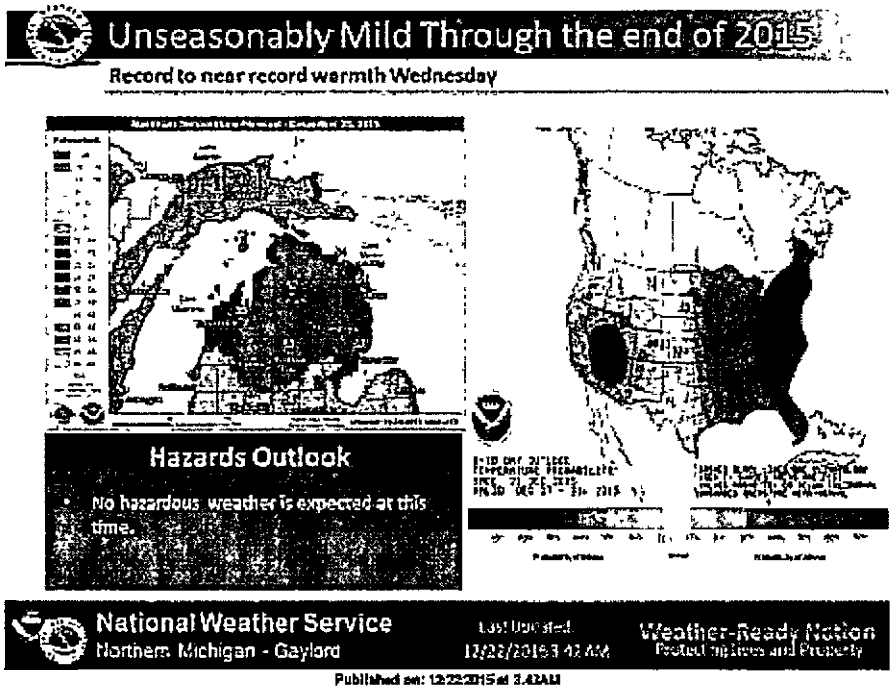
NATIONAL WEATHER SERVICE FORECASTS

Marquette



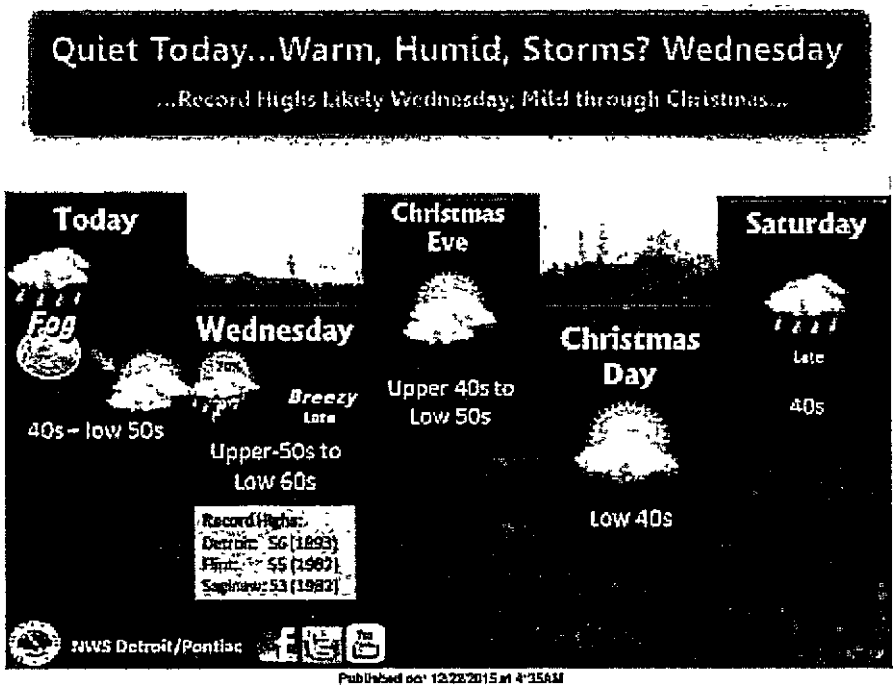
Warm temperatures continue through Christmas Day with very little snow expected.

Gaylord



More unseasonably mild weather on tap with record or near record warmth Wednesday.

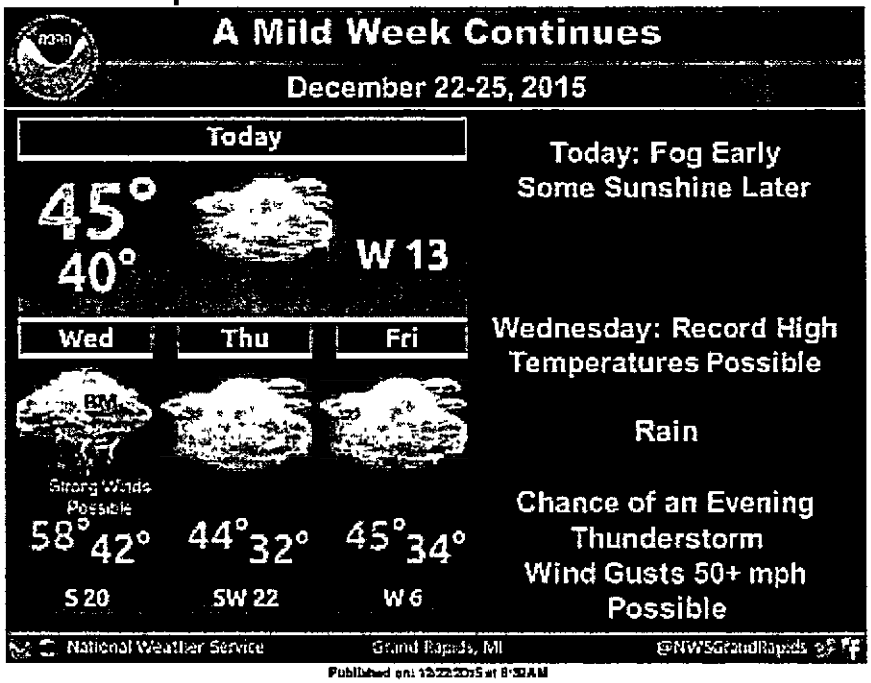
Detroit



Published on: 12/22/2015 at 4:15AM

The weather will dry out temporarily today as a very weak surface ridge builds into the state. The light rain showers and fog that are in place this morning will eventually give way to just an ordinary blanket of overcast for the afternoon. The next low pressure system will develop over the Mississippi river valley Wednesday and lift through the Great Lakes region. Warm air and moisture will surge back northward bringing a chance of showers and thunderstorms during the morning and record high temperatures in the afternoon. Another period of possible thunderstorm activity will exist during the evening hours...with strong westerly winds developing behind the cold front Thursday morning. Temperatures will remain above averages during the end of the week.

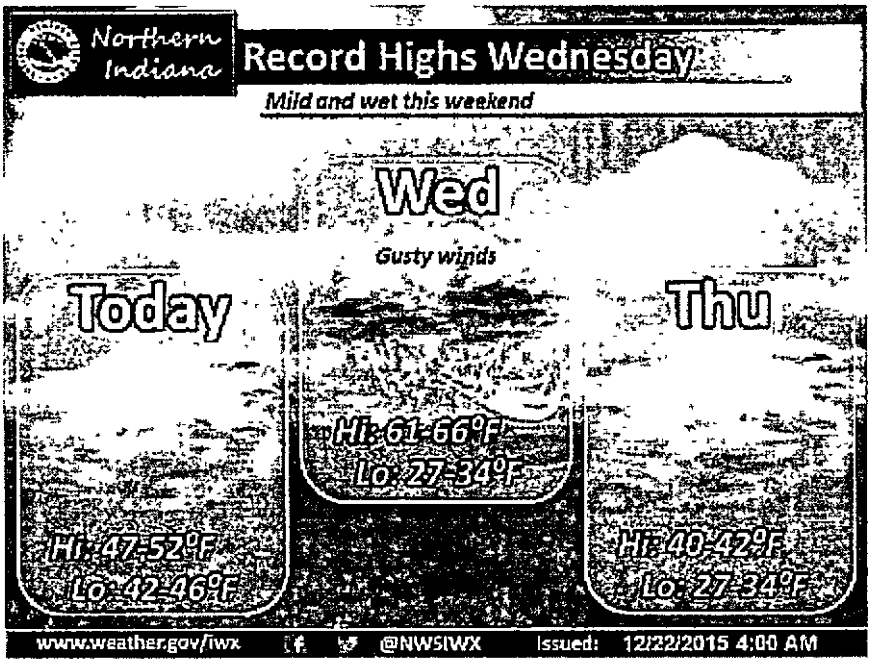
Grand Rapids



Published on: 12/22/2015 at 8:32AM

Normal high temperatures this time of year are in the lower 30s, so warmer-than-usual conditions will continue for a while. Thunderstorms with potentially strong wind gusts are possible Wednesday evening.

Northern Indiana



Mild weather will continue through next weekend. Record warm temperatures in the 60s expected Wednesday with afternoon/evening thunderstorms possible...some of which may produce gusty winds.

In an effort to combat prescription drug and opiate abuse, the MSP partnered with the Livingston County Community Alliance to place prescription drug collection barrels inside all 29 MSP posts for the safe and anonymous collection of expired, unwanted, or unused prescription drugs. This initiative provides a safe and confidential way to dispose of unwanted medications to prevent the misuse of prescription drugs and reduce environmental hazards.

Michigan State Police added 7 new photos to the album: 20th Motor Carrier Officer Recruit School - Week 9.
22 hrs ·
Week 9 began with 14 recruits returning to the MSP Training Academy for another week of intense training.
The week had a very exciting start with the recruits taking part in the first fitting of their department issued uniforms. This is another step toward their ultimate goal of becoming a Michigan State Police motor carrier officer.
This week, the recruits received legal instruction in laws of suspect identification, contraband, regulatory crimes, and crimes against persons.... The recruits continued training in firearms, defensive tactics, first aid, and water safety. Firearms staff provided the recruits training on the qualification course, while defensive tactics instructors taught each recruit ground-fighting skills.
Patrols staff put the recruits through traffic stop scenarios and other practical exercises. Recruits performed a traffic stop involving a driver found to have a warrant for their arrest. The subsequent vehicle search revealed a loaded and stolen handgun under the driver's seat. The recruits are exposed to more extensive and difficult scenarios as they progress through recruit school.
The recruits also performed a practice exam in water safety this week. Each recruit was faced with a fellow recruit who was acting as a drowning victim. Recruits were expected to successfully perform a water rescue and deal with a panicked victim.
Week 9 concluded with 14 recruits being released for weekend furlough.

Hillary Clinton plans Jan. 12 fundraiser in Detroit (Detroit News)
Democratic presidential frontrunner Hillary Clinton is coming to Detroit on Jan. 12 for a fundraiser, her campaign confirmed Tuesday.

OPINION

Editorial: Emergency management law working for cities (Detroit News)
Michigan will start the year with not one of its local communities under emergency management, with the emergence of Lincoln Park from state control last week. While Detroit Public Schools and other school districts, as well as Wayne County, still are operating under some form of state financial oversight, for the first time in 15 years no cities have emergency managers.

State must pay for justice, not defendants (Times Herald)
We thought we were making progress when Lansing moved to eliminate one of the state's most outrageous taxes. Beginning Oct. 1, Michigan began phasing out the "driver responsibility fees" that the Granholm administration invented in 2003 to plug a hole in the state budget. Driver responsibility fees are a tax on those convicted of reckless driving, drunken driving or driving without a valid license.

Gov. Rick Snyder still doesn't get it when it comes to Flint water crisis (MLive)
Gov. Rick Snyder still doesn't get it. Three months after the state finally acknowledged there was a problem with Flint water, Snyder issued a statement Tuesday, Dec. 29, apologizing for the situation and announcing actions to "ensure a culture of openness and trust."

Look back: What's it like to own the train station? (Freep)
What's it like to own the train station? I'm not going to say that question keeps me up at night, but driving around Detroit with Matt Moroun — the son of Manuel (Matty) Moroun, the 87-year-old industrialist and Ambassador Bridge owner (and dilapidated train station owner, vast property owner and billionaire) — I couldn't help but wonder.

Editorial: Tell Snyder to veto majority's election 'reforms' (Battle Creek Enquirer)
We wrote in November that a bill to strip Michigan voters of the ability to vote straight ticket was beneath the dignity of the Legislature. In hindsight, we over-estimated the Legislature.

Black lives, Tamir Rice and America's uncivil history (Freep)
I was struck with a wide range of emotional responses to the failure of Ohio prosecutors to charge Cleveland police officers for their hasty and thoughtless killing of 12-year-old Tamir Rice — as an African American, as a parent, as a human being.

Another View: Election reform laws headed in wrong direction (Gaylord Herald Times)
State lawmakers recently passed another law designed to reform elections in Michigan.
With 2015 winding down, a bill heads to Gov. Rick Snyder's desk prohibiting local governments from spending money to inform the public about ballot proposals within 60 days of an election.

Helping our veterans in Michigan and beyond (Oakland Press)
Though it feels like partisan bickering in politics is the norm, there are some issues that should always rise above party politics; the care, safety, and well-being of our nation's troops and veterans. As we celebrate the holiday season, the spirit of caring for one another and wishes for peace on Earth are strong. In this spirit, let's make sure as we begin a new year, we hold Congress and the Pentagon responsible for caring for our veterans.

Bieda: Bills would leave voters in dark (Detroit News)
Lawmakers in Lansing recently worked late into the night to pass a series of controversial bills, one of which grew from 12 to 53 pages in the span of an hour. Republicans barred Democrats' staff from the Senate floor to make it harder for us to review the amended legislation, and immediately forced a vote. It's ironic that they eliminated straight-ticket voting on the pretext of helping voters make educated decisions, and yet failed to allow educated voting in their own chambers.

MEDIA MONITORING REPORT

12/30/2015

Issues:

- No issues to report.

Summary:

- Gov. Rick Snyder yesterday issued a statement.in response to initial findings from the Flint Water Task Force.
- Gov. Rick Snyder apologized to the City of Flint on Tuesday for the drinking water crisis that has left children poisoned by lead and announced that he accepted the resignation of Michigan Department of Environmental Quality Director Dan Wyant.
- Michigan Department of Environmental Quality spokesperson Brad Wurfel has joined director Dan Wyant in resigning after a task force cited department failures in addressing the Flint water crisis.
- Congressman Dan Kildee again appeared on "The Rachel Maddow Show" Tuesday for a live interview with guest host Melissa Harris Perry.
- A task force appointed by Gov. Rick Snyder says Michigan's environmental regulatory agency is primarily responsible for the state's failure to ensure safe drinking water for Flint residents.
- The City of Flint took another major step Tuesday in addressing the current water "State of Emergency" declared earlier this month by Mayor Karen Weaver.
- Michigan Public Broadcasting has posted the letter to Gov. Rick Snyder from the Flint Water Advisory Task Force.
- Columnist Larry Gabriel posted an article for Detroit Metro Times on Gov. Snyder's role in Flint water crisis.
- Flint Journal Editor Bryn Mickle posted a MLive article regarding Gov. Snyder and the state's role in Flint water crisis.
- Mayor Karen Weaver and other local leaders say the resignation of Michigan Department of Environmental Quality Director Dan Wyant and release of Flint Water Task Force findings Tuesday are the first steps toward holding people accountable for Flint's water crisis.
- State regulators should have required Flint to treat its corrosive drinking water to keep lead from leaching from service lines into people's homes but did not purposely mislead federal officials about the lack of corrosion control, Michigan's auditor general said in a preliminary report released Monday.
- An increased number of mass shootings and natural disasters across the United States has put a greater demand on Lenawee County Emergency Management Coordinator Curtis Parsons' time on a local level, according to Lenconnect.com.
- New York City ramps up security for New Year's Eve.
- Homes all across Michigan are still without power in Lenawee County after Monday's winter storm.
- Several hundred people are in the dark Tuesday afternoon after a winter storm pushed through West Michigan on Monday.
- While Monday's winter storm resulted in snow and dangerous ice conditions in much of Lower Michigan, the impact in Monroe County was mostly property damage on the Lake Erie shoreline in addition to street flooding at the height of the storm.

- Flint City Councilman Joshua Freeman announced Tuesday he will no longer represent the city's fourth ward.
- There's a push in Michigan's Congress to reverse some efforts to limit voter access to the polls.
- National Weather Service forecast updates.
- TV clips: State at fault in Flint water crisis; MDEQ Director and Spokesman resign after Snyder apologizes.

Analysis:

- Media coverage is negative and neutral.
- Flint Water Advisory Task Force released their finding to reveal MDEQ is mostly at fault for the Flint water issues.
- Gov. Rick Snyder issued an apology and accepted MDEQ Direct Dan Wyant's resignation.
- MDEQ Spokesman Brad Wurfel has announced his resignation.
- Flint Mayor Karen Weaver submitted an "Incident Action Plan" on Flint water crisis to Genesee County Emergency Management and Homeland Security Office.
- Will continue to monitor the situation.

FLINT WATER

Gov. Rick Snyder takes action on initial findings from Flint Water Task Force

Michigan.gov, December 29, 2015

In response to initial findings from the Flint Water Task Force, Gov. Rick Snyder today issued the following statement:

"When I became aware that the city of Flint's water showed elevated lead levels and that the state's handling of the situation was being questioned, I requested funding to switch the source back to the Great Lakes Water Authority and appointed an independent task force to identify possible missteps and areas for improvement.

"The task force has done an exceptional job, reviewing stacks of documents and interviewing scores of Flint, Genesee County, state and federal officials. Although the task force's final report is not yet completed, members have made me aware of some interim findings and corrective steps that I have decided to take immediately in order to restore trust in how the state keeps its citizens safe and informed.

DEQ spokesman resigns over Flint water crisis, says city 'didn't feel like we cared'

MLive, December 30, 2015

LANSING, MI -- Michigan Department of Environmental Quality spokesperson Brad Wurfel has joined director Dan Wyant in resigning after a task force cited department failures in addressing the Flint water crisis.

Wurfel in an email to contacts on Tuesday night said he had been honored to serve under Wyant and was joining his boss in resigning.

"I have greatly appreciated my time as Communications Director at the DEQ, but I am looking forward to pursuing new opportunities in the new year. I tendered my resignation today as well," Wurfel said.

Snyder apologizes, Wyant resigns in Flint Water Crisis

Detroit Free Press, December 29, 2015

LANSING — Gov. Rick Snyder apologized to the City of Flint on Tuesday for the drinking water crisis that has left children poisoned by lead and announced that he accepted the resignation of Michigan Department of Environmental Quality Director Dan Wyant.

Snyder said in a news release that there will be other personnel changes at the DEQ and that the moves he announced are among "initial steps" he is taking to assure the safety of Flint residents, with more action to come.

Michigan regulator resigns amid Flint's lead-in-water crisis

ABC News, December 29, 2015

Michigan's top environmental regulator resigned Tuesday after elevated levels of lead were found in Flint children during a drinking water crisis that a task force blamed primarily on his agency.

Gov. Rick Snyder accepted the resignation of Department of Environmental Quality Director Dan Wyant and apologized for what occurred in Flint, which switched its drinking water supply in a cost-cutting move while under state financial management. Communications director Brad Wurfel also resigned, and Snyder said he plans additional personnel changes in the agency.

Flint water report prompts apologies, resignations

Detroit News, December 29, 2015

Michigan's top environmental official resigned Tuesday after an independent task force delivered its initial findings on the Flint water contamination crisis — conclusions that also prompted an apology from Gov. Rick Snyder.

Dan Wyant, director of the Department of Environmental Quality since 2011, tendered his resignation Tuesday, marking the second agency shakeup in just over two months related to Flint's lead-tainted drinking water problems. The industrial city has been plagued by lead issues since an April 2014 switch to the Flint River as its water source.

Congressman Dan Kildee will again discuss Flint water on 'The Rachel Maddow Show'

MLive, December 29, 2015

FLINT, MI – Congressman Dan Kildee will again appear on "The Rachel Maddow Show"at 9 p.m. tonight for a live interview with guest host Melissa Harris Perry.

Last week, Kildee was on the show asking for Gov. Rick Snyder to help residents in Flint during the city's water crisis

Kildee has advocated for resources from the state to help residents during Flint's lead-in-water crisis, including the help to improve Flint's distribution system. In addition, he is asking Snyder to create a state-financed health fund and to continually monitor the health of those exposed to elevated lead levels.

Task force lays most blame for Flint water crisis on MDEQ

Michigan Radio, December 29, 2015

A task force appointed by Gov. Rick Snyder says Michigan's environmental regulatory agency is primarily responsible for the state's failure to ensure safe drinking water for Flint residents.

The Flint Water Advisory Task Force says in a letter to Snyder that the state Department of Environmental Quality "must be held accountable for that failure."

Director Dan Wyant resigns after task force blasts MDEQ over Flint water crisis

MLive, December 29, 2015

LANSING, MI -- Gov. Rick Snyder on Tuesday accepted a resignation from Michigan Department of Environmental Quality Director Dan Wyant after a task force laid responsibility for the Flint water crisis at the feet of the department.

Snyder, in a statement, announced Wyant's resignation and apologized to Flint residents after he received a letter from the Flint Water Advisory Task Force.

"...MDEQ Director Dan Wyant has offered his resignation, and I've determined that it's appropriate to accept it. I'm also making other personnel changes at MDEQ to address problems cited by the task force," Snyder said.

Flint mayor submits plan to deal with water problems

9 & 10 News, December 30, 2015

FLINT, Mich. (AP) - Flint's mayor has submitted a plan following her state of emergency declaration over problems with the city's water system.

Karen Weaver's administration announced Tuesday it sent the plan to Genesee County emergency officials. The issue is on the agenda for the county Board of Commissioners' Jan. 4 meeting.

The plan outlines steps required to deal with causes and effects of lead contamination in the water. It's also part of the process for requesting federal assistance.

Mayor's office submits "Incident Action Plan" to county regarding Flint water

ABC 12, December 29, 2015

FLINT (WJRT) - (12/29/15) - The City of Flint took another major step Tuesday in addressing the current water "State of Emergency" declared earlier this month by Mayor Karen Weaver.

According to the city administrator, Mayor Weaver's office submitted an official "Incident Action Plan" to Genesee County Emergency Management and Homeland Security Office.

Letter from Flint Water Advisory Task Force

Public Broadcasting, December 29, 2015

Dear Governor Snyder:

The Flint Water Advisory Task Force, which you appointed on October 21, 2015 has devoted considerable effort and countless hours to our review of the contamination of the Flint water supply: What happened, why it occurred, and what is needed to prevent a recurrence in Flint or elsewhere in the state. We have also been assessing ongoing mitigation efforts to help assure that short- and long- term public health issues and water management concerns will be properly addressed to safeguard the health and well being of the Flint community.

Shortly after we began our work, we recognized the immediate need for better coordination of the state's response to the ongoing public health issues in Flin, and for assignment of a single person to provide this coordination. We addressed these concerns in a letter to you on December 7, 2015, and you responded with immediate adoption of these recommendations. We thank you for the commitment your response demonstrates.

Stir it up: No one is to blame for Flint but Snyder

Detroit Metro Times, December 30, 2015

I knocked on Mulenga Harangua's door early one day between Christmas and New Year's Day. I was doing a little post-holiday shopping and thought I'd get a couple of those "Detroit, comme ça" T-shirts he was selling. He was slow getting to the door and I banged on it a second time.

"Hold on a minute," Mulenga hollered from inside just before opening the door. "I was busy making some new T-shirts."

Gov. Rick Snyder still doesn't get it when it comes to Flint water crisis

MLive, December 29, 2015

Gov. Rick Snyder still doesn't get it.

Three months after the state finally acknowledged there was a problem with Flint water, Snyder issued a statement Tuesday, Dec. 29, apologizing for the situation and announcing actions to "ensure a culture of openness and trust."

Unfortunately, Snyder left out some key details.

Flint leaders applaud DEQ director's resignation, governor's apology

MLive, December 29, 2015

FLINT, MI – Mayor Karen Weaver and other local leaders say the resignation of Michigan Department of Environmental Quality Director Dan Wyant and release of Flint Water Task Force findings Tuesday are the first steps toward holding people accountable for Flint's water crisis.

"There is some accountability being put in place and that's a good thing," Weaver said. "That's what is happening and I think that's a good sign because it shows that our voices have been heard and that they will continue to be heard."

Auditor: State erred on Flint water but didn't mislead feds

The Oakland Press, December 29, 2015

LANSING (AP) — State regulators should have required Flint to treat its corrosive drinking water to keep lead from leaching from service lines into people's homes but did not purposely mislead federal officials about the lack of corrosion control, Michigan's auditor general said in a preliminary report released Monday.

Doug Ringler, citing a memo issued last month by the U.S. Environmental Protection Agency, concluded that the Michigan Department of Environmental Quality erred in not requiring the city to immediately combat corrosion when it switched from Detroit's system to the Flint River in April 2014 in a cost-cutting move while under state financial management. State officials interpreted federal rules to

mean Flint could make the transition and then test the new water for lead over two six-month intervals to determine potential corrosion treatment.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Emergency management to increase outreach in 2016

Lenconnect, December 29, 2015

ADRIAN - An increased number of mass shootings and natural disasters across the United States has put a greater demand on Lenawee County Emergency Management Coordinator Curtis Parsons' time on a local level.

From area manufacturing plants and public service buildings to schools, Parsons has found himself addressing staff and administrators on increased awareness of disaster events. He said people are constantly reminded of the ever-evolving need to stay informed with the newest information in the wake of mass shootings across the United States to a tornado outbreak across southern states last week.

New York City ramps up security for New Year's Eve celebration

Reuters, December 29, 2015

A six-ton crystal ball is ready to be lowered above New York City, colorful paper has been ground into confetti that will rain on Times Square and about 6,000 police officers will guard revelers on New Year's Eve at one of the city's highest-profile events.

"We are ready," Mayor Bill de Blasio told a news conference on Tuesday. "We are the best prepared city in the country, the best prepared city to prevent terrorism and to deal with any event that could occur."

An estimated one million people are expected in the vicinity of One Times Square on Thursday for the New Year's Eve dropping of the ball, a tradition begun in 1907 and broken only during wartime blackouts.

MICHIGAN WINTER STORM

Some Michigan families still without power

13 ABC, December 29, 2015

LENAWEE CO (13abc Action News) - Homes all across Michigan are still without power. In Lenawee County, restoration efforts are underway.

"They've made significant progress in restoration of services," Curtis Parsons, Lenawee County Emergency Management coordinator said.

He says the numbers have dropped in a big way. At it's peak there were about 3,000 outages. By Tuesday morning, that number was more like 2,700 and by the evening it was down to about 100. But for some, Wednesday at 4 p.m. is the estimated time of restoration.

Consumers Energy: Hundreds still without power

WZZM 13, December 29, 2015

GRAND RAPIDS, Mich. (WZZM) – Several hundred people are in the dark Tuesday afternoon after a winter storm pushed through West Michigan.

Power outages on Consumers Energy's outage map started popping up on Monday afternoon. Users can use that map to check out outage information for their area, including an estimate on when power could be restored.

Customers can report an outage to the utility by calling 1-800-477-5050 or online at consumersenergy.com/outagecenter.

Michigan restoration, cleanup follows storm

Lenconnect, December 29, 2015

A day of clear weather helped crews clear roads and restore power to thousands of Lenawee County customers knocked offline by a storm Monday afternoon and night.

At its peak early Tuesday morning, more than 3,000 Lenawee County customers were without power due to freezing rain, strong winds and a little snow. Lenawee County Airport reported wins of 25 mph and gusts of 36 during Monday afternoon.

Some property damaged noted in lakeshore homes from Lake Erie's fury

Monroe News, December 29, 2015

While Monday's winter storm resulted in snow and dangerous ice conditions in much of Lower Michigan, the impact in Monroe County was mostly property damage on the Lake Erie shoreline in addition to street flooding at the height of the storm.

Monroe County measured 1.2 inches of rain from the storm at the Dundee Wastewater Treatment Plant.

"We had more rain, thank goodness," said Susan Martinez, emergency management specialist with the Monroe County Office of Emergency Management, of the lack of ice and rain. "We were very fortunate."

MICHIGAN POLITICS

Flint City Councilman Joshua Freeman resigns

ABC 12, December 29, 2015

FLINT (WJRT) - (12/29/15) - Flint City Councilman Joshua Freeman announced Tuesday he will no longer represent the city's fourth ward.

Freeman's resignation officially takes place at midnight on Dec. 31.

Since taking office five years ago, Freeman says he has lived separate from his wife and children, who live and go to school in Davison.

Freeman has lived at his Flint home and says it's been a strain on his family.

Voter access could be an issue in 2016

Michigan Radio, December 28, 2015

There's a push in Congress to reverse some efforts to limit voter access to the polls.

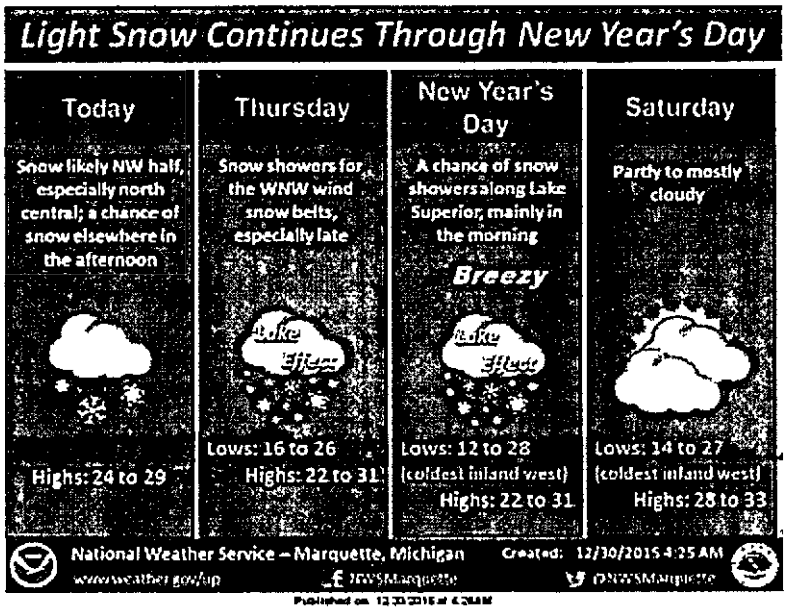
Michigan and other states have taken steps to limit early voting options and access to absentee ballots.

U.S. Senator Gary Peters (D-MI) says Congress should take steps to protect voter access.

"We should be in the process where everybody, no matter who you are, no matter where you live, has the ability to exercise the most fundamental right we have as an American citizen and that's the ability to vote," says Peters.

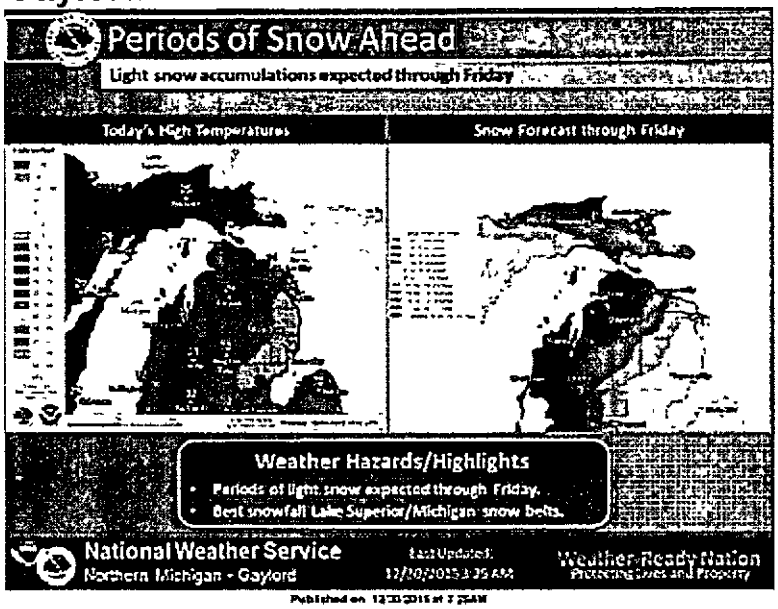
NATIONAL WEATHER SERVICE FORECASTS

Marquette



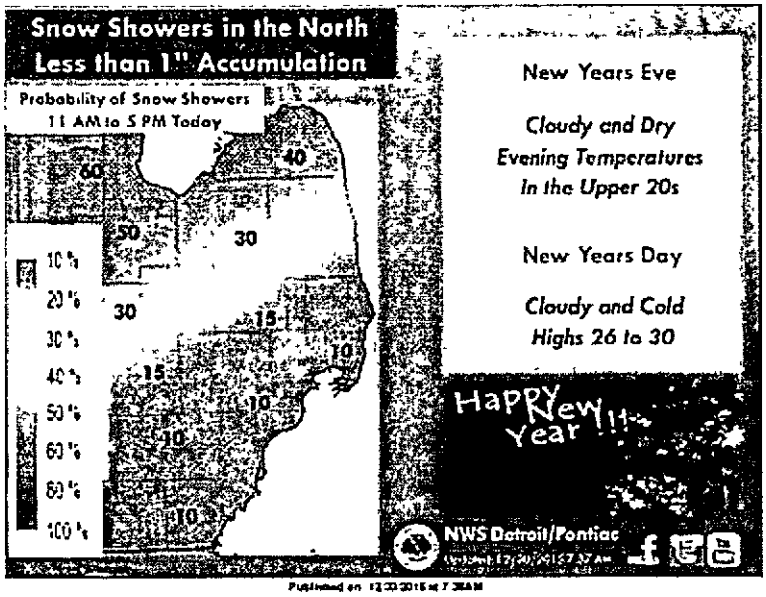
Quiet weather is expected across Upper Michigan as the calendar changes to 2016. Outside of light lake effect and a light dusting of snow this afternoon, little to no precipitation is forecast into the weekend.

Gaylord



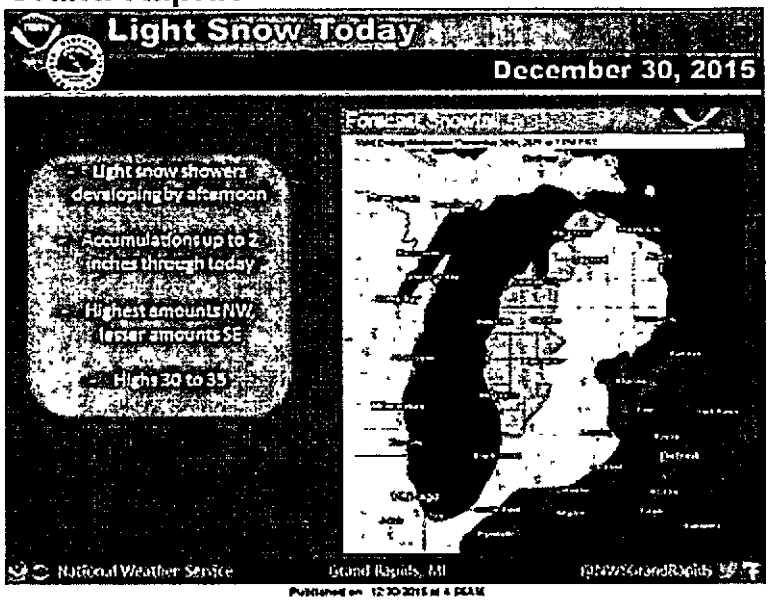
Periods of snow expected across northern Michigan through Friday...with the lake snow belts downwind of Lake Superior and Lake Michigan seeing the majority of the snowfall through the end of the week.

Detroit



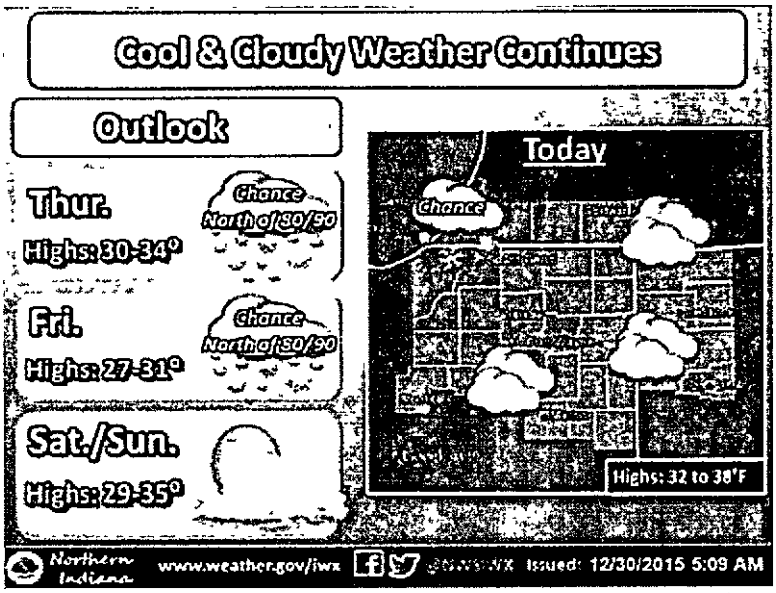
A fast moving upper level disturbance will bring some snow showers and flurries to the area today. The weak nature of this system will support little if any snow accumulations. Colder air will funnel into the region tonight in the wake of this system. While this air mass will be colder than that of the past few weeks, temperatures for New Year's will actually be near normal for this time of year.

Grand Rapids



Light snow will develop by afternoon. Accumulations of up to 2 inches expected, highest NW. Highs 30-35.

Northern Indiana



A few light snow showers are possible in NW IN and SW MI today but little to no accumulation is expected. Highs will be in the mid to upper 30s under cloudy skies. Light lake effect snow showers will then be possible north of the toll road from tonight through Friday but any accumulation will be light (an inch or less.) Seasonable temperatures and clearing skies for the weekend.

Michigan State Police graduates 6 new canine units
Detroit Free Press
By: Jim Schaefer
12.19.15

Six German Shepherds and their handlers have graduated from basic training to help the Michigan State Police hunt for illegal drugs and missing people.

The state police announced the six new canines in blue on Dec. 18. The half-dozen hounds will boost the overall number of dog teams to 41, and they are assigned throughout the state. The teams answer more than 5,000 requests for help around the clock, all year long, according to a department news release.

This was the first new class since 2013.

http://www.freep.com/story/news/2015/12/19/michigan-state-police-graduates-6-new-canine-units/77651832/

Since age 4, boy has donated 700 toys
Livingston Daily
12.18.15

Douglas Adams learned the value of community service from his family.

He was 4 years old when he began donating toys to the U.S. Marine Corps Toys for Tots program — and it's an annual tradition the 15-year-old Hartland Township resident continues today.

"We've watched Douglas grow up over the years and admired his dedication to the Toys for Tots program," said Michigan State Police Sgt. Mark Thompson of the Brighton Post, which serves as a drop-off spot for the program. "Douglas has probably donated over 700 toys in the last 11 years."

First Lt. Joel Allen, the Brighton Post commander, recently presented Adams with a state police certificate of appreciation for assisting the department's efforts.

Douglas' mother, Alice Adams, said community service is something the family believes in and her son's schools have encouraged.

A Hartland High sophomore, Douglas also participates in student council and is taking honors and Advanced Placement classes. He also participates in tennis and lacrosse and will travel to Germany as an exchange student in 2016.

Troopers and motor carrier officers at the post delivered several hundred toys to the Toys for Tots warehouse Wednesday.

MSP: No serious injuries in US-131 pileup
WOOD TV
12.18.15

ALGOMA TOWNSHIP, Mich. (WOOD) — Slick, snowy conditions on US-131 north of Grand Rapids Friday led to a chain-reaction crash involving up to 50 vehicles.

The wreck shut down a stretch of southbound US-131 south of 17 Mile Road near Cedar Springs around 3:30 p.m. Dozens of vehicles slid off the highway and into the ditch, some rolling over.

Ferris State University student Zachary St. Pierre was driving home to Macomb when the conditions started to turn nasty.

"The snow got really bad, so I started slowing down. And all of the sudden it cleared and there was just piled up cars everywhere," he told 24 Hour News 8. "There was one half on the road so I kind of had to swerve to move out of the way, and then it hit my back end and that's when I spun out and fell into the ditch and I got stuck between two other cars."

"God, I was just very scared; thought I was going to die. I've never been in an accident before or anything like that," he continued.

St. Pierre wasn't hurt. In fact, no one was seriously wounded. Michigan State Police said there were only a few minor injuries.

"There were no serious injuries and that's a pretty good thing," Trooper Matthew Williams said. "It could've been much worse."

Emergency crews scrambled to check on victims as tow truck drivers flooded the area to pull mangled vehicles out of the ditch.

"It was mess. Trying to get to it and trying to get through it to my first call was just- it was crazy. Cars everywhere," said Dillon Stanley, who works for Jerry's Towing.

Vehicle after vehicle involved in the wreck, some of them totaled, were brought to the park-and-ride lot on 14 Mile Road, which police used as a sort of staging area.

The highway reopened just after 6 p.m. 1st Lt. Chris McIntire, the commander of MSP's Rockford Post, praised troopers for clearing the scene in less than three hours. He said that without their hard work to clean up quickly, there may have been many more crashes.

Commuters on northbound US-131 also encountered crashes. Authorities shut down the northbound lanes at Post Drive NE for about half an hour after a crash involving a gasoline tanker truck. Dispatchers said the crash happened near 10 Mile Road in Rockford around 5 p.m.

>>PHOTOS: Crashes on West Michigan's icy roads

Drivers taking back roads to avoid the highway were also at a standstill, as some roads were extremely icy.

Kent County Road Commission Maintenance Director Jerry Byrne said his crews were stuck in traffic, just like other drivers.

He said the county called in extra crews from Montcalm County to help the 25 to 30 Kent County crews salting the roads. Byrne said they were focusing their efforts on the area of M-6 at I-96 and northern Kent County.

SNOWY CONDITIONS LEAD TO MANY CRASHES

There were crashes and slide-offs all over West Michigan on Friday.

Around 8 p.m., Kent County dispatchers said a crash involving semi-trucks had shut down the intersection of 10 Mile Road and Pine Island Drive west of Rockford. Traffic was being rerouted to M-37. Dispatchers said there was no immediate word of any injuries.

Drivers reported impassable conditions around Rockford because icy conditions on hilly roads were causing slide-offs.

MDOT reported multiple crashes on East Beltline Avenue, US-131 and westbound Interstate 96, which all led to lane closures and traffic backups. Two crashes on southbound US-131 between 36th Street and 44th Street involved multiple vehicles.

Police said multiple crashes also closed M-66 in Battle Creek for a time.

Drivers were asked to slow down for the slick conditions.

Police also suggest that you keep warm clothes, food and water in your car during the winter months. When pileups like the one on US-131 happen, drivers can be stuck in the cold for long periods of time.

What's That Fragrance You're Wearing? May Want To Make Sure It's Not Counterfeit
CBS Detroit
12.20.15

DETROIT (WWJ) – Many people are finishing up their last-minute holiday shopping, and Michigan State Police Lieutenant Mike Shaw wants you to be aware of counterfeit products while buying.

"Just be careful, if you are buying an item and the price is really too good to be true, it definitely is ,and there are some health risks involved if you happen to take that item home – your kids wear it and possibly some rashes and health issues that they would have to worry about," says Shaw.

He says some of the items – which come from overseas – are made of unknown materials, including cat urine: "A lot of this merchandise comes from overseas, China, the colognes and different materials — nobody knows — what is exactly in there and some of the reports we've gotten are some pretty harsh chemicals including cat urine," says Shaw.

Counterfeit items have made their way into the mainstream shopping experience.

To avoid getting ripped off by counterfeiters this holiday season shop main-stream stores, reputable websites and don't buy items from street sellers or seasonal store-fronts selling high-end products for low prices.

"It's not just the item itself; one of our undercover officers actually held a purse two days ago from the buy and actually got a rash on his hands," said Shaw. "So, I'm concerned about some health issues."

Often times, the seller isn't paying the sales tax either. This warning follows the raid at a Dearborn, Michigan store where boxes and boxes of counterfeit items were discovered for sale.

No arrests have been made at this time.

Police partner with UPS to prevent package thefts in Lenawee County
Lenconnect
By: Dan Cherry
12.20.15

As Christmas approaches, package delivery services like UPS, FedEx and the U.S. Postal Service are busier than normal, driving Lenawee County roads all day long dropping gifts to patrons.

In some areas, however, thieves follow those delivery vehicles to steal packages from porches from those not home, after the truck disappears from sight.

On Friday, personnel from the Monroe post of the Michigan State Police worked to help ensure those packages remained safe.

Troopers in marked and unmarked vehicles quietly kept UPS delivery trucks under surveillance to watch for anyone following drivers or from grabbing boxes from properties. Personnel monitored three routes where there have been recent reports of package theft.

"Being close to Christmas, sometimes people don't have enough money to buy gifts, so they steal other peoples' packages," Trooper Andrew Coohon said Friday.

More than 100 deliveries were monitored throughout the day, with only two suspicious situations taking place, 1st Lt. Tony Cuevas said. Both concerns were unfounded, he said.

Cuevas said the surveillance provides several benefits to those involved.

"It's a great opportunity to network with a private industry partner like UPS, and we are always looking for ways to be proactive and stop crime before it happens," Cuevas said.

Cuevas said many package thefts are "crimes of opportunity," where packages can simply be plucked from porches or sidewalks.

Anyone who suspects a package has been stolen should call their local police department and the delivery service.

How to help prevent package theft

- Have the package sent to your daytime location, such as your place of employment.
- Have the package sent to a trusted friend, neighbor or relative who is home during normal delivery hours.

- Request package be signed for instead of being left unattended.
- Request the delivery driver leave the package in a pre-arranged hidden place, such as an enclosed area or shed.
- Determine the drop-off time and have a neighbor, relative or trusted friend pick up the package soon after delivery.
- If permitted, arrange for package pickup at the facility's packing and distribution center.

Michigan State Police encourage residents to report suspicious activity
Up North Live
By: Sarah Roebuck
12.20.15

WPBN/WGTU — Throughout the month of December, the Michigan State Police would like to remind Michiganders to report suspicious activity to help keep our state safe.

"Homeland security starts with hometown security and our citizens know their neighborhoods, schools and work places better than anyone," said F/Lt. Joe Shier of the St. Ignace Post. "If something appears suspicious or out of place, don't hesitate to report it to law enforcement."

Troopers say in emergency situations, suspicious activity can be reported by calling 9-1-1. For non-emergencies, suspicious activity can be reported to the Michigan Intelligence Operations Center (MIOC) by phone 1-855-4847 or by reporting it online HERE.

Troopers say possible indicators of suspicious activity may include:

- An unattended object or one that appears out of place, especially in crowded or public areas.
- Individuals exhibiting strange or abnormal behavior.
- A strong odor coming from a building or vehicle.
- Someone entering or exiting blocked or unauthorized areas.
- Individuals who quickly leave when seen or approached.
- Someone is tampering or interfering with surveillance cameras
- An overloaded vehicle or one that seems out of place
- Someone is taking photos, videos or drawings of high-profile or highly populated buildings or structures.
- Exposed wiring or other abnormalities.

Mayor pins Flint's hopes on water disaster declaration
MLive
By: Ron Fonger
12.20.15

FLINT, MI – The federal government may have never recognized a man-made water crisis like Flint's as a disaster before, but asking for the assistance has been Mayor Karen Weaver's plan since before she was elected Nov. 3.

"Our city is in a crisis – a water crisis," Weaver said. "So far, what we've had are Band-Aid fixes, (and) it's not enough ... I don't see any other option."

On Monday, Dec. 21, the mayor plans to meet with Genesee County Board of Commissioners Chairman Jamie Curtis and others involved in emergency planning to discuss the city's incident response plan, a step-by-step outline aimed at addressing the water crisis.

"Things are falling together nicely," she said Friday, Dec. 18. "(The plan) is going to say, 'We need this, this and this,' and attach numbers where we can."

The Michigan Emergency Management Act outlines the process for seeking federal disaster assistance, which starts with the local declaration of a state of emergency. In that statement, a local jurisdiction says it has sustained widespread or severe damage, injury or loss of life.

Communities that have typically been granted disaster aid have suffered from natural disasters such as severe storms, flooding and fires, but Weaver believes that Flint's disaster with lead in its water is just as devastating.

There are cases in which less-common disasters have been recognized with federal aid, including one for severe hardship to the salmon industry in Alaska in 1953, a chlorine barge accident in Louisiana in 1962 and dam failure in Colorado in 1973, according to FEMA records.

"The president can declare an emergency or major disaster for any natural or manmade event that the president determines has caused damage of such severity that it is beyond the combined capabilities of state and local governments to respond," FEMA spokesman Mark J. Peterson said in an email to The Flint Journal-MLive

"We're being positive and optimistic" with Flint's application, Weaver said.

The city's state of emergency says, "Flint children have experienced increased blood lead levels since the switch to the Flint River, and this damage to children is irreversible and can cause effects to a child's IQ ... (resulting) in learning disabilities and the need for special education and mental health services and an increase in the juvenile justice system."

Weaver has so far not assigned a dollar figure to damage done to children who drank Flint River water since April 2014, and she said this week that Flint's old water distribution system was also damaged by corrosive river water. "So that's where we are (also) going to need some help."

Although Flint City Council members have been generally supportive of Weaver seeking the disaster declaration, and the Michigan Legislative Black Caucus is supporting the request, Flint City Councilman Josh Freeman said he doesn't believe it will be granted.

"It's giving false hope to people that the problem is going to fixed" with a disaster declaration, Freeman said. "At some point we have to stop playing politics and start governing."

The councilman said state and federal officials are unlikely to send disaster relief to Flint because other parts of the county and the state have childhood blood lead levels -- from all sources -- that are similar to children in Flint.

"Maybe I'm wrong. Hopefully I'm wrong," he said.

FEMA's Web site shows 77 disaster declarations nationwide so far in 2015 and eight current disasters.

The current declarations cover damage caused by fire in California; severe storms and flooding in Wyoming; straight-line winds, flooding and severe storms on the Pine Ridge Indian Reservation in South Dakota; severe storms, tornadoes, straight-line winds and flooding in Texas; severe storms, tornadoes, straight-line winds and flooding in Oklahoma; severe storms, tornadoes, straight-line winds and flooding in Arkansas; and severe storms and flooding in South Carolina.

To reach the desk of President Obama, Weaver's disaster declaration must be approved by county Chairman Curtis and both officials must determine that the disaster is beyond the capabilities of the city or county to handle. Curtis has said he is "fully on board" to do whatever he can to help the city of Flint.

In Michigan, all requests for assistance are channeled through the Michigan State Police, Emergency Management and Homeland Security Division. The MSP reviews requests and makes recommendations to the governor, according to Ron Leix, a spokesman for the division.

The governor has the authority to mobilize state agencies to provide assistance, and if the state cannot cope with the disaster, Gov. Rick Snyder could request assistance through FEMA.

The federal agency makes disaster recommendations to the president.

State Rep. Sheldon Neeley, D-Flint, urged Snyder to get Flint's application for help to the president as quickly as possible.

"Issuing a health emergency is the most responsible thing to do," Neeley said in a news release. "This is a public health crisis, and our children are most at-risk. A state-declared health emergency will allow the city to access federal funding."

State police investigate possible OMA violation
Traverse City Record Eagle
BY: Carol Thompson
12.20.15

TRAVERSE CITY — A Michigan State Police trooper will investigate claims that one Leelanau County commissioner attempted to sway others' votes outside of public meetings.

Leelanau County Commissioner Melinda Lautner first accused fellow commissioner Patricia Soutas-Little of breaking the state's Open Meetings Act during the Dec. 8 meeting. Leelanau County Prosecutor Joseph Hubbell recommended Michigan State Police Detective Sgt. Mark Henschell look into the incident.

Henschell launched his investigation into a possible Open Meetings Act violation Friday afternoon.

"I know nothing about whatever is the issue up there," Henschell said. "I'm starting with a clean slate, which I think is good for me."

Lautner said Soutas-Little called her and other commissioners to dissuade them from voting for Anthony Forton's appointment to the county's Parks and Recreation Committee.

Lautner, Soutas-Little and commissioner Debra Rushton sit on the three-member Boards and Commissions Appointment Committee in charge of making recommendations for committee appointments. They all initially supported Forton for the spot, Soutas-Little said.

Soutas-Little said she later heard the parks committee members didn't recommend Forton for the seat.

"They did not want this gentleman appointed," she said. "At least that was the information I was given after our Boards and Commissions Appointment committee meeting."

Soutas-Little said she then reached out to four of the five other commissioners to confirm what she heard and ask them to consider how to proceed, not to sway their votes.

She welcomes the state police investigation.

"I didn't violate the Open Meetings Act and I think it's important to clear the air," Soutas-Little said.

Many speaking during public comment period at the Leelanau County Board of Commissioners' Dec. 15 meeting called for Soutas-Little's resignation. Lautner said on Dec. 15 she just wants an apology from Soutas-Little and for commissioners to have a better understanding of OMA rules.

Lautner could not be reached for comment Friday.

MEDIA MONITORING REPORT

12/21/2015

Issues:

- No issues to report.

Summary:

- An unknown number of children in Flint, Michigan, were exposed to dangerous amounts of lead in their drinking water because of a cheapskate decision to switch the city's water source in 2014, Huffington Post reports.
- Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after concerns about organization were raised by members of an independent task force that he created.
- Residents of Flint, Mich., are still in danger of being poisoned by lead in their drinking water, even though the water supply was changed. Dr. Mona Hanna-Attisha speaks with NPR's Michel Martin.
- Michigan Radio gives timeline of events for Flint water crisis.
- Throughout the month of December, the Michigan State Police would like to remind Michiganders to report suspicious activity to help keep our state safe.
- Slick, snowy conditions on US-131 north of Grand Rapids Friday led to a chain-reaction crash involving up to 50 vehicles.
- Authorities responded to numerous crashes during snow squalls across Michigan, including a pileup involving several dozen cars on Friday.
- State lawmakers will consider a resolution backing the governor's call to put a hold on bringing Syrian refugees into Michigan.
- Gov. Rick Snyder says lawmakers could first tackle the Detroit school district's debt and possibly leave until later his call for a new commission to close poor-performing traditional and charter schools.
- A sharply divided Legislature late Wednesday voted to eliminate the straight-party voting option from ballots, a step majority Republicans said would bring Michigan in line with 40 other states and Democrats denounced as a partisan maneuver to help the GOP win elections.
- National Weather Service forecast updates.
- TV clips: Flint toxic water tragedy points directly to Michigan Gov. Snyder; Flint activates EOC; Emergency operations center in Flint; Weaver meets with Curtis.

Analysis:

- Media coverage is neutral and negative.
- Coverage continues on Flint water crisis. National coverage from articles in Huffington Post, Aljazeera and NPR.
- MSNBC Rachel Maddow examines Flint's water issues and Governor Snyder's role.
- Will continue to monitor the situation.

FLINT WATER

Why Flint's water crisis is so incredibly bad

Huffington Post, December 18, 2015

An unknown number of children in Flint, Michigan, were exposed to dangerous amounts of lead in their drinking water because of a cheapskate decision to switch the city's water source in 2014.

Lead poisoning is less prominent as a public health concern than it used to be thanks to a decades-long effort to reduce lead exposure in children, especially from paint and gasoline. But lead poisoning itself is no less serious, because once a small child is poisoned, they can't be cured.

How the Flint, Michigan, water crisis is affecting its poorest residents

Aljazeera America, December 18, 2015

FLINT, Mich. — A bottle of murky tap water — with swirling rust-colored pieces of sediment — still sits on Rhonda Kelso's kitchen counter in Flint.

In August of this year, despite information from government officials suggesting the water in Flint was safe to drink, she was still skeptical of its quality. So she collected the sample from her tap.

When a group of Virginia Tech researchers tested Kelso's water and discovered evidence of lead, *Kelso, a 52-year-old stroke survivor, decided that was the last straw.*

Snyder names Flint water coordinator after concerns raised

Petoskey News, December 18, 2015

LANSING (AP) — Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after concerns about organization were raised by members of an independent task *force that he created.*

Harvey Hollins, who directs his Office of Urban Initiatives, will coordinate efforts, according to a letter Snyder wrote Tuesday and was released Thursday.

Snyder created the Flint Water Advisory Task Force in October to review state, federal and local governments' actions after children were found to have elevated levels of lead in their blood and it was determined that corrosive river water was leaching lead from aging service lines.

Why pediatricians are so alarmed by the lead in Flint's water

Huffington Post, December 18, 2015

In early 2014, residents in Flint, Michigan, started noticing something odd about their water.

It looked different and had a foul odor. People reported problems. The state confirmed and addressed an E. coli contamination and said the water was fine, but parents were worried. Many started buying bottled water, even for cooking and showering. A Virginia Tech researcher tested the water and said it was corrosive. Finally, in September of this year, researchers confirmed Flint residents' worst fear:**lead had leached into the municipal drinking supply from old piping, and city water-lead levels were the highest they'd** been in 20 years.

The problem began when in April 2014 the city of Flint temporarily changed its water source from Lake Huron to the Flint River to save money. The different chemistry of the river water corroded the city's old pipes, releasing huge amounts of lead into the drinking water.

A return to Flint, where the mayor has declared a state of emergency

NPR, December 19, 2015

Residents of Flint, Mich., are still in danger of being poisoned by lead in their drinking water, even though the water supply was changed. Dr. Mona Hanna-Attisha speaks with NPR's Michel Martin.

Now we return to a disturbing story we covered earlier this year, the lead levels in Flint, Michigan's water supply continue to be so bad that the city's new mayor declared a state of emergency on Tuesday. Mayor Karen Weaver told NPR's Morning Edition she did it for Flint's children.

Mayor pins Flint's hopes on water disaster declaration

MLive, December 20, 2015

FLINT, MI – The federal government may have never recognized a man-made water crisis like Flint's as a disaster before, but asking for the assistance has been MayorKaren Weaver's plan since before she was elected Nov. 3.

"Our city is in a crisis – a water crisis," Weaver said. "So far, what we've had are Band-Aid fixes, (and) it's not enough ... I don't see any other option."

On Monday, Dec. 21, the mayor plans to meet with Genesee County Board of Commissioners Chairman Jamie Curtis and others involved in emergency planning to discuss the city's incident response plan, a step-by-step outline aimed at addressing the water crisis.

TIMELINE: Here's how the Flint water crisis unfolded

Michigan Radio, December 21, 2015

The Environmental Protection Agency launched a federal audit– Governor Rick Snyder appointed a panel to look into it -- and there is a federal class action lawsuit underway.

Everyone wants to know how the water went bad in one of Michigan's biggest cities.

Michigan Radio has been on top of this story from the start. See all our coverage here. Read, watch, and listen to our special series Not Safe to Drink here. And listen to our documentary here.

To get a sense of how this happened in Michigan, scroll through the timeline below.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Michigan State Police encourage residents to report suspicious activity

Up North Live, December 20, 2015

WPBN/WGTU — Throughout the month of December, the Michigan State Police would like to remind Michiganders to report suspicious activity to help keep our state safe.

"Homeland security starts with hometown security and our citizens know their neighborhoods, schools and work places better than anyone," said F/Lt. Joe Shier of the St. Ignace Post. "If something appears suspicious or out of place, don't hesitate to report it to law enforcement."

MSP: No serious injuries in US-131 pileup

Wood TV, December 18, 2015

ALGOMA TOWNSHIP, Mich. (WOOD) — Slick, snowy conditions on US-131 north of Grand Rapids Friday led to a chain-reaction crash involving up to 50 vehicles.

The wreck shut down a stretch of southbound US-131 south of 17 Mile Road near Cedar Springs around 3:30 p.m. Dozens of vehicles slid off the highway and into the ditch, some rolling over.

Ferris State University student Zachary St. Pierre was driving home to Macomb when the conditions started to turn nasty.

Snowy, icy conditions cause crashes, road closures statewide

Michigan Radio, December 18, 2015

GRAND RAPIDS, Mich. (AP) - Authorities have responded to numerous crashes during snow squalls across Michigan, including a pileup involving several dozen cars.

The Grand Rapids Press reports white-out conditions Friday afternoon on U.S. 31 north of Grand Rapids led to a chain-reaction crash of roughly 50 vehicles. A stretch of the freeway was closed.

Crashes and road closures amid icy, snowy conditions have been reported in the Lansing, Kalamazoo, Flint, Saginaw, Ann Arbor and Detroit areas. Some have been injured, including a person involved in a rollover crash on M-14 in Washtenaw County.

SYRIAN REFUGEES

State lawmakers may soon weigh in on allowing Syrian refugees into Michigan

Michigan Radio, December 19, 2015

State lawmakers will consider a resolution backing the governor's call to put a hold on bringing Syrian refugees into Michigan.

State Senator Patrick Colbeck says his resolution is about safety.

"It's about making sure we have taken all due diligence to fulfill our first responsibility as elected officials and that's securing public safety," says Colbeck.

MICHIGAN POLITICS

Detroit, energy, paroles top Snyder's agenda

Michigan Radio, December 19, 2015

LANSING, Mich. (AP) - Gov. Rick Snyder says lawmakers could first tackle the Detroit school district's debt and possibly leave until later his call for a new commission to close poor-performing traditional and charter schools.

The Republican governor told The Associated Press in a year-end interview that pending legislation to split the district in two to retire debt and to empower a chief education officer to hold schools accountable could go on "parallel or somewhat separate tracks." Snyder says the more urgent issue in terms of timing is the state-run district's finances.

Michigan legislature ends straight-party voting

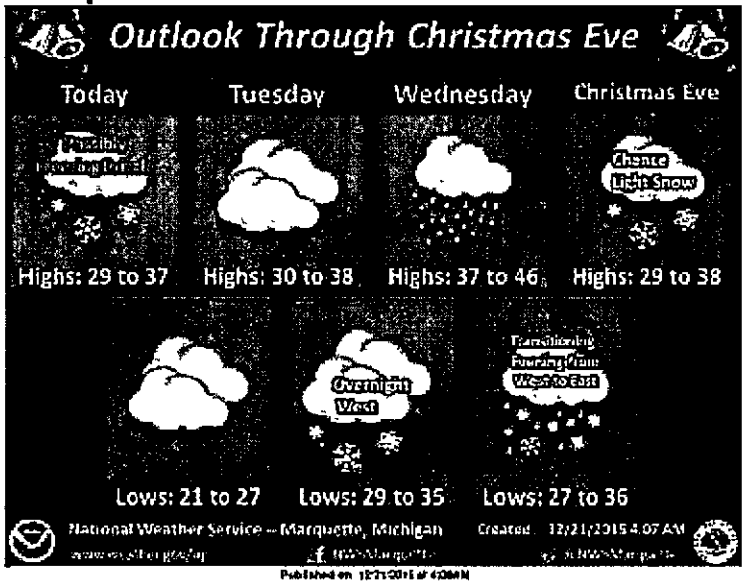
South Bend Tribune, December 18, 2015

LANSING, Mich. (AP) — A sharply divided Legislature late Wednesday voted to eliminate the straight-party voting option from ballots, a step majority Republicans said would bring Michigan in line with 40 other states and Democrats denounced as a partisan maneuver to help the GOP win elections.

Republicans uncoupled the legislation from a House-passed bill favored by clerks that would have let voters cast an absentee ballot without having to meet specific criteria. After the Senate approved the legislation 24-13, the House barely passed it 54-52, and lawmakers adjourned until January.

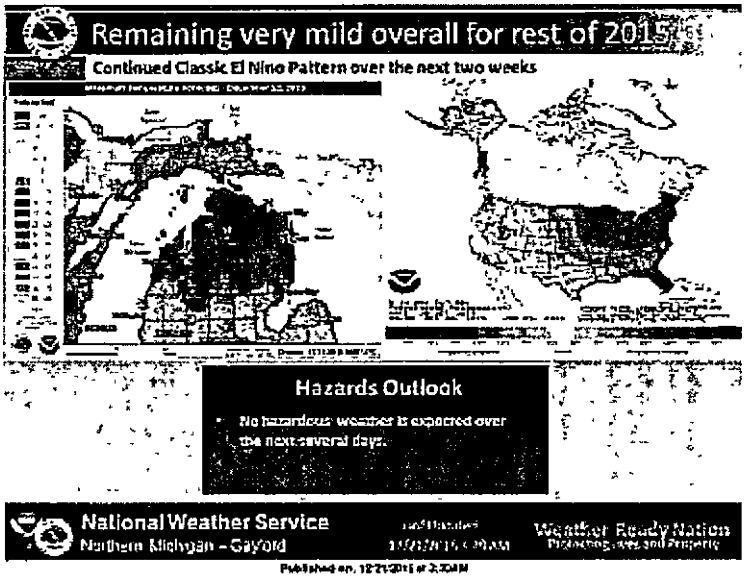
NATIONAL WEATHER SERVICE FORECASTS

Marquette



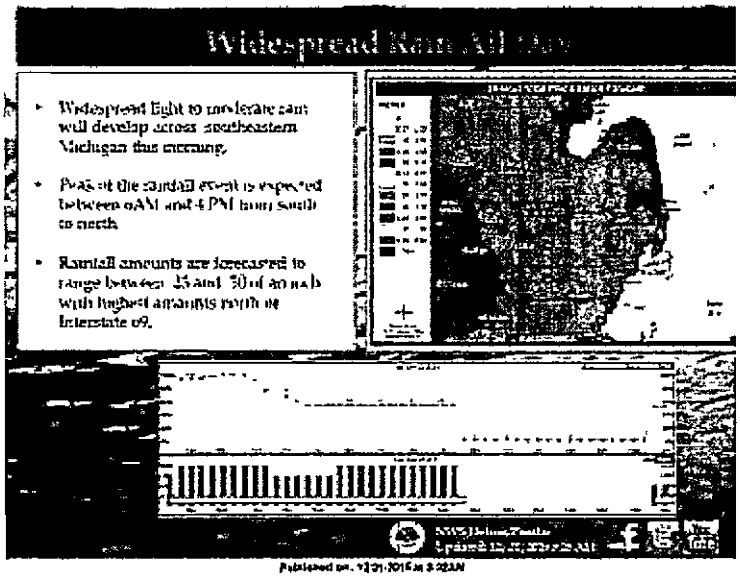
Warm temperatures continue through Christmas Eve with no widespread snow expected.

Gaylord



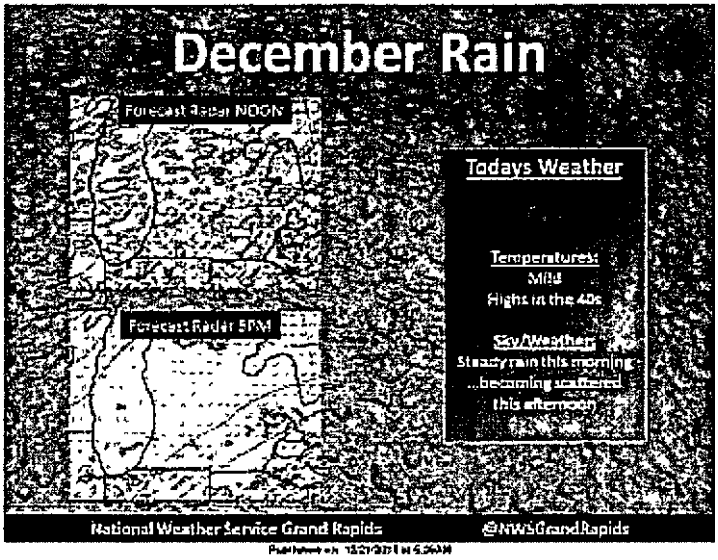
More mild weather for the Great Lakes over the next several days...with record or near record warmth expected Wednesday.

Detroit



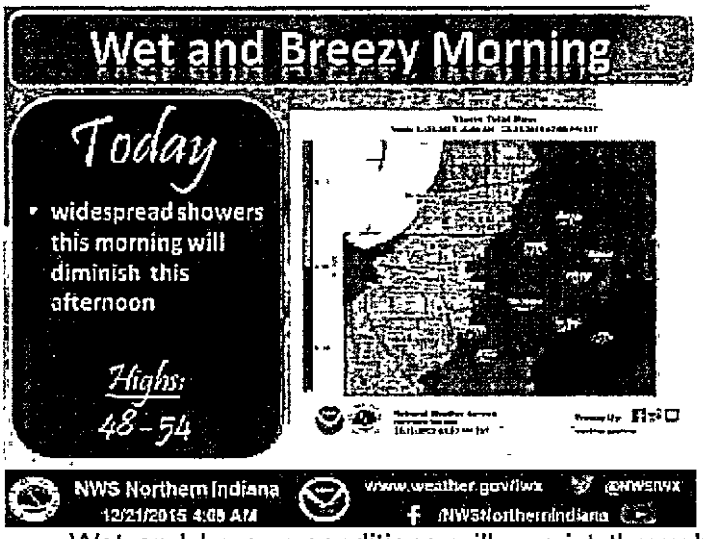
A widespread coverage of light to moderate rain will lift through southeastern Michigan today as low pressure lifts into the central Great Lakes. A dreary day can be anticipated with much of the rain falling between the 6 AM and 4 PM timeframe. Weather conditions will be slow to dry out tonight as light rain showers and drizzle is expected right into daybreak on Tuesday. Temperatures will struggle to move today with readings remaining at or near current readings in the lower 40s. Wind chill values today are on track to remain mired in the 30s.

Grand Rapids



A mild December day is in store with highs in the 40s. Normal highs are in the low 30s, so readings today will be 10-15 degrees above normal in spots. Plenty of rain is expected so take along an umbrella. The rain will be steady from this morning into early afternoon before becoming scattered as the afternoon hours wear on.

Northern Indiana



Wet and breezy conditions will persist through this morning before diminishing this afternoon. High temperatures will top out in the upper 40s to lower 50s.

GOVERNOR'S ACTIVITIES

Interviews

WATCH NOW: Evening with the Governor 2015 (WKAR)
Michigan Gov. Rick Snyder discusses the challenging past year in office. It's a rare opportunity in a relaxed format to discuss his fifth year in office with Off The Record anchor Tim Skubick. They are later joined by Michigan First Lady Sue Snyder.

Governor Snyder Reflects On Year Of Change As 2015 Comes To End (9&10 News)
Michigan's governor is reflecting on a year of change as 2015 comes to an end. Northern Michigan's News Leader sat down with Governor Rick Snyder Thursday. Turns out he has a lot to say about the year. Gov. Snyder says he's most proud of the number of jobs created across the board and about the future of Michigan's roads.

Snyder Scales Back Proposed Overhaul of Detroit Schools (Michigan Radio)
Governor Rick Snyder says he's slowing down his plans to fix Detroit's schools in order to the process moving. In the face of resistance from Republicans and Democrats in the Legislature, the governor says he wants to break up the work, focusing first on retiring the district's massive debt.

Governor Rick Snyder: "We need to be louder and prouder..." (WILX)
Governor Rick Snyder is beaming with pride about Michigan these days. As 2015 comes to a close, he's proud of many accomplishments including a road funding plan, lower unemployment rate and a resurgence of life in Detroit.

Bankruptcy could be option for ailing DPS (Detroit News)
Each month the Legislature fails to act on Gov. Rick Snyder's proposals for fixing Detroit Public Schools brings the district a step nearer to a Chapter 9 bankruptcy filing, which now even the governor is calling an option.

When did state know kids in Flint were lead poisoned? (Freep)
When did the State of Michigan first learn that kids in Flint had been poisoned by lead in the city's drinking water? This is one of the most critical questions to answer in the aftermath of a public health crisis that's still unfolding in one of the

state's largest cities. And it shouldn't be a hard question to answer. But when I asked Gov. Rick Snyder this week, he said he couldn't recall.

Governor Snyder talks about the successes and failures of 2015 in Michigan (WWMT)
From finding a way to fund our crumbling roads, to boosting business and bringing jobs to the state, it's been a big year for Michigan. Newschannel 3's Andy Dominianni sat down one-on-one with Governor Rick Snyder on Thursday to talk about the big successes and failures of the year, along with projects that impact West Michigan.

Gov. Snyder on Michigan: "The forecast for our future is good" (WLNS)
Job creation, a completed road funding plan, and a balanced budget. Those are just some of the self-proclaimed accomplishments of 2015 under the leadership of Governor Rick Snyder.

Governor sits down in a one-on-one interview with TV5, answers tough questions (WNEM)
Governor Rick Snyder talked about some of his highlights of the year in his sit-down interview with TV5. He said he is proud the unemployment numbers are down to the lowest they've been in a while and legislature passed a package of bills to fund our roads. But this year, there have certainly been some low-lights. Governor Snyder said the Flint water crisis is one of those low-points.

Governor Snyder on Flint Water Crisis and Detroit Public Schools (DPTV)
Governor Rick Snyder joined host Christy McDonald and contributor Nolan Finley to discuss the stalled plan for Detroit Public Schools, the Flint water crisis, his priorities for next year, and more

Flint water
Gov. Snyder names state point-man for Flint water crisis (Michigan Radio)
One man will lead the state's efforts to deal with Flint's water crisis. Harvey Hollins is the director of the Office of Urban Initiatives. Gov. Snyder has appointed Hollins to oversee the state agencies responding to Flint's water crisis.

Governor Snyder names Flint water coordinator after concerns raised (AP)
Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after members of an independent task force that he created raised concerns.

Harvey Hollins tapped to lead Flint water effort (Freep)
Harvey Hollins, a former vice president of Wayne State University, has been tapped by Gov. Rick Snyder to coordinate the state's response to the Flint water crisis. Snyder named Hollins this week after a task force recommended a single person or entity to lead the follow-up needed after lead was found in Flint's drinking water system.

Governor's task force on Flint water crisis releases early recommendations (Mlive)
Current actions to protect the public from lead in water appear to be taking place without a system to measure results and delineate responsibilities, according to a task force charged with reviewing Flint's lead-in-water crisis. In a letter to Gov. Rick Snyder, who appointed the Flint Water Advisory Task Force in October, the group acknowledged steps, including distribution of free water filters, that have been taken to carry out the governor's plan to address lead levels in the city's drinking water.

Snyder taps two advisers to help on Flint water crisis (Detroit News)
Gov. Rick Snyder has tapped two of his advisers to coordinate the state's health, environmental and public relations response to Flint's water crisis. Snyder has appointed Harvey Hollins, director of the governor's Office of Urban Initiatives, to be the point person between state agencies and Flint as they work to address elevated levels of lead in the city's water system.

Healthy MI waiver
Michigan secures waiver to continue Medicaid expansion (AP)
Michigan secured a federal waiver Thursday that it needed to ensure that 600,000 low-income adults continue

qualifying for Medicaid coverage beyond April.

Michigan wins crucial federal waiver to continue expanded Medicaid coverage program (Mlive)
The Obama administration has approved a key waiver that will allow Michigan to continue its unique program for expanded Medicaid coverage under the Affordable Care Act, Gov. Rick Snyder announced Thursday. Nearly 600,000 residents have signed up for Healthy Michigan since early 2014, but without a federal waiver by the end of the year, state law would have required the program to end by the spring.

Feds approve Medicaid waiver for Michigan (Detroit News)
More than a half million Michigan residents will get to keep their expanded Medicaid health insurance next year and beyond after the federal government Thursday approved the final waiver required under state law.

Federal government approves waiver for Healthy Michigan (Freep)
The Centers for Medicare and Medicaid Services has given Michigan a waiver for its Healthy Michigan plan, allowing nearly 600,000 low-income residents to continue with health care coverage.

Bill signings
Gov. Snyder signs bill making allergy pens more accessible for emergencies (UP Matters/TV 3)
Epi-Pens and other auto-injectibles of epinephrine will be available in more public places to address severe allergic reactions, under legislation signed Thursday by Gov. Rick Snyder.

Gov. Rick Snyder signs allergy pen accessibility, liquid industrial byproduct bills (Holland Sentinel)
Gov. Rick Snyder recently signed legislation that will make EpiPens and other auto-injectables of epinephrine available in more public places to address severe allergic reactions. House Bill 4438 will allow pharmacists to dispense EpiPens to authorized entities with a prescription, such as recreation camps, youth sports leagues, amusement parks and similar locations/events. The bill was approved unanimously and is now Public Act 221 of 2015.

Governor Snyder Signs Bill Allowing Stadiums, Amusement Parks to Stock EpiPens (WILX))
EpiPens and other injectable forms of Epinephrine will be on hand in more public places. Governor Snyder signed a bill Thursday that would allow stadiums, amusement parks, recreation camps and other similar locations to stock the injectors.

New law aims to make allergy pens more available (WZZM)
Governor Snyder has signed legislation intended to make allergy pens available in more public places. The injection device is used when a person has a severe allergic reaction. The new law allows pharmacists to dispense EpiPens to authorized organizations like sports and summer camps, amusement parks, and other similar locations.

Refugee vetting
Michigan's Middle Eastern Commission backs Snyder's refugee pause (Arab American News)
When Gov. Rick Snyder announced a pause in efforts to bring in new Syrian refugees to Michigan after the terrorist attacks in Paris, major Arab, Muslim, immigration advocacy and civil rights organization criticized him. But days after the governor's decision, the Michigan Commission on Middle Eastern American Affairs (CMEAA) published a statement in support of the step.

DEPARTMENTS

AG
Skubick: AG Schuette opens up in 2015 review (WLNS)
Michigan's attorney general has ruled out using oil tankers on the Great Lakes to ship oil that now flows underneath the Straits of Mackinac. That's just one of the topics Bill Schuette touched on in his review of 2015.

DEQ
Harvey Hollins tapped to lead Flint water effort (Detroit Free Press)

Harvey Hollins, a former vice president of Wayne State University, has been tapped by Gov. Rick Snyder to coordinate the state's response to the Flint water crisis.

Gov. Snyder names state point-man for Flint water crisis (Michigan Radio)
One man will lead the state's efforts to deal with Flint's water crisis. Harvey Hollins is the director of the Office of Urban Initiatives. Gov. Snyder has appointed Hollins to oversee the state agencies responding to Flint's water crisis.

Some state officials still in denial or misinformed over Flint River decision (Michigan Radio)
I don't blame the governor's press secretary for not understanding exactly who made the decision to have Flint pump its drinking water from the Flint River. It was a complicated-decision making process with multiple key players that lasted at least a few months.

CWD scary, but not enough to quit hunting (Port Huron Times Herald)
Brewer is an avid and accomplished hunter who says his family of four lives on wild game. With his two children, ages 9 and 11, along on the hunt, he took what looks like a nice 8-point buck on a friend's ranch on Nov. 1. After dressing the animal, he took it to a state check station and then he took it home.

DNR
DNR awards communities $1.3 million in passport grants (ABC 10)
The Michigan Department of Natural Resources today announced that 33 communities across the state will share $1,348,700 in Recreation Passport grants. Funding for this program is derived from sales of the Recreation Passport, the $11 annual pass that grants residents vehicle entry at state parks and recreation areas throughout Michigan.

Kivela bill would help protect U.P. deer herd from CWD (Upper Michigan's)
State Representative John Kivela recently introduced legislation to increase the penalties for illegally bringing a deer carcass into Michigan from another state that is known to have deer with Chronic Wasting Disease.

MDNR honors hunter education instructor of the year (Holland Sentinel)
The Michigan Department of Natural Resources recently named Timothy Pifher, of Davidson, its 2015 Hunter Education Volunteer Instructor of the Year.

MDARD
MDARD warns of potential food problem (Alpena News)
Consumers are warned to throw away any of 22 products by Lock Stock & Barrel Ranch of Onaway, according to a food safety advisory from the Michigan Department of Agriculture and Rural Development. MDARD inspectors conducting a routine food safety inspection discovered a potential problem with the required safety controls in the manufacturing process.

MEDC
Holland-area businesses to invest in employees through state program (Holland Sentinel)
ight businesses in Holland and Zeeland have funds to develop their workforce after receiving grants totalling $385,000 from the Michigan Skilled Trades Training Fund.

Despite politics, strides made in 2015 to break Michigan's status quo (Michigan Radio)
It's that time of year to reflect on what worked and what didn't this past year here in the Great Lakes State, and to give due consideration to potential adjustments to improve our situation.

MDE
Many Detroit area schools lag statewide M-STEP results (Detroit News)
Just half of Michigan third-graders achieved proficiency in English on the state's new M-STEP exam, and newly released data show that more than two-thirds of Metro Detroit districts and charters missed that mark.

Ann Arbor M-STEP results show achievement gap persists (MLive)

New testing data shows the Ann Arbor school district still struggles with an achievement gap between between black and white students and wealthy and poor students.

Michigan releases more detailed breakdown of school tests (AP)
The Michigan Department of Education released a more detailed breakdown of results of the state's new, more rigorous standardized tests, highlighting some of the challenges facing educators in Detroit.

MSP
Michigan State Police raid Dearborn city clerk's office (Press & Guide)
Michigan State Police raided the office of Dearborn City Clerk Kathy Buda on Wednesday morning in connection with an embezzlement investigation.

Michigan State Police: Troopers make warrant, drug arrests (MLive)
Troopers stopped a vehicle for a traffic violation in Springport Township. The driver, identified as a 19-year-old man from Albion, was driving with a suspended license and wanted on a misdemeanor warrant out of Hillsdale County. He posted bond on the misdemeanor warrant and was given a notice to appear for the charge of driving while license suspended.

MPSC
Business group, utilities, clash over rate hikes, electric choice (Capitol Confidential)
A business group is asking the Michigan Court of Appeals to overturn a rate hike it claims would give Consumers Energy the highest profits granted by regulators this year in the U.S. The lawsuit comes while Michigan customers face the highest electricity rates in the region and the state's two largest utilities, Consumers Energy and Detroit Edison, lobby the Legislature to return them to the status of full monopolies.

TREASURY
Adrian's school board approves bond financial paperwork, moves to state (LenConnect)
Adrian Public Schools moved one step closer Wednesday to putting a $29.5 million ballot proposal before voters in May, after the Michigan Department of Treasury approved the district's preliminary bond paperwork.

LEGISLATIVE

Michigan Legislature OKs end of straight-party voting (AP)
A sharply divided Legislature late Wednesday voted to eliminate the straight-party voting option from ballots, a step majority Republicans said would bring Michigan in line with 40 other states and Democrats denounced as a partisan maneuver to help the GOP win elections.

Tax breaks for data storage centers passed by House, Senate (Free Press)
Tax breaks for data centers in Michigan cleared the House and Senate Tuesday , but the sales and use tax exemptions still face significant opposition from some in the business community, local governments and the administration of Gov. Rick Snyder.

Mich. lawmakers need to do more for Detroit's public schools (The Blade)
As the clock ticked down the last days of this year's legislative session, majority Republicans mounted a full-court press to give their party more partisan advantage in coming elections.

DETROIT

Many Detroit area schools lag statewide M-STEP results (Detroit News)
Just half of Michigan third-graders achieved proficiency in English on the state's new M-STEP exam, and newly released data show that more than two-thirds of Metro Detroit districts and charters missed that mark.

M-STEP results: Just 1 EAA 4th-grader passed math (Free Press)

Detailed results from Michigan's tough new standardized exam paint a worrisome picture for many schools in Detroit and will likely boost state efforts to fix what many see as a broken educational system in the city.

Snyder Scales Back Proposed Overhaul of Detroit Schools (WDET)
Governor Rick Snyder says he's slowing down his plans to fix Detroit's schools in order to the process moving. In the face of resistance from Republicans and Democrats in the Legislature, the governor says he wants to break up the work, focusing first on retiring the district's massive debt.

Detroit demolitions likely to get big boost from Congress (Free Press)
A massive federal spending bill expected to be passed this week includes a provision allowing the U.S. Treasury to transfer billions of dollars into a fund which has already sent or promised $130 million to Detroit to tear down thousands of blighted buildings and is expected to provide at least tens of millions more.

Detroit-led blight fight may spur demolitions across U.S. (Free Press)
A Michigan-led effort to get $2 billion more put into a federal neighborhood stabilization fund could touch off one of the biggest initiatives to demolish abandoned, derelict buildings in older urban centers ever seen, with cities across the Midwest — Detroit first and foremost among them — standing to benefit.

Paying water bills in Detroit is a test of good will (Detroit News)
Even Good Samaritans have trouble paying water bills in Detroit. It's not because they don't have the money. It's because the city makes it difficult to pay.

OPINION

Don't punish a breed of dogs for actions of bad owners (Detroit Free Press)
When tragic incidents with pit bulls happen, as they have recently, many are quick to blame the breed, without seeing where the true responsibility lies: the dog's owner. We share in the sadness of these tragedies, and it is understandable that, in the immediate aftermath, some try to find a simple solution to ensure similar incidents never happen again. The problem, however, is much broader and complex than one fix-all solution.

Bankruptcy could be option for ailing DPS (Detroit News)
Each month the Legislature fails to act on Gov. Rick Snyder's proposals for fixing Detroit Public Schools brings the district a step nearer to a Chapter 9 bankruptcy filing, which now even the governor is calling an option.

Editorial: Protect access to medical marijuana (Detroit News)
The Senate failed to pass legislation again this year that would legalize non-smokable forms of marijuana under the state's medical pot program. That means nearly 180,000 medical marijuana patients in Michigan remain in limbo, as do their caregivers and suppliers.

Wolfram: Data center bill consistent with tax policy (Detroit News)
The state Senate recently passed bills that deal with exempting data centers from the sales and use taxes as well as the personal property tax. While most of the discussion has been about the effect on economic activity, in particular whether the tax reductions will advance economic activity in Michigan, it is useful to examine the fundamental theory of the sales taxes and whether the property tax exemption is consistent with current policy.

Susan J. Demas: Anti-vaccination bills will harm Michigan children (MLive)
When it comes to keeping kids healthy in Michigan, it seems we always take one step forward and two steps back.

Attachments: Media Monitoring - 2015.12.18.pdf

MEDIA MONITORING REPORT

12/18/2015

Issues:

- No issues to report.

Summary:

- Harvey Hollins, a former vice president of Wayne State University, has been tapped by Gov. Rick Snyder to coordinate the state's response to the Flint water crisis.
- Dr. Monda Hanna-Attisha, a pediatrician at a local hospital who had raised concerns in the summer of the metal in the water, told The Guardian that between 8,000 and 9,000 children under the age of six are in jeopardy because of the contaminated water in Flint.
- Huffington Post writer Henry Henderson posted on how the EPA "flaked out" on Flint and will not act on the Emergency Petition from the city on the water issue until Flint deals with the issue on its own.
- Genesee County Board of Commissioners Chairman Jamie Curtis says he is authorized to forward Flint's request for a disaster declaration to the governor and plans to meet with Mayor Karen Weaver about it next week.
- Senate Minority Leader Jim Ananich (D–Flint) responded to the Dec. 17 release of Flint Water Task Force correspondence.
- The Flint Water Advisory Task Force isn't expected to release its full report the city's water crisis until next month.
- Gov. Rick Snyder and members of the Flint Water Advisory Task Force are exchanging ideas about how to handle the Flint lead in water crisis in letters released today, Dec. 17, including the potential appointment of a point person to coordinate ongoing work.
- Michigan Radio's Lindsey Smith wrote on how some state officials are still in denial or are misinformed over Flint River decision.
- Gov. Rick Snyder has tapped two of his advisers to coordinate the state's health, environmental and public relations response to Flint's water crisis.
- Governor Rick Snyder says he's closer to lifting the "pause" on his efforts to bring more refugees from Syria and the Middle East to Michigan.
- The Michigan Commission on Middle Eastern American Affairs (CMEAA) published a statement in support of the step of Gov. Rick Snyder wanting to pause efforts on bringing more refugees to Michigan.
- Refaai Hamo, a Syrian refugee who's story was shared by the notable blog, Humans of New York, arrived in Michigan Thursday night to resettle in Troy.

- Governor Rick Snyder talked about some of his highlights of the year in his sit-down interview with TV5.
- Legislation that would eliminate the straight-ticket voting option on Michigan ballots is headed to Gov. Rick Snyder's desk.
- A federal spending bill for the 2016 budget year includes potential funding to boost efforts to fight blight in Michigan and to protect the Great Lakes, according to U.S. Senators Debbie Stabenow and Gary Peters.
- On Tuesday morning, as the nation's second-largest school district was shutting down in response to a suspected terrorist threat, Los Angeles Mayor Eric Garcetti took the microphone at a news conference led by L.A. Unified School District Superintendent Ramon Cortines.
- A friend of one of the San Bernardino attackers has been charged in connection with the mass shooting that killed 14.
- National Weather Service forecast updates.
- TV clips: Letter to the mayor.

Analysis:

- Media coverage is neutral.
- Gov. Rick Snyder names Harvey Hollins as the coordinator for the Flint water crisis response team.
- Genesee County chairman plans to meet with Flint Mayor Karen Weaver next week to go over disaster request for the City of Flint.
- Will continue to monitor situation.

FLINT WATER

Harvey Hollins tapped to lead Flint water effort

Detroit Free Press, December 17, 2015

Harvey Hollins, a former vice president of Wayne State University, has been tapped by Gov. Rick Snyder to coordinate the state's response to the Flint water crisis.

Snyder named Hollins this week after a task force recommended a single person or entity to lead the follow-up needed after lead was found in Flint's drinking water system. Experts concluded that the lead leached into the system from old pipes after the city began using Flint River water as its source supply. The city was under state emergency management when the switch was made.

Doctor says polluted Flint water worse for children than originally thought

Fox News, December 18, 2015

The polluted water coming out of the taps in Flint, Michigan may be worse for children than previously thought, according to the doctor who discovered that the children were at risk of brain damage from the city's water supply.

Dr. Monda Hanna-Attisha, a pediatrician at a local hospital who had raised concerns in the summer of the metal in the water, told The Guardian that between 8,000 and 9,000 children under the age of six are in jeopardy because of the contaminated water in Flint. At least 15 percent of those children have dangerous levels of lead in their blood, she said.

Snyder names state urban initiatives director to lead Flint water crisis response

Crain's Detroit, December 18, 2015

LANSING — Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after concerns about organization were raised by members of an independent task force that he created.

Harvey Hollins, who directs his Office of Urban Initiatives, will coordinate efforts, according to a letter Snyder wrote Tuesday and was released Thursday. Hollins was appointed to the office in 2011; he was **Wayne State University's** vice president for government and community affairs.

Snyder created the Flint Water Advisory Task Force in October to review state, federal and local governments' actions after children were found to have elevated levels of lead in their blood and it was determined that corrosive river water was leaching lead from aging service lines.

EPA flakes on Flint

Huffington Post, December 17, 2015

If you haven't heard by now, there is an existing public health crisis in Flint, Michigan, in which an entire city has been exposed to lead contamination. The source? The city's drinking water. The evidence is clear: no amount of lead exposure is considered safe. Even low lead exposures in childhood can lead to a range of lifelong consequences, including intellectual disabilities, lower IQs, and serious medical conditions.

Last month, NRDC notified the City of Flint and Michigan officials that we plan to sue them for violations of the Safe Drinking Water Act (SDWA), the federal law that requires public water systems to test, monitor, and treat drinking water to ensure that it's safe. We served the notice alongside a community group, Concerned Pastors for Social Action, the ACLU of Michigan, and Flint resident Melissa Mays, who have been among those leading the fight to expose this crisis.

Genesee County chairman says he can send Flint disaster request to governor

MLive, December 17, 2015

FLINT, MI – Genesee County Board of Commissioners Chairman Jamie Curtis says he is authorized to forward Flint's request for a disaster declaration to the governor and plans to meet with Mayor Karen Weaver about it next week.

In a letter to Weaver Thursday, Dec. 17, Curtis says county guidelines and state law call for him to consult with the county's emergency management coordinator – Sheriff Robert Pickell – and Michigan State Police once he has been given the declaration.

Snyder names Flint water coordinator after concerns raised

NBC 25, December 18, 2015

LANSING — Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after members of an independent task force that he created raised concerns.

Harvey Hollins, who directs his Office of Urban Initiatives, will coordinate efforts.

The Flint Water Advisory Task Force was appointed in October to review governments' actions after children were found to have elevated levels of lead in their blood and it was determined that corrosive river water was leaching lead from aging service lines.

Senate Minority Leader Jim Ananich wants more urgency from Governor, trained emergency coordinator on the ground

senatedems.com, December 17, 2015

LANSING, Mich. — Senate Minority Leader Jim Ananich (D–Flint) responded to today's release of Flint Water Task Force correspondence. He reiterated specific actions that would help organize efforts with the Flint water crisis, including bringing in a trained emergency management professional to coordinate assistance within the City of Flint.

"Political appointees and public relations people are what got us into this mess, and they aren't who we need leading us out of it," Sen. Ananich said. "Anything less than a professional trained in emergency management or public health will not suffice."

Sen. Ananich requested a crisis responder from the Michigan State Police, the Federal Emergency Management Agency or the Department of Homeland Security.

Flint water task force requesting urgent changes from Governor Snyder

NBC 25, December 17, 2015

FLINT — The Flint Water Advisory Task Force isn't expected to release its full report the city's water crisis until next month. However, that didn't stop committee members from asking the Governor to make some changes immediately. Committee Co-Chairman Chris Kolb says there is a sense of urgency to get things done.

"We felt we couldn't wait any longer. We need to make sure there is someone in charge to hold people accountable, and also have a direct line to the governor," Kolb says.

Read letters from governor, task force on Flint water crisis

MLive, December 17, 2015

Read: FWATF letter to Governor Snyder.pdf

Read Gov. Snyder's response: 15.12.15 Flint Task Force Letter.pdf

FLINT, MI – Gov. Rick Snyder and members of the Flint Water Advisory Task Force are exchanging ideas about how to handle the Flint lead in water crisis in letters released today, Dec. 17, including the potential appointment of a point person to coordinate ongoing work.

In a Dec. 7 letter to Snyder, who appointed the five-member task force in October, the group acknowledges steps that have been taken to carry out the governor's plan to address damage caused by elevated lead levels in the city's drinking water.

Reporter's notebook: Some state officials still in denial or misinformed over Flint River decision

Michigan Radio, December 17, 2015

I don't blame the governor's press secretary for not understanding exactly who made the decision to have Flint pump its drinking water from the Flint River. It was a complicated-decision making process with multiple key players that lasted at least a few months.

Back in the spring of 2013, when this decision was made, Governor Rick Snyder's press secretary, Dave Murray, was one of "us"; a journalist working for The Grand Rapids Press/MLive.

He was one of the familiar faces around town among the smaller group of reporters in Michigan's second largest city. And let's face it; none of us were paying close attention to the water decision that was going on 100 miles away in Flint. It wasn't our beat, after all.

Snyder taps two advisers to help on Flint water crisis

Detroit News, December 17, 2015

Lansing — Gov. Rick Snyder has tapped two of his advisers to coordinate the state's health, environmental and public relations response to Flint's water crisis.

Snyder has appointed Harvey Hollins, director of the governor's Office of Urban Initiatives, to be the point person between state agencies and Flint as they work to address elevated levels of lead in the city's water system.

The Republican governor made the appointment in response to concerns raised by his Flint water task force that there was an uncoordinated state response to the crisis.

SYRIAN REFUGEES

Snyder: More work to be done on refugees

Michigan Radio, December 16, 2015

Governor Rick Snyder says he's closer to lifting the "pause" on his efforts to bring more refugees from Syria and the Middle East to Michigan.

Snyder was among a group of governors on a conference call this week with the nation's homeland security chief. He says federal officials are working through concerns expressed by governors on relocation efforts following the attacks in Paris and Beirut.

"The federal government has acknowledged that these are reasonable questions that are good ones to ask, and we have a chance to get the answers and move forward," Snyder said in a year-end interview with Michigan Public Radio. "I'm interested in actually getting it so we can continue to be a welcoming place."

Michigan's Middle Eastern Commission backs Snyder's refugee pause

Arab American News, December 17, 2015

DEARBORN — When Gov. Rick Snyder announced a pause in efforts to bring in new Syrian refugees to Michigan after the terrorist attacks in Paris, major Arab, Muslim, immigration advocacy and civil rights organization criticized him.

But days after the governor's decision, the Michigan Commission on Middle Eastern American Affairs (CMEAA) published a statement in support of the step.

Snyder's resolution was followed by more than 30 Republican governors who announced similar measures. But the governor has distanced himself from fellow Republican leaders who oppose accepting Syrians fleeing the war outright.

Scientist who fled Syria arrives 'home' in Michigan

Detroit Free Press, December 18, 2015

Refaai Hamo nearly forgot what it feels like to be alive after experiencing so much grief and terror.

A missile filled with 116 small bombs, needles and shrapnel ripped through his family's Syrian compound two years ago and his wife and daughter, who were on the top floor of the compound when a second missile landed, were killed in what seemed an instant.

In total, 16 people were killed. Seven were his family members.

Hamo, faced with an uncertain future after the attack, fled Syria with his remaining children and said he felt like a piece of him died that day along with his wife and young, bright daughter.

MICHIGAN POLITICS

Governor sits down in a one-on-one interview with TV5, answers tough questions

WNEM, December 17, 2015

LANSING, MI (WNEM) - Governor Rick Snyder talked about some of his highlights of the year in his sit-down interview with TV5.

He said he is proud the unemployment numbers are down to the lowest they've been in a while and legislature passed a package of bills to fund our roads.

But this year, there have certainly been some low-lights.

Governor Snyder said the Flint water crisis is one of those low-points.

"It is a problem that you wish never happened," Snyder said.

Legislation to end straight-ticket voting heads to Gov. Snyder's desk

Michigan Radio, December 18, 2015

Legislation that would eliminate the straight-ticket voting option on Michigan ballots is headed to Gov. Rick Snyder's desk.

Rick Pluta, co-host of It's Just Politics and the Bureau Chief for the Michigan Public Radio Network, tells us that if signed, this legislation would have three effects:

It would eliminate the option that Michigan voters had to vote for candidates in one party by filling a single circle on the ballot.

It would provide money for local governments to buy more voting machines.

It would ensure that this legislation cannot be challenged via voter referendum.

Stabenow, Peters highlight federal budget bill's benefits for Michigan

Michigan Radio, December 17, 2015

A federal spending bill for the 2016 budget year includes potential funding to boost efforts to fight blight in Michigan and to protect the Great Lakes, according to U.S. Senators Debbie Stabenow and Gary Peters.

Stabenow and Peters said the bill, agreed upon Wednesday, would authorize the U.S. Treasury Department to transfer up to $2 billion in additional funding to the Hardest Hit Fund, which they say has been used to fight blight successfully in urban areas across Michigan

"If you don't have healthy, viable neighborhoods, you don't have a healthy, viable city," said Peters. "And this blight funding is absolutely critical."

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Handling of L.A. schools shutdown offers a civics lesson

Emergency Management, December 17, 2015

(TNS) - On Tuesday morning, as the nation's second-largest school district was shutting down in response to a suspected terrorist threat, Los Angeles Mayor Eric Garcetti took the microphone at a news conference led by L.A. Unified School District Superintendent Ramon Cortines.

With his first words, the mayor established the posture he would adopt toward the crisis throughout the day. "The decision to close the schools is not mine to make, but is mine to support," Garcetti said.

That seemingly innocuous statement underscored the jurisdictional divisions that marked L.A. government's response to the threat. In L.A., unlike New York and Chicago, the mayor does not control the schools. Cortines ultimately made the choice to close the district.

San Bernardino shooting: Friend of gunman is charged

BBC News, December 17, 2015

A friend of one of the San Bernardino attackers has been charged in connection with the mass shooting that killed 14.

Enrique Marquez, 24, is the first person arrested over the deadliest terrorist attack in the US since 9/11.

Mr Marquez is charged with plotting with gunman Syed Farook to attack a university in 2011 and 2012.

He is also accused of illegally purchasing the two rifles that were used by Farook and Tashfeen Malik.

What we know about San Bernardino shooter's alleged 'rush hour' terror plot

ABC News, December 17, 2015

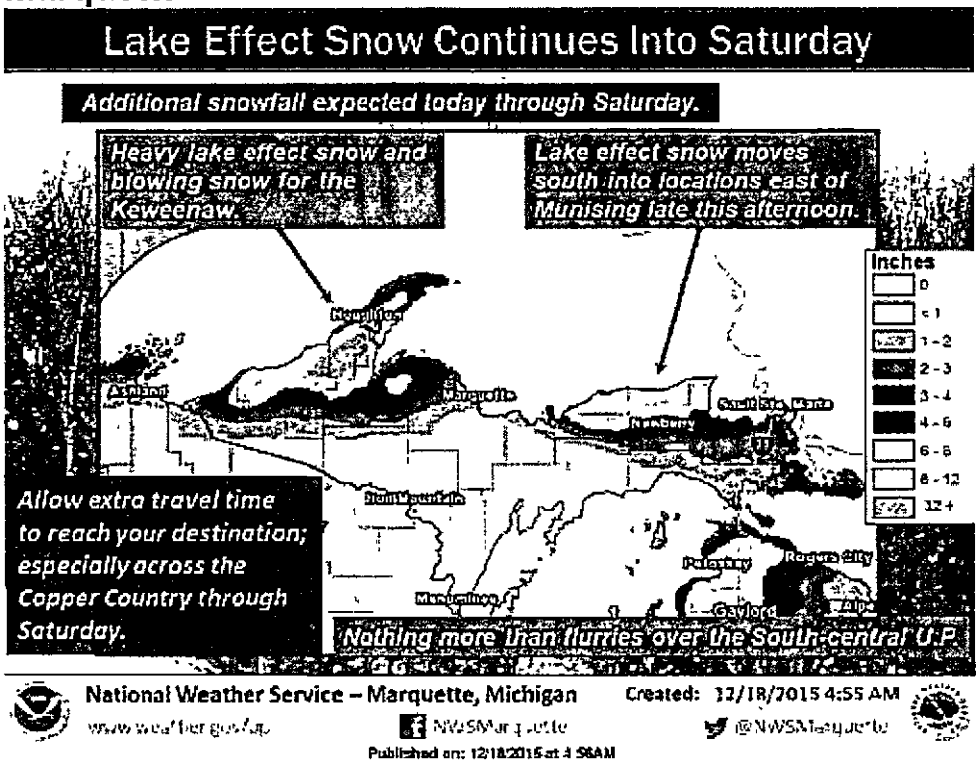
Four years before Syed Rizwan Farook and his wife Tashfeen Malik killed 14 people at an office party in San Bernardino, Farook plotted with his old friend and neighbor Enrique Marquez to kill as many people as possible during a "rush hour" attack on a highway in California, according to the FBI.

The late 2011 or early 2012 plot was detailed for the first time today in a criminal complaint filed against Marquez, who authorities said admitted the plans during a 10-day questioning session with the FBI after the San Bernardino shootings earlier this month.

According to the complaint, Marquez told the FBI that he had converted to Islam in 2007 and was pushed towards radical Islamic material by his friend and neighbor Farook. In late 2011, the two decided to strike in the U.S., and discussed whether they should attack a local community college and busy California highway, SR-91.

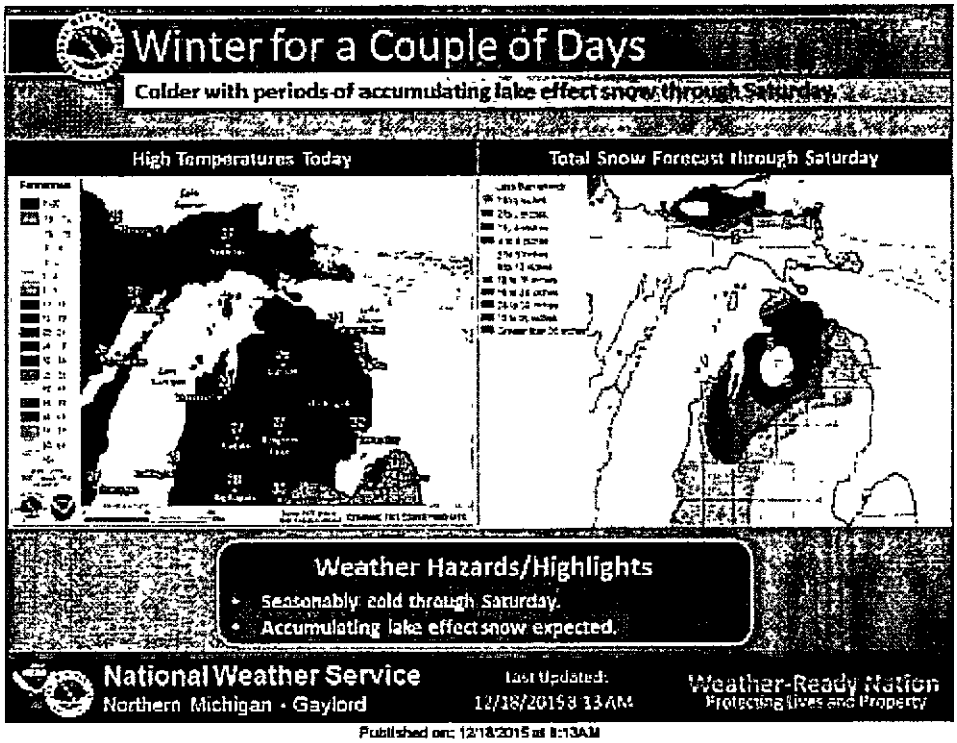
NATIONAL WEATHER SERVICE FORECASTS

Marquette



Lake effect snow will continue over portions of the western U.P. today and then transition to areas favored by northwest winds tonight. The combination of the lake effect snow and blowing snow will lead to greatly reduced visibilities at times, especially over northern Houghton County today.

Gaylord



Published on: 12/18/2015 at 8:13AM

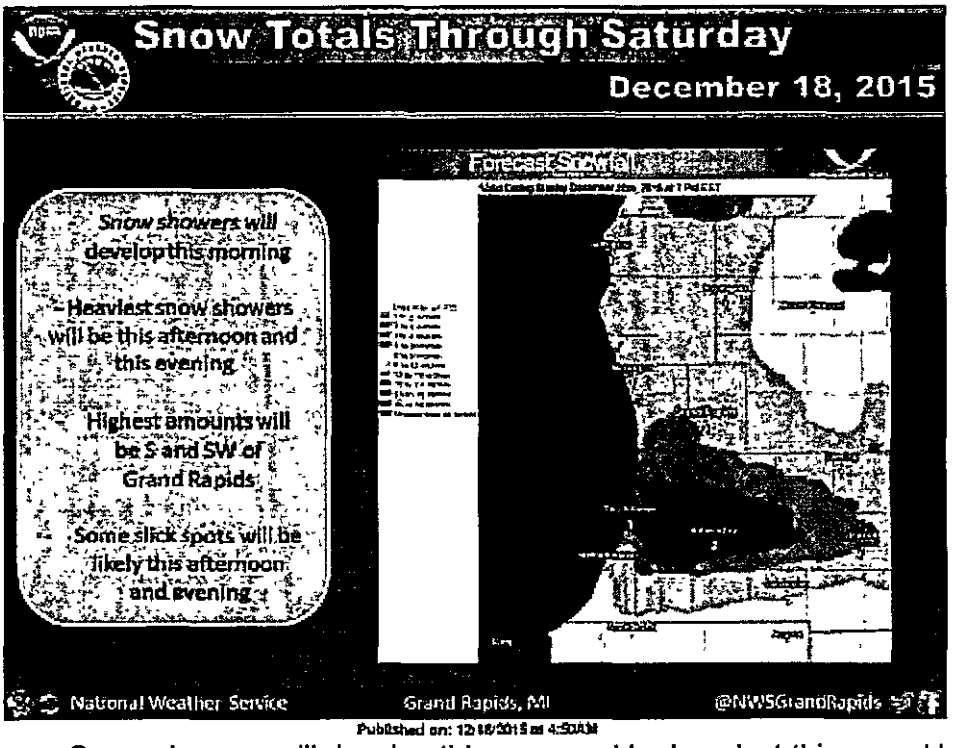
The coldest air yet this season will be across the Great Lakes through Saturday, leading to lake effect snow showers. Some of the snow showers could be locally heavy, in the traditional snow belts, where several inches of snow are expected by Saturday. Temperatures are then expected to moderate heading into the end of the weekend and start of next week.

Detroit

Published on: 12/18/2015 at 4:05AM

Numerous Snow Showers will develop late today as brisk westerly flow off Lake Michigan persists. Heaviest snow showers look to be this evening along the I-94 corridor, where 1 to 2 inches is possible, otherwise most locations will receive a dusting to less than 1 inch of accumulation.

Grand Rapids



Snow showers will develop this a.m., and be heaviest this p.m.. Heaviest amounts will be S and SW of Grand Rapids.

Northern Indiana

A brief return to winter with cold and blustery conditions expected today. Snow showers are expected to develop late this afternoon with accumulating snow along and north of I 80-90 where 1-2 inches of accumulation is possible by Saturday morning. This may lead to some slick spots on area roads during the evening commute. Temperatures will struggle into the low 30s this afternoon, with gusty west winds to 30 mph yielding wind chills in the teens.

MSP: 1 arrested in W. Michigan's largest drug bust
WOOD TV 8
12.17.15

HARTFORD TOWNSHIP, Mich. (WOOD) – One man is in jail in connection to the largest drug bust of its kind in West Michigan, Michigan State Police said.

Troopers stopped the suspect's vehicle on I-94 near County Road 687 in Van Buren County's Hartford Township around 1:30 p.m. Wednesday. Investigators said the man was driving below the minimum speed limit and had defective equipment.

The driver allowed troopers to search his vehicle. That's when they discovered about 7 pounds of pure crystal methamphetamine stuffed inside the box for an orbit sander.

Michigan State Police believe this was the largest pure methamphetamine bust made during a routine traffic stop in West Michigan.

The driver, 49-year-old George Joseph Yellowboy of Nebraska, admitted to being part of a large Mexican drug trafficking ring that transports meth to the Northeastern United States. Police saidhe was traveling from Colorado to Detroit.

The driver is charged with possession with intent to deliver amphetamines, which is a 20 year felony. He remains in the Van Buren County jail on a $2.5 million bond.

12.18.15

DETROIT, MI -- Detroit Police Chief James Craig, with officers and media in tow, brought smiles to the faces of children and their families Thursday when they arrived at multiple homes armed with presents.

Craig also handed out gift cards he gave to unsuspecting citizens who passed by.

Meanwhile Thursday afternoon, more Christmas cheer was spread in Detroit's 11th Precinct where officers matched up with students from Nolan Elementary and Middle School students to take them on a shopping spree for a second annual shop-with-a-cop event.

The Department posted to its Facebook page:

Holding true to the vision of the Department, which is being a model of sustained policing excellence placing the neighborhoods and people first, DPD lead the way today in community outreach. First with Chief Craig taking it to the streets spreading a little holiday cheer by handing out presents to families in need and giving gift cards to citizens passing by.

Meanwhile, officers from the DPD's 11th PCT can be seen below with a group of students from Nolan Elementary - Middle School continuing the holiday cheer, as they engage in their 2nd annual Shop with a Cop event.

After working up an appetite from all the holiday shopping the students were also provided lunch at Buddy's Pizza in Detroit

10 scams to look out for this holiday season
Rex Hall Jr.
MLive
12.18.15

As holiday shopping wraps up and Christmas and New Year's fast approach, police and consumer protection officials want to make sure residents don't fall victim to scams so this time of year is sure to be merry and bright.

"We tell people to check your credit card statements routinely," said Jill Washburn, spokeswoman for the FBI in Detroit. "There's a lot of activity with holiday spending and shopping. A lot of times you need to check those statements for a couple of months after (the holiday)."

With those words in mind, here are 10 common scams to be aware of and on the lookout for this holiday season. The scams were named in a Top 10 list released this week by the Better Business Bureau.

1. Tax Scam: The BBB said this scam starts with a phone call from someone who claims to be with the Internal Revenue Service. The caller tells the person on the other end of the line they owe back taxes and are facing arrest if they do not pay up with a wire transfer or a prepaid debit card. In these instances, the phone number on a consumer's caller ID "is spoofed to appear to be a government agency or the police," the BBB said.

2. Debt Collection: In this scam, the caller tells a consumer they have an unpaid debt and threatens wage garnishments, lawsuits or jail time if it's not paid right away. The caller often uses caller ID spoofing and pretending to be a government agency or police.

3. Sweepstakes Scam: In this scam, a consumer receives a call, or a letter or e-mail informing them they've won a sweepstakes prize. To claim their winnings, the consumers is told to send a fee to cover processing, delivery and insurance. The BBB said consumers would never be asked to pay money to claim a prize they've won.

4. Tech Support Scam: In this instance, a scammer will contact a consumer and claim to be a technician who has detected a virus or security threat on the consumer's computer. The caller says they can log in remotely and remedy the

problem for a fee. But the BBB warns the callers are actually hackers who are trying to steal money or sensitive computer passwords, or trying to damage a computer with malware.

5. Government Grant Scam: Like many of the other scams, this one too is carried out through a phone call, email, or letter that tells its recipient they've qualified for a government grant. To receive the grant, though, the person is told they have to send money through a wire transfer or prepaid debit card to cover processing and delivery fees.

6. Advance Fee Loan Scam: Consumers fall victim to this scam while searching for loan information coming across an "enticing" ad that they click on, the BBB said. Once they've clicked, the consumer is taken to a different website where they fill out an application and then receive an email or phone call telling them they've been approved for the loan. However, the BBB said the caller or sender of the e-mail tells the consumer they have to send money to cover a processing fee, security deposit or insurance. "You pay the 'fee,' but never see the loan," the BBB said.

7. Credit Cards Scam: To carry out this scam, a scammer pretends to be from a consumer's bank or credit card company and claim that the consumer is eligible for a lower interest rate, or they claim they need to verify a recent transaction. "The consumer provides the scammer with their credit card number and security code to 'verify' their identity," the BBB said.

8. Work from Home Scam: Consumers fall victim to this scam while searching for a job online. The ads claim a job seeker can make good money while working from home stuffing envelopes, posting advertisements, or shipping packages. "You could have your identity stolen when you fill out the employment forms, or even end up handling stolen merchandise," the BBB warned.

9. Fake Check/Money Order Scam: This scam often befalls consumers who are trying to sell items or services online. The consumer receives a check in the mail that is larger than the amount owed and then asked by the scammer to deposit the check and wire back the difference. The BBB said in those instances that the check is fake and "when it bounces, you're out the money."

10. Lottery scam: This scam begins with a phone call or e-mail in which a consumer is told they've won a large amount of money in a foreign lottery. To claim the winnings, the consumer is told to pay up front for taxes and fees. "Such lotteries are illegal. Sometimes you may be sent a check as partial payment, but the check will be counterfeit," the BBB said.

While the top 10 list from the BBB covers a wide range of scams to watch out for, there are still many others out there, said Detective 1st Lt. James Grady, commander of the Michigan State Police Fraud Investigation Section.

In many cases, Grady said residents who fall victim to a scam don't report the crime to police because of embarrassment. However, Grady said the best thing for any scam victim is to notify police to lessen the chance of the scam being able to continue.

"In the fraud world, it's high reward and low risk," said Grady, whose unit includes MSP's auto theft teams and fraud teams on the east and west side of the state.

Grady said one scam MSP investigators have seen in the state is a bail or bond scam where a scammer contacts the family member of a college student who has moved away from home and calls claiming to be that college student in need of money to get out of jail.

"They'll call on a phone that makes it sound like the connection is bad and they'll say, 'I'm on my way, but unfortunately I got stopped' and it's going to take a couple of hundred to bail them out," Grady said.

To avoid being scammed, both Washburn and Grady offered this common tip: If it sounds too good to be true, it probably is.

Washburn advised that residents should do their due diligence and ensure that they are always dealing with reputable businesses or businesses that they've done business with before.

"Don't give up personal information to someone who contacts you," Washburn said. "If you get e-mails or phone calls out of the blue and they want person information, don't give it up."

Police identify man fatally shot in Dearborn Heights Police Department
Gus Burns
MLive
12.17.15

DEARBORN HEIGHTS, MI -- State police identified Mark D. Henning, 48, of Dearborn Heights as the a man shot and killed after police say he confronted a security guard with a weapon inside the Dearborn Heights Police Department about 8:45 a.m. Thursday.

Police released the information after contacting Henning's relatives and said an autopsy will be performed Friday.

"Preliminary investigation revealed that a male entered the complex at approximately at 8:45 a.m. (Thursday)," a statement issued by State Police Lt. Mike Shaw said. "The individual attempted to circumvent the security protocols with a weapon and was involved in a confrontation with the security guards that are employed by the 20th District Court.

"The male suspect was killed during the confrontation."

Multiple media reports said the man lunged at a security guard with a knife, although Shaw's statement didn't clarify the type of weapon used.

"Police secured and cleared the building as a precaution," Shaw said. "There are no other outstanding suspects and there is no danger to the public."

Shaw said investigators are "vetting" Henning's background.

WXYZ reports the Henning was at the police department in relation to a drug case. According to online Wayne County Circuit Court and Michigan Department of Corrections records, he has no prior felony convictions.

There is no online access to 20th District Court criminal records, but there was a civil judgement against him over a $2,307 debt owed to Monroe Financial Recovery Group.

Public records show Henning previously lived addresses in Dearborn Heights, Romulus and Chattanooga, Tenn.

The Police Department is connected to the 20th District courthouse at the Dearborn Heights Justice Center, 25637 Michigan Ave, located about 15 miles west of downtown Detroit.

The guard was employed by the court.

The entire judicial complex was locked down and employees were kept inside until detectives could gather witness statements.

The court remained closed for the entirety of Thursday.

The Dearborn Heights, a city of about 55,000 just west of Detroit, employed 79 sworn officers and 18 civilians in 2014, according to FBI data.

'Just part of the uniform,' Grand Rapids sergeant says of now-deployed body cams
John Tunison
MLive
12.17.15

GRAND RAPIDS, MI -- Nearly two dozen Grand Rapids police offices are now wearing the first wave of body cameras, ushering in a new era of transparency for both police and suspects.

"We just want people to realize there is now better evidence of what you were doing," Lt. David Schnurstein said. "It's not just the officer's testimony anymore."

At the same time, the Taser Axon Body 2 cameras will mean more accountability for officers.

"If an officer does something they're not supposed to, we're going to know about that, too," he said.

Officers with the police Special Response Team were being outfitted Thursday, Dec. 17 with the first 20 body cameras, with another 278 units coming soon.

Schnurstein and Sgt. Brad Bush talked about the cameras' capabilities and use during a demonstration at the police station.

Bush is one of eight of officers with prior experience wearing body cameras. He was outfitted with one during a pilot project in March.

The Axon Body 2 cameras turn on automatically when an officer activates the lights or sirens in their assigned cruiser. They also can be activated manually.

It mounts on the chest area, using a strong magnet and a twist-lock base.

Grand Rapids Police are the first in the nation to use this particular model and police describe it as a "turnkey" option with little or no technical fuss for officers in the field.

"One of our goals was to minimize any impact on the workflow of the officer," Schnurstein said.

Officers will be alerted by a vibration, as well as a light, that the camera is in operation. Captured video is uploaded automatically for storage and the cameras have a long battery life.

"They will certainly go beyond any reasonable need we can think of," Schnurstein said.

The system is advanced enough to synchronize with case-report data on police computers and automatically classify and label videos. Police are still are investigating how long to store the videos and say it will depend on the speed of related court cases.

Schnurstein said the pilot-project cameras already proved their worth when several witnesses to a police call complained that an officer used excessive force. The video proved otherwise.

The cameras will be on during most calls where some type of "enforcement" might occur, but not in routine encounters with the public.

"If an officer is going to lunch, they're not going to be turning it on," Schnurstein said. "We just can't turn it on all the time.

"So they will not be recording every contact, every encounter," he said.

The city has a $1.8 million, five-year contract for 298 cameras and the related storage system. Taser is expected to make delivery on all cameras by the end of February.

Bush, who wore one of the pilot-project cameras, can't envision many adjustment problems for officers.

"Once you're used to them, it's just part of the uniform," he said.

Bush said the public rarely noticed the camera he wore earlier this year.

He did not necessarily tell people the camera was on, except for instances where someone is being unruly or obnoxious.

"That's something to put people in check," he said.

The 20 officers receiving the initial body cameras were going through training Thursday before they go in service Thursday evening.

Flint police officer appeals after being disciplined for handcuffing a 7 year old
WJRT TV 12
12.17.15

FLINT (WJRT) - (12/17/15) - An update on the investigation into a Flint Police officer who allegedly handcuffed an elementary school student.

It happened in October at the Brownell STEM academy, during an after-school program. The child was 7 years old at the time.

Thursday, Flint police tell ABC12 that following an internal investigation, the officer was disciplined.

However, that officer has filed a grievance to appeal the action, and it could be several months before a final ruling is issued.

At the time, the Police Chief says the officer used handcuffs to restrain the child to prevent injury to the child and others.

Genesee County chairman says he can send Flint disaster request to governor
Ron Fonger
MLive
12.18.15

(This story has been updated with comment from Flint ayor Karen Weaver.)

FLINT, MI -- Genesee County Board of Commissioners Chairman Jamie Curtis says he is authorized to forward Flint's request for a disaster declaration to the governor and plans to meet with Mayor Karen Weaver about it next week.

In a letter to Weaver Thursday, Dec. 17, Curtis says county guidelines and state law call for him to consult with the county's emergency management coordinator – Sheriff Robert Pickell -- and Michigan State Police once he has been given the declaration.

"Upon such consultation and review of the city's declaration of emergency and upon determining that the situation is beyond the capabilities of the county to handle, I as the the county board chair, may then declare a state of emergency and request assistance from the state of Michigan and a governor's declaration," Curtis' letter says.

Curtis declined to comment further on the matter, but he chairman's letter says he will "do whatever I can ... to assist the city of Flint as it continues to struggle with its emergency water situation."

Weaver said she plans to meet with Curtis and other emergency management officials Monday, Dec. 21, to work on the request.

Earlier this week, Curtis said he did not plan to call a special meeting of the county Board of Commissioners to consider the disaster request but would add the issue to the agenda of the county board at its next meeting on Jan. 4.

The mayor has said state and federal funds are needed to respond to health problems caused by lead in drinking water here and to replace thousands of lead service lines in the city.

Weaver's declaration, read to the City Council Monday, Dec. 14, did not include an estimate of damages suffered by the city and residents.

To support the request for disaster relief, the city also announced that it has enacted its "Support Emergency Operations Plan" and opened an "Emergency Operations Center."

Sean Kammer, assistant to the city administrator, said the center is available to answer questions from residents and will be used to coordinate relief efforts.

The EOC is located in Flint Fire Station 1, 310 E. Fifth St., and the center can be reached by calling 810-237-6888, extension 5005 from 8 a.m. until 5 p.m. Monday through Friday.

Obama says no specific, credible terror threat over holidays
WJRT TV 12 (Associated Press)
12.17.15

McLEAN, Va. (AP) - (12/17/15) - President Barack Obama says U.S. intelligence and counterterrorism officials don't have any specific, credible information suggesting a potential terrorist attack against the U.S. during the holidays.

Obama made the comment during a visit at the National Counterterrorism Center in Virginia, where he got a briefing Thursday.

The president is trying to reassure Americans that the government is doing all it can to protect them. Obama also says the country must be vigilant during the holidays.

Obama says the types of threats have evolved, and that people acting on their own and in small groups are harder to detect. He's pointing to the shooting in San Bernardino, California as an example.

MEDIA MONITORING REPORT

12/17/2015

Issues:

- No issues to report.

Summary:

- ACLU Investigative Journalist Curt Guyette writes in The Guardian that Flint Mayor Karen Weaver's emergency declaration represents that the city returning to democracy.
- Nancy Kaffer opines in the Detroit Free Press about Gov. Rick Snyder not being able to recall when he learned about the elevated lead levels in Flint children.
- Michigan Radio has produced an hour documentary about the Flint water problems.
- Flint Mayor Karen Weaver is asking Flint City Councilmembers to be civil and professional during their meetings.
- Current actions to protect the public from lead in water appear to be taking place without a system to measure results and delineate responsibilities, according to a task force charged with reviewing Flint's lead in water crisis.
- Genesee County Board Chairman Jamie Curtis says he supports Flint's call for assistance, but the city must follow the proper process for an emergency declaration. He says the process is similar to applying for a grant.
- U.S. Homeland Security Secretary Jeh Johnson activated the National Terrorism Advisory System for the first time Wednesday, warning the public of "self-radicalized actors who could strike with little or no notice."
- Russia's strategic nuclear forces chief says its new weapons will be capable of "neutralizing" any potential missile defenses.
- When the public needs to know what's happening during a weather, health, or safety emergency, it's usually a public information officer that relays critical information. Several Region 7 emergency management officials underwent training.
- U.S. law enforcement officials said that gun charges will be announced Thursday against Enrique Marquez, who bought the assault rifles used in the deadly Dec. 2 attack here.
- National Weather Service: Snow coming this weekend; mild temps next week.

Analysis:

- The Flint water situation is an evolving situation.

- Several news articles are being written from complied information from other articles. Some information is packaged out of context.
- The MSP/EMSHD PIO expects another surge of media coverage after the Jan. 4 Genesee County Board of Commissioners meeting.
- State Sen. Jim Ananich, D-Flint, is renewing calls for a professional emergency management official to manage the situation in Flint. He is also skeptical of the Flint Water Advisory Task Force.

- Will continue to monitor the situation.

FLINT WATER

Flint's state of emergency is a sign that democracy is working there again

The Guardian, December 16, 2015

It might seem counterintuitive that Flint, Michigan's declaration that there are dangerously high levels of lead in the city's drinking water – and in the blood of the city's children – is a positive thing. The contamination of the city's drinking water is, after all, is a gut-wrenching tragedy.

But the *declaration* about the undrinkable water, made by newly elected mayor Karen Weaver on Monday, is positive in this regard: it is evidence that a semblance of democracy has returned to Flint.

Such an announcement would have been unimaginable even six months ago, when Flint was still under the control of an "emergency manager" appointed by Governor Rick Snyder. The state's usurpation of local power essentially obliterated the kinds of checks and balances that are key to a functioning democracy.

The Surreal Flint Experience: 2014-2015 Water Crisis // Video of Resident Getting Arrested for Questioning Safety of Water

FlintWaterStudy.org, December 17, 2015

Now that the 2014-2015 Flint Drinking Water Crisis has a name and is getting national attention, we wanted everyone to get a glimpse of the surreal journey of Flint residents. The scene was a City Council meeting about 17 months into the water crisis. Understandably, Flint residents were upset, as they were paying the highest water rates in the U.S. (average $200 per month) for water that is now acknowledged to have been dangerous and non-potable.

The residents had just collected their own data, with the assistance of Virginia Tech researchers, that demonstrated Flint water was not meeting Federal safety standards for lead. At the meeting, Flint residents were not allowed to speak, and if they did so, they were arrested. The only mode of asking a question to the government was to write them on Post-In notes or submit them on paper, and residents were told that answers would be posted a week later on the City of Flint's website. Moreover, questions from several Flint residents (like Melissa Mays and LeeAnne Walters) were never answered.

Kaffer: When did state know kids in Flint were lead poisoned?

Detroit Free Press Opinion, December 17, 2015

When did the State of Michigan first learn that kids in Flint had been poisoned by lead in the city's drinking water?

This is one of the most critical questions to answer in the aftermath of a public health crisis that's still unfolding in one of the state's largest cities.

And it shouldn't be a hard question to answer.

But when I asked Gov. Rick Snyder this week, he said he couldn't recall.

Officials at the state department of health say they didn't know what was happening until a Flint pediatrician released her own analysis in September -- even though data previously collected by the state showed the same trend, a reversal in a decades-long decline in the percentage of kids with lead in their blood.

And the health department has been stalling a Virginia Tech University researcher who has been trying to get public records that could show who knew what, and when.

It's ridiculous. Immediately after Snyder acknowledged there was a problem in Flint, the Free Press editorial board encouraged him not to slow-walk the postmortem. Snyder has appointed an after-action task force to find out what happened, and he told the Free Press this week that he's waiting for that report to provide answers to many of these questions -- but answers should certainly be readily available for the man in charge of the state departments involved in this fiasco.

So inconsistency and obfuscation continue.

Listen to "Not Safe to Drink," a special documentary about the Flint water crisis

Michigan Radio, December 16, 2015

What would you do if your tap water turned brown? If it gave your children a rash every time they took a bath? Or worse, what if it made them sick? Listen to our special documentary below, and hear the wild story about how the water in Flint became *Not Safe To Drink*.

Flint mayor tells City Council 'fussing and fighting' need to end

MLive – Flint Journal, December 16, 2015

FLINT, MI — Fewer than 50 days into her first term as Flint mayor, Karen Weaver already doesn't like some of what she's seen from the Flint City Council.

"When we're yelling and fussing and fighting — that is no way to get anything done," Weaver told the council Monday, Dec. 16, after members Eric Mays, Kerry Nelson and Monica Galloway argued over procedural rules, a proposed special meeting and the amount of time Mays was speaking.

The theatrics, sometimes involving residents, are nothing new at council meetings.

A uniformed police officer is on duty at every regular and committee meeting of the council, and Mays still is facing a misdemeanor disorderly conduct charge tied to his behavior in July when police escorted him from a meeting room.

Weaver said council members may disagree without being disagreeable.

Flint's Water Crisis Just Became A Double Emergency

Huffington Post, December 17, 2015

JeCorey Hawkins had a scary moment with the water in Flint, Michigan, in September. The 22-year-old psychology student had stooped at a drinking fountain at his university when the water took on a grainy texture in his mouth.

"I was very creeped out because I didn't know if I would be sick," Hawkins told The Huffington Post on Tuesday. He said he and his family, which lives in Flint, hadn't been drinking tap water since earlier this year, though he trusted the University of Michigan's efforts to test and treat water on its Flint campus.

Flint's water problems turned out to be worse than most people realized when a local pediatrician reported in September that more children were being poisoned with lead, a dangerous neurotoxin. The continued problems with the water prompted Flint Mayor Karen Weaver to declare an emergency Tuesday.

"I am requesting that all things be done necessary to address this state of emergency declaration, effective immediately," Weaver said.

It's the second emergency declaration over toxic water for the beleaguered city -- Genesee County, which surrounds Flint, declared an emergency for the same reason back in October.

Jamie Curtis, chairman of the Genesee County Board of Commissioners, told HuffPost he didn't understand what Weaver hoped to achieve with her declaration, saying the mayor hadn't been in touch with any demands. He said the commission would take it up at its Jan. 4 meeting.

"I'm not sure what her declaration is," Curtis said. "What I don't think the people of Flint need ... is nothing more than rhetoric saying, 'I've declared this emergency,' but nothing comes of it.

Michigan Mayor Declares State Of Emergency Over Lead Levels

NPR, December 17, 2015

The mayor of Flint, Michigan says her city is experiencing a "man-made disaster" after a 2014 switch to a new water source.

She says the city's usage of water from the Flint River elevated blood lead levels in children, leading to irreversible health effects.

In a televised interview on The Rachel Maddow Show on Tuesday, Mayor Karen Weaver called her choice to declare a state of emergency "the only step we could take at this point," adding that the city is seeking state and federal funds in light of health problems of the city's children.

"We know that Flint is not in a position to bear this burden alone, and we are asking and looking for state and federal assistance. And the only way that we were going to happen was to declare a state of emergency, and hopefully that gets it to the county which will get it to the state where the governor can make it federal."

But it's not clear that Genesee County will support Mayor Weaver's request for federal disaster aid, which is a crucial step in elevating the issue to the federal level, The Flint Journal-MLive reported Tuesday. County board Chairman had initially said "that there's no need for the state of emergency" because "nothing more can be done." He later told the same publication that the issue will receive a "full hearing" in front of the Genesee County Board of Commissioners on January 4.

VIDEO: One family's take on life in Flint with bad tap water

Michigan Radio, December 17, 2015

As Flint's water crisis unfolded, there was a lot of news about decisions made by top level officials.

The decision to switch the city's drinking; decisions about corrosion control; and, eventually, the decision to switch back to Detroit water.

But what did these decisions mean for people living in Flint?

We gave one Flint family, the MacIntyres, a disposable camera and asked them to take photos of the way the Flint water crisis affected their day to day life.

Flint's 'toxic soup' polluted water worse for children than thought, doctor says

The Guardian, December 17, 2015

The doctor who discovered that the children of Flint, Michigan, were at risk of irreparable brain damage from lead poisoning in the city's water supply has warned that the problem of "toxic soup" coming out of their household taps may have affected many more than originally thought.

All children under the age of six – between 8,000 and 9,000 of them – have been put in jeopardy by Flint's contaminated water.

As many as 15% of those tested in certain city hotspots have shown dangerous levels of lead in their blood, according to Dr Mona Hanna-Attisha, a pediatrician at the local hospital who raised the alarm in the summer about metal in the water.

"This is an emergency. People think of disasters as being hurricanes, or tornadoes, or ice storms, but this is a disaster right here in Flint that is alarming and absolutely gut-wrenching," Hanna-Attisha said on Wednesday.

The newly elected mayor of Flint, Karen Weaver, declared a state of emergency on Monday night, calling for federal assistance to deal with what she labeled a "manmade disaster".

Governor's task force on Flint water crisis releases early recommendations

MLive-Flint Journal, December 17, 2015

FLINT, MI -- Current actions to protect the public from lead in water appear to be taking place without a system to measure results and delineate responsibilities, according to a task force charged with reviewing Flint's lead in water crisis.

In a letter to Gov. Rick Snyder, who appointed the Flint Water Advisory Task Force in October, the group acknowledged steps, including distribution of free water filters, that have been taken to carry out the governor's plan to address lead levels in the city's drinking water.

But the group also makes initial recommendations for improvement, including that the state address:

- The need for the Michigan Department of Health and Human Services and Department of Environmental Quality to set goals for actions in collaboration with local and federal agencies and organizations.
- The need for a set of corresponding timelines for the goals.

- The need to establish responsibility for meeting the goals in a timely fasion and for contingency plans for the state if the goals are not being met.
- The need for clear, regular communication with the Flint community and stakeholder groups regarding action steps and updates.
- That a single person or entity -- "potentially independent of any one particular state agency" -- serve as the point person to coordinate ongoing work.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Homeland Security activates new terror warning level

USA Today, December 17, 2015

WASHINGTON — Homeland Security Secretary Jeh Johnson activated the National Terrorism Advisory System for the first time Wednesday, warning the public of "self-radicalized actors who could strike with little or no notice."

The bulletin, which marks the addition of a new level of public warning to the system, will be in effect for the next six months, or until events dictate otherwise, Johnson said.

The Department of Homeland Security is "especially concerned that terrorist-inspired individuals and homegrown violent extremists may be encouraged or inspired to target public events or places," the bulletin stated.

Russian general says new weapons will 'neutralize' US shield

Associated Press, December 17, 2015

MOSCOW (AP) - Russia's strategic nuclear forces chief says its new weapons will be capable of "neutralizing" any potential missile defenses.

Col. Gen. Sergei Karakayev, the Strategic Missile Forces' commander, said Wednesday in remarks carried by Russian news agencies that the nation's military planners have taken into account the emerging potential of NATO's U.S.-led missile defenses.

The Kremlin long has described the U.S. missile shield as a top threat to Russia, dismissing Washington's claim that it is intended to fend off an Iranian missile threat.

Karakayev said that while the existing U.S. missile defense isn't capable of deflecting a missile attack Russia is capable of launching, the American missile shield will become more advanced in the future.

He added that Russia already has taken steps that would "guarantee neutralizing" any prospective missile defense.

Public Information Officers Gather to Train, Share Tips on Information Sharing

9 and 10 News, December 17, 2015

When the public needs to know what's happening during a weather, health, or safety emergency, it's usually a public information officer that relays critical information.

This morning public information officers gathered in Benzie County to learn more about having a common voice for the public.

The training included public speaking, press release writing and how different department deliver messages to the public.

Officers from the DNR, health department, state police, National Parks Service, and county administrations discussed how to better work together.

"If you have damage or condemnation of certain things, those people they all come from different backgrounds and different focuses," says Frank Post, Benzie County Emergency Management Coordinator. "Now how do we congeal all that? How do we make it all come together so that the public clearly understands what's going on."

The public information officers there say it's great to get together with other agencies to share experiences and advice.

Gun charges expected against San Bernardino shooter's friend

Washington Post, December 17, 2015

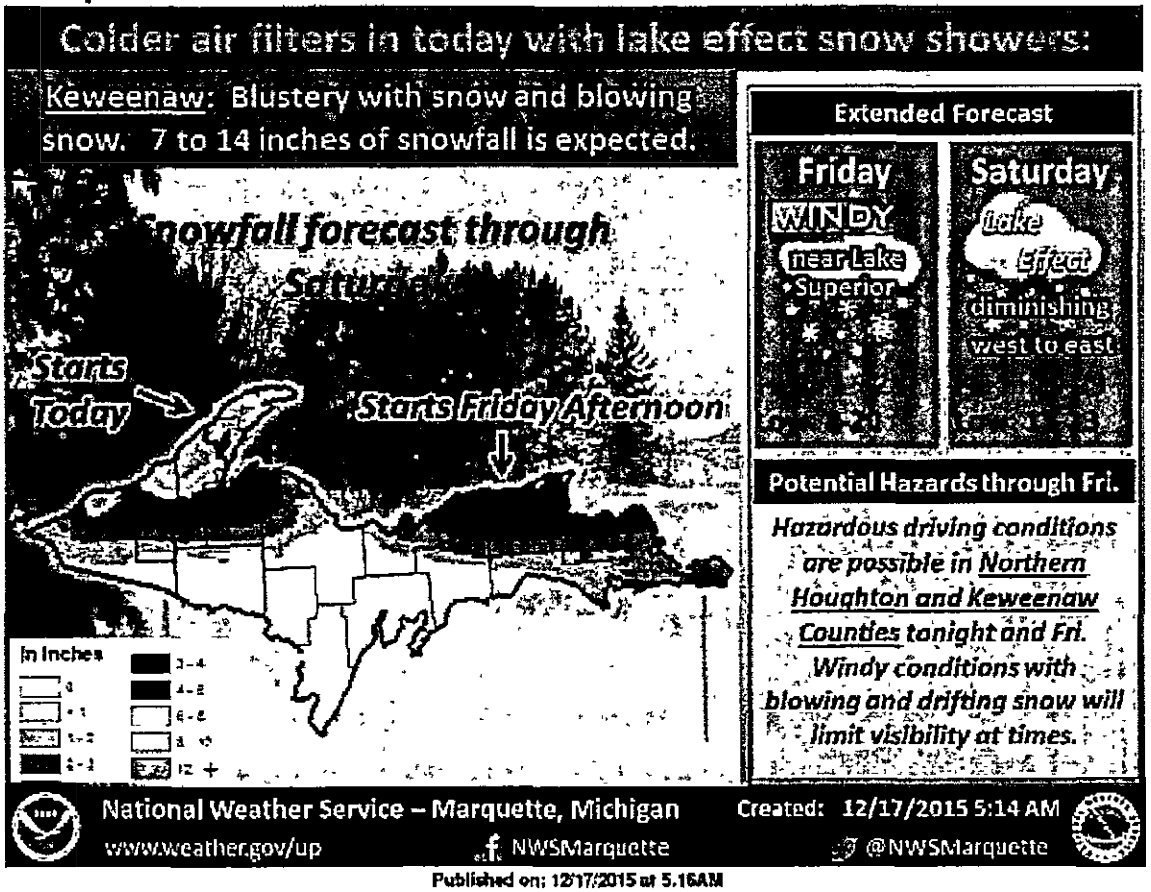
SAN BERNARDINO — U.S. law enforcement officials said that gun charges will be announced Thursday against Enrique Marquez, who bought the assault rifles used in the deadly Dec. 2 attack here.

It is not clear if Marquez has been arrested yet. But the 24-year-old has been at the center of the extensive federal investigation of the massacre carried out by his former neighbor, Syed Rizwan Farook, and Farook's Pakistani wife, Tashfeen Malik.

Authorities have said Marquez purchased two assault rifles used in the shooting that killed 14 people.

NATIONAL WEATHER SERVICE FORECASTS

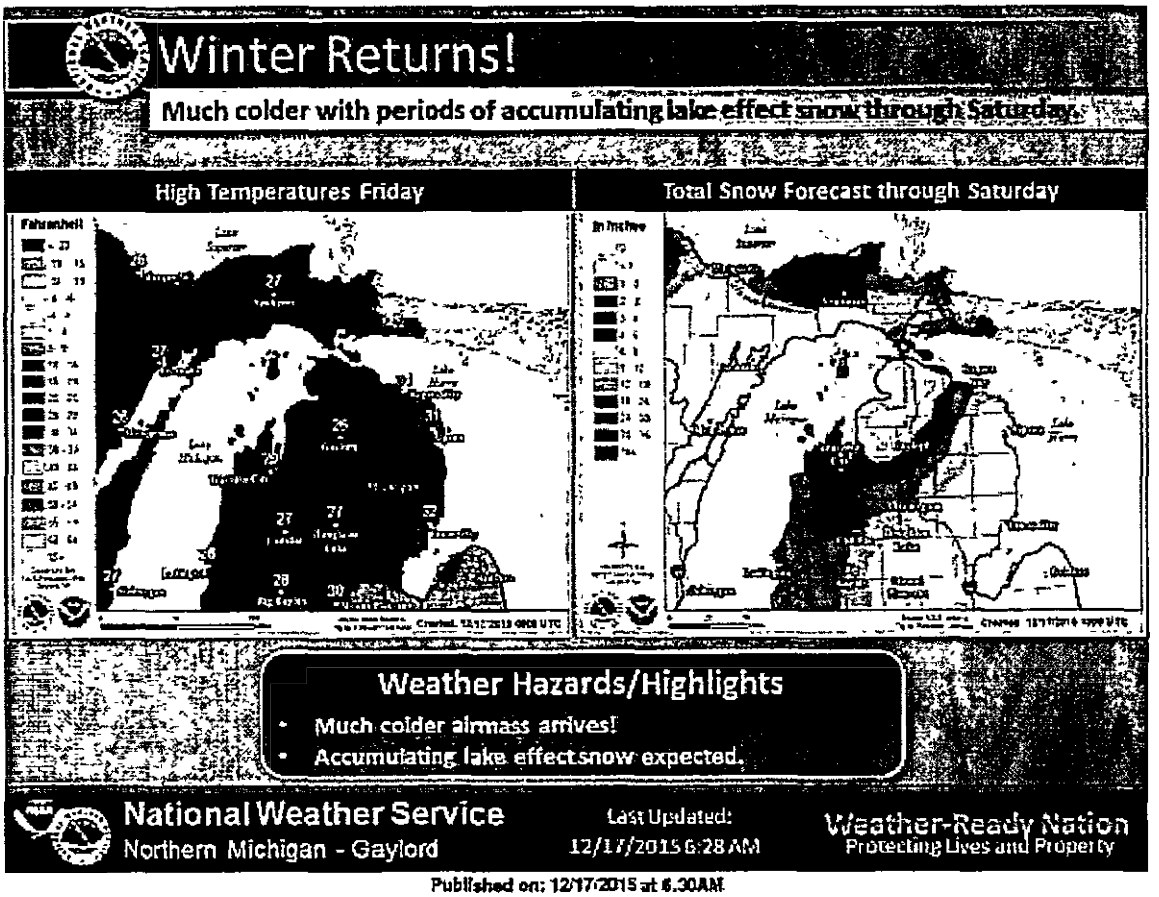
Marquette



Published on: 12/17/2015 at 5:16AM

Lake effect snow will intensify today over the Keweenaw Peninsula, which will combine with gusty westerly winds to produce blowing and drifting snow and difficult travel conditions. The lake effect snow is expected to continue into Saturday before diminishing.

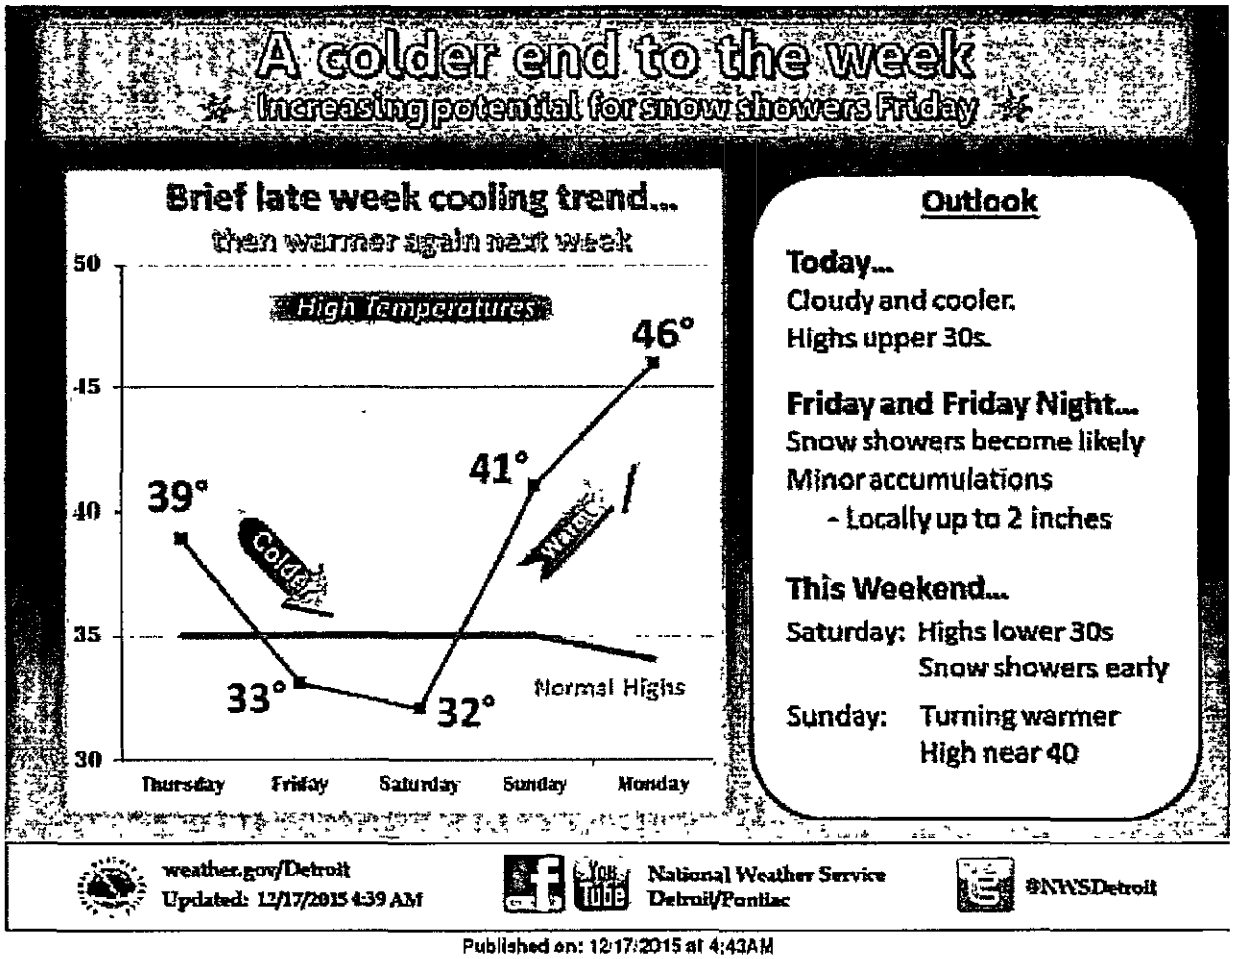
Gaylord



Published on: 12/17/2015 at 6:30AM

Coldest air yet this season will spread across the Great Lakes today through Saturday, kicking off scattered to numerous lake effect snow showers in the process. Some of the snow showers could be locally heavy, especially in the traditional snow belts Friday and Friday night, where several inches of snow are expected. Conditions are expected to moderate heading into the end of the weekend and start of next week.

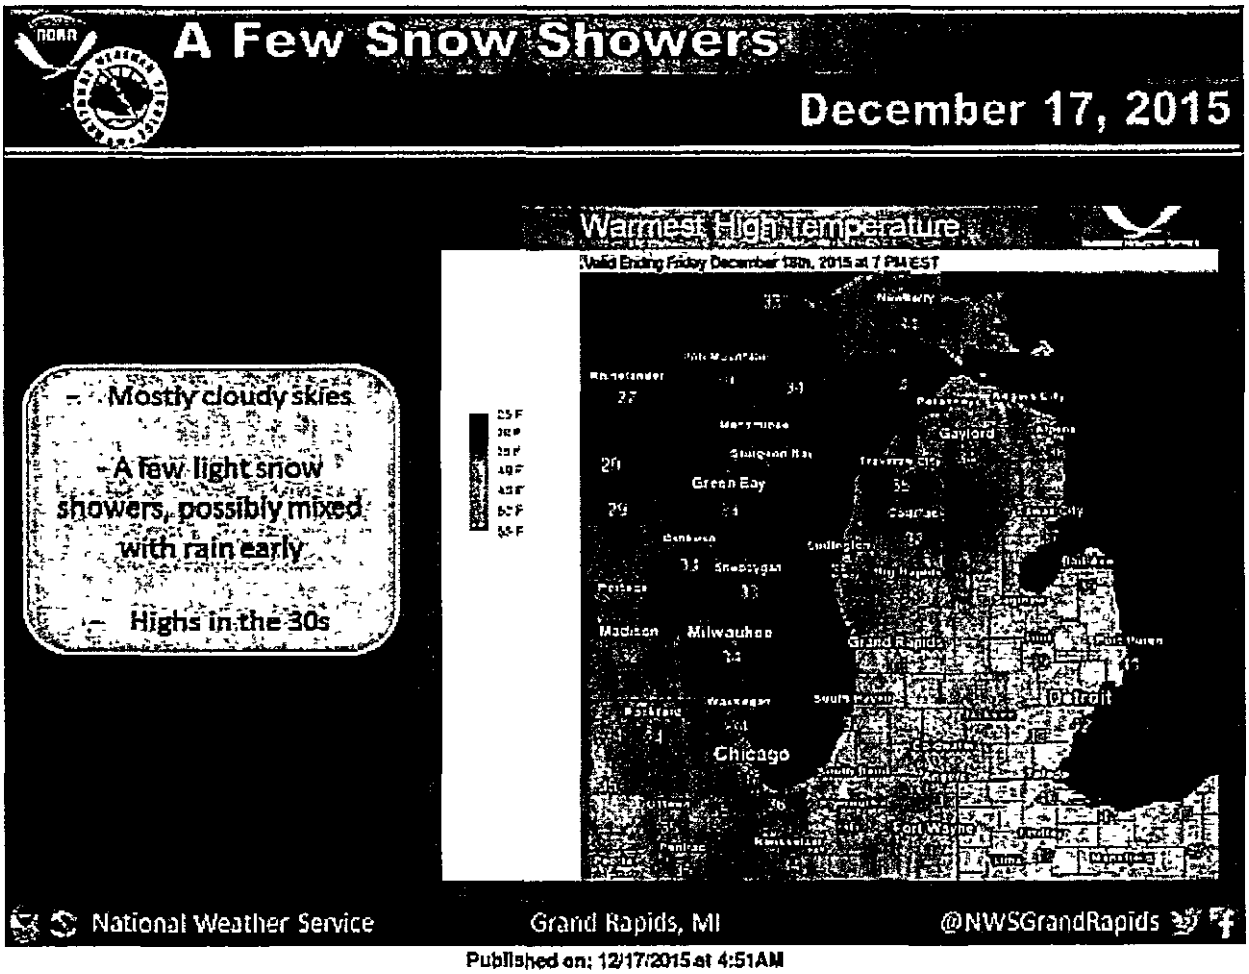
Detroit



Published on: 12/17/2015 at 4:43AM

Stretch of cloudy and colder conditions begins today. Highs today upper 30s to near 40. Trending even colder for Friday and Saturday, with highs in the lower 30s. Snow showers become likely Friday and Friday Night, with some minor accumulation possible during this time.

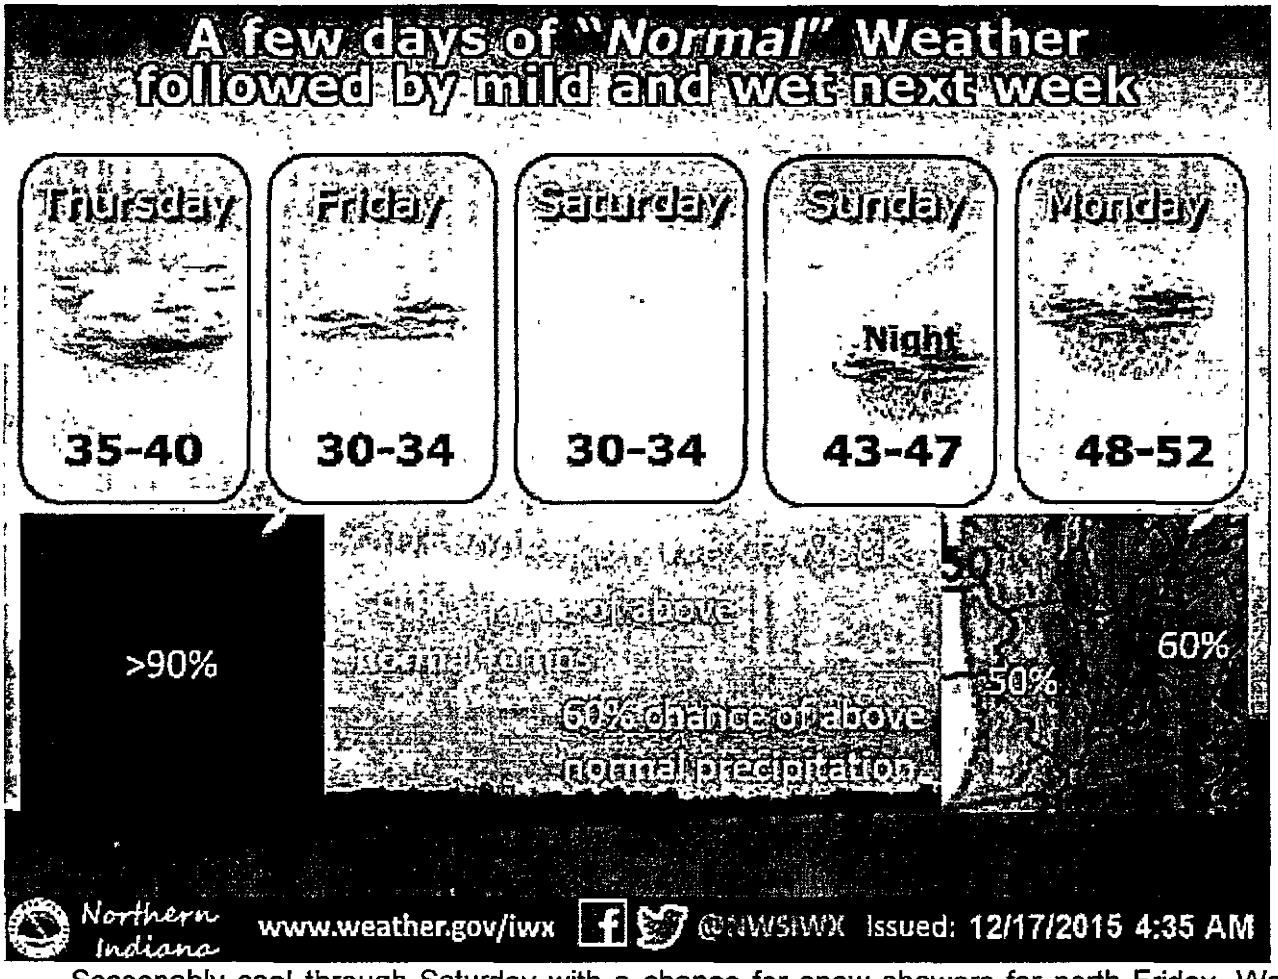
Grand Rapids



Published on: 12/17/2015 at 4:51AM

A few snow showers will be possible today, with no accumulation expected. Highs in the 30s.

Northern Indiana



Seasonably cool through Saturday with a chance for snow showers far north Friday. Warming trend commences Sunday with a good chance for rain late Sunday night through early Monday.

Shots fired at Dearborn Heights police station
Tom Greenwood and Holly Fournier
The Detroit News
12.17.15

Dearborn Heights — There has been a shooting inside the Dearborn Heights Police Department reportedly resulting in one death.

According to WXYZ-TV (Channel 7), a man with a knife lunged at a security guard during the screening process and was fatally shot by the guard before 9 a.m. Thursday.

No officers or other civilians were hurt in the incident.

The department remains on lockdown.

Dearborn Heights resident Sherry Matthews, 64, arrived at the building just before 9 a.m. to accompany a friend to court.

"When I pulled up to the parking lot, all the entrances and exits were blocked," she said. "The only people I saw go in were three officers who pulled up and went running into the building with their guns drawn."

Matthews described the guns as large, assault-type weapons.

Other officers then began letting people out of the building and had them take one exit from the parking lot, she said. The officials noted each motorist's plate number and driver's license information.

"I don't know if they thought they were witnesses or what," Matthews said.

An officer contacted at the station told The News they had no immediate statement to make.

The station is located at 25637 Michigan near Beech Daly.

Come back to The Detroit News as more information becomes available.

New MSP K-9 Teams strut their stuff
WLNS TV 6
12.16.15

DIMONDALE, Mich (WLNS) – At the Michigan State Police a class of students is getting ready to graduate this week and some of those students have four legs.

The MSP will welcome six new K-9 teams to their ranks on Friday.

Today the teams were demonstrating their skills for the camera at the MSP Training Academy.

Some of those skills include tracking and detection demonstrations.

The K-9 teams will go to posts across the state.

Troopers, 4-legged friends graduate from training
Kyla Smith
The Detroit News
12.16.15

When a position opened to become part of the Canine Unit, Richard Birmingham jumped at the opportunity.

"Sometimes it may take years for a spot to open up and when it does, you still have to go through a pre-evaluation and an interview process," Birmingham said. "Out of 18 applicants, less than half were chosen. It's very competitive."

The Michigan State Police will graduate six canine teams in Lansing at the MSP training academy Friday.

The program lasts 14 weeks and each team is trained on tracking, building searches, area searches, narcotics and body detection.

All training is done in-house. Every handler and canine team stays on-campus during the process, but handlers go home on weekends.

Birmingham will be stationed in the Metro Detroit area with Ike.

"Most people don't know that the canine learns right along with us," Birmingham said. "We both start from square one because it gives us both the opportunity to bond while learning and going through the process."

The Canine Unit was established in 1960 and has 45 police dogs placed throughout the state.

MSP uses German shepherds because of their problem-solving skills and the ability to handle high-stress situations.

Handlers must be on-call 24 hours a day, seven days a week.

After graduating from the program, yearly evaluations are conducted to ensure each team still meets all qualifications.

While Birmingham admits a lot training goes into becoming a handler, he says it's all worth it.

"I have the opportunity to help find the missing or lost and make sure violent subjects are off of the street," Birmingham said. "It's very rewarding to be a part of this unit."

Graduating teams

Bullet grazes Michigan State Police dog as troopers stop pit bull attack
Amanda Emery
MLive
12.15.15

FLINT, MI -- A Michigan State Police dog is recovering after he was attacked by a pit bull and grazed by a bullet while troopers shot the attacking animal.

Zeke, the K-9 officer, was taken to a local veterinary hospital and treated for his injuries. He received several stitches, but was expected to be released Tuesday evening, Dec. 15.

State Police Lt. David Kaiser said troopers had stopped a vehicle on the city's north side on Tuesday, Dec. 15, when they saw the passenger in the vehicle had a handgun. Kaiser said the man fled from the vehicle and troopers chased him on foot.

"As the troopers were chasing the suspect, they lost sight of him, however they did recover a handgun," Kaiser said. "The handgun is described as a .45-caliber and was stolen out of the city of Flint earlier this year."

The troopers set up a perimeter in the neighborhood off of Martin Luther King Boulevard. Troopers called in the department's K-9 that was tracking in the area of Newall Street.

"As our K-9 was tracking the suspect through these vacant homes, the dog lunged at the K-9 – it was on a chain, it was a pit bull. He broke the chain and attacked our K-9," Kaiser said. "In order to prevent that attack from escalating further and our dog being injured, one of our troopers discharged his handgun, striking the pit bull, also grazing the front-left shoulder of our departmental K-9."

Kaiser said the pit bull was killed. He said the owners of the dog did not immediately answer the door, so the animal will be transported to Michigan State University in Lansing where it will be examined for rabies.

Under official state police orders, Kaiser said troopers are allowed to discharge their weapons to protect officers and their K-9s. He said there is a full investigation into the incident.

"Because a trooper did fire his weapon, we've got detectives out here that are going to do a complete investigation just as if that dog were a person." Kaiser said. "So it will be a complete investigation."

Kaiser said the suspect from the traffic stop was taken into custody a short time later. He was found to be a felon on parole.

State Police trying to track source of synthetic drugs after series of overdoses
WWMT TV 3
12.17.15

KALAMAZOO, Mich. (NEWSCHANNEL 3) - Police are trying to track the source of a dangerous drug that at least three people have overdosed on in West Michigan in just the past few days.

One victim remains hospitalized in critical condition in Kalamazoo.

The man was flown in on Sunday, from Branch County.

State police say he and his brother both overdosed on spice, and after another case on Monday, police are sounding the alarm.

Police say synthetic marijuana--often sold by its street name "k2" or "spice"--is back in the spotlight in West Michigan.

"We are trying to find out what's the source of this," said Lieutenant Jim Coleman, with Michigan State Police.

Coleman says this chemical concoction, which is more potent than marijuana, was banned in Michigan three years ago and can cause serious health risks.

"You can have an anxiety attack, elevated heart rate, you can have seizures and you can have even death, which is the worst case scenario," he explained.

And many of its victims--mostly young adults and teens--believe it's a safe alternative to illegal drugs.

"They are those kids that are willing to take those risks, the ones that want to try things," Coleman said.

This week alone, police confirm at least 3 people overdosed on spice.

"We had two cases where we had people who overdosed on it and the first one was a couple of brothers who had to be treated medically on it, and then we had another one who overdosed on it and had to be hospitalized," Coleman said.

Despite the ban, police say they still have to be one step ahead.

"Our major concern is, if we've had three incidents of three different people who have had this product and had to be hospitalized or treated, we don't want to see more people. So we are going to go after it as aggressively as we possibly can so we don't have a problem with it," Coleman said.

Ultimately, he says those who mistake spice for a harmless substitute are in for a rude awakening.

"The main thing is just people need to be a little more careful about what they are willing to put in their bodies and ingest or smoke, because it could be very dangerous it could cause death potentially," Coleman said.

All of the recent cases happened in Branch County.

Lt. Coleman says anyone caught distributing spice will be slapped with a felony charge, and those caught using will be charged with a misdemeanor.

Grand Rapids police to be armed with assault rifles
WOOD Radio
12.16.15

The Grand Rapids city commission has agreed to spend $300-thousand dollars to outfit every single police car in the city with a high powered assault rifle. The appropriation includes money for ammunition, and 32 hours of training for each officer. The police department said it needed the weapon to match the fire power of weapons already on the street.

New law exempts young adults if they report drug abuse
Gary Heinlein
The Detroit News
12.16.15

Lansing — People under 21 who call for help during life-threatening emergencies as the result of abusing prescription drugs will be exempt from drug-related charges under a bill signed into law Wednesday.

The death of Watervliet teenager Mason Mizwicki from a drug overdose inspired the legislation said Republican Rep. Al Pscholka of Stevensville, the bill's chief sponsor. Pscholka said the activism of the young man's mother, Lori Mizwicki, and aunt Brandi Huyser spurred him to introduce the legislation.

"(T)his is not just an effort to pass a bill, but to spread awareness about prescription drug abuse itself," Pscholka said. "The message isn't to go soft on drugs, but to tell kids that their future means more to us than their mistakes."

The new law, signed Wednesday by Gov. Rick Snyder, is intended to allow young people to summon help for drug emergencies without fear they'll face prosecution.

Good Samaritan criminal law provisions are among the recommendations in an October 27 report issued by a state task force headed by Lt. Gov. Brian Calley. The report is part of a state-led battle against a growing number of addictions and deaths in Michigan linked to widely-used drugs called opioids.

At the bill signing, Mizwicki said the legislation helped broaden awareness of the dangers of prescription drug abuse.

"I believe through Mason's voice, both parents and teens are more aware of the epidemic that is spreading into our neighborhoods and schools," she said. "Awareness was our goal all along. Our kids now need to 'Know the Law, Make the Call, Save a Life.'"

House Bill 4843 passed unanimously in both chambers of the Legislature. It was backed by groups representing prosecutors, pharmacists, social workers, judges and law enforcement officers.

"We're going to look at further ways to combat substance and drug abuse while lending a compassionate hand to victims," Pscholka said.

FBI to begin tracking animal abuse cases with the start of new year
WJRT TV 12
12.17.15

(12/17/15) - The new year will bring a new tool for law enforcement as the FBI begins a national database of animal cruelty cases - the first of its kind.

The FBI already has national databases for crimes like murder and rape. Animal cruelty has become such a big problem, law enforcement from around the country asked the feds to track those cases, too.

Starting in January, the branch that tracks crime data nationwide will add animal cruelty cases to its main database.

The cases will be divided into four categories: animal neglect; deliberate abuse and torture; organized abuse, like dog fighting rings; and animal sex abuse.

Local investigators will upload each case to the database. The FBI will use the data to find patterns and identify ways to prevent animal cruelty.

It will take a few years for the database to grow. Eventually, the FBI will be able to compare the number of animal cruelty cases and the punishments from state to state and city to city.

To discuss what is considered animal abuse and how to report it, the Humane Society of Bay County will host a town hall meeting on January 25. It starts at 6 p.m. at the Wirt Library.

Student takes 'selfie' with Gov. Snyder after bill signing (WZZM)
Gov. Rick Snyder doesn't usually take "selfies," but Evan Dean managed to get one following a bill signing ceremony Wednesday morning at the Romney Building in Lansing.

Good Samaritan Act Signed By Governor (WSJM)
State Representative Al Pscholka's Good Samaritan legislation has now been signed by Governor Rick Snyder. The law

will now allow for exemptions from prosecution to minors who report someone having a medical emergency due to the abuse of a prescription medication. It was inspired by the overdose death of 16 year old Mason Mizwicki, of Watervliet, last year. His mother, Lori, says it's important now to spread the message to teens.

Gov. Rick Snyder signs Blue Alert legislation (Holland Sentinel)
Gov. Rick Snyder recently signed into law Public Act 167 of 2015, which is legislation aimed to protect the public and law enforcement after an attack on an officer. The legislation, sponsored by State Sen. Tonya Schuitmaker, R-26th District, will create the Blue Alert system in Michigan.

Retired teachers can return to classroom in some areas (Freep)
Gov. Rick Snyder has signed legislation that will give retired teachers more flexibility to return to the classroom without risking their retirement benefits or health care.

W. Mich. mother who inspired 'good Samaritan' law speaks out on its passage (WWMT)
Governor Rick Snyder has signed a so-called "Good Samaritan" law, designed to give teens life-saving help. The new law exempts people under the age of 21 from being prosecuted for illegally using prescription drugs if a medical emergency is reported.

Interviews
Snyder: More Work to Be Done on Refugees (Michigan Radio)
Governor Rick Snyder says more work needs to be done, but there is now a timeline to plan for re-settling refugees from the Middle East in Michigan.

Governor Snyder Says Talks Are Productive on Refugees (WILX)
Governor Rick Snyder says he's had productive talks with U.S. Secretary of Homeland Security Jeh Johnson about welcoming refugees from Syria and the Middle East.

Snyder: Data center tax breaks different from type he hates (AP)
Gov. Rick Snyder on Wednesday tried to distinguish between tax incentives that the Legislature approved for a tech company to expand into Michigan and another type he has long railed against, contending in part that the legislation would help an industry instead of just one business.

DNR
Parjana, Lawrence Tech collaborate on drainage project (Crain's Detroit Business)
Parjana Distribution LLC in Detroit and Lawrence Technological University are breaking ground Thursday on an innovative drainage system to reduce dirty stormwater runoff at a parking lot at the university's campus in Southfield. The immediate goal of the project is to reduce the amount of water pollution from parking lot D in front of the new Taubman Complex that flows from a drainage system into the Evans Creek drain, the Rouge River and ultimately into the Detroit River.

Delhi, Charlotte targeted for parks improvement grants (Lansing State Journal)
Parks in Charlotte and Delhi Township are among 12 in Michigan in line to benefit from more than $1.2 million in state Land and Water Conservation Fund grants. Delhi has been recommended for a $100,000 grant to improve the restroom facility at Kiwanis Park. The $75,000 tentatively going to Charlotte will help fund development of recreation facilities in that community.

DNR awards more than $1.3 million in Recreation Passport grants (Upper Michigan Source)
The Michigan Department of Natural Resources today announced that 33 communities across the state will share $1,348,700 in Recreation Passport grants. Funding for this program is derived from sales of the Recreation Passport, the $11 annual pass that grants residents vehicle entry at state parks and recreation areas throughout Michigan.

MPSC
Cities successfully challenge DTE Energy over LED streetlight costs (Michigan Radio)
A group of cities has successfully challenged DTE Energy's plan to charge it more for LED streetlights. A coalition of cities took its case against DTE's proposed rate change to the Michigan Public Service Commission.

MSHDA
Congress set to give Detroit demolitions a huge boost (Detroit Free Press)
A massive federal spending bill expected to be passed this week includes a provision allowing the U.S. Treasury to transfer billions of dollars into a fund which has already sent or promised $130 million to Detroit to tear down thousands of blighted buildings and is expected to provide at least tens of millions more.

MCSC
New contracts approved: State employees to get 1% raise, 1.5% lump sum payment (MLive)
State employees will get a 1 percent raise and a 1.5 percent lump sum payment under new contracts approved by the Michigan Civil Service Commission on Wednesday. The 1 percent raise goes into effect with the state's next fiscal year starting Oct. 1, 2016.

Michigan Civil Service Commission Approves Contracts With Five Unions (9&10 News)
The union contracts of more than 33,000 state workers have been approved by the state Civil Service Commission. The contracts include a 1 percent pay increase, a 1.5 percent lump-sum payment this fall and flat health care costs and benefits.

MVAA
New Chief at Grand Rapids Vets Home Appointed (WHTC)
The Grand Rapids Home for Veterans has a new Chief Operating Officer. Starting next Monday, Scott Blakeney takes over the helm of that facility's operations, working closely with state Veteran Health System CEO Leslie Shanlian and Jacobetti Home for Veterans COO Brad Slagle "to ensure both state veterans' homes continue to offer modern, quality care for residents," says state Veterans Affairs Agency Director Jeff Barnes.

DEQ
Michigan In State Of Emergency After Contaminated Water Causes High Levels Of Lead In Kids (Medical Daily)
The city of Flint, Mich., made the decision to break away from Detroit's water system last year, and the city's residents have been struggling to find clean drinking water ever since. Mayor Karen Weaver declared a State of Emergency on Monday over the dangerously high levels of lead in the city's drinking water supply.

Flint's Water Crisis Just Became A Double Emergency (Huffington Post)
JeCorey Hawkins had a scary moment with the water in Flint, Michigan, in September. The 22-year-old psychology student had stopped at a drinking fountain at his university when the water took on a grainy texture in his mouth. "I was very creeped out because I didn't know if I would be sick," Hawkins told The Huffington Post on Tuesday.

Great Lakes program would get $300M under compromise (Detroit Free Press)
A wide-ranging Great Lakes cleanup program would escape President Barack Obama's proposal to cut its funding under a compromise federal spending plan, members of Congress said Wednesday. Obama established the Great Lakes Restoration Initiative in 2009 to make progress on some of the freshwater seas' biggest environmental problems, including invasive species, industrial pollution, loss of wildlife habitat and nutrient runoff that causes harmful algae blooms.

DHHS

Chicken Pox Vaccine Debate: Amid Michigan Outbreaks, State Officials Beg Parents To Keep Children Healthy (International Business Times)

Amid a national debate on vaccines for children, Michigan health officials implored parents this week to keep children's vaccinations up to date following recent chickenpox outbreaks. The Michigan Department of Health and Human Services said Tuesday that outbreaks have been reported in multiple counties involving mainly unvaccinated children in school settings.

LEGISLATIVE

Michigan Senate GOP plans to pass straight-ticket voting ban, ditch absentee voting bill (Mlive)

Michigan will ban straight-ticket voting without expanding absentee ballot options -- if Senate Republicans have their way. Majority Leader Arlan Meekhof, R-West Olive, said the upper chamber will move Wednesday to separate elections bills linked and approved last week by the House.

LMC gets big boost (The Herald Palladium)

The Michigan Senate on Tuesday passed legislation proposed by Rep. Al Pscholka that will bring a $17 million dollar renovation project to Lake Michigan College in Benton Township. Since 2006, Lake Michigan College has pushed for the funding to restore and upgrade the 307,997-square-foot Napier Avenue Campus Academic Facility, a 45-year-old building.

Legislature approves tax breaks for data center campus (Grand Rapids Business Journal)

Both the Michigan House and Senate had a late Tuesday night as they approved tax-exemption bills that were deemed necessary to bring a major data center campus to the Grand Rapids area. The two bills, exempting data centers from use and sales tax, are on their way to Gov. Rick Snyder to be signed. The House approved the amended bills, 61-45, and then the Senate approved those versions, 26-12, after initially passing them last week.

Senate passes bill allowing termination of rapist's parental rights (Michigan Radio)

A new law would protect rape victims from a custody battle with their rapists when a child is conceived. The Michigan Senate unanimously passed legislation this week that would allow courts to terminate a rapist's parental rights to a child conceived by the rape of the mother.

Michigan Senate votes to end straight-ticket voting option (AP)

The Republican-led Senate late Wednesday voted to eliminate the straight-party voting option from Michigan ballots after uncoupling the legislation from a House measure that would let voters cast an absentee ballot without having to meet specific criteria. The straight-ticket bill was sent back across the Capitol on a 24-13 vote, more than a month after the Senate passed an earlier version. The House, also controlled by Republicans, may vote later Wednesday to send the legislation to Gov. Rick Snyder.

Michigan Senate bills pit cherries against blueberries (WZZM 13)

It's a debate that's pitted cherry growers against Blueberry farmers. And now it's playing out in the state Senate. Ann Arbor Democrat Rebekah Warren introduced a bill Wednesday designating the cherry as Michigan's official fruit. But what about the blueberry? Michigan is, after all, the nation's top producer of highbush blueberries, harvesting more than 100 million pounds of blueberries a year.

DETROIT

Detroit honored in UNESCO's Creative Cities Network (Detroit Free Press)

In recognition of its innovative work in design, Detroit has been named a part of UNESCO's Creative Cities Network, along with dozens of new member cities from 33 countries. The international agency announced that Detroit and the other cities were "committed to investing in creativity as a driver for sustainable urban development, social inclusion

and cultural vibrancy." The network is immensely geographically diverse, and includes cities like Austin, Barcelona, Rome, Singapore and Kinshasa in the Democratic Republic of the Congo.

OPINION

For Detroit students, don't go back to status quo (Detroit Free Press)
When it comes to reforming education for students stuck in under-performing and failing schools, it's far past time to set aside our ideological differences and put our collective focus on the kids in the classroom.

When did state know kids in Flint were lead poisoned? (Detroit Free Press)
When did the State of Michigan first learn that kids in Flint had been poisoned by lead in the city's drinking water?

Reading bill focuses on advancing students to proficiency (MLive)
House Bill 4822, which I sponsored and which passed the House in October, was the subject of a recent op-ed. The writer, psychologist Michael Ryan, is a longtime advocate for children and I commend him for his passion and contributions to improving literacy. However, a number of mischaracterizations and omissions warrant a response.

Young voters—where are they now? Not very close to the polling place (MLive)
Seniors vote. Young adults not so much.

Senate absentee-voting bill takes away more than it gives (MLive)
While much of the rest of the country has brought voting into the 21st century, Michigan has kept its badly outdated election laws. It is one of a minority of states that offers a limited number of options for hard-working Americans to register to vote and cast a ballot before Election Day. A Michigan voter cannot vote before Election Day without a valid excuse, must register nearly a month before the election without exception and cannot register online as voters in more than half the country now can.

Without guidelines for Michigan teacher evaluations, everyone is awesome (MLive)
Just 19 of the nearly 96,000 teachers statewide have met the official threshold for being terminated due to poor evaluations since the passage of teacher tenure reforms four years ago, state data show.

Durant: Give Michigan schools more freedom to innovate (Detroit News)
We have a public school crisis in Detroit and in Michigan. It is about outcomes, money and the need for new schools.

Editorial: Deal to cap GM should be public (Detroit News)
General Motors Co. will invest $1 billion in Michigan by 2030, part of a new deal the company reached with the state to reconfigure and cap the automakers' tax credits under a program that gives companies credits for keeping jobs and other investments in the state.

Letter: Time, dollars needed for juvenile justice (Detroit News)
Re: The Detroit News' Dec. 7 editorial, "Raise juvenile age in Michigan": I agree that Michigan's juvenile justice system is in disrepair. But the solution the News is pushing, and which is under consideration in Lansing, misses the mark.

When it comes to talent, Michigan needs more of everything (Bridge)
When it comes to building a brighter future for Michigan, no factor is more important than providing our state's residents the education and training they need to be successful. Children and adults become poised for success when they have the knowledge and skills they need to grow, thrive and contribute to Michigan's overall prosperity.

MEDIA MONITORING REPORT

12/16/2015

Issues:

- No issues to report.

Summary:

- NBC News reports now, after tests have shown elevated lead levels in the blood of some local children, the mayor of Flint has declared a state of emergency to pave the way for possible government disaster aid.
- Four percent of the City of Flint's children have elevated levels of lead in their bloodstream — double the share affected a few years ago, according to tests from Flint's Hurley Medical Center and confirmed by the state.
- A top state official is telling 6 News, the state will test every school in the state to make sure there is no lead in the water.
- A push to declare a state of emergency in Flint is running into some pushback.
- Genesee County board Chairman Jamie Curtis said today, Dec. 15, that there's no need for the state of emergency that Weaver proposed Monday, Dec. 14.
- Genesee County board Chairman Jamie Curtis said Tuesday, Dec. 15, that he will do what he can to support the request even though he hasn't been involved in planning discussions so far.
- Flint Mayor Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners Jan. 4.
- Flint Mayor Karen Weaver's push for a federal disaster declaration for the city got a national audience Tuesday, Dec. 16, during her appearance on MSNBC's Rachel Maddow show.
- Midland County officials have confirmed that Jenifier Boyer, Genesee County's former emergency manager who filed a sex discrimination complaint against Genesee County Sheriff Robert Pickell, has accepted a position as emergency manger starting Dec. 17.
- Officials closed all Los Angeles Unified School District campuses Tuesday morning after receiving a "credible threat" of violence involving backpacks and packages left at campuses.
- Kids large and small who get a drone underneath the Christmas tree will have to register the gift with the Federal Aviation Administration.
- On Monday, six republican members of Michigan's congressional delegation wrote President Barack Obama asking him to reconsider a decision made earlier this year to have law enforcement agencies return surplus military equipment out of concern it could undermine confidence in police.

- Earlier this evening Tuesday, the Greater Lansing Network Against War and Injustice, along with other local groups in mid-Michigan, took part in a peace vigil to show support of the idea.
- Mich. State Rep. Jason Sheppard wrote an opinion article in the Detroit News supporting Michigan Governor Rick Snyder and the other 29 U.S. governors who asked the federal government to pause the flow of Syrian refugees into their states.
- National Weather Service forecast updates.
- TV clips: Lead-poisoned children; Crisis call; Water problems hit emergency level in Flint, Mich.

Analysis:

- Media coverage is neutral and negative.
- Coverage continues in local and national media outlets on the Flint Mayor Karen Weaver declaring a local state of emergency.
- Michigan capitol correspondent Tim Skubick reports that a top state official is saying every school in the state will be tested to ensure there is no lead in the water.
- MLive reported that Genesee County board chairman Jamie Curtis said on Dec. 15 that there was no need for the state of emergency Flint Mayor Karen Weaver proposed. Later that day, he reversed his statement and said that Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners on Jan. 4.
- A Washington Post story published yesterday about the Flint Mayor's emergency declaration has gone viral, trending on Twitter, Facebook and Reddit. At one point, it was one of the top five articles viewed on the news outlet's website.
- Will continue to monitor situation.

FLINT WATER

Flint, Michigan, declares state of emergency amid lead in drinking water scare

NBC News, December 15, 2015

In trying to solve one water crisis, the city of Flint, Michigan, has inadvertently created a newer, even bigger one — and it's coming at the cost of children's health.

Now, after tests have shown elevated lead levels in the blood of some local children, the mayor of Flint has declared a state of emergency to pave the way for possible government disaster aid.

Michigan mom feels "helpless" amid tainted water crisis

CBS News, December 16, 2015

Flint, Michigan, is in a state of emergency, now months after high levels of lead turned up in its tap water. This week, more than 7,000 gallons of bottled water from FEMA arrived in the city.

When officials tapped into the Flint River for the city's drinking water, the strong chemicals used to clean the water caused lead from the pipes to leak into the supply, reports CBS News correspondent Adriana Diaz. By the time Flint went back to its original water source, families said the damage was already done.

"When I hear my son get up at night and cry because his bones hurt and there's nothing I can give him, there's nothing I can do for him to take away his pain,I feel completely helpless," Melisa Mays said.

Flint's state of emergency is a sign that democracy is working there again

The Guardian, December 16, 2015

It might seem counterintuitive that Flint, Michigan's declaration that there are dangerously high levels of lead in the city's drinking water – and in the blood of the city's children – is a positive thing. The contamination of the city's drinking water is, after all, is a gut-wrenching tragedy.

But the declaration about the undrinkable water, made by newly elected mayor Karen Weaver on Monday, is positive in this regard: it is evidence that a semblance of democracy has returned to Flint.

Flint, Michigan, tried to save money on water. Now its children have lead poisoning

VOX, December 15, 2015

The water in Flint, Michigan, poisoned the town's children with lead for months. Now the mayor of Flint has declared a state of emergency, saying that the elevated lead levels will have long-lasting effects in its children.

Four percent of the town's children have elevated levels of lead in their bloodstream — double the share affected a few years ago, according to tests from Flint's Hurley Medical Center and confirmed by the state.

Skubick: state to test every school for lead in water

WLNS, December 16, 2015

LANSING, Mich (WLNS) – A top state official is telling 6 News, the state will test every school in the state to make sure there is no lead in the water.

This comes in the aftermath of lead contamination problems in Flint.

When your children go to school, are they drinking lead contaminated water?

The students in Flint and their parents were exposed and because of that the environmental quality director for the state wants to test all of the schools across the state.

Michigan: Flint appeals for help

New York Times, December 16, 2015

The mayor of Flint has declared a state of emergency because of problems with the city's water system caused by using water from the Flint River, saying the city needs more federal help. Mayor Karen Weaver,

who announced the declaration Monday night, said the city would need to spend more on special education and mental health services because damage to children caused by lead exposure is irreversible.

Flint mayor asks county for support of emergency declaration

Michigan Radio, December 16, 2015

A push to declare a state of emergency in Flint is running into some pushback.

Mayor Karen Weaver called for the declaration this week. She says the city needs state and federal help to repair its problem-plagued water system.

Flint's water system is antiquated. In 2014, partly to save money, the city switched from Detroit water to the Flint River for its drinking water.

How people in Flint were stripped of a basic human need: safe drinking water

Michigan Radio, December 15, 2015

The tap water in Lee Ann Walters' home in Flint was causing her family's health problems. Tests show her water had extremely high lead levels. Her son Gavin was diagnosed with lead poisoning.

"How does this happen in the United States?" she asks. "I mean, you hear about it in third world countries, but how does this happen, specifically in a state that is surrounded by the Great Lakes?"

It's a good question. How did this happen?

Genesee County board chair says no need to declare disaster in Flint

MLive, December 15, 2015

GENESEE COUNTY, MI – Flint Mayor Karen Weaver's request for federal disaster aidmight not make it past the Genesee County line.

County board Chairman Jamie Curtis said today, Dec. 15, that there's no need for the state of emergency that Weaver proposed Monday, Dec. 14.

"It's not going to change anything ...Nothing more can be done," said Curtis, who said he has no plan to call a special meeting to consider a vote of support for the declaration.

Genesee County commissioners will consider Flint disaster-area request

MLive, December 15, 2015

FLINT, MI – Mayor Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners Jan. 4.

County board Chairman Jamie Curtis said Tuesday, Dec. 15, that he will do what he can to support the request even though he hasn't been involved in planning discussions so far.

State of emergency declaration will get hearing by county

WNEM, December 15, 2015

GENESEE COUNTY, MI (WNEM) - Flint's emergency disaster declaration will get a hearing from the Genesee County Board of Commissioners.

Chairman Jamie Curtis confirmed it on Tuesday evening.

Mayor Karen Weaver issued the declaration to try to get more money to fix the city's ongoing water problems.

It needs county approval for it to advance to the state and federal levels.

Flint mayor talks water emergency with Rachel Maddow on MSNBC appearance

MLive, December 16, 2015

FLINT, MI – Mayor Karen Weaver's push for a federal disaster declaration for the city got a national audience Tuesday, Dec. 16, during her appearance on MSNBC's Rachel Maddow show.

Weaver declared a state of emergency because of Flint's water crisis Monday, Dec. 14, starting a process aimed at having the city declared a disaster area to qualify for state and federal funds.

"We felt it was the only step we could take," Weaver said in a live interview on the cable news network. "We need state and federal funds to help us fix this.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Midland County confirms hiring of ex-Genesee homeland security chief

MLive, December 15, 2015

GENESEE COUNTY, MI – Midland County officials have confirmed that Jenifier Boyer, Genesee County's former homeland security manager who filed a sex discrimination complain against Genesee County Sheriff Robert Pickell, has accepted a position as emergency manger starting Dec. 17.

Roger Garner, Midland County emergency manager, said the job was posted in September months after he announced that he would be leaving at the end of the year.

All Los Angeles schools closed by 'credible threat' of violence

Emergency Management, December 15, 2015

(TNS) - Officials closed all Los Angeles Unified School District campuses Tuesday morning after receiving a "credible threat" of violence involving backpacks and packages left at campuses.

Authorities said they planned a search operation of all of the LAUSD's more than 900 schools. The nation's second-largest school district has more than 700,000 students.

"I think it's important to take this precaution based on what has happened recently and what has happened in the past," LAUSD Superintendent Ramon Cortines said.

FAA drone registration program takes flight on Dec. 21

Emergency Management, December 15, 2015

(TNS) - Kids large and small who get a drone underneath the Christmas tree will have to register the gift with the Federal Aviation Administration.

The FAA unveiled its much-anticipated drone registration program Monday — just in time for the holiday rush — saying that anyone who buys an unmanned aerial vehicle will be required to register them starting Dec. 21. The registration will come with a $5 fee, however the agency is waiving it during the first 30 days to encourage compliance.

The registration requirement will cover everything but the smallest aircraft. Anything weighing more than half a pound, but under 55 pounds, must be registered and identified so the agency can track down a pilot who does something wrong — like flying it in restricted airspace or crashing it.

MICHIGAN POLITICS

Members of congress want police to keep military surplus

Lansing State Journal, December 15, 2015

WASHINGTON – Fewer officers would have been exposed to potential gunfire in a manhunt last month near Cavanaugh School by using a tracked armored vehicle given to Lansing police in 2005 by the federal government, Lansing police Chief Mike Yankowski said.

But the armed vehicle was decommissioned under a federal requirement a month before the Nov. 5 search, which followed a break-in and shootout between a resident of a home in the neighborhood and a group of teens.

SYRIAN REFUGEES

Groups show support for immigrants and refugees at peace vigil

WLNS, December 15, 2015

UPDATE (11:46 p.m.) – One of the biggest topics of tonight's debates is what should be done about allowing refugees into the United States.

Earlier this evening, the Greater Lansing Network Against War and Injustice, along with other local groups in mid-Michigan, took part in a peace vigil to show support of the idea.

Both East Lansing and Lansing have declared themselves welcoming cities for refugees.

Sheppard: Governors wise to pause refugees' entry

The Detroit News, December 15, 2015

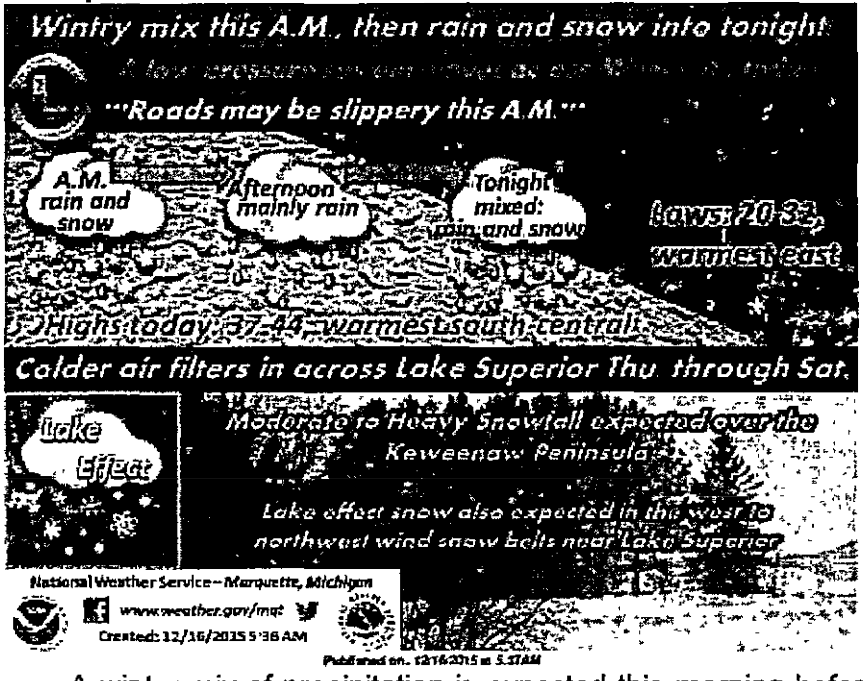
Last month, the world watched horror unfold on the streets of Paris and learned what can happen when terrorists are able to plan and act for months without detection. In fact, since then we have learned that the attack's mastermind was able to repeatedly move across Europe and back and forth from the Middle East, slipping though security systems despite being listed as a known threat.

The lesson is simple — even the most sophisticated systems can fail to detect people bent on destruction, so we must also work hard to prevent problems to begin with.

As part of that prevention effort, 30 U.S. governors, including Michigan Gov. Rick Snyder and Ohio Gov. John Kasich, asked the federal government to pause the flow of Syrian refugees into their states. This was the right call.

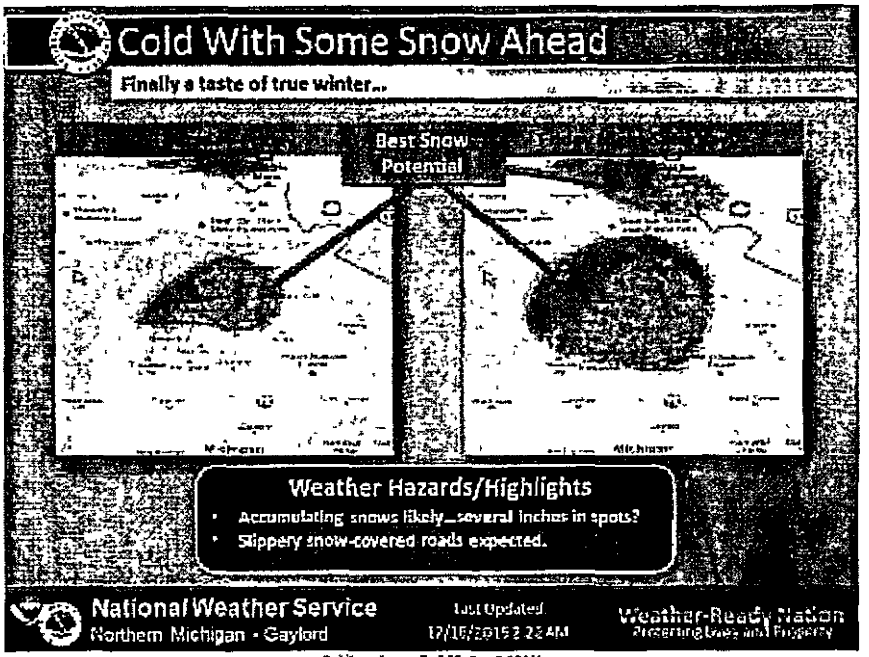
NATIONAL WEATHER SERVICE FORECASTS

Marquette



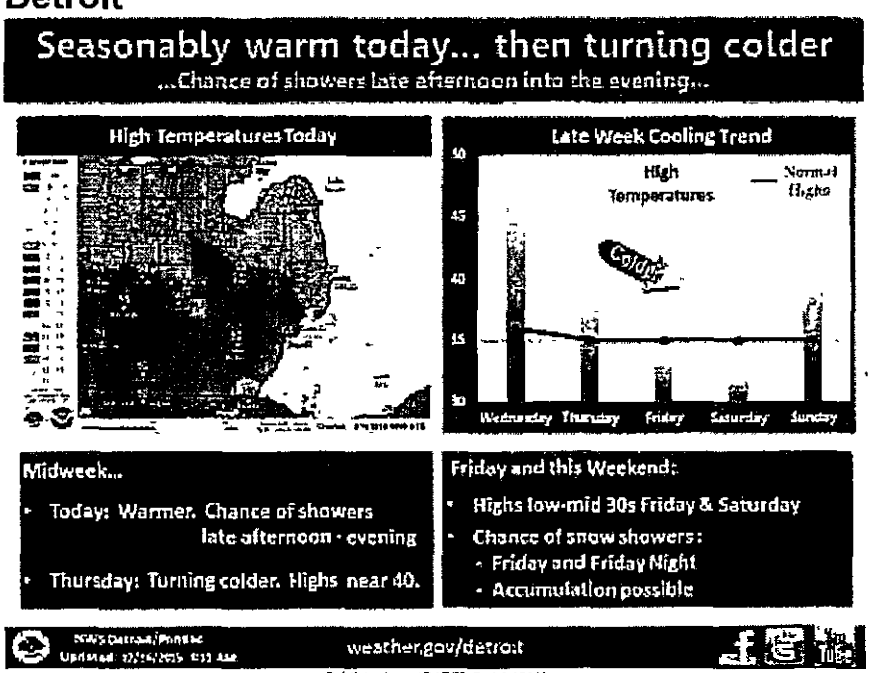
A wintry mix of precipitation is expected this morning before transitioning to rain this afternoon. Then, as colder air moves into the area tonight and Thursday, lake effect snow will develop in the westerly wind snow belts near Lake Superior. The heaviest snow is expected to fall over the Keweenaw Peninsula Thursday night into Friday evening.

Gaylord



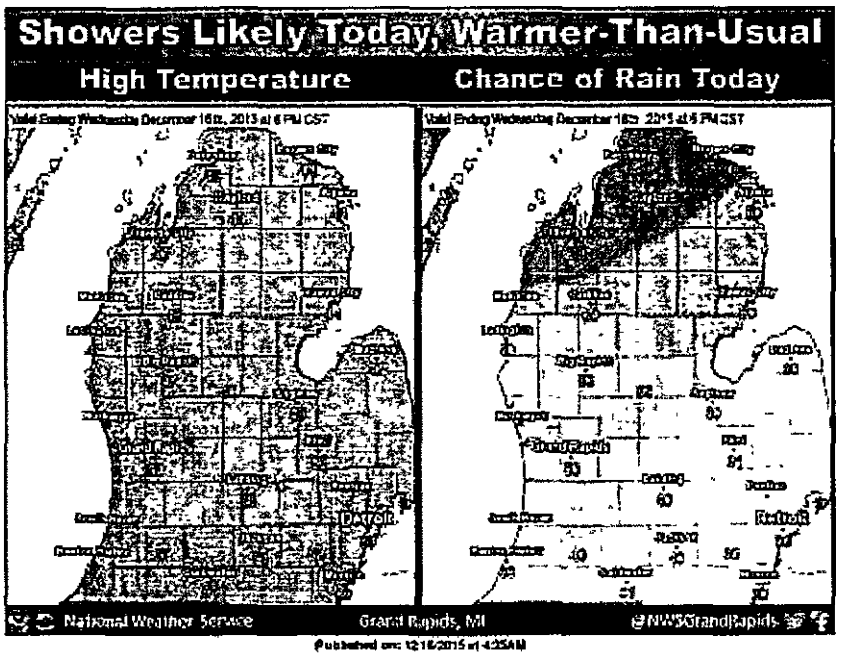
Accumulating lake effect snow Thursday night through Saturday. Best snows expected Friday through Friday night and in far northwest and far northern lower Michigan and Chippewa county of eastern upper.

Detroit



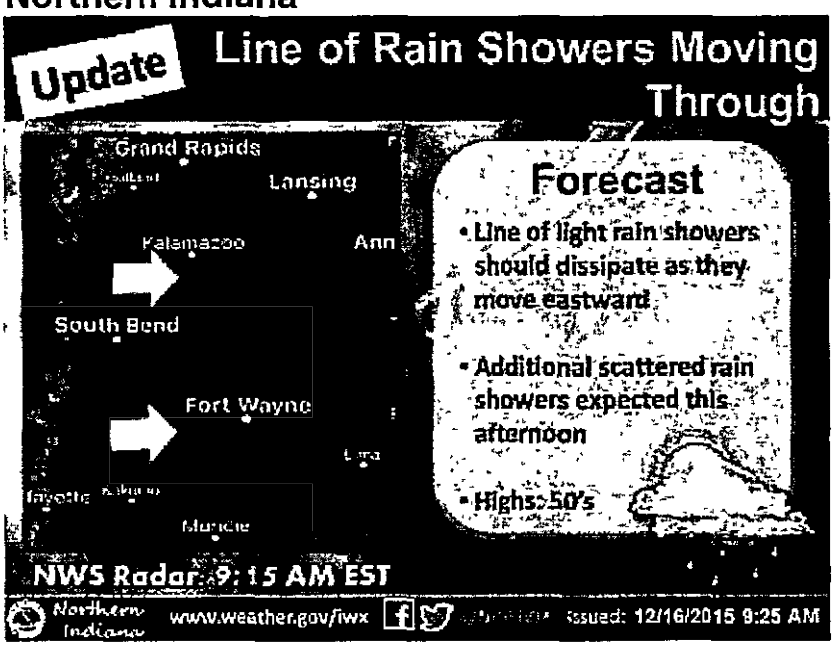
Another day of above normal temperatures, although again under an overcast sky. Highs today around 50 degrees. A cold front will bring the chance for a few showers from late afternoon into the evening period. This will begin a several day cooling trend, with temperatures Friday and Saturday near freezing. Chance of snow showers Friday and Friday, some minor accumulation possible.

Grand Rapids



Expect showers today, mostly this afternoon. It will be breezy and mild with highs from the mid 40s to near 50.

Northern Indiana



A line of light rain showers should dissipate as they move eastward this morning. Otherwise, expect increasing clouds. Scattered rain showers are also possible this afternoon. Highs will be in the 50s.

Data Centers Get Tax Breaks After All-Nighter From Michigan Lawmakers (WEMU)
The legislation flew through the state House and Senate during a late-night session on Tuesday. The goal is to lure a massive data farm to the Grand Rapids area. "This opportunity is huge for the state of Michigan," said state Sen. Dave Hildenbrand (R-Lowell).

Legislature backs tax breaks for $5B data center (The Detroit News)
The Legislature worked late Tuesday to approve sales and use tax exemptions that supporters say are designed to attract a $5-billion data server center to Grand Rapids and make Michigan a bigger player in a new technology industry.

Planned Parenthood contract approved over objections (Detroit Free Press)
Despite strong opposition push back from a group of 29 Republican members of the House of Representatives, the state Administrative Board approved a $1.2-million addition to a federal contract with Planned Parenthood of Mid and South Michigan to provide health services for women.

Michigan House, Senate vote for tax breaks to land Switch data center (Mlive)
Tax break bills that should help West Michigan land a $5 billion data center development project are headed to the desk of Gov. Rick Snyder. The state House broke a stalemate late Tuesday, modifying and approving bills to exempt data centers from sales and use taxes through 2035 if the industry meets collective job creation goals. The Senate signed off on the changes at roughly 11:30 p.m.

Legislation to fix Detroit schools stalled until 2016 (Freep)
A desire by Gov. Rick Snyder and the city of Detroit to quickly fix the monumental financial problems facing the Detroit Public Schools continues to run into the political reality of what a difficult task that will be in the halls of the state Capitol.

DETROIT

Detroit: We won't move forward unless we learn to listen (WDET)
One year after bankruptcy, Detroit is at another crossroads. The city's finances look better (for now), but as the tensions that surfaced on Wednesday reveal, there isn't consensus on whether we are truly better off as a community.

Leaders say EAA will persevere despite uncertainty (The Detroit News)

The Education Achievement Authority will continue its work in spite of the possibility that the turnaround school district could be disbanded as part of efforts to overhaul education in Detroit, officials said Tuesday during a board of directors meeting.

Detroit unlikely to forgive water debts of poor (The Detroit News)
An emerging plan to address massive water shut-offs in Detroit likely will stress conservation, convenience and some form of assistance — but not debt forgiveness. A so-called blue ribbon committee studying water affordability in Detroit met for the final time Tuesday before finalizing a report due in January to the City Council.

Shina brothers to unveil $6.2 million expansion, rebranding of Detroit markets (Crain's Detroit Business)
Banner Super Store will unveil its $6.2 million expansion project and rebrand as Imperial Fresh Market during a grand reopening Wednesday morning. The 14424 Schaefer Highway location in northwest Detroit location is the first of four stores in Detroit owned by the five Shina brothers: Basim, Mazim, Maher, Mike and Sam.

OPINION

Editorial: Largest solar array in Mich. (LSJ)

Tuesday reader's view: A power play (Midland Daily News)
A disgrace. Among the many attempts to limit government to the "correct" people, Sen. Jim Stamas and Rep. Gary Glenn have led us to new depths. The bill removing "straight-ticket" voting is falsely portrayed as encouraging voters to learn about candidates, to have more credible representation.

No-reason absentee voting bill is simple, secure and right on time (MLive)
Hardworking Michigan families' busy lives shouldn't prevent them from voting. That's why I support a proposal that would allow them to cast a secure absentee ballot.

Retiring Straits pipeline is not enough (The Times Herald)
An environmental activist group has found the obvious answer to Enbridge's aging and controversial Line 5 carrying crude oil beneath the Straits of Mackinac. The risk it poses to the Great Lakes is unnecessary, the group For Love of Water suggests, because the pipeline itself is not necessary. The group says that other Enbridge pipelines could carry the oil that flows through Line 5 without passing old pipes or risky waterways because they all end in the same place: Crossing the St. Clair River at Marysville.

Bieber: Lawmakers should make voting easier, not harder (Detroit News)
The 2016 election may seem like a long way off, but Republicans in Lansing are already making it harder to vote, so they can tip the scales in their favor next November.

Subject: Flint Water Inquiry

Hi Ron,

Sorry I missed your call. Your voicemail somehow made its way to our secretary's mailbox. Sadly, she had a death in her family and your message sat in her voicemail inbox yesterday afternoon.

A Michigan State Police, Emergency Management and Homeland Security staff member was notified about a FEMA reserve of water that was about to expire. FEMA often provides nonprofit agencies this type of water. The nonprofit only is only liable for the shipping costs.

Spl/Lt. B.J. Roach is our third district emergency management coordinator, which covers Genesee County. She put the United Way and the Food Bank of Eastern Michigan in touch with FEMA. From my understanding, the United Way paid for the shipment of the water for the Food Bank of Eastern Michigan. Those two nonprofits are in a better position to say who paid for what.

Spl/Lieutenant Roach has been working with Genesee County Emergency Management officials about the situation in Flint. In fact, she's been working with local officials since this became an emerging issue.

On another note...

Since your inquiry, Flint Mayor Karen Weaver has declared a "local state of emergency" due to the water issues. When a mayor or chief executive official makes a local emergency declaration, he or she is activating their community's emergency operations plans and administering local aid and assistance, as well as issuing directives.

A "local state of emergency" from a municipality or county doesn't mean state or federal assistance is coming. It's like a red flag, letting everyone know there's a problem.

The Flint Emergency Management program is incorporated into the Genesee County Emergency Management program. If additional assistance is requested, the city will have to make a request to the county. If county and city resources are overwhelmed, they would make a request for state assistance.

At this time, we have not received any requests for state assistance through the Michigan Emergency Management Act.

ATTACHED: Emergency or Disaster Declaration Process Fact Sheet

You'll have to inquire with Flint officials about what emergency response efforts are underway due to the emergency declaration (e.g., like staffing their emergency operations center, public information center, working with the county, activating emergency response plans, etc.). They would be in a better position to answer those questions.

Please let me know if you need anything else.

Thanks,

Ron

MEDIA MONITORING REPORT

12/15/2015

Issues:

- No issues to report.

Summary:

- Mayor Karen Weaver has declared a state of emergency in Flint, saying the city needs federal help to deal with its lead in water crisis.
- FEMA has dispatched 28,000 liters of bottled water to Flint, Mich., where residents have been struggling with a lead-contaminated water supply for months.
- Michigan Radio reported a story on the mom who uncovered the discovery of lead in Flint's water.
- In the Flint disaster declaration, Mayor Karen Weaver is asking the Genesee County Board of Commissioners to call a special meeting no later than the end of December to take action supporting the state of emergency.
- About a month after former Genesee County homeland security manager, Jenifier Boyer, filed a sex discrimination complaint against Genesee County Sheriff Robert Pickell, a Midland County news source says she has accepted a new job.
- Monday marked three years since a deadly mass shooting claimed the lives of 20 children and six educators at Sandy Hook Elementary School.
- Gov. Rick Snyder on Monday rejected the proposal by Republican presidential frontrunner Donald Trump to temporarily prohibit anyone of the Muslim faith from entering the country over national security concerns.
- Mayor Virg Bernero and several City Council members reinforced Monday their belief that the Capital City should welcome refugees and immigrants of all faiths, and they put it in writing.
- The federally-created Council of Governors, the group of 10 governors that give federal government the states' perspective on national security issues, is holding another meeting Dec. 15.
- Continuing to move up to 23 million gallons of crude oil per day through 62-year-old, underwater pipelines in the Straits of Mackinac is too risky and not necessary, an environmental group said Monday.
- National Weather Service forecast updates.
- TV clips: Flint Mayor Karen Weaver declares state of emergency for water crisis.

Analysis:

- Media coverage is negative.

- Flint Mayor Karen Weaver has declared a state of emergency in Flint over water crisis.
- Multiple media outlets have reported on the declaration.
- One article from MLive states that it was unable to get ahold of the Michigan State Police Emergency Management and Homeland Security Division representative for comment. The MSP/EMHSD PIO received no inquiries yesterday.
- Will continue to monitor the situation.

FLINT WATER

Mayor Karen Weaver declares water crisis state of emergency in Flint

MLive, December 14, 2015

FLINT, MI -- Mayor Karen Weaver has declared a state of emergency in Flint, saying the city needs federal help to deal with its lead in water crisis.

"I am requesting that all things be done necessary to address this state of emergency declaration, effective immediately," Weaver told the City Council today, Dec. 14.

In Flint, Mich., there's so much lead in children's blood that a state of emergency is declared

Washington Post, December 15, 2015

For months, worried parents in Flint, Mich., arrived at their pediatricians' offices in droves. Holding a toddler by the hand or an infant in their arms, they all have the same question: Are their children being poisoned?

To find out, all it takes is a prick of the finger, a small letting of blood. If tests come back positive, the potentially severe consequences are far more difficult to discern.

That's how lead works. It leaves its mark quietly, with a virtually invisible trail. But years later, when a child shows signs of a learning disability or behavioral issues, lead's prior presence in the bloodstream suddenly becomes inescapable.

FEMA sends 28,000 liters of bottled water to Flint, Mich.

TIME, December 14, 2015

FEMA has dispatched 28,000 liters of bottled water to Flint, Mich., where residents have been struggling with a lead-contaminated water supply for months.

FEMA maintains stockpiles of commodities that would be needed in the event of disaster, and distributes them to non-profits as they near their expiration date. On Tuesday, the agency sent two trucks' worth of bottled water to the Food Bank of Eastern Michigan, which covered the shipping costs and will distribute the water to other food pantries, soup kitchens and homeless shelters, the Flint Journal reports.

This mom helped uncover what was really going on with Flint's water

Michigan Radio, December 15, 2015

Up until October, the Walters family lived in a yellow two-story home on the south side of Flint. A couple of red maple trees shade the tiny front yard.

Walters heads to the back of the house, in a small room off of the kitchen, where the family keeps its stockpile of bottled water.

"This is our water stash. Once a week we go and we fill 40 gallons of water, so we have water to drink with, to cook with, and to bathe Gavin and Garrett in," says Lee Anne Walters.

Flint Mayor declares state of emergency over water problems

ABC News, December 15, 2015

Flint's mayor has declared a state of emergency due to problems with the city's water system caused by using water from the Flint River, saying the city needs more federal help.

Karen Weaver announced the declaration Monday night and said the move intends to help raise awareness of continuing problems. She said damage to children caused by lead exposure is irreversible and that the city will need to spend more on special education and mental health services as a result.

Mayor declares emergency in Flint; FEMA aids city residents in water crisis

WLNS, December 15, 2015

FLINT, MI. (AP/WLNS) – The water crisis has depleted the supply of bottled water in the city of Flint *and now the Federal Emergency Management Agency is making sure that vital resource remains available.*

FEMA trucks delivered about 7,400 gallons of bottled water to the food bank of Eastern Michigan Monday.

That water will be distributed to other sites around Flint.

Flint mayor declares state of emergency over water

Detroit News, December 15, 2015

Flint — Flint's mayor has declared a state of emergency due to problems with the city's water system caused by the earlier use of Flint River water.

Karen Weaver announced the declaration Monday night, saying Flint needs more federal help. Weaver says the move intends to help raise awareness of ongoing problems.

Federal agency sends 28,000 liters of water to Flint

Detroit News, December 15, 2015

Flint — The Federal Emergency Management Agency has sent thousands of bottles of water to Flint amid ongoing problems with the city's water supply.

About 28,000 liters of water was delivered Monday to the Food Bank of Eastern Michigan in Flint. The Food Bank will donate the water bottles to "partner agencies," including soup kitchens, homeless shelters and food pantries, and then they'll be distributed to residents.

The Flint Journal reports that Michigan State Police Lt. Billie Jo Roach is credited with identifying the availability of water from the federal agency, which maintains commodity stockpiles at warehouses across the country and makes them available.

FEMA sends 28,000 liters of bottled water to Flint amid lead troubles

MLive, December 14, 2015

FLINT, MI — The federal government is helping to replenish the bottled water supply in Flint.

Two trucks delivered about 28,000 liters of water from the Federal Emergency Management Agency to the Food Bank of Eastern Michigan on Monday, Dec. 14. The water will be donated to "partner agencies" in the city of Flint that will distribute the water to residents.

"I don't think any (previous water donations) have been quite this large," said Kelly Belcher, marketing manager for the Food Bank.

Cassie Ringsdorf, a FEMA spokeswoman, said the agency maintains commodity stockpiles at warehouses across the country and makes them available.

"These commodities are available for use, within hours, should an incident occur that requires support from FEMA," Ringsdorf said in an email to The Flint Journal.

"As a part of our normal commodities management process, FEMA periodically offers commodities nearing the end of their shelf-life to eligible non-profits for donation. These donations are not done, 'on-request,' but are a part of our normal strategy to maintain our stockpiles for use in emergencies," the statement said.

A news release from the Food Bank credited Michigan State Police Lt. Billie Jo Roach with having identified the availability of the water from FEMA.

Flint remains in a public health emergency, and officials have said residents should not drink unfiltered tap water because of rising lead levels while the city used the Flint River as its water source from April 2014 until October 2015.

Earlier this month, Virginia Tech professor Marc Edwards said even though the city no longer uses the river as a water source, water remains unsafe to drink unfiltered in some areas of the city.

Roach is the MSP Emergency Management and Homeland Security Division District 3 coordinator.

The Journal could not immediately reach a representative of the MSP Emergency Management and Homeland Security Division for further comment.

FEMA said the Food Bank claimed two truckloads of water and agreed to pay all transportation costs associated with the donation.

Belcher said the United Way of Genesee County paid that expense for the Food Bank.

The Food Bank's partner agencies that will receive the FEMA water include soup kitchens, homeless shelters and food pantries, the organization said in its news release.

Flint mayor declares state of emergency over water crisis

NBC 25 News, December 14, 2015

Flint Mayor Karen Weaver has declared a state of emergency in the city due to the water crisis.

In the declaration, Weaver is asking the Genesee County Board of Commissioners to call a special meeting no later than the end of December to take action supporting the state of emergency.

Dr. Weaver is also calling for continued help from the state and federal government.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Former Genesee County homeland security manager accepts job in Midland County

MLive, December 14, 2015

GENESEE COUNTY, MI - About a month after former Genesee County homeland security manager, Jenifier Boyer, filed a sex discrimination complaint against Genesee County Sheriff Robert Pickell, a Midland County news source says she has accepted a new job.

According to the Midland Daily News, Boyer accepted a Midland County emergency manager job. She starts Dec. 17.

Newton marks third anniversary of Sandy Hook shooting

NBC Connecticut, December 14, 2015

Monday marks three years since a deadly mass shooting claimed the lives of 20 children and six educators at Sandy Hook Elementary School.

For the first time, Newtown students are in school on the anniversary of the tragedy.

Gov. Dannel Malloy has ordered Connecticut and U.S. flags to be flown at half-staff Monday as the state honors the victims of the Dec. 14, 2012 massacre.

SYRIAN REFUGEES

Snyder rejects Trump's call for Muslim immigration ban

Detroit News, December 14, 2015

Gov. Rick Snyder on Monday rejected the proposal by Republican presidential frontrunner Donald Trump to temporarily prohibit anyone of the Muslim faith from entering the country over national security concerns.

"Donald Trump's comments about banning all Muslims is absolutely inappropriate, and it doesn't reflect the spirit of America, in my view," the Michigan Republican governor said in an interview with The Detroit News Editorial Board.

Snyder repudiated the bombastic billionaire businessman's proposal a few hours before the Trump campaign announced Monday that Trump will hold a rally Monday in Grand Rapids.

Lansing keeps doors open for refugees, immigrant

Lansing State Journal, December 14, 2015

LANSING - Mayor Virg Bernero and several City Council members reinforced Monday their belief that the Capital City should welcome refugees and immigrants of all faiths, and they put it in writing.

Bernero and council members Vincent Delgado, Carol Wood, Jody Washington and Tina Houghton signed a pledge to declare Lansing a "Welcoming City" for anyone eager to live here. All other council members signed the pledge Monday evening at the City Council meeting.

Will Gov. Rick Snyder hit the "un-pause" button on efforts to take in more Syrian refugees

Michigan Radio, December 14, 2015

The federally-created Council of Governors has a meeting scheduled for tomorrow. This is the group of 10 governors (always five Republicans and five Democrats) that gives the federal government the states' perspectives on national security issues.

This is also the group that Governor Snyder said he wanted to conduct a review of federal security policies after the self-proclaimed most pro-immigration governor called for a "pause" in resettling refugees from Syria and other Middle Eastern countries after last month's terrorist attacks in Paris, Beirut, and Egypt.

MICHIGAN PIPELINES

Report: Straits of Mackinac oil pipeline not necessary

Detroit Free Press, December 14, 2015

Continuing to move up to 23 million gallons of crude oil per day through 62-year-old, underwater pipelines in the Straits of Mackinac is too risky and not necessary, an environmental group said Monday.

For Love of Water, or FLOW, released a report on alternatives to Enbridge's Line 5, saying the existing oil pipeline network in the Midwest provides alternatives that pose far less risk to the Great Lakes.

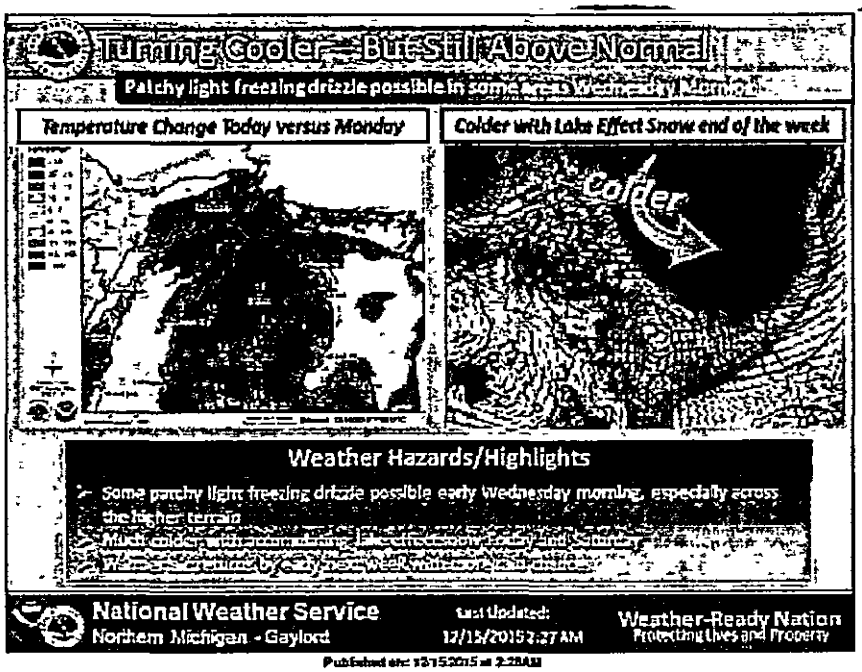
FLOW would like the Michigan Pipeline Safety Advisory Board to take a comprehensive, system-wide look at the oil pipeline network in the state and close down Line 5.

NATIONAL WEATHER SERVICE FORECASTS

Marquette

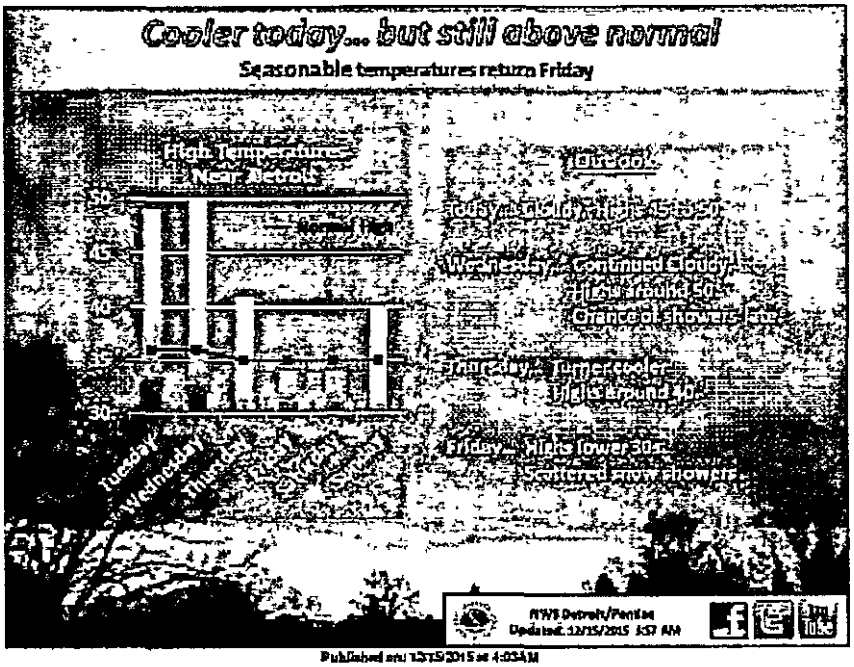
Light lake effect snow and any patchy freezing drizzle will end near Lake Superior by late this morning as high pressure builds in from the west. Another low pressure system lifting through the Central Plains will bring some patchy freezing drizzle or drizzle to mainly the west half of Upper Michigan late tonight and a mix of rain and snow to all of Upper Michigan Wednesday into Wednesday night. Colder air moving in behind this system on west to northwest winds will generate accumulating lake effect snow across portions of western Upper Michigan and areas east of Marquette Thursday into Saturday.

Gaylord



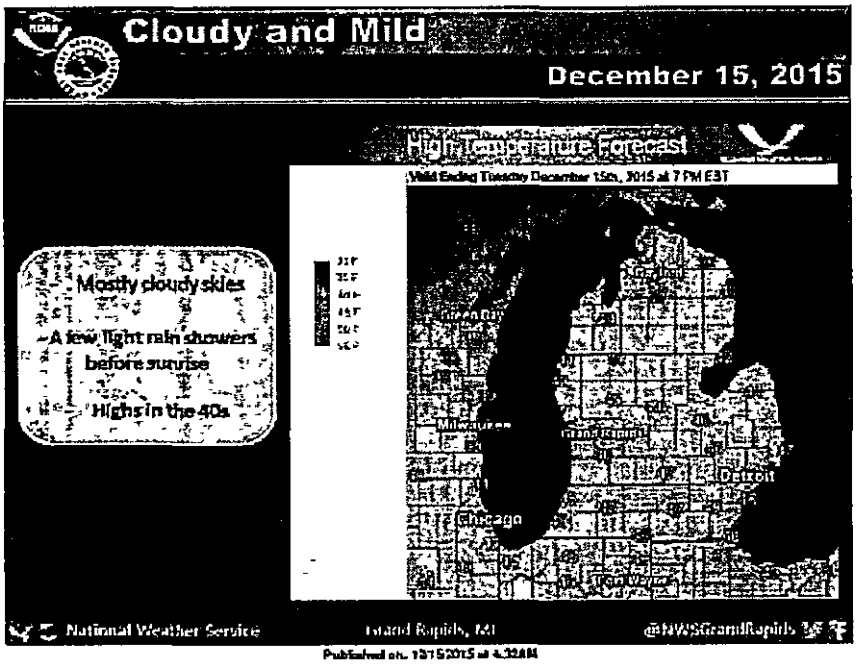
Temperatures will turn much cooler today, although still several degrees above normal. Some light patchy freezing drizzle is possible early Wednesday morning, especially across the higher terrain. Much colder air will briefly return to the area for the end of the week with accumulating lake effect snow likely.

Detroit



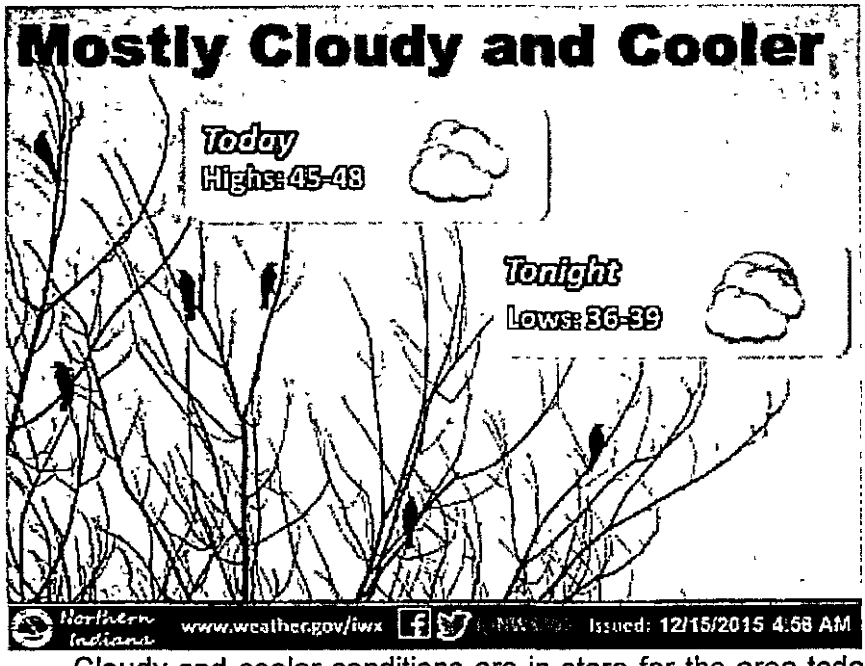
Extensive cloud cover will remain across the region through the midweek period. While cooler relative to recent days, high temperatures both today and Wednesday will remain above average. Readings from mid 40s to lower 50s. The next chance for showers comes late Wednesday into Wednesday night. A stronger cooling trend expected late this week.

Grand Rapids



Mainly cloudy skies today with mild temperatures. Highs in the 40s.

Northern Indiana



Cloudy and cooler conditions are in store for the area today. Some breaks in the clouds may develop this evening, but clouds will increase again late tonight into Wednesday. High temperatures today will be cooler, but still above normal for mid-December.

Office of Mayor Karen W. Weaver, Ph.D.
City of Flint, Michigan, County of Genesee

Declaration of State of Emergency

Authority Emergency Management Act: Michigan Emergency Management Act 390 of 1976

BY THE MAYOR:

Whereas; in accordance with the Michigan Emergency Management Act, I am declaring a State of Emergency for the incorporated boundaries of the City of Flint, Michigan; and

Whereas; the City of Flint has experienced a Manmade disaster by switching to the use of the Flint River before connecting to KWA; and

Whereas; the City of Flint children have experienced increased blood lead levels since the switch to the Flint River; and

Whereas; this damage to children is irreversible and can cause effects to a child's IQ, which will result in learning disabilities and the need for special education and mental health services and an increase in the juvenile justice system; and

Whereas; this will increase the need for foster and adoptive parents as a result of social services needed due to the detrimental effects of the high blood lead levels; and

Whereas; I am requesting that all things be done necessary to address this State of Emergency Declaration, effective immediately; and

Whereas; this action is being taken to protect the health, safety, and welfare of the citizens of Flint; and

Whereas; I request that the Genesee County Board of Commissioners call a Special Meeting no later than the end of December 2015 to take action supporting this State of Emergency; and

Now, Therefore, I, Mayor Karen W. Weaver declare a State of Emergency in the City of Flint, effective, December 14, 2015;

Karen W. Weaver

An interactive map for the proposed projects is available here, and the draft plan is available for review at www.michigan.gov/mdot5yearplan. "The Five-Year Transportation Program is a continuous, interactive dialogue with the users of the state transportation system, and anchors MDOT's project development," the agency says

Michigan DOT seeking 'Road Watchers' (AP)

The Michigan Department of Transportation is seeking "Road Watchers" to report on winter highway conditions in the northern Lower Peninsula.

For a third year, MDOT is recruiting people in the northernmost 21 counties in the state's Lower Peninsula to participate in periodic surveys on conditions during the morning commuting period on some key routes.

MPSC

Business group to sue over Consumers Energy rate increase (MLive)

Less than a month after the Michigan Public Service Commission approved a Consumers Energy rate increase of $130 million per year, a group of businesses is appealing the decision. The Association of Businesses Advocating Tariff Equity represents the energy interests of industrial users before the MPSC and legislature. They say the case sets the profit margin – or return on equity – at 10.3 percent, the highest approved across the nation this year. The national average is 9.55 percent.

Rate increase coming next month for Michigan Gas Utilities residential customers (WTVB)

Rates are going up beginning next month for residential customers of Michigan Gas Utilities. The Michigan Public Service Commission on Friday took action on filings in seven different cases including approving a settlement agreement authorizing Michigan Gas Utilities Corporation to increase its base rates by $3,400,000 annually.

MSP

Delta hosts 'Race to College' for elementary students (Midland Daily News)

Delta College trustees recently heard an overview of the "Race to College" event, an opportunity for elementary students to visit campus. Associate Professors Kim Klein (political science) and Tim Allen (mathematics), the lead

organizers of Delta's inaugural "Race to College," said the event attracted some 150 students to campus to learn about health and wellness, bike safety and college. The fifth grade students, from Bay City's Washington Elementary School and Jesse Loomis Elementary School in Saginaw, participated in a total of eight academic and physical activity stations, officials said.

Federal agency sends 28,000 liters of water to Flint (AP)
The Federal Emergency Management Agency has sent thousands of bottles of water to Flint amid ongoing problems with the city's water supply.
About 28,000 liters of water was delivered Monday to the Food Bank of Eastern Michigan in Flint. The Food Bank will donate the water bottles to "partner agencies," including soup kitchens, homeless shelters and food pantries, and then they'll be distributed to residents.

SOS
Election board rejects recall petition against Snyder (Detroit News)
State canvassers rejected recall petitions against Gov. Rick Snyder and Sen. Wayne Schmidt on Monday — Snyder because of Flint water problems and Schmidt for his Nov. 3 votes on a road funding package. By unanimous votes, the board of two Democrats and two Republicans found both proposed recall petitions don't state the recall reasons clearly and factually

LEGISLATIVE

In Courser-Gamrat matter, will we ever know who knew what and when? (MLive)
The Cindy Gamrat and Todd Courser saga is the story that keeps on giving. Fasten your safety belts for what could be a grueling, divisive and protracted confrontation involving two of their former employees and the joint they used to work in, the Michigan House of Representatives. Efforts to settle a wrongful dismissal claim before it got into the courts did not get that close, so now all sides may go at it before a senior U.S. District Court judge in West Michigan.

Michigan lawmakers preparing for final week in Lansing until after Christmas (WTHC)
Lawmakers in Lansing will be working this final week before the Christmas and New Year's holidays, looking to get some matters out of their proverbial in-boxes. MIRS News is reporting that majority GOP members in the state House brought up no-fault auto insurance reform in a closed-door caucus meeting last week, leading to speculation that it will be back on the front burner early next year. The Michigan Senate considers House-passed bills that would end straight-ticket partisan voting and allow no-reform absentee balloting in Michigan.

DETROIT

Detroiters struggle to survive without city water (Detroit News)
How do you survive without running water for more than two years? First, get a trash can. Put it under the roof to collect water to flush the toilet. Then, get a bucket and remember what your grandparents taught you in the early 1950s, before indoor plumbing reached all of rural America. "You use your brain. You scramble. You survive because you're used to dealing with nothing," said Fayette Coleman, 66, who grew up fetching water from wells in Belleville.

Pressure builds for a new school plan for Detroit kids (Freep)
State Sen. Bert Johnson said Monday that he would co-sponsor legislation to create a new school district for Detroit children and put an elected school board in charge of retiring the old district's debt.

OPINION

Editorial: Body camera footage is public (LSJ)
Body cameras are about accountability. They are good for citizens and they are good for police officers.

The forest-loving Farm Bill at 25 (Bridge)

Many people have seen a two-person crosscut saw in action. For those who haven't, it's the lumberjacks' long hand saw, with large teeth along its edge and hardwood handles at both ends.

New bills boost legislators' attack on democracy (Freep)
It's beginning to look a lot like open season on our democracy. The cacophony surrounding the 2016 presidential election is reaching terrifying new heights. The U.S. Supreme Court just heard arguments in a case that may upend the long-held constitutional promise of one person, one vote. And a flurry of disastrous changes to election laws are sailing through the Michigan Legislature that collectively make voting more chaotic and confusing for Michigan voters.

As Legislature considers medical marijuana proposals, facts must overcome fiction, myths (MLIve)
The Michigan Legislature is poised to provide much-needed clarity to our state's medical marijuana law. By approving a framework of strong regulations that hold people accountable, policymakers can end seven years of confusion that has harmed patients, local communities and responsible businesses eager to follow the rules.

Rick Haglund: Michigan business tax incentives here to stay — for now (MLive)
Eliminating tax incentives to attract businesses is like playing a game of Whack-A-Mole. Knock one down and another pops up. Gov. Rick Snyder sought to end such incentives when he and the Legislature killed the Michigan Economic Growth Authority, which offered lucrative business-tax credits, in 2011.

Susan J. Demas: Courser-Gamrat scandal now threatens to take down House GOP in 2016 (MLive)
I've been highly skeptical of Democrats winning back the state House next year.

Emergency Management/Preparedness Sector

FEMA Sends 28,000 Liters of Bottled Water to Flint amid Lead Troubles

(MLive)

Flint, Michigan: The federal government is helping to replenish the bottled water supply in Flint. Two trucks delivered about 28,000 liters of water from the Federal Emergency Management Agency to the Food Bank of Eastern Michigan today, Dec. 14. The water will then be donated to "partner agencies" in the city of Flint who will distribute the water to residents. Cassie Ringsdorf, a FEMA spokeswoman, said the agency maintains commodity stockpiles at warehouses around the country and makes them available. "These commodities are available for use, within hours, should an incident occur that requires support from FEMA," Ringsdorf said in an email to The Flint Journal-MLive. **A news release from the Food Bank credited Michigan State Police Lt. Billie Jo Roach with having identified the availability of the water from FEMA.** Flint remains in a public health emergency and officials have said residents should not drink unfiltered tap water because of rising lead levels while the city used the Flint River as its water source from April 2014 until October 2015. The Journal could not immediately reach a representative of the MSP Emergency Management and Homeland Security Division for further comment. FEMA said the Food Bank claimed two truckloads of water and agreed to pay all transportation costs associated with the donation.

MEDIA MONITORING REPORT

12/14/2015

Issues:

- No issues to report.

Summary:

- The U.S. Environmental Protection Agency won't act immediately on a petition that seeks to involve it more deeply in Flint's water crisis.
- Gov. Rick Snyder wrote an editorial for Detroit Free Press on how he does not agree with presidential candidate Donald Trump's viewpoint on Syrian refugees.
- Michigan Gov. Rick Snyder further distanced himself from Republican presidential frontrunner Donald Trump in a guest editorial published in Sunday's Detroit Free Press that answered an earlier editorial linking the governor's request for a review of immigration policies to Trump's controversial statements on Muslim refugees.
- City officials in Lansing say they want to make the city a more welcoming place for refugees and immigrants of all faiths.
- As Roger Garner retires as Midland County emergency manager, Genesee County Emergency Management Manager Jenifier Boyer will be his successor.
- Emergency Management Magazine posts an article on the possible third shooting suspect in the San Bernardino shooting.
- Federal officials say they believe electrical repairs accidentally caused a Shiawassee County oil spill that could cost as much as $250,000 to clean up.
- In the last two weeks, more than 7,000 additional Detroit residents have signed up to receive free emergency alerts from the City of Detroit through the Nixle emergency alert notification system.
- The latest findings from San Bernardino and the Paris attacks could impact future security procedures in West Michigan.
- More than 500 gallons of used motor oil spilled into a county drain in Shiawassee County, according to the U.S. Environmental Protection Agency's on-scene coordinator Tricia Edwards.
- The board of directors for the Kalamazoo County Consolidated Dispatch Authority announced Friday that Jeff Troyer has been hired as the body's executive director, according to a news release issued by County Sheriff Richard Fuller.
- A fourth Michigan deer has tested positive for chronic wasting disease, a deadly neurological disease found in the state's free-ranging deer population for the first time this year.
- National Weather Service forecast updates.

- TV clips: Shiawassee oil spill.

Analysis:

- Media coverage is neutral.
- Gov. Rick Snyder wrote an editorial in the Detroit Free Press on how he does not agree with Donald Trump's viewpoints on Syrian refugees.
- Federal officials say the Shiawassee county oil spill was caused accidentally from electrical repairs. Costs could be as much as $250,000 to clean up.

FLINT

EPA says it won't take quick action on petition targeting Flint water safety

MLive, December 11, 2015

FLINT, MI – The U.S. Environmental Protection Agency won't act immediately on a petition that seeks to involve it more deeply in Flint's water crisis.

EPA Regional Administrator Susan Hedman told the Natural Resources Defense Council in a Dec. 10 letter that regulators will wait to act on the request "until such time as the agency determines that corrosion control treatment is fully optimized for the Flint system."

In flint and beyond, lead remains irreversible scourge among Michigan's children

MLive, December 13, 2015

Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.

Although much of the state's focus has been on lead-poisoned water in Flint, the metal continues to turn up annually in the bodies of thousands of children across the state, at percentages well above the numbers that raised red flags in Flint.

SYRIAN REFUGEES

Michigan Gov. Rick Snyder: Donald Trump does not speak for me

Detroit Free Press, December 13, 2015

Just as terrorists who betray cherished values in the name of Islam do not speak for the 1.6 billion Muslims in the world, Donald Trump does not speak for me, the state of Michigan, nor the entire Republican Party.

To say that Michigan is on the same path that Trump proposes is a great injustice to those who are working hard to make our state welcoming and successful. But the Free Press Editorial Board has tied my request for a review of immigration and visa processes to Trump's recent inappropriate comments.

In November, I called for a pause on our refugee attraction program and asked the federal government to review how it screens refugees. I want assurances that my first priority — keeping Michigan citizens safe — is possible under current federal guidelines. If not, then it's incumbent upon us to improve the process. If it is, then let's welcome the many hardworking people who dream of becoming U.S. citizens.

Michigan's Snyder fights PR battle on refugees

Dearborn Patch, December 13, 2015

DETROIT, MI - Michigan Gov. Rick Snyder further distanced himself from Republican presidential frontrunner Donald Trump in a guest editorial published in Sunday's Detroit Free Press that answered an earlier editorial linking the governor's request for a review of immigration policies to Trump's controversial statements on Muslim refugees.

Last week, Trump called for a "total and complete shutdown of Muslims entering the United States until our country's representatives can figure out what is going on." His remarks were widely condemned, including by Snyder, who told WWJ last week that Trump's proposal is "absolutely inappropriate" and wrote in his editorial Sunday that the candidate's "statements are inconsistent with our spirit of inclusion."

City of Lansing seeks to be welcoming place for refugees

9 & 10 News, December 14, 2015

LANSING, Mich. (AP) - City officials in Lansing say they want to make the city a more welcoming place for refugees and immigrants of all faiths.

Lansing officials including Mayor Virg Bernero say Michigan's capital city is joining several other communities in the state as participants in the Welcoming Michigan coalition.

The coalition says on its website it was created in response in part to "disturbing comments made at the national level" about Arabs, refugees and those of the Muslim faith.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Genesee County's Boyer to replace Garner

Midland Daily News, December 13, 2015

When Roger Garner retires as Midland County emergency manager, Midland County will sorely miss his wealth of knowledge and experience. Fortunately for the county, Garner has passed on some of that information, and will continue to do so, to his successor, Genesee County Emergency Management Manager Jenifier Boyer.

"Roger is a great asset to have," said Boyer. "He has mentored me. I've worked with Roger on different projects over the last seven years."

Boyer begins her new position in Midland County on Dec. 17. Garner will continue her orientation to the job until he retires at the end of the year on Dec. 31.

Here's what happened to the third San Bernardino shooting suspect

Emergency Management, December 11, 2015

(TNS) - In the confusing hours between the shooting began at a Christmas party at the Inland Regional Center and perpetrators Syed Farook and Tashfeen Malik being killed less than a mile away, the public and media watched and listened along, on radio, television and the Internet.

And in those intervening hours, there were rumors and false leads and, briefly, the report of a third person being picked up by the police. As early as half an hour after the first shots were fired at the IRC, police were telling journalists there were one to three shooters involved. After Farook and Malik were shot, police said a third suspect was on the run.

But by the news conference that night, police said only two shooters had been involved in the terrorist attack in San Bernardino, and both were dead.

Shiawassee County oil spill was accidental, feds say

MLive, December 11, 2015

OWOSSO TWP, MI – Federal officials say they believe electrical repairs accidentally caused a Shiawassee County oil spill that could cost as much as $250,000 to clean up.

U.S. Environmental Protection Agency on-scene coordinator Tricia A. Edwards said Friday, Dec. 11, that they believe they located the cause and source of the spill that was discovered Thanksgiving Day in the county's Miner Drain, just west of the Shiawassee River.

Thousands of Detroit residents sign up for free emergency alerts

Michigan Chronicle, December 14, 2015

In the last two weeks, more than 7,000 additional Detroit residents have signed up to receive free emergency alerts from the City of Detroit through the Nixle emergency alert notification system. After reminding residents they can sign up to receive the free alerts, the number of registered residents has increased to 17,238. City of Detroit residents can receive alerts regarding various emergency situations within the city.

To sign up for this free service, residents should simply **TEXT** the word **"DETROIT"** in the message box to the number 888777. Interested residents can also visit the Detroit Homeland Security & Emergency Management website at www.detroitmi.gov/dhsem and click on Nixle Emergency Alerts, or visit the DHSEM Facebook page at https://facebook.com/detroithsem/.

Ottawa County reviews terrorism response plan

WZZM 13, December 11, 2015

WEST OLIVE, Mich. (WZZM) – The latest findings from San Bernardino and the Paris attacks could impact future security procedures in West Michigan.

This week, Ottawa County leaders discussed an updated emergency response plan which includes the threat of terrorism.

WZZM 13 is looking at how local law enforcement learns from incidents near and far.

Cleanup costs for Shiawassee County oil spill could reach $300,000

Michigan Radio, December 10, 2015

More than 500 gallons of used motor oil spilled into a county drain in Shiawassee County, according to the U.S. Environmental Protection Agency's on-scene coordinator Tricia Edwards.

The EPA is heading the cleanup process.

A hunter discovered the spill on November 26.

Kalamazoo County dispatch authority hires first executive director

MLive, December 11, 2015

KALAMAZOO, MI – For the last six years, Jeff Troyer has managed the consolidated dispatcher center in Calhoun County.

Now, he'll do the same for Kalamazoo County.

The board of directors for the Kalamazoo County Consolidated Dispatch Authority announced Friday that Troyer has been hired as the body's executive director, according to a news release issued by County Sheriff Richard Fuller.

Troyer comes to Kalamazoo after spending the last six years in Calhoun, where he helped complete the consolidation of three dispatch centers in Marshall, Battle Creek and Albion, and then managed the county's consolidated dispatch center.

MICHIGAN ENVIRONMENTAL

Chronic wasting disease found in fourth Michigan deer

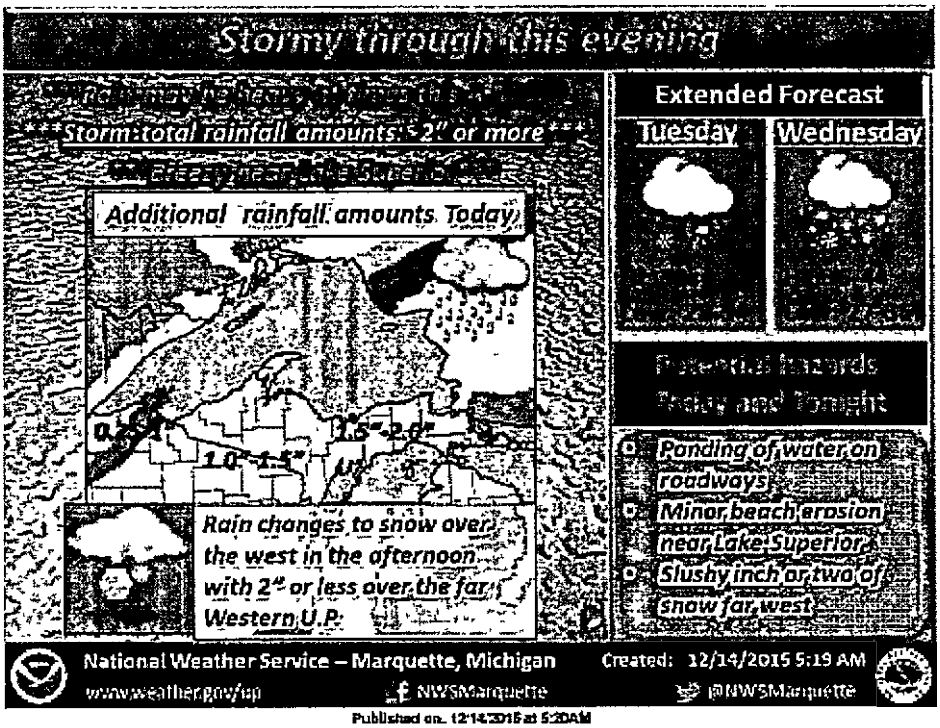
MLive, December 11, 2015

CLINTON COUNTY, MI – A fourth Michigan deer has tested positive for chronic wasting disease, a deadly neurological disease found in the state's free-ranging deer population for the first time this year.

A hunter brought the 1-year-old buck to a Michigan Department of Natural Resources check station during firearm season in Clinton County's Dewitt Township. The U.S. Department of Agriculture's National Veterinary Services Laboratory in Iowa confirmed the deer is positive for chronic wasting disease, the DNR said Friday, Dec. 11.

NATIONAL WEATHER SERVICE FORECASTS

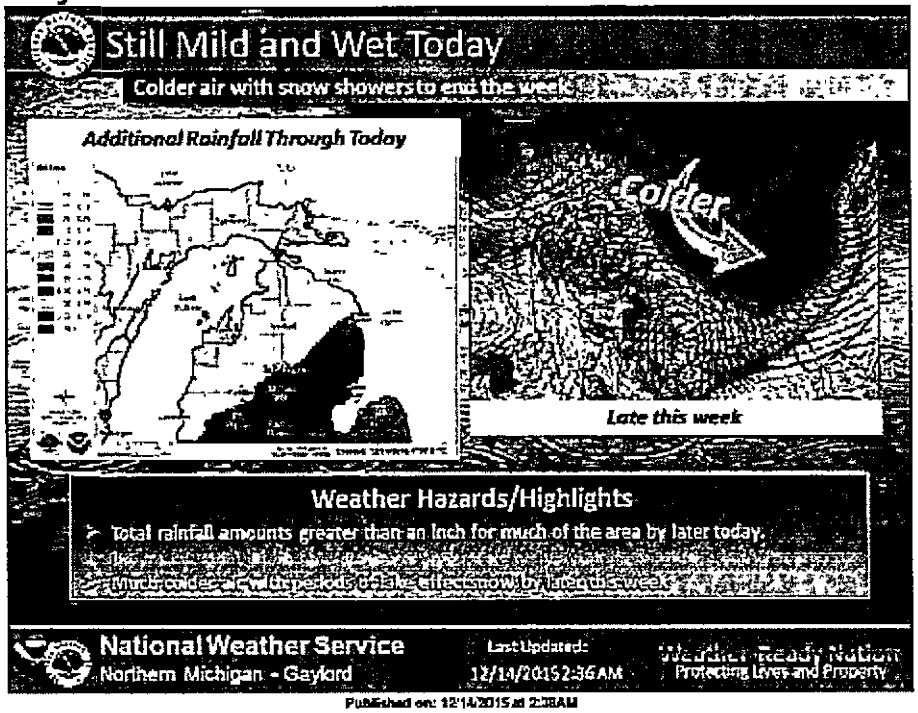
Marquette



Published on: 12/14/2015 at 5:20AM

Locally heavy rain will continue today across the entire area. Some places will see up to 2 inches of rain before ending this evening, which may cause some ponding of water on area roadways. In addition, the rain will change to snow across the far west later this afternoon, with 1 or 2 inches of slushy snow possible. Strong northeast winds later today into tonight may also cause some minor beach erosion along Lake Superior. Cooler with light snow showers Tuesday before another storm system brings a wintry mix on Wednesday.

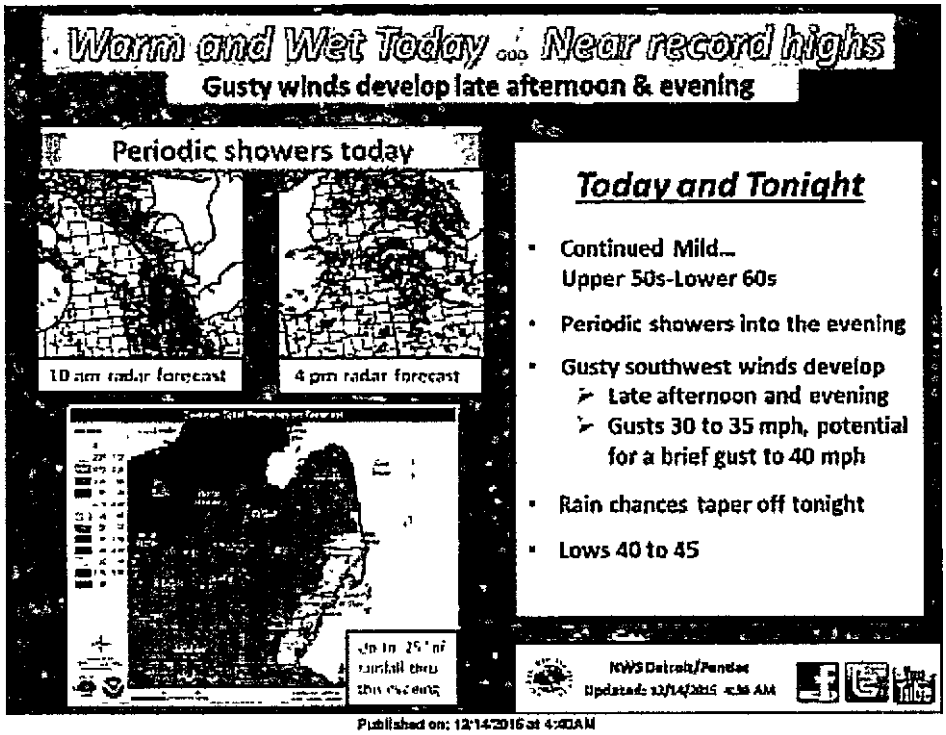
Gaylord



Published on: 12/14/2015 at 2:38AM

Widespread rain and very mild temperatures will continue today, with several record highs expected to be set. While not quite as warm, still mild for Tuesday and Wednesday, with some additional light rain showers on Wednesday. Substantial cooling for the end of the week, with temperatures likely to return to normal levels by Friday and Saturday. These cold temperatures will likely result in periods of lake effect snow, with some accumulation looking possible in the traditional areas.

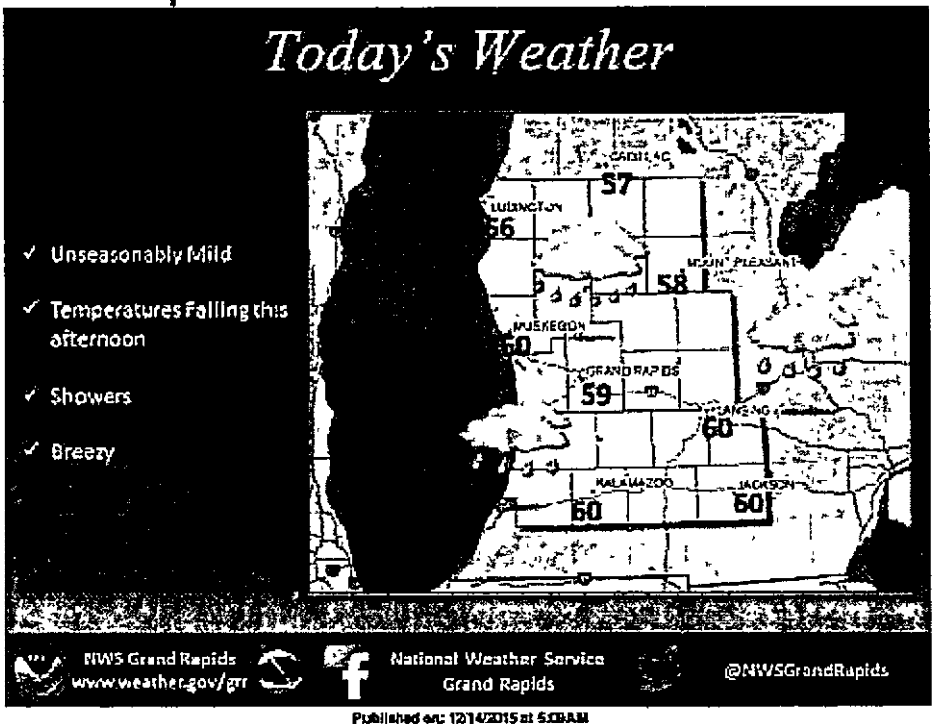
Detroit



Published on: 12/14/2016 at 4:40AM

Warm and wet conditions today. Highs will again be near record levels, with readings hovering in the upper 50s and lower 60s. Area of showers on track to lift across the region during the late morning hours. Additional showers are expected to develop during the afternoon and early evening. Southwest winds will turn gusty during this time, potential for gusts in excess of 30 mph.

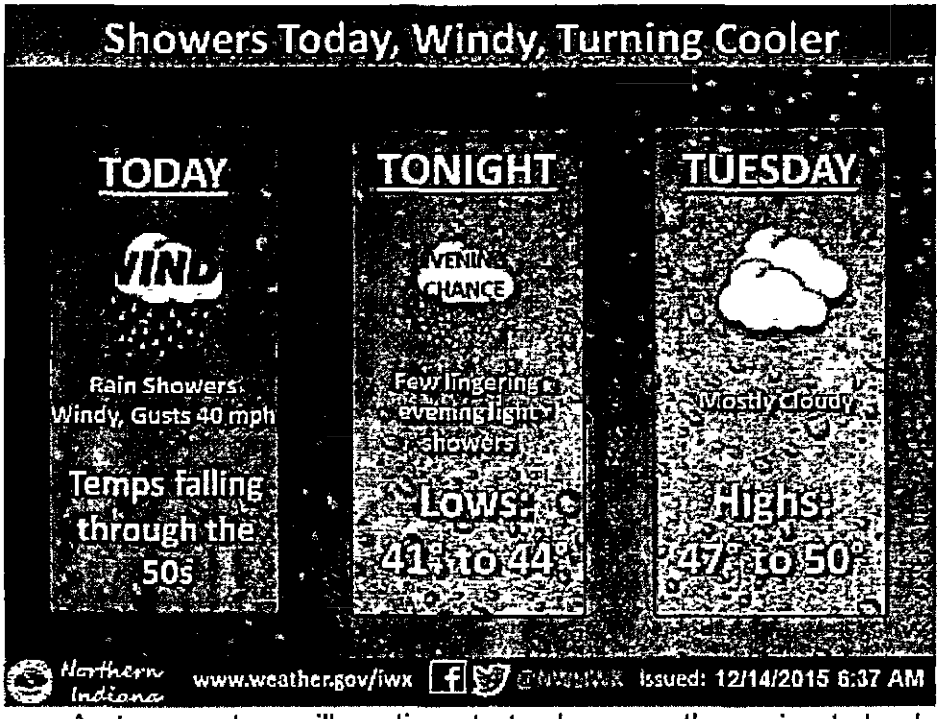
Grand Rapids



Published on: 12/14/2015 at 5:08AM

Showers will track in from the southwest through today as a cold front pushes in. Gusty winds can be expected. Locally a few gusts over 40 mph may occur, which could lead to scattered power outages, mainly south of a Muskegon to Lansing line.

Northern Indiana



A storm system will continue to track across the region today bringing periods of showers along with windy and cooler conditions. Wind gusts up to 40 mph are expected today, and wind speeds should diminish early this evening. Clouds will linger into Tuesday with high temperatures in the upper 40s to around 50.

GOVERNOR'S ACTIVITIES

Freep op-ed
Michigan Gov. Rick Snyder: Donald Trump does not speak for me (Freep)
Just as terrorists who betray cherished values in the name of Islam do not speak for the 1.6 billion Muslims in the world, Donald Trump does not speak for me, the state of Michigan, nor the entire Republican Party. To say that Michigan is on the same path that Trump proposes is a great injustice to those who are working hard to make our state welcoming and successful. But the Free Press Editorial Board has tied my request for a review of immigration and visa processes to Trump's recent inappropriate comments.

Syrian refugees
Will Gov. Rick Snyder hit the "un-pause" button on efforts to take in more Syrian refugees? (Michigan Radio)
The federally-created Council of Governors has a meeting scheduled for tomorrow. This is the group of 10 governors (always five Republicans and five Democrats) that gives the federal government the states' perspectives on national security issues. This is also the group that Governor Snyder said he wanted to conduct a review of federal security policies after the self-proclaimed most pro-immigration governor called for a "pause" in resettling refugees from Syria and other Middle Eastern countries after last month's terrorist attacks in Paris, Beirut, and Egypt.

State of the State contest
Contest to design cover of 2016 State of the State program, winning student meets governor, attends January event (Fenton Tri-County Times)
Students in the 51st House District have a chance to compete for a chance to meet Gov. Rick Snyder and attend the State of the State address on Jan. 19. Rep. Joseph Graves (R-Argentine Township) encourages the students of his district (Fenton, Lake Fenton and Linden) to take part in a contest to design the cover art for the 2016 State of the State program.

Students Encouraged To Enter State of the State Program Cover Contest (WHMI Radio)
Area students have a chance to show off their creativity and imagination in a State of the State program cover contest. State Representative Joe Graves is encouraging students in grades K-12 in the 51st House District to send in artwork for the cover of the 2016 State of the State Address program.

Bill signing

New law eases hiring firefighters across state lines (Daily Telegram)
State Sen. Dale Zorn, R-Ida, sponsored Senate Bill 372 that was signed into law as Public Act 203 of 2015.

Midland County treasurer, staff at bill signing (Midland Daily News)
Midland County Treasurer Cathy Lunsford and staff members Libby Varner and Ann Townsend joined Sen. Jim Stamas, R-Midland, for Gov. Rick Snyder's formal bill signing of Stamas' legislation to revise the timeframe in which county treasurers may send delinquent property tax notices.

LT. GOVERNOR'S ACTIVITIES

117 schools joining statewide health and wellness program (Mlive/GR Press)
There are 117 Michigan schools that will receive tools and resources to improve student health while creating a healthier school environment, Lt. Gov. Brian Calley and Blue Cross Blue Shield announced Friday, Dec. 11.

Calley touts school health program in GR (WOOD-TV)
Michigan's No. 2 in command visited Grand Rapids Friday to celebrate a new program at Ridge Park Charter Academy. Lt. Governor Brian Calley joined state health leaders to celebrate the school's new involvement in the Michigan's Building Healthy Communities initiative.

Nearly 1,000 Grand Valley State graduates walk across stage (Mlive)
Lt. Gov. Brian Calley was the keynote speaker to the winter Grand Valley State University commencement ceremony on Saturday, Dec. 12. Nearly 1,000 graduates walked across the main stage at Van Andel Arena to accept their diplomas.

GVSU welcomes nearly 1,000 new alumni (GV Lanthorn)
The keynote speaker, Brian Calley, lieutenant governor of Michigan, spoke to students on how to "be great" in today's challenging world. Calley, elected in 2010, is the youngest lieutenant governor in the country. "You're standing on the verge of entering a world of opportunities," he said, "with an endorsement of your dedication to learning and knowledge, from a university that has become one of the most interesting, diverse and exciting regions in the nation."

MPSC approves increased electricity rates at DTE Energy (AP)
The average residential customer of DTE Energy will pay $8.22 a month more for electricity under a rate increase.

DTE Energy gets OK to raise rates an average of 5.3% (Crain's Detroit Business)
DTE Electric Co. has received approval from the Michigan Public Service Commission to raise its overall electric rates by 5.3 percent, or $238.2 million annually, but 36 percent below the $370 million it had requested earlier this year.

DTE to raise electric rates by more than $8 per month next week (MLive)
DTE Electric Company will increase its electric rates by an average of $8.22 per month under an order approved by the Michigan Public Service Commission on Friday

MSP
FBI, area police conduct numerous raids in Detroit to curb heroin flowing into Oakland, Macomb counties (Oakland Press)
The FBI and several local law enforcement agencies conducted numerous raids targeting heroin dealers in Detroit, hoping to disrupt the flow of narcotics into Oakland, Wayne and Macomb counties.

DTE to raise electric rates by more than $8 per month next week (MLive)
DTE Electric Company will increase its electric rates by an average of $8.22 per month under an order approved by the Michigan Public Service Commission on Friday.

DTE Energy gets OK to raise rates an average of 5.3% (Crains)
DTE Electric Co. has received approval from the Michigan Public Service Commission to raise its overall electric rates by

5.3 percent, or $238.2 million annually, but 36 percent below the $370 million it had requested earlier this year.

Supreme Court

Michigan Supreme Court lets stand Grand Rapids law easing prosecution of marijuana cases (AP)
A Grand Rapids law that makes possession of small amounts of marijuana an offense similar to a traffic ticket has survived a challenge in the Michigan Supreme Court after the justices declined to take an appeal from a prosecutor.

Gr. Rapids pot laws stands after high court takes a pass *(Detroit Free Press)*
The Michigan Supreme Court won't intervene in a dispute over a Grand Rapids law that makes possession of small amounts of marijuana a civil offense similar to a traffic ticket.

Michigan Supreme Court allows Grand Rapids marijuana law to stand (WMUK)
The Michigan Supreme Court has let stand an amendment to the Grand Rapids city charter that decriminalizes marijuana.

Supreme Court won't intervene in Grand Rapids marijuana dispute (AP)
The Michigan Supreme Court won't intervene in a dispute over a Grand Rapids law that makes possession of small amounts of marijuana a civil offense similar to a traffic ticket.
In an order released Saturday, the court declined to take an appeal from the Kent County prosecutor.

Grand Rapids pot law will stand after court declines case (Holland Sentinel)
A Grand Rapids law that makes possession of small amounts of marijuana an offense similar to a traffic ticket has survived a challenge in the Michigan Supreme Court after the justices declined to take an appeal from a prosecutor.

LEGISLATIVE

Michigan lawmakers seek assurances surgical conditions safe at VA hospital in Ann Arbor (AP)
Two members of Michigan's congressional delegation have sought assurances from a Veterans Affairs hospital director that surgeries are being conducted safely.

Lawmakers remove property tax break from data center bills (AP)
Michigan lawmakers plan to scale back tax break legislation designed to land a mega-Internet data center in the state. The House's Tax Policy Committee chairman said Thursday the chamber will not pass a Senate-approved bill that would fully exempt data centers from Michigan's personal property tax owed on business equipment.

Michigan Senate Approves Bill That Will Help Local School Districts (News 9 and 10)
The Michigan senate approved a bill that could help the statewide shortage of substitute teachers. It allows teachers who've retired after mid-2010 to teach as substitute teachers without losing their pension.

Senate OKs bill to codify super PACS in Michigan law; committees can spend unlimited funds (AP)
A split state Senate voted Wednesday to codify into Michigan law unfettered political spending by independent committees that is legal under the U.S. Supreme Court's Citizens United decision and other federal rulings.

State of Michigan explores EAA changes (WDIV)
The state of Michigan is putting out requests for proposals to find a company or companies to take over Education Achievement Authority (EAA) schools. According to two state representatives, 31 schools are involved under this proposal.

DETROIT

Administrator appointed to Detroit Federation of Teachers (AP)

An administrator has been appointed to the Detroit Federation of Teachers. American Federation of Teachers President Randi Weingarten announced Thursday that Ann Mitchell will begin her new position in Detroit on Tuesday. Weingarten said the administrator position is meant to create a sense of stability and to help the union strengthen its voice.

Metro Detroit casino workers OK contracts (The Detroit News)
Workers at Detroit's casinos Sunday ratified labor contracts that include a $4,250 signing bonus and hourly wage increases of 2 percent and 3 percent in the fourth and fifth years, respectively, according an announcement on the union's website.

Detroit-Wayne mental health board suspends CEO's decision to terminate contract with Integrated Care Alliance (Crain's Business Detroit)
The board of Detroit-Wayne Mental Health Authority voted 7-5 today to temporarily suspend a decision earlier this month by CEO Tom Watkins to terminate a contract with Integrated Care Alliance, a Detroit-based developmental disability services provider.

Exclusive Detroit poll: 69% say city headed in right direction (Detroit Free Press)
A year after Detroit exited the nation's largest bankruptcy, a solid majority of residents polled - 69% - say city is heading in the right direction. In a wide-ranging poll of opinions commissioned by the Free Press, Detroit residents gave high marks to Mayor Mike Duggan and an even higher approval rating to Police Chief James Craig a year after a federal judge approved the city's exit plan.

OPINION

Michigan Gov. Rick Snyder Donald Trump does not speak for me (Detroit Free Press)
Just as terrorists who betray cherished values in the name of Islam do not speak for the 1.6 billion Muslims in the world, Donald Trump does not speak for me, the state of Michigan, nor the entire Republican Party.

Attitude changing for the better in Detroit (Detroit Free Press)
Things are changing in Detroit. And we're not talking about more streetlights or the pace of blight demolition.

New bills boost legislator's attack on democracy (Detroit Free Press)
It's beginning to look a lot like open season on our democracy.

Editorial: Slow down on tax hike (Detroit News)
Lawmakers are rushing to extend a bill that levies a tax on Michigan businesses that promises to grow exponentially over the next few years. There is no need for such haste.

Warren: Any data-center tax breaks need accountability (Detroit News)
A Nevada-based multibillion-dollar company wants to take over the Steelcase pyramid in Grand Rapids and develop a data center. The company, Switch, promises 1,000 well-paying jobs over the course of its development, as well as a $5 billion investment in our state.

GOP debate a chance to address American workers (Detroit News)
Nearing the Iowa caucuses, Democratic presidential candidates are setting their sights on labor policy. Frontrunner Hillary Clinton routinely rails against income inequality, vowing "to strengthen workers' voices" and protect them from "exploitation." Sen. Bernie Sanders recently introduced a labor-backed bill "(making) it easier for workers to join unions."

Finley: Big GOP bucks won't go to Trump (Detroit News)
It's the second Sunday in December and Donald Trump hasn't gone away. The Republican money is starting to plan what it will do if he never does.

Editorial: Limit militarization of police (Detroit News)
The image has become all too familiar: military-grade tanks driving through American neighborhoods as they respond to emergency situations.

In Courser-Gamrat matter, will we ever know who knew what and when? (MLive)
The Cindy Gamrat and Todd Courser saga is the story that keeps on giving.

Whistleblowers shine light on lack of transparency and accountability in Lansing (MLive)
Nowhere is transparency more important than in government, where elected decision-makers must be held to the highest standard of accountability. Unfortunately, that standard has gone missing from the halls of Michigan's Capitol. The lack of accountability among the Republicans who control our state government is so severe, that it's taken the courageous actions of two whistleblowing staff members to bring the truth to light.

As Legislature considers medical marijuana proposals, facts must overcome fiction, myths (MLive)
The Michigan Legislature is poised to provide much-needed clarity to our state's medical marijuana law. By approving a framework of strong regulations that hold people accountable, policymakers can end seven years of confusion that has harmed patients, local communities and responsible businesses eager to follow the rules.

Editorial: Schools are no place for open carry (Battle Creek Enquirer)
It's one thing to have a principled debate over the regulation of firearms in public spaces; it's another entirely to put everybody's children in the middle of it simply to make a point.

MEDIA MONITORING REPORT

12/11/2015

Issues:

- No issue to report.

Summary:

- Flint City Administrator Natasha Henderson said Thursday, Dec. 10, that Public Information Officer Jason Lorenz and the city parted ways this week.
- Mayor Karen Weaver rolled out a new corrosion control strategy on Thursday.
- Former Flint Mayor James Sharp Jr. is calling for federal investigations into the Flint water controversy and a more comprehensive outreach effort to contact and test those who may have drank water containing unsafe levels of lead.
- Mayor Karen Weaver and City Administrator Natasha Henderson announced the city will spend up to $75,000 to locate and test for lead in water in at least 150 homes and businesses served by lead service lines, which are most prone to leech lead into drinking water.
- State testing at another Flint school has identified old faucets and plumbing as potential sources of lead leaching into water.
- Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.
- Bridgemi.com posted an article on how lead continues to turn up annually, not only in Flint, but thousands of children across the state.
- The St. Clair Shores Police and Fire departments conducted training on Dec. 10 for an active shooter situation.
- The F.B.I. director, James B. Comey, said Wednesday that investigators could not read more than 100 text messages exchanged by one of the attackers in a shooting this year in Garland, Tex., because they were encrypted, adding fuel to law enforcement agencies' contention that they need a way to circumvent commercially available encryption technology.
- Emergency Management Magazine reports that more than a year after Michael Brown shooting, a select group of police sergeants will be the first St. Louis police officers to be equipped with body cameras, starting next week.
- Saginaw is no longer home to a tracked armored vehicle that the department received nearly a decade ago from the military.
- Governor Rick Snyder called Donald Trump's anti-Muslim comments "inappropriate."
- Michigan Radio posted an article on how citizens can help refugees arriving in Michigan.

- The Dow Chemical Co. and DuPont on Friday, Dec. 11, announced that their boards of directors unanimously approved a definitive agreement under which the companies will combine in an all-stock merger of equals.
- A bill that would exempt certain government documents related to pipelines from the Freedom of Information Act was amended by the House Oversight and Ethics Committee and then referred to the House Natural Resources Committee on Thursday.
- Federal regulators have extended an Ohio nuclear plant's license for another 20 years.
- National Weather Service forecast updates.
- TV clips: Flint corrosion control.

Analysis:

- Media coverage is neutral.
- Flint Mayor Karen Weaver has announced the city will be spending up to $75,000 on testing for lead in water of at least 150 homes and businesses served by lead lines.
- State testing at Flint's Brownell STEM Academy identified old faucets and plumbing as source of lead in water.
- Will continue to monitor the situation.

FLINT

City of Flint spokesman Jason Lorenz no longer on the job

MLive, December 10, 2015

FLINT, MI – The chief spokesman for the city of Flint is no longer on the job.

City Administrator Natasha Henderson said Thursday, Dec. 10, that Public Information Officer Jason Lorenz and the city parted ways this week.

Henderson declined to comment on the separation, including whether Lorenz resigned, after a news conference Thursday.

New mayor, new plan to tackle Flint's water emergency

ABC 12, December 10, 2015

FLINT (WJRT) - (12/10/15) - A new mayor in town, a new plan to tackle Flint's water emergency.

Mayor Karen Weaver rolled out a new corrosion control strategy on Thursday.

Part of the plan calls for the addition of phosphate to the system. It's a type of salt that's supposed to build up in the pipes and keep lead from seeping into the water.

Former Flint mayor wants feds to probe lead in water

Detroit Free Press, December 11, 2015

LANSING — Former Flint Mayor James Sharp Jr., who had his own experience with contaminated water while stationed as a U.S. Marine at Camp Lejeune in North Carolina, is calling for federal investigations into the Flint water controversy and a more comprehensive outreach effort to contact and test those who may have drank water containing unsafe levels of lead.

A spokeswoman for the Michigan Department of Health and Human Services, Angela Minicuci, said the state is already cooperating with a U.S. Environmental Protection Agency investigation but would assist with any other federal investigations, should they be opened. State officials believe they are following up appropriately with those potentially exposed to water with high lead levels, Minicuci said Thursday.

Flint will pay for independent water tests, added phosphate treatment

MLive, December 10, 2015

FLINT, MI – The city has hired a contractor to do what it did not on its own -- search out and test water in homes that are most likely to have the highest lead levels.

Mayor Karen Weaver and City Administrator Natasha Henderson announced the city will spend up to $75,000 to locate and test for lead in water in at least 150 homes and businesses served by lead service lines, which are most prone to leech lead into drinking water.

More lead in plumbing found at Flint's Brownell School, state report says

MLive, December 10, 2015

FLINT, MI – State testing at another Flint school has identified old faucets and plumbing as potential sources of lead leaching into water.

The Michigan Department of Environmental Quality report says an assessment of the plumbing system at Brownell STEM Academy found lead solder joints on copper piping, brass valves and fittings, brass components in fixtures and galvanized piping – all potential sources of lead.

Far from Flint, lead remains an irreversible scourge

Bridge MI, December 10, 2015

Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.

While much of the state's focus on lead has rightly been on lead-poisoned water in Flint, the metal continues to turn up annually in the bodies of thousands of children across the state, at percentages well above the numbers that raised red flags in Flint.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Police, fire departments participate in active shooter training

C & G News, December 10, 2015

Fire trucks and police cars filled the parking lot of the former Church of St. Gertrude on Jefferson Avenue Dec. 10, with officers storming the building in full gear and face masks.

While there wasn't an actual active shooter in the building, the St. Clair Shores Police and Fire departments were training for just that eventuality.

F.B.I. Chief says Texas gunman used encryption to text overseas terrorist

New York Times, December 9, 2015

WASHINGTON — The F.B.I. director, James B. Comey, said Wednesday that investigators could not read more than 100 text messages exchanged by one of the attackers in a shooting this year in Garland, Tex., because they were encrypted, adding fuel to law enforcement agencies' contention that they need a way to circumvent commercially available encryption technology.

Mr. Comey, who two months ago appeared to have lost a battle inside the Obama administration over forcing companies like Apple and Google to give investigators a way to decode messages, told the Senate Judiciary Committee that one of the attackers "exchanged 109 messages with an overseas terrorist" the morning of the shooting.

St. Louis begins police body cam pilot more than a year after Michael Brown shooting

Emergency Management, December 11, 2015

(TNS) -- A select group of police sergeants will be the first St. Louis police officers to be equipped with body cameras, starting next week.

For now it's just a 90-day pilot program, but St. Louis police Chief Sam Dotson is hoping the move will serve as the beginning of a shift for his department — where the police union has traditionally opposed the use of in-car cameras, let alone attaching devices to officers.

The union contract shields officers from having to wear body cameras until the issue goes through a formal bargaining process. But Dotson said he doesn't want to wait until that lengthy process concludes to begin trying out the devices.

Saginaw Police returns armored military vehicle after Obama order

MLive, December 10, 2015

SAGINAW, MI — Saginaw is no longer home to a tracked armored vehicle that the department received nearly a decade ago from the military.

Military representatives picked up the Armored Personnel Carrier (APC) from the Saginaw Police Department Monday, Dec. 7, Chief of Police Robert Ruth said.

SYRIAN REFUGEES

Governor Snyder calls Trump's anti-muslim comments "inappropriate"

Fox 47 News, December 10, 2015

Governor Rick Snyder doesn't see any similarity between his call to temporarily stop Syrian refugees from coming to Michigan and Donald Trump's "No Muslims Allowed" immigration plan.

On Wednesday, the Governor said Trump's comments are inappropriate.

When reporters asked if his policy is basically the same thing, Governor Snyder said, "That's not what I said. I said we should pause in terms of reviewing our process. I've always been welcoming to immigrants. I'm proud of Michigan's record, I'm proud of the fact we have the largest Middle-Eastern community in the United States in our state and I just want to make sure we're balancing national security interests with that in the appropriate fashion."

Here's how you can help Syrian refugees in Michigan

Michigan Radio, December 10, 2015

When refugees arrive at the Detroit airport, they're often exhausted, physically and emotionally, by the weight of their journey. They may have literally have just the clothes on their backs.

And sometimes, they're greeted by a volunteer welcoming committee of cheerful, homemade sign-wielding Michiganders.

"It's like, here's a bunch of six-foot blonde white people, 'Congratulations, this is your new normal,'" laughs Troy Howley, the refugee and volunteer outreach coordinator at Lutheran Social Services of Michigan.

MICHIGAN ENVIRONMENTAL

Dow and DuPont to merge; Dow to become 100 percent owner of Dow Corning

MLive, December 11, 2015

MIDLAND, MI — Say hello to DowDuPont.

The Dow Chemical Co. and DuPont on Friday, Dec. 11, announced that their boards of directors unanimously approved a definitive agreement under which the companies will combine in an all-stock merger of equals.

In addition, Dow is to become the 100 percent owner of Bay County-based Dow Corning Corp., currently a joint venture of Dow and Corning Inc.

MICHIGAN POLITICS

House oversight sends FOIA exemption bill to natural resources

Gongwer, December 10, 2015

A bill that would exempt certain government documents related to pipelines from the Freedom of Information Act was amended by the House Oversight and Ethics Committee and then referred to the House Natural Resources Committee on Thursday.

The committee spent nearly the entire 90 minutes of the meeting taking testimony and adopting substitutes and amendments on HB 4540 only to re-refer it. The bill would exempt the following from FOIA:

Information presumed to be critical energy infrastructure information;

Cybersecurity plans, assessments and threats; and

Information that would identify, or provide a means of identifying, a person that could become the vim of a cybersecurity incident, or that would disclose a person's cybersecurity plans.

The committee heard opposition from the Michigan Environmental Council, the Food and Water Watch and the Michigan League of Conservation Voters.

After the meeting, Jack Schmitt, deputy director for Michigan LCV, criticized the committee for moving the bill to Natural Resources.

"If it wasn't seriously concerning, it'd be comedic that the chair of the House Oversight and Ethics (his emphasis) Committee used a backdoor measure to sustain a bill restricting transparency when the votes weren't there to support it," he said in a statement. "Clearly, our oil pipelines aren't the only place we need stronger oversight and transparency."

Committee Chair Rep. Ed McBroom (R-Vulcan) said there were both environmental and governmental oversight concerns regarding the bill. He said the committee finished its work regarding the oversight, and Natural Resources could work to address additional concerns.

Mr. McBroom said after the hearing he was prepared for either reporting the bill or referring it to the other committee.

"I felt like we had done as much as possible, (but) the bills still aren't ready for prime time," he said. "I think you've got two primary concerns that swirl around this bill. One is from environmental groups and one is from open government groups. There was always some discussion on which of the two committees the

bill should have been in in the first place. ... I think we have done a lot of work in regards to the oversight issues, and it's appropriate now for Natural Resources to take a whack at it."

Under the bill, a public body would have to exempt information presumed to be critical energy infrastructure information. When a FOIA is submitted, the company would have to label it as such and it would be presumed critical information until determined otherwise by the Michigan Agency for Energy.

Under an amendment to the bill, if a person was denied a FOIA request because the information was presumed to be critical, they would appeal at the circuit court level.

James Clift with the Environmental Council said the bill's definition of critical energy information is too broad. And he said under federal law, the person who is asking for the information on a pipeline is taken into account - for example if you are a person with a pipeline near your property or a public safety group.

"There is no balance here at all," he said.

Rep. Kurt Heise (R-Plymouth Township), sponsor of the bill, said the information that would be restricted is to protect information that, if in the wrong hands, would impact public safety.

"We have had representatives from the State Police and the Michigan National Guard who have said that this is a very useful tool in our effort to protect Michigan residents and our energy infrastructure from people who might seek to do us harm," Mr. Heise said.

NUCLEAR

Ohio nuclear plant's license extended for 20 more years

Fox 19 Now, December 8, 2015

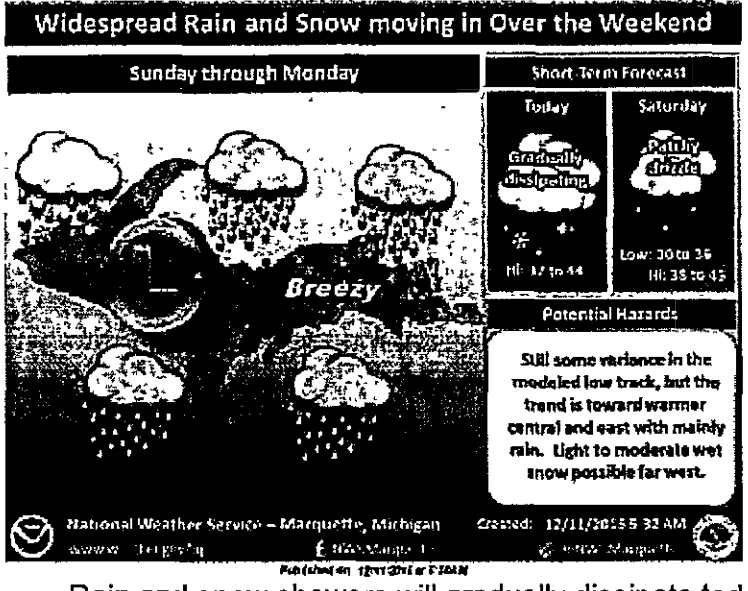
TOLEDO, Ohio (AP) - Federal regulators have extended an Ohio nuclear plant's license for another 20 years.

The decision announced Tuesday will allow the Davis-Besse plant near Toledo to stay in operation until 2037.

The Nuclear Regulatory Commission has spent the last couple of years reviewing the plant's safety and operations records and its environmental impact.

NATIONAL WEATHER SERVICE FORECASTS

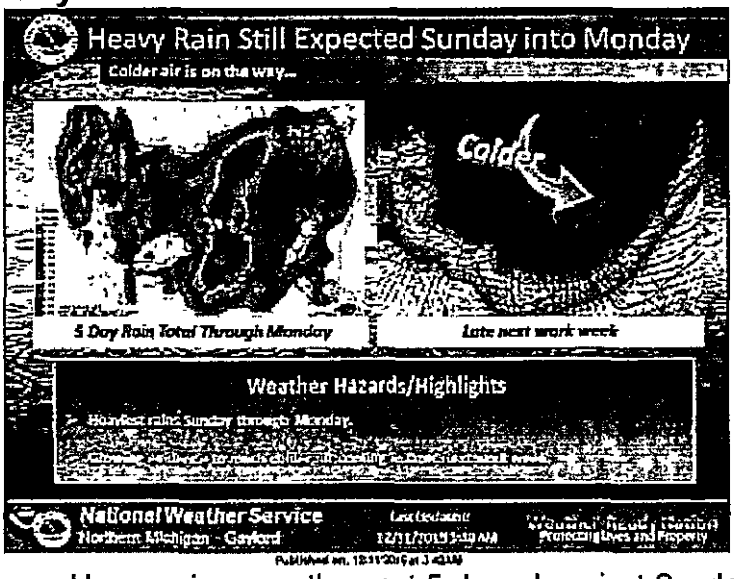
Marquette



Rain and snow showers will gradually dissipate today with high temperatures in the mid 30s to mid 40s. Expect widespread rain will move in Sunday into Monday, turning to snow over western Upper Michigan on

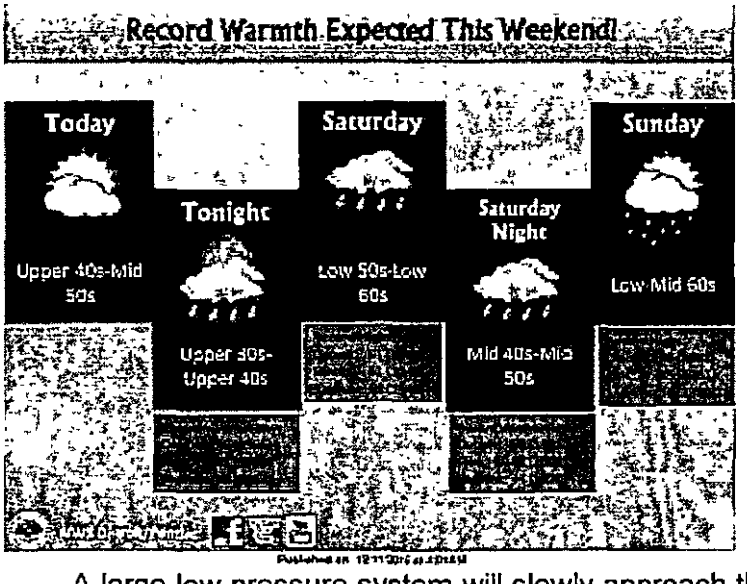
Tuesday. Snow amounts on Monday are still uncertain, but light to possibly moderate amounts can be expected over far western Upper Michigan.

Gaylord



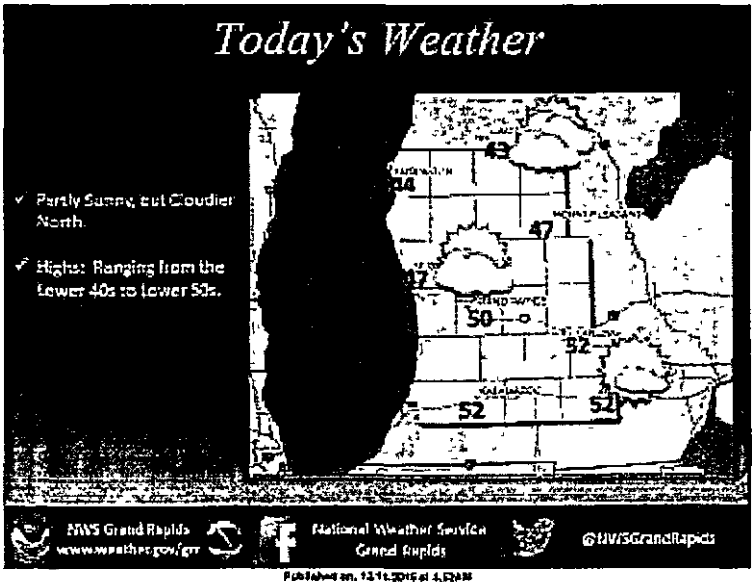
Heavy rains over the next 5 days, heaviest Sunday into Monday. Colder air is on the way for late next work week.

Detroit



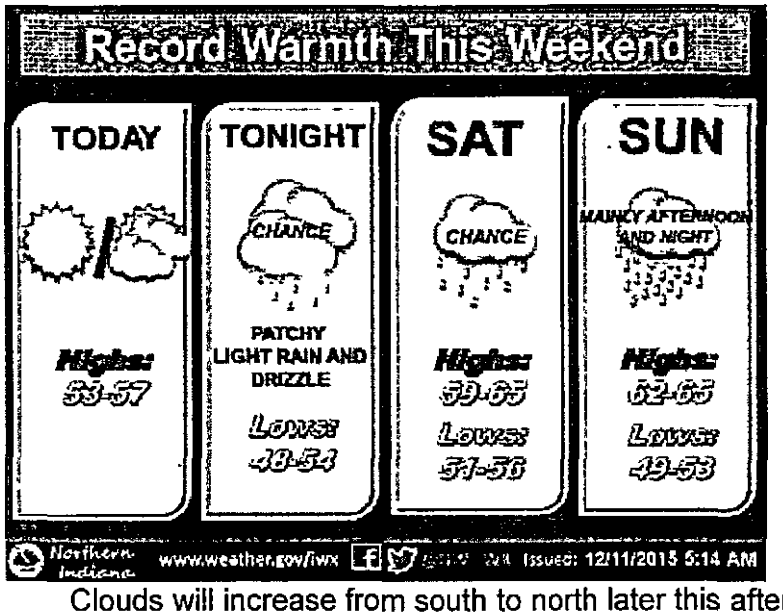
A large low pressure system will slowly approach the area this weekend. As the low approaches, it will draw progressively warmer air and more moisture up into Michigan from the deep South. Temperatures will approach or exceed records tonight through Sunday Night. Some of the records in jeopardy for Detroit date back to 1881! Showers and drizzle will also be possible tonight through Sunday, before more widespread rainfall moves in Sunday Night and early Monday.

Grand Rapids



It will be a bit cooler today, but still well above normal.

Northern Indiana



Clouds will increase from south to north later this afternoon into tonight as a warm frontal boundary lifts northward. In addition to increasing clouds, patchy light rain and drizzle is expected to develop tonight, and continue into Saturday. A storm system will take shape across the Rockies on Saturday and will lift northeast into the region for Sunday night and Monday. Unseasonably mild conditions are expected ahead of this storm system Saturday and Sunday. Widespread rain will work from west to east across the area Sunday afternoon through early Monday morning.

Northern Michigan Landowners who signed leases with Chesapeake could see settlement checks (Mi News 26)
Michigan Attorney General Bill Schuette announced on Thursday that approximately 700 Northern Michigan landowners who were affected by a racketeering and bid-rigging scheme involving the Chesapeake Energy Corporation should begin receiving claim forms soon.

DEQ
State settles litigation with owners of Flat Rock housing community (The News Herald)
The DEQ and Michigan Attorney General Bill Schuette announced the state's settlement of civil litigation with the owners of a housing community in Flat Rock. The settlement resolves violations of Michigan's water laws by the owners of Arbor Americana Manufactured Housing Community, including Arbor Americana, LLC and one company official.

More lead in plumbing found at Flint's Brownell school, state report says (Mlive)
The Michigan Department of Environmental Quality report says an assessment of the plumbing system at Brownell STEM Academy found lead solder joints on copper piping, brass valves and fittings, brass components in fixtures and galvanized piping -- all potential sources of lead.

DNR
Wildlife researchers not so sure about drones (Great Lakes Echo)
Perhaps drones could track feral swine to help oust the invasive critter from Michigan. But local researchers are hesitant to employ the technology for wildlife management. "There's a lot of potential for uneasiness," said Stephen Beyer, who manages wildlife research at the Michigan Department of Natural Resources (DNR).

Michigan Department of Natural Resources announces preliminary 2015 firearm deer harvest estimates (Holland Sentinel)
The Michigan Department of Natural Resources recently announced the preliminary estimates of the 2015 firearm deer harvest, which ended Nov. 30, with indications of mixed results throughout the state.

State confiscates 93-pound Petoskey stone from Michigan man (Mlive)
Nearly three months after Tim O'Brien lugged a giant 93-pound Petoskey stone from Lake Michigan, the state has confiscated the rock. Michigan Department of Natural Resources officers went to O'Brien's home in Copemish on Wednesday, Dec. 9, to collect the 93-pound rock he found in mid-September.

MDARD

Elm seed bug found in Michigan (Up Matters)

The Elm seed bug has made its way into Michigan. The Michigan Department of Agriculture and Rural Development confirmed it has been discovered in Oakland County. The elm seed bug (Arocatus melanocephalus (Fabricius)) is a small, non-native home-invading pest native to south-central Europe. Elm seed bug is considered a minor pest of elm and other trees. It can, however, be a significant household nuisance because it enters buildings in large numbers to seek refuge from winter weather.

Exotic tree pest discovered in Oakland County (Detroit Free Press)

The state Department of Agriculture and Rural Development says the elm seed bug has been discovered in Oakland County. A native of south-central Europe, it uses needle-like mouth parts to penetrate seeds and extract nutrients. It feeds primarily on elm.

MDHHS

Troubled DHHS software improves (Lansing State Journal)

The Michigan Department of Health & Human Services claims it's fixed nearly two-thirds of the defects in a glitch-ridden child welfare software program that gave caseworkers incomplete information and delayed payments to foster families.

MDOC

Cellphones, marijuana arrive with prison food shipment (9&10 News)

Authorities say cellphones and marijuana arrived with a food shipment to a Michigan prison. Michigan Department of Corrections spokesman Chris Gautz tells the Detroit Free Press that inspectors at Saginaw Correctional Facility in Freeland, about 95 miles northwest of Detroit, found the contraband Monday and turned the case over to state police to investigate.

MDOT

New traffic safety system installed at Petoskey intersection (Up North Live)

After three months of development and installation, a revolutionary new traffic warning system is up and running in Emmet County. The Michigan Department of Transportation installed the new system at a dangerous intersection near downtown Petoskey.

'Do or die' time for $5B pyramid deal (WOOD TV8)

Proponents are running out of time to pass a plan to lure a multi-billion dollar cloud data storage company to West Michigan.

No vote in Michigan House on data center legislation (WZZM 13)

Michigan lawmakers are under pressure to decide the fate of a gigantic project in Gaines Township as a deadline looms to approve a new data center.

Switch data center tax break bills delayed -- not dead -- in Michigan House (MLive)

Tax break bills that would help West Michigan land a high-tech data center company are "not dead yet" in the state House, which adjourned Thursday without voting on Senate-approved bills.

Skubick: Heated straight party ticket voting debate continues (WLNS)

Exactly 41 states did not have straight ticket voting whereby citizens check only one box for all of the candidates and then they are out of the polling place.

Lawmakers working to change sex offender laws (WLNS)

Grand Ledge Senator Rick Jones sponsored the bill, after a federal judge ruled that parts of Michigan's sex offender registration law are too vague and unconstitutional.

DETROIT

$600,000 in donations to fight blight in Brightmoor (Freep)
The Brightmoor neighborhood on Detroit's northwest side will see 25 blighted homes torn down and more than 100 overgrown, dangerous vacant lots cleared, a project funded by private donations to the city's blight fight, officials said today.

'Snyder Flu' Continues As Detroit Students, Teachers Protest Plan For Charter Schools (WWJ)
A handful of Detroit schools have closed this week due to what has been called 'Snyder Flu' and Thursday was no different. A plan in Lansing supported by Gov. Rick Snyder would turn dozens of schools in the city into charter schools in exchange for millions of dollars to cover a portion of the district's debt.

Multiple Detroit schools closed today after teacher "sick-out" (WXYZ)
This morning, students at some Detroit Public Schools had to stay home. Teachers working in at least six buildings in Detroit did not report for work because of an apparent sick-out.

Ex-Mumford principal, 2 others indicted in Detroit reform school district corruption case (Crain's)
A former principal at Gov. Rick Snyder's reform school district and two others have been indicted by a federal grand jury on a slew of charges, including bribery, conspiracy, money laundering and tax evasion.

Former principal and two contractors of state-run Detroit school face bribery charges (MLive)
A former principal and a pair of after-school tutoring contractors are charged in federal court with bribery, money laundering and tax violations related to their work at the state-run Education Achievement Authority.

AFT names administrator for Detroit teachers union (Detroit News)
The American Federation of Teachers has named an aide to President Randi Weingarten as administrator of the Detroit teachers union.

Detroit's Dying Public Schools (Michigan Radio)
Detroit's Public Schools are slowly dying. Those who run them would not use those words, but that's what is happening. The schools have lost sixty-five percent of their students in the last ten years, and have closed more than three-fifths of their buildings.

OPINION

Detroit school 'sickouts' measure system's dysfunction (Detroit Free Press)
If there's any measure of just how bad things are in Detroit Public Schools, it's surely a series of "sickouts" — a coordinated mass absence under the guise of sick leave — which forced seven schools to close Thursday.

Editorial: Facts should inform gun debate (Detroit News)
The terrorist attack in San Bernardino last week has prompted calls for more gun control. But before the nation can have a meaningful conversation about changing gun laws, it must get the facts straight.

Civil Rights commissioners: Stand up to hate (Detroit News)
In Michigan, more than 300 years of settlement and progress have taught us some things. As people around the world are reeling from terrorist attacks, it is important that we state these truths and underscore our commitment to protecting the civil rights of all people.

Juvenile courts best answer for 17-year-olds (Detroit News)

Throughout my career, I have worked to elevate juvenile justice issues to a level where the state policies that govern how youth in trouble with the law are handled can be thoroughly examined, and amended as necessary. One policy reform that I have consistently advocated for is ensuring that youth who commit a crime are treated differently than adult offenders. That's why I support the proposed legislation to raise the age of juvenile jurisdiction from 17 to 18.

Snyder can do the right thing on LGBT rights and endorse Fair Michigan (MLive)
Gov. Snyder and reasonable Republicans have an historic opportunity before them. And I believe they will do the right thing.

MEDIA MONITORING REPORT

12/9/2015

Issues:

- No issues to report.

Summary:

- Water and crime topped the list of issues at Mayor Karen Weaver's first town hall, a meeting that brought out about 200 residents in the city's 1st Ward today, Dec. 8.
- An attorney for the city of Flint raided his daughter's piggy bank in an attempt to prove the city did not violate a judge's order to reduce water and sewer rates.
- Upper Michigan Source remembers Sault Ste. Marie's Big Snow of December 1995 on 20 year anniversary.
- Consumers Energy is offering 10 electric safety tips to help Michigan residents enjoy the holiday season.
- New York Times posted an article on American's being connected to ISIS through social media.
- A prominent human rights group has found that ISIS has built a substantial arsenal, including U.S.-made weapons obtained from the Iraqi army and Syrian opposition groups, according to CNN.
- Investigators believe San Bernardino shooter Syed Rizwan Farook may have been plotting an earlier attack in California with someone else, two U.S. officials told CNN on Tuesday.
- French police have identified the third attacker at the Bataclan during the Paris attacks, Prime Minister Manuel Valls says.
- Donald Trump's anti-Muslim rhetoric undermines US national security by boosting the Islamic State (IS) group, the Pentagon has warned.
- The U.S. Department of Justice will open a wide-ranging civil rights investigation into the Chicago Police Department after the release of a video showing a patrolman's fatal shooting of Laquan McDonald and police reports from the officers on the scene that conflict with that video.
- Six Republican members of Michigan's congressional delegation wrote President Barack Obama on Monday asking him to reconsider a decision made earlier this year to have law enforcement agencies return surplus military equipment out of concern it could undermine confidence in police.
- The Michigan House committee has adopted a bill to eliminate the straight ticket voting option on election ballots. And the committee linked the measure's future to a bill to make it easier to vote absentee.
- Spurred by ethics violations that led to the firing of two technology officials, Ingham County has formally approved a "whistleblower" policy that encourages the reporting of alleged wrongdoing.

- *Gov. Rick Snyder will deliver his sixth annual State of the State address in Michigan's Capitol on Jan. 19.*
- Detroit Free Press writer Paul Mitchell writes an opinion article on the uproar over proposed low-level nuclear waste facility that would allow Ontario Power Generation to store low-level waste 2,000 feet below ground less than a mile from Lake Huron.
- Dow Chemical and DuPont, two of the biggest and oldest companies in the American chemical industry, are in talks to merge in what would be one of the largest transactions in a year full of huge deals, people briefed on the matter said on Tuesday.
- National Weather Service forecast updates.
- TV clips: Karen Weaver's first town hall meeting.

Analysis:

- Media coverage is neutral and negative.
- Flint Mayor Karen Weaver hosted her first town hall meeting on Dec. 8.
- Detroit Free Press reports that a lawsuit filed Monday on behalf of a black Detroit police sergeant who was rejected by the Michigan State Police alleges a pattern of discriminatory conduct and cultural bias in the Michigan State Police trooper recruitment.

FLINT

Flint residents pack house for new Mayor Karen Weaver's first town hall

MLive, December 8, 2015

FLINT, MI – Water and crime topped the list of issues at Mayor Karen Weaver's first town hall, a meeting that brought out about 200 residents in the city's 1st Ward today, Dec. 8.

"We are past (the election) now. It's not who supported who, it's about Flint and moving it forward," Weaver said t a near capacity crowd at the Hasselbring Community Center. "It's so nice to see such a nice, big crowd here tonight."

Mayor hosts first town hall meeting

WNEM 5, December 8, 2015

FLINT, MI (WNEM) - Flint is a city with water problems the nation knows about all too well and it has a crime rate that so often gives a city a black eye.

Problems that people living here know must be tackled.

"If we don't ever turn the city around, then we have nothing, no legacy, we have nothing to leave to the children," said resident, Pastor Allen Gilbert.

Flint mayor hold first town hall meeting to connect with residents

ABC 12, December 9, 2015

FLINT (WJRT) - (12/08/15) - Flint's mayor is making good on her plan to reach out to the community with her first town hall meeting since being elected.

It was held Tuesday evening at the Hasselbring Community Center and hosted by Councilman Eric Mays.

Mayor Karen Weaver outlined major goals including taking care of Flint's water emergency once and for all, improving public safety, and creating economic opportunity on every level.

Daughter's piggy bank makes appearance in Flint water rate hearing

MLive, December 8, 2015

FLINT, MI – An attorney for the city of Flint raided his daughter's piggy bank in an attempt to prove the city did not violate a judge's order to reduce water and sewer rates.

Testimony continued Tuesday, Dec. 8, in the hearing on accusations that the city failed to follow Genesee Circuit Judge Archie Hayman's order to lower its water and sewer rates.

MICHIGAN WEATHER

Twenty years since the Sault's big snow

Upper Michigan Source, December 8, 2015

Rarely, perhaps once in a lifetime, a weather event occurs in a region or community that is so extraordinary that it becomes etched in the collective memory of its residents. An experience like this then becomes part of the history of that community. Sault Ste. Marie's Big Snow of December 1995 was such an event.

The winter showed early signs of being a big one when the west end of Upper Michigan caught an unseasonably early snow in September. By November, cold and snow became the rule over the U.P.; a nine-inch snow fell on the Sault as early as November 2. By Thanksgiving, the entire peninsula had at least some snow cover. This cover would remain well into spring 1996.

Consumers Energy offers 10 electric safety tips for the holiday season

PR Newswire, December 8, 2015

JACKSON, Mich., Dec. 8, 2015 /PRNewswire/ -- Consumers Energy is offering 10 electric safety tips to help Michigan residents enjoy the holiday season.

"At Consumers Energy, safety is the foundation of everything we do. Our goal is for everyone to safely enjoy this special time of year filled with celebrations, family and friends. Following 10 simple electric safety tips can help ensure the holiday season is memorable for all," said Aaron Kantor, director of emergency management for Consumers Energy.

Electrical fires remain one of the top causes of home fires, and factored in an estimated 45,000 to 55,000 home structure fires every year since 2000, according to the National Fire Protection Association. Nearly 500 fire-related deaths and 1,500 injuries were also reported between 2007 and 2011, as well as a total of $1.5 billion in property fire damage.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Americans attracted to ISIS find an 'Echo Chamber' on social media

New York Times, December 8, 2015

WASHINGTON — When a lonely Virginia teenager named Ali Amin got curious about the Islamic State last year and went online to learn more, he found a virtual community awaiting. It had its own peculiar language, stirring imagery and just the warm camaraderie, sense of adventure and devotion to a cause that were missing from his dull suburban life.

At 17, the precocious son of a Yemeni immigrant family, he quickly developed online relationships with older Islamic State supporters around the globe. There was Zubair in Britain, Uthman in South Africa and Abdullah in Finland, who urged him to start a Twitter account under the name AmreekiWitness, or American witness. Mr. Amin drew several thousand followers, sparred online with the State Department, engaged with prominent Islamic State propagandists and developed quite a name among English-speaking fans of the militants — until his arrest in March.

Amnesty report: ISIS armed with U.S. weapons

CNN, December 8, 2015

(CNN)A new report from a prominent human rights group has found that ISIS has built a substantial arsenal, including U.S.-made weapons obtained from the Iraqi army and Syrian opposition groups.

Amnesty International's 44-page report, released late Monday, found that much of ISIS' equipment and munitions comes from stockpiles captured from the U.S.-allied Iraqi military and Syrian rebels.

San Bernardino shooting investigation: Past plot and recent loan are latest cues

CNN, December 8, 2015

(CNN)What happened to transform a trained pharmacist and a county health inspector into terrorists, and when did they take that dark turn?

Officials say it could have been years before last week's deadly attack in San Bernardino, California.

Investigators believe shooter Syed Rizwan Farook may have been plotting an earlier attack in California with someone else, two U.S. officials told CNN on Tuesday. One of the officials said the two conspired in 2012 and a specific target was considered. The pair "got spooked" and decided not to go through with the earlier attack after a round of terror-related arrests in the area, an official said.

Paris attacks: Bataclan third attacker identified

BBC, December 9, 2015

French police have identified the third attacker at the Bataclan during the Paris attacks, Prime Minister Manuel Valls says.

Mr Valls did not name the man, but did not dispute reports naming him as French national Foued Mohamed-Aggad, 23, from Strasbourg.

Ninety people were killed at the Bataclan in last month's attacks.

Trump's Muslim ban call 'endangers US security'

BBC, December 8, 2015

Donald Trump's anti-Muslim rhetoric undermines US national security by boosting the Islamic State (IS) group, the Pentagon has warned.

The leading Republican presidential candidate has said Muslims should be banned from entering the US, in the wake of the deadly California attacks.

But Pentagon press secretary Peter Cook said such talk "bolsters Isil's narrative", referring to IS.

Video release prompts federal review of Ferguson, Baltimore and now Chicago police

Emergency Management, December 7, 2015

The U.S. Department of Justice will open a wide-ranging civil rights investigation into the Chicago Police Department after the release of a video showing a patrolman's fatal shooting of Laquan McDonald and police reports from the officers on the scene that conflict with that video.

A law enforcement official familiar with the coming investigation said the inquiry probably will be announced "in the next week" and will focus on officers' use of deadly force, including the system of oversight of police shootings, as well as training and community engagement.

Calls for a Justice Department investigation have been growing since the release of the video, which shows Officer Jason Van Dyke shooting McDonald 16 times as McDonald, carrying a small knife, walked away from officers on a commercial strip on South Pulaski Road in October 2014.

STATE POLICE

Lawsuit alleges discriminatory hiring by state police

Detroit Free Press, December 9, 2015

A lawsuit filed Monday on behalf of a black Detroit police sergeant who was rejected by the Michigan State Police alleges a pattern of discriminatory conduct and cultural bias in State Police trooper recruitment.

The lawsuit filed in Wayne County Circuit Court is proposed as a class action. But Marlon Carter, a sergeant with the Detroit Police Department who passed the State Police written test in 2012 but was denied a job with the MSP, is the only named plaintiff.

MICHIGAN POLITICS

Michigan lawmakers: let cops keep military surplus

WZZM 13, December 8, 2015

WASHINGTON (DETROIT FREE PRESS) — Six Republican members of Michigan's congressional delegation wrote President Barack Obama on Monday asking him to reconsider a decision made earlier this year to have law enforcement agencies return surplus military equipment out of concern it could undermine confidence in police.

The letter from the six GOP members came in the wake of a Free Press report last week about complaints from Michigan law enforcement agencies that the loss of military equipment, especially tracked armored vehicles, deprived them of key assets they may not be able to replace.

House committee votes to end straight-ticket voting

Michigan Radio, December 9, 2015

A state House committee has adopted a bill to eliminate the straight ticket voting option on election ballots. And the committee linked the measure's future to a bill to make it easier to vote absentee.

Republicans say it's a compromise that will require voters to educate themselves about candidates.

Ingham County approves employee 'whistleblower' policy

Lansing State Journal, December 9, 2015

MASON – Spurred by ethics violations that led to the firing of two technology officials, Ingham County has formally approved a "whistleblower" policy that encourages the reporting of alleged wrongdoing.

The policy, aimed at providing staff "a safe environment that is free from retaliation or reprisal," was given the green light Tuesday by the county Board of Commissioners.

Snyder's 6th State of the State address set for Jan. 19

Up North Live, December 8, 2015

WPBN/WGTU — LANSING, Mich. (AP) - Gov. Rick Snyder will deliver his sixth annual State of the State address in Michigan's Capitol on Jan. 19.

The Republican governor will speak to a joint session of the Legislature at 7 p.m. inside the Michigan House. The speech is expected to be broadcast live on public TV and radio stations and on media websites.

MICHIGAN ENVIRONMENTAL

Clear solution on nuclear waste if Congress would only act

Detroit Free Press, December 9, 2015

In recent months there has been an uproar over a proposed low-level nuclear waste facility being developed along the shores of Lake Huron in Canada.

This facility would allow Ontario Power Generation to store low-level waste 2,000 feet below ground less than a mile from Lake Huron.

New Canadian Prime Minister Justin Trudeau recently delayed the decision on whether to move forward on this project until March 1. I applaud this delay and urge our Canadian neighbors to abandon this project and identify a more suitable location outside the Great Lakes basin in order to protect the drinking water of millions of citizens in both countries.

Dow Chemical and DuPont are said to be in merger talks

New York Times, December 8, 2015

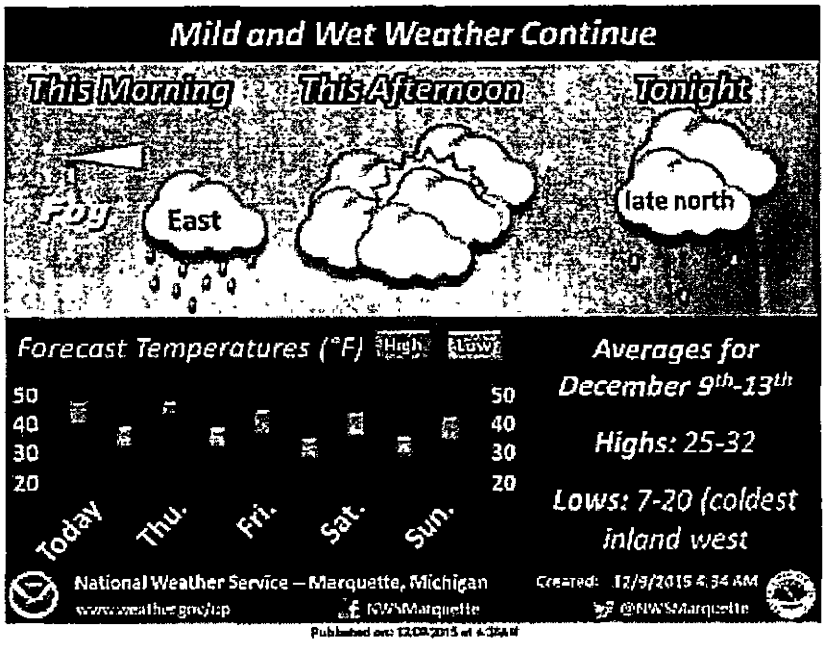
Dow Chemical and DuPont, two of the biggest and oldest companies in the American chemical industry, are in talks to merge in what would be one of the largest transactions in a year full of huge deals, people briefed on the matter said on Tuesday.

Under the terms being discussed, a merger of the two companies — each with a market value of roughly $60 billion — could eventually be followed by a breakup of the company, two of these people said.

Combined, the two companies would be the second-biggest chemical company in the world, in terms of revenue, after BASF of Germany, with more than $92 billion in annual sales. The next step being discussed would be to break up the merged company into three businesses: agricultural chemicals, specialty products, and materials, like plastics.

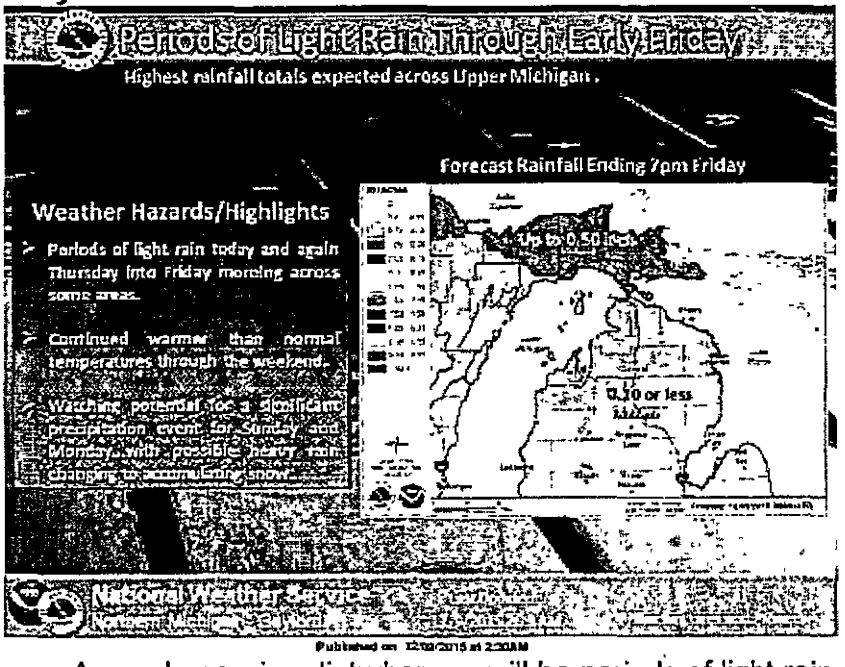
NATIONAL WEATHER SERVICE FORECASTS

Marquette



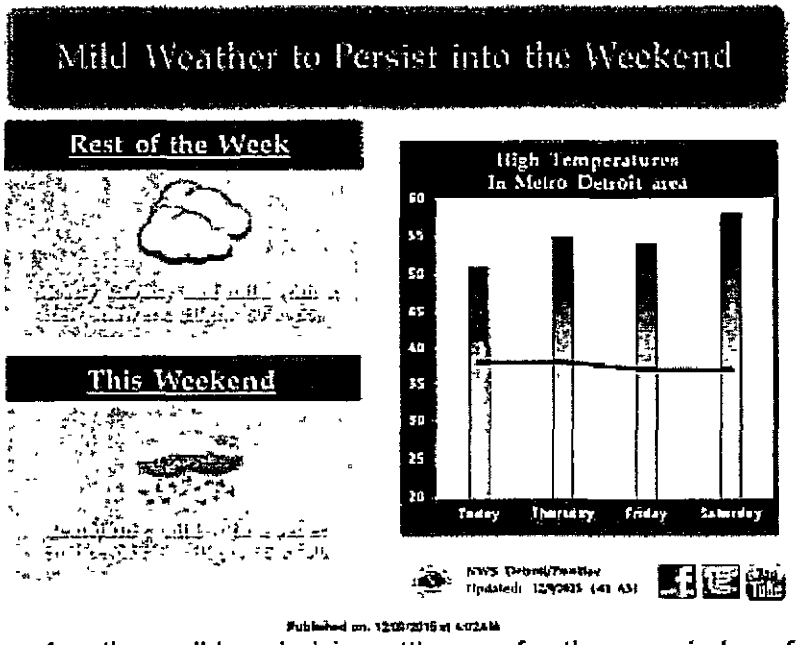
Rain will shift east this morning, exiting the area early this afternoon. Fog will gradually dissipate this afternoon. Chances for rain will return tonight over mainly northern portions of Upper Michigan.

Gaylord



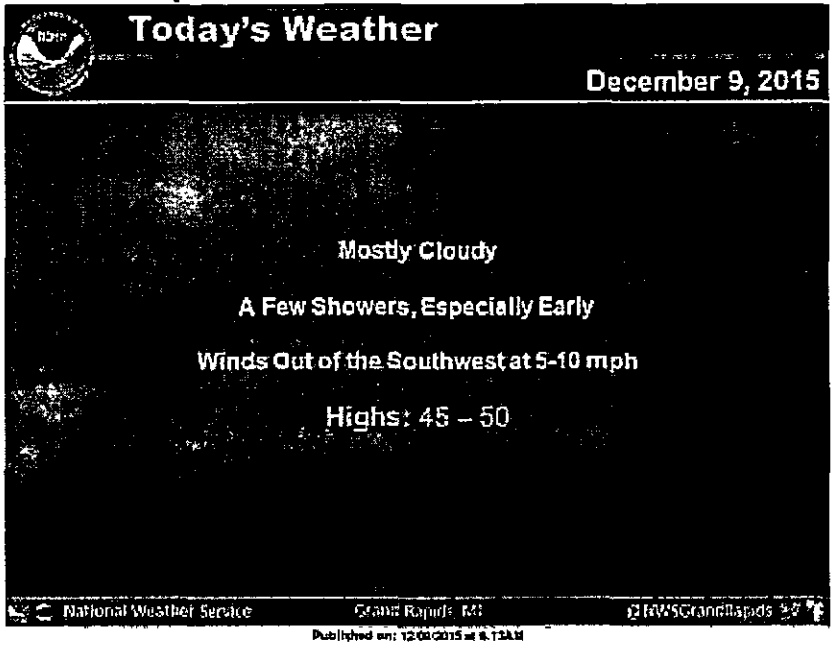
A couple passing disturbances will be periods of light rain showers to northern Michigan through Friday morning. Warmer than normal temperatures to continue through the weekend.

Detroit



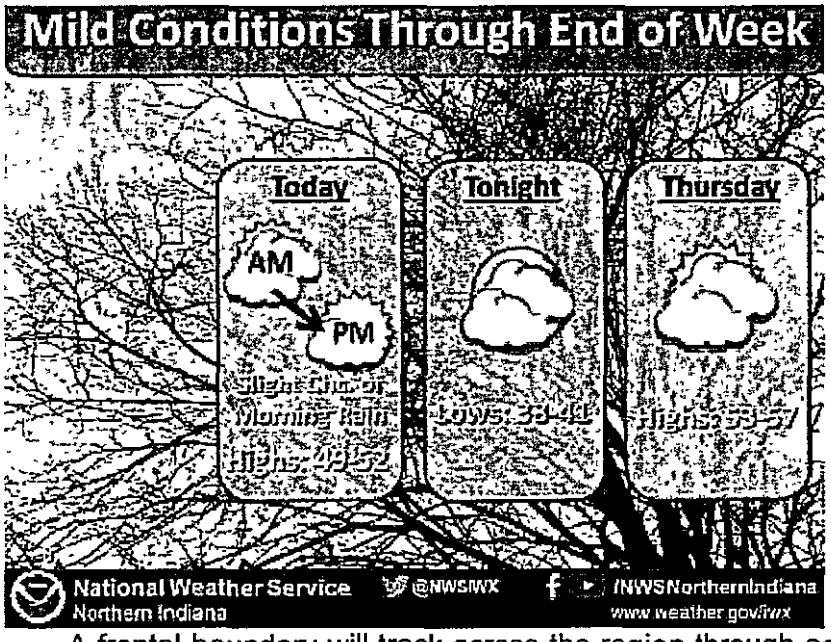
A rather mild period is setting up for the remainder of the week. High temperatures in the 50s will exceed the average high temperatures for this time of the year, mid to upper 30s, by a solid margin. There will also be a few showers during the period, culminating in a rather rainy end to the weekend.

Grand Rapids



Another day of clouds is expected. A few hit-or-miss showers will develop, especially early in the day. Mild conditions will continue with high temperatures approaching 50 degrees in many areas.

Northern Indiana



A frontal boundary will track across the region through early afternoon, bringing just a slight chance of rain showers. Clouds will decrease this afternoon as high temperatures warm into the upper 40's and lower 50's. Partly to mostly cloudy skies are expected tonight and Thursday, with highs reaching into the mid 50's on Thursday. The next chance of rain should hold off until late Friday afternoon or Friday night, but the above normal temperatures will continue through the upcoming weekend.

Thank You State Police Sgt. Yvonne Brantley
MyBayCity.com
12.8.15

Every year I'm asked to DJ an awesome event at Bay City's Wilder Road Meijer store called "Shop With A Cop".

Several children from the community are invited to Meijer to . . . Shop With A Cop.

State Trooper Yvonne Brantley.

State Police Sgt. Yvonne Brantley, affectionately referred to by me as "The Dancing Trooper" continues to impress me at these events. Brantley is out on the floor dancing with the kids, whipping & nae nae'ing (That is the first time Whipping & Nae Nae'ing has ever been written in a MyBayCity article!), wobbling and even instructing the Macarena from time to time.

With all the negative press about law enforcement officers in the Mainstream Media today, this State Trooper Yvonne Brantley spotlight is intended to shine a different light, a positive light, on an officer who goes out of her way to make a child smile.

Thank You Sgt. Yvonne Brantley and Merry Christmas

Police and firefighters bond with children during Shop with a Hero event
Roberto Acosta
MLive
12.9.15

Then onto the next aisle where their fellow officers and firefighters carted around the goodies and walked in step with what Burton police Chief Tom Osterholzer called their heroes.

For more than 60 emergency responders including police and firefighters from Burton, Flint, Mt. Morris Township and Genesee Township, as well as Michigan State Police, it was a scene that played out over and over Tuesday night during the Shop with a Hero at the Meijer store on Center Road in Burton.

Mini traffic jams took place in the toy and sporting goods departments as children from across Genesee County were provided with a $100 gift card from the store to shop for themselves, or a brother, sister, friend of relative.

Brooklyn Gibson, 9, of Burton, hadn't yet decided what she wanted for herself while patrolling the aisle ways with Burton police Officer Amber Berry and searched for gifts to wrap for her aunt and two cousins.

"I already got my aunt something, because she likes candles," said Gibson, eyeing a car and on the lookout with Berry for some My Little Pony items. "I don't know yet (for myself). That's why I wanted to get their stuff first."

Berry, the department's newest member, volunteered for the evening's assignment.

"It's definitely fun and it's refreshing, because sometimes we see families that are struggling and we don't see them under the best circumstances most of the time," she said. "It feels really good to see them on something positive and get kids to realize we're not bad guys."

"They leave with a friend and that's what matters to me, which is why I became a police officer," Berry said.

Osterholzer, during a brief presentation in front of the group after pictures with Santa Claus played by Burton Assistant Fire Chief Kirk Wilkinson and thanks by Burton Mayor Paula Zelenko to the store, police and fire, called the event one they wait for every year as well.

"This is a great night for you and guess what, this is a special night for us. We look forward to this night every year. If you look around this room, you see all these different police officers and firemen," he said, naming off the agencies crowded around tables in the dining area at the front of the store.

Cheryl Sclater, business and community development manager at ELGA Credit Union who also serves on multiple boards in Genesee County, said some of the children in the crowd came from Weiss Advocacy Center, Shelter of Flint and girl celebrating a birthday that had overcome cancer.

"I'm so happy we're going to bring some joy to these kids," she said, tears reddening her eyes as she spoke of the struggles they'd been through.

Elizabeth Ruediger, director of operations and development for Shelter of Flint, thanked Sclater for allowing some children in the permanent supportive housing program to be involved.

"Christmas should be magical for them," she said.

Children were able to enjoy pizza from Little Caesar's and candy, as well as letting loose their voices during stirring renditions of Rudolph the Red-Nosed Reindeer led by Osterholzer, Burton Fire Chief Marv Epperson and Mt. Morris Township police Chief Terence Green, all dressed in appropriate holiday garb.

Michigan State Police Trooper Amy Belanger called the event a huge one for children in the community "because we're giving them a Christmas that they may not have had otherwise."

Belanger said other Shop with a Hero events are planned in the area, including two in Shiawassee County, as well as an upcoming gathering at the Swartz Creek Meijer store on Morrish Road.

"It's such a good feeling because the kids just light up," she said. "They give away bikes and really big gifts. Their eyes get really big and they get really excited, it's a really cool thing."

Osterholzer asked the children a question and let them in on some top-secret information before they were released to shop with their partner.

"They call this Shop with a Hero, because there's police and firemen, right? Can I let you guys in on a little secret?" he said. "You guys, you are our heroes."

Firefighters seek help boosting donations for holiday food drive
Roberto Acosta
MLive
12.8.15
BURTON, MI – They rush into burning buildings, use tools of their trade to remove people from wreckage after car crashes and help other first responders during emergencies.

Firefighters in Burton are now asking for the public's aid during their 2015 holiday food drive.

"Donations are way down this year and we need your help," reads a message on the Burton Fire Department's Facebook page.

The program has helped provide hundreds of families with a meal over the last several years.

Anyone who is able to provide money or non-perishable food items can stop by one of the city's three fire stations – Station No. 1, 2031 E. Bristol Road, Station No. 2, 1320 S. Belsay Road, and Station No. 3, 4515 Davison Road – between noon and 5 p.m. Saturday, Dec. 12.

Donations can also be left at Burton City Hall, 4303 S. Center Road, or at the Burton Police/Fire Complex, 4090 Manor Drive, during regular business hours Monday through Friday.

Here's a look at some of the items the fire department is looking to collect in hopes of feeding 175 families this Christmas:

Canned vegatables
Canned fruit
Cereal
Stuffing
Instant potatoes
Gravy
Brownie mixes or cake mixes and frosting
Pasta
Pasta sauce

Door-to-door holiday scammers are stealing credit
Susan Tompor
Detroit Free Press
12.8.15

Now scammers are showing up at the door with gift baskets. The trick? They'll ask for your credit card or debit card to pay a "verification fee."

Who doesn't get excited to receive a holiday package?

Well now, the scammers are giving us reason to watch out for the "delivery scam."

The Better Business Bureau Serving Detroit & Eastern Michigan is warning that some scammers are trying to collect money -- and worse yet, your credit card or debit card numbers -- when they deliver a gift basket to your door.

The scam goes like this: The phone might ring in advance to alert you to an upcoming delivery or maybe the doorbell rings out of the blue. A delivery person brings a box or gift basket to the door but then the delivery person says you must pay a nominal fee to receive the item.

The delivery person then claims they only take a credit card or debit card and then produces a hand held scanner. It's even worse: The scanner would then collect the card number and security code. The con artists would use this information to make unauthorized charges or commit identity theft.

Melanie Duquesnel, president and CEO of the BBB Serving Detroit & Eastern Michigan, said in some cases the delivery is for a gift basket that contains wine or beer and the delivery person says they need to verify the age of the person receiving the basket. They might ask for your credit card or driver's license.

"They're swiping the information," Duquesnel said. "People are handing over their cards and they are essentially getting hacked face to face."

She said the BBB heard of a report of such a scam -- which the person did not fall for -- in the Grand Rapids area in the past few days. But there have been reports out of Alabama and Georgia of this similar scam, she said.

Never, of course, give your credit card or debit card information to someone at the door.

The holiday season is full of all sorts of potential delivery scams. We're told to beware of packages being stolen from our porches or near the door. We're also warned of fake emails that can lead to trouble, too.

The Federal Trade Commission has warned about phone "delivery failure notification" emails that can make the rounds during the holiday season. The email might look like its from the U.S. Postal Service and say you missed a delivery. But the trouble is the message will include more links to click for details. And here's where you'd end up with a virus or malware on your computer if you'd click on a link or download the attachment.

Another version: You might get "tracking" information sent via email say from FedEx.

FedEx warns on its web site that such fraudulent emails can contain the subject lines "Shipping Conformation," "Verify Info," "Some important information is missing" and "Please fulfill the documents attached to verify your identity."

Again, that phony email may have an attached file that may contain a virus or other malware.

FexEx warns that if you receive a message matching these descriptions, do not open the email or click on the attachment. Delete the email immediately or forward it to abuse@fedex.com.

Duquesnel said the phony delivery-related emails are likely to run fairly steady this holiday season after so many people bought gifts online on Cyber Monday and during what's become Cyber Week.

"It's holiday time -- so everybody ordered online," she said. "You need to be very wary."

She recommends not clicking on any links. If you want, copy a number and go directly to the FedEx site to track the package.

Legislature votes to end deadline to request DNA testing
Detroit Free Press (Associated Press)
12.8.15

LANSING — The Michigan Legislature is eliminating a deadline for people convicted of felonies to petition a judge for new DNA testing and a new trial.

Michigan in 2001 began allowing post-conviction requests for DNA testing, which has resulted in innocent inmates being set free. There was a deadline to file, which has been delayed several times.

Legislation approved unanimously by the House on Tuesday eliminates a Jan. 1, 2016 deadline and sets no new deadline. It has cleared both chambers and likely will be sent to Gov. Rick Snyder on Wednesday for his expected signature.

Supporters say the post-conviction DNA testing process does not burden the courts. The Cooley Innocence Project says it has screened more than 5,000 cases since 2001 but filed just 27 DNA testing petitions as of March.

Detroit police, county sheriff team up for security
The Detroit News
12.8.15

With an aim toward combining resources, Wayne County Sheriff Benny Napoleon and Detroit Police Chief James Craig will announce a joint effort Wednesday to better patrol the city's borders along the river.

The two law enforcement officials will hold a 2 p.m. news conference at Napoleon's office to discuss the joint security venture. The idea sprang, the sheriff said, from conversations about combining resources to better protect and enhance border security by air and water.

"We determined that by combining our resources we would be more effective and have a greater number of people that we could choose from to put on the border at any given time," Napoleon said. "It's just a matter of being able to bring DPD and the Sheriff's Office together to give more coverage over a longer period of time."

No officers will be added to the four sergeants and six officers soon to be assigned to the effort as part of the plan to be announced Wednesday.

Napoleon said that he and Craig came up with the idea given "some of the challenges that he was having and some of mine," and realized it was better to combine efforts.

http://www.detroitnews.com/story/news/local/detroit-city/2015/12/08/detroit-police-county-sheriff-team-security/77022224/

Cops compete to lose weight, lower blood pressure
Daniel Bethencourt
Detroit Free Press
12.8.15

Dozens of Detroit police officers are challenging each other to drop pounds and lower their blood pressure as part of a 90-day weight loss challenge.

The competition, which began Tuesday and so far involves 185 officers and staff members, is the start of what Police Chief James Craig called a new focus on health and well-being. He even announced the new effort while wearing Nike track pants and other workout attire.

"I just weighed myself and I'm proud to say I'm certainly within the acceptable range," Craig said. He added, laughing, "I had to take my gun off because every pound counts."

The challenge began with a weigh-in and health screening at Detroit Police headquarters. The screenings were organized by Detroit Medical Center, which will check in again with the participants after the event is over. DMC has also made a staff member available for stress counseling to help with the demands of the job.

Over the next 90 days, police staff will sign up to teams through precincts and challenge each other to make the most dramatic impact on their own health before the Detroit Medical Center staff returns for another evaluation. The winners will receive awards and recognitions.

Detroit police officers do not currently have any formal fitness requirements in place after the academy, and Craig noted that some officers have stopped working out after they joined the department's ranks.

But Craig said that a healthier police force was likely to deal better with residents.

"An officer who's fit certainly reacts (to) the public differently," he added.

Kalkaska Runaway Girl Found in Tennessee
TV 9&10
12.8.15

"There were some prior interactions between the two individuals that landed some trouble for the both of them."

A Tennessee man was arrested after driving to Kalkaska to pick up a reported runaway teenager and taking her back home with him.

With the help from police in Tennessee, the 15-year-old girl has been found and is back in Michigan.

The 18-year-old man from Tennessee is now in Kalkaska Police custody after taking the runaway across state lines.

Officers say the two had been talking on social media before meeting up at the Kalkaska McDonald's. They then left for Columbia, Tennessee.

Detective and Sergeant Wesley Smith works as part of the Michigan State Police Internet Crimes against Children Task Force. He says, "Law enforcement, to keep up with that trend has to have a presence on social media."

Without social media Kalkaska and Columbia Police may not have been able to find the runaway girl and Thomas Edmiston as quickly.

Sergeant Glenn Artress of Kalkaska Police says, "We were able to get that information to those local jurisdictions and they were able to put out to their social media and have the people within their communities see exactly who and what we were looking for."

Columbia police got a tip from someone there that helped them find the girl. She is now back in Kalkaska to appear in court for an incorrigible runaway complaint.

"After we got the 15-year-old back here in Kalkaska we sought a warrant for Mr. Edmiston," says Sergeant Artress

Edmiston is now facing an Obstruction of Justice felony charge.

Michigan State Police Internet Crimes says situations like these can be avoided. "If the parents were a little bit more involved there is a good chance they could have at least been aware of what was going on," says Smith.

He says this case can be a learning experience for other parents to be more aware of what their child does on social media.

"It doesn't hurt for parents to be aware of what the children are doing and what I mean is maybe they need to have a Facebook account and friend their children."

Subject: RE: Water loads - press release

I don't know about all of you but I am confused as to who know what now so let's start over.

BJ thank you for directing us to this available water it is a wonderful savings for the community . We have acquired two truckloads of water for the cost of transportation, a savings of about $5,000.

We have confirmed with FEMA HQ – the approval for the release of 2 loads of water out of Fredrick, Maryland. Darwin Freight is scheduled to pick up 1 load on Thursday the 10th and the 2nd load on Friday the 11th.

I contacted Dan Schulman for FEMA (312) 408-4427 dan.shulman@fema.vhs.gov and provided follow up information for the loads and identified myself as contact person if they had any questions. Jamie and I will prepare a press release to inform the community of the donation of the water and the collaboration of community that made it possible.

FEMA only concern about the donation is that it was made based on the availability of the water not due to any particular issue in Flint or anywhere else.

Jamie give me a call tomorrow and we can finalize the press release and I can have one of our staff prepare it. If I have forgotten anything or if anyone thinks we need to take any other steps let me know.

Bill:

Why don't we do the press release together. I am ccing in Jamie Lee Venable. I also think we need to include some type of acknowledgment for the BJ at the State Police Post. This really was her baby in terms of identifying and connecting the resource. If you can respond to the email below and just cc in myself and Jamie-Lee and we can put a quick release together.

Jamie,

Got it all taken care of 2 loads of water coming to Flint , 10 and 11 of December. Please see the e-mail below there is a question about a press release and contact for area. Do you want to handle this or would you prefer us to?

From: Tina M Martinez
Sent: Tuesday, December 08, 2015 2:27 PM

Subject: Water loads

Hi Bill,

We have confirmed with FEMA HQ - Tureana Dash receiving release numbers for 2 loads of water out of Fredrick, Maryland. I have passed on the release number to Darwin Freight. They are looking to set up to pick up 1 load on Thursday the 10th and the 2nd load on Friday the 11th.

I received a call from Chicago Dan Schulman for FEMA(312) 408-4427. Dan needed follow up information for the loads if asked who could they contact here at our Food Bank I gave him your name. He also wanted to know if asked who in the city could they refer to for questions and are we doing a press release when we receive the water. I let him know I would talk with you and either have you call or I would follow-up.

Thanks

Tina

A couple of points:

- The Food Bank of Eastern Michigan is the nonprofit. (He thought. Not for sure.)
- This is NOT a disaster declaration.
- This is a routine disbursement of a commodity that's about to expire.
- The nonprofit that's receiving the water is responsible for the logistics.

This is a proactive action that's occurring so nobody is taken off guard or making any assumptions about a Presidential disaster declaration.

MEDIA MONITORING REPORT

12/8/2015

Issues:

- No issues to report.

Summary:

- Virginia Tech Professor Marc Edwards spoke to a small group of doctors and others interested in the Flint water crisis during a presentation at Hurley Medical Center last week.
- Citizens of Flint Michigan have filed a federal class action lawsuit accusing the city government of exposing them to water with high levels of lead.
- U.S. Rep. Dan Kildee says he doesn't care whether anyone is fired or apologizes for Flint's lead-in-water crisis, wants people to focus on helping with the impact of lead levels in Flint children.
- Dr. Mona Hanna-Attisha has become one of Flint's best-known doctors, partly because of her role in forcing the city to end its use of the Flint River as its water source, according to MLive.
- The couple who carried out the deadly attack in San Bernardino that killed 14 people last week had long been radicalized and had been practicing at a target range days before their murder spree, the Federal Bureau of Investigation said Monday.
- Emergency Management Magazine reports President Obama used a televised Oval Office address to call on Muslim Americans to help counter the Islamic State's violent ideology in response to the San Bernardino massacre, and to reassure fearful Americans that the administration has a plan to counter homegrown terrorism.
- On Nov. 24, Gaylord High School was put into "secure mode" following a reported bomb comment, and county officials said law enforcement and other responders won't be changing how they handle similar threats in the near future.
- Officials in Beijing declared on Monday that the thick smog blanketing the city was bad enough to require a red alert, the first time they had raised the alarm to its highest level since an emergency air-pollution response system was announced in 2013.
- State officials plan to remove hundreds of chemicals from a long list that requires companies to perform modeling of smokestack emissions.
- Keith Allard and Ben Graham, the two ex-staffers of former Representatives Todd Courser and Cindy Gamrat, filed a federal whistleblower lawsuit against the Michigan House of Representatives.
- A state house committee is expected to vote tomorrow on a bill banning civilians from flying drones over active police investigations.

- Sen. Marty Knollenberg, R-Troy, apologized today for comments he made at a legislative committee meeting in which he referred to not being able to make African-American children white.
- National Weather Service forecast updates.
- TV clips: Sen. Marty Knollenberg; Weaver's first town hall.

Analysis:

- Media coverage is neutral.
- Coverage continues on Flint water.
- Alex Jones of infowars.com reports that a federal class action lawsuit has been filed accusing the Flint City government of exposing citizens to water with high levels of lead.

FLINT

Hear professor explain how Washington, D.C., was a prelude to Flint's water crisis

MLive, December 7, 2015

FLINT, MI – Virginia Tech Professor Marc Edwards spoke to a small group of doctors and others interested in the Flint water crisis during a presentation at Hurley Medical Center last week.

For those who missed it, all of Edwards' remarks are now available in a video posted on YouTube.

Although Edwards discusses how Flint came to be in a health emergency because of rising levels of lead in water, he tracks back in time to similar problems with the water supply in Washington, D.C.

Flint, Michigan residents file federal lawsuit for lead contamination of water

Info Wars, December 7, 2015

Citizens of a central Michigan town have filed a federal class action lawsuit accusing the city government of exposing them to water with high levels of lead.

The suit was filed on behalf of four children who suffered hair loss, chronic throat problems, and other health concerns due to the City of Flint pumping the Flint River in 2014 to save money. The city of Flint broke away from Detroit's water system last year, pending the build out of a new regional pipeline.

Kildee: Forget firings and apologies in water crisis, take care of Flint kids

MLive, December 7, 2015

FLINT, MI — U.S. Rep. Dan Kildee says he doesn't care whether anyone is fired or apologizes for Flint's lead-in-water crisis.

But the Democratic congressman from Flint Township said there is something he does want: "Making sure that the things we know that can be done to offset the impact of lead exposure to these kids are done."

Speaking on the "Overtime" section of the PBS public affairs television program "Off the Record" last week, Kildee was asked whether Michigan Department of Environmental Quality Director Dan Wyantshould be fired because the state allowed Flint's water problems to fester since early 2014.

Seven things you don't know about Flint's crusading water crisis doctor

MLive, December 7, 2015

FLINT, MI — Dr. Mona Hanna-Attisha has become one of Flint's best-known doctors, partly because of her role in forcing the city to end its use of the Flint River as its water source.

As the director of Hurley Medical Center's Pediatric Residency Program, Hanna-Attisha conducted research showing the blood lead levels of children in Flint had doubled since April 2014, when Flint disconnected from the Detroit water system and began treating its own river water.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Killer were long radicalized, F.B.I. Investigators say

New York Times, December 7, 2015

SAN BERNARDINO, Calif. — The couple who carried out the deadly attack that killed 14 people here last week had long been radicalized and had been practicing at a target range days before their murder spree, the Federal Bureau of Investigation said Monday.

The characterization of the husband and wife team, Syed Rizwan Farook and Tashfeen Malik, came as F.B.I. investigators were leaning away from the theory that Ms. Malik, who declared allegiance to the Islamic State on Facebook around the time of the attack, had led her American-born husband to the violence.

Couple practiced at shooting ranges before California attack

9 & 10 News, December 7, 2015

SAN BERNARDINO, Calif. (AP) - Just days before he carried out an attack that killed 14 people, Syed Farook practiced with a rifle during one of several recent visits to a local shooting range, authorities said. Sometimes he was joined by his wife, his partner in the carnage.

An instructor at Riverside Magnum Range - about 20 miles from the Inland Regional Center where the two targeted Farook's co-workers a few days later - said Farook visited the range on Nov. 29 and 30.

Obama seeks to allay anxieties over terror threat

Emergency Management, December 7, 2015

(TNS) - President Obama used a televised Oval Office address for only the third time in his presidency Sunday to call on Muslim Americans to help counter the Islamic State's violent ideology in response to the San Bernardino massacre, and to reassure fearful Americans that the administration has a plan to counter homegrown terrorism.

Using perhaps his strongest language yet to describe radical jihadists as "thugs" who perpetrate "a cult of death," Obama directly called the San Bernardino shooting "an act of terror." He challenged the Muslim community at home and abroad to speak out against violent ideology and at the same time urged Americans not to abandon their own values by turning against Muslims.

GHS 'secure mode' incident reinforces local response protocol

Petoskey News, December 7, 2015

GAYLORD — On Nov. 24, Gaylord High School was put into "secure mode" following a reported bomb comment, and county officials said law enforcement and other responders won't be changing how they handle similar threats in the near future.

Jon Deming, Otsego County emergency manager and county EMS chief, said the school incident was not a credible threat to school safety.

Beijing issues red alert over air pollution for the first time

New York Times, December 7, 2015

BEIJING — Officials in Beijing declared on Monday that the thick smog blanketing the city was bad enough to require a red alert, the first time they had raised the alarm to its highest level since an emergency air-pollution response system was announced in 2013.

Across the city, residents braced for another "airpocalypse" — the term that some English speakers here use for the most toxic bouts of air pollution.

If carried out properly, the temporary restrictions will affect many of Beijing's more than 20 million residents. From 7 a.m. on Tuesday to noon on Thursday, schools will be required to close; cars will be allowed to drive only on alternate days, depending on their license plate numbers; and fireworks and outdoor barbecuing will be banned (grilled kebabs are a hugely popular street food in the city). In addition, government agencies will have to keep 30 percent of their automobiles off the streets.

MICHIGAN ENVIRONMENTAL

State to remove 450 chemicals from list of 1200 toxic chemicals requiring modeling

Michigan Radio, December 7, 2015

State officials plan to remove hundreds of chemicals from a long list that requires companies to perform modeling of smokestack emissions.

The Michigan Manufacturers Association says each model can cost between $20,000 and $100,000, and removing the chemicals will make the process more efficient.

MICHIGAN POLITICS

Former Courser and Gamrat staffers sue the Michigan House of Representatives

Michigan Radio, December 7, 2015

Keith Allard and Ben Graham, the two ex-staffers of former Representatives Todd Courser and Cindy Gamrat, filed a federal whistleblower lawsuit against the Michigan House of Representatives.

In their lawsuit, the ex-staffers allege that House Speaker Kevin Cotter's office ignored their reports that Gamrat and Courser were engaging in an extra-marital affair, and that the two representatives were misusing their office by forcing the staffers to do political work with taxpayer money.

State lawmakers expected to vote on restrictions on drones

Michigan Radio, December 7, 2015

A state house committee is expected to vote tomorrow on a bill banning civilians from flying drones over active police investigations.

The state House Criminal Justice committee meets Tuesday morning to discuss HB 4868. The bill would make it a misdemeanor to fly a drone in a way that interferes with a law enforcement officer, firefighter or utility worker. If found guilty, the person flying the drone could face up to a year in jail and a $1,000 fine.

Knollenberg apologizes after education comment uproar

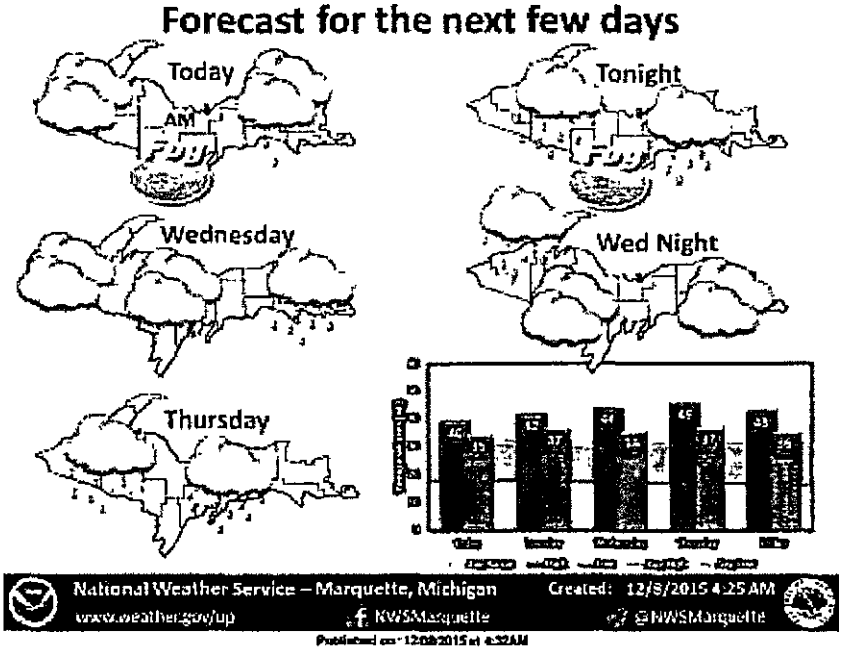
Detroit Free Press, December 7, 2015

Sen. Marty Knollenberg, R-Troy, apologized today for comments he made at a legislative committee meeting in which he referred to not being able to make African-American children white.

Knollenberg made the controversial comments Thursday after Natasha Baker, the state school reform officer, gave a presentation to the Senate Education Committee in which she talked about the characteristics of priority schools — so called because they are among the worst-performing schools in the state.

NATIONAL WEATHER SERVICE FORECASTS

Marquette

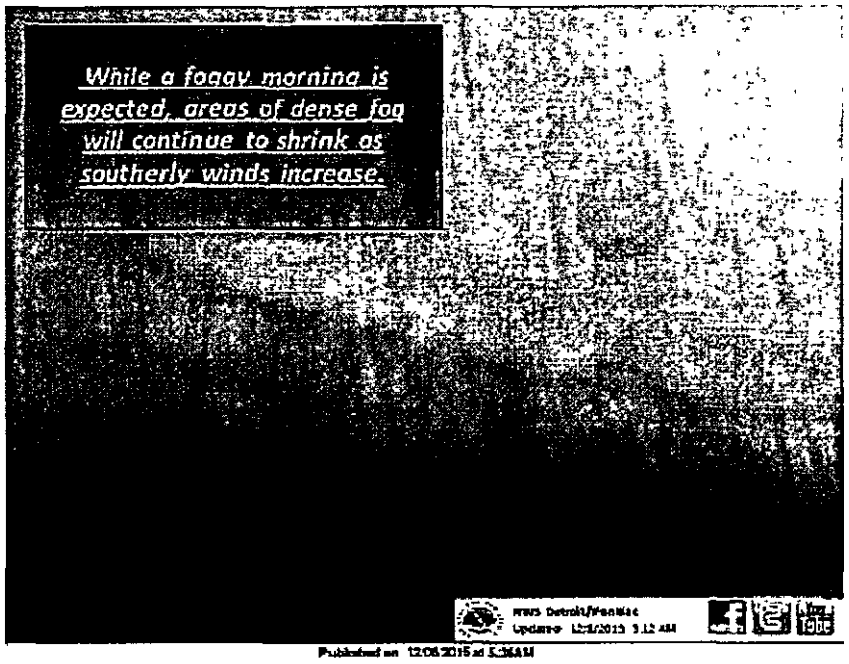


Expect above normal temperatures to persist through the end of the week. After a mostly cloudy day today, a disturbance approaching from the west will bring rain showers tonight that persist over the east into Wednesday morning. There will be another light precipitation event on Wednesday night into Thursday, mainly over northern Upper Michigan.

Gaylord

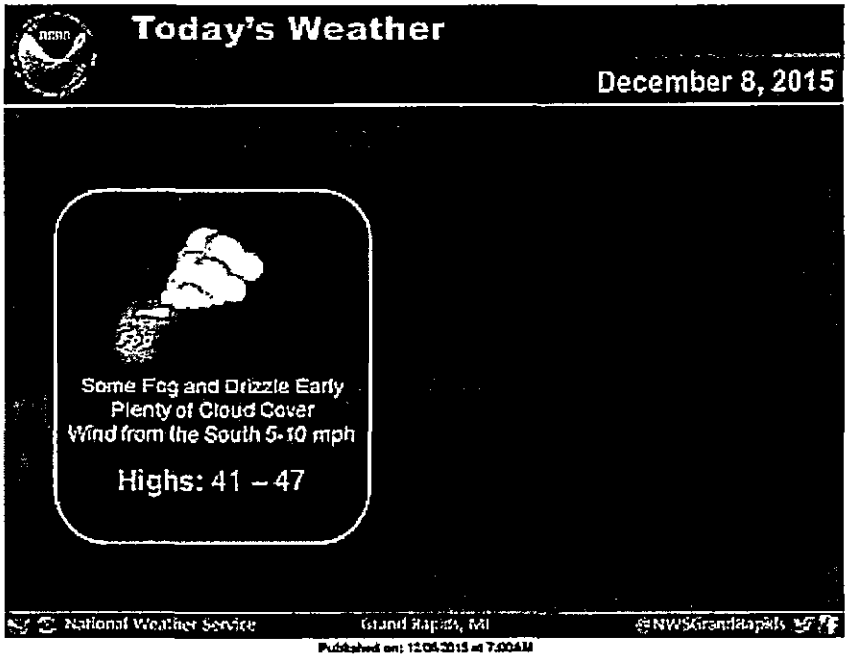
Mostly cloudy weather to continue through the rest of the week as several weather disturbances sweep across Michigan. Some drizzle can be expected today...with light rain showers later tonight through Wednesday afternoon...and again Thursday afternoon into Friday. Temperatures will remain well above normal right on into the weekend.

Detroit



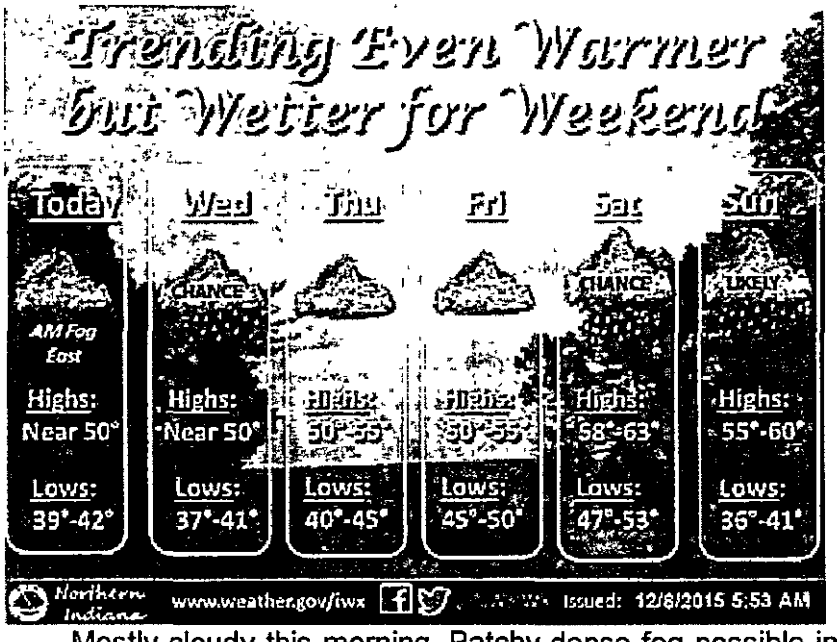
Fog will persist this morning, but the lowest visibilities are expected to hold at one half a mile or more early this morning as the remaining patches of dense fog gradually dissipate. Widespread dense fog is no longer expected to be an issue.

Grand Rapids



Plenty of clouds will rule our skies through the day today. Early morning fog and patchy drizzle is possible, but no significant weather is expected. Temperatures will be slightly above normal with highs in the 40s.

Northern Indiana



Mostly cloudy this morning. Patchy dense fog possible in Northwest Ohio. Becoming partly sunny this afternoon. Highs near 50. The rest of the week will remain mild with highs trending toward the 60s by the weekend! However...rain chances will increase for the weekend as well.

Hi it's Sheri Jones. It was one year ago today that Ingham County Sheriff's Office Deputy Grant Whitaker was killed during a high-speed chase near Stockbridge. Tonight on 6 News at 11 hear from his

second family, the Ingham Co. Sheriff's Office as they honor and remember him for paying the ultimate sacrifice.

Good morning, just learned 2 truckloads of water was ordered for Genesee co food banks. The cost for delivery is $1500 per truck which is being paid for by the United Way. Jamie Gaskin, UW, advised that is half the cost they would have paid otherwise so he is extremely thankful. This was just stated in our weekly Flint Water meeting. 😊

Subject: EMPG Project Question

Please let me know if the below would be eligible for EMPG use. I would look for $25,000.

Provide communication consulting services for the Flint Water Advisory Task Force (FWATF)

Consultant will devote such business efforts and time as is reasonably required to fulfill the outlined services below in the "Scope of Work". It is anticipated that the Consultant will devote a minimum of 60 hours per month to this project.

Scope of Work
Assist the FWATF in the following:

1. Development and coordinating of overall strategic messaging
2. Serve as media contact and spokesperson
3. Assist in the writing and distribution of documents such as reports and press releases
4. Attend meetings, conferences and interviews
5. Coordinate media information distribution
6. Media Training as needed
7. Editorial Board meeting coordination
8. Assist with Community Forums
9. Develop and maintain media contact information
10. Press conference preparation and implementation

Other items may be added to the "Scope of Work" if all parties agree.

Thanks,

Capt. Chris A. Kelenske
Deputy State Director/Commander
Emergency Management and Homeland Security Division
Michigan State Police
4000 Collins Road
Lansing, MI 48910

MEDIA MONITORING REPORT

12/7/2015

Issues:

- No issues to report.

Summary:

- Researchers from Wayne State University and volunteers from the United Way hit Flint's street Saturday to perform tests on residents' drinking water.
- The director of Hurley Medical Center's Pediatric Residency Program, whose research first showed rising levels of lead in the blood of Flint children, is expanding her data-driven work and also pushing to create a model public health program here — one aimed at offsetting the damage that's been caused by high levels of lead in water.
- The Michigan Department of Environmental Quality is in talks with Flint officials about financing forgivable loans to replace lead-leaching water pipes while U.S. Rep. Dan Kildee is pursuing federal forgiveness for the city's nearly $21 million in past loans for drinking water infrastructure improvements.
- Fewer of Flint's children have tested positive for elevated blood-lead levels since Oct. 1, with the rate falling to 3% of children under 6, according to new state data.
- Flint Mayor Karen Weaver is scheduled to hold her first town hall meeting Tuesday, Dec.8, in the city's 1st Ward.
- President Barack Obama called on Congress to authorize a use of force against the Islamic State while remarking on the need for enhanced gun control measures in a rare address to the United States Sunday night.
- Emergency Management Magazine reports that Newport News Police Chief Richard Myers says there is no way to prepare for shootings like those in San Bernardino, Calif., on Wednesday, but police can train on a regular basis in order to respond effectively.
- Beijing's city government issued its first red alert for pollution on Monday, ordering schools to close, halting outdoor construction and restricting car use due to hazardous air quality.
- San Bernardino gunman Syed Rizwan Farook was "fixated" on Israel -- and supported ISIS' ideology of establishing an Islamic caliphate, his father says.
- A Detroit pastor has submitted revised wording for a petition to recall Gov. Rick Snyder over the Flint water crisis, but an attorney for the governor says the new wording still fails to meet standards required under state law.

- Lawmakers in Lansing are considering a house bill that would require Michigan high school students to pass a civics test before they get their diploma.
- A Republican Michigan lawmaker has apologized for comments he made during a hearing that were deemed racially insensitive by Democratic leaders and a teachers' union.
- Republicans' push to eliminate Michigan's straight-party voting option may improve the odds of voters being allowed to cast absentee ballots for any reason, according to Michigan Radio.
- Michigan state Senator Marty Knollenberg, accused of making "racist" comments in a committee hearing last week, apologized Monday for what he called a "clunky" choice of words.
- A deer killed by a hunter in DeWitt Township in Clinton County tested positive for chronic wasting disease.
- Domestic clean energy efforts are leading to decreases in mercury pollution in the Great Lakes, a new International Joint Commission report says that increased reliance on fossil fuels overseas poses new concerns.
- National Weather Service forecasts.
- TV clips: Flint lead levels.

Analysis:

- Media coverage is neutral.
- Detroit News reports that MDEQ is in talks with Flint officials about financing forgivable loans to replace lead-leaching water pipes while U.S. Rep. Dan Kildee is pursuing federal forgiveness for the city's nearly $21 million in past loans for drinking water infrastructure improvements.
- Flint Mayor Karen Weaver will hold her first town hall meeting on Dec. 8.
- Will continue to monitor the situation.

FLINT

Water tests conducted at Flint homes by Wayne State University researchers

MLive, December 5, 2015

FLINT, MI – Researchers from Wayne State University and volunteers from the United Way hit Flint's street Saturday to perform tests on residents' drinking water.

Dr. Shawn McElmurry is an Associate Professor at Wayne State University's Department of Civil and Environmental Engineering. This is the second major water sampling trip McElmurry has made to Flint since October.

Crusading Flint doctor says 'we're not done' fighting fallout of lead in water

MLive, December 7, 2015

FLINT, MI – You may have thought Flint's lead in water crisis was drawing to a close, but the Hurley Medical Center doctor who played a critical role in ending the city's use of the Flint River has other plans.

"I am not going to sit back and just see what happens ... so that in 20 years these Flint kids will (have been) nothing more than statistics on the consequences of lead poisoning," said Dr. Mona Hanna-Attisha.

Loan forgiveness sought for Flint to replace lead pipes

Detroit News, December 6, 2015

The Michigan Department of Environmental Quality is in talks with Flint officials about financing forgivable loans to replace lead-leaching water pipes while U.S. Rep. Dan Kildee is pursuing federal forgiveness for the city's nearly $21 million in past loans for drinking water infrastructure improvements.

Kildee said Friday he wants the U.S. Environment Protection Agency to forgive Flint's debt to a federally-funded clean drinking water loan fund to free up money for the cash-strapped city to invest in replacing aging water lines linked to elevated lead levels in the blood of some Flint children and adults.

State says Flint kids' blood-lead levels have dropped

Lansing State Journal, December 5, 2015

Fewer of Flint's children have tested positive for elevated blood-lead levels since Oct. 1, with the rate falling to 3% of children under 6, according to new state data.

It's an expected outcome in Flint, where residents have been battling water quality issues for more than a year despite government assurances that the water was safe to drink. Late this summer, independent researchers showed dangerous lead levels in the water and in children's blood, but by then, tons of bottled water had been shipped in and consumed by residents worried about what was pouring from their taps.

KWA board members must work together for future of region's water system

MLive, December 7, 2015

FLINT, MI – The city of Flint has every reason to be cautious about the future of its water supply.

As newly elected Flint Mayor Karen Weaver assumes her role on the Karegnondi Water Authority amid a citywide water crisis, we can appreciate her desire to tap the brakes on major developments and ask a lot of questions about the new pipeline being built to end our dependence on Detroit water once and for all.

Flint Mayor Karen Weaver's first town hall set for city's 1st Ward

MLive, December 4, 2015

FLINT, MI – Mayor Karen Weaver is scheduled to hold her first town hall meeting Tuesday, Dec.8, in the city's 1st Ward.

Weaver this week announced steps she intend to take during her first 100 days in office, including several aimed at community outreach.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

President Obama: 'We will destroy ISIL'

NBC 25 News, December 6, 2015

President Barack Obama called on Congress to authorize a use of force against the Islamic State while remarking on the need for enhanced gun control measures in a rare address to the United States Sunday night.

Obama began by speaking of the evolving threat of terrorism since the attacks on Sept. 11, 2011.

"Terrorists turn to less complicated acts of violence," Obama said referencing the deadly shooting in San Bernardino, California. "Our success won't depend on tough talk, abandoning our values, or fear.

In aftermath of San Bernardino Shooting, training is key, police say

Emergency Management, December 4, 2015

(TNS) - Newport News Police Chief Richard Myers says there is no way to prepare for shootings like those in San Bernardino, Calif., on Wednesday, but police can train on a regular basis in order to respond effectively.

"I would say you can't prepare for a specific incident, because we don't know what it's going to be, but what you can do is develop the ability to adapt and respond — that is why we drill to practice key tactics and skills, but also instill in first responders how to adapt on the fly and react professionally, efficiently and effectively at whatever gets thrown at you," Myers said Thursday.

Beijing issues first red alert as air pollution hits hazardous levels

CNN, December 7, 2015

Hong Kong (CNN)Beijing's city government issued its first red alert for pollution on Monday, ordering schools to close, halting outdoor construction and restricting car use due to hazardous air quality.

Beijing's Municipal Bureau of Environmental Protection warns that severe pollution will cover the Chinese capital, starting Tuesday local time and lasting for more than three days.

San Bernardino shooter supported ISIS, was 'fixated' on Israel, father says

CNN, December 7, 2015

(CNN)Southern California gunman Syed Rizwan Farook was "fixated" on Israel – and supported ISIS' ideology of establishing an Islamic caliphate, his father says.

Farook's father talked to an Italian newspaper about his son, one of two shooters in last week's deadly attack in San Bernardino.

Along with his wife, Tashfeen Malik, Farook targeted his co-workers at a holiday party for the environmental health department, killing 14 people and leaving 21 wounded.

Authorities gunned down the couple hours later in a shootout.

MICHIGAN POLITICS

Detroit pastor submits revised Snyder recall petition

Detroit Free Press, December 2, 2015

LANSING — A Detroit pastor has submitted revised wording for a petition to recall Gov. Rick Snyder over the Flint water crisis, but an attorney for the governor says the new wording still fails to meet standards required under state law.

The Board of State Canvassers is to consider the proposed recall petition from Angelo Scott Brown when it meets at the Capitol on Thursday morning.

House bill would make citizenship test a high school graduation requirement

Michigan Radio, December 4, 2015

How many US senators are there? What does the President's cabinet do? Who is in charge of the executive branch?

High school students who can't answer those questions might want to start studying. Lawmakers in Lansing are considering a house bill that would require Michigan high school students to pass a civics test before they get their diploma.

Lawmaker apologizes for comments deemed racially insensitive

Michigan Radio, December 5, 2015

LANSING, Mich. (AP) - A Republican Michigan lawmaker has apologized for comments he made during a hearing that were deemed racially insensitive by Democratic leaders and a teachers' union.

Television stations WDIV and WXYZ report Troy Sen. Marty Knollenberg apologized Friday after criticism over comments he made during an education committee hearing. In speaking about struggling school districts, Knollenberg said the "non-white population" is a contributor, "we can't fix that" and "you can't make an African-American white."

House Democratic Leader Tim Greimel called Knollenberg's comments "unfortunate" and hopes he can "get a better grasp of what challenges school districts face by a diverse array of students." American Federation of Teachers Michigan President David Hecker said the comments were "racist and ... a major step backwards in improving education."

NO-reason absentee voting bill pushed in Michigan House

Michigan Radio, December 5, 2015

LANSING, Mich. (AP) - Republicans' push to eliminate Michigan's straight-party voting option may improve the odds of voters being allowed to cast absentee ballots for any reason.

A lawmaker is pushing for passage of "no-reason" absentee voting legislation next week. Voters could ask for an absentee ballot application in person at their clerk's office without needing an excuse.

They currently must be 60 years or older, be out of town when polls are open or meet other criteria.

Michigan Senator, under fire for racial comments, apologizes for 'clunky' word choice

MLive, December 7, 2015

LANSING, MI — Michigan state Senator Marty Knollenberg, accused of making "racist" comments in a committee hearing last week, apologized Monday for what he called a "clunky" choice of words.

The Troy Republican sits on the Senate Education Committee, which heard testimony on Thursday from Natasha Baker of the State School Reform Office, which is tasked with turning around the state's worst-performing schools.

MICHIGAN ENVIRONMENTAL

Clinton county deer tests positive for chronic wasting disease

Michigan Radio, December 4, 2015

A deer killed by a hunter in DeWitt Township in Clinton County tested positive for chronic wasting disease. It is the fourth deer found with the disease in southern Michigan this year, and it shows that efforts by the Department of Natural Resources to stop the disease from spreading have not been successful.

DNR deer management specialist Chad Stewart says that the deer was found about eight miles from the previous CWD cases, which were in Meridian Township. "Having one in Clinton Township means there is at least one more there or in between. We have our work cut out for us in terms of managing this disease."

Report finds coal burning in Asia leading to increased mercury in some Great Lakes fish

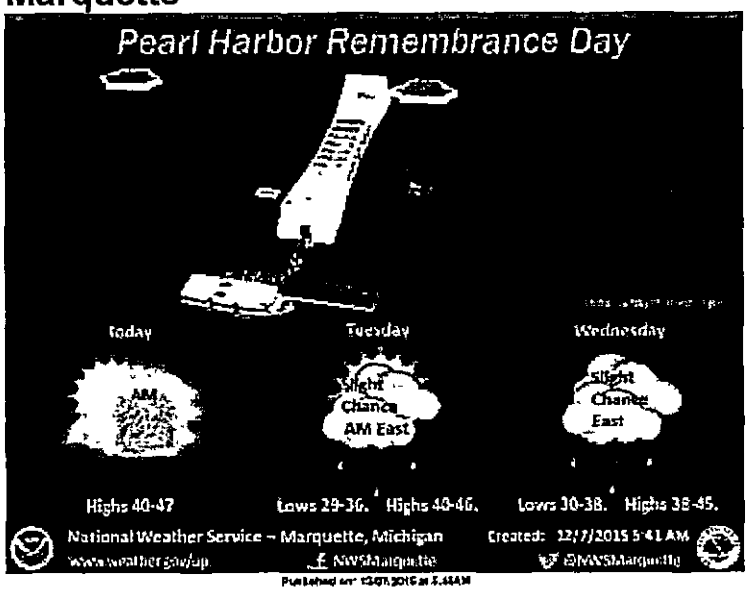
Michigan Radio, December 4, 2015

Although domestic clean energy efforts are leading to decreases in mercury pollution in the Great Lakes, a new International Joint Commission report says that increased reliance on fossil fuels overseas poses new concerns.

The IJC report urged the Canadian and U.S. governments to better monitor for mercury in the Great Lakes after noting increased levels of mercury in some fish in some parts of the Great Lakes.

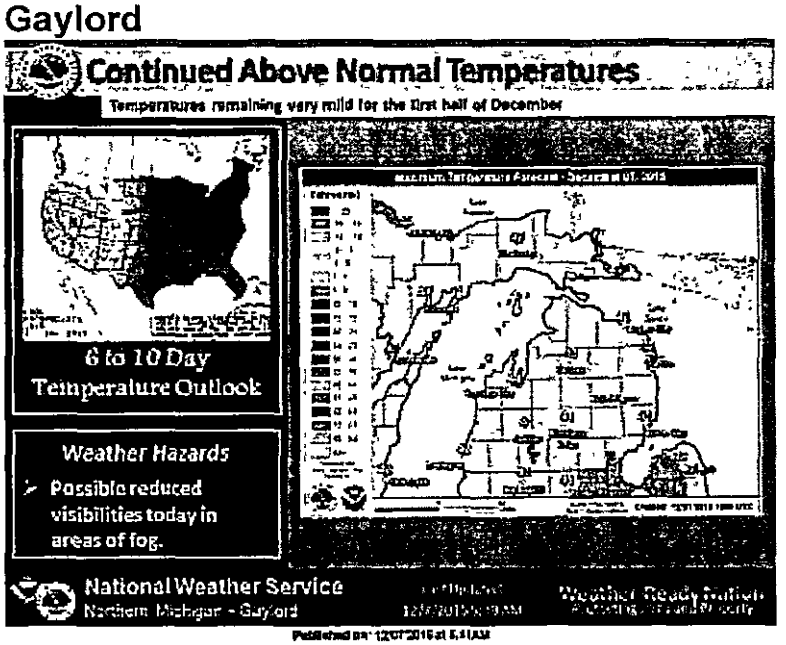
NATIONAL WEATHER SERVICE FORECASTS

Marquette



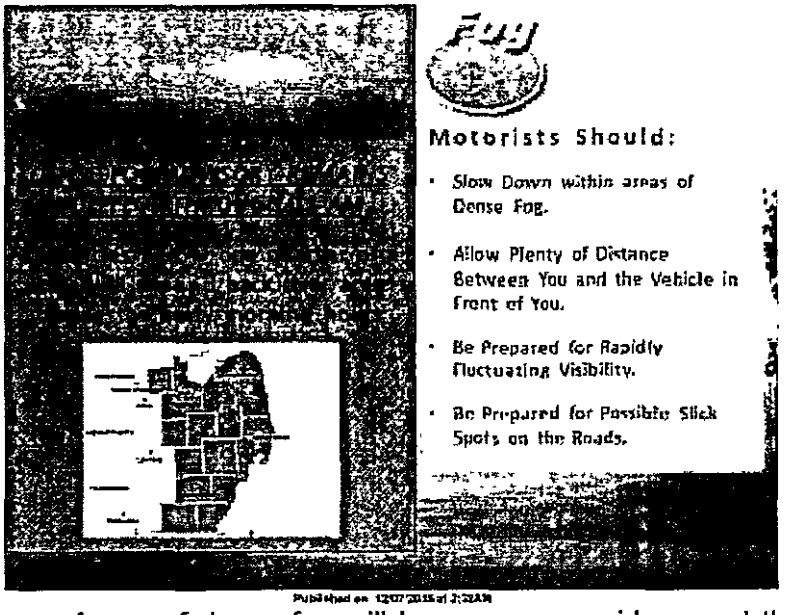
Expect partly to mostly cloudy skies and some morning fog today as a south wind draws more moisture into the area. Above normal temperatures will continue through mid-week as a flow of Pacific air dominates the weather pattern. There could be some light rain and drizzle at times, especially over eastern Upper Michigan on Tuesday and Wednesday.

Gaylord



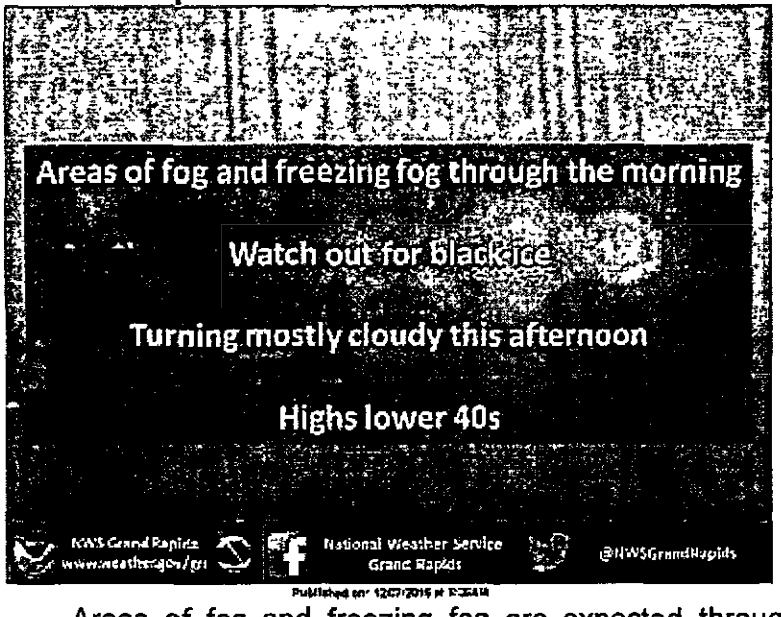
Temperatures will remain very mild through the work week. No snow any time soon.

Detroit



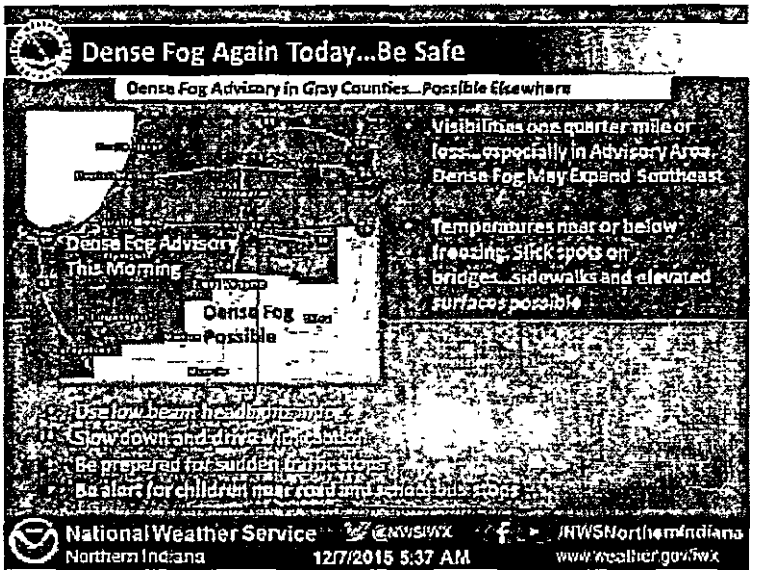
Areas of dense fog will become more widespread through daybreak with visibilities dropping back to one quarter of a mile or less in many locations by around dawn. Fog is then expected to persist for much of the morning.

Grand Rapids



Areas of fog and freezing fog are expected through the morning before lifting. Some black ice is possible.

Northern Indiana



A Dense Fog Advisory is in effect this morning for a large part of northern Indiana...far northwest Ohio and much of lower Michigan. Fog was expanding eastward and additional areas may need to be added to the advisory this morning. Visibilities of one quarter mile or less can be expected through late morning. The fog will be slow to dissipate today. High temperatures will only be in the lower 40s. Be safe and use caution.

A major Internet data center developer's decision to expand into Michigan as long as it receives lucrative tax breaks is testing the economic development strategy of Gov. Rick Snyder, who has called them the "heroin drip of government."

Abate, then Switch: Las Vegas tech firm asks legislators to change Michigan tax law to benefit data center industry (MI Biz)

"Gov. Snyder's approach to economic development has been in a way that is fiscally responsible over the long term," Snyder Press Secretary David Murray wrote in an email to MiBiz. "The legislation linked to this project has only recently been submitted, and we are still very early in the process. We expect there will be a lot of discussion about this project as we move forward."

EAA

Is Tuesday the start of the end for the EAA? (Freep)

"Gov. Snyder is working on a plan to improve academics and finances in Detroit Public Schools, and work is ongoing with city and community leaders and our partners in the Legislature," Snyder spokesman Dave Murray said in an e-mail to the Free Press."The EAA's role in a restructured Detroit public school plan is still to be determined."

DEPARTMENTS

DEQ

Raw sewage erupts from manhole in Kalamazoo (Mlive)

Solidifying kitchen grease blocked a sanitary sewer Saturday night, causing raw sewage to come up through an opening in a manhole at the corner of Ravine Road and Douglas Avenue and spill onto the pavement. As required by law, Water Reclamation Plant personnel notified the Michigan Department of Environmental Quality at the Kalamazoo District Office and the Kalamazoo County Environmental Health and Community Services of the spill.

Loan forgiveness sought for Flint to replace lead pipes (The Detroit News)

The Michigan Department of Environmental Quality is in talks with Flint officials about financing forgivable loans to replace lead-leaching water pipes while U.S. Rep. Dan Kildee is pursuing federal forgiveness for the city's nearly $21 million in past loans for drinking water infrastructure improvements.

DNR

Michigan DNR to continue testing after 4th CWD case (Detroit Free Press)

The Michigan Department of Natural Resources is encouraging hunters to have their deer checked for chronic wasting disease after a fourth case was confirmed in the state today. CWD is a contagious neurological disease that affects deer, elk and moose.

U.P. hunters bag fewer deer, more mature bucks (Detroit Free Press)

Hunters in the Upper Peninsula bagged fewer deer during firearm season but came away with high-quality bucks, state officials said. The Michigan Department of Natural Resources said Friday that preliminary deer check station data showed a drop of about 13.5 percent through the season that ended Monday. Wildlife officials predicted a drop after three consecutive severe winters in the region.

MDOT

MDOT releases new research report (TI News Daily)

Leaders from the Michigan Department of Transportation (MDOT) recently published a new research report entitled "Research on Evaluation and Standardization of Accelerated Bridge Construction Techniques." There is now a full listing of research reports that MDOT has published between 1940 and 2015 available on the MDOT website. All of the reports between those years are online in the form of PDFs.

MI unveils online help for aging drivers, their families (WOOD TV)

Against that backdrop, state leaders on Monday unveiled a new website full of resources to help aging drivers stay on the road as long as safely possible. Among its features, the website, www.michigan.gov/agingdriver, shows elderly drivers how to assess their own driving skills, identify problems that might impact their driving ability, find classes designed to help senior drivers and develop strategies to allow them to continue driving safely as long as possible. The website was developed over two years by a coalition that included MDOT, the Secretary of State's Office, Michigan State Police and several private organizations.

MSP

Spectrum-Holland Hospital JV now includes $12.1 million surgical center in Grand Haven (MiBiz)
Spectrum Health in November filed a letter of intent with the Michigan Department of Health and Human Services indicating it planned to seek certificate-of-need approval for a $12.1 million, 17,400-square-foot outpatient surgical center at the Health Pointe campus. The campus will allow the Spectrum Health Medical Group to consolidate physician practices in the area into a single location.

MSP participates in multi-state commercial vehicle enforcement operation (Mi News 26)
Michigan State Police motor carrier officers will be joining officers from the Indiana State Police and Ohio Highway Patrol in focusing their enforcement on I-94 this next week as part of a week-long 'Eyes on 94' commercial vehicle crash reduction effort.

LEGISLATIVE

Senate approves tax cuts for proposed $5 billion Grand Rapids data center (WKZO)
The Michigan Senate made quick work of a set of bills approving massive tax breaks for a firm that wants to put a $5 billion server farm in Kent County.

Michigan Senate approves tax breaks for data center campus (AP)
The state Senate approved yesterday lucrative tax breaks designed to guarantee that a major Internet data center developer chooses Caledonia as the site of its first mega-campus in the eastern half of the U.S.

Election law front and center in newly introduced bills (Detroit Free Press)
A Grand Blanc Republican wants to make it harder for people to vote by absentee ballot and has introduced legislation toward that end. State Sen. David Robertson, R-Grand Blanc, wants to prohibit clerks from opening their offices on weekends in the four weeks leading up to elections to hand out, process and accept absentee ballots.

Lawmakers blast alleged plan to charter Detroit schools (Detroit Free Press)
Democratic state lawmakers from Detroit on Thursday issued a stern warning against trying to turn more than two dozen Detroit schools, including all the EAA schools, into charters.

Michigan may dump cities' bans on pit bulls (The Detroit News)
Two mauling deaths by pit bulls in two days in Michigan come as state lawmakers consider legislation that would make it illegal for communities to ban specific dog breeds. In October, the state Senate approved legislation to prohibit communities from banning or regulating specific breeds such as pit bulls.

DETROIT

State of Michigan explores EAA changes (WDIV)
The state of Michigan is putting out requests for proposals to find a company or companies to take over Education Achievement Authority (EAA) schools. According to two state representatives, 31 schools are involved under this proposal. This is not Gov. Rick Snyder's plan. The Detroit Delegation in Lansing said they fell completely back-doored by this.

Detroit lawmakers claim EMU eyes EAA expansion (The Detroit News)

The House Democratic Detroit Caucus is claiming Eastern Michigan University is considering adding 16 schools to the 15-school Education Achievement Authority that is being investigated for possible financial improprieties in educating its 4,500 students in Detroit.

Effort to provide jobs for young Detroiters expands, adds mayor's son as recruitment officer (Crain's Detroit Business)
Grow Detroit's Young Talent, a public-private effort to provide summer jobs, has set a goal to get 8,000 youth into jobs next summer. And it's looking for commitments from 1,000 local companies to hire them.

Detroit water chief Gary Brown: Real work just starting (The Detroit News)
Gary Brown has been a Detroit cop, a city councilman, an aide to the city's emergency manager and one of the mayor's top lieutenants. In October, he added director of Michigan's largest water utility and one of the biggest in the country — the Detroit Water and Sewerage Department — to his resume. He'll earn $175,000 as head of the department, according to city officials.

OPINION

What's your take: straight-party voting (Battle Creek Enquirer)
Republicans in the Michigan House of Representative are weighing a compromise bill to mollify critics of their effort to ban straight-party voting. Whether the bill answers those critics is debatable.

All the risk, none of the rewards for Michigan cities (Detroit Free Press)
Lincoln Park's financial emergency, declared in 2014, inspired some serious rewrites of employee contracts and outsourcing of some city services. Retirees had their health coverage yanked.

Anders: The house the Gary built (Midland Daily News)
This is a continuation of the fairy tale about the fantasy house that Midland lawmaker Gary Glenn has been building during his now year-long re-election campaign.

Let local laws determine how to reduce dog attacks, restrict breeds (MLive)
Americans value individual freedoms that allow us to choose what house to buy, what pet to own and what car to drive. However, there are many situations when individual freedom is not the best choice for society. Drinking and driving, or texting while driving the cars of our choice, both come to mind. Similarly, enabling the proliferation of dogs well known to be dangerous and even fatal to people and other animals should not be in the best interest of any community.
Detroit education reforms also must address school-to-prison pipeline (MLive)
My organization, StudentsFirst Michigan, recently began partnering with other youth advocacy groups to host screenings of a Tavis Smiley documentary that examines the school-to-prison pipeline. In doing research for these events, I came across a statistic that resonated with me:

The Gravity of the Cyber Threats we face (Governing)
It is very likely that the next devastating attack on the United States won't be like any other we've experienced. It will come through the computers on our desks at work, the laptops we set on the kitchen table, or even the mobile phones and tablets we scroll through while standing in line at the coffee shop. And most of the time, people won't even realize they're being attacked.

Editorial: Raise juvenile age in Michigan (Detroit News)
Legislators are studying a package of more than 20 bills that would raise the age of juveniles who are treated as adults when they commit certain crimes. This is an important step in the quest to reform Michigan's criminal justice system.

Finley: Gun laws won't stop terror (Detroit News)
More gun control laws won't stop terrorism.

EAA chairwoman: Schools key to city's rebirth (Detroit News)
With the resurgence of Detroit shocking those outside the city limits, those within are adjusting to a renewed sense of hope — we are hopeful for a comeback, hopeful for a rise from nationwide criticism and driving the hope of retaining the newest generation of Detroiters.

Editorial: Detroit must get rid of deadly dogs (Detroit News)
Detroit can not lay claim to being a comeback city, nor can it hope to attract large numbers of new residents to its neighborhoods, as long as children are at risk of being mauled to death by vicious dogs on its streets.

Hit the books, Michigan, and get smart about economic growth (Bridge MI)
Our work at Michigan Future, Inc. is focused on understanding the changes occurring in the American economy and how to be successful in that economy. Our interest is in the long-term structural changes in the economy, rather than year-to-year, largely cyclical changes.

GOVERNOR'S ACTIVITIES

Spartan Green Day
Gov. Snyder proclaims Friday 'Spartan Green Day' (AP)
Michigan Gov. Rick Snyder has proclaimed Friday as "Spartan Green Day" in the state, in honor of the No. 5 Michigan State football team. The celebratory day is one day before the Spartans play No. 4 Iowa in the Big Ten championship in Indianapolis. Lt. Gov. Brian Calley, a Michigan State graduate, this week presented the proclamation to Michigan State coach Mark Dantonio and the team in East Lansing.

Gov. Snyder declares Friday 'Spartan Green Day' (State News)
Michigan Gov. Rick Snyder, a self-professed fan of MSU Football and a graduate of U-M, used his legislative power to declare Friday, Dec. 4 'Spartan Green Day' in honor of the No. 5 MSU football team.

Gov. Snyder proclaims Friday 'Spartan Green Day' (Mlive)
Gov. Rick Snyder has proclaimed Friday, Dec. 4, as "Spartan Green Day" in support of the Michigan State football team. Snyder in his proclamation encouraged Michigan residents to wear green on Friday ahead of Saturday's Big Ten championship game against No. 4-ranked Iowa in Indianapolis. Michigan State is No. 5 in the College Football Playoff rankings.

Friday is "Spartan Green Day" in Michigan, per Calley-delivered proclamation (WKZO)
Michiganders are being asked to dress themselves in green Friday in honor of the Michigan State University football team winning the Big Ten Conference's East Division crown last week. Lt. Gov. Brian Calley, an MSU alumnus, delivered a proclamation to Spartans head coach Mark Dantonio on Thursday, declaring Dec. 4 "Spartan Green Day" in Michigan.

Board of Canvassers meeting
Petition language to recall Michigan Gov. Rick Snyder flops again at Board of State Canvassers (Mlive)
A Detroit resident attempting to recall Gov. Rick Snyder over the city's water crisis saw his third attempt at petition language fail this morning.

Event preview

Gov. Snyder, Detroit Mayor Duggan join at Wayne State for post-bankruptcy talk (Mlive)
Gov. Rick Snyder, Detroit Mayor Mike Duggan and retired U.S. Bankruptcy Judge Stephen Rhodes will convene at Wayne State University to talk about Detroit a year out of bankruptcy. "Detroit Bankruptcy: One Year Later" will be held Dec. 9 from 6 - 8 p.m. in the university's Community Arts Auditorium.

Flag honors
Governor Snyder lowers flags for victims in California (UP Matters)
Gov. Rick Snyder joins President Barack Obama's call to lower Michigan and U.S. flags to half-staff today through sunset on Monday, December 7, in honor of the victims of the December 2 shootings in San Bernardino, Calif.

DEPARTMENTS

DHHS
Preliminary state data shows drop in rate of elevated lead levels in Flint (MLive)
Preliminary data shows 30 of 1,361 adults and children tested since Oct. 1 in Flint had elevated blood lead levels, according to a new state report.

State says blood-levels in Flint kids have dropped (Detroit Free Press)
Fewer of Flint's children have tested positive for elevated blood-lead levels since Oct. 1, with the rate falling to 3% of children under 6, according to new state data.

Some Flint residents showing elevated lead levels (WWMT)
he state says a small percentage of more than 1,300 Flint residents are showing elevated lead levels in their blood since tests taken October 1st.

First tests conducted in Wake of Flint water scandal (WTVB)
he state Department of Health and Human Services reports that 30 out of over 13 hundred Flint residents tested since October 1st had elevated blood lead levels.

State: 30 Flint residents have elevated lead levels (Detroit News)
Thirty Flint children and adults have tested positive for elevated levels of lead in their blood, according to preliminary data released Thursday by the Michigan Department of Health and Human Services.

Dow Chemical a step closer to disposing sediment from dioxin cleanup in Midland landfill (Midland Daily News)
The Dow Chemical Co. is one step closer to being able to dispose of more than 200,000 tons of river sediment and flood plain soils from the Tittabawassee River dioxin clean-up.

DNR
From sand mine to parklands (Livingston Daily)
A mining operation got the green light to extract sand from a southern portion of Island Lake State Recreation Area that was a former mining site. After it is completed all of the parkland will be reclaimed by nature as meadowlands.

DNR needs help finding persons involved in elk poaching (Up North Live)
A large bull elk carcass was found in Otsego County and now the Michigan Department of Natural Resources is asking for your help finding the person(s) involved.

DNR seeks information on Ostego County elk poaching (Petoskey)
Michigan Department of Natural Resources conservation officers are seeking information on an elk poaching in southwest Otsego County.

MEDC
Olga Stella to head Detroit Creative Corridor Center (Detroit Free Press)

Olga Stella, a prominent small-business advocate with the Detroit Economic Growth Corp., will become the new executive director of the Detroit Creative Corridor Center (DC3).

MEDC's Pure Michigan puffery: Part 1 (Mackinac Center for Public Policy)
The Michigan Economic Development Corporation, the state agency in charge of corporate welfare programs, is lobbying for its Pure Michigan tourism promotion campaign (and itself in general) with claims of a high return on investment.

MDOC
Former Aramark supervisor convicted in "Assault for-Hire" plot (Upper Michigans Source)
Michigan Attorney General Bill Schuette today announced that former Aramark Supervisor Michael Robert Young, 27, of Kincheloe, was convicted on one felony charge of Solicitation to Commit Assault with Intent to Cause Great Bodily Harm for recruiting an inmate to orchestrate the assault of another inmate. Young was an Aramark employee at Kinross Correctional Facility at the time of the crime.

MVAA
Veterans Affairs program brings assistance, recognition (Hastings Banner)
Tuesday's approval by the Barry County Board of Commissioners to recommend renewal of another one-year contract with Barry County United Way for Veterans Affairs Services lacked only a 21-gun salute to pay tribute to a program that is bringing statewide accolades to the county.

LEGISLATIVE

Data Center Tax Breaks Win Approval From Michigan Senate (AP)
Michigan lawmakers are approving tax breaks to land a major data center project in the state.
The Republican-led Senate on Thursday narrowly passed its version of the legislation, 21-15. The House could vote later in the day on similar bills, with talks expected to continue.

Michigan Senate Approves Tax Breaks To Land Major Data Center Project (9&10 News)
A major data center project is a step closer to happening after Michigan lawmakers gave their approval Thursday.

Lawmakers blast alleged plan to charter Detroit schools (Freep)
Democratic state lawmakers from Detroit on Thursday blasted the governor's office and other officials over what they say is a secret plan to turn more than two dozen schools in the city into charters.

State bill would outlaw local bans on pit bulls (Freep)
Even if Detroit were to pass a ban on pit bulls, the city — and 14 others that have passed such prohibitions — could be preempted by legislation now pending in Lansing.

DETROIT

Detroit among 50 best places to travel in 2016 (Freep)
Detroit's comeback is getting noticed!Travel + Leisure magazine just named the city one of the 50 "Best Places to Travel in 2016." It ranked 27th.

Detroiters can get free emergency alert notifications (Freep)
A day after a mass shooting in San Bernardino, Calif., the Detroit Homeland Security and Emergency Management showed off its free electronic emergency alert notifications, by way of Nixle.

More retail, housing planned for Corktown (Detroit News)
Metro Detroit businessman Anthony Soave plans to build a blocks-long retail and residential development near the old Tiger Stadium site.

OPINION

Moss: State Dems favor expansion of FOIA (Detroit News)
Re: Greg McNeilly's Nov. 18 op-ed in The Detroit News, "Lawmakers need workplace oversight": I thank McNeilly for his support. When I was elected to serve the people of my district and Michigan in the House of Representatives, I knew I was charged with introducing bills that would make a change for the better for the people of our state.

Gun control inaction makes mass shootings a way of life (Freep)
My son spends his days in the classroom of a warm, lovely woman who has, in less than four months, taught him to read, count forward and backward, to play nicely at recess and to be a good citizen. I don't know what she's paid, but it's surely not enough for the Herculean task of cramming — with patience and kindness — reams of information into the heads of two dozen unruly 5-year-olds.

Editorial: Put priority on fixing Detroit tax system (Detroit News)
Despite the progress Mayor Mike Duggan has made in fixing some of Detroit's property tax issues, problems with tax policies and practices persist, hindering the full revitalization of neighborhoods and preventing the city from capturing revenue needed to support public services.

Don't deny voters the right to vote a straight ticket (Freep)
While the Legislature seems unable to find time or political space to pass legislation that truly fixes Michigan's roads, embraces a sorely- needed plan by Gov. Rick Snyder to reboot Detroit's schools, or passes a clean energy plan that actually makes Michigan a leader in clean energy and new jobs, it may still find the time to check another box on their right-wing, anti-democracy "to-do" list: elimination of straight-ticket voting.

Specialty courts cut costs, improve lives (Freep)
Regionalism in government is a wonderful concept that is sometimes difficult to implement. Wayne County alone has 20 separate district courts and four municipal courts, each with its own judge or judges, funding source, court administrator and probation department. Many of these courts were created in times when government in general was expanding, not shrinking as it is now.

Susan J. Demas: Rubio has 'momentum,' but there's no clear path to victory – yet (Mlive)
Marco Rubio has the "big mo" in Michigan. In the past week, he's been endorsed by U.S. Rep. Bill Huizenga, R-Zeeland, and big GOP donor John Rakolta, a former Mitt Romney backer. Rubio also announced a campaign rally next week in Waterford.

Editorial: Bring Switch to Michigan, but be smart with data center tax breaks (Grand Rapids Press/Mlive)
Michigan cannot afford to let Switch take its proposal to build a $5 billion data center elsewhere. Now it must decide whether it can literally afford to bring the Nevada-based company to the state.

Detroit education reforms also must address 'school-to-prison pipeline' (Mlive)
My organization, StudentsFirst Michigan, recently began partnering with other youth advocacy groups to host screenings of a Tavis Smiley documentary that examines the school-to-prison pipeline. In doing research for these events, I came across a statistic that resonated with me:

GOVERNOR'S ACTIVITIES

DC Visit
Snyder: investing in relationships key to China trade (Detroit News)
Gov. Rick Snyder said investing in relationships with Chinese companies and people is a means not only for boosting business and jobs but moving toward solving more complex U.S.-Chinese issues, such as national security and intellectual property.

Proclamations
Gov. Rick Snyder names Dec. 7-11 as Computer Science Education Week (Holland Sentinel)
Gov. Rick Snyder recently named Dec. 7-13 as Computer Science Education Week and encouraged schools and students across the state to engage in the Hour of Code initiative.

Bill Signing
Snyder signs measure to consolidate March election (Pioneer Tribune)
Local governments will be able to include candidates for local office and other questions on ballots for the March 2016 presidential primary election, under legislation signed by Gov. Rick Snyder.

Recall Petition
Detroit pastor submits revised Snyder recall petition (Detroit Free Press)
A Detroit pastor has submitted revised wording for a petition to recall Gov. Rick Snyder over the Flint water crisis, but an attorney for the governor says the new wording still fails to meet standards required under state law.

DEPARTMENTS

MDE
Michigan audit faults EAA for poor budget controls (The Detroit News)
The state-created Educational Achievement Authority suffered from a "consistent lack of controls" in information technology that resulted in poorly maintained budgets, vendors being paid without contracts and a lack of oversight in purchasing, a state audit concluded.

MSP

Michigan cops fume over loss of U.S. military vehicles (Detroit Free Press)

Michigan law enforcement agencies are returning donated surplus military equipment to the federal government this month — including tracked armored vehicles that metro Detroit sheriff's offices have had for more than a decade— under orders of the White House, and they are not happy about it.

Project Blue Light pledges to 'never forget' (Daily Tribune)

Police, firefighters, and first responders from around southeastern Michigan gathered in Hazel Park Tuesday evening to honor the memory and survivors of fellow officers killed in the line of duty. Five Michigan police officers, and three firefighters who died while on the job over the past year, were honored during the hour-long service.

MEDC

St. Johns industrial park adding technology, 100 jobs (Lansing State Journal)

The city has announced a partnership with Frontier Communications to bring fiber-optic technology services to the city's certified industrial park, a move that will add 100 jobs, according to local officials. The Clinton County Economic Alliance and Quest Software are also partners in the program, which will upgrade the technology available to customers inside the industrial park.

DNR

Restoration of Lake Michigan reef seeks to help native fish (AP)

About 450 tons of limestone have been dumped into Lake Michigan in a project to rehabilitate a northern Michigan reef and boost native fish populations. The Traverse City Record-Eagle reports the dumping location in Grand Traverse Bay is in a reef complex where lake trout, lake whitefish and lake herring are known to spawn. MLive.com reports the limestone was put in the water this summer.

Milkweed planted on Mackinac Island to aid monarch butterflies (MLive)

A new grassland habitat area has been established on Mackinac Island to aid the migratory North American monarch butterfly population. About 400,000 common milkweed seeds were scattered in November on roughly three acres of land at the east end of the island's airport by Mackinac State Historic Parks, a division of the Michigan Department of Natural Resources.

Michigan DNR targets illegal importation of deer in fight against chronic wasting disease (AP)

Michigan Department of Natural Resources conservation officers are targeting the illegal importation of deer into the state as part of an effort to prevent the spread of chronic wasting disease. The state says Tuesday that officers recently seized six deer being transported into the state along the Interstate 94 corridor of the border with Indiana in southwestern Michigan.

LEGISLATIVE

Reps. Liberati, Chang introduces reforms to emergency manager law (The News Herald)

State Reps. Frank Liberati (D-Allen Park) and Stephanie Chang (D-Detroit) announced Nov. 30 they have both introduced legislation to reform the laws governing emergency financial managers. If passed, their bills would amend the Local Financial Stability and Choice Act.

Switch data center tax break bills clear committee, head to Michigan House (Mlive)

The Michigan House Tax Policy committee on Wednesday advanced legislation that would provide large tax breaks to cloud-computing data center companies, including a Nevada-based firm that plans to open a Grand Rapids campus if the package is signed into law. Three House bills, approved in a series of 8-5 votes that blurred party lines, would exempt data centers from state sales, use and personal property taxes. As amended, local governments would have to sign off on any property tax reduction.

Election bills: No-reason absentee injected into debate over straight-ticket voting ban (Mlive)

A bill that would allow voters to cast absentee ballots at a local clerk's office without a reason was swiftly approved by the House Elections Committee on Wednesday, making it part of a broader discussion on changes to election law. Under current law, a person can only request an absentee ballot for one of six reasons: being over 60; being unable to vote without assistance at the polls; expecting to be out of town on election day; in jail awaiting arraignment or trial; unable to attend the polls for religious reasons; or being appointed to work as a precinct worker in a different precinct.

House to take up absentee, straight-party voting today (Detroit Free Press)
The House is poised to take up legislation that will make it easier to vote by absentee ballot, but eliminate straight-party ticket voting at the same time. Republicans in the Senate have already passed the elimination of straight-ticket voting, which Democrats believe is a partisan ploy to skew elections toward the GOP. The House Elections Committee will take up the legislation today after it voted Wednesday to pass a bill that would allow people to get an absentee ballot without providing a reason for needing to vote on a day other than Election Day.

Michigan officials should ignore gay marriage ruling, lawmakers say at religious freedom rally (Mlive)
Michigan officials should "reclaim this state's sovereignty by not recognizing or enforcing" the U.S. Supreme Court decision that gave same-sex couples the right to marry, according to a resolution set to be introduced in the state House. State Rep. Tom Hooker, R-Byron Center, read his pending resolution out loud Wednesday during a "rally to protect religious people and stop persecution of religious people" outside the Michigan Capitol.

DETROIT

Patterson lavishes Detroit lawmakers with rare praise (The Detroit News)
Oakland County Executive L. Brooks Patterson lavished state representatives from Detroit with rare praise earlier this week for their continued opposition to Mayor Mike Duggan's auto insurance plan. Patterson sent all members of the Legislature a two-page letter on Wednesday warning against a Senate-passed no-fault auto insurance reform bill that has languished in the House since April.

Poverty up in third of Detroit area communities (The Detroit News)
Metro Detroit continues to stagger through its recovery from the Great Recession, even as auto sales soar to a record and the state jobless rate plummets. The pain lingers not just in the region's biggest cities, but also in some of its smallest suburbs, where household incomes are stagnant, if not smaller, and poverty is creeping up.

OPINION

Census: Few Michigan communities see income growth (Detroit Free Press)
Only 31 Michigan communities saw incomes rise over the 10-year period from 2005 to 2014, according to Census data released today.

Specialty courts cut costs, improve lives (Detroit Free Press)
Regionalism in government is a wonderful concept that is sometimes difficult to implement. Wayne County alone has 20 separate district courts and four municipal courts, each with its own judge or judges, funding source, court administrator and probation department. Many of these courts were created in times when government in general was expanding, not shrinking as it is now.

Finley: Today's campus protesters all about themselves (Detroit News)
A friend offered an intriguing take on the unrest present on many of America's college campuses.
Editorial: Debt is crushing state's schools (Detroit News)
The education financial crisis in Michigan extends well beyond Detroit Public Schools, as a new report from a major credit rating service confirms. The findings should move the talk about fixing school finances well beyond the state's largest district.

Editor's note: Dereliction of duty at DPS (Detroit News)

A lot of teachers probably mean it when they say it's all about the kids. I know they do. I've had great teachers. My brother is an inspiring public school teacher in Texas. My mom taught for a long time.

Letter: Area Muslim community promotes harmony (Detroit News)
The recent spate of violence conducted by the Islamic State in France, Lebanon and Sinai is a cause of deep concern for all. The extremists have committed outrageous acts that bring disrepute to Muslims over the world. There is a false perception that some media outlets have promoted that all Muslims are passively sitting and do not condemn atrocities by Jihadi groups. Nothing could be further from the truth.

Roads will continue to crumble under Republican road funding plan (MLive)
When I was elected to serve the people of the 95th House District, I knew it was an honor and a privilege to be their voice in Lansing for all matters concerning the district and the state as a whole. It was imperative that I stay faithful to those who elected me. That's why I didn't vote for the recent Republican road funding plan.

Ken Braun: Pyramid-scheme economics at work in special tax break for Nevada firm (MLive)
I grew up working in a Michigan family business that paid its taxes — all of them — just like most every other Michigan business. If that store didn't have the dollars to pay the sales or personal property taxes that would be owed for an improvement, then the improvement had to wait.

Michigan State Police Caro Post to hold public open house
Brad Devereaux
MLive
12.1.15

CARO, MI — The Michigan State Police is inviting the public to an open house at the Caro Post.

The event will run from noon to 4 p.m. Saturday, Dec. 5, at the MSP Caro Post, 1485 Cleaver, in Caro.

"We are excited to open our doors to the public and share with them some of the services we have to offer," Trooper Mark Swales said in a news release.

Members of the Emergency Support Team will be there to display some the specialized equipment including a BearCat armored personnel carrier.

A police dog and handler will also be there. The post will be offering child identification kits at the event as well.

Admission to the event is free and open to the public.

Michigan State Police Wayland Post to hold Stuff a Blue Goose on Dec. 5
Holland Sentinel
12.1.15

Holland, Mich. The Michigan State Police Wayland Post will host Stuff a Blue Goose, a food, clothing and toy drive event, at two different locations Dec. 5.

Troopers will team with two local Walmart stores to raise hunger and poverty awareness while helping families in need during the holidays. Patrol vehicles will be parked outside of the stores and packed with donated items to be distributed to various local nonprofit organizations and food pantries.

Donations will be accepted from 10 a.m. to 6 p.m. at Walmart Supercenter, 1618 W. M. 43 Highway, Hastings, and from 10 a.m. to 4 p.m. at Walmart Supercenter, 412 Oaks Crossing, Plainwell.

State police: 8 killed in car crashes over Thanksgiving
Holly Fournier
The Detroit News
12.1.15

Eight people died in separate crashes this year over the Thanksgiving holiday, including at least one involving alcohol, according to Michigan State Police.

The crashes occurred between 6 p.m. Wednesday and 11:59 p.m. Sunday, police said. There were six fatalities during the same time period last year.

Statistics on the crashes released by state police reveal five incidents in Wayne, Macomb, Muskegon, Kalamazoo and Berrien counties. An additional three deaths occurred in Kent County, according to police.

Alcohol is known to be a factor in a crash Friday in Kent County, where a pedestrian was killed. It is unknown if the driver or passengers were wearing seat belts.

In Berrien County, a crash Saturday involving alcohol killed one driver and injured another, state police said. The surviving individual had been drinking but it remains unknown if the deceased individual was under the influence.

Alcohol did not contribute to two other crashes in Kent County Thursday and Friday, police said. Drivers were killed in each crash; on Thursday the driver wore a seat belt while that information is unknown for the Friday crash.

Alcohol also did not contribute to a crash Thursday in Kalamazoo, where a pedestrian was killed, police said. It is unknown if seat belts were worn in that incident.

It is unknown if alcohol played a role in crashes that took place in Macomb, Muskegon and Wayne counties, police said. Drivers were killed in each of those crashes except in Macomb County, where a pedestrian died.

In those crashes, drivers and passengers either wore seat belts or that information remained unavailable Tuesday.

"These numbers are preliminary and only reflect those fatalities reported to the MSP as of 12 p.m. yesterday," said Capt. Thomas Deasy, commander of the MSP Training Division. "The MSP continues to urge motorists not to drink and drive, to always use proper restraints and to drive safely."

During the holiday weekend, troopers stepped up high-visibility enforcements focused on impaired driving, seat belt use, careless driving and speeding, state police said. The efforts were part of nationwide Operation C.A.R.E. (Combined Accident Reduction Effort), an initiative launched in 1977 by Michigan and Indiana state police forces.

The program now includes highway patrol agencies from all 50 states, as well as some American territories and Canadian provinces.

Police to host prescription drug drop-off in Burton
Molly Young
MLive
12.2.15

BURTON, MI -- Police are hosting a prescription drug drop off in Burton Thursday, Dec, 3.

From 9 a.m. to 3 p.m., area residents can drop off unneeded prescription drugs to officers at the Burton Senior Center. It is located at 3410 S. Grand Traverse Street in Burton.

The event provides a means for safe medication disposal, police said.

For more information, contact Burton police at 810-742-2542.

ACLU wants elimination, not reduction, of police fingerprinting policy
MLive
John Tunison
12.1.15

GRAND RAPIDS, MI -- A Grand Rapids police practice of fingerprinting people who lack identification should be eliminated, not just scaled back, an ACLU lawyer says.

American Civil Liberties Union attorney Miriam Aukerman offered her opinion after Grand Rapids city officials announced Tuesday, Dec. 1 that the decades-old "P&P" practice would be severely limited.

Police Chief David Rahinsky said police expect to only collect a few dozen sets of prints next year, rather than more than 1,000 in a typical year.

"We're moving to what we consider best practices," Rahinsky said Tuesday. "This is certainly not a panacea, but it's the next step."

The move comes as police departments nationwide face increased scrutiny of their tactics, from use-of-force to infringement of citizen privacy.

Rahinsky said the "photo and prints" procedure now only will be used in cases where a person is exhibiting "highly suspicious" behavior and only at the discretion of the involved officer.

One scenario, he said, might be a person who runs behind a tree as an officer drives by at night in a high-burglary area.

Up until now, officers have been allowed to take photos and fingerprints in many situations when someone doesn't have I.D.

Aukerman said she thinks the practice should be eliminated.

"While we are glad that the City is scaling back this practice, it should end the practice entirely. Law enforcement can obtain fingerprints as part of an arrest — but not to merely identify or track innocent people," she said.

"Grand Rapids is not a police state where officers are permitted to take citizens' fingerprints without probable cause for arrest. It is disturbing that the city would create a biometric database of young people – many of them likely youths of color – when these kids haven't been arrested for anything," she said.

City officials say the decision to limit the practice is unrelated to a recent judicial opinion that exonerated Grand Rapids Police Capt. Curt VanderKooi for taking fingerprints of a 16-year-old he detained in May 2012.

The male teen filed a lawsuit, claiming a violation of his civil rights.

"Just because something is legal doesn't make it 'best practices,' Rahinsky said.

Rahinksy and City Manager Greg Sundstrom said the greater motivation was a March report from a mayoral task force titled Safe Alliances for Everyone. Members of the task force, created to investigate ways to curb violence, cited concern with the policy.

Rahinsky said the procedure really dates to the 1980s when crack cocaine became a problem across the nation and criminals intentionally were not carrying identification.

Today, with the advent of body cameras and other technology, there is less need for the data.

"Cameras are really a game-changer," he said.

Grand Rapids police expect to receive a first shipment of 25 body cameras on Dec. 14, with hopes to have the entire force outfitted with them by the end of the year.

Criminals beware: New database is tracking your tattoos
John Wisely

Detroit Free Press
12.2.15

When Demarkus Higginbotham was robbing people at ATMs on Detroit's west side, his distinctive tattoos ultimately led to his capture.

Detroit Police pulled images of them from security cameras and printed them on fliers that were circulated until someone identified him. The flyers were an effective but slow means to identification.

Today, police could do it faster through a tattoos database created by a Michigan State University professor.

"Every tattoo has some story behind it, especially those which are associated with criminals," said Anil Jain, a distinguished professor of computer science and engineering at Michigan State University, who created Tattoo-ID, the database of tattoos taken from booking photos and other sources.

Jain's database now includes more than 100,000 images of tattoos and is the electronic equivalent of the flyers Detroit police used to catch Higginbotham. Michigan State Police provided many of the initial images and use the database to help with their work.

Jain began creating the database in 2009 at MSU with a grant from the FBI. The university later licensed it to MorphoTrak, a biometric company with headquarters in Anaheim, Calif., that sells access to it to police across the U.S. and Canada.

Jain said the database made sense because of the growing number of people who have tattoos. By some estimates, as many as one-third of young adults in the U.S. now have a tattoo.

What's more, tattoos are used to signify membership in most of the world's large criminal gangs, Jain said. Even if a suspect is being arrested for the first time, investigators can learn from the tattoo the gang affiliation of the wearer.

Jain said police had long noted the tattoos of criminal suspects, but the way they were stored made searching difficult. Most of the tattoos were entered into a database with one key word to describe them, such as sunset or wolf. But many tattoos include multiple images and can't be categorized in a single word, Jain said.

"They weren't getting too many hits," he said. "That's why we said we will explore this from an image matching standpoint."

Jain's system allows officers to enter photographs of tattoos and have the computer search for similar images.

"Tattoo's are not uniquely matched to a suspect, but they help narrow down the search," Jain said. "Basically we showed, if we have a query and the tattoo resides in the database, we could find it about 90% of the time."

He said the system doesn't specifically identify the objects showcased by the tattoos. Instead, it identifies different points in the tattoo called landmarks, which could be spots where the shading of a tattoo changes or where the coloration ends. The system also could note geometric designs, which are common in tattoos.

"What we are looking for is a near duplicate tattoo image," Jain said.

He noted that the same tattoo could be photographed differently using different cameras or under different lighting conditions, so the landmarks are more accurate. Also, tattoos can change size slightly as a person gains or loses weight.

Because tattoos don't provide a precise match to an individual, tattoos are typically used in conjunction with other identifiers such as fingerprints or facial recognition to confirm a match, Jain said.

"We would not solely ID someone on that, but I think it could be a help," said Patricia Rolland, operations director for the Macomb County Medical Examiner's Office.

Rolland said she hasn't used the database but can see its usefulness. Tattoos are very persona,l and the medical examiner's office gets a growing number of requests from family members who want photos of their loved ones' tattoos.

"If the family didn't have a picture of that tattoo, they want a picture of it so that another family member can replicate it," Rolland said.

Still, it remains an inexact science. When several grapefruit-sized pieces of human remains were found in a sewer in Sterling Heights in 2012, investigators noted the tattoos on them and photographed them. They released the photos publicly hoping to jog someone's memory, but so far no identification has been confirmed, said Lt. Dave Smith.

"Some blood work showed the individual was female," he said. "But being in a sewer, it may not have happened in our city. It may have been someone disposing of body parts."

MICHIGAN CONSTABULARY 1917
Today's modern force had modest roots
Roland Koski
Mining Journal
12.2.15

NEGAUNEE - The United States was mobilizing its armed forces and Congress overwhelmingly passed a declaration of war against Germany in 1917.

The Michigan National Guard was headed for the battlefields of France. Without men to guard the home front, the state had to create an emergency force. On April 10, 1917, the Michigan State Troops came into being under the authority of the State War Preparedness Board.

Only 50 men had enlisted when it first organized but grew to over 200 in four months. All were equipped with horses, most of which had been purchased on the western plains. Most of the horses were so wild they had to be broken and trained by a cowboy imported from Texas.

The troopers, the first in the state, had arrived in Negaunee to relieve a threatening labor situation in the mining region. Rumors of a strike were seen in the area and state troopers were ready for trouble. Communist inspired International Workers of the World and other agitators were moving into our area to incite strikes.

Spies and saboteurs were operating throughout the state, arson and bombings were commonplace in Lower Michigan and draft dodgers evading military service was also a concern. Thus, the Constabulary was established in Negaunee on Aug. 4, 1917 with its headquarters located west of the old city warehouse and garage on Iron Street in the South Jackson mine location.

The Negaunee Iron Herald reported the troopers had short barrel rifles, revolvers and riot sticks. A single trooper astride his horse and swinging one of those four-foot clubs could do a heap of execution without having to resort to his artillery at all. With the presence of the troopers in Negaunee, the disturbances subsided and the strike never materialized.

The troopers visit had now become more of an outing and practice drill than that of active duty. The detachment of 30 troopers stayed in Negaunee pitching their tents near their headquarters.

The City of Negaunee helped the fledgling force get established here and a crew of men was put to work extending water pipes and electric wires to the campsite. Local mining company carpenters built a cook shed and mess room. A cooking stove was brought to the site in a wagon. An ice chest was built and a telephone was installed. Most importantly, the "the troopers were well fed".

On March 26, 1919, Public Act 26 reorganized the Constabulary as the permanent Michigan State Police. Duties included highway patrol, providing security to penal installations and enforcing prohibition.

Prohibition was enacted in 1919 and made illegal the manufacture, transportation and sale of alcoholic beverages. This provided new challenges to the state police. Smuggling and bootlegging on a large scale could not be prevented. Moonshine was plentiful and many homes had a "trap door" to the basement with a rug over it. "Blind pigs" and gambling joints sprouted everywhere.

Negaunee remained the headquarters for the Upper Peninsula for the next four years until a major riot and escape at the Marquette State Prison on Dec. 11, 1921 took the troopers to Marquette. In 1922, the troopers had a new home for their headquarters near the site of the current Michigan Department of Natural Resources headquarters on U.S. 41 in Chocolay Township where it remained until 1973.

After using the old Tracy Mine building in Negaunee for a short period of time, the State Police Headquarters moved again, returning to its roots on Aug. 20, 1974 across from WLUC-TV on U.S. 41 in Negaunee Township.

SERVICE VIA EXCELLENCE, INTEGRITY and COURTESY

Michigan adopted a new Constitution in 1963, authorizing up to 20 departments. Public Act 380 of 1965 reorganized the Michigan Department of State Police as one of these departments. The Director holds the rank of Colonel and is appointed by the Governor. Today, the Michigan State Police consists of a modern-day force of law enforcement professionals, using the latest up-to-date training and technology to protect the citizens of Michigan.

The pride and commitment that began back in 1917 continue today to play an important role in the department. The men and women who serve in the Michigan State police do so with a PROUD sense of tradition in providing SERVICE through EXCELLENCE, INTEGRITY and COURTESY.

A WOMAN TROOPER WITH PRIDE AND POISE

The image of the mounted trooper riding in to save the day has long since faded and the term "lawmen" no longer applies. The Upper Peninsula's first female trooper, 24-year old Donna Mercier, joined the State Police in February 1978 and was on a one-year probation period with a progress evaluation being conducted. Donna stated at the time, "I don't see myself as a pioneer. I haven't been influenced by the women's movement. I think some women are cut out for certain jobs and others aren't. I've never really been discriminated against."

Donna placed in the top third of her 51-member class. "We get good training and there's a lot of pride in being a trooper. I've been learning and listening and I want to remain a state trooper."

Ford Police Interceptor quickest to 60 mph
Chris Bruce
Fox News
12.2.15

Ford's cop cars posted another year of strong results in evaluations by the Michigan State Police and Los Angeles Sheriff's Department. The Blue Oval's 2016 Interceptors claim top scores for acceleration and lap times in both agencies' tests, and another one of its models earned pursuit-rating status.

Both police departments now mandate that evaluations are conducted in the vehicles' default states, which means traction and stability control systems remain activated. Ford already configured its vehicles this way, company spokesman Chris Terry told Autoblog, and the company claimed the rule change only helped this year's results. In the LASD's 0-60 miles-per-hour acceleration test, the all-wheel drive Interceptor Sedan with the 3.5-liter V6 EcoBoost sprinted there in 5.8 seconds, compared to 6.6 seconds for the rear-drive 5.7-liter V8 Dodge Charger and 6.7 seconds for the 6.0-liter V8 Chevrolet Caprice.

The MSP published preliminary results of its tests (as a PDF), and Ford topped two major criteria there. The 3.5 EcoBoost sedan with all-wheel drive managed an average lap time of 1:35.66 to beat the all-wheel drive 5.7-liter Charger's 1:36.12. The same Blue Oval model sprinted to 60 mph in 6.17 seconds to best the Caprice's run of 6.26 seconds.

General Motors also scored a few victories in the MSP's evaluations. For example, the company touted that its models had the highest top speeds in their segments, and the Caprice had the best overall at 155 mph. The "results demonstrated that all Chevrolet police vehicles performed very competitively in all tests," GM said in a statement.

Both police departments also now say the Ford Police Interceptor Sedan with the 2.0-liter EcoBoost four-cylinder is ready for a chase. Ford introduced the model in 2013, and it passed the LASD and MSP's 32-lap tests this year. According to Terry, there are no changes to the model this year, but they "concluded that it could (and now is) pursuit rated."

==========

Weather safety changes proposed after I-94 crash study
Trace Christenson
Battle Creek Enquirer
11.30.15

KALAMAZOO - Drivers will do the most to prevent winter accidents on I-94, according to a study requested after a huge crash in January in Kalamazoo County.

"When I looked at all the crashes, 77 percent of the accidents were because motorists were driving too fast," said Captain Michael Brown, Fifth District Commander for the Michigan State Police. "Driver awareness in winter conditions is a huge factor for their own safety and damage to vehicles.

Both law enforcement and representatives of the Michigan Department of Transportation met with reporters and local officials to discuss a report of more than 90 pages requested by State Sen. Margaret O'Brien, R-Portage.

She asked for the report after the the Jan. 9 pileup at mile marker 90, just west of the Calhoun-Kalamazoo county line, that involved 193 vehicles, including 76 trucks, across all lanes of the interstate.

One person was killed and several hurt and the freeway was closed for two days. Police cited 58 of those involved with driving too fast for conditions.

O'Brien asked for the evaluation of the highway and MDOT and the state police collected data from the Michigan-Indiana state line in Berrien County to M-127 in Jackson County.

The report proposed a number of suggestions to improve safety on the highway but does not include widening I-94 to three lanes in each direction.

Officials estimated that cost to be tens of billions of dollars.

However, O'Brien said she would like to see the department takes the first steps to widen the highway from Sprinkle Road in Kalamazoo east to 40th Street, which is near the Calhoun County line just west of where the accident occurred.

"I want them to work on the engineering costs," she said. "We can't plan on when to build it if we don't have at least the preliminary engineering done. It takes many years to plan for a project that size, but if we don't start planning we will never get the project done."

Major projects expected in the next five years include:

- Redesigning and rebuilding the Galesburg exit at mile marker 88.
- Resurfacing of the freeway from M-66 in Battle Creek to 11-Mile Road in Calhoun County.

Officials also said they expect to make changes across the 143-mile corridor to include:

- Sensors to provide current weather and road conditions, especially in areas where accidents occur frequently.
- Variable speed-limit signs to reflect poor driving conditions.
- Installation of wind breaks to reduce snow accumulation on roads.
- Wider shoulders.
- Extended ramps.
- Highway resurfacing.
- Moving cable barriers closer to the center of the median.
- Areas where motorists can pull off the highway after a crash.

Brown also said state police are increasing education, enforcement and their emergency response.

Excessive speed and driving too fast for conditions will be themes of billboards along the road and media campaigns.

He said the state police have trained troopers and other first responders about lessons from the January crash and will continue to collect data to establish initiatives and working with MDOT to reduce problems at particular locations.

He said efforts to educate commercial drivers and also to use strict enforcement for those who cause accidents are part of the plan, as well.

Brown said 5,840 accidents that did not involve deer were studied along the corridor between 2012 and 2014. That rate is 101 accidents per 100 million vehicle miles driven, about average for Michigan freeways with speeds of 70 mph. But in the winter, the rate was 24 percent higher than other Michigan freeways.

Brown said about 77 percent of the accidents were because drivers were traveling too fast for conditions.

The January crash began when one driver lost control, Brown said.

"That caused other vehicles to lose control and caused a chain-reaction crash," he said. "On the westbound side they were gawking or lost control because of speeds and weather.

"That was an unusual circumstance but every year we have a number of crashes that are 10 or 20 or 25 vehicles. The size was unusual but we have them every year."

http://www.battlecreekenquirer.com/story/news/local/2015/11/30/weather-safety-changes-proposed-after--94-crash-study/76574664/?from=global&sessionKey=&autologin

Law enforcement agencies pooling resources to fight Internet child porn, abuse
11.24.15 24
By MICHAEL KRANSZ
Capital News Service

LANSING — The recent arrest of a Marquette County man for allegedly furnishing child pornography and sexually assaulting a minor illustrates a growing collaboration among law enforcement agencies to track down sexual predators who use digital devices.

Andrew Caron, 43, of Forsyth Township has been arraigned on 29 counts of furnishing and producing child sexual material and 10 counts of criminal sexual conduct, including penetration and oral sex, with a child under 13, Undersheriff Michael Klein of the Marquette County Sheriff's Office said.

To catch Caron, the sheriff's office conducted a seven-month investigation with help from the Forsyth Township Police Department and a State Police cybercrime unit in Traverse City, Klein said.

The investigation is ongoing to determine if there is more than one victim, Klein said.

The case reflects intensified investigations into Internet-related sex crimes involving children, experts say.

David Finkelhor, director of the Crimes against Children Research Center at the University of New Hampshire, said that while the center's most recent data shows a decline in sexual solicitation of children on the Internet, any trend in the number of people viewing and downloading child pornography is unclear.

"The percentage of sex crimes against children that involved some Internet component still was relatively a small proportion of all the sex crimes against children," Finkelhor said. "Although we think of the Internet as being a very central phenomenon, it's still the case that these sex crimes are taking place in the conventional ways."

But one thing is clear, he said: Law enforcement agencies are getting better at catching Internet predators and viewers of sexually abusive material involving minors.

Undersheriff Mike Bitnar of the Chippewa County Sheriff's Office said child pornography cases have "increased dramatically" in the last two to three years.

"We've always had it, but we almost have a case or two going with that all the time right now," Bitnar said. "Most of what we have is just the people downloading."

Like the seven-month Caron investigation, working a child pornography case is a time- and resource-consuming process, he said.

In addition to warrants and subpoenas, electronic devices used to view the pornography must undergo forensic analysis. To expedite that process, Bitnar said his department turns to nearby computer crimes units, such as the one at the Mackinac County Sheriff's Office.

Mackinac County Undersheriff Edward Wilk said the forensic computer analyst in his office is a valuable asset in an increasingly digital world, whether an investigation involves credit card theft or child pornography.

Having an analyst in-house is a boon, Wilk said, as the office and nearby agencies can turn to a local source for digital crime assistance, alleviating some of the backlog at the state level.

"A lot of the surrounding agencies come to us because the turnaround is a little quicker than the State Police," Wilk said.

MEDIA MONITORING REPORT

12/21/2015

Issues:

- No issues to report.

Summary:

- An unknown number of children in Flint, Michigan, were exposed to dangerous amounts of lead in their drinking water because of a cheapskate decision to switch the city's water source in 2014, Huffington Post reports.
- Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after concerns about organization were raised by members of an independent task force that he created.
- Residents of Flint, Mich., are still in danger of being poisoned by lead in their drinking water, even though the water supply was changed. Dr. Mona Hanna-Attisha speaks with NPR's Michel Martin.
- Michigan Radio gives timeline of events for Flint water crisis.
- Throughout the month of December, the Michigan State Police would like to remind Michiganders to report suspicious activity to help keep our state safe.
- Slick, snowy conditions on US-131 north of Grand Rapids Friday led to a chain-reaction crash involving up to 50 vehicles.
- Authorities responded to numerous crashes during snow squalls across Michigan, including a pileup involving several dozen cars on Friday.
- State lawmakers will consider a resolution backing the governor's call to put a hold on bringing Syrian refugees into Michigan.
- Gov. Rick Snyder says lawmakers could first tackle the Detroit school district's debt and possibly leave until later his call for a new commission to close poor-performing traditional and charter schools.
- A sharply divided Legislature late Wednesday voted to eliminate the straight-party voting option from ballots, a step majority Republicans said would bring Michigan in line with 40 other states and Democrats denounced as a partisan maneuver to help the GOP win elections.
- National Weather Service forecast updates.
- TV clips: Flint activates EOC; Weaver meets with Curtis.

Analysis:

- Media coverage is neutral.
- Coverage continues on Flint water crisis. National coverage from articles in Huffington Post, Aljazeera and NPR.

FLINT WATER

Why Flint's water crisis is so incredibly bad

Huffington Post, December 18, 2015

An unknown number of children in Flint, Michigan, were exposed to dangerous amounts of lead in their drinking water because of a cheapskate decision to switch the city's water source in 2014.

Lead poisoning is less prominent as a public health concern than it used to be thanks to a decades-long effort to reduce lead exposure in children, especially from paint and gasoline. But lead poisoning itself is no less serious, because once a small child is poisoned, they can't be cured.

How the Flint, Michigan, water crisis is affecting its poorest residents

Aljazeera America, December 18, 2015

FLINT, Mich. — A bottle of murky tap water — with swirling rust-colored pieces of sediment — still sits on Rhonda Kelso's kitchen counter in Flint.

In August of this year, despite information from government officials suggesting the water in Flint was safe to drink, she was still skeptical of its quality. So she collected the sample from her tap.

When a group of Virginia Tech researchers tested Kelso's water and discovered evidence of lead, Kelso, a 52-year-old stroke survivor, decided that was the last straw.

Snyder names Flint water coordinator after concerns raised

Petoskey News, December 18, 2015

LANSING (AP) — Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after concerns about organization were raised by members of an independent task force that he created.

Harvey Hollins, who directs his Office of Urban Initiatives, will coordinate efforts, according to a letter Snyder wrote Tuesday and was released Thursday.

Snyder created the Flint Water Advisory Task Force in October to review state, federal and local governments' actions after children were found to have elevated levels of lead in their blood and it was determined that corrosive river water was leaching lead from aging service lines.

Why pediatricians are so alarmed by the lead in Flint's water

Huffington Post, December 18, 2015

In early 2014, residents in Flint, Michigan, started noticing something odd about their water.

It looked different and had a foul odor. People reported problems. The state confirmed and addressed an E. coli contamination and said the water was fine, but parents were worried. Many started buying bottled water, even for cooking and showering. A Virginia Tech researcher tested the water and said it was corrosive. Finally, in September of this year, researchers confirmed Flint residents' worst fear:lead had leached into the municipal drinking supply from old piping, and city water-lead levels were the highest they'd been in 20 years.

The problem began when in April 2014 the city of Flint temporarily changed its water source from Lake Huron to the Flint River to save money. The different chemistry of the river water corroded the city's old pipes, releasing huge amounts of lead into the drinking water.

A return to Flint, where the mayor has declared a state of emergency

NPR, December 19, 2015

Residents of Flint, Mich., are still in danger of being poisoned by lead in their drinking water, even though the water supply was changed. Dr. Mona Hanna-Attisha speaks with NPR's Michel Martin.

Now we return to a disturbing story we covered earlier this year, the lead levels in Flint, Michigan's water supply continue to be so bad that the city's new mayor declared a state of emergency on Tuesday. Mayor Karen Weaver told NPR's Morning Edition she did it for Flint's children.

Mayor pins Flint's hopes on water disaster declaration

MLive, December 20, 2015

FLINT, MI – The federal government may have never recognized a man-made water crisis like Flint's as a disaster before, but asking for the assistance has been MayorKaren Weaver's plan since before she was elected Nov. 3.

"Our city is in a crisis -- a water crisis," Weaver said. "So far, what we've had are Band-Aid fixes, (and) it's not enough ... I don't see any other option."

On Monday, Dec. 21, the mayor plans to meet with Genesee County Board of Commissioners Chairman Jamie Curtis and others involved in emergency planning to discuss the city's incident response plan, a step-by-step outline aimed at addressing the water crisis.

TIMELINE: Here's how the Flint water crisis unfolded

Michigan Radio, December 21, 2015

The Environmental Protection Agency launched a federal audit-- Governor Rick Snyder appointed a panel to look into it -- and there is a federal class action lawsuit underway.

Everyone wants to know how the water went bad in one of Michigan's biggest cities.

Michigan Radio has been on top of this story from the start. See all our coverage here. Read, watch, and listen to our special series Not Safe to Drink here. And listen to our documentary here.

To get a sense of how this happened in Michigan, scroll through the timeline below.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Michigan State Police encourage residents to report suspicious activity

Up North Live, December 20, 2015

WPBN/WGTU — Throughout the month of December, the Michigan State Police would like to remind Michiganders to report suspicious activity to help keep our state safe.

"Homeland security starts with hometown security and our citizens know their neighborhoods, schools and work places better than anyone," said F/Lt. Joe Shier of the St. Ignace Post. "If something appears suspicious or out of place, don't hesitate to report it to law enforcement."

MSP: No serious injuries in US-131 pileup

Wood TV, December 18, 2015

ALGOMA TOWNSHIP, Mich. (WOOD) — Slick, snowy conditions on US-131 north of Grand Rapids Friday led to a chain-reaction crash involving up to 50 vehicles.

The wreck shut down a stretch of southbound US-131 south of 17 Mile Road near Cedar Springs around 3:30 p.m. Dozens of vehicles slid off the highway and into the ditch, some rolling over.

Ferris State University student Zachary St. Pierre was driving home to Macomb when the conditions started to turn nasty.

Snowy, icy conditions cause crashes, road closures statewide

Michigan Radio, December 18, 2015

GRAND RAPIDS, Mich. (AP) - Authorities have responded to numerous crashes during snow squalls across Michigan, including a pileup involving several dozen cars.

The Grand Rapids Press reports white-out conditions Friday afternoon on U.S. 31 north of Grand Rapids led to a chain-reaction crash of roughly 50 vehicles. A stretch of the freeway was closed.

Crashes and road closures amid icy, snowy conditions have been reported in the Lansing, Kalamazoo, Flint, Saginaw, Ann Arbor and Detroit areas. Some have been injured, including a person involved in a rollover crash on M-14 in Washtenaw County.

SYRIAN REFUGEES

State lawmakers may soon weigh in on allowing Syrian refugees into Michigan

Michigan Radio, December 19, 2015

State lawmakers will consider a resolution backing the governor's call to put a hold on bringing Syrian refugees into Michigan.

State Senator Patrick Colbeck says his resolution is about safety.

"It's about making sure we have taken all due diligence to fulfill our first responsibility as elected officials and that's securing public safety," says Colbeck.

MICHIGAN POLITICS

Detroit, energy, paroles top Snyder's agenda

Michigan Radio, December 19, 2015

LANSING, Mich. (AP) - Gov. Rick Snyder says lawmakers could first tackle the Detroit school district's debt and possibly leave until later his call for a new commission to close poor-performing traditional and charter schools.

The Republican governor told The Associated Press in a year-end interview that pending legislation to split the district in two to retire debt and to empower a chief education officer to hold schools accountable could go on "parallel or somewhat separate tracks." Snyder says the more urgent issue in terms of timing is the state-run district's finances.

Michigan legislature ends straight-party voting

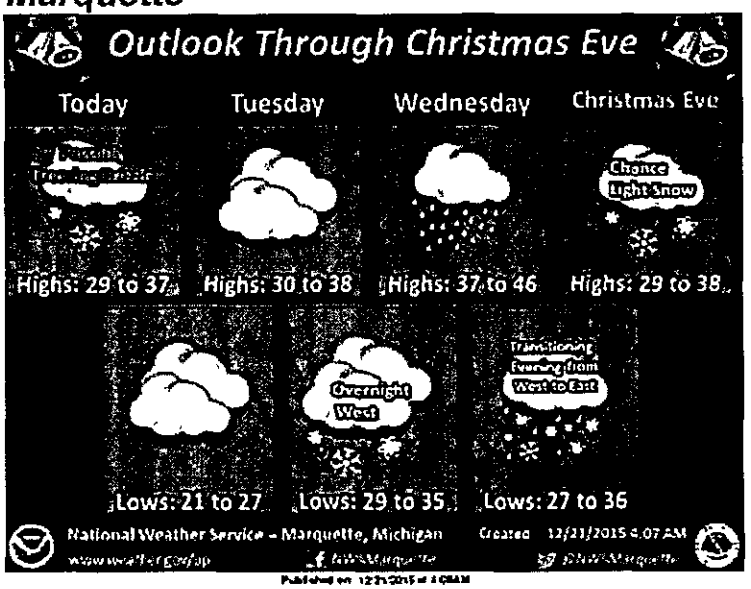
South Bend Tribune, December 18, 2015

LANSING, Mich. (AP) — A sharply divided Legislature late Wednesday voted to eliminate the straight-party voting option from ballots, a step majority Republicans said would bring Michigan in line with 40 other states and Democrats denounced as a partisan maneuver to help the GOP win elections.

Republicans uncoupled the legislation from a House-passed bill favored by clerks that would have let voters cast an absentee ballot without having to meet specific criteria. After the Senate approved the legislation 24-13, the House barely passed it 54-52, and lawmakers adjourned until January.

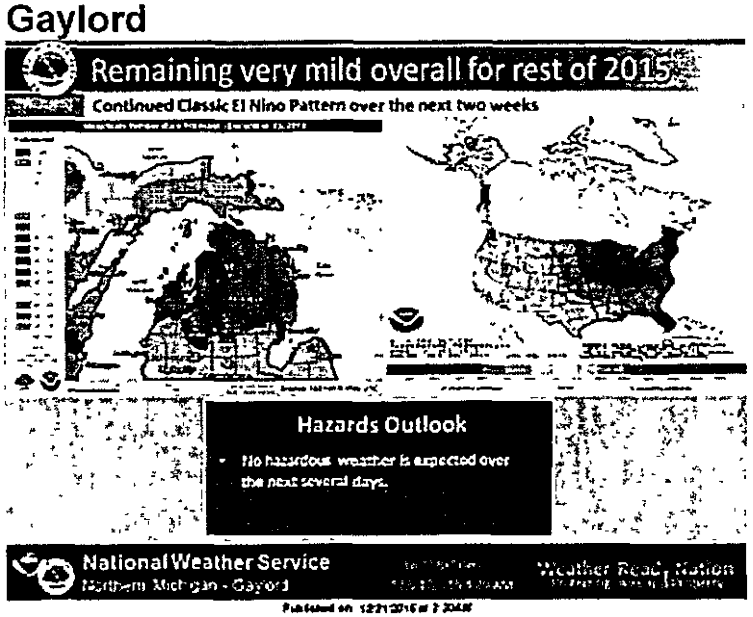
NATIONAL WEATHER SERVICE FORECASTS

Marquette



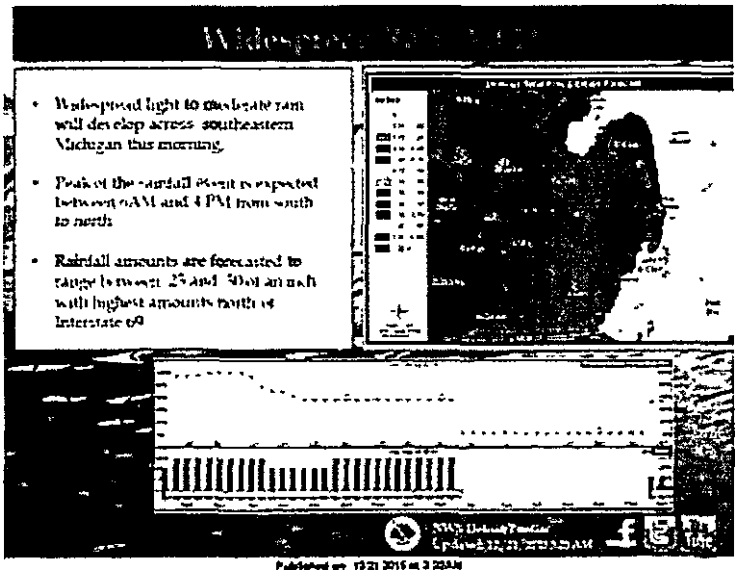
Warm temperatures continue through Christmas Eve with no widespread snow expected.

Gaylord



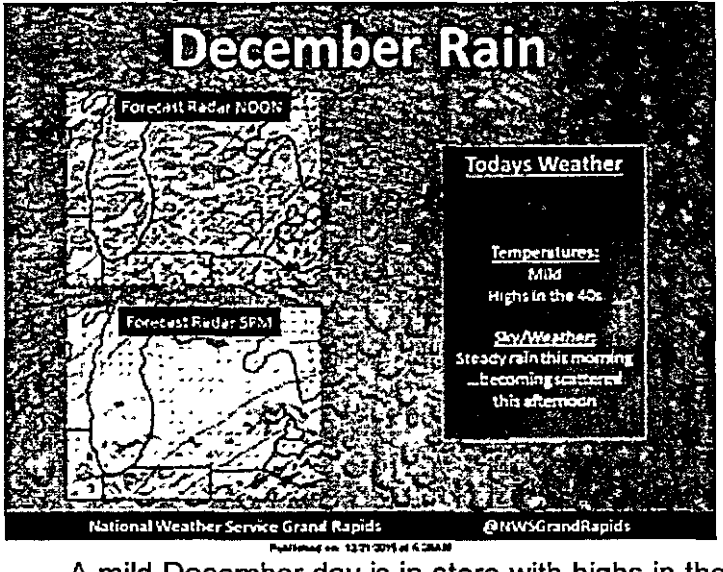
More mild weather for the Great Lakes over the next several days...with record or near record warmth expected Wednesday.

Detroit



A widespread coverage of light to moderate rain will lift through southeastern Michigan today as low pressure lifts into the central Great Lakes. A dreary day can be anticipated with much of the rain falling between the 6 AM and 4 PM timeframe. Weather conditions will be slow to dry out tonight as light rain showers and drizzle is expected right into daybreak on Tuesday. Temperatures will struggle to move today with readings remaining at or near current readings in the lower 40s. Wind chill values today are on track to remain mired in the 30s.

Grand Rapids



A mild December day is in store with highs in the 40s. Normal highs are in the low 30s, so readings today will be 10-15 degrees above normal in spots. Plenty of rain is expected so take along an umbrella. The rain will be steady from this morning into early afternoon before becoming scattered as the afternoon hours wear on.

Northern Indiana

Wet and breezy conditions will persist through this morning before diminishing this afternoon. High temperatures will top out in the upper 40s to lower 50s.

FLINT WATER

Why Flint's water crisis is so incredibly bad

Huffington Post, December 18, 2015

An unknown number of children in Flint, Michigan, were exposed to dangerous amounts of lead in their drinking water because of a cheapskate decision to switch the city's water source in 2014.

Lead poisoning is less prominent as a public health concern than it used to be thanks to a decades-long effort to reduce lead exposure in children, especially from paint and gasoline. But lead poisoning itself is no less serious, because once a small child is poisoned, they can't be cured.

How the Flint, Michigan, water crisis is affecting its poorest residents

Aljazeera America, December 18, 2015

FLINT, Mich. — A bottle of murky tap water — with swirling rust-colored pieces of sediment — still sits on Rhonda Kelso's kitchen counter in Flint.

In August of this year, despite information from government officials suggesting the water in Flint was safe to drink, she was still skeptical of its quality. So she collected the sample from her tap.

When a group of Virginia Tech researchers tested Kelso's water and discovered evidence of lead, Kelso, a 52-year-old stroke survivor, decided that was the last straw.

Snyder names Flint water coordinator after concerns raised

Petoskey News, December 18, 2015

LANSING (AP) — Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after concerns about organization were raised by members of an independent task force that he created.

Harvey Hollins, who directs his Office of Urban Initiatives, will coordinate efforts, according to a letter Snyder wrote Tuesday and was released Thursday.

Snyder created the Flint Water Advisory Task Force in October to review state, federal and local governments' actions after children were found to have elevated levels of lead in their blood and it was determined that corrosive river water was leaching lead from aging service lines.

Why pediatricians are so alarmed by the lead in Flint's water

Huffington Post, December 18, 2015

In early 2014, residents in Flint, Michigan, started noticing something odd about their water.

It looked different and had a foul odor People reported problems. The state confirmed and addressed an E. coli contamination and said the water was fine, but parents were worried. Many started buying bottled water, even for cooking and showering. A Virginia Tech researcher tested the water and said it was corrosive. Finally, in September of this year, researchers confirmed Flint residents' worst fear:lead had leached into the municipal drinking supply from old piping, and city water-lead levels were the highest they'd been in 20 years.

The problem began when in April 2014 the city of Flint temporarily changed its water source from Lake Huron to the Flint River to save money. The different chemistry of the river water corroded the city's old pipes, releasing huge amounts of lead into the drinking water.

A return to Flint, where the mayor has declared a state of emergency

NPR, December 19, 2015

Residents of Flint, Mich., are still in danger of being poisoned by lead in their drinking water, even though the water supply was changed. Dr. Mona Hanna-Attisha speaks with NPR's Michel Martin.

Now we return to a disturbing story we covered earlier this year, the lead levels in Flint, Michigan's water supply continue to be so bad that the city's new mayor declared a state of emergency on Tuesday. Mayor Karen Weaver told NPR's Morning Edition she did it for Flint's children.

Mayor pins Flint's hopes on water disaster declaration

MLive, December 20, 2015

FLINT, MI -- The federal government may have never recognized a man-made water crisis like Flint's as a disaster before, but asking for the assistance has been MayorKaren Weaver's plan since before she was elected Nov. 3.

"Our city is in a crisis – a water crisis," Weaver said. "So far, what we've had are Band-Aid fixes, (and) it's not enough ... I don't see any other option."

On Monday, Dec. 21, the mayor plans to meet with Genesee County Board of Commissioners Chairman Jamie Curtis and others involved in emergency planning to discuss the city's incident response plan, a step-by-step outline aimed at addressing the water crisis.

TIMELINE: Here's how the Flint water crisis unfolded

Michigan Radio, December 21, 2015

The Environmental Protection Agency launched a federal audit– Governor Rick Snyder appointed a panel to look into it – and there is a federal class action lawsuit underway.

Everyone wants to know how the water went bad in one of Michigan's biggest cities.

Michigan Radio has been on top of this story from the start. See all our coverage here. Read, watch, and listen to our special series Not Safe to Drink here And listen to our documentary here.

To get a sense of how this happened in Michigan, scroll through the timeline below.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Michigan State Police encourage residents to report suspicious activity

Up North Live, December 20, 2015

WPBN/WGTU — Throughout the month of December, the Michigan State Police would like to remind Michiganders to report suspicious activity to help keep our state safe.

"Homeland security starts with hometown security and our citizens know their neighborhoods, schools and work places better than anyone," said F/Lt. Joe Shier of the St. Ignace Post. "If something appears suspicious or out of place, don't hesitate to report it to law enforcement."

MSP: No serious injuries in US-131 pileup

Wood TV, December 18, 2015

ALGOMA TOWNSHIP, Mich. (WOOD) — Slick, snowy conditions on US-131 north of Grand Rapids Friday led to a chain-reaction crash involving up to 50 vehicles.

The wreck shut down a stretch of southbound US-131 south of 17 Mile Road near Cedar Springs around 3:30 p.m. Dozens of vehicles slid off the highway and into the ditch, some rolling over.

Ferris State University student Zachary St. Pierre was driving home to Macomb when the conditions started to turn nasty.

Snowy, icy conditions cause crashes, road closures statewide

Michigan Radio, December 18, 2015

GRAND RAPIDS, Mich. (AP) - Authorities have responded to numerous crashes during snow squalls across Michigan, including a pileup involving several dozen cars.

The Grand Rapids Press reports white-out conditions Friday afternoon on U.S. 31 north of Grand Rapids led to a chain-reaction crash of roughly 50 vehicles. A stretch of the freeway was closed.

Crashes and road closures amid icy, snowy conditions have been reported in the Lansing, Kalamazoo, Flint, Saginaw, Ann Arbor and Detroit areas. Some have been injured, including a person involved in a rollover crash on M-14 in Washtenaw County.

SYRIAN REFUGEES

State lawmakers may soon weigh in on allowing Syrian refugees into Michigan

Michigan Radio, December 19, 2015

State lawmakers will consider a resolution backing the governor's call to put a hold on bringing Syrian refugees into Michigan.

State Senator Patrick Colbeck says his resolution is about safety.

"It's about making sure we have taken all due diligence to fulfill our first responsibility as elected officials and that's securing public safety," says Colbeck.

MICHIGAN POLITICS

Detroit, energy, paroles top Snyder's agenda

Michigan Radio, December 19, 2015

LANSING, Mich. (AP) - Gov. Rick Snyder says lawmakers could first tackle the Detroit school district's debt and possibly leave until later his call for a new commission to close poor-performing traditional and charter schools.

The Republican governor told The Associated Press in a year-end interview that pending legislation to split the district in two to retire debt and to empower a chief education officer to hold schools accountable could go on "parallel or somewhat separate tracks." Snyder says the more urgent issue in terms of timing is the state-run district's finances.

Michigan legislature ends straight-party voting

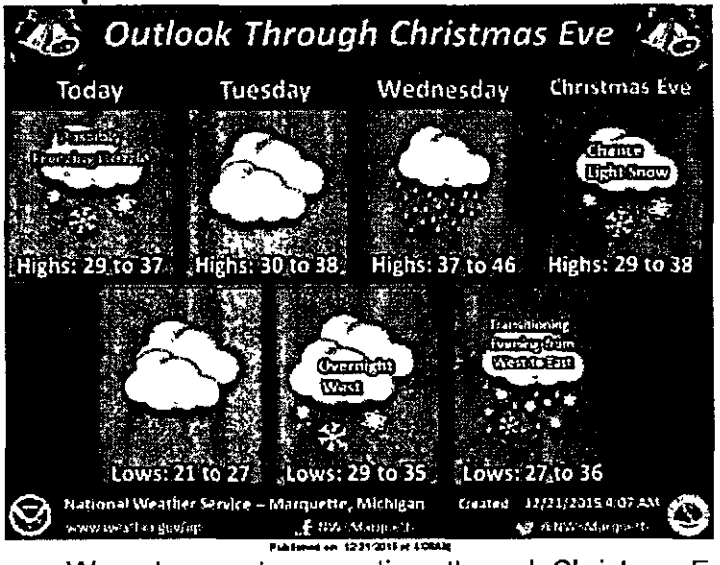
South Bend Tribune, December 18, 2015

LANSING, Mich. (AP) — A sharply divided Legislature late Wednesday voted to eliminate the straight-party voting option from ballots, a step majority Republicans said would bring Michigan in line with 40 other states and Democrats denounced as a partisan maneuver to help the GOP win elections.

Republicans uncoupled the legislation from a House-passed bill favored by clerks that would have let voters cast an absentee ballot without having to meet specific criteria. After the Senate approved the legislation 24-13, the House barely passed it 54-52, and lawmakers adjourned until January.

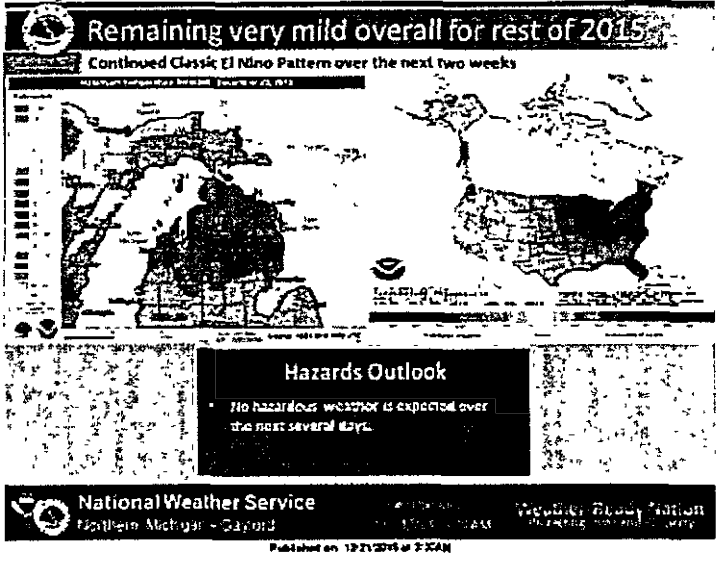
NATIONAL WEATHER SERVICE FORECASTS

Marquette



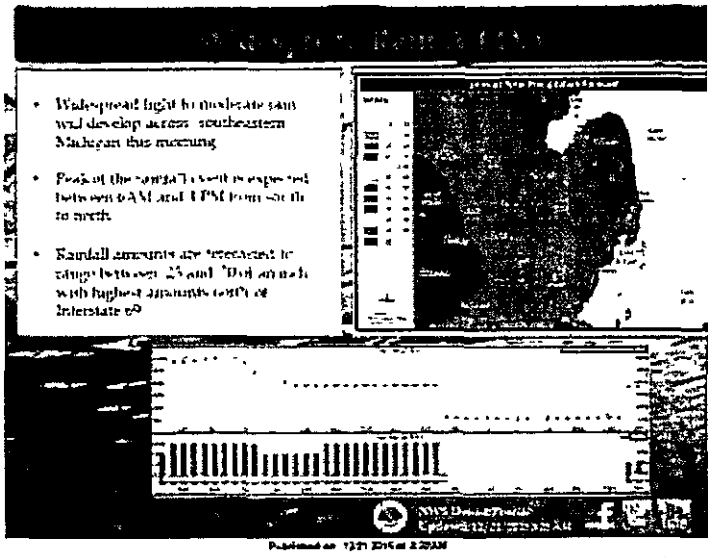
Warm temperatures continue through Christmas Eve with no widespread snow expected.

Gaylord



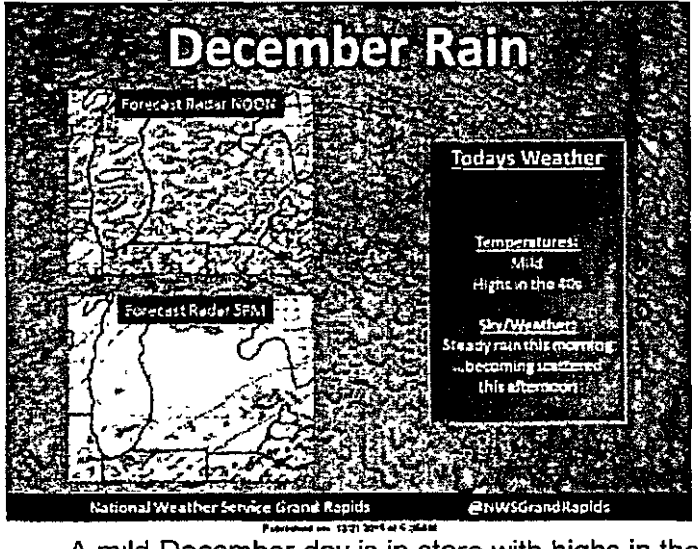
More mild weather for the Great Lakes over the next several days...with record or near record warmth expected Wednesday

Detroit



A widespread coverage of light to moderate rain will lift through southeastern Michigan today as low pressure lifts into the central Great Lakes. A dreary day can be anticipated with much of the rain falling between the 6 AM and 4 PM timeframe. Weather conditions will be slow to dry out tonight as light rain showers and drizzle is expected right into daybreak on Tuesday. Temperatures will struggle to move today with readings remaining at or near current readings in the lower 40s. Wind chill values today are on track to remain mired in the 30s.

Grand Rapids



A mild December day is in store with highs in the 40s. Normal highs are in the low 30s, so readings today will be 10-15 degrees above normal in spots. Plenty of rain is expected so take along an umbrella. The rain will be steady from this morning into early afternoon before becoming scattered as the afternoon hours wear on.

Northern Indiana

Wet and breezy conditions will persist through this morning before diminishing this afternoon. High temperatures will top out in the upper 40s to lower 50s.

MEDIA MONITORING REPORT

12/18/2015

Issues:

- No issues to report.

Summary:

- Harvey Hollins, a former vice president of Wayne State University, has been tapped by Gov. Rick Snyder to coordinate the state's response to the Flint water crisis.
- Dr. Monda Hanna-Attisha, a pediatrician at a local hospital who had raised concerns in the summer of the metal in the water, told The Guardian that between 8,000 and 9,000 children under the age of six are in jeopardy because of the contaminated water in Flint.
- Huffington Post writer Henry Henderson posted on how the EPA "flaked out" on Flint and will not act on the Emergency Petition from the city on the water issue until Flint deals with the issue on its own.
- Genesee County Board of Commissioners Chairman Jamie Curtis says he is authorized to forward Flint's request for a disaster declaration to the governor and plans to meet with Mayor Karen Weaver about it next week.
- Senate Minority Leader Jim Ananich (D–Flint) responded to the Dec. 17 release of Flint Water Task Force correspondence.
- The Flint Water Advisory Task Force isn't expected to release its full report the city's water crisis until next month.
- Gov. Rick Snyder and members of the Flint Water Advisory Task Force are exchanging ideas about how to handle the Flint lead in water crisis in letters released today, Dec. 17, including the potential appointment of a point person to coordinate ongoing work.
- Michigan Radio's Lindsey Smith wrote on how some state officials are still in denial or are misinformed over Flint River decision
- Gov. Rick Snyder has tapped two of his advisers to coordinate the state's health, environmental and public relations response to Flint's water crisis.
- Governor Rick Snyder says he's closer to lifting the "pause" on his efforts to bring more refugees from Syria and the Middle East to Michigan.
- The Michigan Commission on Middle Eastern American Affairs (CMEAA) published a statement in support of the step of Gov. Rick Snyder wanting to pause efforts on bringing more refugees to Michigan.
- Refaai Hamo, a Syrian refugee who's story was shared by the notable blog, Humans of New York, arrived in Michigan Thursday night to resettle in Troy.
- Governor Rick Snyder talked about some of his highlights of the year in his sit-down interview with TV5.
- Legislation that would eliminate the straight-ticket voting option on Michigan ballots is headed to Gov. Rick Snyder's desk.
- A federal spending bill for the 2016 budget year includes potential funding to boost efforts to fight blight in Michigan and to protect the Great Lakes, according to U.S. Senators Debbie Stabenow and Gary Peters.

- On Tuesday morning, as the nation's second-largest school district was shutting down in response to a suspected terrorist threat, Los Angeles Mayor Eric Garcetti took the microphone at a news conference led by L A. Unified School District Superintendent Ramon Cortines.
- A friend of one of the San Bernardino attackers has been charged in connection with the mass shooting that killed 14.
- National Weather Service forecast updates.
- TV clips: Letter to the mayor

Analysis:

- Media coverage is neutral.
- Gov. Rick Snyder names Harvey Hollins as the coordinator for the Flint water crisis response team.
- Genesee County chairman plans to meet with Flint Mayor Karen Weaver next week to go over disaster request for the City of Flint.
- Will continue to monitor situation.

FLINT WATER

Harvey Hollins tapped to lead Flint water effort

Detroit Free Press, December 17, 2015

Harvey Hollins, a former vice president of Wayne State University, has been tapped by Gov. Rick Snyder to coordinate the state's response to the Flint water crisis.

Snyder named Hollins this week after a task force recommended a single person or entity to lead the follow-up needed after lead was found in Flint's drinking water system. Experts concluded that the lead leached into the system from old pipes after the city began using Flint River water as its source supply. The city was under state emergency management when the switch was made.

Doctor says polluted Flint water worse for children than originally thought

Fox News, December 18, 2015

The polluted water coming out of the taps in Flint, Michigan may be worse for children than previously thought, according to the doctor who discovered that the children were at risk of brain damage from the city's water supply.

Dr. Monda Hanna-Attisha, a pediatrician at a local hospital who had raised concerns in the summer of the metal in the water, told The Guardian that between 8,000 and 9,000 children under the age of six are in jeopardy because of the contaminated water in Flint. At least 15 percent of those children have dangerous levels of lead in their blood, she said.

Snyder names state urban initiatives director to lead Flint water crisis response

Crain's Detroit, December 18, 2015

LANSING — Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after concerns about organization were raised by members of an independent task force that he created.

Harvey Hollins, who directs his Office of Urban Initiatives, will coordinate efforts, according to a letter Snyder wrote Tuesday and was released Thursday. Hollins was appointed to the office in 2011; he was Wayne State University's vice president for government and community affairs.

Snyder created the Flint Water Advisory Task Force in October to review state, federal and local governments' actions after children were found to have elevated levels of lead in their blood and it was determined that corrosive river water was leaching lead from aging service lines.

EPA flakes on Flint

Huffington Post, December 17, 2015

If you haven't heard by now, there is an existing public health crisis in Flint, Michigan, in which an entire city has been exposed to lead contamination. The source? The city's drinking water. The evidence is clear: no amount of lead exposure is considered safe. Even low lead exposures in childhood can lead to a range of lifelong consequences, including intellectual disabilities, lower IQs, and serious medical conditions.

Last month, NRDC notified the City of Flint and Michigan officials that we plan to sue them for violations of the Safe Drinking Water Act (SDWA), the federal law that requires public water systems to test, monitor, and treat drinking water to ensure that it's safe. We served the notice alongside a community group, Concerned Pastors for Social Action, the ACLU of Michigan, and Flint resident Melissa Mays, who have been among those leading the fight to expose this crisis.

Genesee County chairman says he can send Flint disaster request to governor

MLive, December 17, 2015

FLINT, MI -- Genesee County Board of Commissioners Chairman Jamie Curtis says he is authorized to forward Flint's request for a disaster declaration to the governor and plans to meet with Mayor Karen Weaver about it next week.

In a letter to Weaver Thursday, Dec. 17, Curtis says county guidelines and state law call for him to consult with the county's emergency management coordinator -- Sheriff Robert Pickell -- and Michigan State Police once he has been given the declaration.

Snyder names Flint water coordinator after concerns raised

NBC 25, December 18, 2015

LANSING — Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after members of an independent task force that he created raised concerns.

Harvey Hollins, who directs his Office of Urban Initiatives, will coordinate efforts.

The Flint Water Advisory Task Force was appointed in October to review governments' actions after children were found to have elevated levels of lead in their blood and it was determined that corrosive river water was leaching lead from aging service lines.

Senate Minority Leader Jim Ananich wants more urgency from Governor, trained emergency coordinator on the ground

senatedems.com, December 17, 2015

LANSING, Mich. — Senate Minority Leader Jim Ananich (D–Flint) responded to today's release of Flint Water Task Force correspondence. He reiterated specific actions that would help organize efforts with the Flint water crisis, including bringing in a trained emergency management professional to coordinate assistance within the City of Flint.

"Political appointees and public relations people are what got us into this mess, and they aren't who we need leading us out of it," Sen. Ananich said. "Anything less than a professional trained in emergency management or public health will not suffice."

Sen. Ananich requested a crisis responder from the Michigan State Police, the Federal Emergency Management Agency or the Department of Homeland Security.

Flint water task force requesting urgent changes from Governor Snyder

NBC 25, December 17, 2015

FLINT — The Flint Water Advisory Task Force isn't expected to release its full report the city's water crisis until next month. However, that didn't stop committee members from asking the Governor to make some changes immediately. Committee Co-Chairman Chris Kolb says there is a sense of urgency to get things done.

"We felt we couldn't wait any longer. We need to make sure there is someone in charge to hold people accountable, and also have a direct line to the governor," Kolb says.

Read letters from governor, task force on Flint water crisis

MLive, December 17, 2015

Read: FWATF letter to Governor Snyder.pdf

Read Gov. Snyder's response: 15.12.15 Flint Task Force Letter.pdf

FLINT, MI -- Gov. Rick Snyder and members of the Flint Water Advisory Task Force are exchanging ideas about how to handle the Flint lead in water crisis in letters released today, Dec. 17, including the potential appointment of a point person to coordinate ongoing work.

In a Dec. 7 letter to Snyder, who appointed the five-member task force in October, the group acknowledges steps that have been taken to carry out the governor's plan to address damage caused by elevated lead levels in the city's drinking water.

Reporter's notebook: Some state officials still in denial or misinformed over Flint River decision

Michigan Radio, December 17, 2015

I don't blame the governor's press secretary for not understanding exactly who made the decision to have Flint pump its drinking water from the Flint River. It was a complicated-decision making process with multiple key players that lasted at least a few months.

Back in the spring of 2013, when this decision was made, Governor Rick Snyder's press secretary, Dave Murray, was one of "us"; a journalist working for The Grand Rapids Press/MLive.

He was one of the familiar faces around town among the smaller group of reporters in Michigan's second largest city. And let's face it; none of us were paying close attention to the water decision that was going on 100 miles away in Flint. It wasn't our beat, after all.

Snyder taps two advisers to help on Flint water crisis

Detroit News, December 17, 2015

Lansing — Gov. Rick Snyder has tapped two of his advisers to coordinate the state's health, environmental and public relations response to Flint's water crisis.

Snyder has appointed Harvey Hollins, director of the governor's Office of Urban Initiatives, to be the point person between state agencies and Flint as they work to address elevated levels of lead in the city's water system.

The Republican governor made the appointment in response to concerns raised by his Flint water task force that there was an uncoordinated state response to the crisis.

SYRIAN REFUGEES

Snyder: More work to be done on refugees

Michigan Radio, December 16, 2015

Governor Rick Snyder says he's closer to lifting the "pause" on his efforts to bring more refugees from Syria and the Middle East to Michigan.

Snyder was among a group of governors on a conference call this week with the nation's homeland security chief. He says federal officials are working through concerns expressed by governors on relocation efforts following the attacks in Paris and Beirut.

"The federal government has acknowledged that these are reasonable questions that are good ones to ask, and we have a chance to get the answers and move forward," Snyder said in a year-end interview with Michigan Public Radio. "I'm interested in actually getting it so we can continue to be a welcoming place."

Michigan's Middle Eastern Commission backs Snyder's refugee pause

Arab American News, December 17, 2015

DEARBORN — When Gov. Rick Snyder announced a pause in efforts to bring in new Syrian refugees to Michigan after the terrorist attacks in Paris, major Arab, Muslim, immigration advocacy and civil rights organization criticized him.

But days after the governor's decision, the Michigan Commission on Middle Eastern American Affairs (CMEAA) published a statement in support of the step.

Snyder's resolution was followed by more than 30 Republican governors who announced similar measures. But the governor has distanced himself from fellow Republican leaders who oppose accepting Syrians fleeing the war outright.

Scientist who fled Syria arrives 'home' in Michigan

Detroit Free Press, December 18, 2015

Refaai Hamo nearly forgot what it feels like to be alive after experiencing so much grief and terror.

A missile filled with 116 small bombs, needles and shrapnel ripped through his family's Syrian compound two years ago and his wife and daughter, who were on the top floor of the compound when a second missile landed, were killed in what seemed an instant.

In total, 16 people were killed. Seven were his family members.

Hamo, faced with an uncertain future after the attack, fled Syria with his remaining children and said he felt like a piece of him died that day along with his wife and young, bright daughter.

MICHIGAN POLITICS

Governor sits down in a one-on-one interview with TV5, answers tough questions

WNEM, December 17, 2015

LANSING, MI (WNEM) - Governor Rick Snyder talked about some of his highlights of the year in his sit-down interview with TV5.

He said he is proud the unemployment numbers are down to the lowest they've been in a while and legislature passed a package of bills to fund our roads.

But this year, there have certainly been some low-lights.

Governor Snyder said the Flint water crisis is one of those low-points.

"It is a problem that you wish never happened," Snyder said.

Legislation to end straight-ticket voting heads to Gov. Snyder's desk

Michigan Radio, December 18, 2015

Legislation that would eliminate the straight-ticket voting option on Michigan ballots is headed to Gov. Rick Snyder's desk.

Rick Pluta, co-host of It's Just Politics and the Bureau Chief for the Michigan Public Radio Network, tells us that if signed, this legislation would have three effects:

It would eliminate the option that Michigan voters had to vote for candidates in one party by filling a single circle on the ballot.

It would provide money for local governments to buy more voting machines.

It would ensure that this legislation cannot be challenged via voter referendum.

Stabenow, Peters highlight federal budget bill's benefits for Michigan

Michigan Radio, December 17, 2015

A federal spending bill for the 2016 budget year includes potential funding to boost efforts to fight blight in Michigan and to protect the Great Lakes, according to U.S. Senators Debbie Stabenow and Gary Peters.

Stabenow and Peters said the bill, agreed upon Wednesday, would authorize the U.S. Treasury Department to transfer up to $2 billion in additional funding to the Hardest Hit Fund, which they say has been used to fight blight successfully in urban areas across Michigan

"If you don't have healthy, viable neighborhoods, you don't have a healthy, viable city," said Peters. "*And this blight funding is absolutely critical.*"

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Handling of L.A. schools shutdown offers a civics lesson

Emergency Management, December 17, 2015

(TNS) - On Tuesday morning, as the nation's second-largest school district was shutting down in response to a suspected terrorist threat, Los Angeles Mayor Eric Garcetti took the microphone at a news conference led by L.A. Unified School District Superintendent Ramon Cortines.

With his first words, the mayor established the posture he would adopt toward the crisis throughout the day. "The decision to close the schools is not mine to make, but is mine to support," Garcetti said.

That seemingly innocuous statement underscored the jurisdictional divisions that marked L.A. government's response to the threat. In L.A., unlike New York and Chicago, the mayor does not control the schools. Cortines ultimately made the choice to close the district.

San Bernardino shooting: Friend of gunman is charged

BBC News, December 17, 2015

A friend of one of the San Bernardino attackers has been charged in connection with the mass shooting that killed 14.

Enrique Marquez, 24, is the first person arrested over the deadliest terrorist attack in the US since 9/11.

Mr Marquez is charged with plotting with gunman Syed Farook to attack a university in 2011 and 2012.

He is also accused of illegally purchasing the two rifles that were used by Farook and Tashfeen Malik.

What we know about San Bernardino shooter's alleged 'rush hour' terror plot

ABC News, December 17, 2015

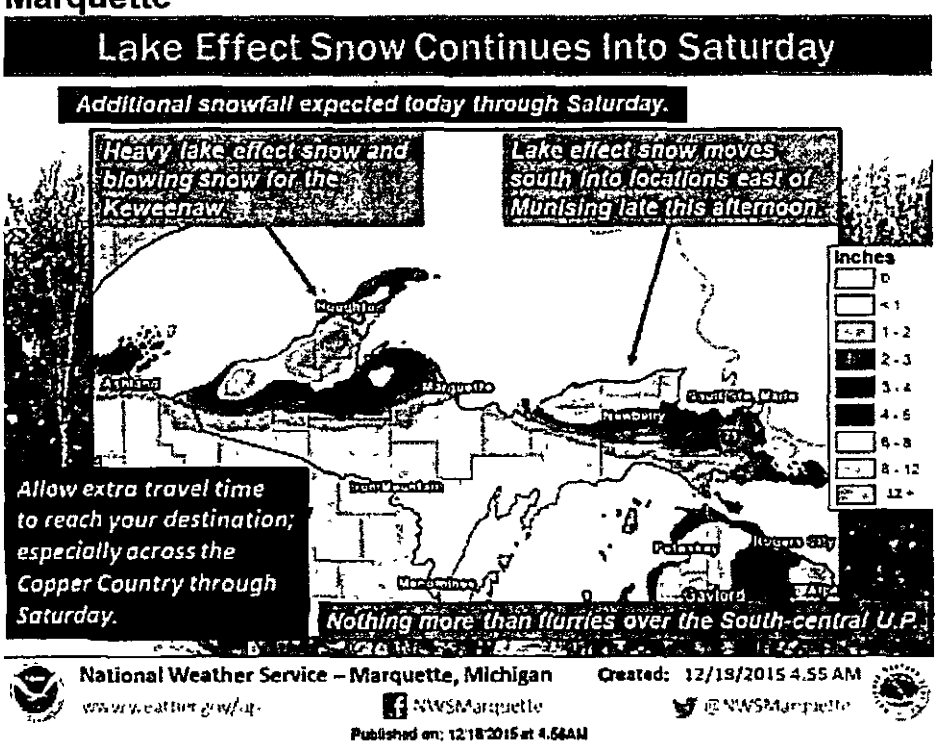
Four years before Syed Rizwan Farook and his wife Tashfeen Malik killed 14 people at an office party in San Bernardino, Farook plotted with his old friend and neighbor Enrique Marquez to kill as many people as possible during a "rush hour" attack on a highway in California, according to the FBI.

The late 2011 or early 2012 plot was detailed for the first time today in a criminal complaint filed against Marquez, who authorities said admitted the plans during a 10-day questioning session with the FBI after the San Bernardino shootings earlier this month.

According to the complaint, Marquez told the FBI that he had converted to Islam in 2007 and was pushed towards radical Islamic material by his friend and neighbor Farook. In late 2011, the two decided to strike in the U.S., and discussed whether they should attack a local community college and busy California highway, SR-91.

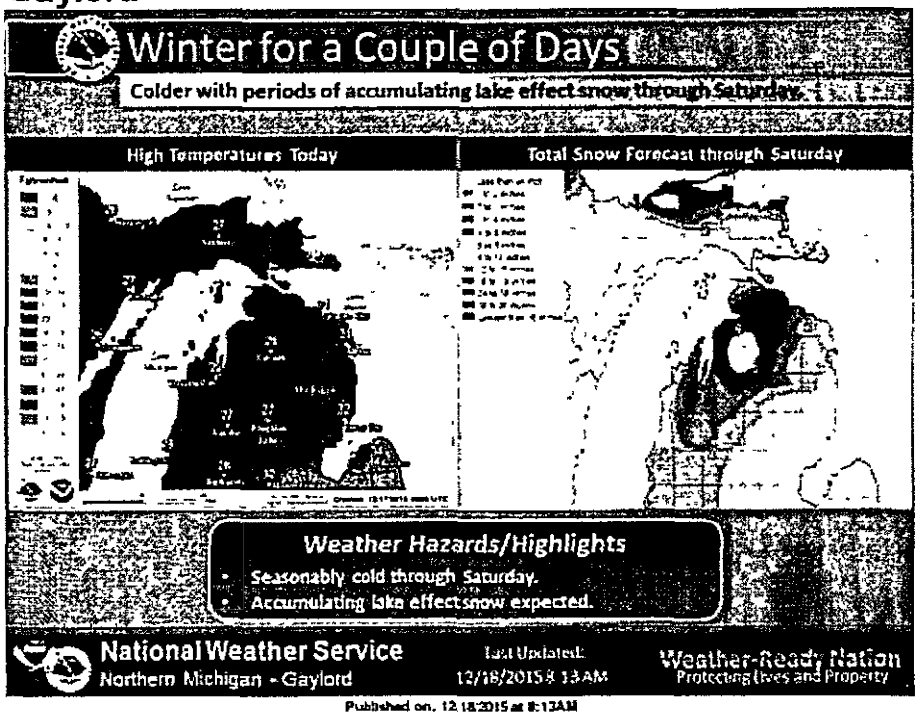
NATIONAL WEATHER SERVICE FORECASTS

Marquette



Lake effect snow will continue over portions of the western U.P. today and then transition to areas favored by northwest winds tonight. The combination of the lake effect snow and blowing snow will lead to greatly reduced visibilities at times, especially over northern Houghton County today.

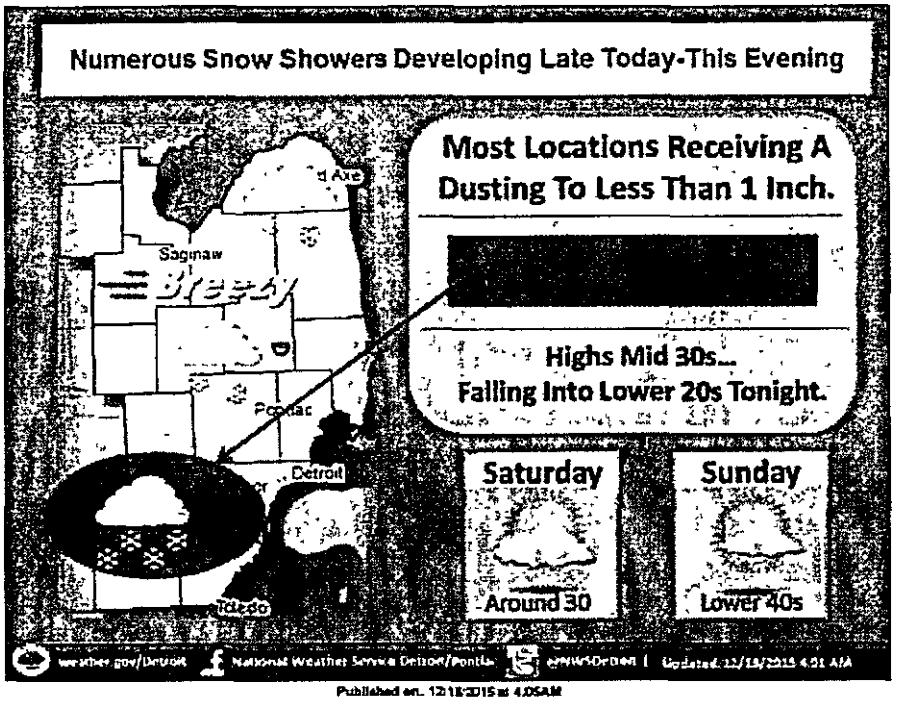
Gaylord



Published on: 12/18/2015 at 8:13AM

The coldest air yet this season will be across the Great Lakes through Saturday, leading to lake effect snow showers. Some of the snow showers could be locally heavy, in the traditional snow belts, where several inches of snow are expected by Saturday. Temperatures are then expected to moderate heading into the end of the weekend and start of next week

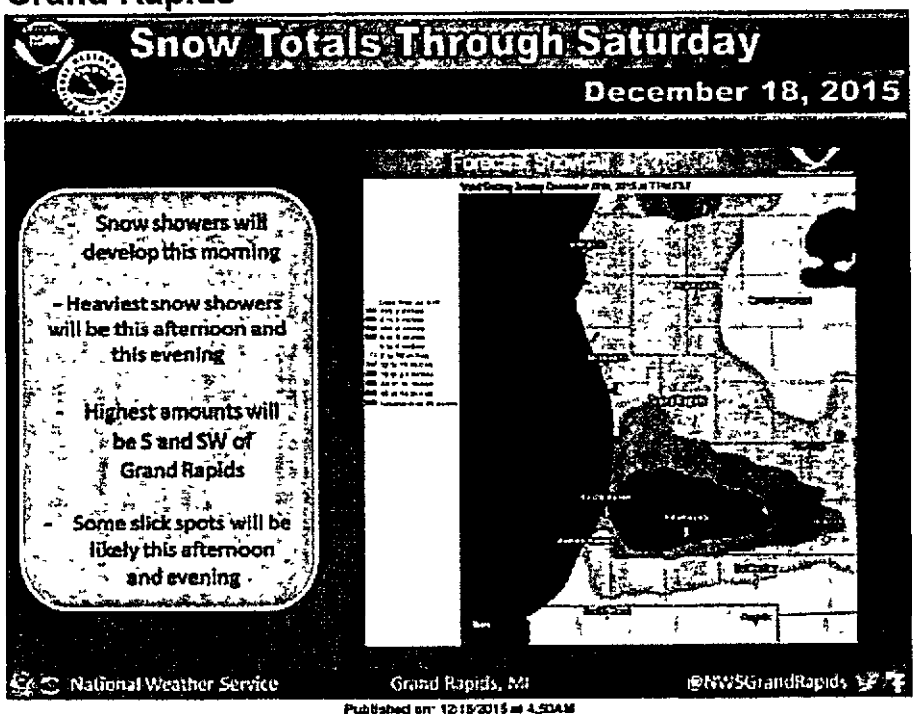
Detroit



Published on: 12/18/2015 at 4:05AM

Numerous Snow Showers will develop late today as brisk westerly flow off Lake Michigan persists. Heaviest snow showers look to be this evening along the I-94 corridor, where 1 to 2 inches is possible, otherwise most locations will receive a dusting to less than 1 inch of accumulation.

Grand Rapids



Snow showers will develop this a.m., and be heaviest this p.m.. Heaviest amounts will be S and SW of Grand Rapids.

Northern Indiana

A brief return to winter with cold and blustery conditions expected today. Snow showers are expected to develop late this afternoon with accumulating snow along and north of I 80-90 where 1-2 inches of accumulation is possible by Saturday morning. This may lead to some slick spots on area roads during the evening commute. Temperatures will struggle into the low 30s this afternoon, with gusty west winds to 30 mph yielding wind chills in the teens.

If you haven't heard by now, there is an existing public health crisis in Flint, Michigan, in which an entire city has been exposed to lead contamination. The source? The city's drinking water. The evidence is clear: no amount of lead exposure is considered safe. Even low lead exposures in childhood can lead to a range of lifelong consequences, including intellectual disabilities, lower IQs, and serious medical conditions.

Last month, NRDC notified the City of Flint and Michigan officials that we plan to sue them for violations of the Safe Drinking Water Act (SDWA), the federal law that requires public water systems to test, monitor, and treat drinking water to ensure that it's safe. We served the notice alongside a community group, Concerned Pastors for Social Action, the ACLU of Michigan, and Flint resident Melissa Mays, who have been among those leading the fight to expose this crisis.

Genesee County chairman says he can send Flint disaster request to governor

MLive, December 17, 2015

FLINT, MI – Genesee County Board of Commissioners Chairman Jamie Curtis says he is authorized to forward Flint's request for a disaster declaration to the governor and plans to meet with Mayor Karen Weaver about it next week.

In a letter to Weaver Thursday, Dec. 17, Curtis says county guidelines and state law call for him to consult with the county's emergency management coordinator -- Sheriff Robert Pickell -- and Michigan State Police once he has been given the declaration.

Snyder names Flint water coordinator after concerns raised

NBC 25, December 18, 2015

LANSING — Gov. Rick Snyder has named a point person to coordinate the state's response to the Flint water crisis after members of an independent task force that he created raised concerns.

Harvey Hollins, who directs his Office of Urban Initiatives, will coordinate efforts.

The Flint Water Advisory Task Force was appointed in October to review governments' actions after children were found to have elevated levels of lead in their blood and it was determined that corrosive river water was leaching lead from aging service lines.

Senate Minority Leader Jim Ananich wants more urgency from Governor, trained emergency coordinator on the ground

senatedems.com, December 17, 2015

LANSING, Mich. — Senate Minority Leader Jim Ananich (D–Flint) responded to today's release of Flint Water Task Force correspondence. He reiterated specific actions that would help organize efforts with the Flint water crisis, including bringing in a trained emergency management professional to coordinate assistance within the City of Flint.

"Political appointees and public relations people are what got us into this mess, and they aren't who we need leading us out of it," Sen. Ananich said. "Anything less than a professional trained in emergency management or public health will not suffice."

Sen. Ananich requested a crisis responder from the Michigan State Police, the Federal Emergency Management Agency or the Department of Homeland Security.

Flint water task force requesting urgent changes from Governor Snyder

NBC 25, December 17, 2015

FLINT — The Flint Water Advisory Task Force isn't expected to release its full report the city's water crisis until next month. However, that didn't stop committee members from asking the Governor to make some changes immediately. Committee Co-Chairman Chris Kolb says there is a sense of urgency to get things done.

"We felt we couldn't wait any longer. We need to make sure there is someone in charge to hold people accountable, and also have a direct line to the governor," Kolb says.

Read letters from governor, task force on Flint water crisis

MLive, December 17, 2015

Read: FWATF letter to Governor Snyder.pdf

Read Gov. Snyder's response: 15.12.15 Flint Task Force Letter.pdf

FLINT, MI -- Gov. Rick Snyder and members of the Flint Water Advisory Task Force are exchanging ideas about how to handle the Flint lead in water crisis in letters released today, Dec. 17, including the potential appointment of a point person to coordinate ongoing work.

In a Dec. 7 letter to Snyder, who appointed the five-member task force in October, the group acknowledges steps that have been taken to carry out the governor's plan to address damage caused by elevated lead levels in the city's drinking water.

Reporter's notebook: Some state officials still in denial or misinformed over Flint River decision

Michigan Radio, December 17, 2015

I don't blame the governor's press secretary for not understanding exactly who made the decision to have Flint pump its drinking water from the Flint River. It was a complicated-decision making process with multiple key players that lasted at least a few months.

Back in the spring of 2013, when this decision was made, Governor Rick Snyder's press secretary, Dave Murray, was one of "us"; a journalist working for The Grand Rapids Press/MLive.

He was one of the familiar faces around town among the smaller group of reporters in Michigan's second largest city. And let's face it; none of us were paying close attention to the water decision that was going on 100 miles away in Flint. It wasn't our beat, after all.

SYRIAN REFUGEES

Snyder: More work to be done on refugees

Michigan Radio, December 16, 2015

Governor Rick Snyder says he's closer to lifting the "pause" on his efforts to bring more refugees from Syria and the Middle East to Michigan.

Snyder was among a group of governors on a conference call this week with the nation's homeland security chief. He says federal officials are working through concerns expressed by governors on relocation efforts following the attacks in Paris and Beirut.

"The federal government has acknowledged that these are reasonable questions that are good ones to ask, and we have a chance to get the answers and move forward," Snyder said in a year-end interview with Michigan Public Radio. "I'm interested in actually getting it so we can continue to be a welcoming place."

Michigan's Middle Eastern Commission backs Snyder's refugee pause

Arab American News, December 17, 2015

DEARBORN — When Gov. Rick Snyder announced a pause in efforts to bring in new Syrian refugees to Michigan after the terrorist attacks in Paris, major Arab, Muslim, immigration advocacy and civil rights organization criticized him.

But days after the governor's decision, the Michigan Commission on Middle Eastern American Affairs (CMEAA) published a statement in support of the step.

Snyder's resolution was followed by more than 30 Republican governors who announced similar measures. But the governor has distanced himself from fellow Republican leaders who oppose accepting Syrians fleeing the war outright.

Scientist who fled Syria arrives 'home' in Michigan

Detroit Free Press, December 18, 2015

Refaai Hamo nearly forgot what it feels like to be alive after experiencing so much grief and terror.

A missile filled with 116 small bombs, needles and shrapnel ripped through his family's Syrian compound two years ago and his wife and daughter, who were on the top floor of the compound when a second missile landed, were killed in what seemed an instant.

In total, 16 people were killed. Seven were his family members.

Hamo, faced with an uncertain future after the attack, fled Syria with his remaining children and said he felt like a piece of him died that day along with his wife and young, bright daughter.

MICHIGAN POLITICS

Governor sits down in a one-on-one interview with TV5, answers tough questions

WNEM, December 17, 2015

LANSING, MI (WNEM) - Governor Rick Snyder talked about some of his highlights of the year in his sit-down interview with TV5.

He said he is proud the unemployment numbers are down to the lowest they've been in a while and legislature passed a package of bills to fund our roads.

But this year, there have certainly been some low-lights.

Governor Snyder said the Flint water crisis is one of those low-points.

"It is a problem that you wish never happened," Snyder said.

Legislation to end straight-ticket voting heads to Gov. Snyder's desk

Michigan Radio, December 18, 2015

Legislation that would eliminate the straight-ticket voting option on Michigan ballots is headed to Gov. Rick Snyder's desk.

Rick Pluta, co-host of It's Just Politics and the Bureau Chief for the Michigan Public Radio Network, tells us that if signed, this legislation would have three effects:

It would eliminate the option that Michigan voters had to vote for candidates in one party by filling a single circle on the ballot.

It would provide money for local governments to buy more voting machines.

It would ensure that this legislation cannot be challenged via voter referendum.

Stabenow, Peters highlight federal budget bill's benefits for Michigan

Michigan Radio, December 17, 2015

A federal spending bill for the 2016 budget year includes potential funding to boost efforts to fight blight in Michigan and to protect the Great Lakes, according to U.S. Senators Debbie Stabenow and Gary Peters.

Stabenow and Peters said the bill, agreed upon Wednesday, would authorize the U.S. Treasury Department to transfer up to $2 billion in additional funding to the Hardest Hit Fund, which they say has been used to fight blight successfully in urban areas across Michigan

"If you don't have healthy, viable neighborhoods, you don't have a healthy, viable city," said Peters. "And this blight funding is absolutely critical."

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Handling of L.A. schools shutdown offers a civics lesson

Emergency Management, December 17, 2015

(TNS) - On Tuesday morning, as the nation's second-largest school district was shutting down in response to a suspected terrorist threat, Los Angeles Mayor Eric Garcetti took the microphone at a news conference led by L.A. Unified School District Superintendent Ramon Cortines.

With his first words, the mayor established the posture he would adopt toward the crisis throughout the day. "The decision to close the schools is not mine to make, but is mine to support," Garcetti said.

That seemingly innocuous statement underscored the jurisdictional divisions that marked L.A. government's response to the threat. In L.A., unlike New York and Chicago, the mayor does not control the schools. Cortines ultimately made the choice to close the district.

San Bernardino shooting: Friend of gunman is charged

BBC News, December 17, 2015

A friend of one of the San Bernardino attackers has been charged in connection with the mass shooting that killed 14.

Enrique Marquez, 24, is the first person arrested over the deadliest terrorist attack in the US since 9/11.

Mr Marquez is charged with plotting with gunman Syed Farook to attack a university in 2011 and 2012.

He is also accused of illegally purchasing the two rifles that were used by Farook and Tashfeen Malik.

What we know about San Bernardino shooter's alleged 'rush hour' terror plot

ABC News, December 17, 2015

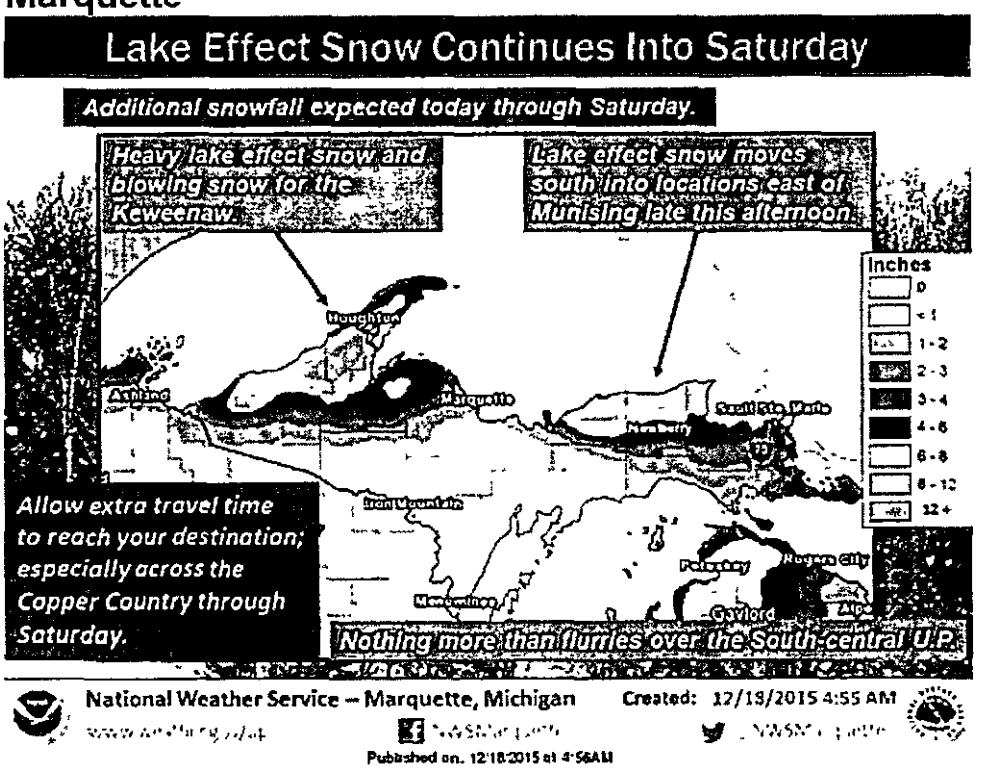
Four years before Syed Rizwan Farook and his wife Tashfeen Malik killed 14 people at an office party in San Bernardino, Farook plotted with his old friend and neighbor Enrique Marquez to kill as many people as possible during a "rush hour" attack on a highway in California, according to the FBI.

The late 2011 or early 2012 plot was detailed for the first time today in a criminal complaint filed against Marquez, who authorities said admitted the plans during a 10-day questioning session with the FBI after the San Bernardino shootings earlier this month.

According to the complaint, Marquez told the FBI that he had converted to Islam in 2007 and was pushed towards radical Islamic material by his friend and neighbor Farook. In late 2011, the two decided to strike in the U.S., and discussed whether they should attack a local community college and busy California highway, SR-91.

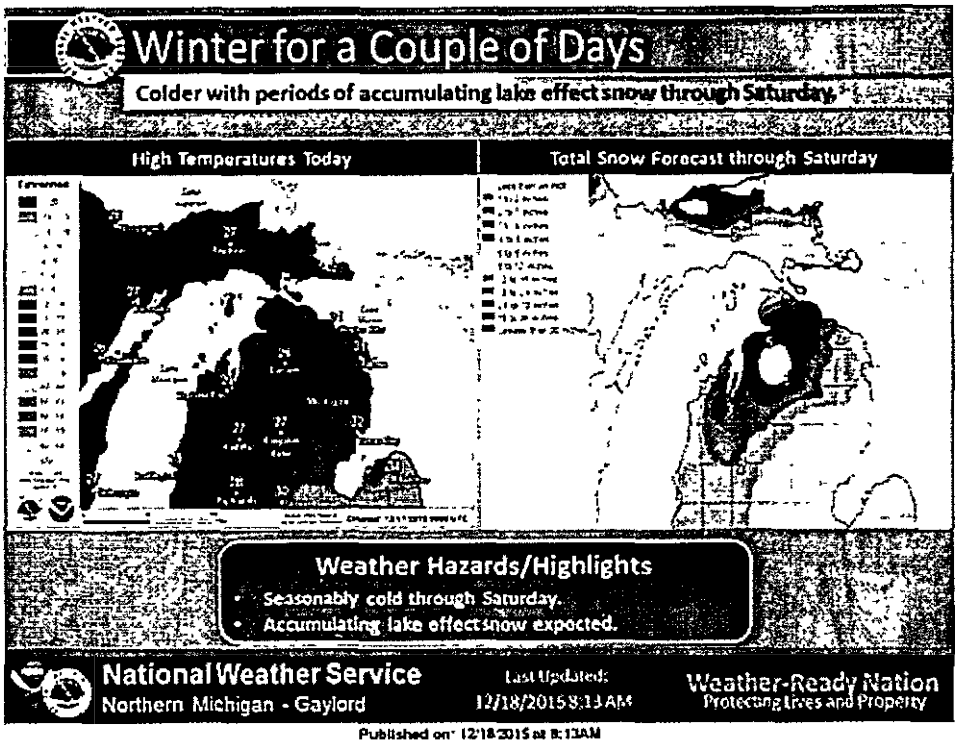
NATIONAL WEATHER SERVICE FORECASTS

Marquette



Lake effect snow will continue over portions of the western U.P. today and then transition to areas favored by northwest winds tonight. The combination of the lake effect snow and blowing snow will lead to greatly reduced visibilities at times, especially over northern Houghton County today.

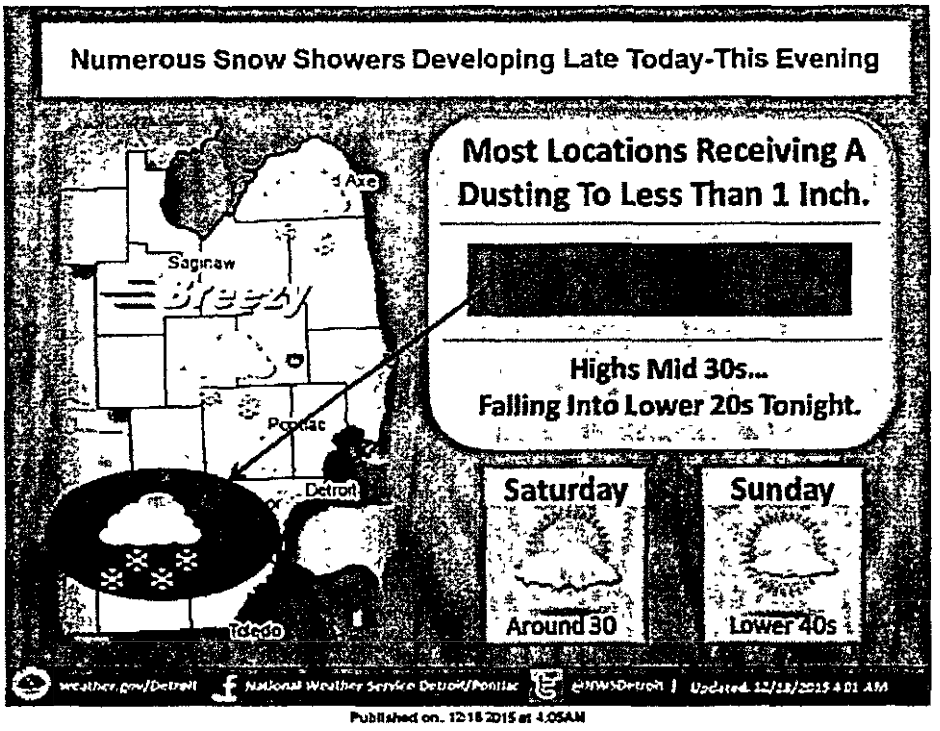
Gaylord



Published on: 12/18/2015 at 8:13AM

The coldest air yet this season will be across the Great Lakes through Saturday, leading to lake effect snow showers. Some of the snow showers could be locally heavy, in the traditional snow belts, where several inches of snow are expected by Saturday. Temperatures are then expected to moderate heading into the end of the weekend and start of next week.

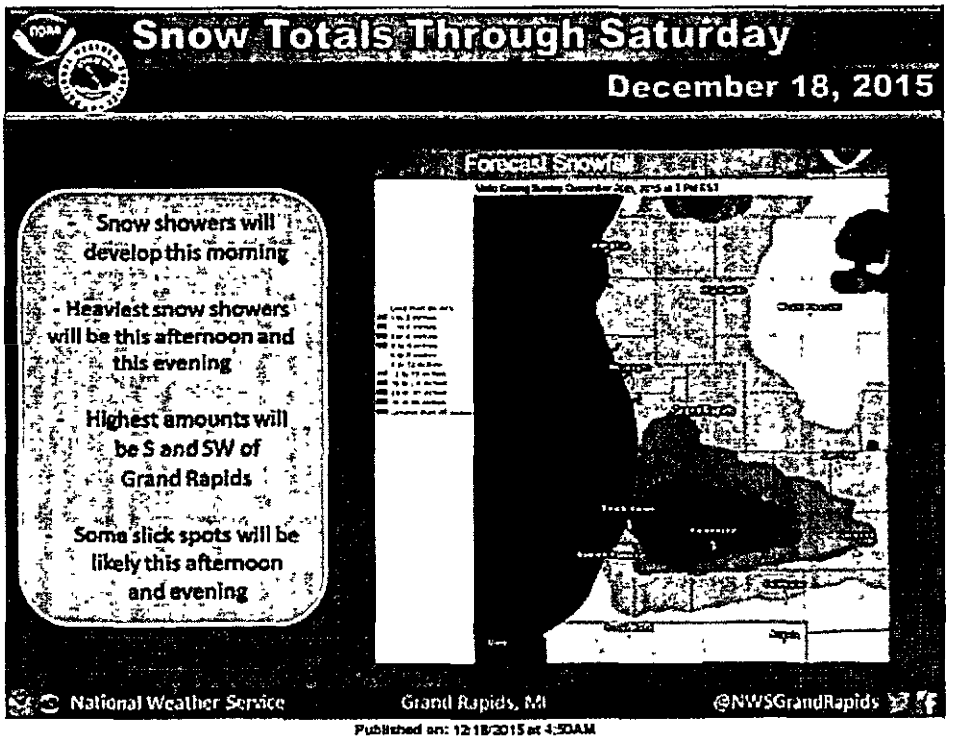
Detroit



Published on: 12/18/2015 at 4:05AM

Numerous Snow Showers will develop late today as brisk westerly flow off Lake Michigan persists. Heaviest snow showers look to be this evening along the I-94 corridor, where 1 to 2 inches is possible, otherwise most locations will receive a dusting to less than 1 inch of accumulation.

Grand Rapids



Snow showers will develop this a.m., and be heaviest this p.m.. Heaviest amounts will be S and SW of Grand Rapids.

Northern Indiana

A brief return to winter with cold and blustery conditions expected today. Snow showers are expected to develop late this afternoon with accumulating snow along and north of I 80-90 where 1-2 inches of accumulation is possible by Saturday morning. This may lead to some slick spots on area roads during the evening commute. Temperatures will struggle into the low 30s this afternoon, with gusty west winds to 30 mph yielding wind chills in the teens.

Bill signings
Snyder signs law letting school retirees return with pension (AP)
Certain retired teachers can return to work in critical shortage subjects without sacrificing their pension and health care benefits under a law signed by Gov. Rick Snyder. The law enacted Wednesday is designed to address shortages of full-time teachers in some subjects and substitute teachers.

Snyder OKs immunity for reporting prescription drug overdose (AP)
Gov. Rick Snyder has signed a law letting people under age 21 report a prescription drug overdose without having to worry about facing criminal charges. The "Good Samaritan" exemption is similar to a Michigan law already on the books for minors who help someone in danger from alcohol intoxication.

Gov. Snyder analyzes old laws that don't apply to the 21st Century (WLNS)
Go ahead and trample a blackberry bush or accept a challenge to a duel. Believe it or not, those laws were still on the books 24 hours ago but not anymore.

New law exempts young adults if they report drug abuse (Detroit News)
People under 21 who call for help during life-threatening emergencies as the result of abusing prescription drugs will be exempt from drug-related charges under a bill signed into law Wednesday. Good Samaritan criminal law provisions are among the recommendations in an October 27 report issued by a state task force headed by Lt. Gov. Brian Calley. The report is part of a state-led battle against a growing number of addictions and deaths in Michigan linked to widely-used drugs called opioids.

Student takes 'selfie' with Gov. Snyder after bill signing (WZZM)
Gov. Rick Snyder doesn't usually take "selfies," but Evan Dean managed to get one following a bill signing ceremony Wednesday morning at the Romney Building in Lansing.

Good Samaritan Act Signed By Governor (WSJM)
State Representative Al Pscholka's Good Samaritan legislation has now been signed by Governor Rick Snyder. The law will now allow for exemptions from prosecution to minors who report someone having a medical emergency due to the abuse of a prescription medication. It was inspired by the overdose death of 16 year old Mason Mizwicki, of Watervliet, last year. His mother, Lori, says it's important now to spread the message to teens.

Gov. Rick Snyder signs Blue Alert legislation (Holland Sentinel)
Gov. Rick Snyder recently signed into law Public Act 167 of 2015, which is legislation aimed to protect

the public and law enforcement after an attack on an officer. The legislation, sponsored by State Sen. Tonya Schuitmaker, R-26th District, will create the Blue Alert system in Michigan.

Retired teachers can return to classroom in some areas (Freep)
Gov. Rick Snyder has signed legislation that will give retired teachers more flexibility to return to the classroom without risking their retirement benefits or health care.

W. Mich. mother who inspired 'good Samaritan' law speaks out on its passage (WWMT)
Governor Rick Snyder has signed a so-called "Good Samaritan" law, designed to give teens life-saving help. The new law exempts people under the age of 21 from being prosecuted for illegally using prescription drugs if a medical emergency is reported.

New Chief at Grand Rapids Vets Home Appointed (WHTC)

The Grand Rapids Home for Veterans has a new Chief Operating Officer. Starting next Monday, Scott Blakeney takes over the helm of that facility's operations, working closely with state Veteran Health System CEO Leslie Shanlian and Jacobetti Home for Veterans COO Brad Slagle "to ensure both state veterans' homes continue to offer modern, quality care for residents," says state Veterans Affairs Agency Director Jeff Barnes.

DEQ

Michigan In State Of Emergency After Contaminated Water Causes High Levels Of Lead In Kids (Medical Daily)

The city of Flint, Mich., made the decision to break away from Detroit's water system last year, and the city's residents have been struggling to find clean drinking water ever since. Mayor Karen Weaver declared a State of Emergency on Monday over the dangerously high levels of lead in the city's drinking water supply.

Flint's Water Crisis Just Became A Double Emergency (Huffington Post)

JeCorey Hawkins had a scary moment with the water in Flint, Michigan, in September. The 22-year-old psychology student had stopped at a drinking fountain at his university when the water took on a grainy

texture in his mouth. "I was very creeped out because I didn't know if I would be sick," Hawkins told The Huffington Post on Tuesday.

Great Lakes program would get $300M under compromise (Detroit Free Press)
A wide-ranging Great Lakes cleanup program would escape President Barack Obama's proposal to cut its funding under a compromise federal spending plan, members of Congress said Wednesday. Obama established the Great Lakes Restoration Initiative in 2009 to make progress on some of the freshwater seas' biggest environmental problems, including invasive species, industrial pollution, loss of wildlife habitat and nutrient runoff that causes harmful algae blooms.

DHHS
Chicken Pox Vaccine Debate: Amid Michigan Outbreaks, State Officials Beg Parents To Keep Children Healthy (International Business Times)
Amid a national debate on vaccines for children, Michigan health officials implored parents this week to keep children's vaccinations up to date following recent chickenpox outbreaks. The Michigan Department of Health and Human Services said Tuesday that outbreaks have been reported in multiple counties involving mainly unvaccinated children in school settings.

LEGISLATIVE

Michigan Senate GOP plans to pass straight-ticket voting ban, ditch absentee voting bill (Mlive)
Michigan will ban straight-ticket voting without expanding absentee ballot options -- if Senate Republicans have their way. Majority Leader Arlan Meekhof, R-West Olive, said the upper chamber will move Wednesday to separate elections bills linked and approved last week by the House.

LMC gets big boost (The Herald Palladium)
The Michigan Senate on Tuesday passed legislation proposed by Rep. Al Pscholka that will bring a $17 million dollar renovation project to Lake Michigan College in Benton Township. Since 2006, Lake Michigan College has pushed for the funding to restore and upgrade the 307,997-square-foot Napier Avenue Campus Academic Facility, a 45-year-old building.

Legislature approves tax breaks for data center campus (Grand Rapids Business Journal)
Both the Michigan House and Senate had a late Tuesday night as they approved tax-exemption bills that were deemed necessary to bring a major data center campus to the Grand Rapids area. The two bills, exempting data centers from use and sales tax, are on their way to Gov. Rick Snyder to be signed. The House approved the amended bills, 61-45, and then the Senate approved those versions, 26-12, after initially passing them last week.

Senate passes bill allowing termination of rapist's parental rights (Michigan Radio)
A new law would protect rape victims from a custody battle with their rapists when a child is conceived. The Michigan Senate unanimously passed legislation this week that would allow courts to terminate a rapist's parental rights to a child conceived by the rape of the mother.

Michigan Senate votes to end straight-ticket voting option (AP)
The Republican-led Senate late Wednesday voted to eliminate the straight-party voting option from Michigan ballots after uncoupling the legislation from a House measure that would let voters cast an absentee ballot without having to meet specific criteria. The straight-ticket bill was sent back across the

Capitol on a 24-13 vote, more than a month after the Senate passed an earlier version. The House, also controlled by Republicans, may vote later Wednesday to send the legislation to Gov. Rick Snyder.

Michigan Senate bills pit cherries against blueberries (WZZM 13)
It's a debate that's pitted cherry growers against Blueberry farmers. And now it's playing out in the state Senate. Ann Arbor Democrat Rebekah Warren introduced a bill Wednesday designating the cherry as Michigan's official fruit. But what about the blueberry? Michigan is, after all, the nation's top producer of highbush blueberries, harvesting more than 100 million pounds of blueberries a year.

DETROIT

Detroit honored in UNESCO's Creative Cities Network (Detroit Free Press)
In recognition of its innovative work in design, Detroit has been named a part of UNESCO's Creative Cities Network, along with dozens of new member cities from 33 countries. The international agency announced that Detroit and the other cities were "committed to investing in creativity as a driver for sustainable urban development, social inclusion and cultural vibrancy." The network is immensely geographically diverse, and includes cities like Austin, Barcelona, Rome, Singapore and Kinshasa in the Democratic Republic of the Congo.

OPINION

For Detroit students, don't go back to status quo (Detroit Free Press)
When it comes to reforming education for students stuck in under-performing and failing schools, it's far past time to set aside our ideological differences and put our collective focus on the kids in the classroom.

When did state know kids in Flint were lead poisoned? (Detroit Free Press)
When did the State of Michigan first learn that kids in Flint had been poisoned by lead in the city's drinking water?

Reading bill focuses on advancing students to proficiency (MLive)
House Bill 4822, which I sponsored and which passed the House in October, was the subject of a recent op-ed. The writer, psychologist Michael Ryan, is a longtime advocate for children and I commend him for his passion and contributions to improving literacy. However, a number of mischaracterizations and omissions warrant a response.

Young voters—where are they now? Not very close to the polling place (MLive)
Seniors vote. Young adults not so much.

Senate absentee-voting bill takes away more than it gives (MLive)
While much of the rest of the country has brought voting into the 21st century, Michigan has kept its badly outdated election laws. It is one of a minority of states that offers a limited number of options for hard-working Americans to register to vote and cast a ballot before Election Day. A Michigan voter cannot vote before Election Day without a valid excuse, must register nearly a month before the election without exception and cannot register online as voters in more than half the country now can.

Without guidelines for Michigan teacher evaluations, everyone is awesome (MLive)

Just 19 of the nearly 96,000 teachers statewide have met the official threshold for being terminated due to poor evaluations since the passage of teacher tenure reforms four years ago, state data show.

Durant: Give Michigan schools more freedom to innovate (Detroit News)
We have a public school crisis in Detroit and in Michigan. It is about outcomes, money and the need for new schools.

Editorial: Deal to cap GM should be public (Detroit News)
General Motors Co. will invest $1 billion in Michigan by 2030, part of a new deal the company reached with the state to reconfigure and cap the automakers' tax credits under a program that gives companies credits for keeping jobs and other investments in the state.

Letter: Time, dollars needed for juvenile justice (Detroit News)
Re: The Detroit News' Dec. 7 editorial, "Raise juvenile age in Michigan": I agree that Michigan's juvenile justice system is in disrepair. But the solution the News is pushing, and which is under consideration in Lansing, misses the mark.

When it comes to talent, Michigan needs more of everything (Bridge)
When it comes to building a brighter future for Michigan, no factor is more important than providing our state's residents the education and training they need to be successful. Children and adults become poised for success when they have the knowledge and skills they need to grow, thrive and contribute to Michigan's overall prosperity.

#####

MEDIA MONITORING REPORT

12/17/2015

Issues:

- No issues to report.

Summary:

- ACLU Investigative Journalist Curt Guyette writes in The Guardian that Flint Mayor Weaver's emergency declaration represents that the city returning to democracy.
- Nancy Kaffer opines in the Detroit Free Press about Gov. Rick Snyder not being able to recall when he learned about the elevated lead levels in Flint children
- Michigan Radio has produced an hour documentary about the Flint water problems.
- Flint Mayor Karen Weaver is asking Flint City Councilmembers to be civil and professional during their meetings.
- Current actions to protect the public from lead in water appear to be taking place without a system to measure results and delineate responsibilities, according to a task force charged with reviewing Flint's lead in water crisis.
- Genesee County Board Chairman Jamie Curtis says he supports Flint's call for assistance, but the city must follow the proper process for an emergency declaration. He says the process is similar to applying for a grant.
- U.S. Homeland Security Secretary Jeh Johnson activated the National Terrorism Advisory System for the first time Wednesday, warning the public of "self-radicalized actors who could strike with little or no notice."
- Russia's strategic nuclear forces chief says its new weapons will be capable of "neutralizing" any potential missile defenses.
- When the public needs to know what's happening during a weather, health, or safety emergency, it's usually a public information officer that relays critical information. Several Region 7 emergency management officials underwent training.
- U.S law enforcement officials said that gun charges will be announced Thursday against Enrique Marquez, who bought the assault rifles used in the deadly Dec. 2 attack here.
- National Weather Service: Snow coming this weekend; mild temps next week.

Analysis:

- The Flint water situation is an evolving situation.
    - Several news articles are being written from complied information from other articles. Some information is packaged out of context.
    - The MSP/EMSHD PIO expects another surge of media coverage after the Jan. 4 Genesee County Board of Commissioners meeting.
    - State Sen. Jim Ananich, D-Flint, is renewing calls for a professional emergency management official to manage the situation in Flint. He is also skeptical of the Flint Water Advisory Task Force.
- Will continue to monitor the situation.

FLINT WATER

Flint's state of emergency is a sign that democracy is working there again

The Guardian, December 16, 2015

It might seem counterintuitive that Flint, Michigan's declaration that there are dangerously high levels of lead in the city's drinking water – and in the blood of the city's children – is a positive thing. The contamination of the city's drinking water is, after all, is a gut-wrenching tragedy.

But the *declaration* about the undrinkable water, made by newly elected mayor Karen Weaver on Monday, is positive in this regard: it is evidence that a semblance of democracy has returned to Flint.

Such an announcement would have been unimaginable even six months ago, when Flint was still under the control of an "emergency manager" appointed by Governor Rick Snyder. The state's usurpation of local power essentially obliterated the kinds of checks and balances that are key to a functioning democracy.

The Surreal Flint Experience: 2014-2015 Water Crisis // Video of Resident Getting Arrested for Questioning Safety of Water

FlintWaterStudy.org, December 17, 2015

Now that the 2014-2015 Flint Drinking Water Crisis has a name and is getting national attention, we wanted everyone to get a glimpse of the surreal journey of Flint residents. The scene was a City Council meeting about 17 months into the water crisis. Understandably, Flint residents were upset, as they were paying the highest water rates in the U.S. (average $200 per month) for water that is now acknowledged to have been dangerous and non-potable.

The residents had just collected their own data, with the assistance of Virginia Tech researchers, that demonstrated Flint water was not meeting Federal safety standards for lead. At the meeting, Flint residents were not allowed to speak, and if they did so, they were arrested. The only mode of asking a question to the government was to write them on Post-In notes or submit them on paper, and residents were told that answers would be posted a week later on the City of Flint's website. Moreover, questions from several Flint residents (like Melissa Mays and LeeAnne Walters) were never answered.

Kaffer: When did state know kids in Flint were lead poisoned?

Detroit Free Press Opinion, December 17, 2015

When did the State of Michigan first learn that kids in Flint had been poisoned by lead in the city's drinking water?

This is one of the most critical questions to answer in the aftermath of a public health crisis that's still unfolding in one of the state's largest cities.

And it shouldn't be a hard question to answer.

But when I asked Gov. Rick Snyder this week, he said he couldn't recall.

Officials at the state department of health say they didn't know what was happening until a Flint pediatrician released her own analysis in September -- even though data previously collected by the state showed the same trend, a reversal in a decades-long decline in the percentage of kids with lead in their blood.

And the health department has been stalling a Virginia Tech University researcher who has been trying to get public records that could show who knew what, and when

It's ridiculous. Immediately after Snyder acknowledged there was a problem in Flint, the Free Press editorial board encouraged him not to slow-walk the postmortem. Snyder has appointed an after-action task force to find out what happened, and he told the Free Press this week that he's waiting for that report to provide answers to many of these questions -- but answers should certainly be readily available for the man in charge of the state departments involved in this fiasco.

So inconsistency and obfuscation continue.

Listen to "Not Safe to Drink," a special documentary about the Flint water crisis

Michigan Radio, December 16, 2015

What would you do if your tap water turned brown? If it gave your children a rash every time they took a bath? Or worse, what if it made them sick? Listen to our special documentary below, and hear the wild story about how the water in Flint became *Not Safe To Drink*.

Flint mayor tells City Council 'fussing and fighting' need to end

MLive – Flint Journal, December 16, 2015

FLINT, MI — Fewer than 50 days into her first term as Flint mayor, Karen Weaver already doesn't like some of what she's seen from the Flint City Council.

"When we're yelling and fussing and fighting — that is no way to get anything done," Weaver told the council Monday, Dec. 16, after members Eric Mays, Kerry Nelson and Monica Galloway argued over procedural rules, a proposed special meeting and the amount of time Mays was speaking.

The theatrics, sometimes involving residents, are nothing new at council meetings.

A uniformed police officer is on duty at every regular and committee meeting of the council, and Mays still is facing a misdemeanor disorderly conduct charge tied to his behavior in July when police escorted him from a meeting room.

Weaver said council members may disagree without being disagreeable.

Flint's Water Crisis Just Became A Double Emergency

Huffington Post, December 17, 2015

JeCorey Hawkins had a scary moment with the water in Flint, Michigan, in September. The 22-year-old psychology student had stooped at a drinking fountain at his university when the water took on a grainy texture in his mouth.

"I was very creeped out because I didn't know if I would be sick," Hawkins told The Huffington Post on Tuesday. He said he and his family, which lives in Flint, hadn't been drinking tap water since earlier this year, though he trusted the University of Michigan's efforts to test and treat water on its Flint campus.

Flint's water problems turned out to be worse than most people realized when a local pediatrician reported in September that more children were being poisoned with lead, a dangerous neurotoxin. The continued problems with the water prompted Flint Mayor Karen Weaver to declare an emergency Tuesday.

"I am requesting that all things be done necessary to address this state of emergency declaration, effective immediately," Weaver said.

It's the second emergency declaration over toxic water for the beleaguered city -- Genesee County, which surrounds Flint, declared an emergency for the same reason back in October.

Jamie Curtis, chairman of the Genesee County Board of Commissioners, told HuffPost he didn't understand what Weaver hoped to achieve with her declaration, saying the mayor hadn't been in touch with any demands. He said the commission would take it up at its Jan. 4 meeting.

"I'm not sure what her declaration is," Curtis said. "What I don't think the people of Flint need ... is nothing more than rhetoric saying, 'I've declared this emergency,' but nothing comes of it.

Michigan Mayor Declares State Of Emergency Over Lead Levels

NPR, December 17, 2015

The mayor of Flint, Michigan says her city is experiencing a "man-made disaster" after a 2014 switch to a new water source.

She says the city's usage of water from the Flint River elevated blood lead levels in children, leading to irreversible health effects.

In a televised interview on The Rachel Maddow Show on Tuesday, Mayor Karen Weaver called her choice to declare a state of emergency "the only step we could take at this point," adding that the city is seeking state and federal funds in light of health problems of the city's children.

"We know that Flint is not in a position to bear this burden alone, and we are asking and looking for state and federal assistance. And the only way that we were going to happen was to declare a state of emergency, and hopefully that gets it to the county which will get it to the state where the governor can make it federal."

But it's not clear that Genesee County will support Mayor Weaver's request for federal disaster aid, which is a crucial step in elevating the issue to the federal level, The Flint Journal-MLive reported Tuesday. County board Chairman had initially said "that there's no need for the state of emergency" because "nothing more can be done." He later told the same publication that the issue will receive a "full hearing" in front of the Genesee County Board of Commissioners on January 4.

VIDEO: One family's take on life in Flint with bad tap water

Michigan Radio, December 17, 2015

As Flint's water crisis unfolded, there was a lot of news about decisions made by top level officials.

The decision to switch the city's drinking; decisions about corrosion control; and, eventually, the decision to switch back to Detroit water.

But what did these decisions mean for people living in Flint?

We gave one Flint family, the MacIntyres, a disposable camera and asked them to take photos of the way the Flint water crisis affected their day to day life.

Flint's 'toxic soup' polluted water worse for children than thought, doctor says

The Guardian, December 17, 2015

The doctor who discovered that the children of Flint, Michigan, were at risk of irreparable brain damage from lead poisoning in the city's water supply has warned that the problem of "toxic soup" coming out of their household taps may have affected many more than originally thought.

All children under the age of six – between 8,000 and 9,000 of them – have been put in jeopardy by Flint's contaminated water.

As many as 15% of those tested in certain city hotspots have shown dangerous levels of lead in their blood, according to Dr Mona Hanna-Attisha, a pediatrician at the local hospital who raised the alarm in the summer about metal in the water.

"This is an emergency. People think of disasters as being hurricanes, or tornadoes, or ice storms, but this is a disaster right here in Flint that is alarming and absolutely gut-wrenching," Hanna-Attisha said on Wednesday.

The newly elected mayor of Flint, Karen Weaver, declared a state of emergency on Monday night, calling for federal assistance to deal with what she labeled a "manmade disaster".

Governor's task force on Flint water crisis releases early recommendations

MLive-Flint Journal, December 17, 2015

FLINT, MI – Current actions to protect the public from lead in water appear to be taking place without a system to measure results and delineate responsibilities, according to a task force charged with reviewing Flint's lead in water crisis.

In a letter to Gov. Rick Snyder, who appointed the Flint Water Advisory Task Force in October, the group acknowledged steps, including distribution of free water filters, that have been taken to carry out the governor's plan to address lead levels in the city's drinking water.

But the group also makes initial recommendations for improvement, including that the state address:

- The need for the Michigan Department of Health and Human Services and Department of Environmental Quality to set goals for actions in collaboration with local and federal agencies and organizations.
- The need for a set of corresponding timelines for the goals
- The need to establish responsibility for meeting the goals in a timely fasion and for contingency plans for the state if the goals are not being met
- The need for clear, regular communication with the Flint community and stakeholder groups regarding action steps and updates.
- That a single person or entity -- "potentially independent of any one particular state agency" – serve as the point person to coordinate ongoing work.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Homeland Security activates new terror warning level

USA Today, December 17, 2015

WASHINGTON — Homeland Security Secretary Jeh Johnson activated the National Terrorism Advisory System for the first time Wednesday, warning the public of "self-radicalized actors who could strike with little or no notice."

The bulletin, which marks the addition of a new level of public warning to the system, will be in effect for the next six months, or until events dictate otherwise, Johnson said.

The Department of Homeland Security is "especially concerned that terrorist-inspired individuals and homegrown violent extremists may be encouraged or inspired to target public events or places," the bulletin stated.

Russian general says new weapons will 'neutralize' US shield

Associated Press, December 17, 2015

MOSCOW (AP) - Russia's strategic nuclear forces chief says its new weapons will be capable of "neutralizing" any potential missile defenses.

Col. Gen. Sergei Karakayev, the Strategic Missile Forces' commander, said Wednesday in remarks carried by Russian news agencies that the nation's military planners have taken into account the emerging potential of NATO's U.S.-led missile defenses.

The Kremlin long has described the U.S. missile shield as a top threat to Russia, dismissing Washington's claim that it is intended to fend off an Iranian missile threat.

Karakayev said that while the existing U.S. missile defense isn't capable of deflecting a missile attack Russia is capable of launching, the American missile shield will become more advanced in the future

He added that Russia already has taken steps that would "guarantee neutralizing" any prospective missile defense.

Public Information Officers Gather to Train, Share Tips on Information Sharing

9 and 10 News, December 17, 2015

When the public needs to know what's happening during a weather, health, or safety emergency, it's usually a public information officer that relays critical information.

This morning public information officers gathered in Benzie County to learn more about having a common voice for the public.

The training included public speaking, press release writing and how different department deliver messages to the public.

Officers from the DNR, health department, state police, National Parks Service, and county administrations discussed how to better work together.

"If you have damage or condemnation of certain things, those people they all come from different backgrounds and different focuses," says Frank Post, Benzie County Emergency Management Coordinator. "Now how do we congeal all that? How do we make it all come together so that the public clearly understands what's going on."

The public information officers there say it's great to get together with other agencies to share experiences and advice.

Gun charges expected against San Bernardino shooter's friend

Washington Post, December 17, 2015

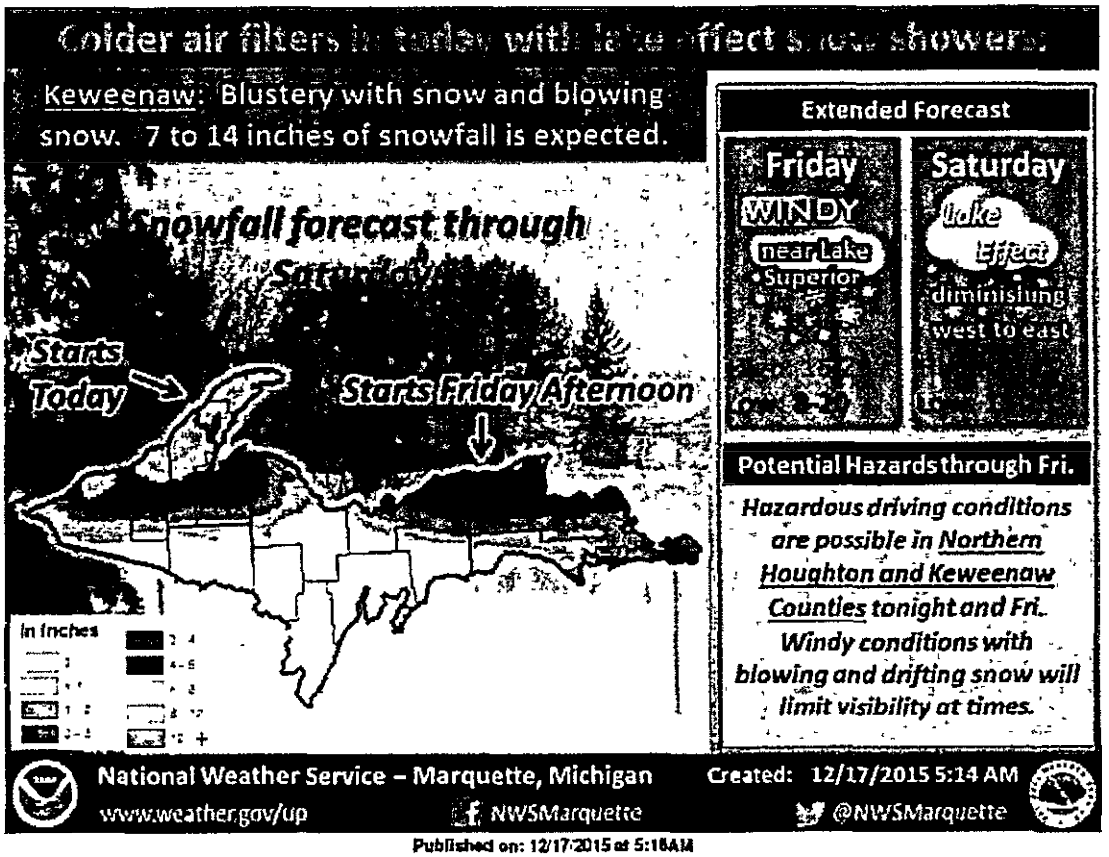
SAN BERNARDINO — U.S. law enforcement officials said that gun charges will be announced Thursday against Enrique Marquez, who bought the assault rifles used in the deadly Dec. 2 attack here.

It is not clear if Marquez has been arrested yet. But the 24-year-old has been at the center of the extensive federal investigation of the massacre carried out by his former neighbor, Syed Rizwan Farook, and Farook's Pakistani wife, Tashfeen Malik.

Authorities have said Marquez purchased two assault rifles used in the shooting that killed 14 people.

NATIONAL WEATHER SERVICE FORECASTS

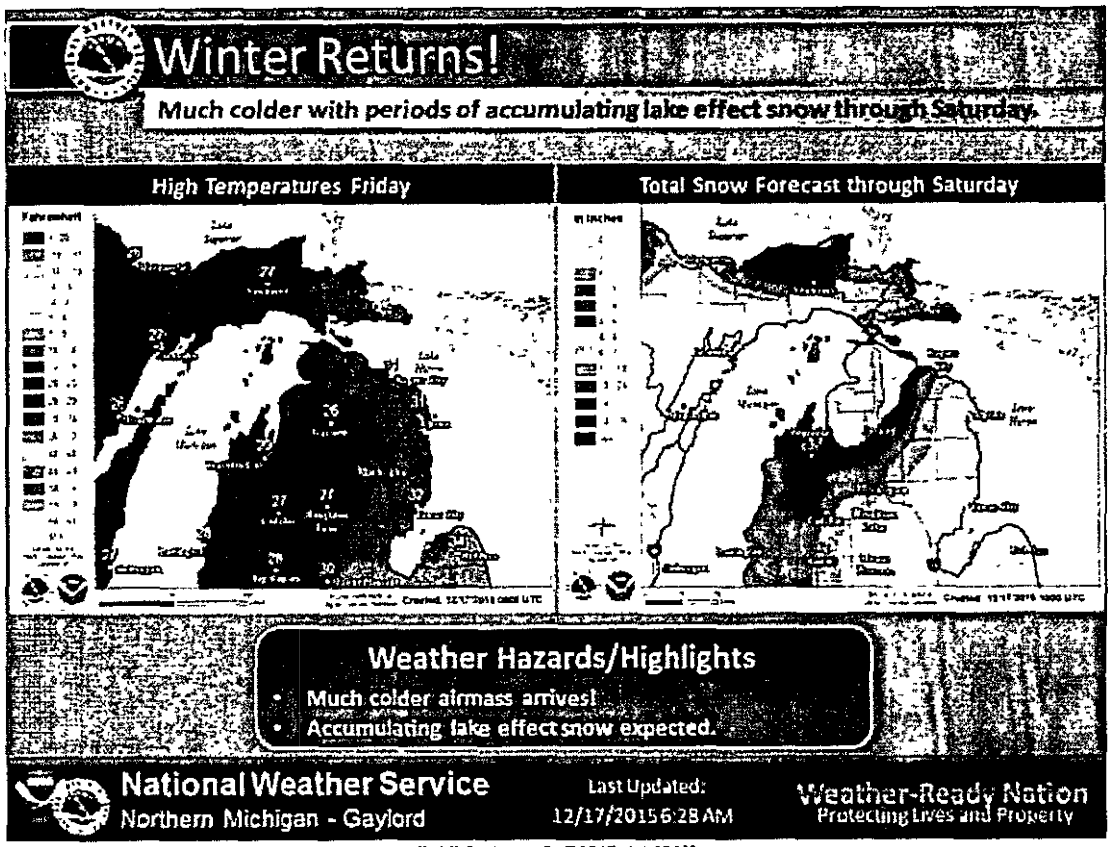
Marquette



Published on: 12/17/2015 at 5:16AM

Lake effect snow will intensify today over the Keweenaw Peninsula, which will combine with gusty westerly winds to produce blowing and drifting snow and difficult travel conditions. The lake effect snow is expected to continue into Saturday before diminishing.

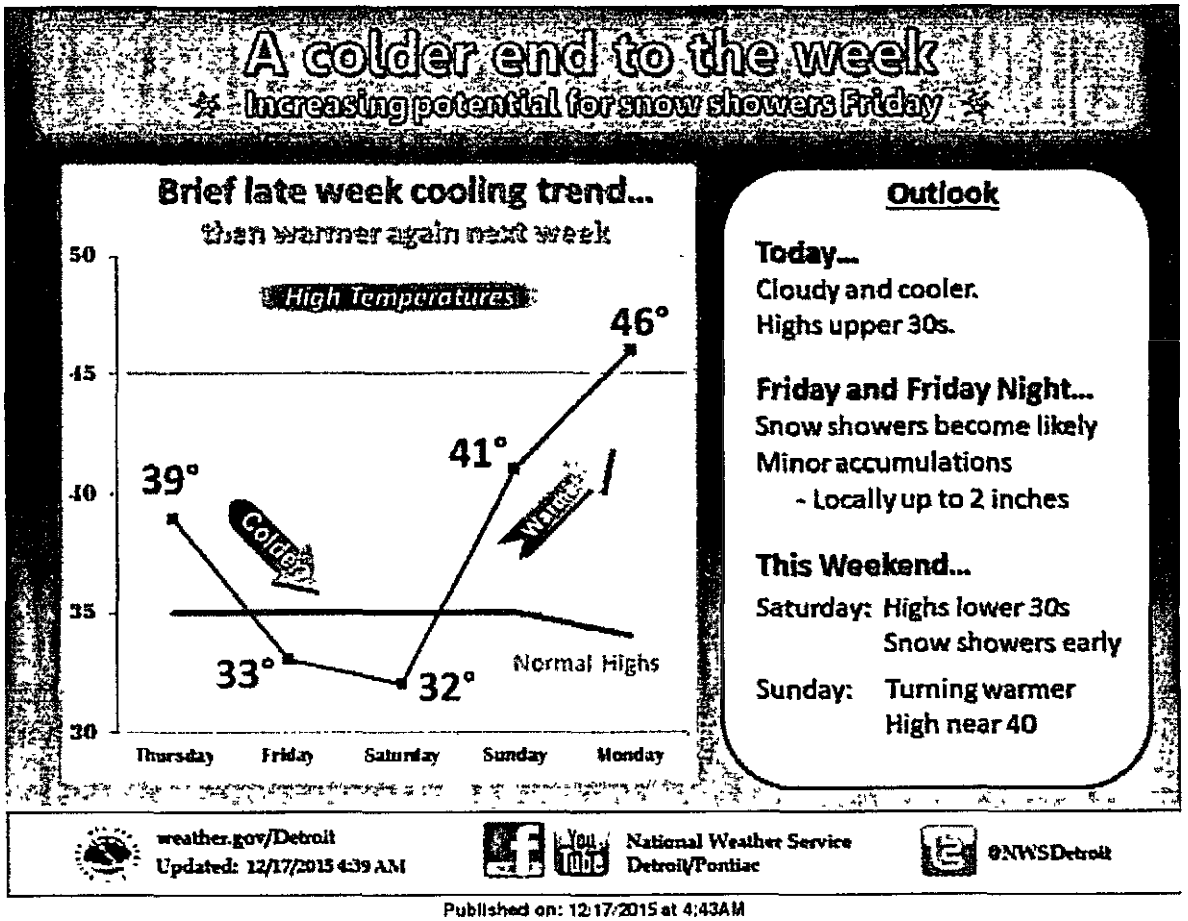
Gaylord



Published on: 12/17/2015 at 6:30AM

Coldest air yet this season will spread across the Great Lakes today through Saturday, kicking off scattered to numerous lake effect snow showers in the process. Some of the snow showers could be locally heavy, especially in the traditional snow belts Friday and Friday night, where several inches of snow are expected. Conditions are expected to moderate heading into the end of the weekend and start of next week.

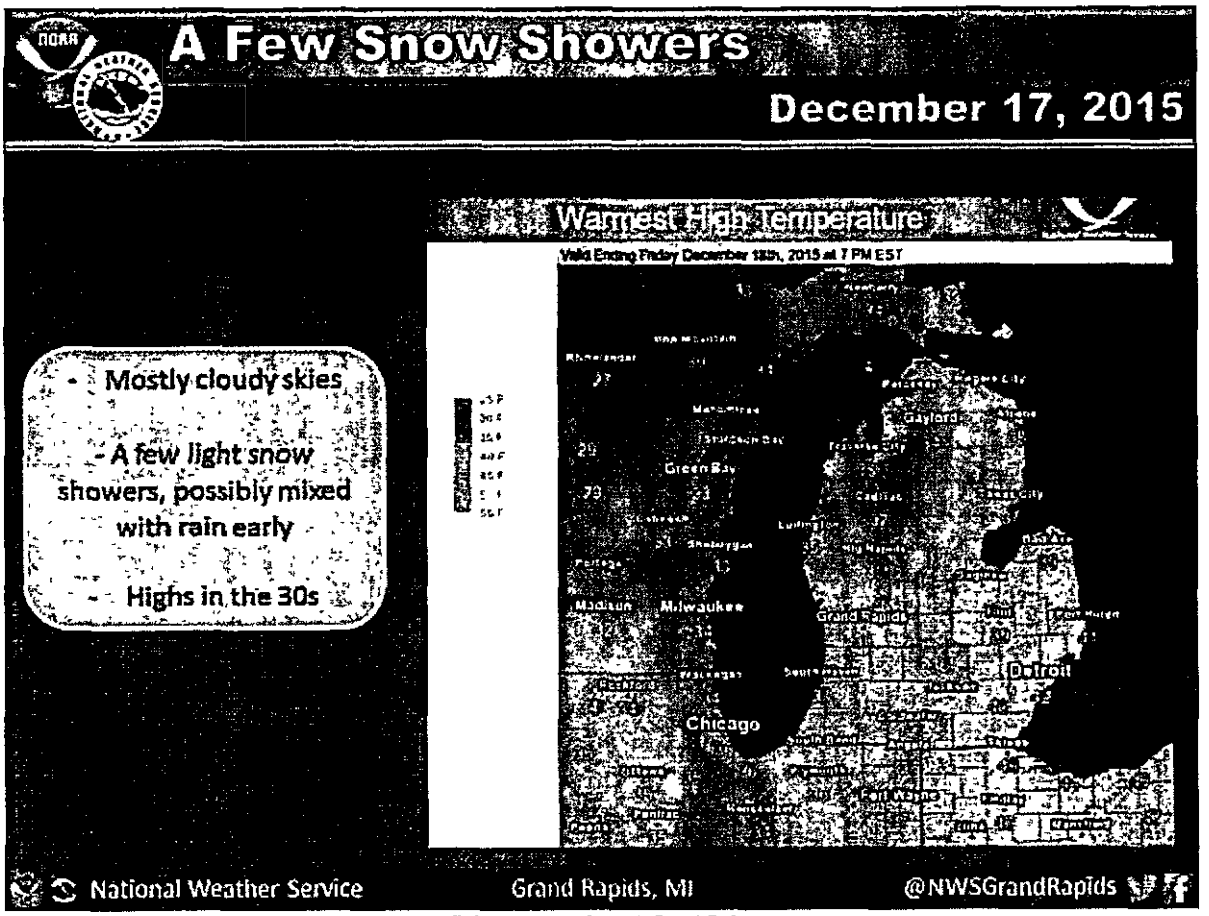
Detroit



Published on: 12/17/2015 at 4:43AM

Stretch of cloudy and colder conditions begins today. Highs today upper 30s to near 40. Trending even colder for Friday and Saturday, with highs in the lower 30s. Snow showers become likely Friday and Friday Night, with some minor accumulation possible during this time.

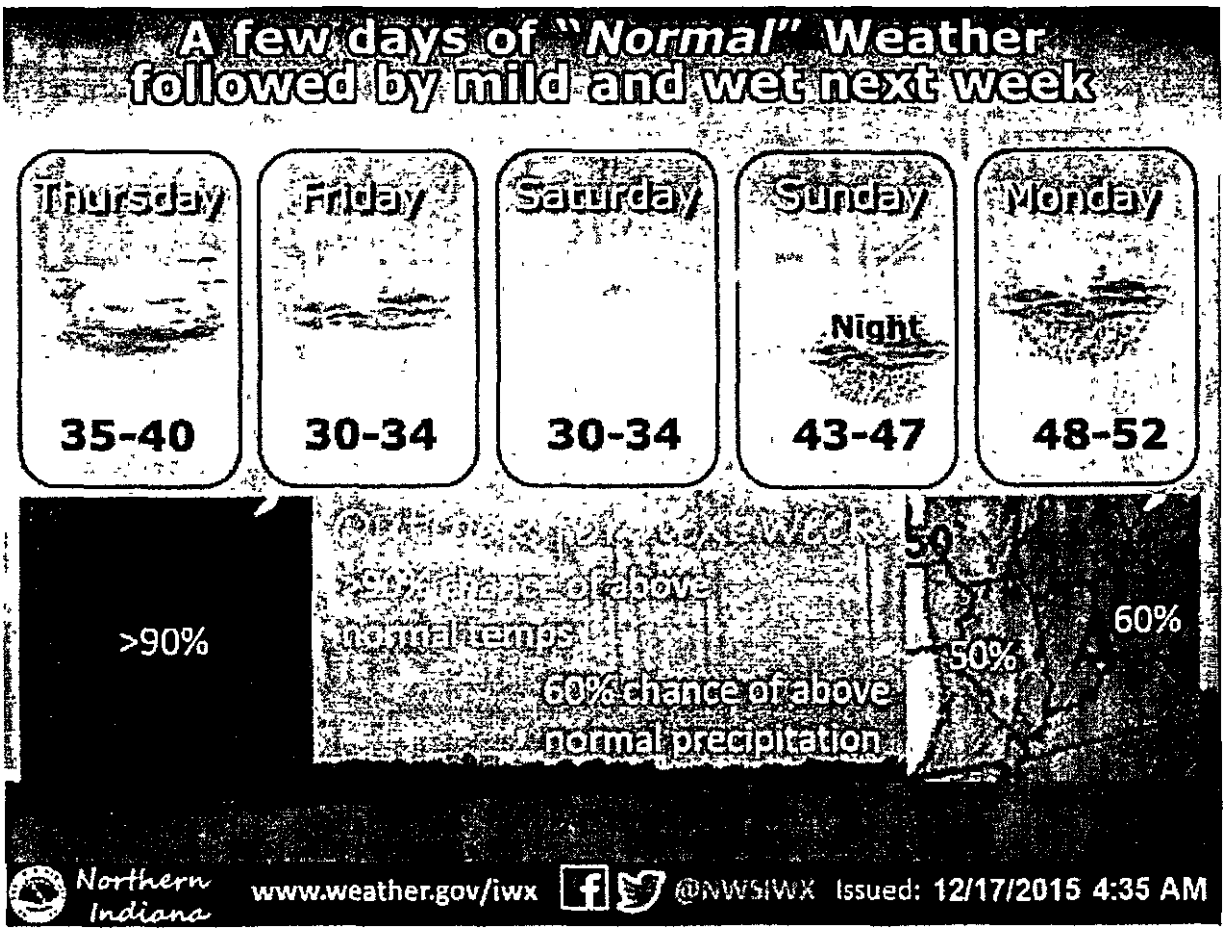
Grand Rapids



Published on: 12/17/2015 at 4:51AM

A few snow showers will be possible today, with no accumulation expected. Highs in the 30s.

Northern Indiana



Seasonably cool through Saturday with a chance for snow showers far north Friday. Warming trend commences Sunday with a good chance for rain late Sunday night through early Monday.

MEDIA MONITORING REPORT

12/16/2015

Issues:

- No issues to report.

Summary:

- NBC News reports now, after tests have shown elevated lead levels in the blood of some local children, the mayor of Flint has declared a state of emergency to pave the way for possible government disaster aid.
- Four percent of the City of Flint's children have elevated levels of lead in their bloodstream — double the share affected a few years ago, according to tests from Flint's Hurley Medical Center and confirmed by the state.
- A top state official is telling 6 News, the state will test every school in the state to make sure there is no lead in the water.
- A push to declare a state of emergency in Flint is running into some pushback.
- Genesee County board Chairman Jamie Curtis said today, Dec. 15, that there's no need for the state of emergency that Weaver proposed Monday, Dec. 14.
- Genesee County board Chairman Jamie Curtis said Tuesday, Dec. 15, that he will do what he can to support the request even though he hasn't been involved in planning discussions so far.
- Flint Mayor Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners Jan. 4.
- Flint Mayor Karen Weaver's push for a federal disaster declaration for the city got a national audience Tuesday, Dec. 16, during her appearance on MSNBC's Rachel Maddow show.
- Midland County officials have confirmed that Jenifier Boyer, Genesee County's former homeland security manager who filed a sex discrimination complain against Genesee County Sheriff Robert Pickell, has accepted a position as emergency manger starting Dec. 17.
- Officials closed all Los Angeles Unified School District campuses Tuesday morning after receiving a "credible threat" of violence involving backpacks and packages left at campuses.
- Kids large and small who get a drone underneath the Christmas tree will have to register the gift with the Federal Aviation Administration.
- On Monday, six republican members of Michigan's congressional delegation wrote President Barack Obama asking him to reconsider a decision made earlier this year to have law enforcement agencies return surplus military equipment out of concern it could undermine confidence in police.
- Earlier this evening Tuesday, the Greater Lansing Network Against War and Injustice, along with other local groups in mid-Michigan, took part in a peace vigil to show support of the idea.
- Mich. State Rep. Jason Sheppard wrote an opinion article in the Detroit News supporting Michigan Governor Rick Snyder and the other 29 U.S. governors who asked the federal government to pause the flow of Syrian refugees into their states.
- National Weather Service forecast updates.
- TV clips: Lead-poisoned children; Crisis call; Water problems hit emergency level in Flint, Mich.

Analysis:

- Media coverage is neutral and negative.
- Coverage continues in local and national media outlets on the City of Flint declaring a state of disaster.
- Michigan reporter Tim Skubick reports that the a top state official is telling that the state will test every school in the state to make sure there is no lead in the water.
- MLive reported that Genesee County board chairman Jamie Curtis said on Dec. 15 that there was no need for the state of emergency Flint Mayor Karen Weaver proposed. Later that day he reversed his statement and said that Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners Jan. 4.
- Will continue to monitor situation.

FLINT WATER

Flint, Michigan, declares state of emergency amid lead in drinking water scare

NBC News, December 15, 2015

In trying to solve one water crisis, the city of Flint, Michigan, has inadvertently created a newer, even bigger one — and it's coming at the cost of children's health.

Now, after tests have shown elevated lead levels in the blood of some local children, the mayor of Flint has declared a state of emergency to pave the way for possible government disaster aid.

Michigan mom feels "helpless" amid tainted water crisis

CBS News, December 16, 2015

Flint, Michigan, is in a state of emergency, now months after high levels of lead turned up in its tap water. This week, more than 7,000 gallons of bottled water from FEMA arrived in the city.

When officials tapped into the Flint River for the city's drinking water, the strong chemicals used to clean the water caused lead from the pipes to leak into the supply, reports CBS News correspondent Adriana Diaz. By the time Flint went back to its original water source, families said the damage was already done.

"When I hear my son get up at night and cry because his bones hurt and there's nothing I can give him, there's nothing I can do for him to take away his pain,I feel completely helpless," Melisa Mays said.

Flint's state of emergency is a sign that democracy is working there again

The Guardian, December 16, 2015

It might seem counterintuitive that Flint, Michigan's declaration that there are dangerously high levels of lead in the city's drinking water – and in the blood of the city's children – is a positive thing. The contamination of the city's drinking water is, after all, is a gut-wrenching tragedy.

But the declaration about the undrinkable water, made by newly elected mayor Karen Weaver on Monday, is positive in this regard: it is evidence that a semblance of democracy has returned to Flint.

Flint, Michigan, tried to save money on water. Now its children have lead *poisoning*

VOX, December 15, 2015

The water in Flint, Michigan, poisoned the town's children with lead for months. Now the mayor of Flint has declared a state of emergency, saying that the elevated lead levels will have long-lasting effects in its children.

Four percent of the town's children have elevated levels of lead in their bloodstream — double the share affected a few years ago, according to tests from Flint's Hurley Medical Center and confirmed by the state.

Skubick: state to test every school for lead in water

WLNS, December 16, 2015

LANSING, Mich (WLNS) – A top state official is telling 6 News, the state will test every school in the state to make sure there is no lead in the water.

This comes in the aftermath of lead contamination problems in Flint.

When your children go to school, are they drinking lead contaminated water?

The students in Flint and their parents were exposed and because of that the environmental quality director for the state wants to test all of the schools across the state.

Michigan: Flint appeals for help

New York Times, December 16, 2015

The mayor of Flint has declared a state of emergency because of problems with the city's water system caused by using water from the Flint River, saying the city needs more federal help. Mayor Karen Weaver, who announced the declaration Monday night, said the city would need to spend more on special education and mental health services because damage to children caused by lead exposure is irreversible.

Flint mayor asks county for support of emergency declaration

Michigan Radio, December 16, 2015

A push to declare a state of emergency in Flint is running into some pushback.

Mayor Karen Weaver called for the declaration this week. She says the city needs state and federal help to repair its problem-plagued water system.

Flint's water system is antiquated. In 2014, partly to save money, the city switched from Detroit water to the Flint River for its drinking water.

How people in Flint were stripped of a basic human need: safe drinking water

Michigan Radio, December 15, 2015

The tap water in Lee Ann Walters' home in Flint was causing her family's health problems. Tests show her water had extremely high lead levels. Her son Gavin was diagnosed with lead poisoning.

"How does this happen in the United States?" she asks. "I mean, you hear about it in third world countries, but how does this happen, specifically in a state that is surrounded by the Great Lakes?"

It's a good question. How did this happen?

Genesee County board chair says no need to declare disaster in Flint

MLive, December 15, 2015

GENESEE COUNTY, MI -- Flint Mayor Karen Weaver's request for federal disaster aidmight not make it past the Genesee County line.

County board Chairman Jamie Curtis said today, Dec. 15, that there's no need for the state of emergency that Weaver proposed Monday, Dec. 14.

"It's not going to change anything ...Nothing more can be done," said Curtis, who said he has no plan to call a special meeting to consider a vote of support for the declaration.

Genesee County commissioners will consider Flint disaster-area request

MLive, December 15, 2015

FLINT, MI -- Mayor Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners Jan. 4.

County board Chairman Jamie Curtis said Tuesday, Dec. 15, that he will do what he can to support the request even though he hasn't been involved in planning discussions so far.

State of emergency declaration will get hearing by county

WNEM, December 15, 2015

GENESEE COUNTY, MI (WNEM) - Flint's emergency disaster declaration will get a hearing from the Genesee County Board of Commissioners.

Chairman Jamie Curtis confirmed it on Tuesday evening.

Mayor Karen Weaver issued the declaration to try to get more money to fix the city's ongoing water problems.

It needs county approval for it to advance to the state and federal levels.

Flint mayor talks water emergency with Rachel Maddow on MSNBC appearance

MLive, December 16, 2015

FLINT, MI -- Mayor Karen Weaver's push for a federal disaster declaration for the city got a national audience Tuesday, Dec. 16, during her appearance on MSNBC's Rachel Maddow show.

Weaver declared a state of emergency because of Flint's water crisis Monday, Dec. 14, starting a process aimed at having the city declared a disaster area to qualify for state and federal funds.

"We felt it was the only step we could take," Weaver said in a live interview on the cable news network. "We need state and federal funds to help us fix this.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Midland County confirms hiring of ex-Genesee homeland security chief

MLive, December 15, 2015

GENESEE COUNTY, MI – Midland County officials have confirmed that Jenifier Boyer, Genesee County's former homeland security manager who filed a sex discrimination complain against Genesee County Sheriff Robert Pickell, has accepted a position as emergency manger starting Dec. 17.

Roger Garner, Midland County emergency manager, said the job was posted in September months after he announced that he would be leaving at the end of the year.

All Los Angeles schools closed by 'credible threat' of violence

Emergency Management, December 15, 2015

(TNS) - Officials closed all Los Angeles Unified School District campuses Tuesday morning after receiving a "credible threat" of violence involving backpacks and packages left at campuses.

Authorities said they planned a search operation of all of the LAUSD's more than 900 schools. The nation's second-largest school district has more than 700,000 students.

"I think it's important to take this precaution based on what has happened recently and what has happened in the past," LAUSD Superintendent Ramon Cortines said.

FAA drone registration program takes flight on Dec. 21

Emergency Management, December 15, 2015

(TNS) - Kids large and small who get a drone underneath the Christmas tree will have to register the gift with the Federal Aviation Administration.

The FAA unveiled its much-anticipated drone registration program Monday — just in time for the holiday rush — saying that anyone who buys an unmanned aerial vehicle will be required to register them starting Dec. 21. The registration will come with a $5 fee, however the agency is waiving it during the first 30 days to encourage compliance.

The registration requirement will cover everything but the smallest aircraft. Anything weighing more than half a pound, but under 55 pounds, must be registered and identified so the agency can track down a pilot who does something wrong — like flying it in restricted airspace or crashing it.

MICHIGAN POLITICS

Members of congress want police to keep military surplus

Lansing State Journal, December 15, 2015

WASHINGTON – Fewer officers would have been exposed to potential gunfire in a manhunt last month near Cavanaugh School by using a tracked armored vehicle given to Lansing police in 2005 by the federal government, Lansing police Chief Mike Yankowski said.

But the armed vehicle was decommissioned under a federal requirement a month before the Nov. 5 search, which followed a break-in and shootout between a resident of a home in the neighborhood and a group of teens.

SYRIAN REFUGEES

Groups show support for immigrants and refugees at peace vigil

WLNS, December 15, 2015

UPDATE (11:46 p.m.) – One of the biggest topics of tonight's debates is what should be done about allowing refugees into the United States.

Earlier this evening, the Greater Lansing Network Against War and Injustice, along with other local groups in mid-Michigan, took part in a peace vigil to show support of the idea.

Both East Lansing and Lansing have declared themselves welcoming cities for refugees.

Sheppard: Governors wise to pause refugees' entry

The Detroit News, December 15, 2015

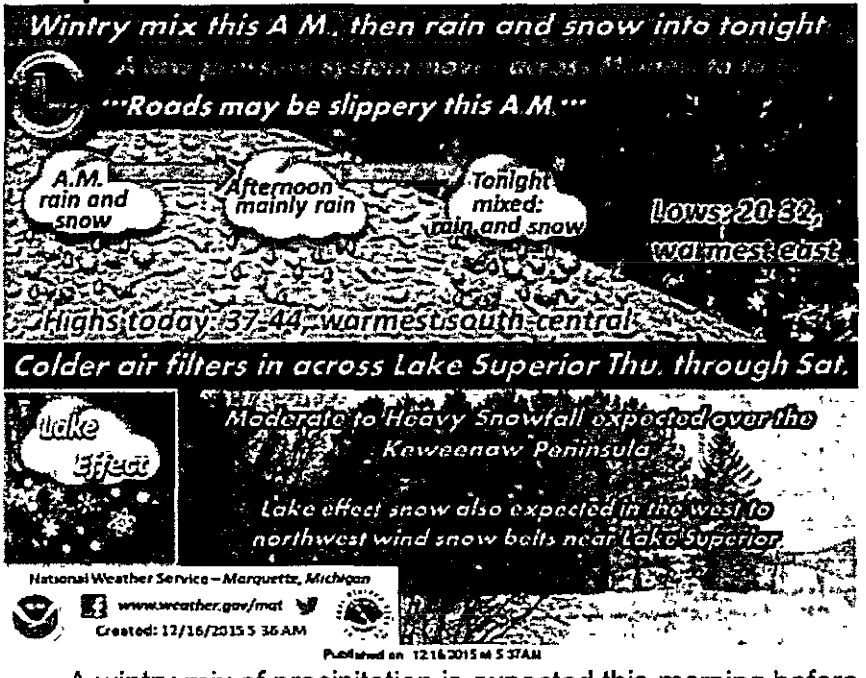
Last month, the world watched horror unfold on the streets of Paris and learned what can happen when terrorists are able to plan and act for months without detection. In fact, since then we have learned that the attack's mastermind was able to repeatedly move across Europe and back and forth from the Middle East, slipping though security systems despite being listed as a known threat.

The lesson is simple — even the most sophisticated systems can fail to detect people bent on destruction, so we must also work hard to prevent problems to begin with.

As part of that prevention effort, 30 U.S. governors, including Michigan Gov. Rick Snyder and Ohio Gov. John Kasich, asked the federal government to pause the flow of Syrian refugees into their states. This was the right call.

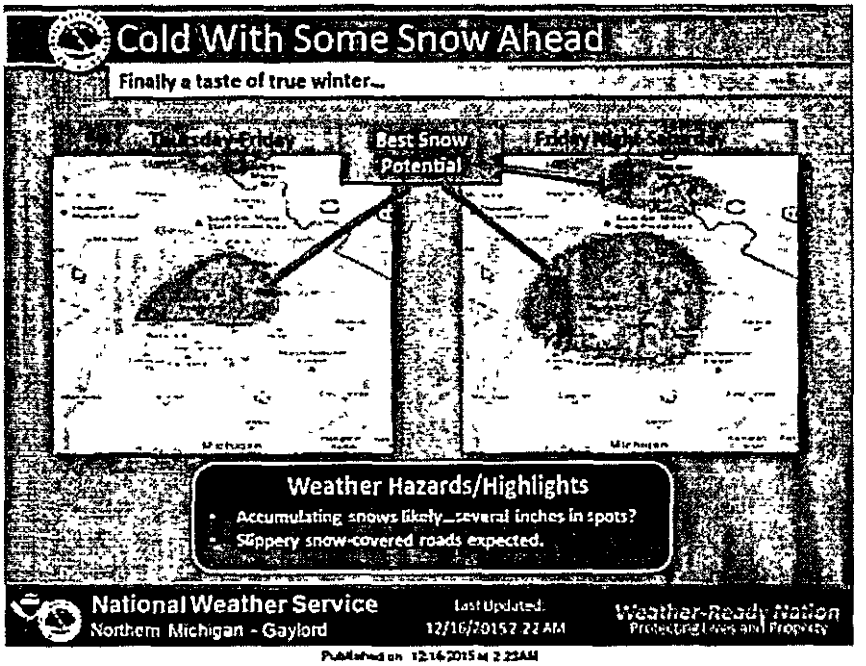
NATIONAL WEATHER SERVICE FORECASTS

Marquette



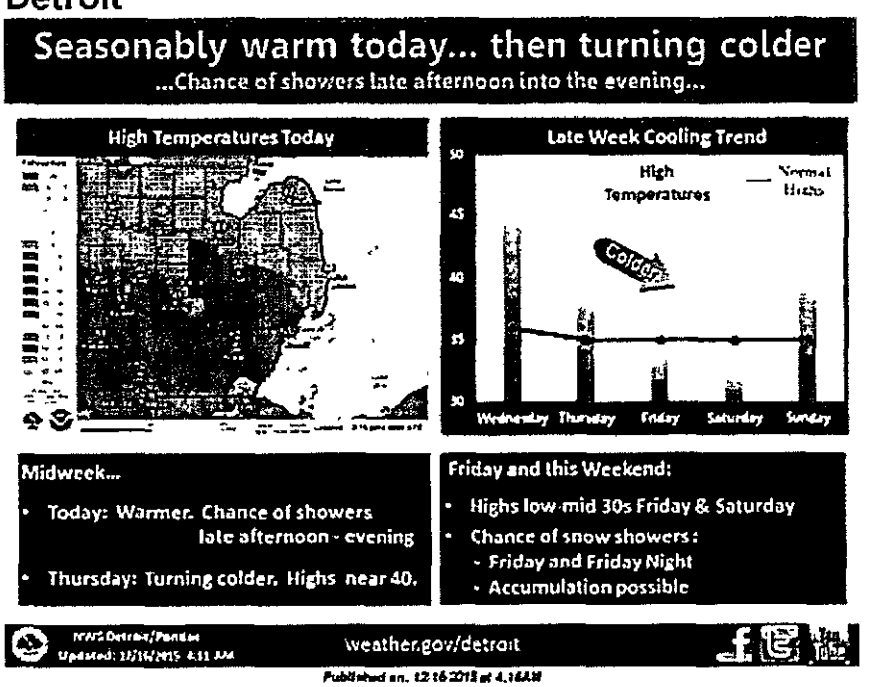
A wintry mix of precipitation is expected this morning before transitioning to rain this afternoon. Then, as colder air moves into the area tonight and Thursday, lake effect snow will develop in the westerly wind snow belts near Lake Superior. The heaviest snow is expected to fall over the Keweenaw Peninsula Thursday night into Friday evening.

Gaylord



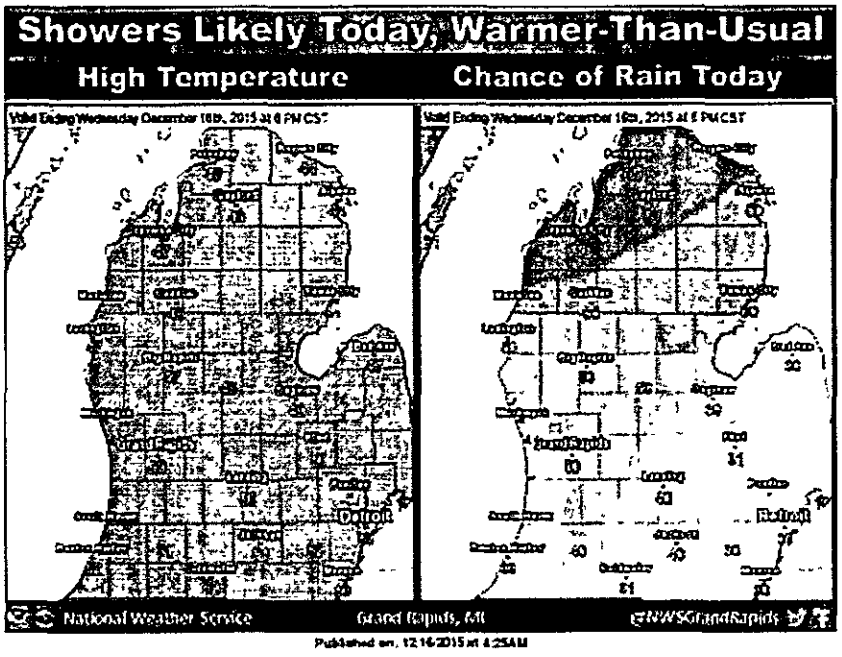
Accumulating lake effect snow Thursday night through Saturday. Best snows expected Friday through Friday night and in far northwest and far northern lower Michigan and Chippewa county of eastern upper.

Detroit



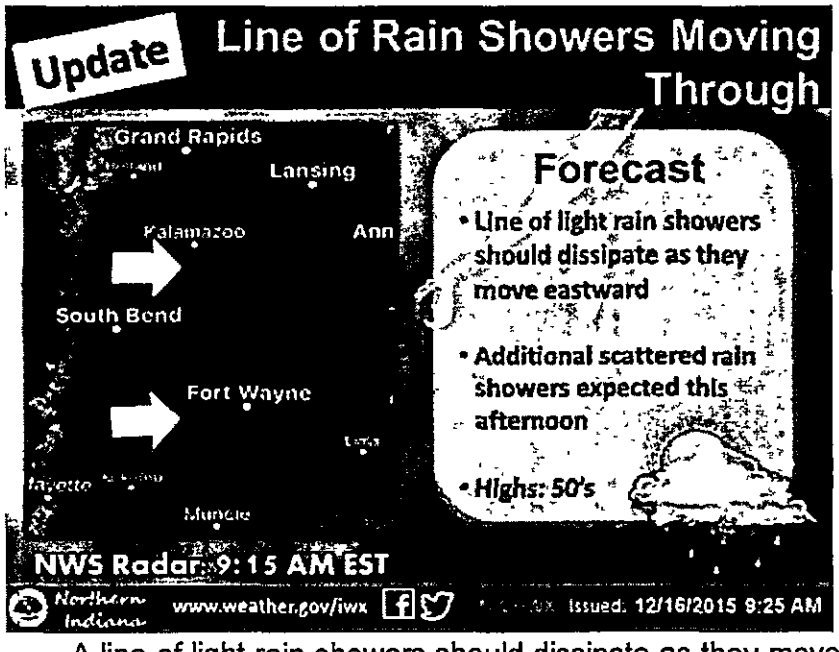
Another day of above normal temperatures, although again under an overcast sky. Highs today around 50 degrees. A cold front will bring the chance for a few showers from late afternoon into the evening period. This will begin a several day cooling trend, with temperatures Friday and Saturday near freezing. Chance of snow showers Friday and Friday, some minor accumulation possible.

Grand Rapids



Expect showers today, mostly this afternoon. It will be breezy and mild with highs from the mid 40s to near 50.

Northern Indiana



A line of light rain showers should dissipate as they move eastward this morning. Otherwise, expect increasing clouds. Scattered rain showers are also possible this afternoon. Highs will be in the 50s.

GOVERNOR'S ACTIVITIES

Interviews

A Refreshing Approach to Politics in Michigan (National Journal)
If Rick Snyder is a faux reformer, he disguises it well behind gobs of data and the passion of an evangelist.

Bill signing

Governor Snyder Repeals Old Crimes (AP)
Outdated crimes such as cursing in front of women or children and trampling blackberry bushes are no longer be on Michigan's books under legislation signed by Gov. Rick Snyder.
Snyder said in a statement Tuesday that the criminal laws "no longer make sense in the 21st century."

Michigan eliminating outdated laws (ABC 57)
In an effort to get with the times and modernize Michigan's government, Governor Rick Snyder signed several bills on Tuesday, eliminating outdated laws. On Tuesday, Governor Rick Snyder signed multiple bills eliminating those types of outdated laws.

Michigan scraps old laws banning cursing in front of women, trash talking during duels (Mlive)
Michigan Gov. Rick Snyder on Tuesday signed a package of bills to repeal a series of outdated and unenforceable laws, including a prohibition against cursing in front of women or kids. Gone from the books are criminal statutes that had banned people from embellishing the national anthem, hosting walkathons or talking trash during a duel.

Gov. Snyder analyzes old laws that don't apply to the 21st Century (WLNS)
Go ahead and trample a blackberry bush or accept a challenge to a duel. Believe it or not, those laws were still on the books 24 hours ago but not anymore.

Gov. Snyder signs bills eliminating laws on dueling, cursing and trampling blackberry bushes (UP Matters/TV 3)
Cursing in front of women or children or playing the national anthem out of tune will no longer be criminal acts punishable by jail time in Michigan, under legislation signed today by Gov. Rick Snyder.

Cursing in front of women is no longer illegal in Michigan (Arab American News)
Gov. Snyder signed a legislation Tuesday repealing several outdated laws. Cursing in front of women or children or playing the national anthem out of tune will no longer be criminal acts punishable by jail time in Michigan. "Modernizing state government is an ongoing effort," Snyder said. "I appreciate the work of the legislature in analyzing the criminal code and eliminating statutes that no longer make sense in the 21st century."

Gov. Rick Snyder signs bills repealing outdated laws (Holland Sentinel)
Gov. Rick Snyder recently signed several house bills that will repeal several outdated criminals laws. Acts such as cursing in front of women and children or playing the national anthem out of tune, among others, will no longer be punishable by jail time.

Cursing in front of women? Trampling blackberry bushes? Michigan Gov. gets rid of archaic laws (Fox 28)
If you have a bad habit of cursing in front of women or children you might be in luck. Although not an acceptable social norm, at the very least where children are concerned, at least your potty mouth won't land you in a Michigan jail. Governor Rick Snyder signed legislation Tuesday eliminating some of the more "quaint" laws still on the books that were criminal acts punishable by jail time, such as playing the national anthem out of tune (all aspiring high school marching band members, take note).

Governor Snyder Repeals Strange and Outdated Michigan Laws (9&10 News)
Weird and outdated laws are now officially off the books in Michigan. Governor Snyder signed legislation Tuesday that ends laws he says make no sense in the 21st century. The repealed laws include bans on advertisements about STDs, dueling, and embellishing the national anthem.

Governor Rick Snyder strikes strange and outdated laws from Michigan books (Boyne Gazette)
Cursing in front of women or children or playing the national anthem out of tune will no longer be criminal acts punishable by jail time in Michigan, under legislation signed today by Gov. Rick Snyder.

Any tax reform for data businesses by the Legislature needs to be rooted in fairness for the Michigan companies that already employ hundreds of Michigan workers.

LEGISLATIVE

Michigan medical marijuana dispensary bills not dead, but not going anywhere in 2015 (MLive)
An evolving proposal to allow regulated medical marijuana dispensaries and related businesses is unlikely to move this year in the Michigan Senate despite an ongoing push from supporters.

Bipartisan leaders head to the Capitol to advocate marijuana regulation (WLNS)
A bipartisan coalition of leaders from the public and private sector will meet at the Capitol Building Tuesday to encourage action by the Michigan Senate on medical marijuana regulations.

Legislation to fix Detroit schools stalled until 2016 (Detroit Free Press)
A desire by Gov. Rick Snyder and the city of Detroit to quickly fix the monumental financial problems facing the Detroit Public Schools continues to run into the political reality of what a difficult task that will be in the halls of the state Capitol.

Data Centers Get Tax Breaks After All-Nighter From Michigan Lawmakers (WEMU)
The legislation flew through the state House and Senate during a late-night session on Tuesday. The goal is to lure a massive data farm to the Grand Rapids area. "This opportunity is huge for the state of Michigan," said state Sen. Dave Hildenbrand (R-Lowell).

Legislature backs tax breaks for $5B data center (The Detroit News)
The Legislature worked late Tuesday to approve sales and use tax exemptions that supporters say are designed to attract a $5-billion data server center to Grand Rapids and make Michigan a bigger player in a new technology industry.

Planned Parenthood contract approved over objections (Detroit Free Press)
Despite strong opposition push back from a group of 29 Republican members of the House of Representatives, the state Administrative Board approved a $1.2-million addition to a federal contract with Planned Parenthood of Mid and South Michigan to provide health services for women.

Michigan House, Senate vote for tax breaks to land Switch data center (Mlive)
Tax break bills that should help West Michigan land a $5 billion data center development project are headed to the desk of Gov. Rick Snyder. The state House broke a stalemate late Tuesday, modifying and approving bills to exempt data centers from sales and use taxes through 2035 if the industry meets collective job creation goals. The Senate signed off on the changes at roughly 11:30 p.m.

Legislation to fix Detroit schools stalled until 2016 (Freep)
A desire by Gov. Rick Snyder and the city of Detroit to quickly fix the monumental financial problems facing the Detroit Public Schools continues to run into the political reality of what a difficult task that will be in the halls of the state Capitol.

DETROIT

Detroit: We won't move forward unless we learn to listen (WDET)
One year after bankruptcy, Detroit is at another crossroads. The city's finances look better (for now), but as the tensions that surfaced on Wednesday reveal, there isn't consensus on whether we are truly better off as a community.

Leaders say EAA will persevere despite uncertainty (The Detroit News)
The Education Achievement Authority will continue its work in spite of the possibility that the turnaround school district could be disbanded as part of efforts to overhaul education in Detroit, officials said Tuesday during a board of directors meeting.

Detroit unlikely to forgive water debts of poor (The Detroit News)
An emerging plan to address massive water shut-offs in Detroit likely will stress conservation, convenience and some form of assistance — but not debt forgiveness. A so-called blue ribbon committee studying water affordability in Detroit met for the final time Tuesday before finalizing a report due in January to the City Council.

Shina brothers to unveil $6.2 million expansion, rebranding of Detroit markets (Crain's Detroit Business)
Banner Super Store will unveil its $6.2 million expansion project and rebrand as Imperial Fresh Market during a grand reopening Wednesday morning. The 14424 Schaefer Highway location in northwest Detroit location is the first of four stores in Detroit owned by the five Shina brothers: Basim, Mazim, Maher, Mike and Sam.

OPINION

Editorial: Largest solar array in Mich. (LSJ)

Tuesday reader's view: A power play (Midland Daily News)
A disgrace. Among the many attempts to limit government to the "correct" people, Sen. Jim Stamas and Rep. Gary Glenn have led us to new depths. The bill removing "straight-ticket" voting is falsely portrayed as encouraging voters to learn about candidates, to have more credible representation.

No-reason absentee voting bill is simple, secure and right on time (MLive)
Hardworking Michigan families' busy lives shouldn't prevent them from voting. That's why I support a proposal that would allow them to cast a secure absentee ballot.

Retiring Straits pipeline is not enough (The Times Herald)
An environmental activist group has found the obvious answer to Enbridge's aging and controversial Line 5 carrying crude oil beneath the Straits of Mackinac. The risk it poses to the Great Lakes is unnecessary, the group For Love of Water suggests, because the pipeline itself is not necessary. The group says that other Enbridge pipelines could carry the oil that flows through Line 5 without passing old pipes or risky waterways because they all end in the same place: Crossing the St. Clair River at Marysville.

Bieber: Lawmakers should make voting easier, not harder (Detroit News)
The 2016 election may seem like a long way off, but Republicans in Lansing are already making it harder to vote, so they can tip the scales in their favor next November.

#####

MEDIA MONITORING REPORT

12/16/2015

Issues:

- No issues to report.

Summary:

- NBC News reports now, after tests have shown elevated lead levels in the blood of some local children, the mayor of Flint has declared a state of emergency to pave the way for possible government disaster aid.
- Four percent of the City of Flint's children have elevated levels of lead in their bloodstream — double the share affected a few years ago, according to tests from Flint's Hurley Medical Center and confirmed by the state.
- A top state official is telling 6 News, the state will test every school in the state to make sure there is no lead in the water.
- A push to declare a state of emergency in Flint is running into some pushback.
- Genesee County board Chairman Jamie Curtis said today, Dec. 15, that there's no need for the state of emergency that Weaver proposed Monday, Dec. 14.
- Genesee County board Chairman Jamie Curtis said Tuesday, Dec. 15, that he will do what he can to support the request even though he hasn't been involved in planning discussions so far.
- Flint Mayor Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners Jan. 4.
- Flint Mayor Karen Weaver's push for a federal disaster declaration for the city got a national audience Tuesday, Dec. 16, during her appearance on MSNBC's Rachel Maddow show.
- Midland County officials have confirmed that Jenifier Boyer, Genesee County's former emergency manager who filed a sex discrimination complaint against Genesee County Sheriff Robert Pickell, has accepted a position as emergency manger starting Dec. 17
- Officials closed all Los Angeles Unified School District campuses Tuesday morning after receiving a "credible threat" of violence involving backpacks and packages left at campuses.
- Kids large and small who get a drone underneath the Christmas tree will have to register the gift with the Federal Aviation Administration.
- On Monday, six republican members of Michigan's congressional delegation wrote President Barack Obama asking him to reconsider a decision made earlier this year to have law enforcement agencies return surplus military equipment out of concern it could undermine confidence in police.
- Earlier this evening Tuesday, the Greater Lansing Network Against War and Injustice, along with other local groups in mid-Michigan, took part in a peace vigil to show support of the idea.
- Mich. State Rep. Jason Sheppard wrote an opinion article in the Detroit News supporting Michigan Governor Rick Snyder and the other 29 U.S. governors who asked the federal government to pause the flow of Syrian refugees into their states.
- National Weather Service forecast updates.
- TV clips: Lead-poisoned children; Crisis call; Water problems hit emergency level in Flint, Mich.

Analysis:

- Media coverage is neutral and negative.
- Coverage continues in local and national media outlets on the Flint Mayor Karen Weaver declaring a local state of emergency.
- Michigan capitol correspondent Tim Skubick reports that a top state official is saying every school in the state will be tested to ensure there is no lead in the water.
- MLive reported that Genesee County board chairman Jamie Curtis said on Dec. 15 that there was no need for the state of emergency Flint Mayor Karen Weaver proposed. Later that day, he reversed his statement and said that Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners on Jan. 4.
- A Washington Post story published yesterday about the Flint Mayor's emergency declaration has gone viral, trending on Twitter, Facebook and Reddit. At one point, it was one of the top five articles viewed on the news outlet's website.
- Will continue to monitor situation.

FLINT WATER

Flint, Michigan, declares state of emergency amid lead in drinking water scare

NBC News, December 15, 2015

In trying to solve one water crisis, the city of Flint, Michigan, has inadvertently created a newer, even bigger one — and it's coming at the cost of children's health.

Now, after tests have shown elevated lead levels in the blood of some local children, the mayor of Flint has declared a state of emergency to pave the way for possible government disaster aid.

Michigan mom feels "helpless" amid tainted water crisis

CBS News, December 16, 2015

Flint, Michigan, is in a state of emergency, now months after high levels of lead turned up in its tap water. This week, more than 7,000 gallons of bottled water from FEMA arrived in the city.

When officials tapped into the Flint River for the city's drinking water, the strong chemicals used to clean the water caused lead from the pipes to leak into the supply, reports CBS News correspondent Adriana Diaz. By the time Flint went back to its original water source, families said the damage was already done.

"When I hear my son get up at night and cry because his bones hurt and there's nothing I can give him, there's nothing I can do for him to take away his pain,I feel completely helpless," Melisa Mays said.

Flint's state of emergency is a sign that democracy is working there again

The Guardian, December 16, 2015

It might seem counterintuitive that Flint, Michigan's declaration that there are dangerously high levels of lead in the city's drinking water – and in the blood of the city's children – is a positive thing. The contamination of the city's drinking water is, after all, is a gut-wrenching tragedy.

But the declaration about the undrinkable water, made by newly elected mayor Karen Weaver on Monday, is positive in this regard: it is evidence that a semblance of democracy has returned to Flint.

Flint, Michigan, tried to save money on water. Now its children have lead poisoning

VOX, December 15, 2015

The water in Flint, Michigan, poisoned the town's children with lead for months. Now the mayor of Flint has declared a state of emergency, saying that the elevated lead levels will have long-lasting effects in its children.

Four percent of the town's children have elevated levels of lead in their bloodstream — double the share affected a few years ago, according to tests from Flint's Hurley Medical Center and confirmed by the state.

Skubick: state to test every school for lead in water

WLNS, December 16, 2015

LANSING, Mich (WLNS) – A top state official is telling 6 News, the state will test every school in the state to make sure there is no lead in the water.

This comes in the aftermath of lead contamination problems in Flint.

When your children go to school, are they drinking lead contaminated water?

The students in Flint and their parents were exposed and because of that the environmental quality director for the state wants to test all of the schools across the state.

Michigan: Flint appeals for help

New York Times, December 16, 2015

The mayor of Flint has declared a state of emergency because of problems with the city's water system caused by using water from the Flint River, saying the city needs more federal help. Mayor Karen Weaver, who announced the declaration Monday night, said the city would need to spend more on

special education and mental health services because damage to children caused by lead exposure is irreversible.

Flint mayor asks county for support of emergency declaration

Michigan Radio, December 16, 2015

A push to declare a state of emergency in Flint is running into some pushback.

Mayor Karen Weaver called for the declaration this week. She says the city needs state and federal help to repair its problem-plagued water system.

Flint's water system is antiquated. In 2014, partly to save money, the city switched from Detroit water to the Flint River for its drinking water.

How people in Flint were stripped of a basic human need: safe drinking water

Michigan Radio, December 15, 2015

The tap water in Lee Ann Walters' home in Flint was causing her family's health problems. Tests show her water had extremely high lead levels. Her son Gavin was diagnosed with lead poisoning.

"How does this happen in the United States?" she asks. "I mean, you hear about it in third world countries, but how does this happen, specifically in a state that is surrounded by the Great Lakes?"

It's a good question. How did this happen?

Genesee County board chair says no need to declare disaster in Flint

MLive, December 15, 2015

GENESEE COUNTY, MI -- Flint Mayor Karen Weaver's request for federal disaster aidmight not make it past the Genesee County line.

County board Chairman Jamie Curtis said today, Dec. 15, that there's no need for the state of emergency that Weaver proposed Monday, Dec. 14

"It's not going to change anything ...Nothing more can be done," said Curtis, who said he has no plan to call a special meeting to consider a vote of support for the declaration.

Genesee County commissioners will consider Flint disaster-area request

MLive, December 15, 2015

FLINT, MI -- Mayor Karen Weaver's request for a federal disaster designation will get a full hearing before the Genesee County Board of Commissioners Jan. 4.

County board Chairman Jamie Curtis said Tuesday, Dec. 15, that he will do what he can to support the request even though he hasn't been involved in planning discussions so far.

State of emergency declaration will get hearing by county

WNEM, December 15, 2015

GENESEE COUNTY, MI (WNEM) - Flint's emergency disaster declaration will get a hearing from the Genesee County Board of Commissioners.

Chairman Jamie Curtis confirmed it on Tuesday evening.

Mayor Karen Weaver issued the declaration to try to get more money to fix the city's ongoing water problems.

It needs county approval for it to advance to the state and federal levels.

Flint mayor talks water emergency with Rachel Maddow on MSNBC appearance

MLive, December 16, 2015

FLINT, MI -- Mayor Karen Weaver's push for a federal disaster declaration for the city got a national audience Tuesday, Dec. 16, during her appearance on MSNBC's Rachel Maddow show.

Weaver declared a state of emergency because of Flint's water crisis Monday, Dec. 14, starting a process aimed at having the city declared a disaster area to qualify for state and federal funds.

"We felt it was the only step we could take," Weaver said in a live interview on the cable news network. "We need state and federal funds to help us fix this.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Midland County confirms hiring of ex-Genesee homeland security chief

MLive, December 15, 2015

GENESEE COUNTY, MI – Midland County officials have confirmed that Jenifier Boyer, Genesee County's former homeland security manager who filed a sex discrimination complain against Genesee County Sheriff Robert Pickell, has accepted a position as emergency manger starting Dec. 17.

Roger Garner, Midland County emergency manager, said the job was posted in September months after he announced that he would be leaving at the end of the year.

All Los Angeles schools closed by 'credible threat' of violence

Emergency Management, December 15, 2015

(TNS) - Officials closed all Los Angeles Unified School District campuses Tuesday morning after receiving a "credible threat" of violence involving backpacks and packages left at campuses.

Authorities said they planned a search operation of all of the LAUSD's more than 900 schools. The nation's second-largest school district has more than 700,000 students

"I think it's important to take this precaution based on what has happened recently and what has happened in the past," LAUSD Superintendent Ramon Cortines said.

FAA drone registration program takes flight on Dec. 21

Emergency Management, December 15, 2015

(TNS) - Kids large and small who get a drone underneath the Christmas tree will have to register the gift with the Federal Aviation Administration.

The FAA unveiled its much-anticipated drone registration program Monday — just in time for the holiday rush — saying that anyone who buys an unmanned aerial vehicle will be required to register them starting Dec. 21. The registration will come with a $5 fee, however the agency is waiving it during the first 30 days to encourage compliance.

The registration requirement will cover everything but the smallest aircraft. Anything weighing more than half a pound, but under 55 pounds, must be registered and identified so the agency can track down a pilot who does something wrong — like flying it in restricted airspace or crashing it.

MICHIGAN POLITICS

Members of congress want police to keep military surplus

Lansing State Journal, December 15, 2015

WASHINGTON – Fewer officers would have been exposed to potential gunfire in a manhunt last month near Cavanaugh School by using a tracked armored vehicle given to Lansing police in 2005 by the federal government, Lansing police Chief Mike Yankowski said.

But the armed vehicle was decommissioned under a federal requirement a month before the Nov. 5 search, which followed a break-in and shootout between a resident of a home in the neighborhood and a group of teens.

SYRIAN REFUGEES

Groups show support for immigrants and refugees at peace vigil

WLNS, December 15, 2015

UPDATE (11:46 p.m.) – One of the biggest topics of tonight's debates is what should be done about allowing refugees into the United States.

Earlier this evening, the Greater Lansing Network Against War and Injustice, along with other local groups in mid-Michigan, took part in a peace vigil to show support of the idea.

Both East Lansing and Lansing have declared themselves welcoming cities for refugees.

Sheppard: Governors wise to pause refugees' entry

The Detroit News, December 15, 2015

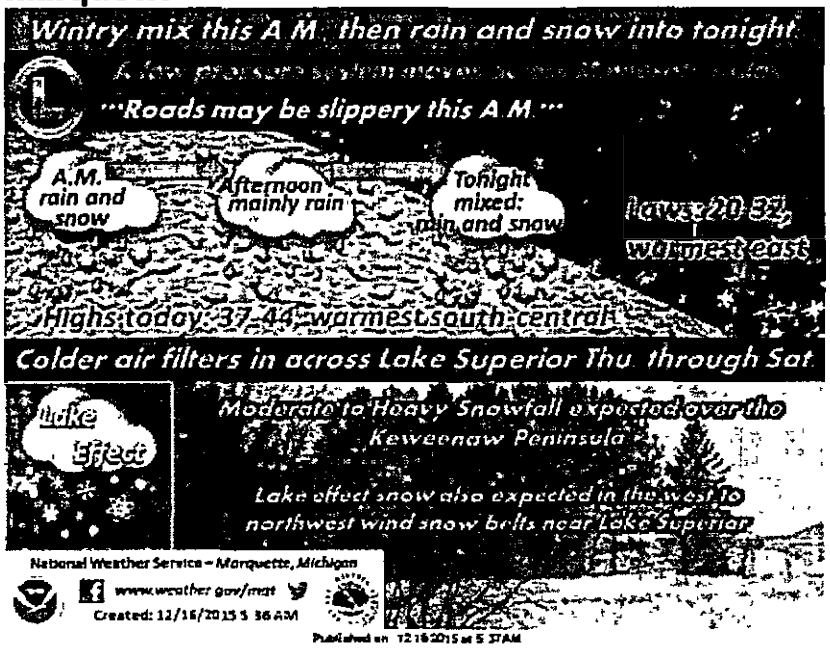
Last month, the world watched horror unfold on the streets of Paris and learned what can happen when terrorists are able to plan and act for months without detection. In fact, since then we have learned that the attack's mastermind was able to repeatedly move across Europe and back and forth from the Middle East, slipping though security systems despite being listed as a known threat.

The lesson is simple — even the most sophisticated systems can fail to detect people bent on destruction, so we must also work hard to prevent problems to begin with.

As part of that prevention effort, 30 U S. governors, including Michigan Gov. Rick Snyder and Ohio Gov. John Kasich, asked the federal government to pause the flow of Synan refugees into their states. This was the right call.

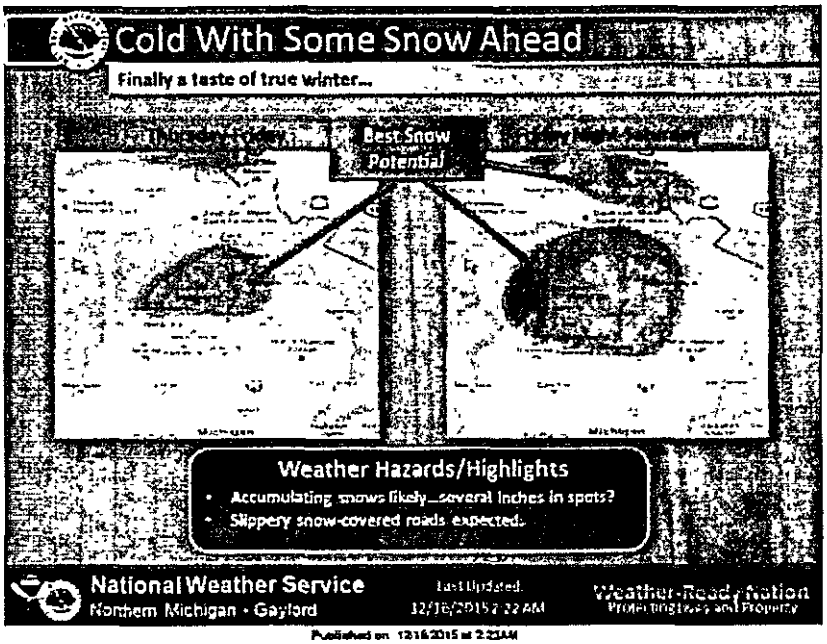
NATIONAL WEATHER SERVICE FORECASTS

Marquette



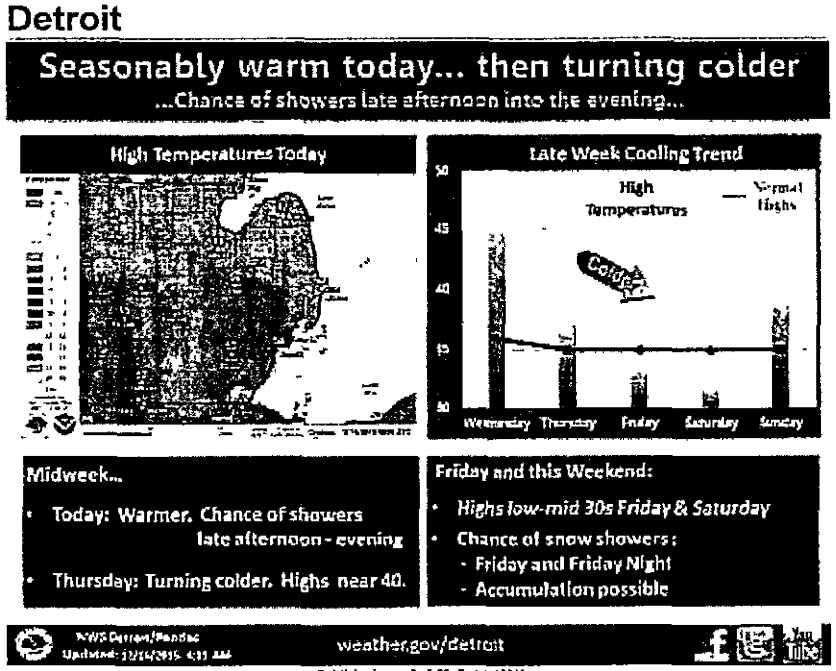
A wintry mix of precipitation is expected this morning before transitioning to rain this afternoon. Then, as colder air moves into the area tonight and Thursday, lake effect snow will develop in the westerly wind snow belts near Lake Superior. The heaviest snow is expected to fall over the Keweenaw Peninsula Thursday night into Friday evening.

Gaylord



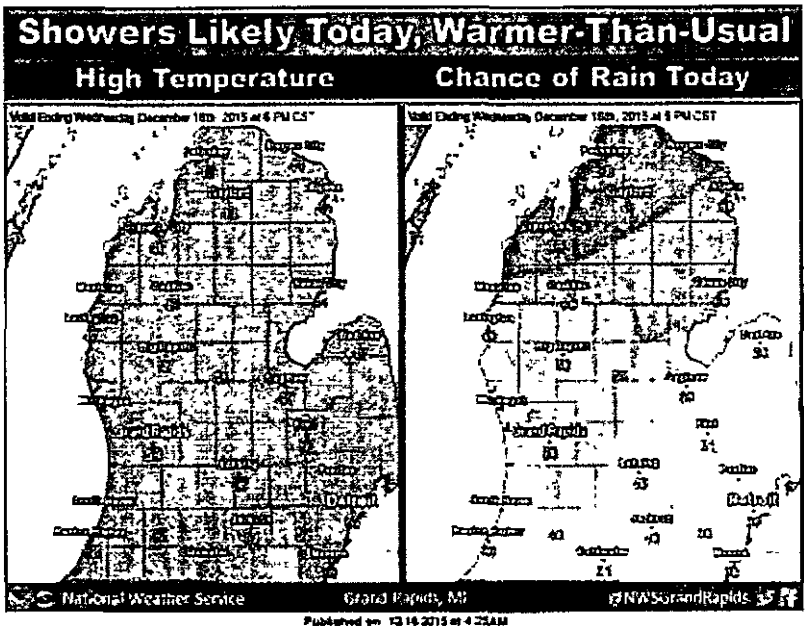
Accumulating lake effect snow Thursday night through Saturday. Best snows expected Friday through Friday night and in far northwest and far northern lower Michigan and Chippewa county of eastern upper.

Detroit



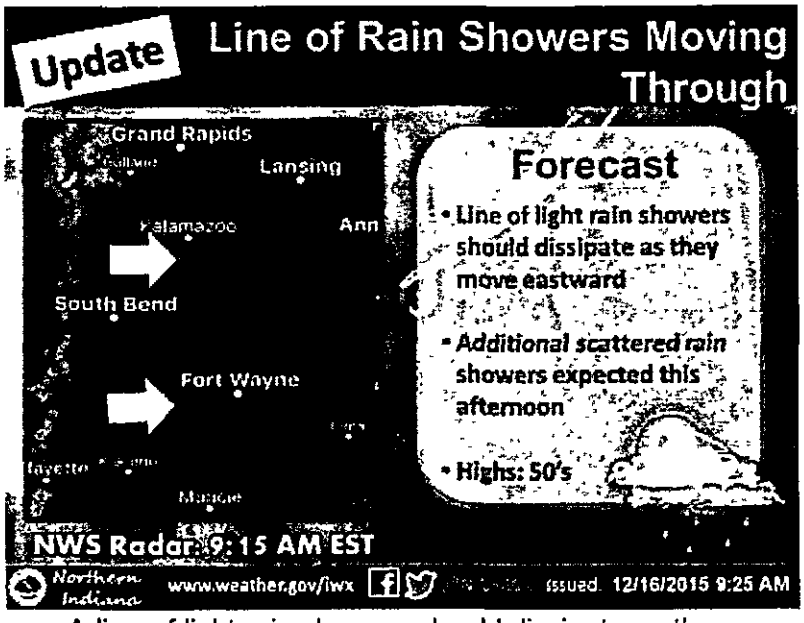
Another day of above normal temperatures, although again under an overcast sky. Highs today around 50 degrees. A cold front will bring the chance for a few showers from late afternoon into the evening period. This will begin a several day cooling trend, with temperatures Friday and Saturday near freezing. Chance of snow showers Friday and Friday, some minor accumulation possible.

Grand Rapids



Expect showers today, mostly this afternoon. It will be breezy and mild with highs from the mid 40s to near 50.

Northern Indiana



A line of light rain showers should dissipate as they move eastward this morning. Otherwise, expect increasing clouds. Scattered rain showers are also possible this afternoon. Highs will be in the 50s.

FLINT WATER

Mayor Karen Weaver declares water crisis state of emergency in Flint

MLive, December 14, 2015

FLINT, MI -- Mayor Karen Weaver has declared a state of emergency in Flint, saying the city needs federal help to deal with its lead in water crisis.

"I am requesting that all things be done necessary to address this state of emergency declaration, effective immediately," Weaver told the City Council today, Dec. 14.

In Flint, Mich., there's so much lead in children's blood that a state of emergency is declared

Washington Post, December 15, 2015

For months, worried parents in Flint, Mich., arrived at their pediatricians' offices in droves. Holding a toddler by the hand or an infant in their arms, they all have the same question: Are their children being poisoned?

To find out, all it takes is a prick of the finger, a small letting of blood. If tests come back positive, the potentially severe consequences are far more difficult to discern.

That's how lead works. It leaves its mark quietly, with a virtually invisible trail. But years later, when a child shows signs of a learning disability or behavioral issues, lead's prior presence in the bloodstream suddenly becomes inescapable.

FEMA sends 28,000 liters of bottled water to Flint, Mich.

TIME, December 14, 2015

FEMA has dispatched 28,000 liters of bottled water to Flint, Mich., where residents have been struggling with a lead-contaminated water supply for months.

FEMA maintains stockpiles of commodities that would be needed in the event of disaster, and distributes them to non-profits as they near their expiration date. On Tuesday, the agency sent two trucks' worth of bottled water to the Food Bank of Eastern Michigan, which covered the shipping costs and will distribute the water to other food pantries, soup kitchens and homeless shelters, the Flint Journal reports.

This mom helped uncover what was really going on with Flint's water

Michigan Radio, December 15, 2015

Up until October, the Walters family lived in a yellow two-story home on the south side of Flint. A couple of red maple trees shade the tiny front yard.

Walters heads to the back of the house, in a small room off of the kitchen, where the family keeps its stockpile of bottled water.

"This is our water stash. Once a week we go and we fill 40 gallons of water, so we have water to drink with, to cook with, and to bathe Gavin and Garrett in," says Lee Anne Walters.

Flint Mayor declares state of emergency over water problems

ABC News, December 15, 2015

Flint's mayor has declared a state of emergency due to problems with the city's water system caused by using water from the Flint River, saying the city needs more federal help.

Karen Weaver announced the declaration Monday night and said the move intends to help raise awareness of continuing problems. She said damage to children caused by lead exposure is irreversible and that the city will need to spend more on special education and mental health services as a result.

Mayor declares emergency in Flint; FEMA aids city residents in water crisis

WLNS, December 15, 2015

FLINT, MI. (AP/WLNS) – The water crisis has depleted the supply of bottled water in the city of Flint and now the Federal Emergency Management Agency is making sure that vital resource remains available.

FEMA trucks delivered about 7,400 gallons of bottled water to the food bank of Eastern Michigan Monday.

That water will be distributed to other sites around Flint.

Flint mayor declares state of emergency over water

Detroit News, December 15, 2015

Flint — Flint's mayor has declared a state of emergency due to problems with the city's water system caused by the earlier use of Flint River water.

Karen Weaver announced the declaration Monday night, saying Flint needs more federal help. Weaver says the move intends to help raise awareness of ongoing problems.

Federal agency sends 28,000 liters of water to Flint

Detroit News, December 15, 2015

Flint — The Federal Emergency Management Agency has sent thousands of bottles of water to Flint amid ongoing problems with the city's water supply.

About 28,000 liters of water was delivered Monday to the Food Bank of Eastern Michigan in Flint. The Food Bank will donate the water bottles to "partner agencies," including soup kitchens, homeless shelters and food pantries, and then they'll be distributed to residents.

The Flint Journal reports that Michigan State Police Lt. Billie Jo Roach is credited with identifying the availability of water from the federal agency, which maintains commodity stockpiles at warehouses across the country and makes them available.

FEMA sends 28,000 liters of bottled water to Flint amid lead troubles

MLive, December 14, 2015

FLINT, MI — The federal government is helping to replenish the bottled water supply in Flint.

Two trucks delivered about 28,000 liters of water from the Federal Emergency Management Agency to the Food Bank of Eastern Michigan on Monday, Dec. 14. The water will be donated to "partner agencies" in the city of Flint that will distribute the water to residents.

"I don't think any (previous water donations) have been quite this large," said Kelly Belcher, marketing manager for the Food Bank.

Cassie Ringsdorf, a FEMA spokeswoman, said the agency maintains commodity stockpiles at warehouses across the country and makes them available.

"These commodities are available for use, within hours, should an incident occur that requires support from FEMA," Ringsdorf said in an email to The Flint Journal.

"As a part of our normal commodities management process, FEMA periodically offers commodities nearing the end of their shelf-life to eligible non-profits for donation. These donations are not done, 'on-request,' but are a part of our normal strategy to maintain our stockpiles for use in emergencies," the statement said.

A news release from the Food Bank credited Michigan State Police Lt. Billie Jo Roach with having identified the availability of the water from FEMA.

Flint remains in a public health emergency, and officials have said residents should not drink unfiltered tap water because of rising lead levels while the city used the Flint River as its water source from April 2014 until October 2015.

Earlier this month, Virginia Tech professor Marc Edwards said even though the city no longer uses the river as a water source, water remains unsafe to drink unfiltered in some areas of the city.

Roach is the MSP Emergency Management and Homeland Security Division District 3 coordinator.

The Journal could not immediately reach a representative of the MSP Emergency Management and Homeland Security Division for further comment.

FEMA said the Food Bank claimed two truckloads of water and agreed to pay all transportation costs associated with the donation.

Belcher said the United Way of Genesee County paid that expense for the Food Bank.

The Food Bank's partner agencies that will receive the FEMA water include soup kitchens, homeless shelters and food pantries, the organization said in its news release.

Flint mayor declares state of emergency over water crisis

NBC 25 News, December 14, 2015

Flint Mayor Karen Weaver has declared a state of emergency in the city due to the water crisis.

In the declaration, Weaver is asking the Genesee County Board of Commissioners to call a special meeting no later than the end of December to take action supporting the state of emergency.

Dr. Weaver is also calling for continued help from the state and federal government.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Former Genesee County homeland security manager accepts job in Midland County

MLive, December 14, 2015

GENESEE COUNTY, MI - About a month after former Genesee County homeland security manager, Jenifier Boyer, filed a sex discrimination complaint against Genesee County Sheriff Robert Pickell, a Midland County news source says she has accepted a new job.

According to the Midland Daily News, Boyer accepted a Midland County emergency manager job. She starts Dec. 17.

Newton marks third anniversary of Sandy Hook shooting

NBC Connecticut, December 14, 2015

Monday marks three years since a deadly mass shooting claimed the lives of 20 children and six educators at Sandy Hook Elementary School.

For the first time, Newtown students are in school on the anniversary of the tragedy.

Gov. Dannel Malloy has ordered Connecticut and U.S. flags to be flown at half-staff Monday as the state honors the victims of the Dec. 14, 2012 massacre.

SYRIAN REFUGEES

Snyder rejects Trump's call for Muslim immigration ban

Detroit News, December 14, 2015

Gov. Rick Snyder on Monday rejected the proposal by Republican presidential frontrunner Donald Trump to temporarily prohibit anyone of the Muslim faith from entering the country over national security concerns.

"Donald Trump's comments about banning all Muslims is absolutely inappropriate, and it doesn't reflect the spirit of America, in my view," the Michigan Republican governor said in an interview with The Detroit News Editorial Board.

Snyder repudiated the bombastic billionaire businessman's proposal a few hours before the Trump campaign announced Monday that Trump will hold a rally Monday in Grand Rapids.

Lansing keeps doors open for refugees, immigrant

Lansing State Journal, December 14, 2015

LANSING - Mayor Virg Bernero and several City Council members reinforced Monday their belief that the Capital City should welcome refugees and immigrants of all faiths, and they put it in writing.

Bernero and council members Vincent Delgado, Carol Wood, Jody Washington and Tina Houghton signed a pledge to declare Lansing a "Welcoming City" for anyone eager to live here. All other council members signed the pledge Monday evening at the City Council meeting.

Will Gov. Rick Snyder hit the "un-pause" button on efforts to take in more Syrian refugees

Michigan Radio, December 14, 2015

The federally-created Council of Governors has a meeting scheduled for tomorrow. This is the group of 10 governors (always five Republicans and five Democrats) that gives the federal government the states' perspectives on national security issues.

This is also the group that Governor Snyder said he wanted to conduct a review of federal security policies after the self-proclaimed most pro-immigration governor called for a "pause" in resettling refugees from Syria and other Middle Eastern countries after last month's terrorist attacks in Paris, Beirut, and Egypt.

MICHIGAN PIPELINES

Report: Straits of Mackinac oil pipeline not necessary

Detroit Free Press, December 14, 2015

Continuing to move up to 23 million gallons of crude oil per day through 62-year-old, underwater pipelines in the Straits of Mackinac is too risky and not necessary, an environmental group said Monday.

For Love of Water, or FLOW, released a report on alternatives to Enbridge's Line 5, saying the existing oil pipeline network in the Midwest provides alternatives that pose far less risk to the Great Lakes.

FLOW would like the Michigan Pipeline Safety Advisory Board to take a comprehensive, system-wide look at the oil pipeline network in the state and close down Line 5.

NATIONAL WEATHER SERVICE FORECASTS

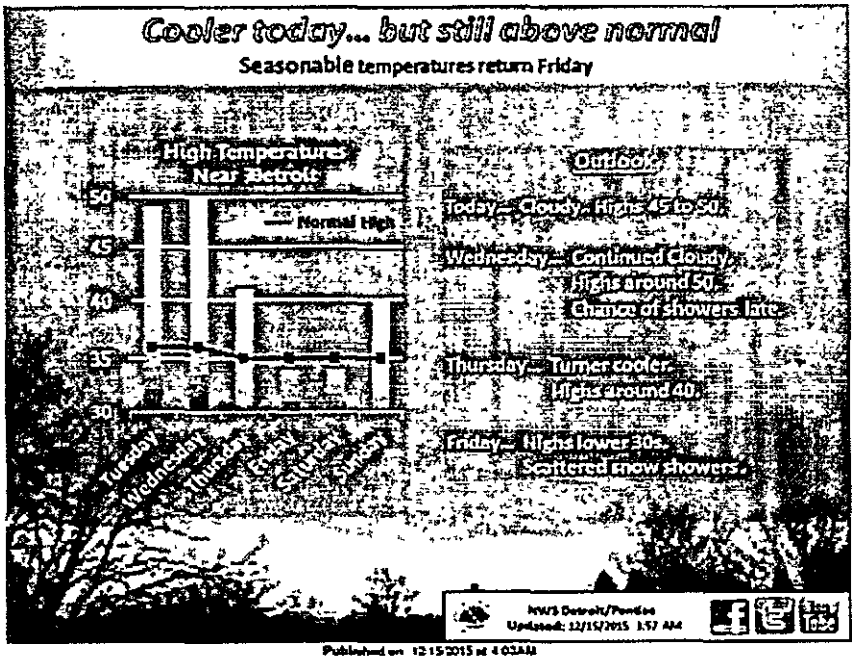
Marquette

Light lake effect snow and any patchy freezing drizzle will end near Lake Superior by late this morning as high pressure builds in from the west. Another low pressure system lifting through the Central Plains will bring some patchy freezing drizzle or drizzle to mainly the west half of Upper Michigan late tonight and a mix of rain and snow to all of Upper Michigan Wednesday into Wednesday night. Colder air moving in behind this system on west to northwest winds will generate accumulating lake effect snow across portions of western Upper Michigan and areas east of Marquette Thursday into Saturday.

Gaylord

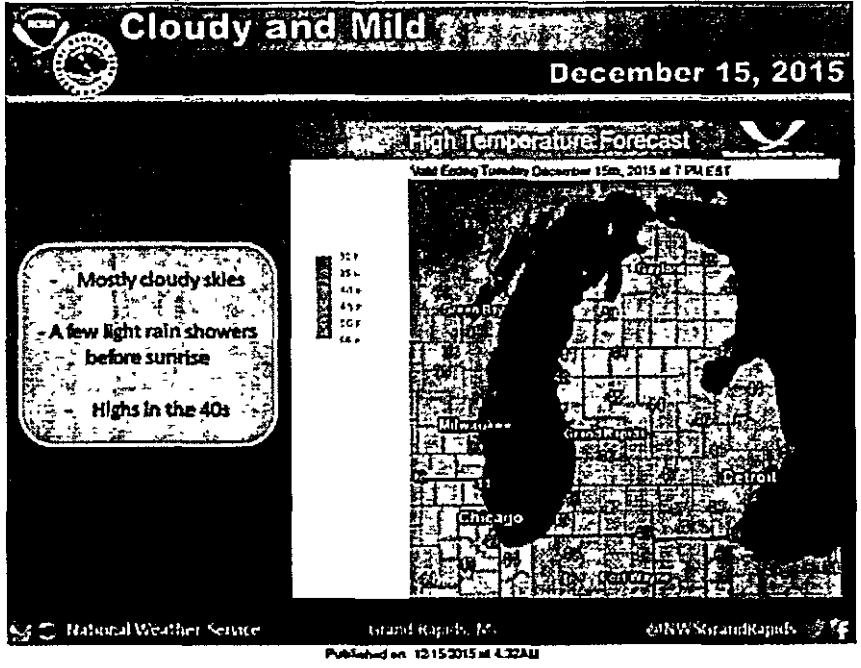
Temperatures will turn much cooler today, although still several degrees above normal. Some light patchy freezing drizzle is possible early Wednesday morning, especially across the higher terrain. Much colder air will briefly return to the area for the end of the week with accumulating lake effect snow likely.

Detroit



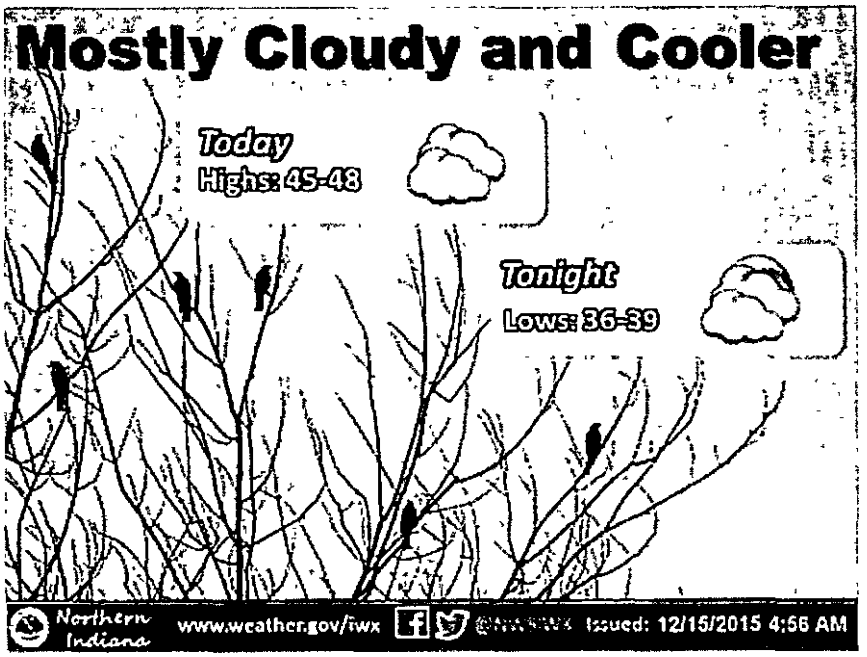
Extensive cloud cover will remain across the region through the midweek period. While cooler relative to recent days, high temperatures both today and Wednesday will remain above average. Readings from mid 40s to lower 50s. The next chance for showers comes late Wednesday into Wednesday night. A stronger cooling trend expected late this week.

Grand Rapids



Mainly cloudy skies today with mild temperatures. Highs in the 40s.

Northern Indiana



Cloudy and cooler conditions are in store for the area today. Some breaks in the clouds may develop this evening, but clouds will increase again late tonight into Wednesday. High temperatures today will be cooler, but still above normal for mid-December.

Office of Mayor Karen W. Weaver, Ph.D.
City of Flint, Michigan, County of Genesee

Declaration of State of Emergency

Authority Emergency Management Act: Michigan Emergency Management Act 390 of 1976

BY THE MAYOR:

Whereas; in accordance with the Michigan Emergency Management Act, I am declaring a State of Emergency for the incorporated boundaries of the City of Flint, Michigan; and

Whereas; the City of Flint has experienced a Manmade disaster by switching to the use of the Flint River before connecting to KWA; and

Whereas; the City of Flint children have experienced increased blood lead levels since the switch to the Flint River; and

Whereas; this damage to children is irreversible and can cause effects to a child's IQ, which will result in learning disabilities and the need for special education and mental health services and an increase in the juvenile justice system; and

Whereas; this will increase the need for foster and adoptive parents as a result of social services needed due to the detrimental effects of the high blood lead levels; and

Whereas; I am requesting that all things be done necessary to address this State of Emergency Declaration, effective immediately; and

Whereas; this action is being taken to protect the health, safety, and welfare of the citizens of Flint; and

Whereas; I request that the Genesee County Board of Commissioners call a Special Meeting no later than the end of December 2015 to take action supporting this State of Emergency; and

Now, Therefore, I, Mayor Karen W. Weaver declare a State of Emergency in the City of Flint, effective, December 14, 2015;

Karen W. Weaver

Mayor Karen Weaver declares water crisis state of emergency in Flint

MLive, December 14, 2015

FLINT, MI – Mayor Karen Weaver has declared a state of emergency in Flint, saying the city needs federal help to deal with its lead in water crisis.

"I am requesting that all things be done necessary to address this state of emergency declaration, effective immediately," Weaver told the City Council today, Dec. 14.

In Flint, Mich., there's so much lead in children's blood that a state of emergency is declared

Washington Post, December 15, 2015

For months, worried parents in Flint, Mich., arrived at their pediatricians' offices in droves. Holding a toddler by the hand or an infant in their arms, they all have the same question: Are their children being poisoned?

To find out, all it takes is a prick of the finger, a small letting of blood. If tests come back positive, the potentially severe consequences are far more difficult to discern

That's how lead works. It leaves its mark quietly, with a virtually invisible trail. But years later, when a child shows signs of a learning disability or behavioral issues, lead's prior presence in the bloodstream suddenly becomes inescapable.

FEMA sends 28,000 liters of bottled water to Flint, Mich.

TIME, December 14, 2015

FEMA has dispatched 28,000 liters of bottled water to Flint, Mich., where residents have been struggling with a lead-contaminated water supply for months.

FEMA maintains stockpiles of commodities that would be needed in the event of disaster, and distributes them to non-profits as they near their expiration date. On Tuesday, the agency sent two trucks' worth of bottled water to the Food Bank of Eastern Michigan, which covered the shipping costs and will distribute the water to other food pantries, soup kitchens and homeless shelters, the Flint Journal reports.

This mom helped uncover what was really going on with Flint's water

Michigan Radio, December 15, 2015

Up until October, the Walters family lived in a yellow two-story home on the south side of Flint. A couple of red maple trees shade the tiny front yard.

Walters heads to the back of the house, in a small room off of the kitchen, where the family keeps its stockpile of bottled water.

"This is our water stash. Once a week we go and we fill 40 gallons of water, so we have water to drink with, to cook with, and to bathe Gavin and Garrett in," says Lee Anne Walters.

Flint Mayor declares state of emergency over water problems

ABC News, December 15, 2015

Flint's mayor has declared a state of emergency due to problems with the city's water system caused by using water from the Flint River, saying the city needs more federal help.

Karen Weaver announced the declaration Monday night and said the move intends to help raise awareness of continuing problems. She said damage to children caused by lead exposure is irreversible and that the city will need to spend more on special education and mental health services as a result.

Mayor declares emergency in Flint; FEMA aids city residents in water crisis

WLNS, December 15, 2015

FLINT, MI. (AP/WLNS) – The water crisis has depleted the supply of bottled water in the city of Flint and now the Federal Emergency Management Agency is making sure that vital resource remains available.

FEMA trucks delivered about 7,400 gallons of bottled water to the food bank of Eastern Michigan Monday.

That water will be distributed to other sites around Flint.

Flint mayor declares state of emergency over water

Detroit News, December 15, 2015

Flint — Flint's mayor has declared a state of emergency due to problems with the city's water system caused by the earlier use of Flint River water.

Karen Weaver announced the declaration Monday night, saying Flint needs more federal help. Weaver says the move intends to help raise awareness of ongoing problems.

Federal agency sends 28,000 liters of water to Flint

Detroit News, December 15, 2015

Flint — The Federal Emergency Management Agency has sent thousands of bottles of water to Flint amid ongoing problems with the city's water supply.

About 28,000 liters of water was delivered Monday to the Food Bank of Eastern Michigan in Flint. The Food Bank will donate the water bottles to "partner agencies," including soup kitchens, homeless shelters and food pantries, and then they'll be distributed to residents.

The Flint Journal reports that Michigan State Police Lt. Billie Jo Roach is credited with identifying the availability of water from the federal agency, which maintains commodity stockpiles at warehouses across the country and makes them available.

FEMA sends 28,000 liters of bottled water to Flint amid lead troubles

MLive, December 14, 2015

FLINT, MI — The federal government is helping to replenish the bottled water supply in Flint.

Two trucks delivered about 28,000 liters of water from the Federal Emergency Management Agency to the Food Bank of Eastern Michigan on Monday, Dec 14. The water will be donated to "partner agencies" in the city of Flint that will distribute the water to residents.

"I don't think any (previous water donations) have been quite this large," said Kelly Belcher, marketing manager for the Food Bank.

Cassie Ringsdorf, a FEMA spokeswoman, said the agency maintains commodity stockpiles at warehouses across the country and makes them available.

"These commodities are available for use, within hours, should an incident occur that requires support from FEMA," Ringsdorf said in an email to The Flint Journal.

"As a part of our normal commodities management process, FEMA periodically offers commodities nearing the end of their shelf-life to eligible non-profits for donation. These donations are not done, 'on-request,' but are a part of our normal strategy to maintain our stockpiles for use in emergencies," the statement said.

A news release from the Food Bank credited Michigan State Police Lt. Billie Jo Roach with having identified the availability of the water from FEMA.

Flint remains in a public health emergency, and officials have said residents should not drink unfiltered tap water because of rising lead levels while the city used the Flint River as its water source from April 2014 until October 2015.

Earlier this month, Virginia Tech professor Marc Edwards said even though the city no longer uses the river as a water source, water remains unsafe to drink unfiltered in some areas of the city.

Roach is the MSP Emergency Management and Homeland Security Division District 3 coordinator.

The Journal could not immediately reach a representative of the MSP Emergency Management and Homeland Security Division for further comment

FEMA said the Food Bank claimed two truckloads of water and agreed to pay all transportation costs associated with the donation.

Belcher said the United Way of Genesee County paid that expense for the Food Bank.

The Food Bank's partner agencies that will receive the FEMA water include soup kitchens, homeless shelters and food pantries, the organization said in its news release.

Flint mayor declares state of emergency over water crisis

NBC 25 News, December 14, 2015

Flint Mayor Karen Weaver has declared a state of emergency in the city due to the water crisis.

In the declaration, Weaver is asking the Genesee County Board of Commissioners to call a special meeting no later than the end of December to take action supporting the state of emergency.

Dr. Weaver is also calling for continued help from the state and federal government.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Former Genesee County homeland security manager accepts job in Midland County

MLive, December 14, 2015

GENESEE COUNTY, MI - About a month after former Genesee County homeland security manager, Jenifier Boyer, filed a sex discrimination complaint against Genesee County Sheriff Robert Pickell, a Midland County news source says she has accepted a new job.

According to the Midland Daily News, Boyer accepted a Midland County emergency manager job. She starts Dec. 17.

Newton marks third anniversary of Sandy Hook shooting

NBC Connecticut, December 14, 2015

Monday marks three years since a deadly mass shooting claimed the lives of 20 children and six educators at Sandy Hook Elementary School.

For the first time, Newtown students are in school on the anniversary of the tragedy.

Gov. Dannel Malloy has ordered Connecticut and U.S. flags to be flown at half-staff Monday as the state honors the victims of the Dec. 14, 2012 massacre.

SYRIAN REFUGEES

Snyder rejects Trump's call for Muslim immigration ban

Detroit News, December 14, 2015

Gov. Rick Snyder on Monday rejected the proposal by Republican presidential frontrunner Donald Trump to temporarily prohibit anyone of the Muslim faith from entering the country over national security concerns.

"Donald Trump's comments about banning all Muslims is absolutely inappropriate, and it doesn't reflect the spirit of America, in my view," the Michigan Republican governor said in an interview with The Detroit News Editorial Board.

Snyder repudiated the bombastic billionaire businessman's proposal a few hours before the Trump campaign announced Monday that Trump will hold a rally Monday in Grand Rapids.

Lansing keeps doors open for refugees, immigrant

Lansing State Journal, December 14, 2015

LANSING - Mayor Virg Bernero and several City Council members reinforced Monday their belief that the Capital City should welcome refugees and immigrants of all faiths, and they put it in writing.

Bernero and council members Vincent Delgado, Carol Wood, Jody Washington and Tina Houghton signed a pledge to declare Lansing a "Welcoming City" for anyone eager to live here. All other council members signed the pledge Monday evening at the City Council meeting.

Will Gov. Rick Snyder hit the "un-pause" button on efforts to take in more Syrian refugees

Michigan Radio, December 14, 2015

The federally-created Council of Governors has a meeting scheduled for tomorrow. This is the group of 10 governors (always five Republicans and five Democrats) that gives the federal government the states' perspectives on national security issues.

This is also the group that Governor Snyder said he wanted to conduct a review of federal security policies after the self-proclaimed most pro-immigration governor called for a "pause" in resettling refugees from Syria and other Middle Eastern countries after last month's terrorist attacks in Paris, Beirut, and Egypt.

MICHIGAN PIPELINES

Report: Straits of Mackinac oil pipeline not necessary

Detroit Free Press, December 14, 2015

Continuing to move up to 23 million gallons of crude oil per day through 62-year-old, underwater pipelines in the Straits of Mackinac is too risky and not necessary, an environmental group said Monday.

For Love of Water, or FLOW, released a report on alternatives to Enbridge's Line 5, saying the existing oil pipeline network in the Midwest provides alternatives that pose far less risk to the Great Lakes.

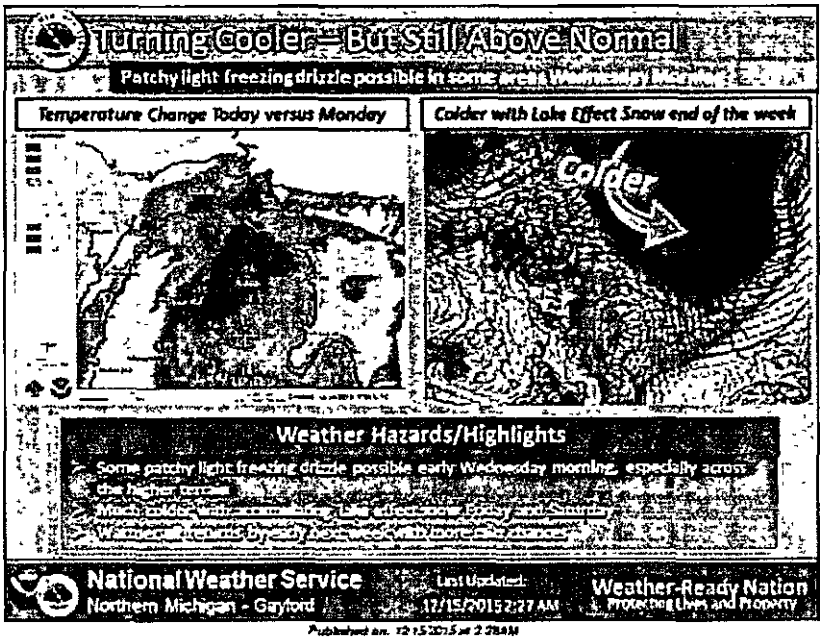
FLOW would like the Michigan Pipeline Safety Advisory Board to take a comprehensive, system-wide look at the oil pipeline network in the state and close down Line 5.

NATIONAL WEATHER SERVICE FORECASTS

Marquette

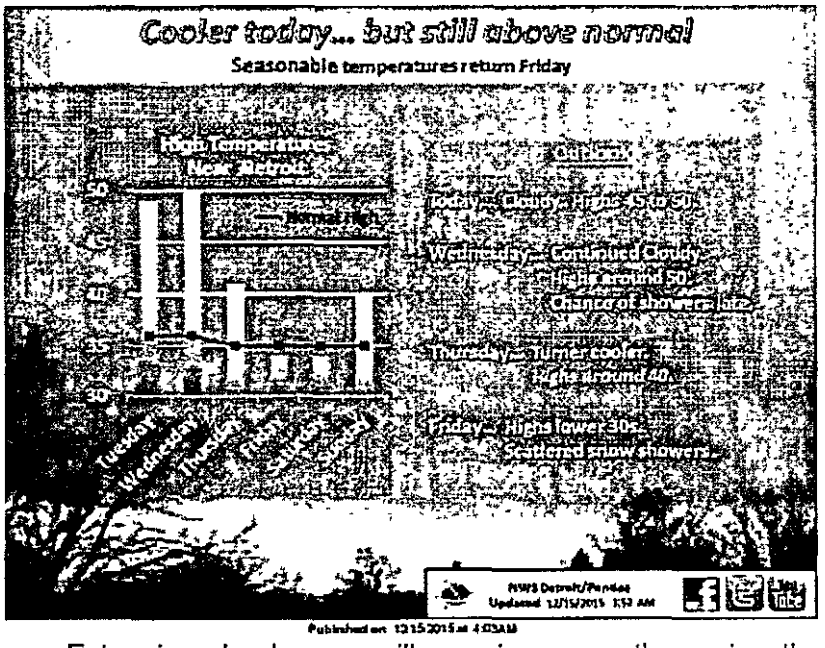
Light lake effect snow and any patchy freezing drizzle will end near Lake Superior by late this morning as high pressure builds in from the west. Another low pressure system lifting through the Central Plains will bring some patchy freezing drizzle or drizzle to mainly the west half of Upper Michigan late tonight and a mix of rain and snow to all of Upper Michigan Wednesday into Wednesday night. Colder air moving in behind this system on west to northwest winds will generate accumulating lake effect snow across portions of western Upper Michigan and areas east of Marquette Thursday into Saturday.

Gaylord



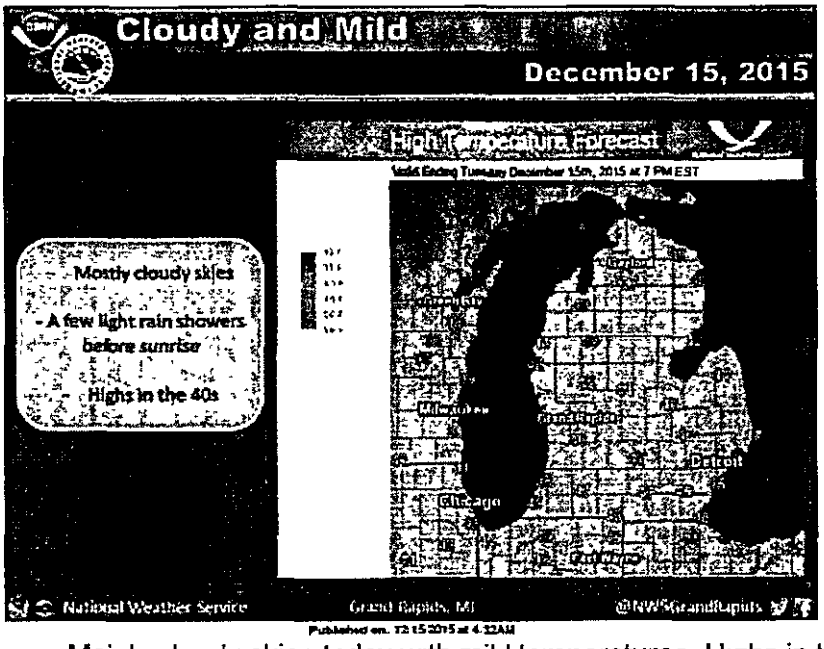
Temperatures will turn much cooler today, although still several degrees above normal. Some light patchy freezing drizzle is possible early Wednesday morning, especially across the higher terrain. Much colder air will briefly return to the area for the end of the week with accumulating lake effect snow likely.

Detroit



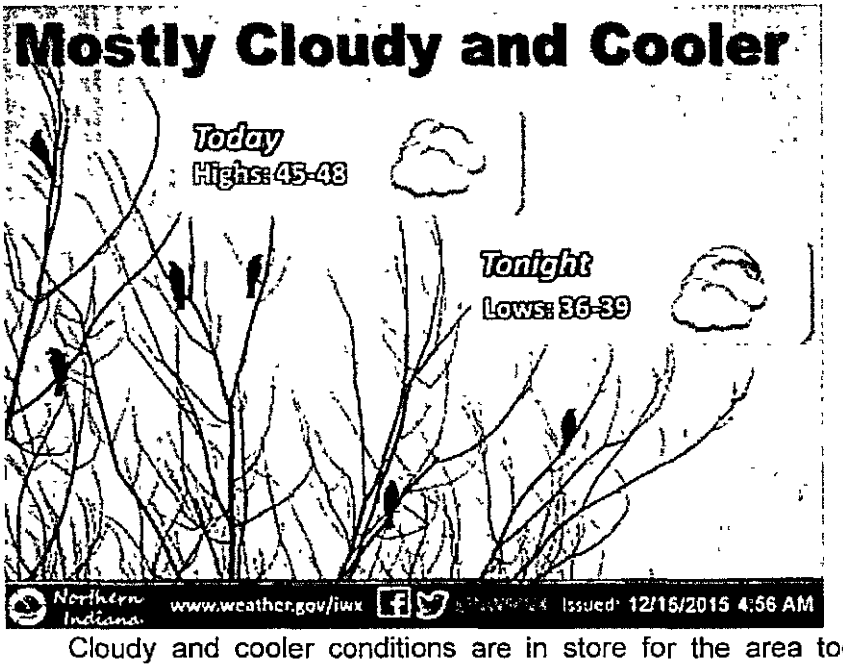
Extensive cloud cover will remain across the region through the midweek period. While cooler relative to recent days, high temperatures both today and Wednesday will remain above average. Readings from mid 40s to lower 50s. The next chance for showers comes late Wednesday into Wednesday night. A stronger cooling trend expected late this week.

Grand Rapids



Mainly cloudy skies today with mild temperatures. Highs in the 40s.

Northern Indiana



Cloudy and cooler conditions are in store for the area today. Some breaks in the clouds may develop this evening, but clouds will increase again late tonight into Wednesday. High temperatures today will be cooler, but still above normal for mid-December.

Office of Mayor Karen W. Weaver, Ph.D.
City of Flint, Michigan, County of Genesee

Declaration of State of Emergency

Authority Emergency Management Act: Michigan Emergency Management Act 390 of 1976

BY THE MAYOR:

Whereas; in accordance with the Michigan Emergency Management Act, I am declaring a State of Emergency for the incorporated boundaries of the City of Flint, Michigan; and

Whereas; the City of Flint has experienced a Manmade disaster by switching to the use of the Flint River before connecting to KWA; and

Whereas; the City of Flint children have experienced increased blood lead levels since the switch to the Flint River; and

Whereas; this damage to children is irreversible and can cause effects to a child's IQ, which will result in learning disabilities and the need for special education and mental health services and an increase in the juvenile justice system; and

Whereas; this will increase the need for foster and adoptive parents as a result of social services needed due to the detrimental effects of the high blood lead levels; and

Whereas; I am requesting that all things be done necessary to address this State of Emergency Declaration, effective immediately; and

Whereas; this action is being taken to protect the health, safety, and welfare of the citizens of Flint; and

Whereas; I request that the Genesee County Board of Commissioners call a Special Meeting no later than the end of December 2015 to take action supporting this State of Emergency; and

Now, Therefore, I, Mayor Karen W. Weaver declare a State of Emergency in the City of Flint, effective, December 14, 2015;

Karen W. Weaver

FLINT

EPA says it won't take quick action on petition targeting Flint water safety

MLive, December 11, 2015

FLINT, MI – The U.S. Environmental Protection Agency won't act immediately on a petition that seeks to involve it more deeply in Flint's water crisis.

EPA Regional Administrator Susan Hedman told the Natural Resources Defense Council in a Dec. 10 letter that regulators will wait to act on the request "until such time as the agency determines that corrosion control treatment is fully optimized for the Flint system."

In flint and beyond, lead remains irreversible scourge among Michigan's children

MLive, December 13, 2015

Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.

Although much of the state's focus has been on lead-poisoned water in Flint, the metal continues to turn up annually in the bodies of thousands of children across the state, at percentages well above the numbers that raised red flags in Flint.

SYRIAN REFUGEES

Michigan Gov. Rick Snyder: Donald Trump does not speak for me

Detroit Free Press, December 13, 2015

Just as terrorists who betray cherished values in the name of Islam do not speak for the 1.6 billion Muslims in the world, Donald Trump does not speak for me, the state of Michigan, nor the entire Republican Party.

To say that Michigan is on the same path that Trump proposes is a great injustice to those who are working hard to make our state welcoming and successful. But the Free Press Editorial Board has tied my request for a review of immigration and visa processes to Trump's recent inappropriate comments.

In November, I called for a pause on our refugee attraction program and asked the federal government to review how it screens refugees. I want assurances that my first priority — keeping Michigan citizens safe — is possible under current federal guidelines. If not, then it's incumbent upon us to improve the process. If it is, then let's welcome the many hardworking people who dream of becoming U.S. citizens.

Michigan's Snyder fights PR battle on refugees

Dearborn Patch, December 13, 2015

DETROIT, MI - Michigan Gov. Rick Snyder further distanced himself from Republican presidential frontrunner Donald Trump in a guest editorial published in Sunday's Detroit Free Press that answered an earlier editorial linking the governor's request for a review of immigration policies to Trump's controversial statements on Muslim refugees.

Last week, Trump called for a "total and complete shutdown of Muslims entering the United States until our country's representatives can figure out what is going on." His remarks were widely condemned, including by Snyder, who told WWJ last week that Trump's proposal is "absolutely inappropriate" and wrote in his editorial Sunday that the candidate's "statements are inconsistent with our spirit of inclusion."

City of Lansing seeks to be welcoming place for refugees

9 & 10 News, December 14, 2015

LANSING, Mich. (AP) - City officials in Lansing say they want to make the city a more welcoming place for refugees and immigrants of all faiths.

Lansing officials including Mayor Virg Bernero say Michigan's capital city is joining several other communities in the state as participants in the Welcoming Michigan coalition.

The coalition says on its website it was created in response in part to "disturbing comments made at the national level" about Arabs, refugees and those of the Muslim faith.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Genesee County's Boyer to replace Garner

Midland Daily News, December 13, 2015

When Roger Garner retires as Midland County emergency manager, Midland County will sorely miss his wealth of knowledge and experience. Fortunately for the county, Garner has passed on some of that information, and will continue to do so, to his successor, Genesee County Emergency Management Manager Jenifier Boyer.

"Roger is a great asset to have," said Boyer. "He has mentored me. I've worked with Roger on different projects over the last seven years."

Boyer begins her new position in Midland County on Dec. 17. Garner will continue her orientation to the job until he retires at the end of the year on Dec. 31.

Here's what happened to the third San Bernardino shooting suspect

Emergency Management, December 11, 2015

(TNS) - In the confusing hours between the shooting began at a Christmas party at the Inland Regional Center and perpetrators Syed Farook and Tashfeen Malik being killed less than a mile away, the public and media watched and listened along, on radio, television and the Internet.

And in those intervening hours, there were rumors and false leads and, briefly, the report of a third person being picked up by the police. As early as half an hour after the first shots were fired at the IRC, police were telling journalists there were one to three shooters involved. After Farook and Malik were shot, police said a third suspect was on the run.

But by the news conference that night, police said only two shooters had been involved in the terrorist attack in San Bernardino, and both were dead.

Shiawassee County oil spill was accidental, feds say

MLive, December 11, 2015

OWOSSO TWP, MI – Federal officials say they believe electrical repairs accidentally caused a Shiawassee County oil spill that could cost as much as $250,000 to clean up.

U.S. Environmental Protection Agency on-scene coordinator Tricia A. Edwards said Friday, Dec. 11, that they believe they located the cause and source of the spill that was discovered Thanksgiving Day in the county's Miner Drain, just west of the Shiawassee River.

Thousands of Detroit residents sign up for free emergency alerts

Michigan Chronicle, December 14, 2015

In the last two weeks, more than 7,000 additional Detroit residents have signed up to receive free emergency alerts from the City of Detroit through the Nixle emergency alert notification system. After reminding residents they can sign up to receive the free alerts, the number of registered residents has increased to 17,238. City of Detroit residents can receive alerts regarding various emergency situations within the city.

To sign up for this free service, residents should simply TEXT the word "DETROIT" in the message box to the number 888777. Interested residents can also visit the Detroit Homeland Security & Emergency Management website at www.detroitmi.gov/dhsem and click on Nixle Emergency Alerts, or visit the DHSEM Facebook page at https://facebook.com/detroithsem/.

Ottawa County reviews terrorism response plan

WZZM 13, December 11, 2015

WEST OLIVE, Mich. (WZZM) – The latest findings from San Bernardino and the Paris attacks could impact future security procedures in West Michigan.

This week, Ottawa County leaders discussed an updated emergency response plan which includes the threat of terrorism.

WZZM 13 is looking at how local law enforcement learns from incidents near and far.

Cleanup costs for Shiawassee County oil spill could reach $300,000

Michigan Radio, December 10, 2015

More than 500 gallons of of used motor oil spilled into a county drain in Shiawasee County, according to the U.S. Environmental Protection Agency's on-scene coordinator Tricia Edwards.

The EPA is heading the cleanup process.

A hunter discovered the spill on November 26.

Kalamazoo County dispatch authority hires first executive director

MLive, December 11, 2015

KALAMAZOO, MI – For the last six years, Jeff Troyer has managed the consolidated dispatcher center in Calhoun County.

Now, he'll do the same for Kalamazoo County.

The board of directors for the Kalamazoo County Consolidated Dispatch Authority announced Friday that Troyer has been hired as the body's executive director, according to a news release issued by County Sheriff Richard Fuller.

Troyer comes to Kalamazoo after spending the last six years in Calhoun, where he helped complete the consolidation of three dispatch centers in Marshall, Battle Creek and Albion, and then managed the county's consolidated dispatch center.

MICHIGAN ENVIRONMENTAL

Chronic wasting disease found in fourth Michigan deer

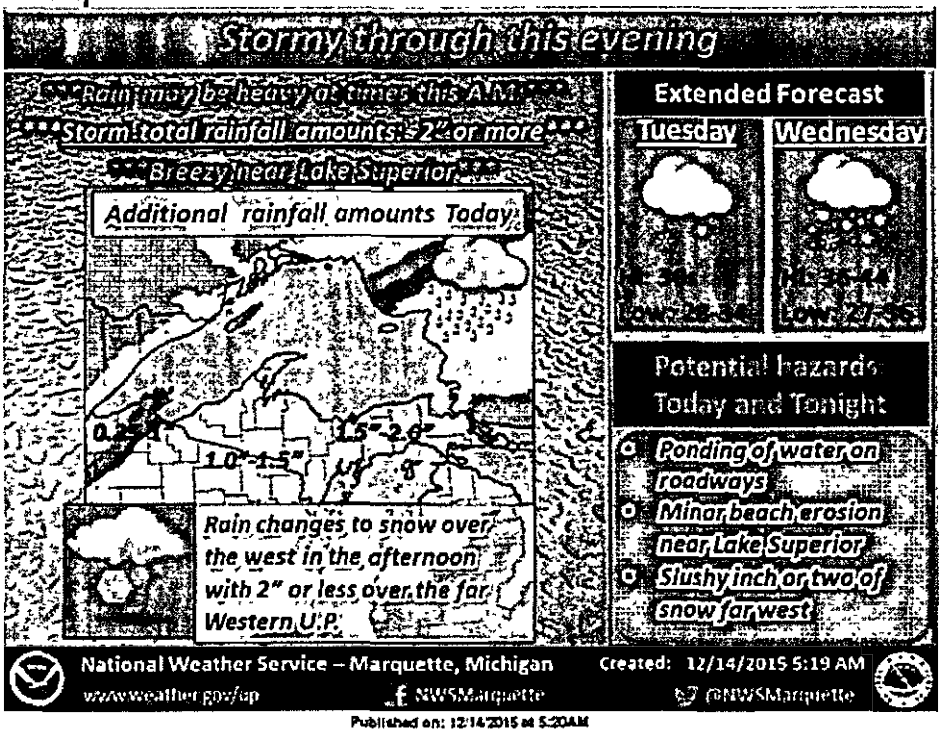
MLive, December 11, 2015

CLINTON COUNTY, MI – A fourth Michigan deer has tested positive for chronic wasting disease, a deadly neurological disease found in the state's free-ranging deer population for the first time this year.

A hunter brought the 1-year-old buck to a Michigan Department of Natural Resources check station during firearm season in Clinton County's Dewitt Township. The U.S. Department of Agriculture's National Veterinary Services Laboratory in Iowa confirmed the deer is positive for chronic wasting disease, the DNR said Friday, Dec. 11.

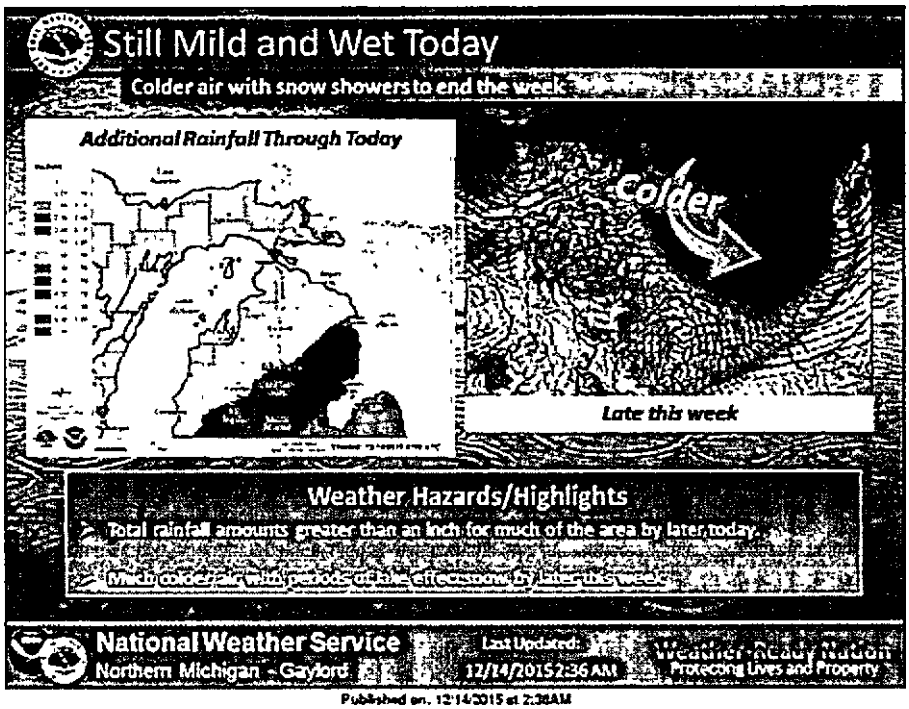
NATIONAL WEATHER SERVICE FORECASTS

Marquette



Locally heavy rain will continue today across the entire area. Some places will see up to 2 inches of rain before ending this evening, which may cause some ponding of water on area roadways. In addition, the rain will change to snow across the far west later this afternoon, with 1 or 2 inches of slushy snow possible. Strong northeast winds later today into tonight may also cause some minor beach erosion along Lake Superior. Cooler with light snow showers Tuesday before another storm system brings a wintry mix on Wednesday.

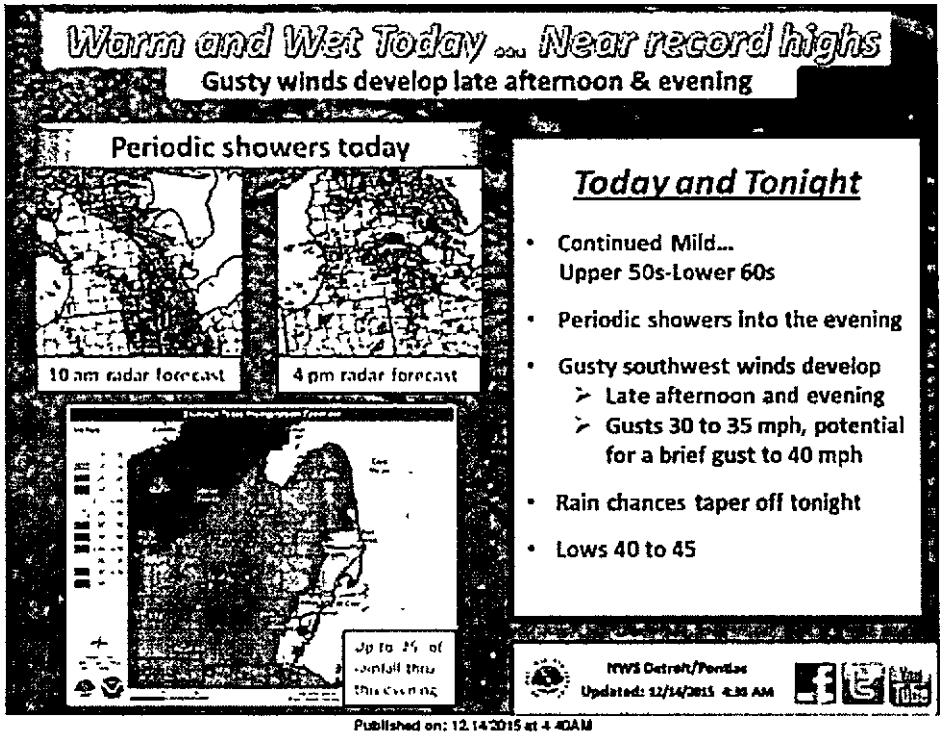
Gaylord



Published on: 12/14/2015 at 2:36AM

Widespread rain and very mild temperatures will continue today, with several record highs expected to be set. While not quite as warm, still mild for Tuesday and Wednesday, with some additional light rain showers on Wednesday. Substantial cooling for the end of the week, with temperatures likely to return to normal levels by Friday and Saturday. These cold temperatures will likely result in periods of lake effect snow, with some accumulation looking possible in the traditional areas.

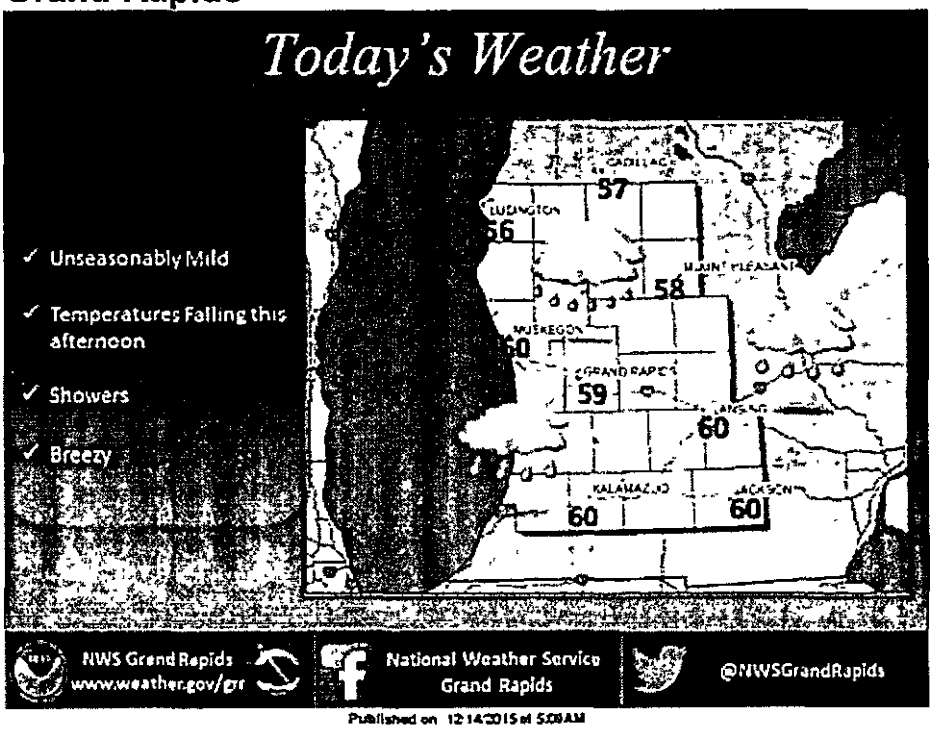
Detroit



Published on: 12.14.2015 at 4:40AM

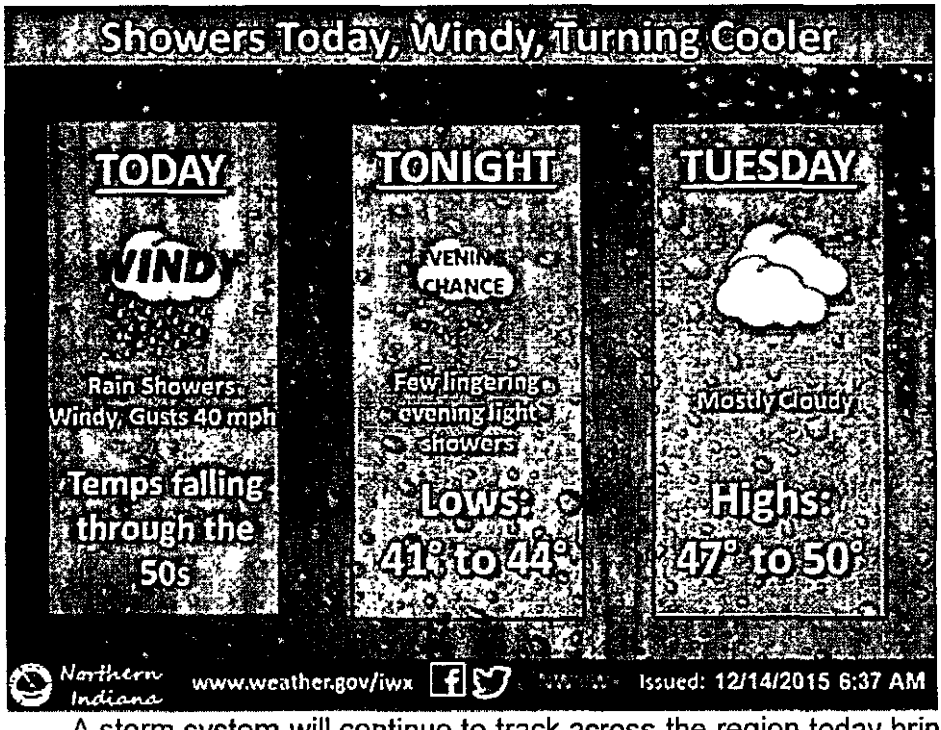
Warm and wet conditions today. Highs will again be near record levels, with readings hovering in the upper 50s and lower 60s. Area of showers on track to lift across the region during the late morning hours. Additional showers are expected to develop during the afternoon and early evening. Southwest winds will turn gusty during this time, potential for gusts in excess of 30 mph.

Grand Rapids



Showers will track in from the southwest through today as a cold front pushes in. Gusty winds can be expected. Locally a few gusts over 40 mph may occur, which could lead to scattered power outages, mainly south of a Muskegon to Lansing line.

Northern Indiana



A storm system will continue to track across the region today bringing periods of showers along with windy and cooler conditions. Wind gusts up to 40 mph are expected today, and wind speeds should diminish early this evening. Clouds will linger into Tuesday with high temperatures in the upper 40s to around 50.

MEDIA MONITORING REPORT

12/14/2015

Issues:

- No issues to report

Summary:

- The U.S. Environmental Protection Agency won't act immediately on a petition that seeks to involve it more deeply in Flint's water crisis.
- Gov. Rick Snyder wrote an editorial for Detroit Free Press on how he does not agree with presidential candidate Donald Trump's viewpoint on Syrian refugees.
- Michigan Gov. Rick Snyder further distanced himself from Republican presidential frontrunner Donald Trump in a guest editorial published in Sunday's Detroit Free Press that answered an earlier editorial linking the governor's request for a review of immigration policies to Trump's controversial statements on Muslim refugees
- City officials in Lansing say they want to make the city a more welcoming place for refugees and immigrants of all faiths.
- As Roger Garner retires as Midland County emergency manager, Genesee County Emergency Management Manager Jenifier Boyer will be his successor.
- Emergency Management Magazine posts an article on the possible third shooting suspect in the San Bernardino shooting.
- Federal officials say they believe electrical repairs accidentally caused a Shiawassee County oil spill that could cost as much as $250,000 to clean up.
- In the last two weeks, more than 7,000 additional Detroit residents have signed up to receive free emergency alerts from the City of Detroit through the Nixle emergency alert notification system.
- The latest findings from San Bernardino and the Paris attacks could impact future security procedures in West Michigan.
- More than 500 gallons of used motor oil spilled into a county drain in Shiawassee County, according to the U.S. Environmental Protection Agency's on-scene coordinator Tricia Edwards.
- The board of directors for the Kalamazoo County Consolidated Dispatch Authority announced Friday that Jeff Troyer has been hired as the body's executive director, according to a news release issued by County Sheriff Richard Fuller
- A fourth Michigan deer has tested positive for chronic wasting disease, a deadly neurological disease found in the state's free-ranging deer population for the first time this year.
- National Weather Service forecast updates.
- TV clips. Shiawassee oil spill.

Analysis:

- Media coverage is neutral.
- Gov. Rick Snyder wrote an editorial in the Detroit Free Press on how he does not agree with Donald Trump's viewpoints on Syrian refugees.
- Federal officials say the Shiawassee county oil spill was caused accidentally from electrical repairs Costs could be as much as $250,000 to clean up.

EPA says it won't take quick action on petition targeting Flint water safety

MLive, *December 11, 2015*

FLINT, MI – The U.S. Environmental Protection Agency won't act immediately on a petition that seeks to involve it more deeply in Flint's water crisis.

EPA Regional Administrator Susan Hedman told the Natural Resources Defense Council in a Dec. 10 letter that regulators will wait to act on the request "until such time as the agency determines that corrosion control treatment is fully optimized for the Flint system."

In flint and beyond, lead remains irreversible scourge among Michigan's children

MLive, December 13, 2015

Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.

Although much of the state's focus has been on lead-poisoned water in Flint, the metal continues to turn up annually in the bodies of thousands of children across the state, at percentages well above the numbers that raised red flags in Flint.

SYRIAN REFUGEES

Michigan Gov. Rick Snyder: Donald Trump does not speak for me

Detroit Free Press, December 13, 2015

Just as terrorists who betray cherished values in the name of Islam do not speak for the 1.6 billion Muslims in the world, Donald Trump does not speak for me, the state of Michigan, nor the entire Republican Party.

To say that Michigan is on the same path that Trump proposes is a great injustice to those who are working hard to make our state welcoming and successful. But the Free Press Editorial Board has tied my request for a review of immigration and visa processes to Trump's recent inappropriate comments.

In November, I called for a pause on our refugee attraction program and asked the federal government to review how it screens refugees. I want assurances that my first priority — keeping Michigan citizens safe — is possible under current federal guidelines. If not, then it's incumbent upon us to improve the process. If it is, then let's welcome the many hardworking people who dream of becoming U.S. citizens.

Michigan's Snyder fights PR battle on refugees

Dearborn Patch, December 13, 2015

DETROIT, MI - Michigan Gov. Rick Snyder further distanced himself from Republican presidential frontrunner Donald Trump in a guest editorial published in Sunday's Detroit Free Press that answered an earlier editorial linking the governor's request for a review of immigration policies to Trump's controversial statements on Muslim refugees.

Last week, Trump called for a "total and complete shutdown of Muslims entering the United States until our country's representatives can figure out what is going on." His remarks were widely condemned, including by Snyder, who told WWJ last week that Trump's proposal is "absolutely inappropriate" and wrote in his editorial Sunday that the candidate's "statements are inconsistent with our spirit of inclusion."

City of Lansing seeks to be welcoming place for refugees

9 & 10 News, December 14, 2015

LANSING, Mich. (AP) - City officials in Lansing say they want to make the city a more welcoming place for refugees and immigrants of all faiths.

Lansing officials including Mayor Virg Bernero say Michigan's capital city is joining several other communities in the state as participants in the Welcoming Michigan coalition.

The coalition says on its website it was created in response in part to "disturbing comments made at the national level" about Arabs, refugees and those of the Muslim faith.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Genesee County's Boyer to replace Garner

Midland Daily News, December 13, 2015

When Roger Garner retires as Midland County emergency manager, Midland County will sorely miss his wealth of knowledge and experience. Fortunately for the county, Garner has passed on some of that information, and will continue to do so, to his successor, Genesee County Emergency Management Manager Jenifier Boyer.

"Roger is a great asset to have," said Boyer. "He has mentored me. I've worked with Roger on different projects over the last seven years."

Boyer begins her new position in Midland County on Dec. 17. Garner will continue her orientation to the job until he retires at the end of the year on Dec. 31.

Here's what happened to the third San Bernardino shooting suspect

Emergency Management, December 11, 2015

(TNS) - In the confusing hours between the shooting began at a Christmas party at the Inland Regional Center and perpetrators Syed Farook and Tashfeen Malik being killed less than a mile away, the public and media watched and listened along, on radio, television and the Internet.

And in those intervening hours, there were rumors and false leads and, briefly, the report of a third person being picked up by the police. As early as half an hour after the first shots were fired at the IRC, police were telling journalists there were one to three shooters involved. After Farook and Malik were shot, police said a third suspect was on the run.

But by the news conference that night, police said only two shooters had been involved in the terrorist attack in San Bernardino, and both were dead.

Shiawassee County oil spill was accidental, feds say

MLive, December 11, 2015

OWOSSO TWP, MI – Federal officials say they believe electrical repairs accidentally caused a Shiawassee County oil spill that could cost as much as $250,000 to clean up.

U.S. Environmental Protection Agency on-scene coordinator Tricia A. Edwards said Friday, Dec. 11, that they believe they located the cause and source of the spill that was discovered Thanksgiving Day in the county's Miner Drain, just west of the Shiawassee River.

Thousands of Detroit residents sign up for free emergency alerts

Michigan Chronicle, December 14, 2015

In the last two weeks, more than 7,000 additional Detroit residents have signed up to receive free emergency alerts from the City of Detroit through the Nixle emergency alert notification system. After reminding residents they can sign up to receive the free alerts, the number of registered residents has increased to 17,238. City of Detroit residents can receive alerts regarding various emergency situations within the city.

To sign up for this free service, residents should simply TEXT the word "DETROIT" in the message box to the number 888777. Interested residents can also visit the Detroit Homeland Security & Emergency Management website at www.detroitmi.gov/dhsem and click on Nixle Emergency Alerts, or visit the DHSEM Facebook page at https://facebook.com/detroithsem/.

Ottawa County reviews terrorism response plan

WZZM 13, December 11, 2015

WEST OLIVE, Mich. (WZZM) -- The latest findings from San Bernardino and the Paris attacks could impact future security procedures in West Michigan

This week, Ottawa County leaders discussed an updated emergency response plan which includes the threat of terrorism.

WZZM 13 is looking at how local law enforcement learns from incidents near and far.

Cleanup costs for Shiawassee County oil spill could reach $300,000

Michigan Radio, December 10, 2015

More than 500 gallons of used motor oil spilled into a county drain in Shiawassee County, according to the U S. Environmental Protection Agency's on-scene coordinator Tricia Edwards.

The EPA is heading the cleanup process.

A hunter discovered the spill on November 26.

Kalamazoo County dispatch authority hires first executive director

MLive, December 11, 2015

KALAMAZOO, MI – For the last six years, Jeff Troyer has managed the consolidated dispatcher center in Calhoun County.

Now, he'll do the same for Kalamazoo County.

The board of directors for the Kalamazoo County Consolidated Dispatch Authority announced Friday that Troyer has been hired as the body's executive director, according to a news release issued by County Sheriff Richard Fuller

Troyer comes to Kalamazoo after spending the last six years in Calhoun, where he helped complete the consolidation of three dispatch centers in Marshall, Battle Creek and Albion, and then managed the county's consolidated dispatch center.

MICHIGAN ENVIRONMENTAL

Chronic wasting disease found in fourth Michigan deer

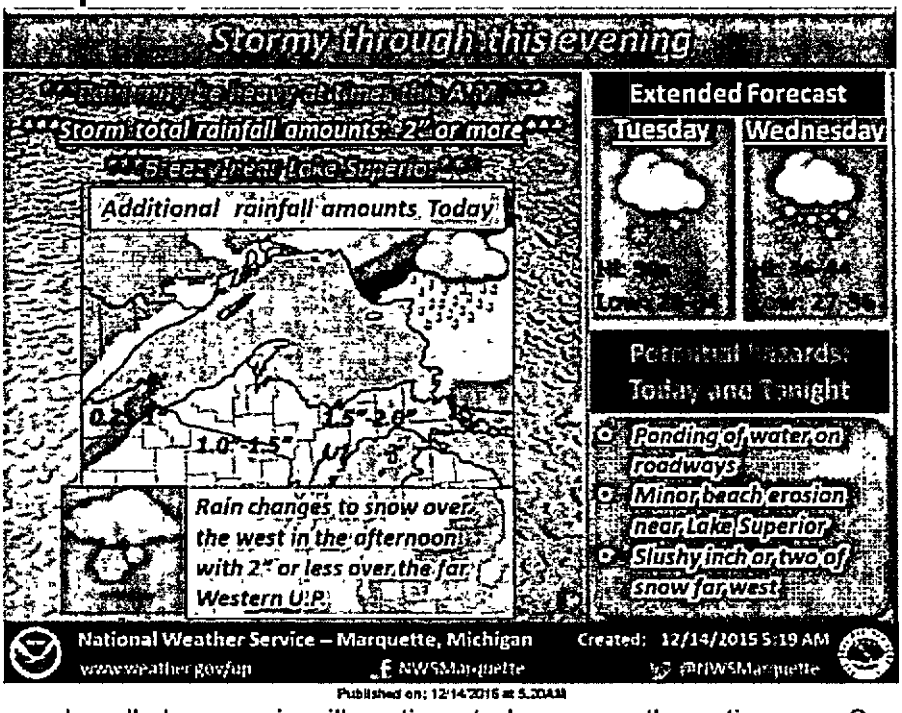
MLive, December 11, 2015

CLINTON COUNTY, MI – A fourth Michigan deer has tested positive for chronic wasting disease, a deadly neurological disease found in the state's free-ranging deer population for the first time this year.

A hunter brought the 1-year-old buck to a Michigan Department of Natural Resources check station during firearm season in Clinton County's Dewitt Township. The U.S. Department of Agriculture's National Veterinary Services Laboratory in Iowa confirmed the deer is positive for chronic wasting disease, the DNR said Friday, Dec. 11.

NATIONAL WEATHER SERVICE FORECASTS

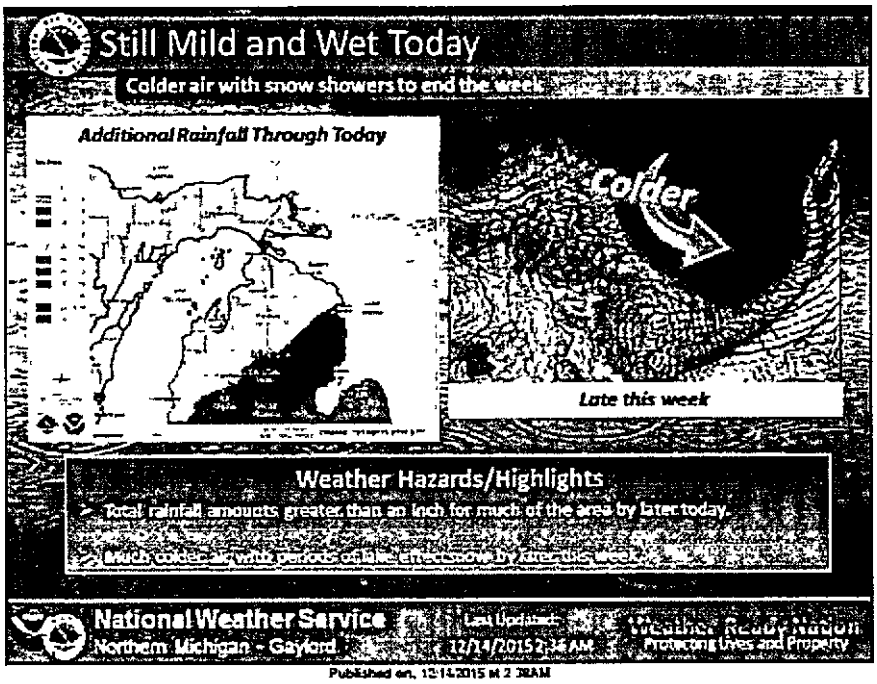
Marquette



Published on: 12/14/2015 at 5:20AM

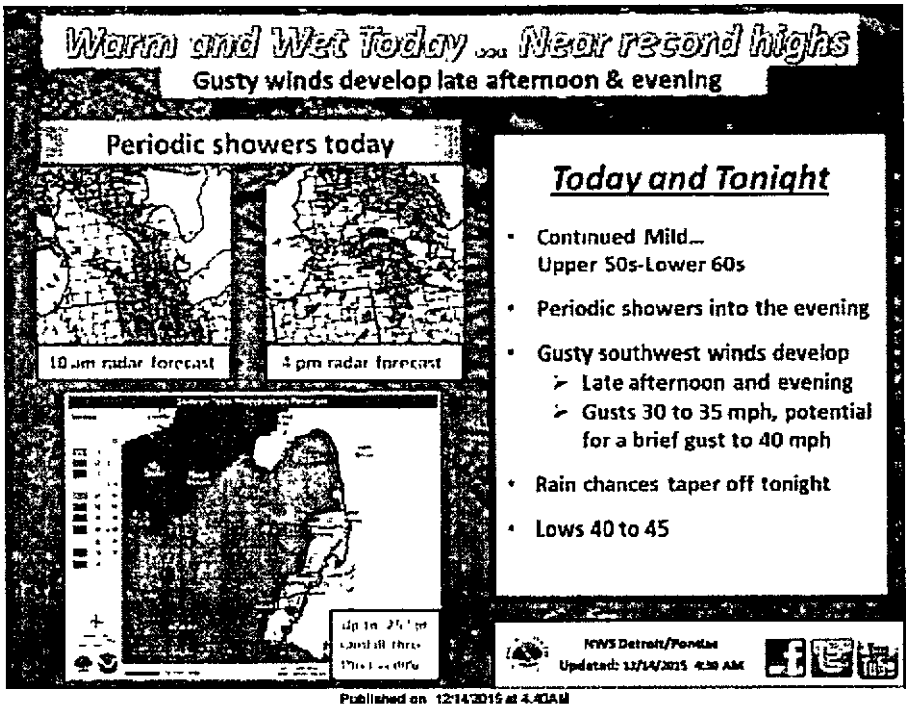
Locally heavy rain will continue today across the entire area. Some places will see up to 2 inches of rain before ending this evening, which may cause some ponding of water on area roadways. In addition, the rain will change to snow across the far west later this afternoon, with 1 or 2 inches of slushy snow possible. Strong northeast winds later today into tonight may also cause some minor beach erosion along Lake Superior. Cooler with light snow showers Tuesday before another storm system brings a wintry mix on Wednesday.

Gaylord



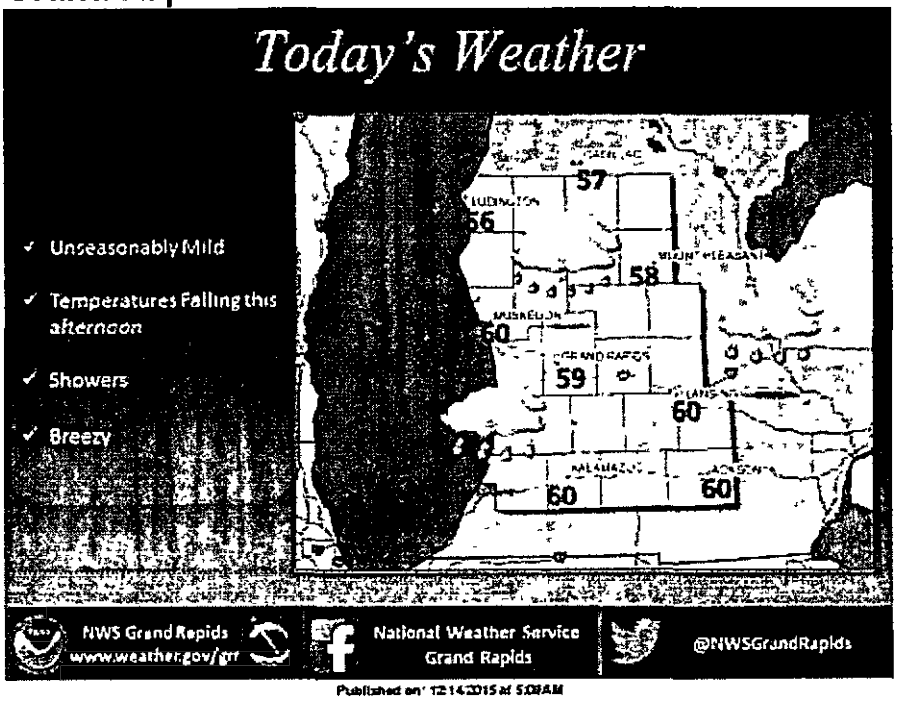
Widespread rain and very mild temperatures will continue today, with several record highs expected to be set. While not quite as warm, still mild for Tuesday and Wednesday, with some additional light rain showers on Wednesday. Substantial cooling for the end of the week, with temperatures likely to return to normal levels by Friday and Saturday. These cold temperatures will likely result in periods of lake effect snow, with some accumulation looking possible in the traditional areas.

Detroit



Warm and wet conditions today. Highs will again be near record levels, with readings hovering in the upper 50s and lower 60s. Area of showers on track to lift across the region during the late morning hours. Additional showers are expected to develop during the afternoon and early evening. Southwest winds will turn gusty during this time, potential for gusts in excess of 30 mph.

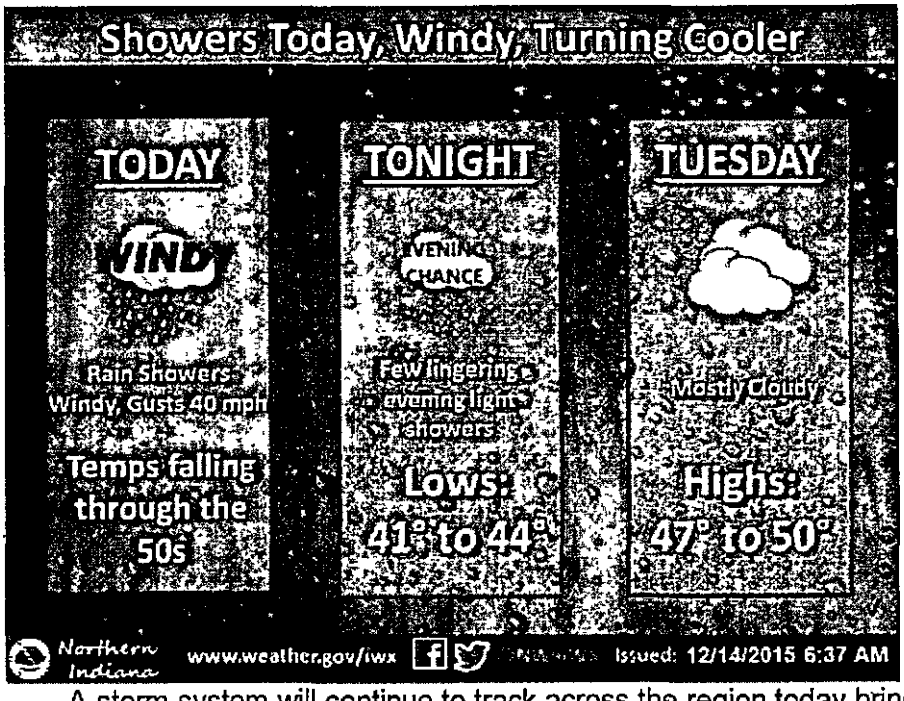
Grand Rapids



Published on: 12/14/2015 at 5:08AM

Showers will track in from the southwest through today as a cold front pushes in. Gusty winds can be expected Locally a few gusts over 40 mph may occur, which could lead to scattered power outages, mainly south of a Muskegon to Lansing line.

Northern Indiana



A storm system will continue to track across the region today bringing periods of showers along with windy and cooler conditions. Wind gusts up to 40 mph are expected today, and wind speeds should diminish early this evening. Clouds will linger into Tuesday with high temperatures in the upper 40s to around 50.

City of Flint spokesman Jason Lorenz no longer on the job

MLive, December 10, 2015

FLINT, MI – The chief spokesman for the city of Flint is no longer on the job.

City Administrator Natasha Henderson said Thursday, Dec. 10, that Public Information Officer Jason Lorenz and the city parted ways this week.

Henderson declined to comment on the separation, including whether Lorenz resigned, after a news conference Thursday.

New mayor, new plan to tackle Flint's water emergency

ABC 12, December 10, 2015

FLINT (WJRT) - (12/10/15) - A new mayor in town, a new plan to tackle Flint's water emergency.

Mayor Karen Weaver rolled out a new corrosion control strategy on Thursday.

Part of the plan calls for the addition of phosphate to the system. It's a type of salt that's supposed to build up in the pipes and keep lead from seeping into the water.

Former Flint mayor wants feds to probe lead in water

Detroit Free Press, December 11, 2015

LANSING — Former Flint Mayor James Sharp Jr., who had his own experience with contaminated water while stationed as a U.S. Marine at Camp Lejeune in North Carolina, is calling for federal investigations into the Flint water controversy and a more comprehensive outreach effort to contact and test those who may have drank water containing unsafe levels of lead.

A spokeswoman for the Michigan Department of Health and Human Services, Angela Minicuci, said the state is already cooperating with a U.S. Environmental Protection Agency investigation but would assist with any other federal investigations, should they be opened. State officials believe they are following up appropriately with those potentially exposed to water with high lead levels, Minicuci said Thursday

Flint will pay for independent water tests, added phosphate treatment

MLive, December 10, 2015

FLINT, MI -- The city has hired a contractor to do what it did not on its own -- search out and test water in homes that are most likely to have the highest lead levels.

Mayor Karen Weaver and City Administrator Natasha Henderson announced the city will spend up to $75,000 to locate and test for lead in water in at least 150 homes and businesses served by lead service lines, which are most prone to leech lead into drinking water.

More lead in plumbing found at Flint's Brownell School, state report says

MLive, December 10, 2015

FLINT, MI -- State testing at another Flint school has identified old faucets and plumbing as potential sources of lead leaching into water

The Michigan Department of Environmental Quality report says an assessment of the plumbing system at Brownell STEM Academy found lead solder joints on copper piping, brass valves and fittings, brass components in fixtures and galvanized piping -- all potential sources of lead.

Far from Flint, lead remains an irreversible scourge

Bridge MI, December 10, 2015

Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.

While much of the state's focus on lead has rightly been on lead-poisoned water in Flint, the metal continues to turn up annually in the bodies of thousands of children across the state, at percentages well above the numbers that raised red flags in Flint.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Police, fire departments participate in active shooter training

C & G News, December 10, 2015

Fire trucks and police cars filled the parking lot of the former Church of St. Gertrude on Jefferson Avenue Dec. 10, with officers storming the building in full gear and face masks.

While there wasn't an actual active shooter in the building, the St. Clair Shores Police and Fire departments were training for just that eventuality.

F.B.I. Chief says Texas gunman used encryption to text overseas terrorist

New York Times, December 9, 2015

WASHINGTON — The F.B.I. director, James B. Comey, said Wednesday that investigators could not read more than 100 text messages exchanged by one of the attackers in a shooting this year in Garland, Tex., because they were encrypted, adding fuel to law enforcement agencies' contention that they need a way to circumvent commercially available encryption technology.

Mr. Comey, who two months ago appeared to have lost a battle inside the Obama administration over forcing companies like Apple and Google to give investigators a way to decode messages, told the Senate Judiciary Committee that one of the attackers "exchanged 109 messages with an overseas terrorist" the morning of the shooting.

St. Louis begins police body cam pilot more than a year after Michael Brown shooting

Emergency Management, December 11, 2015

(TNS) -- A select group of police sergeants will be the first St. Louis police officers to be equipped with body cameras, starting next week.

For now it's just a 90-day pilot program, but St. Louis police Chief Sam Dotson is hoping the move will serve as the beginning of a shift for his department — where the police union has traditionally opposed the use of in-car cameras, let alone attaching devices to officers.

The union contract shields officers from having to wear body cameras until the issue goes through a formal bargaining process. But Dotson said he doesn't want to wait until that lengthy process concludes to begin trying out the devices.

Saginaw Police returns armored military vehicle after Obama order

MLive, December 10, 2015

SAGINAW, MI — Saginaw is no longer home to a tracked armored vehicle that the department received nearly a decade ago from the military.

Military representatives picked up the Armored Personnel Carrier (APC) from the Saginaw Police Department Monday, Dec. 7, Chief of Police Robert Ruth said.

SYRIAN REFUGEES

Governor Snyder calls Trump's anti-muslim comments "inappropriate"

Fox 47 News, December 10, 2015

Governor Rick Snyder doesn't see any similarity between his call to temporarily stop Syrian refugees from coming to Michigan and Donald Trump's "No Muslims Allowed" immigration plan.

On Wednesday, the Governor said Trump's comments are inappropriate.

When reporters asked if his policy is basically the same thing, Governor Snyder said, "That's not what I said. I said we should pause in terms of reviewing our process. I've always been welcoming to immigrants. I'm proud of Michigan's record, I'm proud of the fact we have the largest Middle-Eastern community in the United States in our state and I just want to make sure we're balancing national security interests with that in the appropriate fashion."

Here's how you can help Syrian refugees in Michigan

Michigan Radio, December 10, 2015

When refugees arrive at the Detroit airport, they're often exhausted, physically and emotionally, by the weight of their journey. They may have literally have just the clothes on their backs.

And sometimes, they're greeted by a volunteer welcoming committee of cheerful, homemade sign-wielding Michiganders.

"It's like, here's a bunch of six-foot blonde white people, 'Congratulations, this is your new normal,'" laughs Troy Howley, the refugee and volunteer outreach coordinator at Lutheran Social Services of Michigan.

MICHIGAN ENVIRONMENTAL

Dow and DuPont to merge; Dow to become 100 percent owner of Dow Corning

MLive, December 11, 2015

MIDLAND, MI — Say hello to DowDuPont.

The Dow Chemical Co. and DuPont on Friday, Dec. 11, announced that their boards of directors unanimously approved a definitive agreement under which the companies will combine in an all-stock merger of equals.

In addition, Dow is to become the 100 percent owner of Bay County-based Dow Corning Corp., currently a joint venture of Dow and Corning Inc

MICHIGAN POLITICS

House oversight sends FOIA exemption bill to natural resources

Gongwer, December 10, 2015

A bill that would exempt certain government documents related to pipelines from the Freedom of Information Act was amended by the House Oversight and Ethics Committee and then referred to the House Natural Resources Committee on Thursday

The committee spent nearly the entire 90 minutes of the meeting taking testimony and adopting substitutes and amendments on HB 4540 only to re-refer it The bill would exempt the following from FOIA:

Information presumed to be critical energy infrastructure information;

Cybersecurity plans, assessments and threats, and

Information that would identify, or provide a means of identifying, a person that could become the vim of a cybersecurity incident, or that would disclose a person's cybersecurity plans.

The committee heard opposition from the Michigan Environmental Council, the Food and Water Watch and the Michigan League of Conservation Voters.

After the meeting, Jack Schmitt, deputy director for Michigan LCV, criticized the committee for moving the bill to Natural Resources.

"If it wasn't seriously concerning, it'd be comedic that the chair of the House Oversight and Ethics (his emphasis) Committee used a backdoor measure to sustain a bill restricting transparency when the votes weren't there to support it," he said in a statement. "Clearly, our oil pipelines aren't the only place we need stronger oversight and transparency "

Committee Chair Rep. Ed McBroom (R-Vulcan) said there were both environmental and governmental oversight concerns regarding the bill. He said the committee finished its work regarding the oversight, and Natural Resources could work to address additional concerns.

Mr. McBroom said after the hearing he was prepared for either reporting the bill or referring it to the other committee.

"I felt like we had done as much as possible, (but) the bills still aren't ready for prime time," he said. "I think you've got two primary concerns that swirl around this bill. One is from environmental groups and one is from open government groups. There was always some discussion on which of the two committees the bill should have been in in the first place. ... I think we have done a lot of work in regards to the oversight issues, and it's appropriate now for Natural Resources to take a whack at it."

Under the bill, a public body would have to exempt information presumed to be critical energy infrastructure information. When a FOIA is submitted, the company would have to label it as such and it would be presumed critical information until determined otherwise by the Michigan Agency for Energy.

Under an amendment to the bill, if a person was denied a FOIA request because the information was presumed to be critical, they would appeal at the circuit court level.

James Clift with the Environmental Council said the bill's definition of critical energy information is too broad. And he said under federal law, the person who is asking for the information on a pipeline is taken into account - for example if you are a person with a pipeline near your property or a public safety group.

"There is no balance here at all," he said.

Rep. Kurt Heise (R-Plymouth Township), sponsor of the bill, said the information that would be restricted is to protect information that, if in the wrong hands, would impact public safety.

"We have had representatives from the State Police and the Michigan National Guard who have said that this is a very useful tool in our effort to protect Michigan residents and our energy infrastructure from people who might seek to do us harm," Mr. Heise said.

NUCLEAR

Ohio nuclear plant's license extended for 20 more years

Fox 19 Now, December 8, 2015

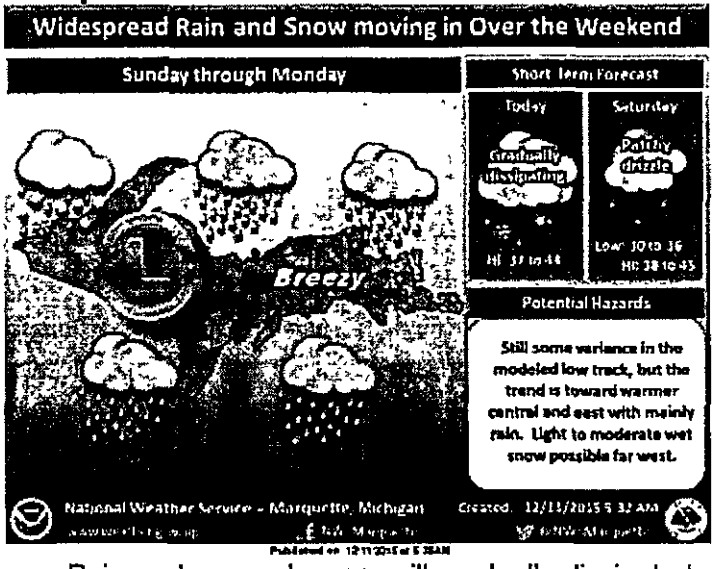
TOLEDO, Ohio (AP) - Federal regulators have extended an Ohio nuclear plant's license for another 20 years

The decision announced Tuesday will allow the Davis-Besse plant near Toledo to stay in operation until 2037.

The Nuclear Regulatory Commission has spent the last couple of years reviewing the plant's safety and operations records and its environmental impact.

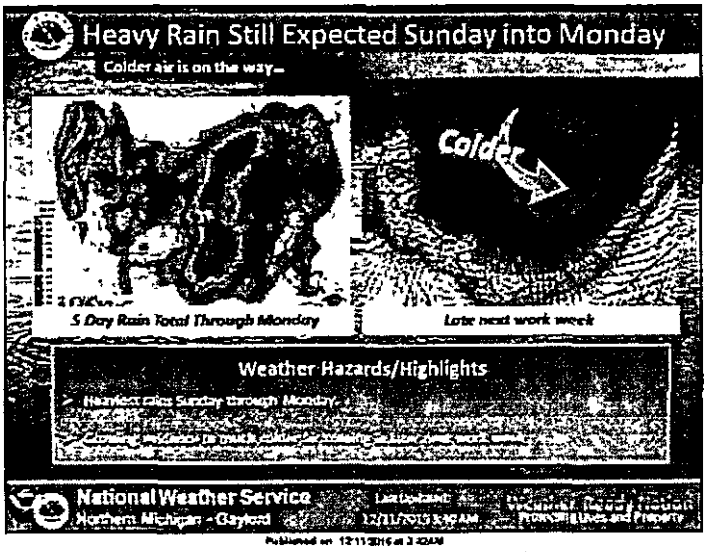
NATIONAL WEATHER SERVICE FORECASTS

Marquette



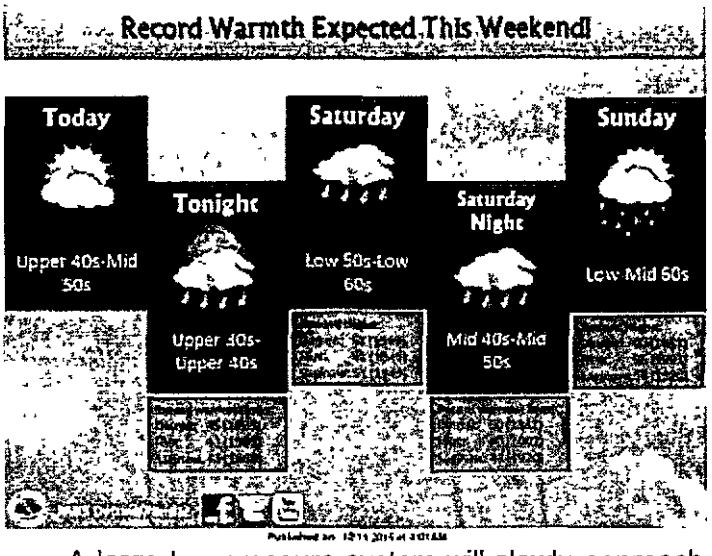
Rain and snow showers will gradually dissipate today with high temperatures in the mid 30s to mid 40s. Expect widespread rain will move in Sunday into Monday, turning to snow over western Upper Michigan on Tuesday. Snow amounts on Monday are still uncertain, but light to possibly moderate amounts can be expected over far western Upper Michigan.

Gaylord



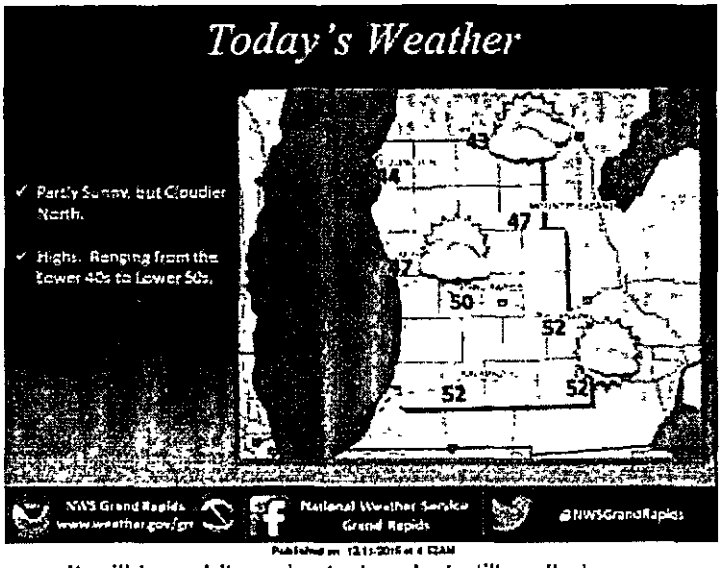
Heavy rains over the next 5 days, heaviest Sunday into Monday Colder air is on the way for late next work week.

Detroit



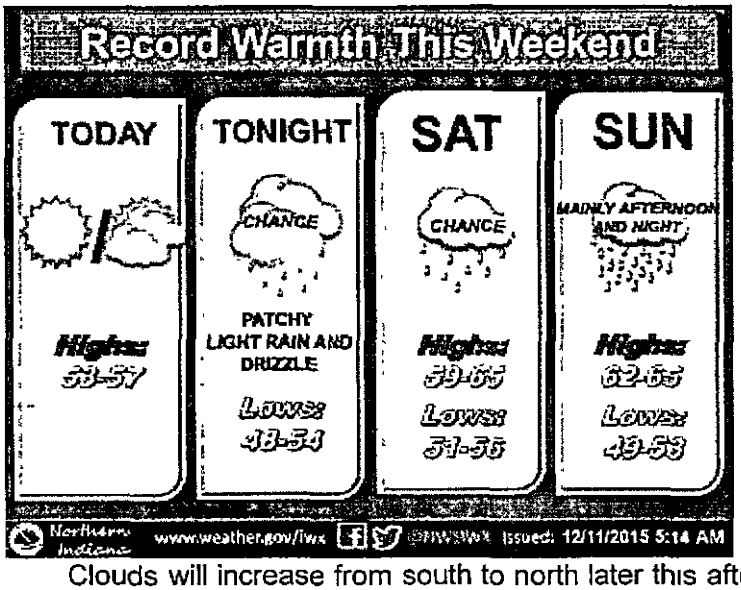
A large low pressure system will slowly approach the area this weekend. As the low approaches, it will draw progressively warmer air and more moisture up into Michigan from the deep South. Temperatures will approach or exceed records tonight through Sunday Night. Some of the records in jeopardy for Detroit date back to 1881! Showers and drizzle will also be possible tonight through Sunday, before more widespread rainfall moves in Sunday Night and early Monday.

Grand Rapids



It will be a bit cooler today, but still well above normal.

Northern Indiana



Clouds will increase from south to north later this afternoon into tonight as a warm frontal boundary lifts northward. In addition to increasing clouds, patchy light rain and drizzle is expected to develop tonight, and continue into Saturday. A storm system will take shape across the Rockies on Saturday and will lift northeast into the region for Sunday night and Monday. Unseasonably mild conditions are expected ahead of this storm system Saturday and Sunday. Widespread rain will work from west to east across the area Sunday afternoon through early Monday morning.

MEDIA MONITORING REPORT

12/11/2015

Issues:

- No issue to report.

Summary:

- Flint City Administrator Natasha Henderson said Thursday, Dec. 10, that Public Information Officer Jason Lorenz and the city parted ways this week.
- Mayor Karen Weaver rolled out a new corrosion control strategy on Thursday.
- Former Flint Mayor James Sharp Jr. is calling for federal investigations into the Flint water controversy and a more comprehensive outreach effort to contact and test those who may have drank water containing unsafe levels of lead.
- Mayor Karen Weaver and City Administrator Natasha Henderson announced the city will spend up to $75,000 to locate and test for lead in water in at least 150 homes and businesses served by lead service lines, which are most prone to leech lead into drinking water.
- State testing at another Flint school has identified old faucets and plumbing as potential sources of lead leaching into water.
- Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.
- Bridgemi.com posted an article on how lead continues to turn up annually, not only in Flint, but thousands of children across the state.
- The St. Clair Shores Police and Fire departments conducted training on Dec. 10 for an active shooter situation.
- The F.B.I. director, James B. Comey, said Wednesday that investigators could not read more than 100 text messages exchanged by one of the attackers in a shooting this year in Garland, Tex., because they were encrypted, adding fuel to law enforcement agencies' contention that they need a way to circumvent commercially available encryption technology.
- Emergency Management Magazine reports that more than a year after Michael Brown shooting, a select group of police sergeants will be the first St. Louis police officers to be equipped with body cameras, starting next week.
- Saginaw is no longer home to a tracked armored vehicle that the department received nearly a decade ago from the military.
- Governor Rick Snyder doesn't see any similarity between his call to temporarily stop Syrian refugees from coming to Michigan and Donald Trump's "No Muslims Allowed" immigration plan.
- Michigan Radio posted an article on how citizens can help refugees arriving in Michigan.
- The Dow Chemical Co. and DuPont on Friday, Dec. 11, announced that their boards of directors unanimously approved a definitive agreement under which the companies will combine in an all-stock merger of equals.
- A bill that would exempt certain government documents related to pipelines from the Freedom of Information Act was amended by the House Oversight and Ethics Committee and then referred to the House Natural Resources Committee on Thursday.
- Federal regulators have extended an Ohio nuclear plant's license for another 20 years.
- National Weather Service forecast updates.

- TV clips: Flint corrosion control.

Analysis:

- Media coverage is neutral.
- Flint Mayor Karen Weaver has announced the city will be spending up to $75,000 on testing for lead in water of at least 150 homes and businesses served by lead lines.
- State testing at Flint's Brownell STEM Academy identified old faucets and plumbing as source of lead in water.
- Will continue to monitor the situation.

FLINT

City of Flint spokesman Jason Lorenz no longer on the job

MLive, December 10, 2015

FLINT, MI -- The chief spokesman for the city of Flint is no longer on the job.

City Administrator Natasha Henderson said Thursday, Dec. 10, that Public Information Officer Jason Lorenz and the city parted ways this week.

Henderson declined to comment on the separation, including whether Lorenz resigned, after a news conference Thursday.

New mayor, new plan to tackle Flint's water emergency

ABC 12, December 10, 2015

FLINT (WJRT) - (12/10/15) - A new mayor in town, a new plan to tackle Flint's water emergency.

Mayor Karen Weaver rolled out a new corrosion control strategy on Thursday.

Part of the plan calls for the addition of phosphate to the system. It's a type of salt that's supposed to build up in the pipes and keep lead from seeping into the water.

Former Flint mayor wants feds to probe lead in water

Detroit Free Press, December 11, 2015

LANSING — Former Flint Mayor James Sharp Jr., who had his own experience with contaminated water while stationed as a U.S. Marine at Camp Lejeune in North Carolina, is calling for federal investigations into the Flint water controversy and a more comprehensive outreach effort to contact and test those who may have drank water containing unsafe levels of lead.

A spokeswoman for the Michigan Department of Health and Human Services, Angela Minicuci, said the state is already cooperating with a U.S. Environmental Protection Agency investigation but would assist with any other federal investigations, should they be opened. State officials believe they are following up appropriately with those potentially exposed to water with high lead levels, Minicuci said Thursday.

Flint will pay for independent water tests, added phosphate treatment

MLive, December 10, 2015

FLINT, MI -- The city has hired a contractor to do what it did not on its own -- search out and test water in homes that are most likely to have the highest lead levels.

Mayor Karen Weaver and City Administrator Natasha Henderson announced the city will spend up to $75,000 to locate and test for lead in water in at least 150 homes and businesses served by lead service lines, which are most prone to leech lead into drinking water.

More lead in plumbing found at Flint's Brownell School, state report says

MLive, December 10, 2015

FLINT, MI -- State testing at another Flint school has identified old faucets and plumbing as potential sources of lead leaching into water.

The Michigan Department of Environmental Quality report says an assessment of the plumbing system at Brownell STEM Academy found lead solder joints on copper piping, brass valves and fittings, brass components in fixtures and galvanized piping -- all potential sources of lead.

Far from Flint, lead remains an irreversible scourge

Bridge MI, December 10, 2015

Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground.

While much of the state's focus on lead has rightly been on lead-poisoned water in Flint, the metal continues to turn up annually in the bodies of thousands of children across the state, at percentages well above the numbers that raised red flags in Flint.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Police, fire departments participate in active shooter training

C & G News, December 10, 2015

Fire trucks and police cars filled the parking lot of the former Church of St. Gertrude on Jefferson Avenue Dec. 10, with officers storming the building in full gear and face masks.

While there wasn't an actual active shooter in the building, the St. Clair Shores Police and Fire departments were training for just that eventuality.

F.B.I. Chief says Texas gunman used encryption to text overseas terrorist

New York Times, December 9, 2015

WASHINGTON — The F.B.I. director, James B. Comey, said Wednesday that investigators could not read more than 100 text messages exchanged by one of the attackers in a shooting this year in Garland, Tex., because they were encrypted, adding fuel to law enforcement agencies' contention that they need a way to circumvent commercially available encryption technology.

Mr. Comey, who two months ago appeared to have lost a battle inside the Obama administration over forcing companies like Apple and Google to give investigators a way to decode messages, told the Senate Judiciary Committee that one of the attackers "exchanged 109 messages with an overseas terrorist" the morning of the shooting.

St. Louis begins police body cam pilot more than a year after Michael Brown shooting

Emergency Management, December 11, 2015

(TNS) -- A select group of police sergeants will be the first St. Louis police officers to be equipped with body cameras, starting next week.

For now it's just a 90-day pilot program, but St. Louis police Chief Sam Dotson is hoping the move will serve as the beginning of a shift for his department — where the police union has traditionally opposed the use of in-car cameras, let alone attaching devices to officers.

The union contract shields officers from having to wear body cameras until the issue goes through a formal bargaining process. But Dotson said he doesn't want to wait until that lengthy process concludes to begin trying out the devices.

Saginaw Police returns armored military vehicle after Obama order

MLive, December 10, 2015

SAGINAW, MI — Saginaw is no longer home to a tracked armored vehicle that the department received nearly a decade ago from the military.

Military representatives picked up the Armored Personnel Carrier (APC) from the Saginaw Police Department Monday, Dec. 7, Chief of Police Robert Ruth said.

SYRIAN REFUGEES

Governor Snyder calls Trump's anti-muslim comments "inappropriate"

Fox 47 News, December 10, 2015

Governor Rick Snyder doesn't see any similarity between his call to temporarily stop Syrian refugees from coming to Michigan and Donald Trump's "No Muslims Allowed" immigration plan.

On Wednesday, the Governor said Trump's comments are inappropriate.

When reporters asked if his policy is basically the same thing, Governor Snyder said, "That's not what I said. I said we should pause in terms of reviewing our process. I've always been welcoming to immigrants. I'm proud of Michigan's record, I'm proud of the fact we have the largest Middle-Eastern community in the United States in our state and I just want to make sure we're balancing national security interests with that in the appropriate fashion."

Here's how you can help Syrian refugees in Michigan

Michigan Radio, December 10, 2015

When refugees arrive at the Detroit airport, they're often exhausted, physically and emotionally, by the weight of their journey. They may have literally have just the clothes on their backs.

And sometimes, they're greeted by a volunteer welcoming committee of cheerful, homemade sign-wielding Michiganders.

"It's like, here's a bunch of six-foot blonde white people, 'Congratulations, this is your new normal,'" laughs Troy Howley, the refugee and volunteer outreach coordinator at Lutheran Social Services of Michigan.

MICHIGAN ENVIRONMENTAL

Dow and DuPont to merge; Dow to become 100 percent owner of Dow Corning

MLive, December 11, 2015

MIDLAND, MI — Say hello to DowDuPont.

The Dow Chemical Co. and DuPont on Friday, Dec. 11, announced that their boards of directors unanimously approved a definitive agreement under which the companies will combine in an all-stock merger of equals.

In addition, Dow is to become the 100 percent owner of Bay County-based Dow Corning Corp., currently a joint venture of Dow and Corning Inc.

MICHIGAN POLITICS

House oversight sends FOIA exemption bill to natural resources

Gonwer, December 10, 2015

A bill that would exempt certain government documents related to pipelines from the Freedom of Information Act was amended by the House Oversight and Ethics Committee and then referred to the House Natural Resources Committee on Thursday.

The committee spent nearly the entire 90 minutes of the meeting taking testimony and adopting substitutes and amendments on HB 4540 only to re-refer it. The bill would exempt the following from FOIA:

Information presumed to be critical energy infrastructure information;

Cybersecurity plans, assessments and threats; and

Information that would identify, or provide a means of identifying, a person that could become the vim of a cybersecurity incident, or that would disclose a person's cybersecurity plans.

The committee heard opposition from the Michigan Environmental Council, the Food and Water Watch and the Michigan League of Conservation Voters.

After the meeting, Jack Schmitt, deputy director for Michigan LCV, criticized the committee for moving the bill to Natural Resources.

"If it wasn't seriously concerning, it'd be comedic that the chair of the House Oversight and Ethics (his emphasis) Committee used a backdoor measure to sustain a bill restricting transparency when the votes weren't there to support it," he said in a statement. "Clearly, our oil pipelines aren't the only place we need stronger oversight and transparency."

Committee Chair Rep. Ed McBroom (R-Vulcan) said there were both environmental and governmental oversight concerns regarding the bill. He said the committee finished its work regarding the oversight, and Natural Resources could work to address additional concerns.

Mr. McBroom said after the hearing he was prepared for either reporting the bill or referring it to the other committee.

"I felt like we had done as much as possible, (but) the bills still aren't ready for prime time," he said. "I think you've got two primary concerns that swirl around this bill. One is from environmental groups and one is from open government groups. There was always some discussion on which of the two committees the bill should have been in in the first place. ... I think we have done a lot of work in regards to the oversight issues, and it's appropriate now for Natural Resources to take a whack at it."

Under the bill, a public body would have to exempt information presumed to be critical energy infrastructure information. When a FOIA is submitted, the company would have to label it as such and it would be presumed critical information until determined otherwise by the Michigan Agency for Energy.

Under an amendment to the bill, if a person was denied a FOIA request because the information was presumed to be critical, they would appeal at the circuit court level.

James Clift with the Environmental Council said the bill's definition of critical energy information is too broad. And he said under federal law, the person who is asking for the information on a pipeline is taken into account - for example if you are a person with a pipeline near your property or a public safety group.

"There is no balance here at all," he said.

Rep. Kurt Heise (R-Plymouth Township), sponsor of the bill, said the information that would be restricted is to protect information that, if in the wrong hands, would impact public safety.

"We have had representatives from the State Police and the Michigan National Guard who have said that this is a very useful tool in our effort to protect Michigan residents and our energy infrastructure from people who might seek to do us harm," Mr. Heise said.

MEDIA MONITORING REPORT

12/9/2015

Issues:

- No issues to report.

Summary:

- Water and crime topped the list of issues at Mayor Karen Weaver's first town hall, a meeting that brought out about 200 residents in the city's 1st Ward today, Dec. 8.
- An attorney for the city of Flint raided his daughter's piggy bank in an attempt to prove the city did not violate a judge's order to reduce water and sewer rates.
- Upper Michigan Source remembers Sault Ste. Marie's Big Snow of December 1995 on 20 year anniversary.
- Consumers Energy is offering 10 electric safety tips to help Michigan residents enjoy the holiday season.
- New York Times posted an article on American's being connected to ISIS through social media.
- A prominent human rights group has found that ISIS has built a substantial arsenal, including U.S.-made weapons obtained from the Iraqi army and Syrian opposition groups, according to CNN.
- Investigators believe San Bernardino shooter Syed Rizwan Farook may have been plotting an earlier attack in California with someone else, two U.S. officials told CNN on Tuesday.
- French police have identified the third attacker at the Bataclan during the Paris attacks, Prime Minister Manuel Valls says.
- Donald Trump's anti-Muslim rhetoric undermines US national security by boosting the Islamic State (IS) group, the Pentagon has warned.
- The U.S. Department of Justice will open a wide-ranging civil rights investigation into the Chicago Police Department after the release of a video showing a patrolman's fatal shooting of Laquan McDonald and police reports from the officers on the scene that conflict with that video.
- Six Republican members of Michigan's congressional delegation wrote President Barack Obama on Monday asking him to reconsider a decision made earlier this year to have law enforcement agencies return surplus military equipment out of concern it could undermine confidence in police.
- The Michigan House committee has adopted a bill to eliminate the straight ticket voting option on election ballots. And the committee linked the measure's future to a bill to make it easier to vote absentee.
- Spurred by ethics violations that led to the firing of two technology officials, Ingham County has formally approved a "whistleblower" policy that encourages the reporting of alleged wrongdoing.
- Gov. Rick Snyder will deliver his sixth annual State of the State address in Michigan's Capitol on Jan. 19.
- Detroit Free Press writer Paul Mitchell writes an opinion article on the uproar over proposed low-level nuclear waste facility that would allow Ontario Power Generation to store low-level waste 2,000 feet below ground less than a mile from Lake Huron.
- Dow Chemical and DuPont, two of the biggest and oldest companies in the American chemical industry, are in talks to merge in what would be one of the largest transactions in a year full of huge deals, people briefed on the matter said on Tuesday.

- National Weather Service forecast updates.
- TV clips: Karen Weaver's first town hall meeting.

Analysis:

- Media coverage is neutral and negative.
- Flint Mayor Karen Weaver hosted her first town hall meeting on Dec. 8.
- Detroit Free Press reports that a lawsuit filed Monday on behalf of a black Detroit police sergeant who was rejected by the Michigan State Police alleges a pattern of discriminatory conduct and cultural bias in the Michigan State Police trooper recruitment.

Flint residents pack house for new Mayor Karen Weaver's first town hall

MLive, December 8, 2015

FLINT, MI -- Water and crime topped the list of issues at Mayor Karen Weaver's first town hall, a meeting that brought out about 200 residents in the city's 1st Ward today, Dec. 8.

"We are past (the election) now. It's not who supported who, it's about Flint and moving it forward," Weaver said t a near capacity crowd at the Hasselbring Community Center. "It's so nice to see such a nice, big crowd here tonight."

Mayor hosts first town hall meeting

WNEM 5, December 8, 2015

FLINT, MI (WNEM) - Flint is a city with water problems the nation knows about all too well and it has a crime rate that so often gives a city a black eye.

Problems that people living here know must be tackled.

"If we don't ever turn the city around, then we have nothing, no legacy, we have nothing to leave to the children," said resident, Pastor Allen Gilbert.

Flint mayor hold first town hall meeting to connect with residents

ABC 12, December 9, 2015

FLINT (WJRT) - (12/08/15) - Flint's mayor is making good on her plan to reach out to the community with her first town hall meeting since being elected.

It was held Tuesday evening at the Hasselbring Community Center and hosted by Councilman Eric Mays.

Mayor Karen Weaver outlined major goals including taking care of Flint's water emergency once and for all, improving public safety, and creating economic opportunity on every level.

Daughter's piggy bank makes appearance in Flint water rate hearing

MLive, December 8, 2015

FLINT, MI -- An attorney for the city of Flint raided his daughter's piggy bank in an attempt to prove the city did not violate a judge's order to reduce water and sewer rates.

Testimony continued Tuesday, Dec. 8, in the hearing on accusations that the city failed to follow Genesee Circuit Judge Archie Hayman's order to lower its water and sewer rates.

MICHIGAN WEATHER

Twenty years since the Sault's big snow

Upper Michigan Source, December 8, 2015

Rarely, perhaps once in a lifetime, a weather event occurs in a region or community that is so extraordinary that it becomes etched in the collective memory of its residents. An experience like this then becomes part of the history of that community. Sault Ste. Marie's Big Snow of December 1995 was such an event.

The winter showed early signs of being a big one when the west end of Upper Michigan caught an unseasonably early snow in September. By November, cold and snow became the rule over the U.P.; a nine-inch snow fell on the Sault as early as November 2. By Thanksgiving, the entire peninsula had at least some snow cover. This cover would remain well into spring 1996.

Consumers Energy offers 10 electric safety tips for the holiday season

PR Newswire, December 8, 2015

JACKSON, Mich., Dec. 8, 2015 /PRNewswire/ -- Consumers Energy is offering 10 electric safety tips to help Michigan residents enjoy the holiday season.

"At Consumers Energy, safety is the foundation of everything we do. Our goal is for everyone to safely enjoy this special time of year filled with celebrations, family and friends. Following 10 simple electric safety tips can help ensure the holiday season is memorable for all," said Aaron Kantor, director of emergency management for Consumers Energy.

Electrical fires remain one of the top causes of home fires, and factored in an estimated 45,000 to 55,000 home structure fires every year since 2000, according to the National Fire Protection Association. Nearly 500 fire-related deaths and 1,500 injuries were also reported between 2007 and 2011, as well as a total of $1.5 billion in property fire damage.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Americans attracted to ISIS find an 'Echo Chamber' on social media

New York Times, December 8, 2015

WASHINGTON — When a lonely Virginia teenager named Ali Amin got curious about the Islamic State last year and went online to learn more, he found a virtual community awaiting. It had its own peculiar language, stirring imagery and just the warm camaraderie, sense of adventure and devotion to a cause that were missing from his dull suburban life.

At 17, the precocious son of a Yemeni immigrant family, he quickly developed online relationships with older Islamic State supporters around the globe. There was Zubair in Britain, Uthman in South Africa and Abdullah in Finland, who urged him to start a Twitter account under the name AmreekiWitness, or American witness. Mr. Amin drew several thousand followers, sparred online with the State Department, engaged with prominent Islamic State propagandists and developed quite a name among English-speaking fans of the militants — until his arrest in March.

Amnesty report: ISIS armed with U.S. weapons

CNN, December 8, 2015

(CNN)A new report from a prominent human rights group has found that ISIS has built a substantial arsenal, including U.S.-made weapons obtained from the Iraqi army and Syrian opposition groups.

Amnesty International's 44-page report, released late Monday, found that much of ISIS' equipment and munitions comes from stockpiles captured from the U.S.-allied Iraqi military and Syrian rebels.

San Bernardino shooting investigation: Past plot and recent loan are latest cues

CNN, December 8, 2015

(CNN)What happened to transform a trained pharmacist and a county health inspector into terrorists, and when did they take that dark turn?

Officials say it could have been years before last week's deadly attack in San Bernardino, California.

Investigators believe shooter Syed Rizwan Farook may have been plotting an earlier attack in California with someone else, two U.S. officials told CNN on Tuesday. One of the officials said the two conspired in 2012 and a specific target was considered. The pair "got spooked" and decided not to go through with the earlier attack after a round of terror-related arrests in the area, an official said.

Paris attacks: Bataclan third attacker identified

BBC, December 9, 2015

French police have identified the third attacker at the Bataclan during the Paris attacks, Prime Minister Manuel Valls says.

Mr Valls did not name the man, but did not dispute reports naming him as French national Foued Mohamed-Aggad, 23, from Strasbourg.

Ninety people were killed at the Bataclan in last month's attacks.

Trump's Muslim ban call 'endangers US security'

BBC, December 8, 2015

Donald Trump's anti-Muslim rhetoric undermines US national security by boosting the Islamic State (IS) group, the Pentagon has warned.

The leading Republican presidential candidate has said Muslims should be banned from entering the US, in the wake of the deadly California attacks.

But Pentagon press secretary Peter Cook said such talk "bolsters Isil's narrative", referring to IS.

Video release prompts federal review of Ferguson, Baltimore and now Chicago police

Emergency Management, December 7, 2015

The U.S. Department of Justice will open a wide-ranging civil rights investigation into the Chicago Police Department after the release of a video showing a patrolman's fatal shooting of Laquan McDonald and police reports from the officers on the scene that conflict with that video.

A law enforcement official familiar with the coming investigation said the inquiry probably will be announced "in the next week" and will focus on officers' use of deadly force, including the system of oversight of police shootings, as well as training and community engagement.

Calls for a Justice Department investigation have been growing since the release of the video, which shows Officer Jason Van Dyke shooting McDonald 16 times as McDonald, carrying a small knife, walked away from officers on a commercial strip on South Pulaski Road in October 2014.

STATE POLICE

Lawsuit alleges discriminatory hiring by state police

Detroit Free Press, December 9, 2015

A lawsuit filed Monday on behalf of a black Detroit police sergeant who was rejected by the Michigan State Police alleges a pattern of discriminatory conduct and cultural bias in State Police trooper recruitment.

The lawsuit filed in Wayne County Circuit Court is proposed as a class action. But Marlon Carter, a sergeant with the Detroit Police Department who passed the State Police written test in 2012 but was denied a job with the MSP, is the only named plaintiff.

MICHIGAN POLITICS

Michigan lawmakers: let cops keep military surplus

WZZM 13, December 8, 2015

WASHINGTON (DETROIT FREE PRESS) — Six Republican members of Michigan's congressional delegation wrote President Barack Obama on Monday asking him to reconsider a decision made earlier this year to have law enforcement agencies return surplus military equipment out of concern it could undermine confidence in police.

The letter from the six GOP members came in the wake of a Free Press report last week about complaints from Michigan law enforcement agencies that the loss of military equipment, especially tracked armored vehicles, deprived them of key assets they may not be able to replace.

House committee votes to end straight-ticket voting

Michigan Radio, December 9, 2015

A state House committee has adopted a bill to eliminate the straight ticket voting option on election ballots. And the committee linked the measure's future to a bill to make it easier to vote absentee.

Republicans say it's a compromise that will require voters to educate themselves about candidates.

Ingham County approves employee 'whistleblower' policy

Lansing State Journal, December 9, 2015

MASON – Spurred by ethics violations that led to the firing of two technology officials, Ingham County has formally approved a "whistleblower" policy that encourages the reporting of alleged wrongdoing.

The policy, aimed at providing staff "a safe environment that is free from retaliation or reprisal," was given the green light Tuesday by the county Board of Commissioners.

Snyder's 6th State of the State address set for Jan. 19

Up North Live, December 8, 2015

WPBN/WGTU — LANSING, Mich. (AP) - Gov. Rick Snyder will deliver his sixth annual State of the State address in Michigan's Capitol on Jan. 19.

The Republican governor will speak to a joint session of the Legislature at 7 p.m. inside the Michigan House. The speech is expected to be broadcast live on public TV and radio stations and on media websites.

MICHIGAN ENVIRONMENTAL

Clear solution on nuclear waste if Congress would only act

Detroit Free Press, December 9, 2015

In recent months there has been an uproar over a proposed low-level nuclear waste facility being developed along the shores of Lake Huron in Canada.

This facility would allow Ontario Power Generation to store low-level waste 2,000 feet below ground less than a mile from Lake Huron.

New Canadian Prime Minister Justin Trudeau recently delayed the decision on whether to move forward on this project until March 1. I applaud this delay and urge our Canadian neighbors to abandon this project and identify a more suitable location outside the Great Lakes basin in order to protect the drinking water of millions of citizens in both countries.

Dow Chemical and DuPont are said to be in merger talks

New York Times, December 8, 2015

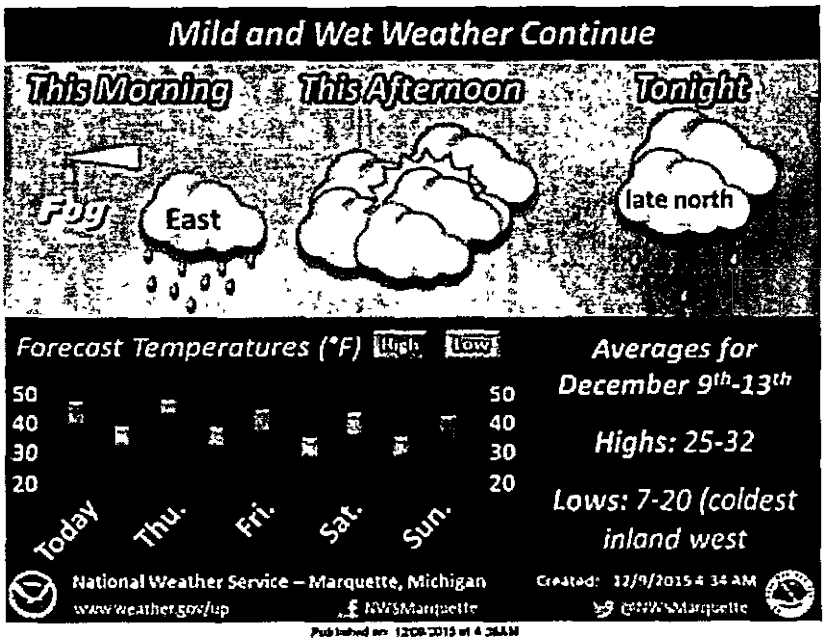
Dow Chemical and DuPont, two of the biggest and oldest companies in the American chemical industry, are in talks to merge in what would be one of the largest transactions in a year full of huge deals, people briefed on the matter said on Tuesday.

Under the terms being discussed, a merger of the two companies — each with a market value of roughly $60 billion — could eventually be followed by a breakup of the company, two of these people said.

Combined, the two companies would be the second-biggest chemical company in the world, in terms of revenue, after BASF of Germany, with more than $92 billion in annual sales. The next step being discussed would be to break up the merged company into three businesses: agricultural chemicals, specialty products, and materials, like plastics.

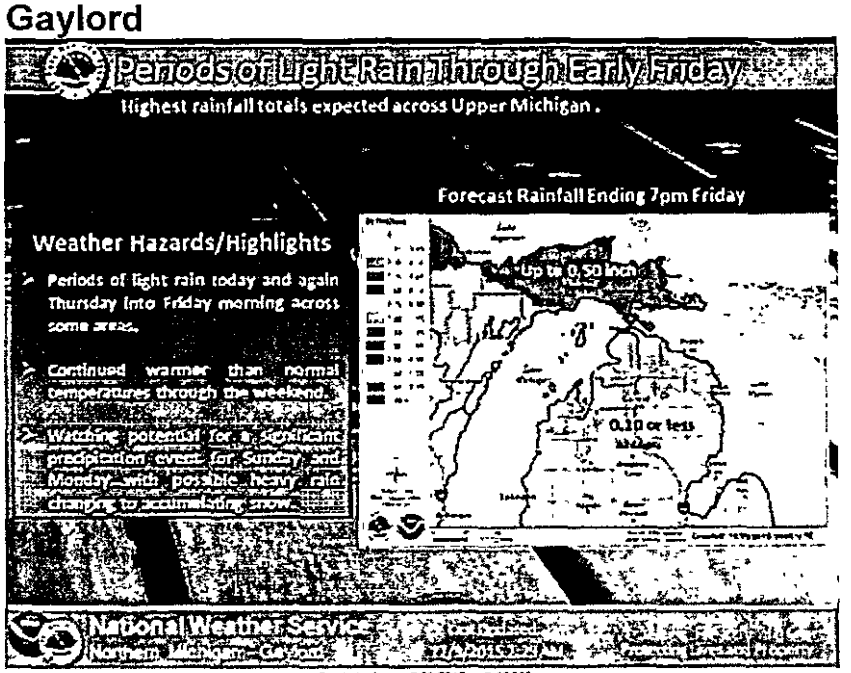
NATIONAL WEATHER SERVICE FORECASTS

Marquette



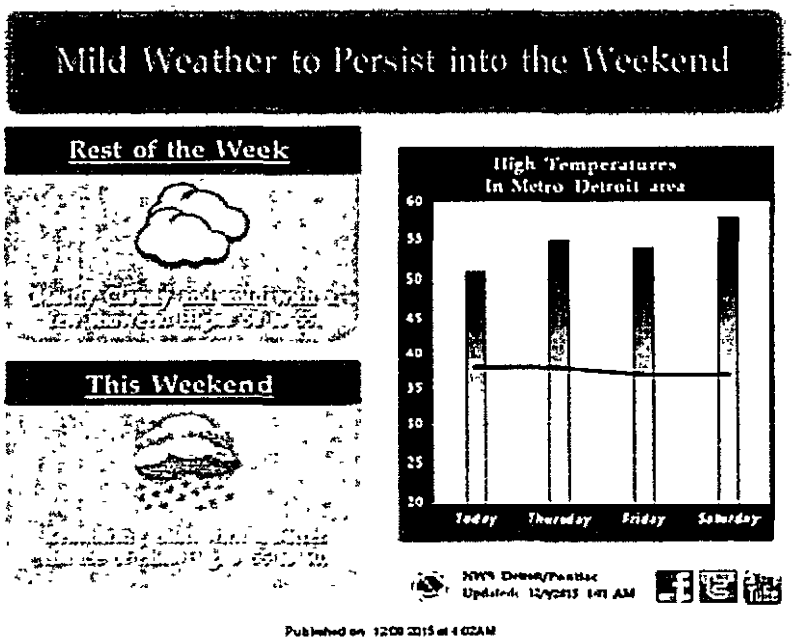
Rain will shift east this morning, exiting the area early this afternoon. Fog will gradually dissipate this afternoon. Chances for rain will return tonight over mainly northern portions of Upper Michigan.

Gaylord



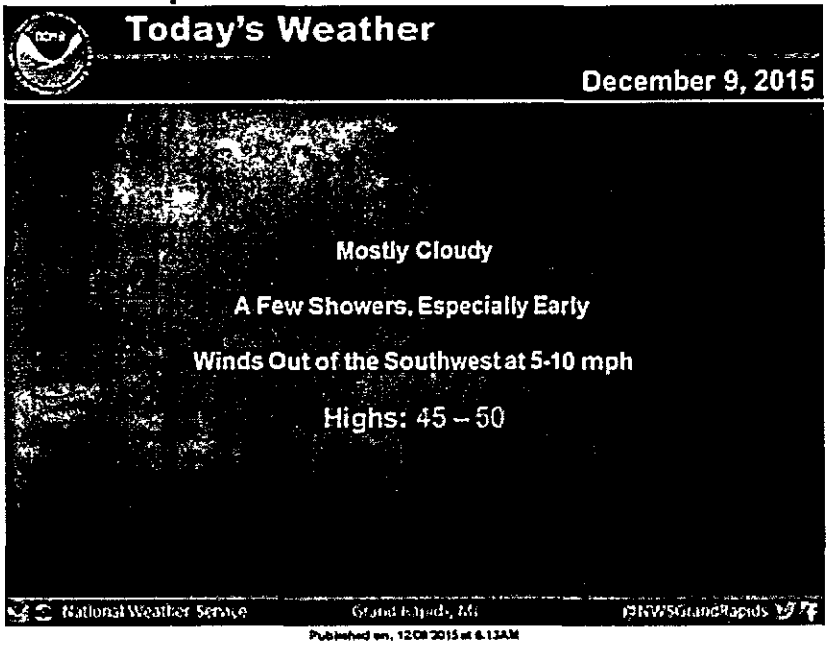
A couple passing disturbances will be periods of light rain showers to northern Michigan through Friday morning. Warmer than normal temperatures to continue through the weekend.

Detroit



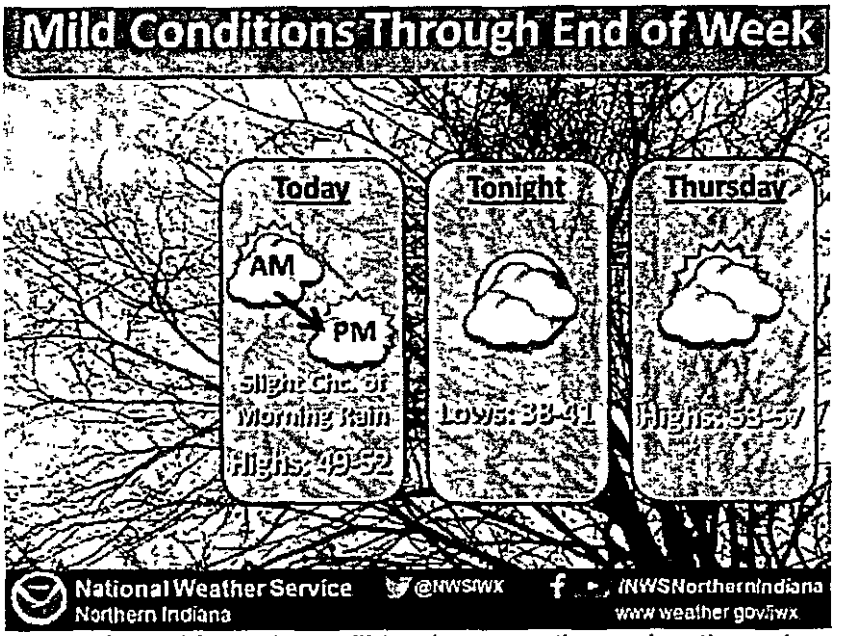
A rather mild period is setting up for the remainder of the week. High temperatures in the 50s will exceed the average high temperatures for this time of the year, mid to upper 30s, by a solid margin. There will also be a few showers during the period, culminating in a rather rainy end to the weekend.

Grand Rapids



Another day of clouds is expected. A few hit-or-miss showers will develop, especially early in the day. Mild conditions will continue with high temperatures approaching 50 degrees in many areas.

Northern Indiana



A frontal boundary will track across the region through early afternoon, bringing just a slight chance of rain showers. Clouds will decrease this afternoon as high temperatures warm into the upper 40's and lower 50's. Partly to mostly cloudy skies are expected tonight and Thursday, with highs reaching into the mid 50's on Thursday. The next chance of rain should hold off until late Friday afternoon or Friday night, but the above normal temperatures will continue through the upcoming weekend.

Flint residents pack house for new Mayor Karen Weaver's first town hall

MLive, December 8, 2015

FLINT, MI -- Water and crime topped the list of issues at Mayor Karen Weaver's first town hall, a meeting that brought out about 200 residents in the city's 1st Ward today, Dec. 8.

"We are past (the election) now. It's not who supported who, it's about Flint and moving it forward," Weaver said t a near capacity crowd at the Hasselbring Community Center. "It's so nice to see such a nice, big crowd here tonight."

Mayor hosts first town hall meeting

WNEM 5, December 8, 2015

FLINT, MI (WNEM) - Flint is a city with water problems the nation knows about all too well and it has a crime rate that so often gives a city a black eye.

Problems that people living here know must be tackled.

"If we don't ever turn the city around, then we have nothing, no legacy, we have nothing to leave to the children," said resident, Pastor Allen Gilbert.

Flint mayor hold first town hall meeting to connect with residents

ABC 12, December 9, 2015

FLINT (WJRT) - (12/08/15) - Flint's mayor is making good on her plan to reach out to the community with her first town hall meeting since being elected.

It was held Tuesday evening at the Hasselbring Community Center and hosted by Councilman Eric Mays.

Mayor Karen Weaver outlined major goals including taking care of Flint's water emergency once and for all, improving public safety, and creating economic opportunity on every level.

Daughter's piggy bank makes appearance in Flint water rate hearing

MLive, December 8, 2015

FLINT, MI -- An attorney for the city of Flint raided his daughter's piggy bank in an attempt to prove the city did not violate a judge's order to reduce water and sewer rates.

Testimony continued Tuesday, Dec. 8, in the hearing on accusations that the city failed to follow Genesee Circuit Judge Archie Hayman's order to lower its water and sewer rates.

MICHIGAN WEATHER

Twenty years since the Sault's big snow

Upper Michigan Source, December 8, 2015

Rarely, perhaps once in a lifetime, a weather event occurs in a region or community that is so extraordinary that it becomes etched in the collective memory of its residents. An experience like this then becomes part of the history of that community. Sault Ste. Marie's Big Snow of December 1995 was such an event.

The winter showed early signs of being a big one when the west end of Upper Michigan caught an unseasonably early snow in September. By November, cold and snow became the rule over the U.P.; a nine-inch snow fell on the Sault as early as November 2. By Thanksgiving, the entire peninsula had at least some snow cover. This cover would remain well into spring 1996.

Consumers Energy offers 10 electric safety tips for the holiday season

PR Newswire, December 8, 2015

JACKSON, Mich., Dec. 8, 2015 /PRNewswire/ -- Consumers Energy is offering 10 electric safety tips to help Michigan residents enjoy the holiday season.

"At Consumers Energy, safety is the foundation of everything we do. Our goal is for everyone to safely enjoy this special time of year filled with celebrations, family and friends. Following 10 simple electric safety tips can help ensure the holiday season is memorable for all," said Aaron Kantor, director of emergency management for Consumers Energy.

Electrical fires remain one of the top causes of home fires, and factored in an estimated 45,000 to 55,000 home structure fires every year since 2000, according to the National Fire Protection Association. Nearly 500 fire-related deaths and 1,500 injuries were also reported between 2007 and 2011, as well as a total of $1.5 billion in property fire damage.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Americans attracted to ISIS find an 'Echo Chamber' on social media

New York Times, December 8, 2015

WASHINGTON — When a lonely Virginia teenager named Ali Amin got curious about the Islamic State last year and went online to learn more, he found a virtual community awaiting. It had its own peculiar language, stirring imagery and just the warm camaraderie, sense of adventure and devotion to a cause that were missing from his dull suburban life.

At 17, the precocious son of a Yemeni immigrant family, he quickly developed online relationships with older Islamic State supporters around the globe. There was Zubair in Britain, Uthman in South Africa and Abdullah in Finland, who urged him to start a Twitter account under the name AmreekiWitness, or American witness. Michigan lawmakers: let cops keep military surplus

WZZM 13, December 8, 2015

WASHINGTON (DETROIT FREE PRESS) — Six Republican members of Michigan's congressional delegation wrote President Barack Obama on Monday asking him to reconsider a decision made earlier this year to have law enforcement agencies return surplus military equipment out of concern it could undermine confidence in police.

The letter from the six GOP members came in the wake of a Free Press report last week about complaints from Michigan law enforcement agencies that the loss of military equipment, especially tracked armored vehicles, deprived them of key assets they may not be able to replace.

House committee votes to end straight-ticket voting

Michigan Radio, December 9, 2015

A state House committee has adopted a bill to eliminate the straight ticket voting option on election ballots. And the committee linked the measure's future to a bill to make it easier to vote absentee.

Republicans say it's a compromise that will require voters to educate themselves about candidates.

Ingham County approves employee 'whistleblower' policy

Lansing State Journal, December 9, 2015

MASON – Spurred by ethics violations that led to the firing of two technology officials, Ingham County has formally approved a "whistleblower" policy that encourages the reporting of alleged wrongdoing.

The policy, aimed at providing staff "a safe environment that is free from retaliation or reprisal," was given the green light Tuesday by the county Board of Commissioners

Snyder's 6th State of the State address set for Jan. 19

Up North Live, December 8, 2015

WPBN/WGTU — LANSING, Mich. (AP) - Gov. Rick Snyder will deliver his sixth annual State of the State address in Michigan's Capitol on Jan. 19.

The Republican governor will speak to a joint session of the Legislature at 7 p.m. inside the Michigan House. The speech is expected to be broadcast live on public TV and radio stations and on media websites.

MICHIGAN ENVIRONMENTAL

Clear solution on nuclear waste if Congress would only act

Detroit Free Press, December 9, 2015

In recent months there has been an uproar over a proposed low-level nuclear waste facility being developed along the shores of Lake Huron in Canada.

This facility would allow Ontario Power Generation to store low-level waste 2,000 feet below ground less than a mile from Lake Huron.

New Canadian Prime Minister Justin Trudeau recently delayed the decision on whether to move forward on this project until March 1. I applaud this delay and urge our Canadian neighbors to abandon this project and identify a more suitable location outside the Great Lakes basin in order to protect the drinking water of millions of citizens in both countries.

Dow Chemical and DuPont are said to be in merger talks

New York Times, December 8, 2015

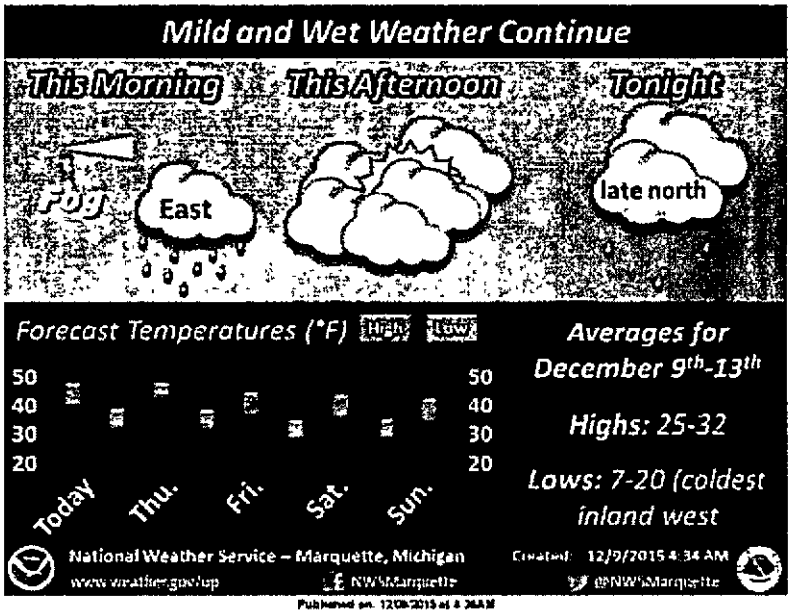
Dow Chemical and DuPont, two of the biggest and oldest companies in the American chemical industry, are in talks to merge in what would be one of the largest transactions in a year full of huge deals, people briefed on the matter said on Tuesday.

Under the terms being discussed, a merger of the two companies — each with a market value of roughly $60 billion — could eventually be followed by a breakup of the company, two of these people said.

Combined, the two companies would be the second-biggest chemical company in the world, in terms of revenue, after BASF of Germany, with more than $92 billion in annual sales. The next step being discussed would be to break up the merged company into three businesses: agricultural chemicals, specialty products, and materials, like plastics.

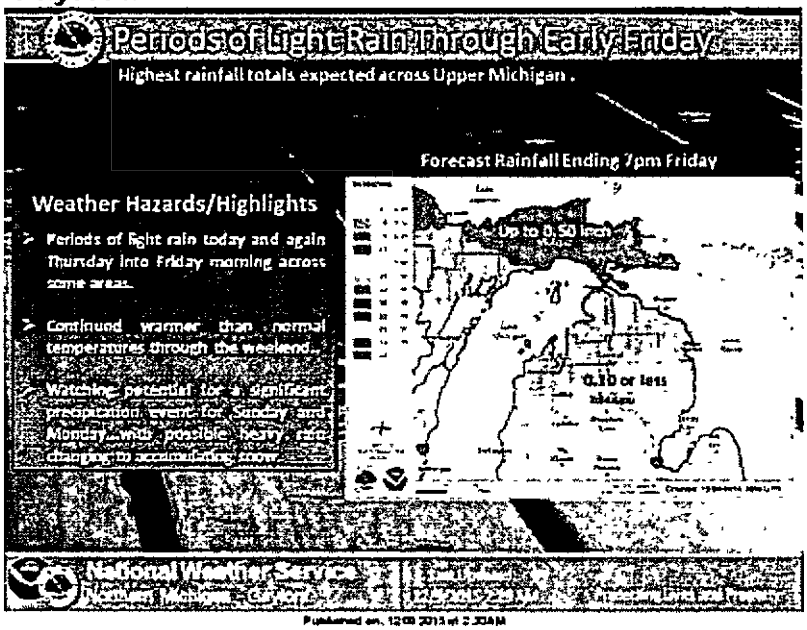
NATIONAL WEATHER SERVICE FORECASTS

Marquette



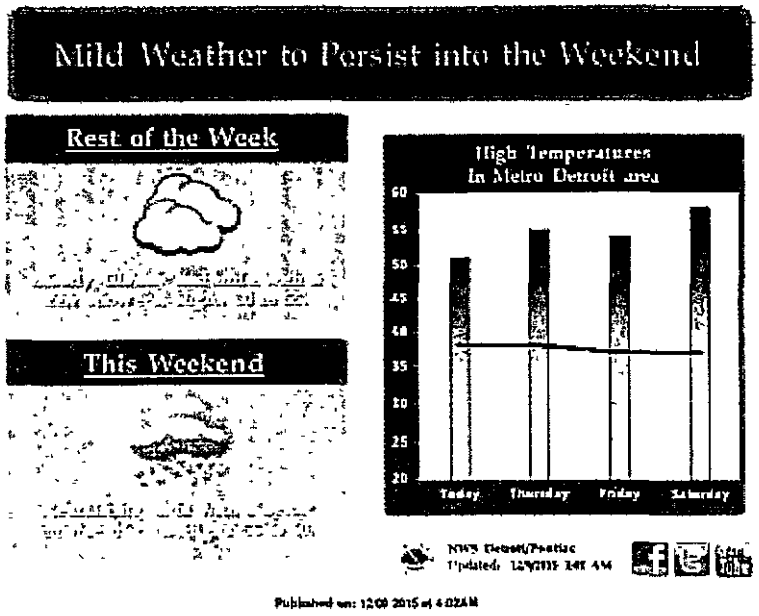
Rain will shift east this morning, exiting the area early this afternoon. Fog will gradually dissipate this afternoon. Chances for rain will return tonight over mainly northern portions of Upper Michigan.

Gaylord



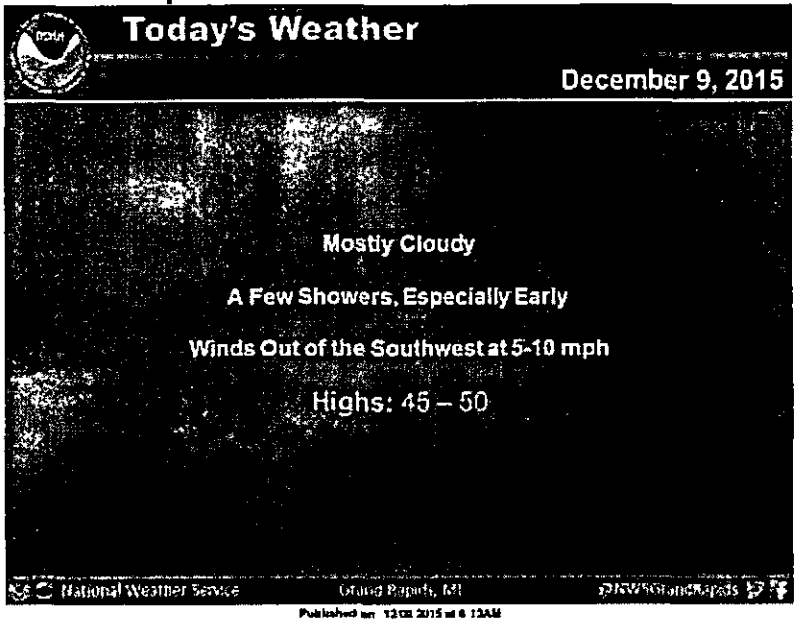
A couple passing disturbances will be periods of light rain showers to northern Michigan through Friday morning. Warmer than normal temperatures to continue through the weekend.

Detroit



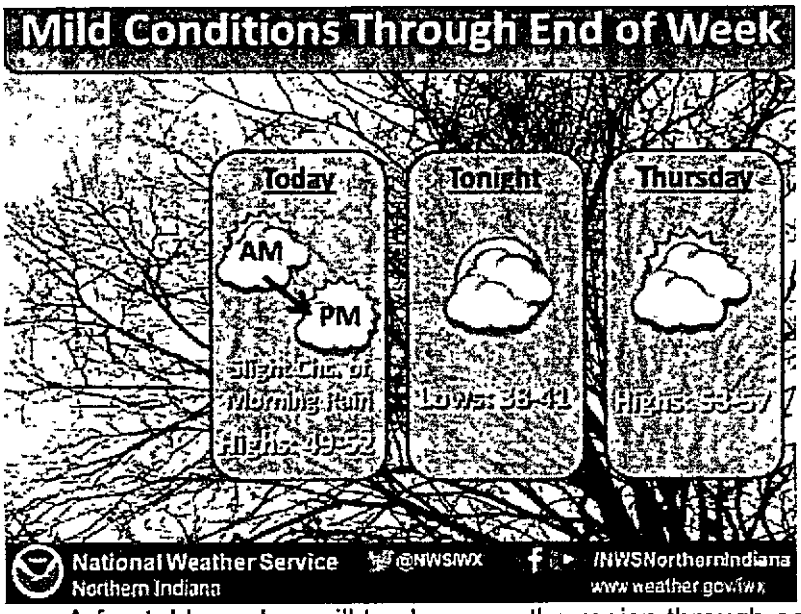
A rather mild period is setting up for the remainder of the week. High temperatures in the 50s will exceed the average high temperatures for this time of the year, mid to upper 30s, by a solid margin. There will also be a few showers during the period, culminating in a rather rainy end to the weekend.

Grand Rapids



Another day of clouds is expected. A few hit-or-miss showers will develop, especially early in the day. Mild conditions will continue with high temperatures approaching 50 degrees in many areas.

Northern Indiana



A frontal boundary will track across the region through early afternoon, bringing just a slight chance of rain showers. Clouds will decrease this afternoon as high temperatures warm into the upper 40's and lower 50's. Partly to mostly cloudy skies are expected tonight and Thursday, with highs reaching into the mid 50's on Thursday. The next chance of rain should hold off until late Friday afternoon or Friday night, but the above normal temperatures will continue through the upcoming weekend.

MEDIA MONITORING REPORT

12/7/2015

Issues:

- No issues to report.

Summary:

- Researchers from Wayne State University and volunteers from the United Way hit Flint's street Saturday to perform tests on residents' drinking water.
- The director of Hurley Medical Center's Pediatric Residency Program, whose research first showed rising levels of lead in the blood of Flint children, is expanding her data-driven work and also pushing to create a model public health program here — one aimed at offsetting the damage that's been caused by high levels of lead in water.
- The Michigan Department of Environmental Quality is in talks with Flint officials about financing forgivable loans to replace lead-leaching water pipes while U.S. Rep. Dan Kildee is pursuing federal forgiveness for the city's nearly $21 million in past loans for drinking water infrastructure improvements.
- Fewer of Flint's children have tested positive for elevated blood-lead levels since Oct. 1, with the rate falling to 3% of children under 6, according to new state data.
- Flint Mayor Karen Weaver is scheduled to hold her first town hall meeting Tuesday, Dec.8, in the city's 1st Ward.
- President Barack Obama called on Congress to authorize a use of force against the Islamic State while remarking on the need for enhanced gun control measures in a rare address to the United States Sunday night.
- Emergency Management Magazine reports that Newport News Police Chief Richard Myers says there is no way to prepare for shootings like those in San Bernardino, Calif., on Wednesday, but police can train on a regular basis in order to respond effectively.
- Beijing's city government issued its first red alert for pollution on Monday, ordering schools to close, halting outdoor construction and restricting car use due to hazardous air quality.
- San Bernardino gunman Syed Rizwan Farook was "fixated" on Israel -- and supported ISIS' ideology of establishing an Islamic caliphate, his father says.
- A Detroit pastor has submitted revised wording for a petition to recall Gov. Rick Snyder over the Flint water crisis, but an attorney for the governor says the new wording still fails to meet standards required under state law.
- Lawmakers in Lansing are considering a house bill that would require Michigan high school students to pass a civics test before they get their diploma.
- A Republican Michigan lawmaker has apologized for comments he made during a hearing that were deemed racially insensitive by Democratic leaders and a teachers' union.
- Republicans' push to eliminate Michigan's straight-party voting option may improve the odds of voters being allowed to cast absentee ballots for any reason, according to Michigan Radio.
- Michigan state Senator Marty Knollenberg, accused of making "racist" comments in a committee hearing last week, apologized Monday for what he called a "clunky" choice of words.
- A deer killed by a hunter in DeWitt Township in Clinton County tested positive for chronic wasting disease.

- Domestic clean energy efforts are leading to decreases in mercury pollution in the Great Lakes, a new International Joint Commission report says that increased reliance on fossil fuels overseas poses new concerns.
- National Weather Service forecasts.
- *TV clips: Flint lead levels.*

Analysis:

- Media coverage is neutral.
- Detroit News reports that MDEQ is in talks with Flint officials about financing forgivable loans to replace lead-leaching water pipes while U.S. Rep. Dan Kildee is pursuing federal forgiveness for *the city's nearly $21 million in past loans for drinking water infrastructure improvements.*
- Flint Mayor Karen Weaver will hold her first town hall meeting on Dec. 8.
- Will continue to monitor the situation.

Water tests conducted at Flint homes by Wayne State University researchers

MLive, December 5, 2015

FLINT, MI – Researchers from Wayne State University and volunteers from the United Way hit Flint's street Saturday to perform tests on residents' drinking water.

Dr. Shawn McElmurry is an Associate Professor at Wayne State University's Department of Civil and Environmental Engineering. This is the second major water sampling trip McElmurry has made to Flint since October.

Crusading Flint doctor says 'we're not done' fighting fallout of lead in water

MLive, December 7, 2015

FLINT, MI -- You may have thought Flint's lead in water crisis was drawing to a close, but the Hurley Medical Center doctor who played a critical role in ending the city's use of the Flint River has other plans.

"I am not going to sit back and just see what happens ... so that in 20 years these Flint kids will (have been) nothing more than statistics on the consequences of lead poisoning," said Dr. Mona Hanna-Attisha.

Loan forgiveness sought for Flint to replace lead pipes

Detroit News, December 6, 2015

The Michigan Department of Environmental Quality is in talks with Flint officials about financing forgivable loans to replace lead-leaching water pipes while U.S. Rep. Dan Kildee is pursuing federal forgiveness for the city's nearly $21 million in past loans for drinking water infrastructure improvements.

Kildee said Friday he wants the U.S. Environment Protection Agency to forgive Flint's debt to a federally-funded clean drinking water loan fund to free up money for the cash-strapped city to invest in replacing aging water lines linked to elevated lead levels in the blood of some Flint children and adults.

State says Flint kids' blood-lead levels have dropped

Lansing State Journal, December 5, 2015

Fewer of Flint's children have tested positive for elevated blood-lead levels since Oct. 1, with the rate falling to 3% of children under 6, according to new state data

It's an expected outcome in Flint, where residents have been battling water quality issues for more than a year despite government assurances that the water was safe to drink. Late this summer, independent researchers showed dangerous lead levels in the water and in children's blood, but by then, tons of bottled water had been shipped in and consumed by residents worried about what was pouring from their taps.

KWA board members must work together for future of region's water system

MLive, December 7, 2015

FLINT, MI -- The city of Flint has every reason to be cautious about the future of its water supply.

As newly elected Flint Mayor Karen Weaver assumes her role on the Karegnondi Water Authority amid a citywide water crisis, we can appreciate her desire to tap the brakes on major developments and ask a lot of questions about the new pipeline being built to end our dependence on Detroit water once and for all.

Flint Mayor Karen Weaver's first town hall set for city's 1st Ward

MLive, December 4, 2015

FLINT, MI -- Mayor Karen Weaver is scheduled to hold her first town hall meeting Tuesday, Dec.8, in the city's 1st Ward.

Weaver this week announced steps she intend to take during her first 100 days in office, including several aimed at community outreach.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

President Obama: 'We will destroy ISIL'

NBC 25 News, December 6, 2015

President Barack Obama called on Congress to authorize a use of force against the Islamic State while remarking on the need for enhanced gun control measures in a rare address to the United States Sunday night.

Obama began by speaking of the evolving threat of terrorism since the attacks on Sept. 11, 2011.

"Terrorists turn to less complicated acts of violence," Obama said referencing the deadly shooting in San Bernardino, California. "Our success won't depend on tough talk, abandoning our values, or fear.

In aftermath of San Bernardino Shooting, training is key, police say

Emergency Management, December 4, 2015

(TNS) - Newport News Police Chief Richard Myers says there is no way to prepare for shootings like those in San Bernardino, Calif., on Wednesday, but police can train on a regular basis in order to respond effectively

"I would say you can't prepare for a specific incident, because we don't know what it's going to be, but what you can do is develop the ability to adapt and respond — that is why we drill to practice key tactics and skills, but also instill in first responders how to adapt on the fly and react professionally, efficiently and effectively at whatever gets thrown at you," Myers said Thursday

Beijing issues first red alert as air pollution hits hazardous levels

CNN, December 7, 2015

Hong Kong (CNN)Beijing's city government issued its first red alert for pollution on Monday, ordering schools to close, halting outdoor construction and restricting car use due to hazardous air quality.

Beijing's Municipal Bureau of Environmental Protection warns that severe pollution will cover the Chinese capital, starting Tuesday local time and lasting for more than three days.

San Bernardino shooter supported ISIS, was 'fixated' on Israel, father says

CNN, December 7, 2015

(CNN)Southern California gunman Syed Rizwan Farook was "fixated" on Israel -- and supported ISIS' ideology of establishing an Islamic caliphate, his father says.

Farook's father talked to an Italian newspaper about his son, one of two shooters in last week's deadly attack in San Bernardino.

Along with his wife, Tashfeen Malik, Farook targeted his co-workers at a holiday party for the environmental health department, killing 14 people and leaving 21 wounded.

Authorities gunned down the couple hours later in a shootout.

MICHIGAN POLITICS

Detroit pastor submits revised Snyder recall petition

Detroit Free Press, December 2, 2015

LANSING — A Detroit pastor has submitted revised wording for a petition to recall Gov. Rick Snyder over the Flint water crisis, but an attorney for the governor says the new wording still fails to meet standards required under state law.

The Board of State Canvassers is to consider the proposed recall petition from Angelo Scott Brown when it meets at the Capitol on Thursday morning.

House bill would make citizenship test a high school graduation requirement

Michigan Radio, December 4, 2015

How many US senators are there? What does the President's cabinet do? Who is in charge of the executive branch?

High school students who can't answer those questions might want to start studying. Lawmakers in Lansing are considering a house bill that would require Michigan high school students to pass a civics test before they get their diploma.

Lawmaker apologizes for comments deemed racially insensitive

Michigan Radio, December 5, 2015

LANSING, Mich. (AP) - A Republican Michigan lawmaker has apologized for comments he made during a hearing that were deemed racially insensitive by Democratic leaders and a teachers' union.

Television stations WDIV and WXYZ report Troy Sen. Marty Knollenberg apologized Friday after criticism over comments he made during an education committee hearing. In speaking about struggling school districts, Knollenberg said the "non-white population" is a contributor, "we can't fix that" and "you can't make an African-American white."

House Democratic Leader Tim Greimel called Knollenberg's comments "unfortunate" and hopes he can "get a better grasp of what challenges school districts face by a diverse array of students." American Federation of Teachers Michigan President David Hecker said the comments were "racist and ... a major step backwards in improving education."

NO-reason absentee voting bill pushed in Michigan House

Michigan Radio, December 5, 2015

LANSING, Mich. (AP) - Republicans' push to eliminate Michigan's straight-party voting option may improve the odds of voters being allowed to cast absentee ballots for any reason.

A lawmaker is pushing for passage of "no-reason" absentee voting legislation next week. Voters could ask for an absentee ballot application in person at their clerk's office without needing an excuse.

They currently must be 60 years or older, be out of town when polls are open or meet other criteria.

Michigan Senator, under fire for racial comments, apologizes for 'clunky' word choice

MLive, December 7, 2015

LANSING, MI — Michigan state Senator Marty Knollenberg, accused of making "racist" comments in a committee hearing last week, apologized Monday for what he called a "clunky" choice of words.

The Troy Republican sits on the Senate Education Committee, which heard testimony on Thursday from Natasha Baker of the State School Reform Office, which is tasked with turning around the state's worst-performing schools.

MICHIGAN ENVIRONMENTAL

Clinton county deer tests positive for chronic wasting disease

Michigan Radio, December 4, 2015

A deer killed by a hunter in DeWitt Township in Clinton County tested positive for chronic wasting disease. It is the fourth deer found with the disease in southern Michigan this year, and it shows that efforts by the Department of Natural Resources to stop the disease from spreading have not been successful.

DNR deer management specialist Chad Stewart says that the deer was found about eight miles from the previous CWD cases, which were in Meridian Township. "Having one in Clinton Township means there is at least one more there or in between. We have our work cut out for us in terms of managing this disease."

Report finds coal burning in Asia leading to increased mercury in some Great Lakes fish

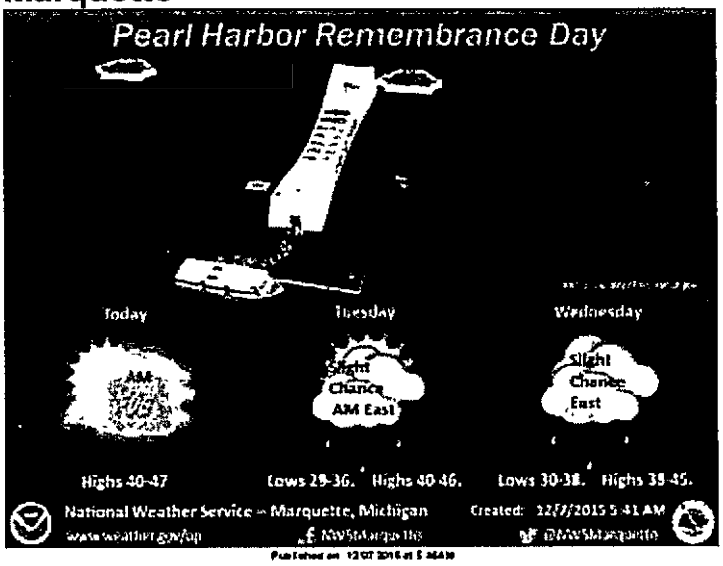
Michigan Radio, December 4, 2015

Although domestic clean energy efforts are leading to decreases in mercury pollution in the Great Lakes, a new International Joint Commission report says that increased reliance on fossil fuels overseas poses new concerns.

The IJC report urged the Canadian and U.S. governments to better monitor for mercury in the Great Lakes after noting increased levels of mercury in some fish in some parts of the Great Lakes.

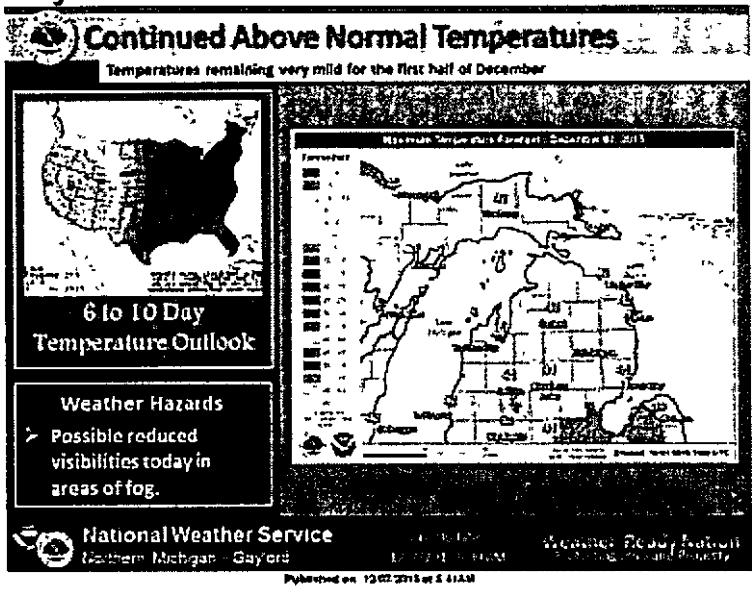
NATIONAL WEATHER SERVICE FORECASTS

Marquette



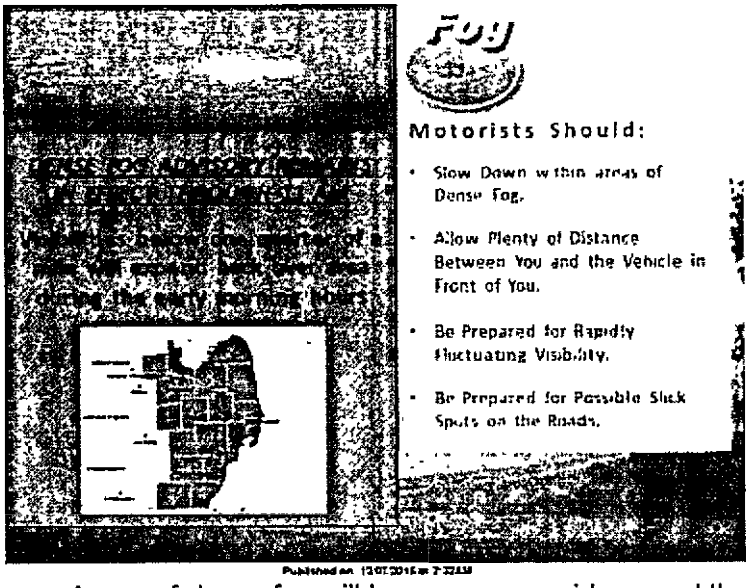
Expect partly to mostly cloudy skies and some morning fog today as a south wind draws more moisture into the area. Above normal temperatures will continue through mid-week as a flow of Pacific air dominates the weather pattern. There could be some light rain and drizzle at times, especially over eastern Upper Michigan on Tuesday and Wednesday.

Gaylord



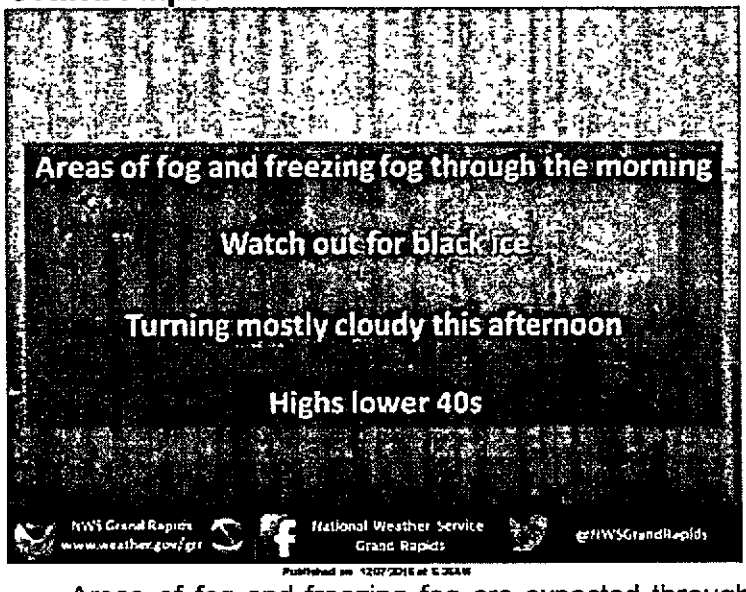
Temperatures will remain very mild through the work week. No snow any time soon.

Detroit



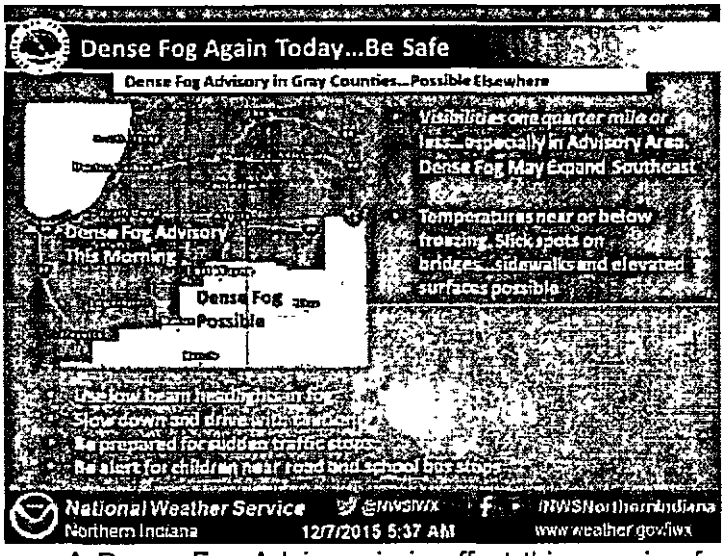
Areas of dense fog will become more widespread through daybreak with visibilities dropping back to one quarter of a mile or less in many locations by around dawn. Fog is then expected to persist for much of the morning.

Grand Rapids



Areas of fog and freezing fog are expected through the morning before lifting. Some black ice is possible.

Northern Indiana



A Dense Fog Advisory is in effect this morning for a large part of northern Indiana...far northwest Ohio and much of lower Michigan. Fog was expanding eastward and additional areas may need to be added to the advisory this morning. Visibilities of one quarter mile or less can be expected through late morning. The fog will be slow to dissipate today. High temperatures will only be in the lower 40s. Be safe and use caution.

Hear professor explain how Washington, D.C., was a prelude to Flint's water crisis

MLive, December 7, 2015

FLINT, MI -- Virginia Tech Professor Marc Edwards spoke to a small group of doctors and others interested in the Flint water crisis during a presentation at Hurley Medical Center last week.

For those who missed it, all of Edwards' remarks are now available in a video posted on YouTube.

Although Edwards discusses how Flint came to be in a health emergency because of rising levels of lead in water, he tracks back in time to similar problems with the water supply in Washington, D.C.

Flint, Michigan residents file federal lawsuit for lead contamination of water

Info Wars, December 7, 2015

Citizens of a central Michigan town have filed a federal class action lawsuit accusing the city government of exposing them to water with high levels of lead.

The suit was filed on behalf of four children who suffered hair loss, chronic throat problems, and other health concerns due to the City of Flint pumping the Flint River in 2014 to save money. The city of Flint broke away from Detroit's water system last year, pending the build out of a new regional pipeline.

Kildee: Forget firings and apologies in water crisis, take care of Flint kids

MLive, December 7, 2015

FLINT, MI — U.S. Rep. Dan Kildee says he doesn't care whether anyone is fired or apologizes for Flint's lead-in-water crisis.

But the Democratic congressman from Flint Township said there is something he does want: "Making sure that the things we know that can be done to offset the impact of lead exposure to these kids are done."

Speaking on the "Overtime" section of the PBS public affairs television program "Off the Record" last week, Kildee was asked whether Michigan Department of Environmental Quality Director Dan Wyantshould be fired because the state allowed Flint's water problems to fester since early 2014.

Seven things you don't know about Flint's crusading water crisis doctor

MLive, December 7, 2015

FLINT, MI — Dr. Mona Hanna-Attisha has become one of Flint's best-known doctors, partly because of her role in forcing the city to end its use of the Flint River as its water source.

As the director of Hurley Medical Center's Pediatric Residency Program, Hanna-Attisha conducted research showing the blood lead levels of children in Flint had doubled since April 2014, when Flint disconnected from the Detroit water system and began treating its own river water.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

Killer were long radicalized, F.B.I. Investigators say

New York Times, December 7, 2015

SAN BERNARDINO, Calif. — The couple who carried out the deadly attack that killed 14 people here last week had long been radicalized and had been practicing at a target range days before their murder spree, the Federal Bureau of Investigation said Monday.

The characterization of the husband and wife team, Syed Rizwan Farook and Tashfeen Malik, came as F.B.I. investigators were leaning away from the theory that Ms. Malik, who declared allegiance to the Islamic State on Facebook around the time of the attack, had led her American-born husband to the violence.

Couple practiced at shooting ranges before California attack

9 & 10 News, December 7, 2015

SAN BERNARDINO, Calif. (AP) - Just days before he carried out an attack that killed 14 people, Syed Farook practiced with a rifle during one of several recent visits to a local shooting range, authorities said. Sometimes he was joined by his wife, his partner in the carnage.

An instructor at Riverside Magnum Range - about 20 miles from the Inland Regional Center where the two targeted Farook's co-workers a few days later - said Farook visited the range on Nov. 29 and 30.

Obama seeks to allay anxieties over terror threat

Emergency Management, December 7, 2015

(TNS) - President Obama used a televised Oval Office address for only the third time in his presidency Sunday to call on Muslim Americans to help counter the Islamic State's violent ideology in response to the San Bernardino massacre, and to reassure fearful Americans that the administration has a plan to counter homegrown terrorism.

Using perhaps his strongest language yet to describe radical jihadists as "thugs" who perpetrate "a cult of death," Obama directly called the San Bernardino shooting "an act of terror." He challenged the

Muslim community at home and abroad to speak out against violent ideology and at the same time urged Americans not to abandon their own values by turning against Muslims.

GHS 'secure mode' incident reinforces local response protocol

Petoskey News, December 7, 2015

GAYLORD — On Nov. 24, Gaylord High School was put into "secure mode" following a reported bomb comment, and county officials said law enforcement and other responders won't be changing how they handle similar threats in the near future.

Jon Deming, Otsego County emergency manager and county EMS chief, said the school incident was not a credible threat to school safety.

Beijing issues red alert over air pollution for the first time

New York Times, December 7, 2015

BEIJING — Officials in Beijing declared on Monday that the thick smog blanketing the city was bad enough to require a red alert, the first time they had raised the alarm to its highest level since an emergency air-pollution response system was announced in 2013

Across the city, residents braced for another "airpocalypse" — the term that some English speakers here use for the most toxic bouts of air pollution.

If carried out properly, the temporary restrictions will affect many of Beijing's more than 20 million residents. From 7 a.m. on Tuesday to noon on Thursday, schools will be required to close; cars will be allowed to drive only on alternate days, depending on their license plate numbers; and fireworks and outdoor barbecuing will be banned (grilled kebabs are a hugely popular street food in the city). In addition, government agencies will have to keep 30 percent of their automobiles off the streets.

MICHIGAN ENVIRONMENTAL

State to remove 450 chemicals from list of 1200 toxic chemicals requiring modeling

Michigan Radio, December 7, 2015

State officials plan to remove hundreds of chemicals from a long list that requires companies to perform modeling of smokestack emissions.

The Michigan Manufacturers Association says each model can cost between $20,000 and $100,000, and removing the chemicals will make the process more efficient.

MICHIGAN POLITICS

Former Courser and Gamrat staffers sue the Michigan House of Representatives

Michigan Radio, December 7, 2015

Keith Allard and Ben Graham, the two ex-staffers of former Representatives Todd Courser and Cindy Gamrat, filed a federal whistleblower lawsuit against the Michigan House of Representatives.

In their lawsuit, the ex-staffers allege that House Speaker Kevin Cotter's office ignored their reports that Gamrat and Courser were engaging in an extra-marital affair, and that the two representatives were misusing their office by forcing the staffers to do political work with taxpayer money.

State lawmakers expected to vote on restrictions on drones

Michigan Radio, December 7, 2015

A state house committee is expected to vote tomorrow on a bill banning civilians from flying drones over active police investigations.

The state House Criminal Justice committee meets Tuesday morning to discuss HB 4868. The bill would make it a misdemeanor to fly a drone in a way that interferes with a law enforcement officer, firefighter or utility worker. If found guilty, the person flying the drone could face up to a year in jail and a $1,000 fine.

Knollenberg apologizes after education comment uproar

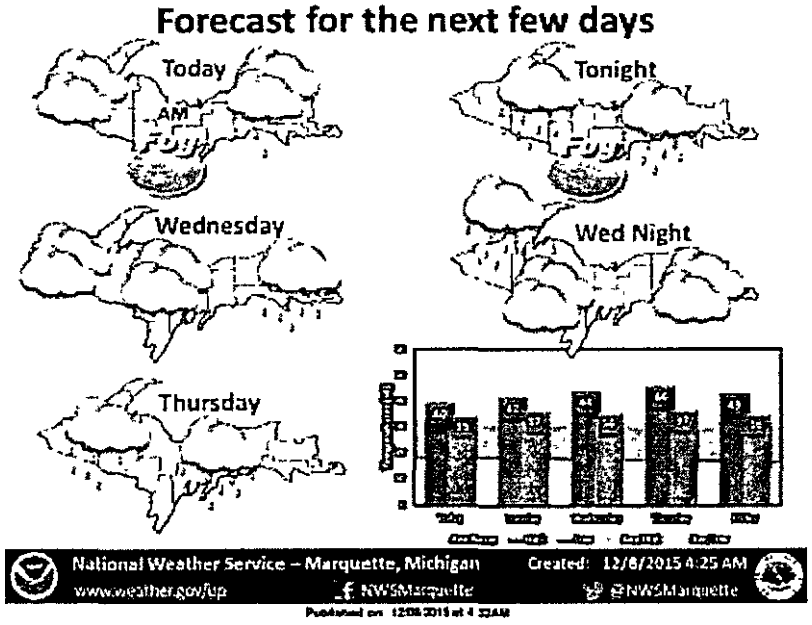
Detroit Free Press, December 7, 2015

Sen. Marty Knollenberg, R-Troy, apologized today for comments he made at a legislative committee meeting in which he referred to not being able to make African-American children white.

Knollenberg made the controversial comments Thursday after Natasha Baker, the state school reform officer, gave a presentation to the Senate Education Committee in which she talked about the characteristics of priority schools — so called because they are among the worst-performing schools in the state.

NATIONAL WEATHER SERVICE FORECASTS

Marquette

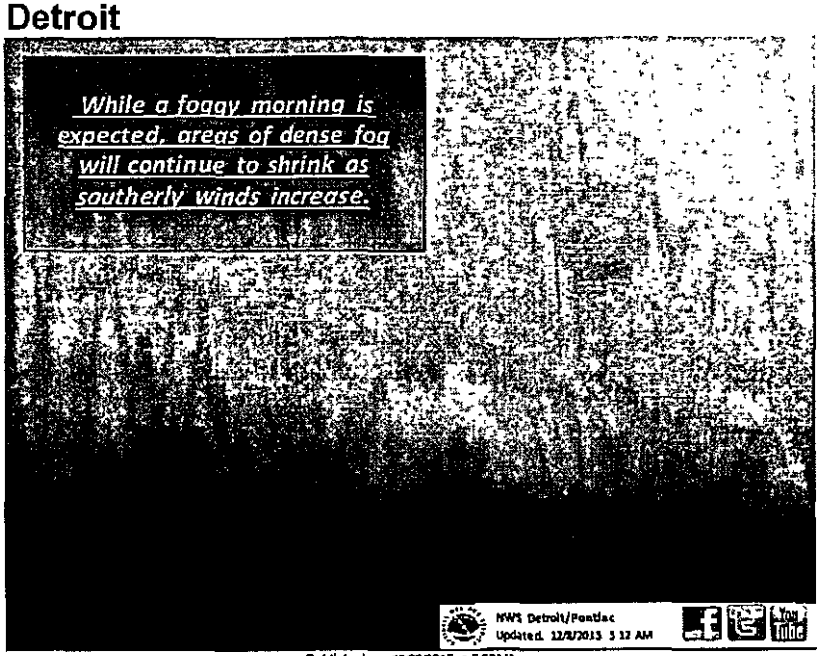


Expect above normal temperatures to persist through the end of the week. After a mostly cloudy day today, a disturbance approaching from the west will bring rain showers tonight that persist over the east into Wednesday morning. There will be another light precipitation event on Wednesday night into Thursday, mainly over northern Upper Michigan.

Gaylord

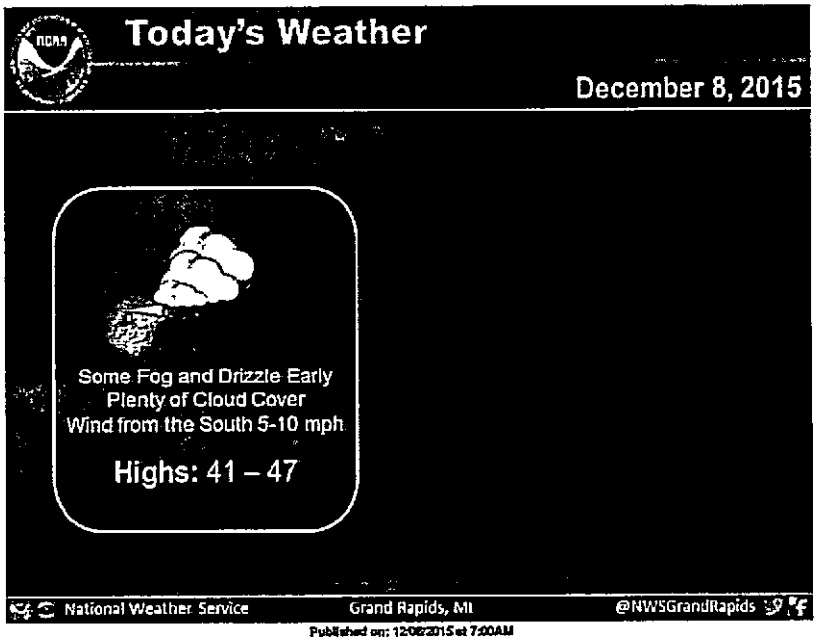
Mostly cloudy weather to continue through the rest of the week as several weather disturbances sweep across Michigan. Some drizzle can be expected today...with light rain showers later tonight through Wednesday afternoon...and again Thursday afternoon into Friday. Temperatures will remain well above normal right on into the weekend.

Detroit



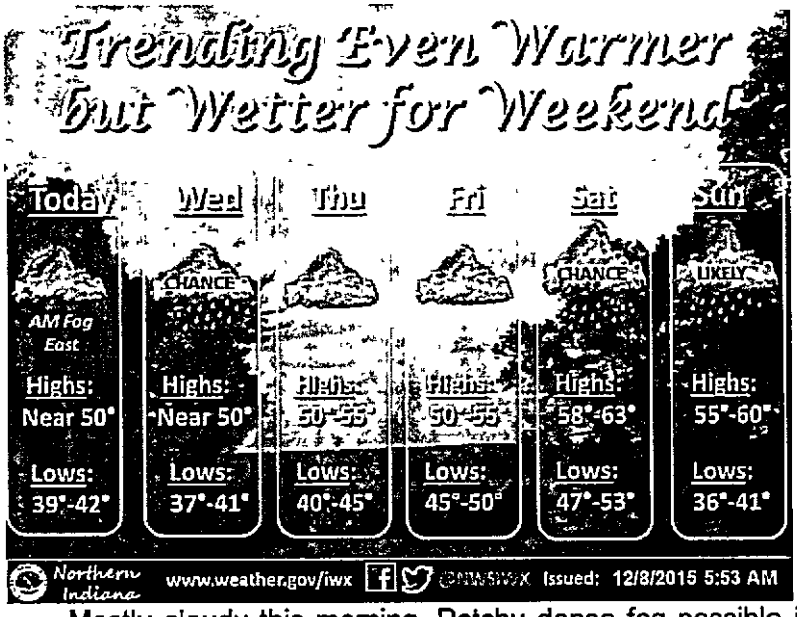
Fog will persist this morning, but the lowest visibilities are expected to hold at one half a mile or more early this morning as the remaining patches of dense fog gradually dissipate. Widespread dense fog is no longer expected to be an issue

Grand Rapids



Plenty of clouds will rule our skies through the day today. Early morning fog and patchy drizzle is possible, but no significant weather is expected. Temperatures will be slightly above normal with highs in the 40s.

Northern Indiana



Mostly cloudy this morning. Patchy dense fog possible in Northwest Ohio. Becoming partly sunny this afternoon. Highs near 50. The rest of the week will remain mild with highs trending toward the 60s by the weekend! However...rain chances will increase for the weekend as well.

Changes to Michigan's Concealed Gun Permits take effect next week (Michigan Radio)

A new state law taking effect eliminates local gun boards and puts the review process entirely in the hands of the Michigan State Police. The new law is also speeding up the review process, from 60 to 45 days.

Be aware of cyber security on Cyber Monday (WWMT)

Cyber Monday can be a great time to snag deals online, but it's also an opportunity for hackers to steal your information. Electronics and new Star Wars toys are expected to be the hot ticket items, but before you shop the Michigan State Police are warning people to be careful to not become victims.

Treasury

EDA hires Greg Capote to replace David Haynes (The Times Herald)

The Economic Development Alliance of St. Clair County recently hired Greg Capote to replace David Haynes. Haynes, the former business attraction director of nine years at the EDA, is now the planning director at the city of Port Huron.

LEGISLATIVE NEWS

Firm's tax break demands spur Michigan 'welfare' fight (The Detroit News)

A Las Vegas company's quest for multimillion-dollar tax breaks has set off a post-Thanksgiving legislative fight as Grand Rapids hurries to land a huge data center with what critics describe as "corporate welfare" and "cronyism."

In Lansing, majority rules on number of bills passed (Detroit Free Press)
There are many ways to determine the effectiveness of elected representatives in the state Legislature: leadership positions, constituent services and length of service.

Michigan's straight-ticket voting option may be eliminated (AP)
Michigan voters who with a single mark can vote Democratic or Republican for every partisan office on the ballot may no longer have the option in 2016. Republicans who control the Legislature want to make Michigan the latest state to eliminate straight-ticket, or straight-party, voting.

What's on tap for December legislative session (AP)
he Michigan Legislature returns Tuesday for two or three weeks of voting with a number of issues on tap before it adjourns for the year. Lawmakers face few hard deadlines to act near the halfway mark of their two-year session.

Bills aim at keeping student data private (Detroit Free Press)
The apps your kids use at school. The software that helps them improve their reading skills. The consultant who helps analyze test scores. Chances are they all have access to some information about your child. Now, Michigan lawmakers want to make sure no one can sell that personally identifiable information or use it and students' online behavior to target them with advertising.

Michigan lawmakers seek anti-terror measures (The Detroit News)
The Paris terror attacks have prompted at least three Michigan members of Congress to renew efforts to pass measures they argue would counter terrorism.

DETROIT

Detroit's Bankruptcy Reflects on State, Other Municipalities (WDET)
The completion of the largest municipal bankruptcy case in American history brought answers to many questions about how Detroit would manage its finances and resolution to some decades-long debates. But the Detroit case also created a renewed focus on the state's role in helping — or hurting — local governments' ability to manage their finances.

Detroit's new public health director aims to innovate (Detroit Free Press)
Detroit's new public health director could have been a top surgeon who took his skills to sub-Saharan Africa to care for people in impoverished nations that have limited access to doctors.

OPINION

Ken Braun: Push for law aimed at hiking gasoline price falls short (MLive)
This week, gasoline prices where I live in Saginaw hit $1.76 per gallon, and the national average was $2.01. Last week, organizers of a ballot drive aimed at prohibiting the oil and gas industry from using hydraulic fracturing (fracking) in Michigan marched to the steps of the state Bureau of Elections with more than 150,000 signatures in support of their proposed law.

Snyder agenda struggles against Capitol conservatives once again (MLive)
Nobody keeps track of these things, but when interviewing the governor this happens a lot. You craft a perfect question to solicit a newsworthy response, and you come away with a goose egg.

Lawmakers conclude legislative session with nine days of work in December (MLive)
Hold your breath, and perhaps your noses, as lawmakers return to our town to do the people's business.

Editorial: Detroit Land Bank to help neighborhoods (Detroit News)
Detroit's Land Bank has about 4,500 pieces of property that could become homes for those who want to live in the city, or better homes for those already living in them. A pilot program to make these houses viable could help stabilize some of the city's neighborhoods.

Syrian refugees an asset to U.S. (Detroit News)
State and federal officials who have rushed to close off the doors on refugees are making hasty and potentially counterproductive decisions.

Editorial: Energy plan secures power supply (Detroit News)
Michigan will lose nine coal plants over the next year; 25 coal-fired units will be retired in the next five years. Across the region, scores of coal facilities will go offline during that period.

Editorial: State should fix tax code to attract IT jobs (Detroit News)
The $5 billion data center proposed for the Grand Rapids area gives Michigan another opportunity to make its tax policy competitive for attracting jobs and investment.

What's behind state government curtain? We should demand to know (MLive)
As roads crumble and schools face budget cuts, politicians in Lansing bought themselves a new state Senate office building that could run taxpayers as much as $134 million. The decision to give the contract to a Lansing developer was made in a backroom by subcommittee — a prime example of how large donors are rewarded in Lansing while voters face cuts to basic services.

Editorial: Failure not option on transparency (Traverse City Record Eagle)
Flunking is painful, especially when the substandard grade means your state fails to complete one of the most basic functions of democratic governance — transparency.

Subject: Declaration Questions

Paul

Per your call/question the other day reference a state declaration of an emergency in Flint:

As you know, the Governor can declare at any time for any reason

- From PA 390... "Emergency" means any occasion or instance in which the governor determines state assistance is needed to supplement local efforts and capabilities to save lives, protect property and the public health and safety, or to lessen or avert the threat of a catastrophe in any part of the state.
- From the start, the state (EMHSD as well as other state agencies) was engaged and EMSHD continually urged officials to work with and through the local EM to coordinate the response and recovery.
- A local declaration of an emergency was never put in place and local resources were being used in conjunction with the DCH.
- We never received any requests for assistance under PA390.

What is gained with a Governor's Declaration?

- Command and control for 28 days
- Ability to apply Section 19 funding
- Ability to apply Section 18 funding

Discussion Points

- There is no local declaration of an emergency; there is no request for state assistance under PA390.
    - Local resources have been sufficient to address the situation (outside of needing money which I believe is being handled).
- The state will formally own the event if we put a Governor's Declaration in place. This could be viewed as the state having owned up to how the water issue was caused (e.g. "The triggering event was caused by the state; that is why the state is now declaring.").
- A state declaration sets a precedent for issuing a state declaration for an infrastructure maintenance event. What if lead is found in other areas of the state's drinking water due to infrastructure issues? This action opens the door to any other jurisdiction with water quality issues.
- State financial support has already been provided outside of PA 390, so timing is questionable.
- Section 18 use could drain the Disaster Contingency Fund.

Please let me know if you would like to discuss or if this is not what you were looking for.

Arrest report: 'Super drunk' Michigan lawmaker was swerving, speeding, nearly hit another car (MLive)

Michigan state Rep. John Kivela was speeding on the highway, swerved over multiple lines and nearly rear-ended a vehicle before he wasarrested for "super drunk" driving earlier this month in Clinton County, according to an incident report obtained by MLive.com.

DETROIT

Money from land sales in Detroit-Windsor bridge project going toward demolition in neglected neighborhood (MLive)
Excavators have begun tearing into abandoned houses in a long-neglected Southwest Detroit neighborhood that isn't eligible for the federal Hardest Hit grants that sent more than $100 million into anti-blight efforts in other parts of the city.

Mayor Mike Duggan announces 'Detroit Neighborhood Business Directory' (ClickOnDetroit)
Detroit Mayor Mike Duggan and local business owners came together Tuesday to launch the "Detroit Neighborhood Business Directory."

Blighted Detroit homes to be given to National Labor Union (FOX 2)
Thirty million dollars is coming to Detroit neighborhoods to fight blight, but that money won't be spent knocking down vacant houses. Every penny will be spent repairing and renovating properties and putting Detroiters to work.

Detroit mayor: Our city welcomes refugees (Freep)
Amid growing opposition from Republicans, Detroit Mayor Mike Duggan said today that he welcomes refugees to Detroit and is confident in the vetting process to screen out potential security threats.

Duggan defends Obama screenings of Syrian refugees (Detroit News)
Detroit Mayor Mike Duggan reiterated Monday that "We stand prepared in Detroit to do our share" when it comes to hosting refugees from Syria and elsewhere, saying he has committed to welcoming 50 refugee families a year to the city for the next three years.

Detroit announces blight removal plans for Delray neighborhood, area near planned bridge (ClickOnDetroit)
Blight eradication efforts in Detroit now include parts of a neighborhood near a planned commuter bridge linking Detroit and Windsor, Ontario.

Detroit invests in Delray blight removal; community hopes for more (Michigan Radio)
The city of Detroit is paying to clean up the Delray neighborhood, the community that will host the U.S. side of a new bridge to Canada.

Metro Detroit businesses embrace Small Business Saturday (Crain's Detroit Business)
Who needs Black Friday when you can have the kinder, gentler Small Business Saturday?
That's what small businesses in Detroit and its suburbs are touting this week as holiday shoppers prepare to hit the stores running this weekend.

OPINION

Labor Voices: Online charter schools pose problems (Detroit News)
There is more evidence that for-profit charter schools are part of the problem, not the solution. This time, the focus is on "cyber" or online charter schools.

Editorial: Privacy bill could hurt mentally ill (Detroit News)
The desire to protect the privacy of mental health patients is well placed; certainly troubled individuals should not be discouraged from seeking help by fear of public exposure. But in shielding patients from prying eyes, lawmakers must be careful they aren't denying them the family support they might need.

Optional kindergarten is a quaint, outdated idea (TheTimesHerald)
That 5-year-olds aren't required to attend kindergarten in Michigan was surprising enough. Even more surprising is that kindergarten is optional for school districts in a handful of states.

Syrian refugees present a choice: our fears or our ideals of freedom (MLive)
In the wake of the recent attacks in France, Lebanon and other places around the world, our nation has become more fearful of accepting refugees from war-torn countries like Syria. Candidates for higher office have used this fear to try to convince Americans that only one option lies before us: We cannot offer aid to the refugees attempting to escape the murderous regime of Bashar al-Assad and the terrorist organization known as ISIS lest we put ourselves in grave and imminent danger.

'Dark store' tax assessment loophole hurts local governments (MLive)
The practice of "dark store assessing" is wreaking devastating effects on local economies thanks to the trend of recent rulings by the Michigan Tax Tribunal.

GOVERNOR'S ACTIVITIES

Syrian refugees
Governor Who Started Stampede On Refugees Says He Only Wants Answers (NPR)
Michigan's Rick Snyder was the first governor to urge a pause in admitting Syrian refugees into the United States. He triggered a national debate about refugee resettlement, and insists now that he only wants answers. The Republican has described himself as "the most pro-immigration governor in the country," but he argues the caution he wants the U.S. to show doesn't conflict with the compassion thinks should be shown to refugees.

Activists demand Snyder accept Syrian refugees (Detroit News)
A small group of activists brought 4,700 petitions to Gov. Rick Snyder demanding Thursday that he welcome Syrian refugees to Michigan.

4,700 pro-Syrian refugee signatures delivered to Michigan Gov. Rick Snyder (Mlive)
Gov. Rick Snyder spokesperson Dave Murray said he met with the group and more thoroughly explained the governor's stance.

LT. GOV'S ACTIVITIES

Lt. Gov. Calley Working to Expand Job Opportunities for People With Disabilities (9&10 News)
Michigan's Lieutenant Governor Brian Calley is trying to expand job opportunities for people with disabilities. Lieutenant Gov. Calley says, "Michiganders of all abilities deserve to live independent, self-determined lives." Under the executive order, state departments and agencies will enact "Employment First".

Michigan seeks to expand jobs for those with disabilities (AP)
Michigan Lt. Gov. Brian Calley has signed an executive order that's designed to bring increased job opportunities for people with disabilities. The order signed Wednesday establishes Employment First in Michigan and seeks to create competitive employment opportunities for people of working age.

Lt. Gov. Signs Order To Create Job Opportunities For The Disabled (WHMI)
A week after speaking in Livingston County on ways to assist the state's disabled workforce, Lt. Governor Brian Calley signed an executive order that will lead to more job opportunities for people with disabilities. The executive order establishes Employment First in Michigan, which helps build an inclusive work environment that creates employment opportunities for working-age individuals with disabilities.

Lt. Gov. Brian Calley signs executive order for workers with disabilities (Holland Sentinel)
Lt. Gov. Brian Calley, R-Michigan, recently signed Executive Order 2015-15, which aims to improve access to workplace support and services for people with disabilities.

Lt. Governor signs order to increase job opportunities for those with disabilities (MI 26 News)
Lieutenant Governor Brian Calley signed an executive order that hopes to increase job opportunities for Michiganders with disabilities on Thursday. The Order establishes Employment First in Michigan and helps foster an inclusive environment that will create competitive employment opportunities for working-age individuals.

DEPARTMENT NEWS

DNR
DNR's 'Novembeard' tourney promotes men's health (Mlive)
The Michigan Department of Natural Resources has brought the two together in a recent campaign to promote men's health issues.
The DNR launched a "Novembeard" tournament featuring 16 DNR employees from the Forest Resources, Fisheries, Wildlife and Parks and Recreation departments at the beginning of this month, said Maia Turek, DNR promotional specialist.

Grants available for trail work (AP)
State officials said a second round of grant funding is available for communities and organizations working on parts of Michigan's two Iron Belle Trail routes. The Michigan Department of Natural Resources said proposals are due Jan. 8.

DTMB
Michigan unemployment rate steady at 5 percent in October (AP)
The state says Michigan's seasonally adjusted unemployment is remaining steady. The Michigan Department of Technology, Management & Budget announced Wednesday that it was 5 percent in October, unchanged from September and equal to the national rate.

MDARD
Another credit card skimmer found at Mid-Michigan gas station (ABC 12)
Another credit card skimmer was found at a popular gas station in Mid Michigan.

MDE
New Michigan Science Standards adopted (Michigan State University Extension)
On November 10, 2015, the Michigan State Board of Education approved the new Michigan Science Standards, which are aligned with the Next Generation Science Standards. According to the Michigan Department of Education, "The effort to revise science standards comes from a vision for science education that is based on over thirty years of research on how students best learn science, as well as the ever changing needs in our workplaces and communities for scientific understanding."

MDOT
MDOT Awarded for Center Lane Rumble Strips (WDET)
The Michigan Department of Transportation's "Rumble Strip Initiative" has received a National Roadway Safety Award. The strips were placed under the center line of all non-freeway, high-speed, rural roads across the state to prevent accidents.

Southfield Freeway Pedestrian Bridge Complete (WDET)
A pedestrian bridge over the Southfield Freeway has reopened. The walkway at Cathedral Avenue was rebuilt after a truck pulled it down last year. Michigan Department of Transportation spokesperson Diane Cross says the overpass is now also compliant with the American with Disabilities Act.

MEDC
Micro-Grants Awarded to Michigan Businesses (WDET)
The Michigan Economic Development Corporation and Citizens Bank are awarding more than $175,000 through the "Growing Communities" initiative. Randall Fogelman is the Vice President of Business Development for Eastern Market Corporation. He says the grants serve entrepreneurs that would find it hard to secure a traditional loan.

Davison gets $155,556 state grant for downtown improvements (Mlive)
The city of Davison is receiving some help from the state to beautify storefronts in its in its downtown business area. State Rep. Pam Faris, D-Clio, announced Thursday, Nov. 19, the city has been awarded a $153,556 in community development block grant from the Michigan Economic Development Corp. for its façade project.

MPSC
Michigan Public Service Commission approves increased electricity rates at Consumers Energy (AP)
The Michigan Public Service Commission Thursday authorized Consumers to raise power rates by $130 million annually, effective Dec. 1, less than $199 million the utility sought.

MSP
No More 3 Member Concealed Weapons Licensing Board (WBKB)
Effective December 1st there will no longer be a three member Concealed Weapons Licensing Board and everything will be approved by the Michigan State Police. The County Clerk's Office will be accepting concealed pistol license applications, putting them in the portal and submitting the information to MSP in Lansing.

Changes coming to Michigan concealed pistol licenses (WBUP)
A state law effective on December 1st will eliminate county gun boards in the state of Michigan. While Michigan State Police has always been a part of the gun board in every county, the process will now go in its entirety to a new unit of 13 people in Lansing. Applicants should expect very few changes. The goal and intention is to provide consistency state–wide.

LEGISLATIVE NEWS

Cotter: Private cash would help Detroit school deal (Detroit News)
House Speaker Kevin Cotter said Thursday that an infusion of private cash into a rescue of Detroit Public Schools would make a $715 million plan to fix the district's balance sheets "more palatable" to wary lawmakers.

Cotter, panelists talk legitimizing ridesharing companies in Michigan (CM Life)
A panel hosted by Generation Opportunity Nov. 17 discussed ridesharing companies potentially running taxis out of business in Michigan. At the same time, lobbyists are attempting to run companies like Uber and Lyft out of the state.

DETROIT

Detroit Public Schools May Get Debt Relief From State Funds (WEMU)
Gov. Rick Snyder's proposal would tap the state's School Aid Fund to pay for the measure. School leaders outside Detroit have balked at that idea – saying the plan shouldn't come at the expense of every other Michigan student. But some say they could support the plan if it also protects that fund from being used for things other than K-12 education. "If the School Aid Fund isn't being diverted for universities, I would support," said Saginaw Intermediate School District Superintendent Kathy Stewart.

Detroit Council may crack down on booming pot industry (Freep)
The Detroit City Council is expected take up a second ordinance to regulate the city's booming medical marijuana industry on Tuesday, although final approval of the measure may not come until January.

Detroit's crackdown on garbage cans spurs $100 fines (Detroit News)
Leaving your garbage can in the wrong spot could cost you in Detroit. Residents in some city neighborhoods are crying foul over $100 fines being levied in an apparent effort to step up code enforcement.

Metro Airport shuttle service contract to be rebid (Detroit News)
Regional Transit Authority officials plan to rebid the express airport shuttle service from Detroit and the suburbs to Detroit Metropolitan Airport.

Buyer seeks $200M redevelopment of Lee Plaza (Detroit News)
The abandoned 17-story Lee Plaza Residential Hotel will be renovated into a building boasting around 200 units of luxury, market-rate apartments slated to open in fall 2017, according to buyer and Detroit native Craig Sasser.

Gilbert firm could buy parking garage for Hudson's site (Detroit News)
A city-owned parking garage could be acquired by a Dan Gilbert firm as part of a development deal for the former Hudson's site on Woodward.

OPINION

Snyder's political pandering on refugees shames us all (Detroit Free Press)
One of the worst things about terrorism is it works. Last week's deadly terrorist attacks in Paris did exactly what its perpetrators intended: killed innocent Parisians, surely, but caused people across the globe to worry that they'd be next, to fear sudden death or torment at the hands of anonymous, implacable attackers.

Grade retention harms students rather than helps them with reading proficiency (Mlive)
There is a reading crisis in the state of Michigan. Some studies have indicated that as few as 40 percent of our third-graders are proficient readers. While the Smart Promotion Bill (House Bill 4822) attempts to address this crisis, it is tragically flawed. This bill institutes mandatory retention for any third-grader who does not test proficient in reading.

Runestad: Give communities say on refugees resettlement (The Detroit News)
The heinous attack in Paris by Islamic State terrorists is an example of how this group of extremists continues to infiltrate peaceful communities worldwide and wreak havoc. As a result of the unprovoked attack by ISIS in France, many governors in America including Gov. Rick Snyder, suspended relocation of Syrian refugees to communities in their states. I commend Snyder for his decisive action to protect Michigan residents.

Finley: Hold a refugee summit in Michigan (The Detroit News)
Rather than allow the resettlement of Syrian refugees to fester into another divisive partisan issue, the nation's governors and the federal agencies involved should convene an emergency summit to discuss the concerns. Gov. Rick Snyder would be the perfect host.

Room for balance on 'dark stores' tax issue (The Detroit News)
Local governments across Michigan say they are losing millions of dollars in taxes and facing cuts in services because big box retailers such as Target and Home Depot are arguing a "dark store" theory of retail property assessment before the Michigan Tax Tribunal to cut their costs.

Howes: Memory, fantasy collide in UAW contract drama (The Detroit News)

What do you get when you combine short memories with social media? Answer: the trainwreck that is the United Auto Workers ratification votes this fall. Rarely in the course of this town's epic labor-management history have such objectively rich contracts encountered such stiff resistance.

Other States Divulge What Michigan's Corporate Welfare Arm Keeps Secret (Michigan Capitol Confidential)
The Michigan Economic Development Corporation — the state's corporate welfare arm — won't disclose the companies to which it hands out public money. In other states, this type of information is routinely made available, which strongly suggests the barriers to doing so in Michigan are strictly homegrown.

Amid Flint's water crisis, a quiet success story (Bridge Magazine)
Over the past year, as Detroit officials came under fire for fluctuating demolition costs and the Flint water contamination crisis was widely publicized, Flint has been making quiet progress on another front. The Genesee County Land Bank Authority has demolished more than 1,766 blighted houses in Flint since 2014 using federal grant money

Legislature must close 'dark stores' tax loophole (Bridge Magazine)
Michigan's local governments and schools are losing millions of dollars that otherwise would go to libraries, classrooms and police, fire and senior services through a gaping tax loophole large retailers across the state are quietly exploiting to lower their local property taxes.

GOVERNOR'S ACTIVITIES

Syrian refugees
Governor Who Started Stampede Against Refugees Says He Only Wants Answers (NPR)
Michigan's Rick Snyder was the first governor to urge a pause in admitting Syrian refugees into the United States. He triggered a national debate about refugee resettlement, and insists now that he only wants answers. The Republican has described himself as "the most pro-immigration governor in the country," but he argues the caution he wants the U.S. to show doesn't conflict with the compassion thinks should be shown to refugees.

Administration assures govs refugee vetting is rigorous (Detroit News)
The Obama administration is assuring governors that refugees who come to the United States in its resettlement program undergo a "rigorous security vetting process," particularly if they are fleeing from Syria.

Syrian refugee family arrives in Detroit area (Freep)
Three days after Gov. Rick Snyder called for a halt on new Syrian refugees, a Syrian couple and their 9-year-old son arrived Wednesday at Metro Airport from Jordan, said refugee advocate Rasha Basha of Bloomfield Hills.

Michael Moore: I'll house Syrian refugees in Traverse City (Freep)
Michigan documentary filmmaker Michael Moore and Gov. Rick Snyder's administration continue to spar over the issue of Syrian refugees.

Daimler/Detroit Diesel event
Daimler Trucks to invest $475M, add 330 jobs in Detroit (Freep)
"Michigan has long been the world's automotive leader and we are proud that Daimler will continue to play a big role in our state's reinvention moving forward," said Gov. Rick Snyder who unveiled one of the medium-duty engines by towing it with a cart as he drove in front of the crowd. "This is an investment in Detroit and the hardworking people of Michigan."

Daimler Trucks to invest $375 million for engine production (AP)
Daimler Trucks plans to invest $375 million to bring production of medium-duty engines to its manufacturing facility in the Detroit area.

Daimler to bring medium engine production to Detroit (Detroit News)
Former Detroit Red Wing and color commentator Mickey Redmond kicked off the "Built in Detroit" event Friday, welcoming Bernhard, Gov. Rick Snyder, Daimler Trucks North America CEO Martin Daum, Roger Penske and others.

Reaching the next milestone of its platform strategy: Daimler Trucks expands production of powertrain components in the US (Automotive World)
Under the theme "Built in Detroit", Michigan's Governor Rick Snyder and Daimler Trucks honored the production launch in the North American industrial metropolis. Daimler Trucks has invested $100 million in the new production of the DT12 automated manual transmission in Detroit. For this, Daimler Trucks is creating around 170 new jobs in the local area, making a major contribution to the revitalization of Detroit. For the development and production of the new DD5 and DD8 engines, Daimler Trucks will additionally invest over $375 million, creating approximately 160 more jobs locally.

Daimler Trucks Invests $375 Million To Expand Redford, Michigan, Assembly Plant (Area Development News)
Governor Rick Snyder said, "Michigan has long-been the world's automotive leader and we are proud that Daimler will continue to play a big role in our state's reinvention moving forward. This is an investment in Detroit and the hardworking people of Michigan."

Detroit schools reform
Skubick: Gov. Snyder changes proposal to revamp Detroit Public Schools (Fox 2 Detroit)
Governor Rick Snyder has made some major compromises on his plans to revamp the Detroit Public Schools. FOX 2's Political Correspondant Tim Skubick joins us with details.

Comms staff changes
Longtime journalist Meegan Holland to become Snyder's communications director (Crain's Detroit Business)
Longtime Michigan journalist Meegan Holland will become Gov. Rick Snyder's communications director next month. Current communications staff members Laura Biehl and Anna Heaton will become deputy press secretaries, Snyder said.

Flint water
Flint water mystery: How was decision made? (Freep)
On March 25, 2013, then-state Treasurer Andy Dillon and Gov. Rick Snyder's chief of staff, Dennis Muchmore, held a telephone conversation about "Flint water supply alternatives," according to records obtained by the Free Press under FOIA.

Bill signings
Fix for roads leads new bills signed into law by Snyder (Freep)
With the state Legislature on a two-week break for hunting season and Thanksgiving, there were no new bills introduced last week. But Gov. Rick Snyder signed 29 bills into law.

Energy plan
Energy efficiency in Michigan: what you need to know (AP)
A centerpiece of Gov. Rick Snyder's long-range energy plan derives from a simple premise — using less. How Michigan can best require or incentivize utilities and their customers to cut electricity and natural gas "waste" through efficiency programs is a big issue for lawmakers looking to rewrite energy laws, potentially yet this year.

LT. GOV'S ACTIVITIES

Michigan urged to overhaul Rx monitoring system (Detroit News)
Lt. Gov. Brian Calley, chairman of the governor's opioid task force, told The News that MAPS "needs to be updated or replaced in order to achieve its actual goals."

Lt. Gov. Calley Leads Mental-Health Conversation in Michigan (WDET)
Lieutenant Governor Brian Calley began his journey as an advocate for mental health issues in Michigan while he was a lawmaker in the state House. Now with the Snyder administration he has continued to lead the conversation about mental health in the state. Calley helped push for health coverage for autism treatment in Michigan, a subject he understands well as his young daughter has the condition.

DEPARTMENT NEWS

Budget
State workers hold steady in '15 budget (LSJ)
Despite a year of downer headlines, the budgetary bottom line for state workers held steady throughout Michigan's 2014-15 fiscal year, new data shows.

DEQ
Holland receives $500,000 grant to scope out storm sewers (Holland Sentinel)
The Michigan Department of Environmental Quality's Stormwater Asset Management and Wastewater program grant $450,000 with a $50,000 match.

Answers prompt more questions in Flint water crisis (Detroit Free Press)
The City of Flint, under the watchful eye of a state-appointed emergency manager, joined a new regional water authority in 2013, a decision that was supposed to save money.

DHHS
County receives $10K to help parents of special needs children (Midland Daily News)
Midland County Board of Commissioners approved a $10,000 grant from the Michigan Department of Health and Human Services to provide training services for parents of special needs children.

Henry Ford: Contract loss won't hurt growth (Crain's Detroit Business)
Executives of Henry Ford Health System told *Crain's* last week that the five-hospital system's growth plans will not be affected by the loss of a lucrative regional Medicaid contract by its HAP Midwest Health Plan.

MDARD
State inspectors find another credit card skimmer; here's how to stay safe (MLive)
Since late August, the Michigan Department of Agriculture and Rural Development has found 22 credit card skimmers in gas pumps around the state.
The most recent skimmer was found by agriculture department Weights and Measures inspectors at a gas station in Grand Blanc Township.

Detroit eyes adding livestock to urban farms (Detroit Free Press)
In Detroit, city laws technically don't allow for the raising of livestock. But Covington said his neighbors have never complained since he started raising some animals six years ago. It's complaints from neighbors that usually bring law enforcement.

Credit card skimmers a growing problem at gas pumps (The Detroit News)
It''s becoming clear the small electronic devices — called skimmers — that steal credit card information from consumers at gas pumps are a wider problem in Michigan than previously suspected.

Credit card thieves hit gas pumps with card skimmers across metro Detroit (WDIV)

Drivers in metro Detroit and across the state are getting ripped off at the pump... by credit card thieves. The state of Michigan has its first influx of credit card skimmers on gas pumps. There have been 22 cases since August. Scammers are unlocking gas pumps and are installing credit card skimmers from the inside.

Skimmer discovered, removed from pump (WNEM)
State inspectors discovered a skimmer at a local gas station. A skimmer is a device that collects credit card information for use by thieves.

Holiday feast can be treat for deadly bacteria, too. (Detroit Free Press)
It's that time of year for friends, feasts and — if you're not careful — doubled-over abdominal cramping, vomiting and a host of other agonies that come with food poisoning.

MDE
Bay City Academy charter school $1.3 million in debt, according to financial audit (MLive)
Bay City Academy, the embattled charter school that was tarnished earlier this year after its founder was convicted of tax fraud, is more than $1.3 million in debt, according to its latest financial audit.

MDOC
State's women inmates housed in offices, TV rooms (Freep)
The population of Women's Huron Valley Correctional Facility near Ypsilanti has jumped about 16%, from 1,900 in 2011 to about 2,200 this October, officials say. The department has responded by converting four former TV rooms to cell areas that now house a total of 56 prisoners, and 44 former offices that now house 306 inmates, spokesman Chris Gautz said.

MDOS
Lawsuit over Michigan IDs for transgender people moves forward (WKAR)
A group of transgender individuals is suing Michigan Secretary of State Ruth Johnson over how the state handles changing someone's sex on a driver's license or state ID. We talk to plaintiff Tina Seitz and Jay Kaplan, the staff attorney for ACLU Michigan's LGBT Project.

MDOT
Depot Town business owners to city: Think through Amtrak train stop plans (MLive)
Several Depot Town business owners and stakeholders are raising concerns over issues related to a proposed train stop in Ypsilanti. Those business owners said they weren't entirely confident in the city's ability to plan large projects and questioned where travelers using the train would leave their cars.

MDOT Offering Info On Plows Online (WSJM)
The Michigan Department of Transportation has equipped all their plow trucks with GPS and made it possible to track them at their website. You may be able to tell if they are plowing or spreading salt by using the site.

MSHDA
Buyer seeks $200M redevelopment of Lee Plaza (The Detroit News)
The abandoned 17-story Lee Plaza Residential Hotel will be renovated into a building boasting around 200 units of luxury, market-rate apartments slated to open in fall 2017, according to buyer and Detroit native Craig Sasser.

Two U.P. communities selected for blight elimination (ABC 10)
Over $83,000 in grant money will go toward blight elimination in Republic Township and the Village of Calumet. The grant comes from the Michigan State Housing Development Authority. The money allows for four and potentially five residential structures considered beyond repair to be demolished.

MSP
State Police accepting toys for Toys for Tots (Livingston Daily)

The Michigan State Police is once again working with the U.S. Marine Corps for the annual Toys for Tots toy drive throughout the state. Area residents are asked to drop off donated new, unwrapped toys at the post. Great gift ideas can include coloring books for small children and can range from Barbie dolls and baby dolls to electronic gadgets.

Concealed pistol permit changes (UP Matters.com)
Changes are coming for people who want to get a concealed pistol permit in Michigan. All of the local gun boards are being dissolved across the state. Delta County Clerk Nancy Kolich explains how the new procedure will work, starting December 1st.

Are Michigan roads any safer after 5 years of 'super drunk' law? (Mlive)
Alcohol-related crashes have gone down slightly across the state since implementation of the law, which imposes stiffer penalties on those caught driving with blood-alcohol levels above .17 percent than on those who have a lower percentage of alcohol in their system.

FAA OKs Michigan State Police aerial drone use (Detroit Free Press)
The Federal Aviation Administration has granted Michigan State Police permission to fly a drone anywhere in the state for law enforcement purposes. The FAA gave the greenlight after a two-day visit to Michigan last month to review the program and safety procedures.

Michigan State Police receive federal authorization to fly drones on law enforcement missions (MLive)
Michigan State Police have become one of the first law enforcement agencies in the nation to receive authorization from the Federal Aviation Authority to use unmanned aerial systems, commonly referred to as drones, in police operations.

Supreme Court
Sylvan Lake residents owe DTE Energy more than $400,000 after losing lawsuit over service center (WXYZ)
A group of neighbors took DTE Energy to court over what they say is excessive noise coming from a service center. The case has been in the court system for years and now, not only have they not gotten any relief from the noise, those neighbors are now facing hundreds of thousands of dollars in fines.

Supreme Court justice Zahra performs inauguration for Southgate officials (The News Herald)
It's the start of a new term for all of Southgate's elected offices, but not much has change. Phillip Rauch and Christopher Rollet are the only two new officials, but both have served multiple terms on the City Council in the past.

LEGISLATIVE NEWS

New Bill Would Repeal Michigan's "Stand Your Ground" Law (MPRN)
A Democratic state Senator hopes to repeal Michigan's "stand-your-ground" law. Under that law, a person can use deadly force against someone else with no requirement to retreat. That's as long as the person isn't engaged in a crime, is somewhere they're legally allowed to be, and feels deadly force is the only way to defend themselves.

Michigan Roll Call: New legislation of interest (Holland Sentinel)
The Legislature is on a two-weeks break with no voting. Therefore, this report contains several recently introduced bills of interest.

Glenn wants to free market your electric bill (Midland Daily News)
Recently State Rep. Gary Glenn hosted his very first monthly Town Hall meeting in the community room at the Grace A Dow Library. The incumbent state representative for Michigan's 98th House district informed approximately two dozen attendees he plans to hold similar community get-togethers on the first Monday of every month. At least, that is, until the election next November.

DETROIT

Detroit casinos, unions report progress in talks (The Detroit News)
The Detroit casinos and their unions reported making progress this week in contract talks as they searched for ways to cut health costs without significantly affecting employees' insurance coverage. Negotiations between the Detroit Casino Council, the umbrella organization for four employee unions, and MGM Grand, MotorCity and Greektown casinos had bogged down over health care costs.

Detroit's Blight Problem...and Solutions (WDET)
Mayor Mike Duggan has made blight removal one of his top priorities since taking office. Before he was elected, the city was tearing down about 25 vacant houses a week—a faster pace than any city in the nation, but not fast enough for Duggan. Duggan says they realized that ramping up demolition would drive up costs. And it has—from an average of $10,000 per house to more than $14,000, according to the mayor's office. A recent Detroit Free Press analysis pegged the cost at more than $16,000 per demolition.

Detroit eyes adding livestock to urban farms (Detroit Free Press)
Detroit city officials are working on at least one ordinance that would allow some residents and urban farmers to raise egg-laying chickens, ducks, rabbits and goats legally. Few details about the effort are finalized — Tate said the council may vote on the issue by March. But the goal is to allow homeowners and urban farmers to raise their own livestock safely while also making sure that neighbors aren't upset.

Tommy Hearns eyes Packard site for new gym (Freep)
A most unlikely duo bumped fists and dreamed big last week at the Packard Plant in Detroit. Boxing champ Tommy (Hitman) Hearns (61-5-1 with 48 knockouts) visited the old factory site to meet with Fernando Palazuelo, the charismatic Spaniard who bought the property two years ago and is attempting an ambitious redevelopment.

Unique yoga program helps Detroit kids manage stress (Freep)
When Taurean Camel is feeling mad or worried, he knows exactly what to do: strike a yoga pose. "I just breathe in and breathe out, slowly," the 9-year-old said, "and all the stress and negativity just comes out of my system."

MISCELLANEOUS

U-M economists predict Michigan will add 126,000 jobs in the next 2 years (Mlive)
The state of Michigan has added roughly 460,000 jobs since 2009, when the state began to recover from the economic depression of 2008, and that trend of adding jobs will continue to trend upward.

GOP hopeful Kasich plans visit to Sterling Heights (Detroit News)
Ohio Gov. John Kasich is returning to Michigan Monday for a business incubator tour in Macomb County, according to his campaign, as well as a fundraiser in downtown Detroit.

OPINION

Editorial: FDA right to approve 'frankenfish' (Detroit News)
The left prides itself on its allegiance to science — until it bumps against its own superstitions and political agenda. Take, for example, genetically modified salmon, which got the Obama administration's stamp of approval last week.

Column: Terrorism is common enemy, not refugees (Detroit News)
The rise of terrorism as a global challenge and universal threat to all free and peace-loving people and the shared values they hold is not new. A few factors contributed to the escalation of this scourge, such as wars, sectarian divide, poverty, despair, hopelessness, etc. It appears in the midst of other ongoing problems. There are festering problems in Syria and Iraq that are breeding grounds for terrorism and are inspiring terrorism everywhere.

Letter: State needs child abuse registry (Detroit News)

Re: The Detroit News' Nov. 18 editorial, "Reject short-sighted child abuse list bills": As sponsors of Wyatt's Law, which creates a child abuse registry to protect children, we felt the need to respond and clarify what this bill package actually does.

Erickson: Get rid of policing for profit in Michigan (Detroit News)
Without so much as charging someone with a crime, Michigan law enforcement agencies can use civil forfeiture to seize property and then fund themselves with the proceeds. A reform package signed last month by Gov. Rick Snyder is a step in the right direction, but Michigan's civil forfeiture laws still need serious improvement. Even after reform, its laws only scored a "D-" in Policing for Profit, a new report from the Institute for Justice.

Cities show state's problem with cost vs. value (Detroit Free Press)
State government tells cities in Michigan that they'd better balance their budgets, keep debt under control and not promise more to retirees than can be paid.

Answers prompt more questions in flint water crisis (Detroit Free Press)
Figuring out what happened in the City of Flint — how hundreds of kids were exposed to lead-contaminated water — is like playing accountability whack-a-mole: Answer one question, and another pops up.

Snyder's political pandering on refugees shames us all (Detroit Free Press)
One of the worst things about terrorism is it works. Last week's deadly terrorist attacks in Paris did exactly what its perpetrators intended: killed innocent Parisians, surely, but caused people across the globe to worry that they'd be next, to fear sudden death or torment at the hands of anonymous, implacable attackers.

On Snyder and refugees, GOP contest, Hoekstra keeps a hand in politics (MLive)
Not much has changed since the last time Pete Hoekstra crossed paths with the Capitol scribes.

Will Snyder hand off his legacy to Calley? Can't rule it out (MLive)
Everybody sing along: 'Tis the season for spec-u-la-tion, fa, la, la, la, la, la, la, la, la.

Subject: MSP/EMHSD Media Monitoring Report - Nov. 19, 2015
Attachments: Media Monitoring - 2015.11.19.pdf

MEDIA MONITORING REPORT

11/19/2015

Issues:

- No issues to report.

Summary:

- Over the next three days, Southeast Michigan is going to slowly descend from sunny skies and unseasonably warm temperatures into a rainy/snowy weekend.
- A wind advisory is in effect for the second half of the day in the Muskegon area, and snow could be on its way.
- Winter storm watches are posted in parts of five Midwest states as the first accumulating snow of the season for some in the Upper Midwest, Corn Belt, and Great Lakes will put an exclamation mark on a week of change in the weather pattern.
- A sexual discrimination complaint has been filed against Genesee County Sheriff Robert Pickell by the head of the sheriff's homeland security office.
- A mock active shooting training exercise last year at Romeo High School may have been the tipping point for identifying shortcomings with Macomb County's emergency communications system.
- Efforts are taking place to help deal with damage that remains from August 2014 flooding in Detroit.
- Gov. Rick Snyder announced that the state of Michigan has retained its accreditation by the Emergency Management Accreditation Program. This national accreditation reaffirms the ability of state government to prepare for and respond to all types of emergencies and disasters.
- The Belgian jihadi suspected of masterminding deadly attacks in Paris died along with his cousin in a police raid on a suburban apartment building, officials said Thursday.
- At least three dozen people in the United States suspected of ties to the Islamic State were under heavy electronic or physical surveillance even before the Paris attacks, senior American officials say.
- Governor Rick Snyder was the first governor in the nation to speak out on refugees following last week's terrorist attacks in Paris and Beirut. And he may have come to regret it as he tries to clarify his position vis a vis what a lot of the nation's other Republican governors are saying about refugees and immigration.
- Oakland County Executive L. Brooks Patterson has stepped into the Syrian refugee debate by urging Pontiac Mayor Deirdre Waterman to discontinue her support of housing Syrian refugees in Pontiac.
- A Republican legislator is renewing a push to lift Wisconsin's moratorium on new nuclear power plants, saying the state's manufacturers must have a reliable source of energy as burning fossil fuels grows more expensive.

- Leaders from the Flint area want stronger regulation of public drinking water systems to avoid more problems such as the lead contamination that has plagued the Michigan city.
- Elected officials and activists have delivered the story of Flint's lead in water crisis in person to the federal government, testifying Wednesday, Nov. 18, before a U.S. EPA advisory council.

Analysis:

- Media coverage is neutral.
- Snow is looking more and more likely this weekend. Confidence is great about having snow; however, the amount is uncertain at this time. Forecasts are ranging from 1 to 6 inches.
- Will continue to monitor the evolving weather conditions.

MICHIGAN WEATHER

Up to 6 inches of snow on way as Michigan's temps cool

The Detroit News, Nov. 19, 2015

Over the next three days, the metro area is going to slowly descend from sunny skies and unseasonably warm temperatures into a rainy/snowy weekend.

"Things are going to be turning cooler starting Thursday night into Friday," meteorologist Sara Schultz said. "Thursday will be pretty nice with highs in the lower 50s, but temperatures will begin to drop at night. On Thursday, we can also expect a little wind with gusts as high as the lower 30s."

Friday is expected to be dry with a high temperature in the low 40s while the nighttime low will be around 30 degrees.

"We have the potential for snow starting Friday night into Saturday," Schultz said. "We have a chance of one or two inches in the metro area, but it will most likely be rain mixed with snow."

Wild weather on its way with high winds, waves then snow predicted

MLive-Muskegon, Nov. 19, 2015

MUSKEGON, MI – A wind advisory is in effect for the second half of the day in the Muskegon area, and snow could be on its way.

The National Weather Service advisory, in effect from noon to midnight Thursday, Nov. 19, calls for wind gusts up to 50 mph, particularly along the lake. A gale warning is in effect for Lake Michigan, with waves expected to be 6 to 10 feet Thursday night.

Then on Friday, a storm system possibly bringing up to 9 inches of snow, will move into the area and linger through Wednesday, according to a hazardous weather outlook statement from the Weather Service.

First Snow of Season Ahead in Parts of the Midwest, Including Chicago, Detroit, Milwaukee; Winter Storm Watches Issued

Weather Channel, Nov. 19, 2015

Winter storm watches are posted in parts of five Midwest states as the first accumulating snow of the season for some in the Upper Midwest, Corn Belt, and Great Lakes will put an exclamation mark on a week of change in the weather pattern.

A swath from northeast Nebraska and southeast South Dakota into Iowa, southern Wisconsin and northern Illinois is covered by winter storm watches issued by local National Weather Service offices. In the much of the Upper Midwest, this means a potential for at least 6 inches of snow in 12 hours, or 8 inches of snow in 24 hours.

EMERGENCY MANAGEMENT AND HOMELAND SECURITY

County homeland security head files sexual discrimination claim against sheriff

MLive-Flint, Nov. 18, 2015

GENESEE COUNTY, MI – A sexual discrimination complaint has been filed against Genesee County Sheriff Robert Pickell by the head of the sheriff's homeland security office.

enifier Boyer filed a complaint against Pickell Nov. 13 claiming sexual discrimination at the workplace.

Boyer's attorney, Glen Lenhoff who is speaking on her behalf, declined to detail specifics of the complaint. The Flint Journal through the Freedom of Information Act has requested a copy of the complaint.

"Jenifier Boyer is a very honorable and highly educated woman," Lenhoff said. "Her sex discrimination complaint against Mr. Pickell must be taken very serious by the Genesee County commissioners. A complaint and un-biased investigation must be completed immediately. She is the highest female managerial person in the whole department."

Macomb County in Michigan Gets $10 Million Plan to Beef up Police Communications

Detroit Free Press, Nov.17, 2015

A mock active shooting training exercise last year at Romeo High School may have been the tipping point for identifying shortcomings with Macomb County's emergency communications system.

Officials were trying to show what the new communications center filled with video screens and dispatchers can do by infiltrating camera systems in local schools. Those watching at the communications center in Mt. Clemens could see what was happening live as the SWAT exercise unfolded, but they couldn't talk with the officers inside the school.

"Had it been real, it would have been disastrous," County Executive Mark Hackel said Thursday. "We need to enhance this. It enhances everyone's ability to communicate with each other."

Volunteer effort seeks to deal with 2014 flood damage

Associated Press, Nov. 17, 2015

DETROIT (AP) - Efforts are taking place to help deal with damage that remains from August 2014 flooding in Detroit.

The city says about 3,000 families still are living in homes damaged by the flooding despite more than $60 million in Federal Emergency Management Agency funds being distributed for city residents. Millions more has been made available in southeast Michigan.

A group called All Hands Volunteers, in partnership with Northwest Detroit Flood Recovery Project and United Methodist Committee on Relief, will be working to clean up at least 100 homes between Thursday and Dec. 1. The partnership is called All Hands On Detroit.

Those organizing the effort are seeking volunteers. Organizers will provide training and necessary safety equipment. Signup details are online.

State retains emergency management accreditation

Hillsdale Daily News, Nov. 18, 2015

Gov. Rick Snyder today announced that the state of Michigan has retained its accreditation by the Emergency Management Accreditation Program. This national accreditation reaffirms the ability of state government to prepare for and respond to all types of emergencies and disasters.

"The state of Michigan continues to be a national emergency management and homeland security leader," Snyder said. "In Michigan, we are committed to having a system in place that ensures our residents are prepared for all hazards, whether natural or human-made. I commend the Michigan State Police and the other state departments for their dedication and commitment in this arena."

PARIS ATTACKS

Suspected mastermind of Paris attacks killed

Associated Press, Nov. 19, 2015

Paris — The Belgian jihadi suspected of masterminding deadly attacks in Paris died along with his cousin in a police raid on a suburban apartment building, officials said Thursday.

Paris Prosecutor Francois Molins' office said 27-year-old Abdelhamid Abaaoud was identified based on skin samples, but authorities did not know how he died. His body was found in the apartment building targeted in the chaotic and bloody raid in the Paris suburb of Saint-Denis on Wednesday.

Three police officials say a woman who died in the raid was Abaaoud's cousin. One said Hasna Aitboulahcen is believed to have detonated a suicide vest after a brief conversation with police officers.

The official confirmed an audio recording, punctuated by gunshots, in which an officer asks: "Where is your boyfriend?" and she responded angrily: "He's not my boyfriend!" Then loud bangs are heard.

The exact relationship between Abaaoud and Aitboulahcen was not clear.

U.S. Investigators Struggle to Track Homegrown ISIS Suspects

New York Times, Nov. 19, 2015
